Electric Co., River Rd., Schenectady, $5577; J. Livingston & Co., Grand Central Terminal, New York City, $7640. Noted May 15.

★Bituminous Material—St. George, S. I., N. Y.—C. D. Van Name, pres. Richmond Boro., let contract furnishing and delivering in tank cars at any railroad station in borough, 65,000 gal. bituminous material for road surfacing, to Barrett Mfg. Co., 17 Battery Pl., New York City, $5200. Noted May 22.

★Laundry Machinery—Wards Island, N. Y.—State Hospital Comn., Capitol, Albany, let contract for laundry machinery and motors at Manhattan State Hospital, here, to J. Livingston & Co., Inc., 70 East 45th St., New York City, $11,950. Noted May 29.

★Fence—Camden, N. J.—Fairview Realty Co., Fairview Ave. and Bway., let contract building 80,000 ft. fence, concrete posts, 2 strand and 1 strand wire pump chain, to J. S. Rogers Co., Drexel Bldg., Phila. About $25,000.

★Bunker—Newark, N.. J.—Pub. Serv. Elec Co., Terminal Bldg., will build 48 x 90 ft. extension to bunker at Point-No-Point power plant, here. About $150,000. Work will be done by day labor.

★Road Machinery—Harrisburg, Pa.—State Highway Comn., Harrisburg, let contracts furnishing (a) 7 rollers, (b) 13 rollers, (c) 10 rollers, (d) 8 traction engines, (e) 2 traction engines, (f) 2 traction engines, (g) 6 crushers, (h) 2 crushers, (i) 4 crushers, (j) 10 sprinklers, (k) 10 sprinklers, (l) 6 gasoline pumps, (m) 6 street sweepers, (n) 12 asphalt heating kettles, (o) 6 air drills, (p) 6 compressors, (q) 6 chip distributors, to Good Roads Mchy. Co., Kennett Square, (a) $29,050, (f) $4905, (i) $10,632, (k) $4620; Buffalo Springfield Roller Co., Springfield, Ill., (b) $58,500; Austin Western Road Machy. Co., 910 South Michigan Ave., Chicago, (c) $42,150; Galion Iron Wks. & Mfg. Co., Telephone Bldg., (d) $16,885, (g) $12,750; Acme Road Machy Co., 120 Liberty St., New York City, (e) $3752, (h) $5085, (j) $3940; Central Constr. Co., Commonwealth Trust Bldg., (l) $1220; C. Evans Co. Inc., (m) $1800, (q) $2700; Penn Fdry. & Mfg. Co., Wyomissing, (n) $227; J. J. Shannon & Co., 1744 Market St., Phila., (o) $660; C. D. Schramm & Son, 709 Arch St., Phila., (p) $2277. Noted May 8.

WATER SYSTEM—NEWARK, N. Y.

Bids were received by City, June 2, for constructing gravity water supply system, Div. No. 1, earthen dam and dykes, from (A) Lupfer & Remick, Ellicott Sq., Buffalo; (B) Brown, Low & Low Bros.; (C) Foundation Co., 233 B'way., New York City; (D) E. W. Foley Co., $70,880; Div. No. 2, mechanical filtration plant, awarded to Norwood Eng. Co., $24,960; Div. No. 3, laying Bell and Spigot cast iron pipe, (A) J. F. Leary Constr. Co., Cutler Bldg., Rochester; (B) Foundation Co., 233 B'way., New York City; (C) Bruno Pizzementi; (D) Tifft Constr. Co., $46,458 and $40,694; Div. No. 4, furnishing Bell and Spigot cast iron pipe, (A) U. S. Cast Iron Pipe & Foundry Co., 71 B'way., New York City; (B) Warren Fdry. & Machine Co., 11 B'way., New York City; (C) Camden Iron Works., Camden, N. J.; (D) John Fox & Co., 253 B'way., New York City. The unit bids of the lowest 3 bidders were as follows:

DIVISION 1

	A	B	C
Clearing and grubbing (lump sum):			
2,300 cu.yd. earth excavation core wall and pipe trenches	$1.40	$1.00	$1.25
28,600 cu.yd. embankment in dam and dikes	1.00	.80	.55
4,200 sq.yd. riprap			
100 sq.yd. cobble gutter	1.35	1.00	1.40
200 cu.yd. class "A" concrete	1.20	1.50	1.75
475 cu.yd. class "B" concrete	12.90	14.00	17.65
2,450 cu.yd. class "C" concrete	14.50	12.00	20.50
300 lin.ft. laying 14-in. cast iron	7.00	11.00	11.50
4 (pipe) valves 14-in. hauling and setting in place	6.00	25.00	13.00
6 14-in. flanged special castings hauling and setting in place	12.00	25.00	13.00
1 setting valve stem and wheel	12.00	10.00	13.00
1,200 lb. miscellaneous steel ladder, reinforcing steel, etc.	.20	.10	.10
900 lin.ft. 10-in. vitrified tile pipe furnished in place	1.20	2.50	.60
50 lin.ft. 4-in. vitrified tile pipe furnished in place	.90	.80	.20
1 wooden rack furnished in place	25.00	15.00	18.50
1 hauling and setting 14-in. fish trap	12.00	20.00	13.50
Extended totals	$66,918	$68,425	$69,067

DIVISION 3

	A	B	C
38,350 lin.ft. hauling and laying 14-in. cast iron pipe	$0.70	$0.88	$0.89
120 lin.ft. hauling and laying 6-in. cast iron pipe	.50	.80	.60
6 hauling and setting 14-in. valves	20.00	13.00	25.00
5 hauling and setting 6-in. valves	15.00	13.00	10.00
5 hauling and setting 1-in. air valves	5.00	2.65	5.00
400 ft. creek crossing	10.00	10.70	25.00
Extended totals	$31,125	$38,280	$44,429
Alternate bids Universal pipe	$31,125	$24,474	$37,130

DIVISION 4

	A	B	C
200 ton 14-in. class "B" cast iron pipe	$48.40	$49.50	$51.10
1550 ton 14-in. class "A" cast iron pipe	49.40	50.50	51.60
2 ton 6-in. class "A" cast iron pipe	49.40	54.00	51.60
1,600 lb. flanged special castings	.07½	.07½	.06½
6,000 lb. bell and spigot (8,000) special castings	.05½	.06	.06¼
1 14-in. flanged fish trap	110.00	110.00	50.00
Extended totals	$86,909	$88,873	$90,832

Alternate bid Universal Pipe, Central Fdry Co., 90 West St., N. Y. City, $115,707.

Prices bid at Newark, N. Y., on June 2, on a $300,000 gravity water supply system were notably low, as shown by the above tabulation. With gravel available at the site of the Newark dam, the corewall concrete is particularly cheap as to cost. The plans were prepared by James P. Wells, Rochester, N. Y.

★Crushed Stone, etc.—Pittsburgh, Pa.—Allegheny Co. let contracts furnishing 50,000 tons crushed stone, 2 mechanical unloaders and 2 street sweepers, to J. M. McGuire, Westinghouse Bldg.; Clydesdale Brick Co., Oliver Bldg.; Booth & Flynn, 1942 Forbes St.; H. J. Orth, Hotel Henry; Hillside Stone Co., Farmers' Bank Bldg., and Pennsylvania Lime and Ballast Co., Noted May 22.

Retaining Wall — Detroit, Mich. — See "Bridges.'

★Paving Blocks—Minneapolis, Minn.—City let contract furnishing 100,000 sq.yd. 3½ in. yellow pine creosoted paving blocks, to Republic Creosoting Co., 1614 Merchants Bank Bldg., Indianapolis, Ind., $2.10½ per sq.yd. Noted May 15

★Lighting System—Mandan, N. D.—City let contract furnishing and installing ornamental street lighting system on 77 blocks, to M. S. Hyland, 1114 8th Ave., Fargo. About $38,000. Noted May 1.

★Dry Kiln—St. Louis, Mo.—St. Louis Mfg. Corp., 5401 Bulwer Ave., let contract building 1 story, 84 x 443 ft. dry kiln, at 5479-5511 Natural Bridge Ave., to H. Haeseler Bldg. and Constr. Co., 621 Wainwright Bldg., $100,977.

★Dam and Canal—Gila Bend, Ariz.—Gila Water Co., c/o F. A. Gillespie, Tulsa, Okla., let contract building rein.-con. multiple arch diversion dam, 1680 ft. long, 20 ft. high with concrete pile foundation and concrete apron, 100 ft. long and 2 ft. thick, two 8 x 15 ft. sluice gates, requiring about 30,000 cu.yd. rein.-con., also restoring main canal, to Sherer & Crowley, 607 Pacific Electric Bldg., Los Angeles. About $695,000. Contractor sublet contract for dam and headgate both to cost $650,000, to W. Ledbetter & Co., engrs., Pacific Electric Bldg., Los Angeles. Owners will furnish all cement for project and also construct distribution system to supply irrigation water to about 72,000 acres of land.

Ferry Dock—Seattle, Wash.—Comrs. King Co. received bids building Vashon Heights ferry dock and landing, creosoted piling, from J. A. McEachern Co., Bell St. Dock, $23,400; C. C. Snyder Co., Pacific Blk., $24,768; P. Manson, 2407 Boylston St., $25,578. Noted May 15.

★Road Oil—Los Angeles, Cal.—City let contract furnishing 81% road oil to oil heating plant, for year ending July 1, to C. C. Harris Oil Co., 701 College St., $12.65 per ton. Noted May 29.

★Dock—Winehaven, Cal.—Richmond Belt Line Co., Richmond, let contract building addition and repairs to dock here, to J. D. Hannah, 142 Sansome St., San Francisco, $120,000.

★Road Oil—Winnipeg, Man.—City let contract furnishing 5 to 10 tank cars of road oil of 40% and 60% asphaltic base, to Imperial Oil Co., Ltd., 56 Church St., Toronto, Ont., $12.85 per gal. Noted Apr. 3.

Ossining, N. Y.

CONSTRUCTION WORK—**Mess Hall and** Kitchen Building (No. 4); Detention Building (No. 5); Outside Cell Building (No. 7); Clinic Building (No. 8); and Pump House and Reservoir;

HEATING WORK—Mess Hall and Kitchen Building (No. 4); Detention Building (No. 5); Outside Cell Building (No. 7); and Clinic Building (No. 8);

SANITARY WORK—Mess Hall and Kitchen Building (No. 4); Detention Building (No. 5); Outside Cell Building (No 7); and Clinic Building (No. 8);

ELECTRIC WORK—**Mess Hall and Kitchen Building (No. 4); Detention Building (No. 5); Outside Cell Building (No. 7); and Clinic Building (No. 8);**

NEW BOILERS—Two new 400 Hp. Water Tube Boilers,

at Sing Sing Prison, Ossining, N. Y., will be received by Hon. Chas. F. Rattigan, Superintendent of State Prisons, Room 618, Hall of Records Building, Centre and Chambers Streets, New York City, until 2:30 o'clock P.M., on Tuesday, June 24, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent. (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3229, 3230, 3231, 3232, 3233, 3220, 3223, 3226, 3252, 3221, 3224, 3227, 3222, 3225 and 3228. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the office of the Warden of Sing Sing Prison, Ossining, N. Y.; at Room 618, Hall of Records, New York City, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

Dated: **May 14, 1919.**

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

Bids: June 17.

Highway Work

OFFICE OF THE STATE COMMISSION OF HIGHWAYS, ALBANY, N. Y.

Albany, N. Y.

Sealed proposals will be received by the undersigned at their office, No. 55 Lancaster Street, Albany, N. Y., at one o'clock P.M., on Tuesday, June 17, 1919, for the improvement of the following highways:

CHENANGO—Three highways: 4.78, 5.57, 5.87.

ERIE—One highway: 5.78.

ESSEX—Two highways: 8.85, 1.09.

FULTON—Three highways: 2.80, 4.90, 1.06.

ONONDAGA—Two highways: 7.45, 3.75.

RENSSELAER—Two highways: 1.44, 4.95.

ALSO FOR THE COMPLETION OF THE FOLLOWING HIGHWAYS:

BROOME—One highway: 4.70.

CATTARAUGUS—One highway: 2.17.

NASSAU—One highway: 1.57.

AND ALSO FOR THE REPAIR OF THE FOLLOWING HIGHWAYS:

FULTON—One contract, reconstruction.

HERKIMER—One contract, resurfacing.

MONROE—Two contracts, resurfacing.

MONTGOMERY—One contract, reconstruction.

ONEIDA—One contract, timber crib-stone fill.

WESTCHESTER — One contract, reconstruction.

Maps, plans, specifications and estimates may be seen and proposal forms obtained at the office of the Commission in Albany, N. Y., and also at the office of the division engineers in whose division the roads to be improved are located. The addresses of the division engineers and the counties of which they are in charge will be furnished upon request.

The especial attention of bidders is called to "General Information for Bidders" on the itemized proposal, specifications and contract agreement.

FREDERICK STUART GREENE,
Commissioner.

R. K. FULLER, Secretary.

OFFICIAL PROPOSALS

Bids: June 16.

Road Work

WASHINGTON COUNTY ROAD DISTRICT NO. 2

Fayetteville, Arkansas.

Sealed bids will be received at the office of the Secretary, W. J. Reynolds, at Fayetteville, Arkansas, until 4 P.M., June 16, 1919, and will then be publicly opened and read. The work contemplated is the building of 52.00 miles of limestone macadam and 2 miles of bituminous macadam road, through the towns of Winslow, Fayetteville, and Goshen, Arkansas. Separate bids will be received on the steel bridges and the culvert tile. The item, hauling and placing tile will be included in the general bids, however. Bids will be compared upon a basis of the Engineers' estimate, copies of which may be obtained free of cost from the Engineers or the Secretary.

Plans and specifications are on file at the office of the State Highway Department, Little Rock, Ark.; at the office of the Secretary, J. W. Reynolds, Fayetteville, Arkansas, and at the office of the Engineers, Fayetteville, Ark.

Bids must be accompanied by a certified check, payable to the order of the Secretary of the District, in the sum of 5% of the amount of the bid. A construction bond of 25% of the contract will be required of the successful bidders. The right is reserved to reject any or all bids.

Board of Commissioners Washington County Road District No. 2.

C. W. APPLEBY, President.
W. J. REYNOLDS, Secretary.
J. V. WALKER, Attorney.
Fayetteville, Ark.

HAMILTON & SHREVE, Engineers,
Fayetteville, Ark.

Bids: July 9.

Classification and Appraisal of Lands

Shelby, Montana.

Sealed bids are called for by the Board of County Commissioner, Toole County, Montana, for the classification and appraisal of all lands in Toole County, comprising approximately fifty-four and one-half townships.

Specifications for said work can be had upon application to the County Clerk, Shelby, Montana. Bids to be in by 2 o'clock P.M., July 9, 1919, at which time they will be publicly opened.

The Board reserves the right to reject any or all bids.

By Order of the Board of County Commissioners Toole County, Montana.

H. E. MOODY, Clerk.

U. S. ENGINEER OFFICE, Pittsburgh, Pa.—Sealed proposals will be received at the U. S. Engineer Office, Pittsburgh, Pa., until 12 noon (Eastern time), July 7, 1919, and then opened, for constructing locks and fixed dams in the Ohio River, near Emsworth, Pa. Further information on application.

D. C., Anacostia—Earth Fill—Bureau Yards & Docks, Navy Dept., Wash., D. C., received bids June 11, building earth fill, here, from Scheer & Deckelbaum, 1359 H St., N. E., $1 per cu.yd (50 days); Vinson Constr. Co., 1709 2nd St., N. W., $1.34 (55 days); G. Hyman, 1116 Morse St., N. E., $1.69 (30 days). Contractors all of Wash., D. C. Noted June 6.

D. C., Wash.—Laboratory—U. S. Constr. Quartermaster, War College, received bids June 9, building 2 story photographic laboratory, here, from E. Diebitsch, 383 Madison Ave., New York City, $60,994, (100 days); Weller Constr. Co., 816 14th St., $65,893, (160 days); Piel Constr. Co., 2519 Edmonston Ave., Baltimore, Md. $68,750 (120 days). Noted June 5.

★**D. C., Wash.** — Partitions — Bureau Yards & Docks, Navy Dept., Wash., D. C., let contract building partitions in machine shop here, to A. C. Moses & Co., 916 New York Ave., $42,500 (75 days). Noted June 12.

Va., Hampton Roads—Electric Distributing System—Bureau Yards & Docks, Navy Dept., Wash., D. C., received bids June 11, installing at Submarine Base, here, (1) work complete, from Hetzel & Buleah, 373 4th Ave., New York City, (1) $48,813, (120 days), (2) $130, (3) $2.50, (4) $.07; Carroll Electric Co., 714 12th St., Wash., D. C., (1) $54,500, (120 days), (2) $200, (3) $2.40, (5) $.12; J. Livingston & Co., Grand Central Terminal, New York City, (1) $55,000, (90 days), (2) $225, (3) $6.10, (4) $.09. Noted May 29.

★**Va., Hampton Roads**—Electric Freight Elevator—Bureau Yards & Docks, Navy Dept., Wash., D. C., let contract installing here, to Kaestner & Hect Co., 500 South Throop St., Chicago, Ill., $112,644 (150 days). Noted June 12.

★**Va., Hampton Roads**—Revolving Platform—Bureau Yards & Docks, Navy Dept., Wash., D. C., let contract building revolving platform at Air Sta., here, to Mansfield & Savage, 135 William St., New York City, $11,131, (60 days). Noted June 12.

★**Va., Hampton Roads**—Steel Water Tank and Tower—Bureau Yards & Docks, Navy Dept., Wash., D. C., let contract erecting one 150,000 gal. steel water tank and tower, to Pittsburgh Des Moines Steel Co., 959 Munsey Bldg., Wash., D. C., $11,580, (120 days). Noted June 5.

Va., Quantico—Tank—Bureau Yards & Docks, Navy Dept., Wash., D. C., received bids June 11, building 20,000 gal. elevated steel tank, at Marine Barracks, here, (1) work complete, from Mansfield & Savage, 135 William St., New York City, (2) $5539, (45 days); Pittsburgh Des Moines Steel Co., 595 Munsey Bldg., Wash., D. C., (1) $6060, (75 days), (2), $5580, (75 days). Noted June 5.

S. C., Charleston—Boilers and Superheaters—Bureau Yards & Docks, Navy Dept., Wash., D. C., received bids furnishing and installing at Navy Yard, here, from Heine Safety Boiler Co., 1120 Pennsylvania Bldg., Wash., D. C., $42,850, (140 days); Edgemoor Iron Co., Edgemoor, Del., (1) $45,217, (120 days); J. L. Skeldon Eng Co., 242 Water St., Toledo, O., $51,922.

★**S. C., Charleston**—Roof Decks—Bureau Yards & Docks, Navy Dept., Wash., D. C., let contract building gypsum roof decks, to Keystone Gypsum Fireproofing Corp., 47 West 34th St.; (a) $168,500, (82 days); H W. Johns-Manville Co., 296 Madison Ave., (b) $65,191, (90 days). Both contractors of New York City.

O., Cincinnati—Boiler—J. A. Wetmore, superv. archt., treas. dept., Wash., D. C., received only bid June 16, installing boiler in post office and customhouse, here, from Heine Safety Boiler Co., 5319 Marcus St., St. Louis, Mo., $39,930 (195 days). Noted May 29.

Ill., Cairo—Boiler — J. A. Wetmore, superv. archt., treas. dept., Wash., D. C., received bids June 16, furnishing and installing boiler in post office, here, from La Hue Bros., Cairo, Ill., $1775 (70 days); W. Wilby, Selma, Ala., $2299 (Oct. 1); C. J. Gleason, Augusta, Ga., $2595 (Oct. 1). Noted May 29.

★**Kan., Eldorado** — Post Office — J. A. Wetmore, superv. archt., treas. dept., Wash., D. C., let contract building here, to Henry & Hatfield Constr. Co., 102 South Meridian St., Indianapolis, Ind., $68,233. Noted June 5.

S. D., Deadwood—Bureau Pub. Rds., Denver, Colo., received bids grading 7.78 mi. Deadwood-Hot Springs Rd., Lawrence Co., from Parrish & Mattson, $36,365; Anderson Constr. Co., $38,592; both contractors of Rapid City.

★**Tex., Denton**—Post Office—J. A. Wetmore, superv. archt., treas. dept., Wash., D. C., let contract building post office, here, to Cooper & Lund, Inc., 142 Market St., Newark, N. J., $63,426. Noted June 12.

Colorado—Road Work — Bureau Pub. Rds., Denver, received bids May 26, grading 12.3 mi. Monarch Pass-East Side Rd., involving 44 acres clearing and grubbing, 61,166 cu.yd. earth and 11,826 cu.yd. rock excav., from Nelson & Co., 2240 Market St., $76,017; W. O. Morrison, $111,865. Both contractors of Denver.

Colo., Denver—Boilers—J. A. Wetmore, superv. archt., treas. dept., Wash., D. C., received bids June 9, installing 2 boilers in custom house, here, from C. J. Gleason, Augusta, Ga., $5675, (90 days); W. Wilby, Selma, Ala., $6495, (Oct. 1); J. F. Pfiefer, 1140 California St., $7150 (60 days). Noted May 29.

Ariz., Sacaton—Dam and Bridge—U. S. Indian Serv., 528 Federal Bldg., Los Angeles, Cal., received bids June 2, building rein.-con. diversion dam and bridge on Gila River, (Government furnishing cement reinforcing steel, piles, gates and machinery), from Burton & Dillon, 620 Security Bldg., Los Angeles, Cal., $300,385; Ambursen Co., 61 Bway., New York City, percentage basis or lump sum, amount to be fixed later. Noted May 1.

★**Cal., Yreka**—Road Work—B. J. Finch, dist. engr., U. S. Forest Serv., Mills Bldg., San Francisco, let contract building 15 mi. road from Happy Camp to point near Crawford Creek, Siskiyou Co., to W. A. Bechtel, 625 Market St., San Francisco. About $235,000. Noted May 15.

Miscellaneous

PROPOSED WORK

Pier—Fall River, Mass.—State Comn. on Waterways, State House, Boston, plans to build pier here. About $300,000. J. N. Poole, chn.

Oil Tank—Apponaugh, R. I.—Apponaugh Co. soon lets contract building rein.-con oil tank, 150,000 gal. capacity. W. B. Lewis, Grosvenor Bldg., Providence, engr.

Miscellaneous (Continued)

Memorial Arch — Providence, R. I. — Brown University, College St., had plans prepared by Coolidge & Shattuck, archts., Ames Bldg., Boston, Mass., for memorial arch gateway with columns and bronze tablets on college campus. About $45,000.

River Terminal—Rahway, N. J.—City plans to build river terminal on Rahway River, to include cold storage warehouses, sheds, railways, tracks, etc. About $2,400,000. H. McL. Harding, 52 Vanderbilt Ave., New York City, engr.

Transmission Line—Yorkhaven, Pa.—Yorkhaven Water & Power Co. employed engineer to prepare plans for 23 mi. transmission line to run from here to point in Lebanon Co., near Lebanon. A. Delano, engr.

Pier, etc.—Gulfport, Fla.—Pinellas Co. plans to build 500 ft. pier, yacht basin and commercial dock.

PRICES AND CONTRACTS AWARDED

(★Indicates award of contract)

N. J., Jersey City—Dredging—Pennsylvania R. R., Pennsylvania Sta., New York City, let contract dredging between Piers F and G, to Morris & Cummings Dredging Co., 17 State St., New York City, dredging and legally disposing of material, $0.477 per cu.yd., labor 10%, material 10%, and subcontract 2½%, dredging with 8-yd. bucket including fire, $1000.

Mich., Lansing—See "Streets and Roads."

Industrial Works

PROPOSED WORK

Me., Sanford—Sanford Mills, c/o Lockwood-Greene Co., archts. and engrs., 101 Park Ave., New York City, having plans prepared for two 1 story rein.-con. and steel dye houses, rein.-con. flooring, concrete foundation. About $200,000.

Mass., Boston—Noyes Buick Co., 17 Lawton St., having plans repared by A. H. Bowditch, 44 Broomfield St., for superstructure of 5 story, 200 x 375 ft. rein.-con. storage and sales building, rein.-con. flooring, concrete foundation, on Commonwealth St. Contract for foundation awarded, to C. Gow Co., 166 Devonshire St.

Mass., Fitchburg—Crocker, Burbank & Co., Inc., 545 Westminster St., soon receives bids building 2 story, 60 x 200 ft. brick and steel addition to factory, concrete foundation, on Westminster St. About $100,000.

Mass., Holyoke—G. Haarmann & Co., Inc., Commerce St., plans to build new plant. About $60,000. Architect not selected.

Mass., New Bedford—Natl. Sponge Silk Co., c/o Lockwood-Greene Co., archts. and engrs., 101 Park Ave., New York City, having plans prepared building 4 story, 120 x 400 ft., rein.-con. and steel factory, rein.-con. flooring, concrete foundation, here. About $750,000.

Mass., Worcester — Walden-Worcester, Inc., 72 Commercial St., soon receives bids building 4 story, 56 x 400 ft. brick factory, concrete foundation, on Shrewsbury St. About $200,000.

Conn., Ansonia—H. C. Cook Co., Beaver St., having plans prepared by Fletcher-Thompson Inc., engrs., 1089 Broad St., Bridgeport, for 1 story, 60 x 250 ft. brick and concrete addition to factory, rein.-con. flooring, concrete foundation. About $40,000.

Conn., Bridgeport—J. W. Skinner, archt., 1188 Main St., soon receives bids building 2 story, 45 x 85 ft. factory and 2 story, 38 x 70 ft. office and storage building, brick, concrete foundation, on Water St., for J. D. Johnson Co., 54 Cliff St., New York City.

Conn., Bristol—A. R. Ellis, archt., 36 Pearl St., Hartford, soon receives bids building 3 story, 32 x 190 ft., brick and mill construction factory, concrete foundation. About $50,000. Owner's name withheld.

Industrial Works (Continued)

Conn., Hartford—Chamber of Commerce, 252 Asylum St., is back of project to build community industrial building to house smaller industries who cannot secure funds to build themselves. About $150,000. S. Ferguson, chn.

Conn., Jewett City—Fletcher-Thompson Inc., engrs., 1089 Broad St., Bridgeport, soon receive bids building 1 story, 60 x 100 ft. bleach house, 1 story, 24 x 24 ft. mill and 1 story, 20 x 24 ft. office, brick and mill construction, concrete flooring, concrete foundation, for Jewett City Textile Novelty Co. About $30,000.

Conn., New Haven—F. E. Fowler Co., 238 State St., having plans prepared by C. F. Townsend, archt., 185 Church St., altering and building 2 story, brick and steel addition to present plant, rein.-con. flooring, concrete foundation, on State and Crown Sts. About $60,000.

N. Y., Albany—G. H. Thacher, Thacher and Learned Sts., soon receives bids for machine shop and foundry, on Learned St. About $50,000.

N. Y., Attica—J. A. Berk, Vermillion, O., purchased Attica Mills, on Main St., here, and plans to alter and enlarge plant, mill construction. About $35,000.

N. Y., Brooklyn—Zipkes, Wolff & Kudroff, archts., 25 West 42nd St., preparing plans for 2 story, 100 x 125 ft. brick, steel and mill construction factory, rein.-con. flooring, brick foundation, on North Portland Ave. About $75,000. Owner's name withheld.

N. Y., Buffalo—Rogers-Brown Iron Co., Erie Co. Bank Bldg., soon lets contract building 1 and 2 story, 66 x 262 ft., rein.-con. machine shop, rein.-con. flooring, concrete foundation, on Hamburg Turnpike. About $75,000.

N. Y., Buffalo—Quayle Garage Co., Main and Rodney Sts., soon receives bids for brick garage. About $40,000.

N. Y., Buffalo—G. M. Wolfe, archt., 131 Norwalk Ave., soon receives bids building 7 story, 75 x 150 ft. rein.-con. warehouse, rein.-con. flooring, concrete foundation, on Main St., for Cold Springs Storage Co., Main St. About $300,000.

N. Y., Carthage—C. J. Reeder, H. I. Starkweather, C. H. Lovejoy, F. P. Wilder, and others, all of Carthage, plans to incorporate and build brick garage. About $40,000. Address H. I. Starkweather, 16 Front St.

N. Y., Jamestown—Jamestown Panel Co., 34 Steele St., soon receives bids building 4 story, 40 x 129 ft. mill construction factory, on Lakeview Ave. About $50,000.

N. Y., Jamestown—Union Furniture Co., 234 Crescent St., soon receives bids building 5 story, 59 x 300 ft., mill construction factory. About $175,000. C. E. Nord, c/o owner, archt.

N. Y., Ogdensburg—See "Miscellaneous."

N. J., Jersey City—Eastern States Refrigerating Co., 147 16th St., plans to build 7-story, concrete and brick plant, on Provost St. Cost to exceed $150,000.

N. J., Jersey City—Novelty Candy Co., Claremont Ave., plans to build 6 story factory. Cost to exceed $100,000.

Pa., Bangor—Zipkes, Wolff & Kudroff, archts., 25 West 42nd St., New York City, soon let contract building 2½ story, 50 x 100 ft., brick and steel factory, rein.-con. flooring, concrete foundation, here. About $80,000. Owner's name withheld. Noted June 12.

Pa., Chester—Huber Baking Co., 9th and Union Sts., having plans prepared by Austin Co., engrs., Bulletin Bldg., Phila., for 1 story, 50 x 100 ft. and 2 story, 60 x 100 ft. bakery. About $100,000.

Pa., Phila.—T. T. Uezell, archt., 117 Walnut St., soon lets contract building 2 story, 13 x 72 ft. brick storage plant on Venango St. near Warnock St., for McCray & Hunter, 3525 Germantown Ave.

Pa., Phila.—Windsor Mfg. Co., 4060 Orchard St., having plans prepared by M. W. Easby, archt., 1420 Chestnut St., building 63 x 250 ft. factory of brick and slow-burning construction, on Butler and Jasper St.

Pa., Pittsburgh—Campbell-Neidringhaus Tire Serv. Co., Baum Blvd. and St. Clair St., plans to build 2 story, 75 x 100 ft., rein.-con. and steel garage and sales building, rein.-con. flooring, concrete foundation, on Baum Blvd. About $75,000. Architect not selected.

Md., Baltimore—Canton Air Brake Co., 563 Calvert Bldg., having plans prepared by R. Schoenwetter, engr., c/o company, and C. A. Zarobsky, engr., 563 Calvert Bldg., for first unit of plant, consisting of 2 story, 60 x 200 ft., rein.-con. machine shop, 24,000 sq.ft. floor space and concrete foundation, on Wilkens Ave. near Pennsylvania R. R. crossing. About $80,000. Noted Mar. 6.

Md., Baltimore—H. Corry and M. Goldstein, 145 West Hamburg St., plan to build 1 story, 46 x 155 ft., concrete and brick garage, cement concrete flooring, brick and concrete foundation, on Race and Cross Sts. About $50,000. J. C. Spedden, 2715 Harlem Ave., archt.

W. Va., Huntington—E. E. and H. D. Brinker plan to build 3 story (ultimately 7 story), brick and rein.-con. storage plant, rein.-con. flooring, concrete foundation, on 7th Ave. About $80,000.

N. C., Gastonia—C. L. Craig plans to build 2 story, 50 x 200 ft. brick garage, concrete flooring, on Ainline Ave. C. C. Wilson, 804 Palmetto Bldg., Columbia, S. C., archt.

La., St. Landry—W. E. Caldwell Co., Brook and D Sts., Louisville, Ky., plans to build 30,000 to 35.000 cut band saw mill here.

Ky., Louisville—Amer. Storage Warehouse Co., Louisville Trust Bldg., plans to build warehouse. About $400,000. B. B. Davie, Starks Bldg., archt.

O., Cleveland — Euclid Chester Co., Guardian Bldg., plans to build 2 story, 100 x 112 ft., rein.-con., steel and brick warehouse, at 2900 Chester Ave. About $100,000. Architect not selected.

SEARCHLIGHT SECTION

PROPOSALS

Bids: Jan. 7.

Canal Improvements

STATE OF NEW YORK, OFFICE OF SUPERINTENDENT OF PUBLIC WORKS

Albany, December 6th, 1918.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, January 7th, 1919, at which place and hour they will be publicly opened and read, for improving the New York State canals pursuant to the provisions of Chapter 147 of the Laws of 1903, and of the acts amendatory thereof and supplementary thereto, and Chapter 570 of the Laws of 1915, as follows:

—1—

CONTRACT NO. 191.

Erie Canal—Section 9.

For excavating the canal channel in the Genesee river south of the temporary dam near Elmwood avenue bridge.

Length about 0.62 mile. Sheets 1 to 5 inclusive.

—2—

CONTRACT NO. 192. (Readvertisement)

Erie Canal—Section 9.

For completing the canal from the east guard-lock to the Genesee river, and the work in Genesee Valley park.

Sheets 1 to 28, inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bond required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y.; at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y.; at the office of the Assistant Superintendent of Public Works for the Western Division, at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

Official Proposals

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

PROPOSALS

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work, according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds, co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned the interests of the state will be enhanced thereby.

W. W. WOTHERSPOON,
Superintendent of Public Works.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., December 23, 1918.—Sealed Proposals will be opened in this office at 3 p. m., January 23, 1919, for the construction of the United States Post Office at Russellville, Ark. Drawings and specifications may be obtained from the custodian of the site at Russellville, Ark., or at this office, in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

PROPOSALS

Bids: Jan. 22.

Reinforced Concrete Bridge

Ft. Smith, Arkansas.

Sealed proposal for the construction of a reinforced concrete arch bridge and approaches thereto, across the Arkansas River at Garrison Avenue, Ft. Smith, Arkansas, will be received until two o'clock P.M. of Wednesday, January twenty second, 1919, by the Commissioners of the Sebastian Bridge District, at the office of the District in Ft. Smith, Arkansas.

A certified check for an amount equal to not less than five per cent. (5%) of the amount of the bid, drawn on a responsible bank in the city of Ft. Smith, to the order of the Commissioners of the Sebastian Bridge District, must be filed with each bid.

Plans and specifications are now on file in the office of the Commissioners of the Sebastian Bridge District, and in the office of Hedrick & Hedrick, Consulting Engineers, 506 Interstate Building, Kansas City, Missouri. All parties desiring to bid upon the work may obtain complete plans and specifications by applying to the Consulting Engineers named above.

The following are the approximate quantities of the principal items included in the work.

Concrete	20,000	cubic yards
Reinforcing steel ...	1,550,000	pounds
Wood block or asphalt pavement..	8,276	square yards
Miscellaneous metal	25,000	pounds
Earth embankment.	22,000	cubic yards

The Commissioners reserve the right to reject any or all bids. Final action on the bids will be taken by the Commissioners within fifteen days after the opening of said bids.

By order of the Commissioners, Sebastian Bridge District, Ft. Smith, Arkansas.

By ROY M. JOHNSTON, Secretary.
Dec. 21, 1918.

Bids: Jan. 6.

Canal Improvements

STATE OF NEW YORK, OFFICE OF SUPERINTENDENT OF PUBLIC WORKS

Albany, N. Y.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, January 14th, 1919, at which place and hour they will be publicly opened and read, for improving the Cayuga and Seneca canal pursuant to the provisions of Chapter 391 of the Laws of 1909, and Chapter 147 of the Laws of 1903, and amendatory laws, and for improving the New York State canals pursuant to the provisions of Chapter 147 of the Laws of 1903, and of the acts amendatory thereof and supplementary thereto, and Chapter 570 of the Laws of 1915, as follows:

—1—

CONTRACT "T"

Cayuga and Seneca Canal—Section 1.

For extending the core wall and other work at the north end of Dam No. 2, Seneca Falls.

Sheets 1 and 2.

—2—

CONTRACT NO. 197.

Erie Canal—Section No. 2.

For drilling holes in the sill of the dam and the toe of the river wall of the lock, near Rotterdam, and making necessary repairs.

Sheets 1 and 2.

And for the construction of Barge canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

—3—

TERMINAL CONTRACT NO. 102.

For furnishing and installing two three-ton electric semiportal revolving jib cranes on Pier 6, East river, New York City.

Contract plans, sheets 1 to 17 inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank (or trust company in the case of terminal contract, in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner in the judgment of the undersigned, the interests of the state will be enhanced thereby.

W. W. WOTHERSPOON,
Superintendent of Public Works.

Get Your Wants into the Searchlight

ADVERTISING RATES

Ads Set in Uniform Style

(Solid, in one paragraph, without display.)

THREE CENTS A WORD, minimum charge 50 cents an insertion, payable in advance, less 10 per cent. if one payment is made in advance for four continuous insertions—for advertisements under:

Positions Wanted
Evening Work Wanted
Vacation Work Wanted
Tutoring
Salesman Wants Connections

FIVE CENTS A WORD, minimum charge $1.50 an insertion, for advertisement under:

Agencies Wanted
Agents Wanted
Business Opportunities
Desk Room for Rent
Educational
Employment Agencies
Desk Room Wanted
Foreign Business
Positions Vacant
Partner Wanted
Representations Wanted
Salesmen Wanted
Patents for Sale
Plants for Sale
Sub-Contracts Wanted
Work Wanted
Miscellaneous for Sale, for Rent or Want Ads.

THIRTY CENTS A LINE, minimum five lines, for all undisplayed advertisements set with a paragraph for each item or tabulated.

THREE DOLLARS AND SIXTY CENTS AN INCH for advertisements for bids (Official Proposals).

Ads Set in Display Type

(Individual space, within border rules.)

Space for these advertisements is sold by the inch. Each page contains 30 inches. The rate per inch is based on the *total* number of inches to be used—that is, the number of inches the advertisement is to occupy multiplied by the number of insertions it is to receive. For instance, a 2-inch advertisement in 2 issues earns the 4-inch rate of $3.90 an inch. A 1-inch space in 4 issues, or a 4-inch space in one issue, also earn the 4-inch rate.

SCHEDULE OF RATES

1 to 3 in., $4.00 an in.
4 to 7 in., 3.90 an in.
8 to 14 in., 3.80 an in.
15 to 26 in., $3.70 an in.
27 to 49 in., 3.60 an in.
50 to 99 in., 3.50 an in.

Rates for larger space furnished on request.

For quick and satisfactory results tell the reader everything that he will want to know.

INFORMATION

ALLOW FIVE WORDS for the address if replies are to a box number in care of any of our offices. There is no extra charge for forwarding replies.

IN REPLYING TO ADS, do not enclose original testimonials or anything that you may want returned. State your experience and qualifications in as concise and neat a manner as possible and enclose copies of your testimonials.

BE CAREFUL TO PUT ON ENVELOPE, when answering any "blind," ad, the box number in the ad, the name of the paper, and also the local address of office to which reply is sent:

36th St., at 10th Ave.,	New York
1570 Old Colony Bldg.,	Chicago
657 Leader-News Bldg.,	Cleveland
935 Real Estate Trust Bldg.,	Philadelphia
501 Rialto Bldg.,	San Francisco
519 Newhouse Bldg.,	Salt Lake City

WHEN ADVERTISING MACHINERY, use your own name and address—or a local address of some kind—so that the readers can wire direct and get quick replies. We advise also that you state in your advertisement the present location of plant that is offered for sale, or point of delivery provided you are in the market for equipment.

TO SIGN YOUR NAME and address to your advertisement begets the confidence of the reader and facilitates receiving replies. You can, however, obviate delay in receiving answers by signing your ad. only with initials (your own or others), care of your home, your office or a post-office box number in your city.

WANTED

CHIEF ENGINEER

Bids: Jan. 22.

Reinforced Concrete Bridge

Ft. Smith, Arkansas.

Sealed proposal for the construction of a reinforced concrete arch bridge and approaches thereto, across the Arkansas River at Garrison Avenue, Ft. Smith, Arkansas, will be received until two o'clock P.M. of Wednesday, January twenty second, 1919, by the Commissioners of the Sebastian Bridge District, at the office of the District in Ft. Smith, Arkansas.

A certified check for an amount equal to not less than five per cent. (5%) of the amount of the bid, drawn on a responsible bank in the city of Ft. Smith, to the order of the Commissioners of the Sebastian Bridge District, must be filed with each bid.

Plans and specifications are now on file in the office of the Commissioners of the Sebastian Bridge District, and in the office of Hedrick & Hedrick, Consulting Engineers, 506 Interstate Building, Kansas City, Missouri. All parties desiring to bid upon the work may obtain complete plans and specifications by applying to the Consulting Engineers named above.

The following are the approximate quantities of the principal items included in the work.

Concrete	20,000 cubic yards
Reinforcing steel ...	1,550,000 pounds
Wood block or asphalt pavement..	8,270 square yards
Miscellaneous metal	25,000 pounds
Earth embankment.	22,000 cubic yards

The Commissioners reserve the right to reject any or all bids. Final action on the bids will be taken by the Commissioners within fifteen days after the opening of said bids.

By order of the Commissioners, Sebastian Bridge District, Ft. Smith, Arkansas.

By ROY M. JOHNSTON, Secretary.

Dec. 21, 1918.

Bids: Feb. 3.

Reinforced Concrete Bridge

Arcadia, Fla.

Sealed proposals on blank form furnished by the Board and addressed to the Board of County Commissioners of De Soto County, Fla., at Arcadia, Fla., will be received until 12 o'clock M. of February 3rd, 1919, for furnishing material, equipment, labor and constructing in Charlotte Harbor Special Road and Bridge District of De Soto County, across Charlotte Harbor, between the towns of Charlotte Harbor and Punta Gorda, the following:

Approximately 3000 lineal feet of reinforced concrete bridge; rubbing and finishing 1400 lineal feet of reinforced bridge, now partially constructed, and completing causeway construction, now partially completed.

Bridge to be monolithic beam and slab structure supported on concrete piles, and causeway to be hydraulic fill protected by reinforced concrete sheet piling.

Each bid is to be accompanied by a certified check, made payable to the Chairman of the Board for two thousand dollars.

The right is reserved to reject any and all bids.

Plans and specifications can be seen at the office of the County Clerk at Arcadia, Fla., and specifications can be obtained by writing the engineer at Box 421, Atlanta, Ga.

A. L. DURRANCE, Clerk.
Arcadia, Fla.

E. V. CAMP, Engineer,
Box 421, Atlanta, Ga.

Bids: Feb. 19.

Smith's Cove Improvement

Port of Seattle, Wash.

Notice is hereby given that the Port Commission of the Port of Seattle, State of Washington, will receive sealed proposals up to 2:00 o'clock, February 19, 1919, at its office, Bell Street Warehouse, at the foot of Bell Street, Seattle, Washington, for the furnishing and installation of a Gantry Crane, Smith's Cove Improvement, Pier "B," all of said material to be furnished in accordance with the specifications and plans for the same, now on file in the office of the said Port Commission, which said specifications and plans are now subject to public inspection.

Bidders are invited to submit alternative bids upon designs of their own for accomplishing the purpose of the specifications and plans prepared by the said Port Commission.

Each bid must be accompanied by a certified check payable to the order of the Port Commission of the Port of Seattle for a sum not less than five per cent. of the amount of bid.

The Port Commission reserves the right to reject any and all bids.

Dated at Seattle, Washington, this 18th day of December, 1918.

PORT COMMISSION OF THE PORT OF SEATTLE
By T. S. LIPPY, Secretary.

PROPOSALS FOR TURBINES, PUMP SET, FEED WATER HEATER, AND ELECTRIC LIGHT PLANT.—Office, Mississippi River Commission, 1st and 2nd Districts, Custom House, Memphis, Tenn. Sealed proposals will be received here until 11 a.m., Feb. 4, 1919, and then opened, for furnishing turbines, pump set, feed water heater, and electric light plant, for hydraulic grader No. 1820. Further information on application.

Bids: Jan. 21.

Road Work

STREET DEPARTMENT

Charleston, S. C., Dec. 28, 1918.

Sealed proposals will be received by the undersigned until six o'clock P.M., Tuesday, January 21, 1919, for 20,000 sq.yd. more or less of sheet asphalt pavement. The right is reserved to reject any or all bids. For specifications and other information address,

Profitable Proposal Advertising

THE readers of ENGINEERING NEWS-RECORD are the active, progressive engineers and contractors of the civil engineering and contracting field. They look to this paper for information as to new projects and the development of established properties, from the time a bond issue or improvement is talked about until the work is completed.

Money can be saved by getting these men to figure on new work. Advertisements for bids published in ENGINEERING NEWS-RECORD secure maximum competition—the most bidding by the best bidders.

No work is too small, none too large, to be beyond the money-saving quality-insuring influence of NEWS-RECORD Proposal advertising. Cost is only $3.60 an inch.

Proposal ads invariably save large sums on contract prices.

Plans and specifications for work advertised in the Engineering News-Record may be filed without extra expense at our New York, Philadelphia, Cleveland, Chicago or San Francisco offices for the convenience of prospective bidders.

Profitable Proposal Advertising

THE readers of ENGINEERING NEWS-RECORD are the active, progressive engineers and contractors of the civil engineering and contracting field. They look to this paper for information as to new projects and the development of established properties, from the time a bond issue or improvement is talked about until the work is completed.

Money can be saved by getting these men to figure on new work. Advertisements for bids published in ENGINEERING NEWS-RECORD secure maximum competition—the most bidding by the best bidders.

No work is too small, none too large, to be beyond the money-saving quality-insuring influence of NEWS-RECORD Proposal advertising. Cost is only $3.60 an inch.

Proposal ads invariably save large sums on contract prices.

Plans and specifications for work advertised in the Engineering News-Record may be filed without extra expense at our New York, Philadelphia, Cleveland, Chicago or San Francisco offices for the convenience of prospective bidders.

POSITIONS VACANT

BOILER room foreman wanted, also refrigeration foreman, for medium-sized packing house in Middle West. P-316, Eng. News-Record.

BRIDGE designer, experienced in both steel and reinforced concrete, for preparation of standard and special designs; permanent work; salary, $150 per month. Submit detailed statement of education and experience, age, nationality, time you can report, and sample of your drafting. Missouri State Highway Department, Jefferson City, Mo.

CIVIL engineer-draftsman wanted, experienced in municipal engineering, waterworks and sewer design. Position offers advancement. Apply to B. M. Hart, City Engineer, Oklahoma City, Okla.

COMPETENT chemist wanted; one thoroughly familiar with the distillation of tar oils. State experience and salary desired. The Jennison-Wright Company, Toledo, Ohio.

DRAFTSMAN with electrolytic experience. Give age, experience, salary, and when possible to report. Location, Chicago district. P-315, Eng. News-Record, Chicago.

DRAFTSMEN and detailers wanted on fabricated steel hulls. Address P-373, Engineering News-Record.

EXPERIENCED structural draftsmen and checkers. Apply stating experience, education, and salary expected. Whitehead & Kales Iron Works, Detroit, Mich.

HIGH GRADE master mechanic wanted for medium sized Meat Packing Plant. Address P-819, Eng. News-Record, Chicago.

INDUSTRIAL concern has opening for a technically trained engineer with construction experience and executive ability; headquarters, New York City. State briefly complete details of training, experience, age, salary, etc., in original application. P-317, Eng. News-Record.

MECHANICAL engineer to fill position as estimator and correspondent in New York sales office handling all types of pumping equipment, condensers, feed water heaters, etc. Write stating experience, age and salary expected to P-314, Eng. News-Record.

RAILROAD engineer experienced on construction to act as assistant pilot on valuation, Eastern district. State education, experience, salary expected and when available. 127 E. Baltimore St., Baltimore, Md.

SUPERINTENDENT or assistant superintendent wanted, who has had cement mill and quarry experience to take charge of a large lime and stone crushing plant. Must be a hustler and good practical man, able to handle several hundred men. Splendid opening for the right man, with an excellent future. Man with cement mill experience preferred. State fully previous experience, reason for desiring change, and salary expected. P-223, Eng. News-Record, Philadelphia.

TECHNICAL writer in civil engineering subjects, in Eastern city. Ability to write clearly, and several years' experience in steel and reinforced concrete construction essential. Position permanent for one who can qualify. State education, experience and initial salary expected. P-255, Eng. News-Record.

TRACK body or trailer, designer wanted; Watson, Canastota, N. Y.

EMPLOYMENT AGENCIES

TEACHERS wanted. The Interstate Teachers' Agency, Macheca Bldg., New Orleans, La., recommends teachers in all departments of engineering for college and university positions. Special terms offered.

EMPLOYMENT AGENCIES

THE ENGINEERING AGENCY, established 1893, is an employment bureau for high grade executives in engineering, manufacturing and construction work. Full particulars furnished on request. Address 1662 Monadnock Bldg., Chicago.

Employment Service

THE undersigned provides a confidential service designed to locate openings through correspondence for men earning not less than $2,500 and up to $25,000, all lines. Not an employment agency but a constructive, initiative service, covering individual negotiations. Established 1910. Complete privacy assured; present connections in no way jeopardized. Send name and address only for explanatory details. R. W. Bixby, T64-66 Niagara St., Buffalo, New York.

POSITIONS WANTED

Mechanical and Electrical

ARMY officer, electrical engineer, desires civilian connection, seven years' broad experience, testing, appraisal, engineering, purchasing. PW-405, Eng. News-Record, Phila.

ASSISTANT mechanical engineer, married, 24 years old, college education, experienced in plant construction, inspection, design of special machinery, etc., desires position with well established company. Will consider any location in U. S. PW-363, Eng. News-Record.

ELECTRICAL engineer, familiar with erection and operation of power plants, industrial installations, electrical and mechanical transmission of power, cable and signal work, capable of handling men, will shortly be available for a position requiring an aggressive, competent and experienced executive. PW-157, Eng. News-Record.

MECHANICAL engineer (38); technical school and 15 years' experience, mainly mill engineering, including buildings. Can design important work. PW-782, Eng. News-Record.

MECHANICAL engineer, all branches with good concern permanently desired; near New York; salary not less than $50 per week; active experience over 20 years, covering construction, machinery installation and can handle men. PW-392, Eng. News-Record.

MECHANICAL, industrial engineer, practical and technical education; aged 32; married; American; now holding responsible position with large corporation, good organizer and systematizer, experienced in reviewing of tenders and writing of specifications, extensive experience in plant layout, conveying and transmission machinery and general heavy machine design. PROPOSALS

Bids: Jan. 22.

Reinforced Concrete Bridge

Ft. Smith, Arkansas.

Sealed proposal for the construction of a reinforced concrete arch bridge and approaches thereto, across the Arkansas River at Garrison Avenue, Ft. Smith, Arkansas, will be received until two o'clock P.M. of Wednesday, January twenty second, 1919, by the Commissioners of the Sebastian Bridge District, at the office of the District in Ft. Smith, Arkansas.

A certified check for an amount equal to not less than five per cent. (5%) of the amount of the bid, drawn on a responsible bank in the city of Ft. Smith, to the order of the Commissioners of the Sebastian Bridge District, must be filed with each bid.

Plans and specifications are now on file in the office of the Commissioners of the Sebastian Bridge District, and in the office of Hedrick & Hedrick, Consulting Engineers, 506 Interstate Building, Kansas City, Missouri. All parties desiring to bid upon the work may obtain complete plans and specifications by applying to the Consulting Engineers named above.

The following are the approximate quantities of the principal items included in the work.

Concrete	20,000 cubic yards
Reinforcing steel ...	1,550,000 pounds
Wood block or asphalt pavement..	8,270 square yards
Miscellaneous metal	25,000 pounds
Earth embankment.	22,000 cubic yards

The Commissioners reserve the right to reject any or all bids. Final action on the bids will be taken by the Commissioners within fifteen days after the opening of said bids.

By order of the Commissioners, Sebastian Bridge District, Ft. Smith, Arkansas.

By ROY M. JOHNSTON, Secretary.
Dec. 21, 1918.

Farm Grading and Drainage

New York City.

Bids invited on the development of one thousand acres of former rice field in South Carolina. The spoil banks of recently completed drainage canals are to be removed and spoil deposited in abandoned open ditches, also old rice field banks are to be cut down and spoil used to fill old ditches. After land has been graded, it is to be tile drained. A keystone steam shovel, half mile of portable track, dump cars and Buckeye Tile Ditching Machine now on job for contractor's use.

Bid to be on cubic yard basis for moving spoil and banks and per lineal foot basis for laying tile.

Only thoroughly reliable contractors who are experienced in this class of work will be considered, which experience outline fully when writing. Write,

G. C. BURLINGAME,
150 Nassau Street,
New York City.

PROPOSALS FOR BOILERS.—Office. Mississippi River Commission, 1st and 2d Districts, Custom House, Memphis, Tenn. Sealed proposalsw ill be received here until 11 a.m. Feb. 4, 1919, and then opened, for furnishing Boilers for hydraulic grader No. 1820. Further information on application.

Official Proposals

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

PROPOSALS

Bids: Feb. 19.

Smith's Cove Improvement

Port of Seattle, Wash.

Notice is hereby given that the Port Commission of the Port of Seattle, State of Washington, will receive sealed proposals up to 2:00 o'clock, February 19, 1919, at its office, Bell Street Warehouse, at the foot of Bell Street, Seattle, Washington, for the furnishing and installation of a Gantry Crane, Smith's Cove Improvement, Pier "B," all of said material to be furnished in accordance with the specifications and plans for the same, now on file in the office of the said Port Commission, which said specifications and plans are now subject to public inspection.

Bidders are invited to submit alternative bids upon designs of their own for accomplishing the purpose of the specifications and plans prepared by the said Port Commission.

Each bid must be accompanied by a certified check payable to the order of the Port Commission of the Port of Seattle for a sum not less than five per cent. of the amount of bid.

The Port Commission reserves the right to reject any and all bids.

Dated at Seattle, Washington, this 18th day of December, 1918.

PORT COMMISSION OF THE PORT OF SEATTLE
By T. S. LIPPY, Secretary.

OFFICE OF THE COMMISSIONERS, Washington, D. C.—Sealed proposals will be received at the office of the Secretary to the Board of Commissioners, Room 511, District Building, until 2 o'clock P.M., February 11, 1919, for constructing a concrete encased steel plate girder bridge in the line of South Dakota Avenue crossing the tracks of the Baltimore & Ohio R.R. Company. Forms of Proposals, Specifications, and necessary information may be obtained from the Chief Clerk of the Engineering Department, Room 427, District Building, Washington, D. C. Louis Brownlow, W. Gwynn Gardiner, C. W. Kutz, Commissioners, D. C.

PROPOSALS

Bids: Feb. 3.

Reinforced Concrete Bridge

Arcadia, Fla.

Sealed proposals on blank form furnished by the Board and addressed to the Board of County Commissioners of De Soto County, Fla., at Arcadia, Fla., will be received until 12 o'clock M. of February 3rd, 1919, for furnishing material, equipment, labor and constructing in Charlotte Harbor Special Road and Bridge District of De Soto County, across Charlotte Harbor, between the towns of Charlotte Harbor and Punta Gorda, the following:

Approximately 3000 lineal feet of reinforced concrete bridge; rubbing and finishing 1400 lineal feet of reinforced bridge, now partially constructed, and completing causeway construction, now partially completed.

Bridge to be monolithic beam and slab structure supported on concrete piles, and causeway to be hydraulic fill protected by reinforced concrete sheet piling.

Each bid is to be accompanied by a certified check, made payable to the Chairman of the Board for two thousand dollars.

The right is reserved to reject any and all bids.

Plans and specifications can be seen at the office of the County Clerk at Arcadia, Fla., and specifications can be obtained by writing the engineer at Box 421, Atlanta, Ga.

A. L. DURRANCE, Clerk.

Bids: Feb. 6.

Sewerage System Improvement

Syracuse, N. Y.

Sealed proposals for contract No. 27 for the construction of Divisions 3, 4 and 5, Onondaga creek improvement and the main intercepting sewer, will be received until 2 o'clock P.M., February 6, 1919, at the office of the Syracuse Intercepting Sewer Board, 104 City Hall, Syracuse, N. Y. The work embraces approximately 2 miles of creek improvement and 1.3 miles of intercepting sewer. Proposals may be made under three alternatives which cover the whole or proportions of the work. The principal items of the whole work are 111,500 cu.yd. excavation and 18,000 cu.yd. concrete. This contract is to continue the work started under a contract which was cancelled on account of the war. The Board has in its possession to be used upon the new contract practically all of the reinforced concrete pipe which has been manufactured for the sewer and its lying on the site thereof. The Board also has cast iron siphons, a traveling concrete mixer and 4 flat cars for use upon the new contract. Proposals must be made on blanks to be furnished upon application and must be accompanied by a New York draft or certified check for $5,000 or $10,000 for each division for which a bid is submitted. Drawings, specifications and form of proposals and contract are on file in the offices of the Board. Copies may be obtained by depositing $10 to insure their return in acceptable condition on or before February 15, 1919.

HARRY J. HAMLIN,
Secretary.

Bids: Jan. 25.

Setting and Connecting Boilers

Hoffman Island.

Sealed proposals for Setting and Connecting Two Boilers (Repairs or Replacement of Equipment), Quarantine Station, Hoffman Island, N. Y., will be received by Dr. L. E. Cofer, Health Officer, Port of New York, Rosebank, Staten Island, New York, until 12 o'clock noon, Saturday, January 25, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, adn shall be accompanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bonds in the sum of fifty per cent. (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 3159 The right is reserved to reject any or all bids. Drawings and specialfications and blank forms of proposal may be consulted at the office of Dr. L. E. Cofer, Health Officer, Port of New York, Rosebank, Staten Island, N. Y., at the New York office of the Department of Architecture, Room 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and Specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, Lewis F. Pilcher, Capitol, Albany, N. Y.

Dated: January 13, 1919.

POSITIONS VACANT

ADVERTISING manager, who knows trade journals, mailing lists, sales letter writing and catalog work. Must be an executive, hustler and produce results. Should have broad knowledge of machinery, equipment, etc. Right salary to right man. In first letter tell us all about yourself and salary expected. Confidential. Walter A. Zelnicker Supply Co., St. Louis, Missouri.

BRIDGE designer, experienced in both steel and reinforced concrete, for preparation of standard and special designs; permanent work; salary, $150 per month. Submit detailed statement of education and experience, age, nationality, time you can report, and sample of your drafting. Missouri State Highway Department, Jefferson City, Mo.

ESTIMATOR wanted, capable of taking off and pricing quantities in all classes of general contracting work. Only experienced man need reply, stating age, experience and salary expected. P-431, Eng. News-Record.

DRAFTSMAN wanted for map and construction drawing; state age, whether married or single, and salary considered. Chief Engineer, The Consolidation Coal Co., Jenkins, Ky.

POSITIONS VACANT

MAN with civil engineering education or broad knowledge of that field, also experienced in engineering promotion publicity work, particularly familiarity with concrete construction and its application to all kinds of structures as well as roads, to train for position as editorial assistant. Work requires unusual ability, foremost in which is ability to write well, simply and clearly in popular vein, much of which will have to be developed through experience in the particular position above mentioned. Salary commensurate with actual ability in work mentioned at the start, with satisfactory prospects as efficiency is acquired. To enable intelligent consideration of your application, age, past and present connections, salary earned and desired, education, and any other points or qualifications you wish to bring out should be mentioned at length. Box P-458, Eng. News-Record, Chicago.

DRAFTSMAN with electrolytic experience. Give age, experience, salary, and when possible to report. Location, Chicago district. P-315, Eng. News-Record, Chicago.

DRAFTSMEN and detailers wanted on fabricated steel hulls. Address P-373, Engineering News-Record.

POSITIONS VACANT

MASTER mechanic—Position as master mechanic of one of the largest car shops in the Middle West is open for a man who can qualify. Position requires executive, technical and practical ability. Give details of training, experience, present salary, etc. P-465, Eng. News-Record, Chicago.

INSPECTOR to teach civil engineering subjects by correspondence, in an Eastern city. Position permanent for one who can qualify. State education, experience and initial salary expected. P-[illegible]24, Eng. News-Record, Philadelphia.

SYSTEMATIZER wanted. A retail coal and building material yard in New England, laying out new yards, requires the services of an experienced man to lay out the yards and warehouses and systematize the handling and loading facilities. Address, System, stating terms P-414, Eng. News-Record.

TECHNICAL writer in civil engineering subjects, in Eastern city. Ability to write clearly, and several years' experience in steel and reinforced concrete construction essential. Position permanent for one who can qualify. State education, experience and initial salary expected. P-255, Eng. News-Record.

AN OPPORTUNITY to make some extra money. Construction work is ready for a big boom and the Engineering News-Record wants to publish it all. To do this we must add to our list at least

36 CORRESPONDENTS

The kind of men we want are those who are in close touch with construction work in their community and can devote a little spare time during business hours to calling on engineers, contractors, etc., gathering reports. Representatives are wanted in the following centers:

Atlanta, Ga.
Augusta, Me.
Austin, Texas
Birmingham, Ala.
Boston, Mass.
Carson City, Nev.
Chattanooga, Tenn.
Cheyenne, Wyo.
Concord, N. H.
Erie, Pa.

Worcester, Mass.

Write—telling all about your present work and how much time you have available—to

L. V. FLETCHER

Engineering News-Record, 10th Ave., at 36th Street, New York

District Manager

We want a high-grade man capable of taking charge of our Chicago District Office on either salary or commission or both. We have a very attractive proposition for the right man who must thoroughly understand the Contractors' Machinery business and come with a clear record and a reputation of having produced the business in whatever locality he has been or is now located.

We invite correspondence.

OSHKOSH MFG. COMPANY

Oshkosh, Wis.

Bids: Feb. 14.

Pier Construction

DEPARTMENT OF WHARVES, DOCKS AND FERRIES

550 Bourse Building, Philadelphia.

Sealed proposals, endorsed "Bids for the construction, with appurtenant work, of Kenilworth Street Pier, No. 30 South Delaware Wharves," will be received until 12 o'clock noon, Friday, February 14, 1919, in the office of the Director of the Department of Wharves, Docks and Ferries, 550 Bourse Building, Philadelphia, and then publicly opened.

Plans, specifications and blank forms upon which bids must be made can be obtained at the office above mentioned, upon the deposit of a certified check in the sum of twenty five dollars ($25.00), to cover the cost of blue prints, which check will be returned upon the receipt of the plans and specifications in this office in good condition, and unmarked. The successful bidder will be furnished with all necessary blue prints free of charge.

Proof must be submitted the Department by the contractor that he has accepted the provisions of the Workingmen's Compensation Ace of June 18, 1917, relative to workingmen's compensation, and insured his liability thereunder or secured exemption therefrom.

No bid will be considered unless accompanied by a certificate from the City Solicitor of the City of Philadelphia, to the effect that the provisions of an ordinance requiring proposal bonds on all bids exceeding in amount $500, approved May 25, 1860, have been complied with.

The Director reserves the right to reject any or all bids as he may deem best for the interest of the City of Philadelphia.

GEORGE S. WEBSTER,
Director.

January 18, 1919.

Bids: Feb. 20.

Road Improvements

Rumson, N. J.

Notice is hereby given that sealed bids will be received by the Mayor and Council of the Borough of Rumson for the permanent improvement of the Rumson Road, in the Borough of Rumson, County of Monmouth and State of New Jersey, with a bituminous surface upon a concrete foundation; estimated amount of surface pavement required is 29,175.55 sq.yd., of foundation 5,203.8 cu.yd.; and opened and read in public at a meeting of the said Mayor and Council to be held at the Council Chambers in the Oceanic Fire Engine House on Thursday, February 20, 1919, at eight P.M.

Drawings and specifications and forms of bids, contract and bond for the proposed work, prepared by George K. Allen, engineer, and approved by the State Highway Commission, have been filed in the office of the said Engineer, at No. 60 Broad Street, Red Bank, Monmouth County, New Jersey, and of said Commission at the State House, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of specifications and blue prints of the drawings by the Engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein, and required by the specifications, must be enclosed in sealed envelopes bearing the name and address of the bidder on the outside, addressed to Daniel A. Naughton, Borough Clerk, Rumson, New Jersey, and must be accompanied by a certified check or cash for not less than $1000, payable to the Collector of the Borough of Rumson, and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

All bids must be accompanied by a communication in writing from a surety company authorized to do business under the laws of the state of New Jersey, that it is willing, ready and able to act as surety on the bonds of the bidder in question, to the amount set forth in the specifications.

By order of the Mayor and Council of the Borough of Rumson.

DANIEL A. NAUGHTON,
Clerk.

Bids: Feb. 14.

Furnishing Screens and Guards

Bedford Hills, N. Y.

Sealed proposals for construction work (screens and guards)—Additional window guards for two cottages of farm group, New York State Reformatory for Women, Bedford Hills, N. Y., will be received by William G. Barrett, President of the Board of Managers, New York State Reformatory for Women, Bedford Hills, N. Y., until 10.30 A.M. on Friday, February 14, 1919, when they will be publicly opened and read. Proposals shall be inclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 3116-R. The right is reserved to reject any or all bids. Drawings and specifications and blank forms of proposal may be consulted at the New York State Reformatory for Women, Bedford Hills, N. Y., at the New York Office of the Department of Architecture, 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, Lewis F. Pilcher, Capitol, Albany, N. Y.

PROPOSALS

Bids: Jan. 22.

Reinforced Concrete Bridge

Ft. Smith, Arkansas.

Sealed proposal for the construction of a reinforced concrete arch bridge and approaches thereto, across the Arkansas River at Garrison Avenue, Ft. Smith, Arkansas, will be received until two o'clock P.M. of Wednesday, January twenty second, 1919, by the Commissioners of the Sebastian Bridge District, at the office of the District in Ft. Smith, Arkansas.

A certified check for an amount equal to not less than five per cent. (5%) of the amount of the bid, drawn on a responsible bank in the city of Ft. Smith, to the order of the Commissioners of the Sebastian Bridge District, must be filed with each bid.

Plans and specifications are now on file in the office of the Commissioners of the Sebastian Bridge District, and in the office of Hedrick & Hedrick, Consulting Engineers, 506 Interstate Building, Kansas City, Missouri. All parties desiring to bid upon the work may obtain complete plans and specifications by applying to the Consulting Engineers named above.

The following are the approximate quantities of the principal items included in the work.

Concrete	20,000 cubic yards
Reinforcing steel ...	1,550,000 pounds
Wood block or asphalt pavement..	8,270 square yards
Miscellaneous metal	25,000 pounds
Earth embankment.	22,000 cubic yards

The Commissioners reserve the right to reject any or all bids. Final action on the bids will be taken by the Commissioners within fifteen days after the opening of said bids.

By order of the Commissioners, Sebastian Bridge District, Ft. Smith, Arkansas.

By ROY M. JOHNSTON, Secretary.

Dec. 21, 1918.

Farm Grading and Drainage

New York City.

Bids invited on the development of one thousand acres of former rice field in South Carolina. The spoil banks of recently completed drainage canals are to be removed and spoil deposited in abandoned open ditches, also old rice field banks are to be cut down and spoil used to fill old ditches. After land has been graded, it is to be tile drained. A keystone steam shovel, half mile of portable track, dump cars and Buckeye Tile Ditching Machine now on job for contractor's use.

Bid to be on cubic yard basis for moving spoil and banks and per lineal foot basis for laying tile.

Only thoroughly reliable contractors who are experienced in this class of work will be considered, which experience outline fully when writing. Write,

G. C. BURLINGAME,
150 Nassau Street,
New York City.

PROPOSALS FOR BOILERS.—Office, Mississippi River Commission, 1st and 2d Districts, Custom House, Memphis, Tenn. Sealed proposalsw ill be received here until 11 a.m. Feb. 4, 1919, and then opened, for furnishing Boilers for hydraulic grader No. 1820. Further information on application.

Official Proposals

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

PROPOSALS

Bids: Feb. 19.

Smith's Cove Improvement

Port of Seattle, Wash.

Notice is hereby given that the Port Commission of the Port of Seattle, State of Washington, will receive sealed proposals up to 2:00 o'clock, February 19, 1919, at its office, Bell Street Warehouse, at the foot of Bell Street, Seattle, Washington, for the furnishing and installation of a Gantry Crane, Smith's Cove Improvement, Pier "B," and of said material to be furnished in accordance with the specifications and plans for the same, now on file in the office of the said Port Commission, which said specifications and plans are now subject to public inspection.

Bidders are invited to submit alternative bids upon designs of their own for accomplishing the purpose of the specifications and plans prepared by the said Port Commission.

Each bid must be accompanied by a certified check payable to the order of the Port Commission of the Port of Seattle for a sum not less than five per cent. of the amount of bid.

The Port Commission reserves the right to reject any and all bids.

Dated at Seattle, Washington, this 18th day of December, 1918.

PORT COMMISSION OF THE PORT OF SEATTLE

By T. S. LIPPY, Secretary.

OFFICE OF THE COMMISSIONERS, Washington, D. C.—Sealed proposals will be received at the office of the Secretary to the Board of Commissioners, Room 511, District Building, until 2 o'clock P.M., February 11, 1919, for constructing a concrete encased steel plate girder bridge in the line of South Dakota Avenue crossing the tracks of the Baltimore & Ohio R.R. Company. Forms of Proposals, Specifications, and necessary information may be obtained from the Chief Clerk of the Engineering Department, Room 427, District Building, Washington, D. C. Louis Brownlow, W. Gwynn Gardiner, C. W. Kutz, Commissioners, D. C.

PROPOSALS

Bids: Feb. 3.

Reinforced Concrete Bridge

Arcadia, Fla.

Sealed proposals on blank form furnished by the Board and addressed to the Board of County Commissioners of De Soto County, Fla., at Arcadia, Fla., will be received until 12 o'clock M. of February 3rd, 1919, for furnishing material, equipment, labor and constructing in Charlotte Harbor Special Road and Bridge District of De Soto County, across Charlotte Harbor, between the towns of Charlotte Harbor and Punta Gorda, the following:

Approximately 3000 lineal feet of reinforced concrete bridge; rubbing and finishing 1400 lineal feet of reinforced bridge, now partially constructed, and completing causeway construction, now partially completed.

Bridge to be monolithic beam and slab structure supported on concrete piles, and causeway to be hydraulic fill protected by reinforced concrete sheet piling.

Each bid is to be accompanied by a certified check, made payable to the Chairman of the Board for two thousand dollars.

The right is reserved to reject any and all bids.

Plans and specifications can be seen at the office of the County Clerk at Arcadia, Fla., and specifications can be obtained by writing the engineer at Box 421, Atlanta, Ga.

Bids: Feb. 6.

Sewerage System Improvement

Syracuse, N. Y.

Sealed proposals for contract No. 27 for the construction of Divisions 3, 4 and 5, Onondaga creek improvement and the main intercepting sewer, will be received until 2 o'clock P.M., February 6, 1919, at the office of the Syracuse Intercepting Sewer Board, 104 City Hall, Syracuse, N. Y. The work embraces approximately 2 miles of creek improvement and 1.3 miles of intercepting sewer. Proposals may be made under three alternatives which cover the whole or proportions of the work. The principal items of the whole work are 111,500 cu.yd. excavation and 18,000 cu.yd. concrete. This contract is to continue the work started under a contract which was cancelled on account of the war. The Board has in its possession to be used upon the new contract practically all of the reinforced concrete pipe which has been manufactured for the sewer and its lying on the site thereof. The Board also has cast iron siphons, a traveling concrete mixer and 4 flat cars for use upon the new contract. Proposals must be made on blanks to be furnished upon application and must be accompanied by a New York draft or certified check for $5,000 or $10,000 for each division for which a bid is submitted. Drawings, specifications and form of proposals and contract are on file in the offices of the Board. Copies may be obtained by depositing $10 to insure their return in acceptable condition on or before February 15, 1919.

HARRY J. HAMLIN,
Secretary.

Bids: Jan. 25.

Setting and Connecting Boilers

Hoffman Island.

Sealed proposals for Setting and Connecting Two Boilers (Repairs or Replacement of Equipment). Quarantine Station, Hoffman Island, N. Y., will be received by Dr. L. E. Cofer, Health Officer, Port of New York, Rosebank, Staten Island, New York, until 12 o'clock noon, Saturday, January 25, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, adn shall be accompanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bonds in the sum of fifty per cent. (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 3159. The right is reserved to reject any or all bids. Drawings and specialfications and blank forms of proposal may be consulted at the office of Dr. L. E. Cofer, Health Officer, Port of New York, Rosebank, Staten Island, N. Y., at the New York office of the Department of Architecture, Room 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and Specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, Lewis F. Pilcher, Capitol, Albany, N. Y.

Dated: January 13, 1919.

POSITIONS VACANT

ADVERTISING manager, who knows trade journals, mailing lists, sales letter writing and catalog work. Must be an executive, hustler and produce results. Should have broad knowledge of machinery, equipment, etc. Right salary to right man. In first letter tell us all about yourself and salary expected. Confidential. Walter A. Zelnicker Supply Co., St. Louis, Missouri.

BRIDGE designer, experienced in both steel and reinforced concrete, for preparation of standard and special designs; permanent work; salary, $150 per month. Submit detailed statement of education and experience, age, nationality, time you can report, and sample of your drafting. Missouri State Highway Department, Jefferson City, Mo.

ESTIMATOR wanted, capable of taking off and pricing quantities in all classes of general contracting work. Only experienced man need reply, stating age, experience and salary expected. P-431, Eng. News-Record.

DRAFTSMAN wanted for map and construction drawing; state age, whether married or single, and salary considered. Chief Engineer, The Consolidation Coal Co., Jenkins, Ky.

POSITIONS VACANT

MAN with civil engineering education or broad knowledge of that field, also experienced in engineering promotion publicity work, particularly familiarity with concrete construction and its application to all kinds of structures as well as roads, to train for position as editorial assistant. Work requires unusual ability, foremost in which is ability to write well, simply and clearly in popular vein, much of which will have to be developed through experience in the particular position above mentioned. Salary commensurate with actual ability in work mentioned at the start, with satisfactory prospects as efficiency is acquired. To enable intelligent consideration of your application, age, past and present connections, salary earned and desired, education, and any other points or qualifications you wish to bring out should be mentioned at length. Box P-458, Eng. News-Record, Chicago.

DRAFTSMAN with electrolytic experience. Give age, experience, salary, and when possible to report. Location, Chicago district. P-315, Eng. News-Record, Chicago.

DRAFTSMEN and detailers wanted on fabricated steel hulls. Address P-373, Engineering News-Record.

POSITIONS VACANT

MASTER mechanic—Position as master mechanic of one of the largest car shops in the Middle West is open for a man who can qualify. Position requires executive, technical and practical ability. Give details of training, experience, present salary, etc. P-465, Eng. News-Record, Chicago.

INSPECTOR to teach civil engineering subjects by correspondence, in an Eastern city. Position permanent for one who can qualify. State education, experience and initial salary expected. P-224, Eng. News-Record, Philadelphia.

SYSTEMATIZER wanted. A retail coal and building material yard in New England, laying out new yards, requires the services of an experienced man to lay out the yards and warehouses and systematize the handling and loading facilities. Address, System, stating terms. P-414, Eng. News-Record.

TECHNICAL writer in civil engineering subjects, in Eastern city. Ability to write clearly, and several years' experience in steel and reinforced concrete construction essential. Position permanent for one who can qualify. State education, experience and initial salary expected. P-255, Eng. News-Record.

AN OPPORTUNITY to make some extra money. Construction work is ready for a big boom and the Engineering News-Record wants to publish it all. To do this we must add to our list at least

36 CORRESPONDENTS

The kind of men we want are those who are in close touch with construction work in their community and can devote a little spare time during business hours to calling on engineers, contractors, etc., gathering reports. Representatives are wanted in the following centers:

Atlanta, Ga.
Augusta, Me.
Austin, Texas
Birmingham, Ala.
Boston, Mass.
Carson City, Nev.
Chattanooga, Tenn.
Cheyenne, Wyo.
Concord, N. H.
Erie, Pa.

Worcester, Mass.

Write—telling all about your present work and how much time you have available—to

L. V. FLETCHER

Engineering News-Record, 10th Ave., at 36th Street, New York

District Manager

We want a high-grade man capable of taking charge of our Chicago District Office on either salary or commission or both. We have a very attractive proposition for the right man who must thoroughly understand the Contractors' Machinery business and come with a clear record and a reputation of having produced the business in whatever locality he has been or is now located.

We invite correspondence.

OSHKOSH MFG. COMPANY

Oshkosh, Wis.

Bids: Feb. 14.

Pier Construction

DEPARTMENT OF WHARVES, DOCKS AND FERRIES
550 Bourse Building, Philadelphia.

Sealed proposals, endorsed "Bids for the construction, with appurtenant work, of Kenilworth Street Pier, No. 30 South Delaware Wharves," will be received until 12 o'clock noon, Friday, February 14, 1919, in the office of the Director of the Department of Wharves, Docks and Ferries, 550 Bourse Building, Philadelphia, and then publicly opened.

Plans, specifications and blank forms upon which bids must be made can be obtained at the office above mentioned, upon the deposit of a certified check in the sum of twenty five dollars ($25.00), to cover the cost of blue prints, which check will be returned upon the receipt of the plans and specifications in this office in good condition, and unmarked. The successful bidder will be furnished with all necessary blue prints free of charge.

Proof must be submitted the Department by the contractor that he has accepted the provisions of the Workingmen's Compensation Ace of June 18, 1917, relative to workingmen's compensation, and insured his liability thereunder or secured exemption therefrom.

No bid will be considered unless accompanied by a certificate from the City Solicitor of the City of Philadelphia, to the effect that the provisions of an ordinance requiring proposal bonds on all bids exceeding in amount $500, approved May 25, 1860, have been complied with.

The Director reserves the right to reject any or all bids as he may deem best for the interest of the City of Philadelphia.

GEORGE S. WEBSTER,
Director.

January 18, 1919.

Bids: Feb. 20.

Road Improvements

Rumson, N. J.

Notice is hereby given that sealed bids will be received by the Mayor and Council of the Borough of Rumson for the permanent improvement of the Rumson Road, in the Borough of Rumson, County of Monmouth and State of New Jersey, with a bituminous surface upon a concrete foundation; estimated amount of surface pavement required is 29,175.55 sq.yd., of foundation 5,203.8 cu.yd.; and opened and read in public at a meeting of the said Mayor and Council to be held at the Council Chambers in the Oceanic Fire Engine House on Thursday, February 20, 1919, at eight P.M.

Drawings and specifications and forms of bids, contract and bond for the proposed work, prepared by George K. Allen, engineer, and approved by the State Highway Commission, have been filed in the office of the said Engineer, at No. 60 Broad Street, Red Bank, Monmouth County, New Jersey, and of said Commission at the State House, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of specifications and blue prints of the drawings by the Engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein, and required by the specifications, must be enclosed in sealed envelopes bearing the name and address of the bidder on the outside, addressed to Daniel A. Naughton, Borough Clerk, Rumson, New Jersey, and must be accompanied by a certified check or cash for not less than $1000, payable to the Collector of the Borough of Rumson, and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

All bids must be accompanied by a communication in writing from a surety company authorized to do business under the laws of the state of New Jersey, that it is willing, ready and able to act as surety on the bonds of the bidder in question, to the amount set forth in the specifications.

By order of the Mayor and Council of the Borough of Rumson.

DANIEL A. NAUGHTON,
Clerk.

Bids: Feb. 14.

Furnishing Screens and Guards

Bedford Hills, N. Y.

Sealed proposals for construction work (screens and guards)—Additional window guards for two cottages of farm group, New York State Reformatory for Women, Bedford Hills, N. Y., will be received by William G. Barrett, President of the Board of Managers, New York State Reformatory for Women, Bedford Hills, N. Y., until 10.30 A.M. on Friday, February 14, 1919, when they will be publicly opened and read. Proposals shall be inclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 3116-R. The right is reserved to reject any or all bids. Drawings and specifications and blank forms of proposal may be consulted at the New York State Reformatory for Women, Bedford Hills, N. Y., at the New York Office of the Department of Architecture, 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, Lewis F. Pilcher, Capitol, Albany, N. Y.

Dated: January 15, 1919.

Specifications, plans and estimated may be seen at the office of Edmund Hall, Engineer, First National Bank Building, Granite City, Illinois.

PROPOSALS

Bids: Feb. 4.

Courthouse Bonds

NOTICE OF BOND SALE

Lusk, Wyoming.

Public notice is hereby given that the Board of County Commissioners of Niobrara County, in the State of Wyoming, intends to issue and negitiate the Courthouse Bonds of said County, in the aggregate amount of Sixty Thousand Dollars ($60,000) to provide means for the construction of a courthouse and for the necessary furnishings and equipment of the same in and for the county. Said bonds will be issued in conformity with the provisions of an order and resolution adopted and approved January 8, 1919 ,and pursuant to the approval of more than a majority of the qualified electors of said county, voting upon the question at the regular election for electing county officers held in said county on Tuesday, the 5th day of November, A. D. 1918.

Said bonds will bear date the first day of February, A. D. 1919, will be payable at the option of the County ten (10) years after date and absolutely due and payable twenty (20) years after date. Said bonds will be issued in the denomination of One Thousand Dollars ($1000) each. The principal of said bonds and the interest thereon will be payable at the banking house of Kountze Brothers in the City of New York, State of New York, U. S. A. Said bonds will bear interest at a rate not exceeding six per centum (6%) per annum, payable semi-annually, on the 1st day of August and the 1st day of February in each year.

The Board of County Commissioners of said Niobrara County will on Tuesday, the 4th day of February, A. D. 1919, at the hour of two o'clock P.M., receive sealed bids for said bonds at the office of said Board in Lusk, Wyoming.

All bids must be accompanied by a certified check, payable to the order of the County Treasurer, equal in amount to ten per cent. (10%) of the face value of the bonds bid for. Bidders shall state the rate of interest, (not exceeding six per cent. (6%) per annum) on which their bids are based.

After ascertaining the best terms upon and the lowest interest at which said bonds can be negotiated, the bonds will be sold, but in no case for less than their full or par value and the accrued interest thereon at the time of their delivery.

THE BOARD OF COUNTY COMMISSIONERS OF NIOBRARA COUNTY, WYOMING
By E. G. JONES,
Chairman.

ATTEST:
A. L. MILLER,
Clerk.
(SEAL)

Bids' Feb. 20.

Road Improvements

Hamlin, W. Va.

OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Bids: Feb. 18 & 19.

Canal Improvements

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF
PUBLIC WORKS

Albany, N. Y.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, February 18, 1919, at which place and hour they will be publicly opened and read, for the improvement of the State canals as authorized by Chapter 147 of the Laws of 1903 and amendatory laws, and Chapter 391 of the Laws of 1909; and for the construction of Barge canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, as follows:

TERMINAL CONTRACT NO. 57

For constructing certain parts of an approach from Court Street and South Avenue to the Barge canal terminal at Rochester. Contract plans, sheets 1 to 10 inclusive.

TERMINAL CONTRACT NO. 69

For protecting the shore of Erie Basin between Lake Street and Slip No. 1, at Buffalo.

Contract plans, sheets 1 and 2.

TERMINAL CONTRACT NO. 107

For installing electric wiring, lighting, power and battery charging equipment for the canal terminal at Erie Basin, Buffalo. Contract plans, sheets 1 to 10 inclusive.

TERMINAL CONTRACT NO. 223

For constructing a Barge canal terminal freight-shed at Greenpoint, Brooklyn, New York City.

Contract plans, sheets 1 to 11 inclusive.

And until twelve o'clock noon of Wednesday, February 19, 1919, for the following pieces of work:

CONTRACT NO. 200

Erie Canal—Sections 9 and 10

For driving steel sheet piling, placing concrete lining and incidental work between Rochester and Lockport.

Sheets 1 to 5 inclusive.

CONTRACT NO. 201

Erie Canal—Section 9

For completing the concrete prism lining at Cartersville and constructing a stream entrance near Knapp's bridge.

Sheets 1 to 3 inclusive.

CONTRACT Q

Cayuga and Seneca Canal—Section 1

For constructing pile dolphins for aids to navigation on Cayuga and Seneca lakes.

Sheets 1 to 5 inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., at the canal office, Spaulding's Exchange, Buffalo, N. Y., and at the office of the State Engineer and Surveyor.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90%) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank (or trust company in the case of terminal contract) in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5%) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20%) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10%) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

OFFICIAL PROPOSALS

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the State for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the State will be enhanced thereby.

W. W. WOTHERSPOON,
Superintendent of Public Works.

January 15, 1919.

Bids: Feb. 14.

Pier Construction

DEPARTMENT OF WHARVES, DOCKS
AND FERRIES
550 Bourse Building, Philadelphia.

Sealed proposals, endorsed "Bids for the construction, with appurtenant work, of Kenilworth Street Pier, No. 30 South Delaware Wharves," will be received until 12 o'clock noon, Friday, February 14, 1919, in the office of the Director of the Department of Wharves, Docks and Ferries, 550 Bourse Building, Philadelphia, and then publicly opened.

Plans, specifications and blank forms upon which bids must be made can be obtained at the office above mentioned, upon the deposit of a certified check in the sum of twenty five dollars ($25.00), to cover the cost of blue prints, which check will be returned upon the receipt of the plans and specifications in this office in good condition, and unmarked. The successful bidder will be furnished with all necessary blue prints free of charge.

Proof must be submitted the Department by the contractor that he has accepted the provisions of the Workingmen's Compensation Ace of June 18, 1917, relative to workingmen's compensation, and insured his liability thereunder or secured exemption therefrom.

No bid will be considered unless accompanied by a certificate from the City Solicitor of the City of Philadelphia, to the effect that the provisions of an ordinance requiring proposal bonds on all bids exceeding in amount $500, approved May 25, 1860, have been complied with.

The Director reserves the right to reject any or all bids as he may deem best for the interest of the City of Philadelphia.

GEORGE S. WEBSTER,
Director.

January 18, 1919.

SEALED PROPOSALS will be opened by the Lighthouse Superintendent, Baltimore, Md., at 2 o'clock P.M., March 1, 1919, for construction of concrete foundation and placing of rip rap at Tangier Sound Light Station, Va. Information upon application to the above office.

Bids: Feb. 25.

Water Purification Plant

East Chicago, Ind.

1. Sealed proposals for the construction of a Water Purification Plant in the City of East Chicago, Indiana, addressed to C. L. Kirk, Vice-President of the East Chicago & Indiana Harbor Water Company, and endorsed proposal for Water Purification Plant, will be received at the office of the Indianapolis Water Company, 113 Monument Circle, Indianapolis, Indiana, until 12 o'clock noon, Tuesday, February 25, 1919, at which place and time said proposals will be publicly opened and read.

2. All bids must be upon blank forms furnished by the East Chicago & Indiana Harbor Water Company, hereinafter referred to as the owner, and should give a price for each item of work proposed, both in words and figures, and be signed by the bidder with his business address and place of residence.

3. Each bid must be accompanied by a certified check of two thousand five hundred dollars ($2500), payable to the order of the East Chicago & Indiana Harbor Water Company, inclosed in the sealed envelope containing the bid. All checks of unsuccessful bidders will be returned within three days after bids have been received. If all bids are rejected, all checks will be returned forthwith.

4. A bond in the sum of fifty thousand dollars ($50,000) with a surety company satisfactory to the owner as surety, will be required for the faithful performance of the contract, the name of the company to be offered to be designated in the proposal.

5. The successful bidder to whom the contract shall be awarded by the owner shall within fifteen days, not including Sundays and holidays, after the awarding of the contract enter into a contract and furnish bond duly executed with a satisfactory surety company. Should the bidder to whom the contract is awarded fail to enter into the contract and to furnish bond within the time specified, the proposal and acceptance shall be null and void and the certified check accompanying the proposal shall be forfeited to and shall be retained by the owner as liquidated damages for such failure and neglect and to indemnify the owner for any loss which may be sustained by failure of the bidder to execute the contract and to furnish the bond as aforesaid.

6. The specifications for the work provide that the owner will pay monthly estimates of eighty-five (85) per cent of the contract price of such part of the work completed during the previous month.

7. The specifications for the purification plant covers the construction of a chemical house, filter house, boiler house and pumping plant addition, sedimentation basins and filtered water reservoir. In order to give any one desiring to bid an idea as to the scope of the work, the following approximate quantities of the principal items entering into the construction of the purification plant are given:

Excavation	16,000 cu.yd.
Concrete	6,600 cu.yd.
Loam furnished	2,300 cu.yd.
Reinforcing steel	140 tons

The handling and setting of 218 tons of cast iron pipe.

The handling and setting of 72 tons of gate valves and sluice gates. In the above items the material entering into the construction of the super-structure of the chemical house, filter house, boiler house addition and pumping station addition are not included.

8. Bids will be received on all items mentioned in the Specifications as per plans and specifications prepared by Metcalf & Eddy, Consulting Engineers, and on alternate plans for the sedimentation basin and filtered water basins prepared by the engineer of the East Chicago & Indiana Harbor Water Company. The owner reserves the right to let a contract for the entire work covered by the plans and specifications or for only a part of the work, which part will include the construction of the sedimentation and filtered water basins, the foundations of the chemical house and filter house, the construction complete of the boiler house and pumping station additions, and the construction of sewers and drains, but will exclude the construction of the super-structure of the chemical house and filter house, the handling and setting of cast iron pipe, gate valves and sluice gates, and other work more specifically enumerated in the specifications.

9. Detail contract drawings, form of contract and specifications may be examined at the office of the East Chicago & Indiana Harbor Water Company, 4735 Olcott Avenue, East Chicago, Indiana, and at the office of the Indianapolis Water Company, 113 Monument Circle, Indianapolis, Indiana. Plans and specifications may be obtained from B. J. T. Jeup, Chief Engineer Indianapolis Water Company, provided a deposit of fifty dollars ($50) is made. The said deposit will be returned upon return of plans and specifications. The bidder must return the said plans and specifications to the owner on or before February 25, 1919.

10. The owner reserves the right to reject any or all bids or to accept a bid deemed to be for the best interests of the owner.

C. L. KIRK,
Vice-President.

113 Monument Circle,
Indianapolis, Indiana,
January 25, 1919.

Bids: Feb. 28.

Addition to Mechanical Filtration Plant

Clarksburg, W. Va.

Sealed proposals for the construction of an addition of 3 m.g.d. capacity to the existing mechanical filtration plant of the City of Clarksburg, W. Va., will be received by the Clarksburg Water Board at their offices until 12 o'clock noon, Feb. 28, 1919.

Proposals shall be made on blank forms to be obtained from the Secretary or the Engineer.

Plans and specifications can be seen at the office of the Water Board, Clarksburg, W. Va., and Fuller & McClintock, Engineers, 170 Broadway, New York City. Copies may be obtained from the latter on deposit of Ten ($10) Dollars.

Each proposal must be accompanied by a certified check payable to the Clarksburg Water Board for One Thousand ($1000) Dollars.

The Board reserves the right to reject any or all bids.

SCOTLAND G. HIGHLAND,
Secretary and General Manager,
Clarksburg Water Board.

FULLER & McCLINTOCK,
170 Broadway,
New York City,
Engineers.

Bids: Feb. 11.

Boilers and Heating Work

Utica, N. Y.

Sealed proposals for new boilers and heating work, boilers and changes to central heating plant, Utica State Hospital, Utica, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 3 o'clock P.M. on Tuesday, February 11, 1919, when they will be publicly opened and read. Proposals shall be inclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bonds in the sum of fifty per cent (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3142 and 3143. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Utica State Hospital, Utica, N. Y., at the New York Office of the Department of Architecture, Room 1715 Tribune Bldg., and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

E. S. ELWOOD,
Secretary, State Hospital Commission.
Dated: January 22, 1919.

Bids: Feb. 6.

Sewerage System Improvement

Syracuse, N. Y.

Sealed proposals for contract No. 27 for the construction of Divisions 3, 4 and 5, Onondaga creek improvement and the main intercepting sewer, will be received until 2 o'clock P.M., February 6, 1919, at the office of the Syracuse Intercepting Sewer Board, 104 City Hall, Syracuse, N. Y. The work embraces approximately 2 miles of creek improvement and 1.3 miles of intercepting sewer. Proposals may be made under three alternatives which cover the whole or proportions of the work. The principal items of the whole work are 111,500 cu.yd. excavation and 18,000 cu.yd. concrete. This contract is to continue the work started under a contract which was cancelled on account of the war. The Board has in its possession to be used upon the new contract practically all of the reinforced concrete pipe which has been manufactured for the sewer and its lying on the site thereof. The Board also has cast iron siphons, a traveling concrete mixer and 4 flat cars for use upon the new contract. Proposals must be made on blanks to be furnished upon application and must be accompanied by a New York draft or certified check for $5,000 or $10,000 for each division for which a bid is submitted. Drawings, specifications and form of proposals and contract are on file in the offices of the Board. Copies may be obtained by depositing $10 to insure their return in acceptable condition on or before February 15, 1919.

HARRY J. HAMLIN,
Secretary.

Bids: Feb. 17.

Road Work

Tulsa, Okla.

Notice is hereby given that on the 17th day of February, 1919, the Commissioners of Tulsa County, Oklahoma, will receive, open and consider the following Tulsa County State Roads.

Miles 1 To 6 Inclusive of Section "Y"

Miles 1 To 2 Inclusive of Section "I"

Plans, Profiles, Specifications and Estimates are on file in the office of the County Engineer, County Clerk, Court House, Tulsa, Oklahoma, and with the Department of Highways, Capitol Building, Oklahoma City, Oklahoma.

All proposals to be addressed, sealed and delivered to the Board of County Commissioners of Tulsa County, Oklahoma, in care of the County Clerk, on or before Two (2) o'clock P.M., of the date above set out. Proposals to be accompanied with a certified check to an amount equal to approximately Ten (10%) per cent. of the sum total of the bid, drawn on a bank located in the State of Oklahoma.

The right is hereby reserved to reject any and all bids.

Dated this 20th day of January, 1919.

BOARD OF COUNTY COMMISSIONERS
OF TULSA COUNTY
By LEWIS CLINE, County Clerk.

Bids: Feb. 18.

Water Main

Jersey City, N. J.

Sealed proposals will be received by the Board of Commissioners of Jersey City, N. J., Tuesday, February 18, 1919, at 2 P.M., in the Assembly Chamber, City Hall, Jersey City, for the construction of a water main under the Hackensack and Passaic Rivers, in accordance with plans and specifications, and addenda thereto, on file in the office of the City Clerk of Jersey City, for public inspection.

Blank forms of bid, showing estimate of quantities and agreements of sureties, must be obtained at the office of the Consulting Engineer, Laurence A. Ball, Room 23, City Hall, Jersey City. A deposit of $25 must accompany each application for copy of plans and specifications, which deposit will be refunded when plans and specifications are returned to the Consulting Engineer in good condition.

Proposals must be inclosed in sealed envelopes, endorsed "Proposal for Water Main Under Hackensack and Passaic Rivers," directed to this board, and handed to the City Clerk in open meeting when called for in the order of business relating to sealed proposals.

The bonds required to be furnished on proposals (and a possible subsequent contract) are those of some surety company authorized to do business in the State of New Jersey.

The Board reserves the right to reject any or all proposals if it is considered for the best interests of the city so to do.

By order of the Board of Commissioners of Jersey City.

FRANK A. DOLAN,
City Clerk.

Dated: City Clerk's Office,
Jersey City, January 24, 1919.

Bids: Feb. 15.

So. Bend, Ind.

Proposals for dredging will be received up to and including Feb. 15th, for the widening of channel in St. Joseph river at South Bend, Ind. For further information write Jos. F. Wagner, 531 Leland Ave., South Bend, Indiana.

Bids: Feb. 13.

Refined Asphalt and Refined Tar

Montclair, N. J.

Sealed bids will be received by the Board of Commissioners of the Town of Montclair, in the County of Essex, for the furnishing and delivery to the Town of Montclair of refined asphalt and refined tar for use in the construction of macadam pavements during the year 1919, in accordance with specifications of the Town Engineer.

Each bidder will be required to use the form of bid on file in the office of the Town Engineer and all bids not made on such form will be rejected.

Each bid must be accompanied by a forfeit of five hundred ($500) dollars to insure the signing of the contract and bond by the successful bidder within two weeks after the award shall have been made.

Approximate quantity of refined asphalt and refined tar required is 100,000 gallons.

The right is reserved to reject all bids.

All bids must be filed with the undersigned not later than four o'clock in the afternoon of Thursday, February 13, 1919, at which time the said Board of Commissioners will meet in the Council Chamber of the Municipal Building to consider the same.

By order of the Board of Commissioners,

HARRY TRIPPETT,
Town Clerk.

Bids: Feb. 20.

The contractors to whom the awards are made will be required to furnish surety company bonds in the sum of fifty per cent (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3142 and 3143. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Utica State Hospital, Utica, N. Y., at the New York Office of the Department of Architecture, Room 1715 Tribune Bldg., and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

E. S. ELWOOD,
Secretary, State Hospital Commission.
Dated: January 22, 1919.

Bids: Feb. 24.

Road Work

Middlebourne, W. Va.

Sealed proposals for the construction of the following road, addressed to the County Court of Tyler County, West Virginia, and endorsed, "Proposal for Constructing Class A Road in Tyler County," will be received by the undersigned until 2 P.M. on February 24, 1919. The Middlebourne-Salem road, Federal Aid Project No. 18, 14-ft. concrete road, 1.0 mile.

Plans and specifications may be seen at the office of the undersigned at Middlebourne, W. Va., at the office of J. R. Wilson, Division Engineer, Clarksburg, W. Va., and at the office of the State Road Commission, Charleston, W. Va.

Proposals must be made on blank form to be furnished by the undersigned, and must be accompanied by a certified check for at least five per cent of the total amount bid. The right is reserved to reject any or all bids.

J. E. SMITH, County Clerk
of Tyler County, W. Va.,
Middlebourne, W. Va.

OFFICIAL PROPOSALS

Bids: Feb. 20.

Road Improvements

Rumson, N. J.

Notice is hereby given that sealed bids will be received by the Mayor and Council of the Borough ofRumson for the permanent improvement of the Rumson Road, in the Borough of Rumson, County of Monmouth and State of New Jersey, with a bituminous surface upon a concrete foundation; estimated amount of surface pavement required is 29,175.55 sq.yd., of foundation 5,203.8 cu.yd.; and opened and read in public at a meeting of the said Mayor and Council to be held at the Council Chambers in the Oceanic Fire Engine House on Thursday, February 20, 1919, at eight P. M.

Drawings and specifications and forms of bids, contract and bond for the proposed work, prepared by George K. Allen, engineer, and approved by the State Highway Commission, have been filed in the office of the said Engineer, at No. 60 Broad Street, Red Bank, Monmouth County, New Jersey, and of said Commission at the State House, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of specifications and blue prints of the drawings by the Engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein, and required by the specifications, must be enclosed in sealed envelopes bearing the name and address of the bidder on the outside, addressed to Daniel A. Naughton, Borough Clerk, Rumson, New Jersey, and must be accompanied by a certified check or cash for not less than $1000, payable to the Collector of the Borough of Rumson, and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

All bids must be accompanied by a communication in writing from a surety company authorized to do business under the laws of the state of New Jersey, that it is willing, ready and able to act as surety on the bonds of the bidder in question, to the amount set forth in the specifications.

By order of the Mayor and Council of the Borough of Rumson.

DANIEL A. NAUGHTON,
Clerk.

Bids: Feb. 21.

Cast Iron Water Pipe

City Hall, Bayonne, N. J.

Proposals for bids for the furnishing of 30-in. cast-iron water pipe, and the laying of the same under and across the Hackensack River, and on the east and west sides thereof, to connect with the pipe lines of the City of Bayonne, and all other work relating thereto.

Sealed proposals will be received from 4 o'clock to 4:15 o'clock P.M., on Friday, February 21, 1919, by the Board of Commissioners of the City of Bayonne, in public meeting in the City Hall, and opened at the last named hour, for the furnishing and providing of all materials, machinery and plant, and the performing of all necessary work required in the carrying out of two certain agreements, dated November 18, 1918, made and entered into between the Mayor and Council of the City of Bayonne and the Federal Shipbuilding Company, and the Blast Furnace Products Corporation, copies of which agreements are on file in the office of the City Clerk of Bayonne, and may be examined by prospective bidders.

The work is to be done under the supervision of and in accordance with the plans and specifications prepared by Morris R. Sherrerd, Consulting Engineer. The plans and specifications may be examined at his office, Room 214, 20 Clinton Street, Newark, N. J. Copies of the plans and specifications may be obtained at said office upon the deposit of ten dollars ($10) which deposit will be repaid upon the return of such plans and specifications, within thirty (30) days.

The work will include the furnishing and laying of approximately 3100 ft. of new 30-in. water pipe upon proper pile and timber foundation upon the east and west banks of the Hackensack River, and a double 30-in. cast-iron pipe with flexible joints in a trench to be dredged under the Hackensack River; with all necessary valves and connections thereto; also the taking up and relaying of about 3300 ft. of 30-in. cast-iron water pipe, now located upon the old right of way, on the east and west sides of the Hackensack River, and thoroughly cleaning and re-painting the same inside and out, and removing and relaying the same upon the new right of way parallel with the said new 30-in. line; also the furnishing and laying of about 900 ft. of 18-in. cast-iron water pipe, with necessary valves and appurtenances, and 760 ft. of 12-in. cast-iron water pipe, and 700 ft. of 4-in. cast-iron water pipe, all of said cast-iron pipe to be of Class B, American Water Works Standard.

The above work embraces approximately the following quantities:

Furnishing and laying 950 tons of 30-in. flexible joint cast-iron pipe.

Furnishing and laying 520 tons of 30-in. cast-iron pipe.

Taking up and relaying 3300 ft. of 30-in. cast-iron pipe.

Furnishing and laying 70 tons of 18-in. cast-iron pipe.

Furnishing and laying 30 tons of 12-in. cast-iron pipe.

Furnishing and laying 8 tons of 4-in. cast-iron pipe.

Furnishing and driving 1700 piles.

Dredging 100,000 cu.yd. in Hackensack River.

Placing 1000 cu.yd. of concrete.

Furnishing valves, hydrants and meters and other appurtenances.

All bids will state prices in writing as well as figures and proposals must be accompanied by the consent in writing of a Surety Company qualified to do business in New Jersey, who shall at the time of putting in such proposal, qualify as to its responsibility in the amount of such proposal, and bind itself that if the contract be awarded to the person or persons making the proposals, the said Surety Company will, upon the awarding of such contract, become surety for the faithful performance of the said contract, and to protect all persons performing labor or furnissing materials therefor, as required by law, said contract bond to be in an amount equal to the contract price as required by Chapter 75, Laws 1918.

All bids must be accompanied by a certified check for twenty-five thousand dollars ($25,000) to insure the city that if the person or persons to whom the contract may be awarded, shall omit or refuse to execute such contract, the City of Bayonne may deduct therefrom any difference between the sums to which said proposer would have been entitled upon the completion of the contract and that which the City of Bayonne might be obliged to pay to the person or persons by whom such contract should be finally executed. The certified checks of unsuccessful bidders to be returned upon the award of contract and certified check of successful bidder to be returned upon execution of contract and bond.

The Board of Commissioners of the City of Bayonne reserves the right to reject any proposal which may be informal, or the acceptance of which would be, in the judgment of the Commissioners, detrimental to the interests of the city.

By order of the Board of Commissioners of the City of Bayonne.

HORACE ROBERSON,
Director, Department of Revenue
and Finance, Bayonne, N. J.
MORRIS R. SHERRERD,
Consulting Engineer,
20 Clinton St.,
Newark, N. J.

ADVERTISING RATES

Ads Set in Uniform Style

(Solid, in one paragraph, without display)

THREE CENTS A WORD, minimum charge 50 cents an insertion, payable in advance, less 10 per cent. if one payment is made in advance for four continuous insertions—for advertisements under:

- Positions Wanted
- Evening Work Wanted
- Vacation Work Wanted
- Tutoring
- Salesman Wants Connections

FIVE CENTS A WORD, minimum charge $1.50 an insertion, for advertisement under:

- Agencies Wanted
- Agents Wanted
- Business Opportunities
- Desk Room for Rent
- Educational
- Employment Agencies
- Desk Room Wanted
- Foreign Business
- Positions Vacant
- Partner Wanted
- Representations Wanted
- Salesmen Wanted
- Patents for Sale
- Plants for Sale
- Sub-Contracts Wanted
- Work Wanted

Miscellaneous for Sale, for Rent or Want Ads.

THIRTY CENTS A LINE, minimum five lines, for all undisplayed advertisements set with a paragraph for each item or tabulated.

THREE DOLLARS AND SIXTY CENTS AN INCH for advertisements for bids (Official Proposals).

Ad Set in Display Type

(Individual space, within border rules)

Space for these advertisements is sold by the inch. Each page contains 30 inches. The rate per inch is based on the *total* number of inches to be used—that is, the number of inches the advertisement is to occupy multiplied by the number of insertions it is to receive. For instance, a 2-inch advertisement in 2 issues earns the 4-inch rate of $3.90 an inch. A 1-inch space in 4 issues, or a 4-inch space in one issue, also earn the 4-inch rate.

SCHEDULE OF RATES

1 to 3 in.,	$4.00 an in.	15 to 26 in.,	$3.70 an in.
4 to 7 in.,	3.90 an in.	27 to 49 in.,	3.60 an in.
8 to 14 in.,	3.80 an in.	50 to 99 in.,	3.50 an in.

Rates for larger space furnished on request

For quick and satisfactory results tell the reader everything that he will want to know.

INFORMATION

ALLOW FIVE WORDS for the address, if replies are to a box number in care of any of our offices. There is no extra charge for forwarding replies.

IN REPLYING TO ADS. do not enclose original testimonials or anything that you may want returned. State your experience and qualifications in as concise and neat a manner as possible and enclose copies of your testimonials.

BE CAREFUL TO PUT ON ENVELOPE, when answering any "blind" ad, the box number in the ad, the name of the paper, and also the local address of office to which reply is sent:

36th St., at 10th Ave.,	New York
935 Real Estate Trust Bldg.,	Philadelphia
657 Leader-News Bldg.,	Cleveland
1570 Old Colony Bldg.,	Chicago
519 Newhouse Bldg.,	Salt Lake City
501 Rialto Bldg.,	San Francisco

WHEN ADVERTISING MACHINERY, use your own name and address—or a local address of some kind—so that the readers can wire direct and get quick replies. We advise also that you state in your advertisement the present location of plant that is offered for sale, or point of delivery provided you are in the market for equipment.

TO SIGN YOUR NAME and address to your advertisement begets the confidence of the reader and facilitates receiving replies. You can, however, obviate delay in receiving answers by signing your ad. only with initials (your own or others), care of your home, your office or a post-office box number in your city.

Bids: Feb. 21.

Cast Iron Water Pipe

City Hall, Bayonne, N. J.

Proposals for bids for the furnishing of 30-in. cast-iron water pipe, and the laying of the same under and across the Hackensack River, and on the east and west sides thereof, to connect with the pipe lines of the City of Bayonne, and all other work relating thereto.

Sealed proposals will be received from 4 o'clock to 4:15 o'clock P.M., on Friday, February 21, 1919, by the Board of Commissioners of the City of Bayonne, in public meeting in the City Hall, and opened at the last named hour, for the furnishing and providing of all materials, machinery and plant, and the performing of all necessary work required in the carrying out of two certain agreements, dated November 18, 1918, made and entered into between the Mayor and Council of the City of Bayonne and the Federal Shipbuilding Company, and the Blast Furnace Products Corporation, copies of which agreements are on file in the office of the City Clerk of Bayonne, and may be examined by prospective bidders.

The work is to be done under the supervision of and in accordance with the plans and specifications prepared by Morris R. Sherrerd, Consulting Engineer. The plans and specifications may be examined at his office, Room 214, 20 Clinton Street, Newark, N. J. Copies of the plans and specifications may be obtained at said office upon the deposit of ten dollars ($10) which deposit will be repaid upon the return of such plans and specifications, within thirty (30) days.

The work will include the furnishing and laying of approximately 3100 ft. of new 30-in. water pipe upon proper pile and timber foundation upon the east and west banks of the Hackensack River, and a double 30-in. cast-iron pipe with flexible joints in a trench to be dredged under the Hackensack River; with all necessary valves and connections thereto; also the taking up and relaying of about 3300 ft. of 30-in. cast-iron water pipe, now located upon the old right of way, on the east and west sides of the Hackensack River, and thoroughly cleaning and re-painting the same inside and out, and removing and relaying the same upon the new right of way parallel with the said new 30-in. line; also the furnishing and laying of about 900 ft. of 18-in. cast-iron water pipe, with necessary valves and appurtenances, and 760 ft. of 12-in. cast-iron water pipe, and 700 ft. of 4-in. cast-iron water pipe, all of said cast-iron pipe to be of Class B, American Water Works Standard.

The above work embraces approximately the following quantities:

Furnishing and laying 950 tons of 30-in. flexible joint cast-iron pipe.

Furnishing and laying 520 tons of 30-in. cast-iron pipe.

Taking up and relaying 3300 ft. of 30-in. cast-iron pipe.

Furnishing and laying 70 tons of 18-in. cast-iron pipe.

Furnishing and laying 30 tons of 12-in. cast-iron pipe.

Furnishing and laying 8 tons of 4-in. cast-iron pipe.

Furnishing and driving 1700 piles.

Dredging 100,000 cu.yd. in Hackensack River.

Placing 1000 cu.yd. of concrete.

Furnishing valves, hydrants and meters and other appurtenances.

All bids will state prices in writing as well as figures and proposals must be accompanied by the consent in writing of a Surety Company qualified to do business in New Jersey, who shall at the time of putting in such proposal, qualify as to its responsibility in the amount of such proposal, and bind itself that if the contract be awarded to the person or persons making the proposals, the said Surety Company will, upon the awarding of such contract, become surety for the faithful performance of the said contract, and to protect all persons performing labor or furnissing materials therefor, as required by law, said contract bond to be in an amount equal to the contract price as required by Chapter 75, Laws 1918.

All bids must be accompanied by a certified check for twenty-five thousand dollars ($25,000) to insure the city that if the person or persons to whom the contract may be awarded, shall omit or refuse to execute such contract, the City of Bayonne may deduct therefrom any difference between the sums to which said proposer would have been entitled upon the completion of the contract and that which the City of Bayonne might be obliged to pay to the person or persons by whom such contract should be finally executed. The certified checks of unsuccessful bidders to be returned upon the award of contract and certified check of successful bidder to be returned upon execution of contract and bond.

The Board of Commissioners of the City of Bayonne reserves the right to reject any proposal which may be informal, or the acceptance of which would be, in the judgment of the Commissioners, detrimental to the interests of the city.

By order of the Board of Commissioners of the City of Bayonne.

HORACE ROBERSON,
Director, Department of Revenue
and Finance, Bayonne, N. J.

MORRIS R. SHERRERD,
Consulting Engineer,
20 Clinton St.,
Newark, N. J.
January 31, 1919.

Bids: March 6.

Road Improvements

Fairmont, W. Va.

J. E. SMITH, County Clerk
of Tyler County, W. Va.,
Middlebourne, W. Va.

OFFICIAL PROPOSALS

Bids: Feb. 18.

Water Works Extensions

Bayard, Neb.

Sealed proposals will be received by the City Clerk of Bayard, Nebraska, until 8 o'clock p.m. on the 18th day of February, A. D. 1919, for the furnishing of all labor and material and constructing water works extensions in the City of Bayard, in accordance with plans and specifications on file in the office of the City Clerk, Bayard, Nebraska, and in the office of Selzer & Finley, Engineers, Scottsbluff, Nebraska.

Engineer's estimate of cost, $22,750.

Some of the approximate quantities are as follows:

7540 lin.ft. of 4-in., Class "B," cast iron water mains.

2800 lin.ft. of 6-in., Class "B," cast iron water mains.

155 lin.ft. of 8-in., Class "B," cast iron water mains.

2810 lb. of cast iron specials.

Eleven fire hydrants.

Thirteen 4-in. double gate valves and boxes.

Seven 6-in. double gate valves and boxes.

One 8-in. double gate valve and boxes.

One 14-in. well, cased, approximate depth, 72 feet.

One centrifugal pump direct connected to motor, including fittings, wiring, piping and all appliances and appurtenances, concrete pump pit for installation of pumping machinery.

Plans and specifications and form of proposal and contract may be had at the office of the City Clerk, Bayard, Nebraska, or at the office of Selzer & Finley, Scottsbluff, Nebraska, by depositing five dollars ($5), which will be refunded upon the receipt of a bona fide bid, accompanied by the plans and specifications.

Each bid must be accompanied by a certified check for $1200, made payable to the City of Bayard, the same to be retained by the City as liquidated damages in case the bidder refuses to enter into a contract with the City in accordance with his bid.

Bids will be opened at 8 o'clock p.m. on February 18, A. D. 1919, at the office of the City Clerk, Bayard, Nebraska.

The City Council reserves the right to reject any or all bids.

ORIN J. LATHROP,
City Clerk, Bayard, Neb.

Bids: March 4.

County Road Improvement

Augusta, Georgia.

Sealed proposals addressed to the County Commissioners of Richmond County, Augusta, Ga., will be received until 11 o'clock A.M., March 4, 1919, by County Commissioners of Richmond County, for furnishing labor and materials for paving approximately two (2) miles of road, beginning at city limits of Augusta, Ga., to be divided into three sections of 6,200 sq.yd. each, more or less.

Each bid must be accompanied by certified check, payable to the Commissioners of Roads and Revenues of Richmond County (Ga.), for (5%) five per cent of total sum of proposal or bid as a guarantee of good faith.

Detailed plans and specifications and maps of work may be seen and examined after February 15, 1919, at the office of the County Commissioners, County Court House, Augusta, Ga.

The County Commissioners reserve the right to reject any and all bids for any or all sections of said work.

By order of County Commissioners, Richmond County, Ga.

W. W. HUNTER, Engineer.

Feb. 7, 1919.

Bids: March 4.

Heating, Plumbing and Electric Work

Thiells, N. Y.

Sealed proposals for addition to Central Heating plant; construction work; chimney; boiler and stoker equipment; steam and heating plant equipment; heating work (extension of Underground distributing piping); plumbing and drainage, and electric work, at Letchworth Village, Thiells, N. Y., will be received by Hon. Frank A. Vanderlip, President Board of Managers of Letchworth Village, No. 7 Wall Street, New York City, until 12 o'clock Noon on Tuesday, March 4, 1919, when they will be publicly opened and read. Proposals shall be inclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bonds in the sum of fifty per cent (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3169, 3170, 3112, 3113, 3114, 3165 and 3166. The right is reserved to reject any or all bids. Drawings and specifications and blank forms of proposal may be consulted at Letchworth Village, Thiells, N. Y., at the New York Office of the Department of Architecture, 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blanks forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

February 4, 1919.

Bids: Feb. 18.

Sewer Main

Bayard, Neb.

Sealed proposals will be received by the City Clerk of Bayard, Nebraska, until 8 o'clock p.m., on the 18th day of February, 1919, for the furnishing of all labor and material and constructing a sewer main in the City of Bayard, in accordance with plans and specifications on file in the office of the City Clerk, Bayard, Nebraska, and in the office of Selzer & Finley, Engineers, Scottsbluff, Nebraska.

Engineer's estimate of cost, $7901.

The approximate quantities are as follows:

2798 lin.ft. of 15 in. V. C. pipe sewer.

Twenty 6-in. "Y's" on 15 in. sewer.

Ten manholes averaging 5.14 vertical feet.

6.73 cu.yd. of concrete.

Plans and specifications, form of contract, and proposal blanks may be had in the office of the City Clerk, Bayard, Nebraska, or at the office of Selzer & Finley, Engineers, Scottsbluff, Nebraska, by depositing five dollars for same; said sum will be returned upon the receipt of a bona fide bid accompanied by the plans and specifications.

Each bid must be accompanied by a certified check for $500, made payable to the City of Bayard, the same to be retained by the City as liquidated damages in case the bidder refuses to enter into a contract with the City in accordance with his bid.

Bids will be opened at 8 o'clock p.m. on February 18, 1919, at the City Hall, Bayard, Nebraska.

The City Council reserves the right to reject any or all bids.

O. J. LATHROP,
City Clerk, Bayard, Neb.

OFFICIAL PROPOSALS

Bids: Feb. 20.

Road Improvements

Rumson, N. J.

Notice is hereby given that sealed bids will be received by the Mayor and Council of the Borough ofRumson for the permanent improvement of the Rumson Road in the Borough of Rumson, County of Monmouth and State of New Jersey, with a bituminous surface upon a concrete foundation; estimated amount of surface pavement required is 29,175.55 sq.yd., of foundation 5,203.8 cu.yd.; and opened and read in public at a meeting of the said Mayor and Council to be held at the Council Chambers in the Oceanic Fire Engine House on Thursday, February 20, 1919, at eight P. M.

Drawings and specifications and forms of bids, contract and bond for the proposed work, prepared by George K. Allen, engineer, and approved by the State Highway Commission, have been filed in the office of the said Engineer, at No. 60 Broad Street, Red Bank, Monmouth County, New Jersey, and of said Commission at the State House, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of specifications and blue prints of the drawings by the Engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein, and required by the specifications, must be enclosed in sealed envelopes bearing the name and address of the bidder on the outside, addressed to Daniel A. Naughton, Borough Clerk, Rumson, New Jersey, and must be accompanied by a certified check or cash for not less than $1000, payable to the Collector of the Borough of Rumson, and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

All bids must be accompanied by a communication in writing from a surety company authorized to do business under the laws of the state of New Jersey, that it is willing, ready and able to act as surety on the bonds of the bidder in question, to the amount set forth in the specifications.

By order of the Mayor and Council of the Borough of Rumson.

DANIEL A. NAUGHTON,
Clerk.

Bids: Feb. 19.

Specifications and form of tender for all of the above can be obtained at the office of the City Engineer, Hamilton, Ontario.

A marked check for 10% of the amount of the tender (unless otherwise stated in Specifications), payable to W. R. Leckie, City Treasurer, must accompany each tender, which will be forfeited should the tenderer and his sureties fail to execute contract within four days after notice of

The lowest or any tender not necessarily acceptance by the City.
accepted.

S. H. KENT,
City Clerk.

Hamilton, January 30, 1919.

Bids: Feb. 26.

Electric Distribution Systems

South Boston, Mass.

Sealed bids or proposals for electric distribution systems, at Dry Dock, South Boston, will be received by the Commission on Waterways and Public Lands at its office, Room 473, State House, Boston, until 12 o'clock noon on Wednesday, February 26, 1919. The work to be done is the furnishing and installing complete and ready for operation electric distribution systems for electric power and lighting (including large lead sheathed copper cables and junction boxes for power, and small transformers, conduits, wiring, fixtures, etc., for interior lighting in the pump house) at the Dry Dock which the Commonwealth is constructing at South Boston.

All proposals must be made upon blank forms which may be obtained at the office of the Commission, where plans and specifications and other information relating to the work may be secured. Each bidder will be required to give to the Commission satisfactory assurance of his competency, experience and responsibility. The right is reserved to reject any and all bids and to waive any defect or informality at the discretion of the Commission.

JOHN N. COLE, Chairman.
JESSE B. BAXTER, Commissioners.
WILLIAM S. McNARY,
FRANK W. HODGDON,
Engineer.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., March 12, 1919, for constructing about 450,000 cu.yd of earthwork (354,000 cu.yd. hydraulic fill in old borrow pits, and 96,000 cu.yd. levee enlargement) in the Sny Island Levee Drainage District, Ill. Further information on application.

OFFICIAL PROPOSALS

Canal Improvements

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF
PUBLIC WORKS
NOTICE TO CONTRACTORS
Albany, February 10th, 1919.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., unti ltwelve o'clock noon of Tuesday, March 11th, 1919, at which place and hour they will be publicly opened and read, for improving the New York State canals pursuant to the provisions of Chapter 147 of the Laws of 1903, and of the acts amendatory thereof and supplementary thereto, and Chapter 570 of the Laws of 1915, as follows:

CONTRACT NO. 190
Erie Canal—Section 9

For completing the canal from King's Bend to the Lehigh Valley railroad crossing at Rochester.

Sheets 1 to 14, inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

OFFICIAL PROPOSALS

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the State for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON,
Superintendent of Public Works.

Bids: March 4.

Concrete Bridge

Lewisburg, W. Va.

Bids will be received by the County Court of Greenbrier County, Lewisburg, W. Va., until noon, March 4, for the construction of a concrete bridge over Wades Creek, on the James River and Kanawha Pike, one mile east of the White Sulphur Springs. For detailed information apply to Frank K. Rader, County Engineer, Lewisburg, W. Va.

The County Court reserves the right to reject any and all bids.

FRANK K. RADER,
County Engineer.

POSITIONS VACANT

AN engineer or architect wanted, preferably with acquaintance in New York and Boston, who is experienced in concrete design and testing, to take charge of and develop this branch of the office of a firm of consulting engineers of national reputation. Income to be entirely dependent on ability to obtain and hold clientage. -711, Eng. News-Record.

OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Canal Improvements

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS
NOTICE TO CONTRACTORS
Albany, February 10th, 1919.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., unti ltwelve o'clock noon of Tuesday, March 11th, 1919, at which place and hour they will be publicly opened and read, for improving the New York State canals pursuant to the provisions of Chapter 147 of the Laws of 1903, and of the acts amendatory thereof and supplementary thereto, and Chapter 570 of the Laws of 1915, as follows:

CONTRACT NO. 190
Erie Canal—Section 9

For completing the canal from King's Bend to the Lehigh Valley railroad crossing at Rochester.

Sheets 1 to 14, inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the State for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON.
Superintendent of Public Works.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

Bids: March 4.

Heating, Plumbing and Electric Work

Thiells, N. Y.

Sealed proposals for addition to Central Heating plant; construction work; chimney; boiler and stoker equipment; steam and heating plant equipment; heating work (extension of Underground distributing piping); plumbing and drainage, and electric work, at Letchworth Village, Thiells, N. Y., will be received by Hon. Frank A. Vanderlip, President Board of Managers of Letchworth Village, No. 7 Wall Street, New York City, until 12 o'clock Noon on Tuesday, March 4, 1919, when they will be publicly opened and read. Proposals shall be inclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bonds in the sum of fifty per cent (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3169, 3170, 3112, 3113, 3114, 3165 and 3166. The right is reserved to reject any or all bids. Drawings and specifications and blank forms of proposal may be consulted at Letchworth Village, Thiells, N. Y., at the New York Office of the Department of Architecture, 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blanks forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

February 4, 1919.

Bids: March 1.

Sewerage System

Phillipsburg, N. J.

Sealed proposals for the construction of the sewerage system will be received by the Board of Commissioners of the Town of Phillipsburg, New Jersey, until 1 P.M., Monday, March 3, 1919.

The work consists of Contract III—Collecting Trunk Sewer:

1287 ft. 20-in. vitrified pipe sewer.
3014 ft. 24-in. vitrified pipe sewer.
351 ft. 27-in. vitrified pipe sewer.
24 manholes.

Contract V—South Main Street Storm Sewer:

171 ft. 18-in. vitrified pipe sewer.
963 ft. 22-in. vitrified pipe sewer.
409 ft. 24-in. vitrified pipe sewer.
8 manholes.

A certified check drawn to the order of James L. Lomerson, Treasurer, in the sum of one thousand dollars ($1000), must accompany each proposal, to be held as liquidated damages. Plans, profiles, specifications, blank forms of proposals, and all other information may be obtained at the office of the Town Engineer. The Board reserves the right to reject any part of any proposal, or any and all proposals.

C. E. TILTON, Town Engineer.

February 10, 1919.

Bids: Feb. 21.

Cast Iron Water Pipe

City Hall, Bayonne, N. J.

Proposals for bids for the furnishing of 30-in. cast-iron water pipe, and the laying of the same under and across the Hackensack River, and on the east and west sides thereof, to connect with the pipe lines of the City of Bayonne, and all other work relating thereto.

Sealed proposals will be received from 4 o'clock to 4:15 o'clock P.M., on Friday, February 21, 1919, by the Board of Commissioners of the City of Bayonne, in public meeting in the City Hall, and opened at the last named hour, for the furnishing and providing of all materials, machinery and plant, and the performing of all necessary work required in the carrying out of two certain agreements, dated November 18, 1918, made and entered into between the Mayor and Council of the City of Bayonne and the Federal Shipbuilding Company, and the Blast Furnace Products Corporation, copies of which agreements are on file in the office of the City Clerk of Bayonne, and may be examined by prospective bidders.

The work is to be done under the supervision of and in accordance with the plans and specifications prepared by Morris R. Sherrerd, Consulting Engineer. The plans and specifications may be examined at his office, Room 214, 20 Clinton Street, Newark, N. J. Copies of the plans and specifications may be obtained at said office upon the deposit of ten dollars ($10) which deposit will be repaid upon the return of such plans and specifications, within thirty (30) days.

The work will include the furnishing and laying of approximately 3100 ft. of new 30-in. water pipe upon proper pile and timber foundation upon the east and west banks of the Hackensack River, and a double 30-in. cast-iron pipe with flexible joints in a trench to be dredged under the Hackensack River; with all necessary valves and connections thereto; also the taking up and relaying of about 3300 ft. of 30-in. cast-iron water pipe, now located upon the old right of way, on the east and west sides of the Hackensack River, and thoroughly cleaning and re-painting the same inside and out, and removing and relaying the same upon the new right of way parallel with the said new 30-in. line; also the furnishing and laying of about 900 ft. of 18-in. cast-iron water pipe, with necessary valves and appurtenances, and 760 ft. of 12-in. cast-iron water pipe, and 700 ft. of 4-in. cast-iron water pipe, all of said cast-iron pipe to be of Class B, American Water Works Standard.

The above work embraces approximately the following quantities:

Furnishing and laying 950 tons of 30-in. flexible joint cast-iron pipe.

Furnishing and laying 520 tons of 30-in. cast-iron pipe.

Taking up and relaying 3300 ft. of 30-in. cast-iron pipe.

Furnishing and laying 70 tons of 18-in. cast-iron pipe.

Furnishing and laying 30 tons of 12-in. cast-iron pipe.

Furnishing and laying 8 tons of 4-in. cast-iron pipe.

Furnishing and driving 1700 piles.

Dredging 100,000 cu.yd. in Hackensack River.

Placing 1000 cu.yd. of concrete.

Furnishing valves, hydrants and meters and other appurtenances.

All bids will state prices in writing as well as figures and proposals must be accompanied by the consent in writing of a Surety Company qualified to do business in New Jersey, who shall at the time of putting in such proposal, qualify as to its responsibility in the amount of such proposal, and bind itself that if the contract be awarded to the person or persons making the proposals, the said Surety Company will, upon the awarding of such contract, become surety for the faithful performance of the said contract, and to protect all persons performing labor or furnissing materials therefor, as required by law, said contract bond to be in an amount equal to the contract price as required by Chapter 75, Laws 1918.

All bids must be accompanied by a certified check for twenty-five thousand dollars ($25,000) to insure the city that if the person or persons to whom the contract may be awarded, shall omit or refuse to execute such contract, the City of Bayonne may deduct therefrom any difference between the sums to which said proposer would have been entitled upon the completion of the contract and that which the City of Bayonne might be obliged to pay to the person or persons by whom such contract should be finally executed. The certified checks of unsuccessful bidders to be returned upon the award of contract and certified check of successful bidder to be returned upon execution of contract and bond.

The Board of Commissioners of the City of Bayonne reserves the right to reject any proposal which may be informal, or the acceptance of which would be, in the judgment of the Commissioners, detrimental to the interests of the city.

By order of the Board of Commissioners of the City of Bayonne.

HORACE ROBERSON,
Director, Department of Revenue
and Finance, Bayonne, N. J.
MORRIS R. SHERRERD,
Consulting Engineer,
20 Clinton St.,
Newark, N. J.
January 31, 1919.

Bids: March 10.

County Road Works

FAYETTE COUNTY, WEST VIRGINIA

Fayetteville, West Virginia.

Sealed proposals will be received at the office of Clerk of the County Court, Fayetteville, West Virginia, until March 10, 1919, for paving two sections of county highway aggregating 9.5 miles.

Bids will be received for Portland cement concrete, bituminous macadam (penetration) and other improved types of paving. Bids must be made on the blank forms contained in the book of specifications. Specifications and other information can be obtained upon application to J. K. McGrath, County Road Engineer, Fayetteville, West Virginia.

A certified check for five per cent of the proposal, made payable to the order of the Sheriff of Fayette County, shall be filed with bid. The County Court reserves the right to reject any and all bids.

These roads have been graded and drained and are ready for surfacing.

By order of the County Court of Fayette County, West Virginia.

H. O. BOLEY, President.
R. J. STEGALL, Clerk.
J. K. McGRATH, Road Engineer.
Dated February 10, 1919.

Bids: March 4.

Dining Room Accommodations

Ward's Island, N. Y.

Sealed proposals for dining room accomodations for patients in main building, construction work; heating, sanitary and electric work, Manhattan State Hospital, Ward's Island, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 3 o'clock P.M., Tuesday, March 4, 1919, when they will be publicly opened and read. Proposals shall be inclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bonds in the sum of fifty per cent (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3124, 3132, 3133 and 3134. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Manhattan State Hospital, Ward's Island, N. Y., at the New York Office of the Department of Architecture, Room 1715, Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

E. S. ELWOOD,
Secretary, State Hospital Commission.
Dated: February 4, 1919.

Bids: Feb. 24.

Coast Guard Station No. 233, Charlotte, New York, to be opened 2 P.M., March 12, 1919." Addressed to the Commodore Commandant, U. S. Coast Guard Headquarters, Bond Building, Washington, D. C. E. P. BERTHOLF, Commodore Commandant.

OFFICIAL PROPOSALS

Bids: Feb. 18.

Water Main

Jersey City, N. J.

Sealed proposals will be received by the Board of Commissioners of Jersey City, N. J., Tuesday, February 18, 1919, at 2 P.M., in the Assembly Chamber, City Hall, Jersey City, for the construction of a water main under the Hackensack and Passaic Rivers, in accordance with plans and specifications, and addenda thereto, on file in the office of the City Clerk of Jersey City, for public inspection.

Blank forms of bid, showing estimate of quantities and agreements of sureties, must be obtained at the office of the Consulting Engineer, Laurence A. Ball, Room 23, City Hall, Jersey City. A deposit of $25 must accompany each application for copy of plans and specifications, which deposit will be refunded when plans and specifications are returned to the Consulting Engineer in good condition.

Proposals must be inclosed in sealed envelopes, endorsed **"Proposal for Water Main** Under Hackensack and Passaic Rivers," directed to this board, and handed to the City Clerk in open meeting when called for in the order of business relating to sealed proposals.

The bonds required to be furnished on proposals (and a possible subsequent contract) are those of some surety company authorized to do business in the State of New Jersey.

The Board reserves the right to reject any or all proposals if it is considered for the best interests of the city so to do.

By order of the Board of Commissioners of Jersey City.

Dated: City Clerk's Office,
FRANK A. DOLAN, City Clerk.
Jersey City, January 24, 1919.

Bids: March 6.

Grading and Paving Roadways

KNOX COUNTY COM'S. OFFICE
Mt. Vernon, Ohio.

Sealed proposals will be received at the office of the County Auditor Mt. Vernon, Ohio, until 1 o'clock P.M., Monday, March 10, 1919, for improvements in:

Hilliar Twp., Knox Co., on Sec. "A" of the Centerburg-Croton Road. For constructing culverts and bridges, grading roadway and paving with tar-bound macadam. Width: Pavement, 14 ft. Roadway, 26 ft. Length, 9436.5 ft., or 1.78 miles.

Estimated cost of construction, $40,691.68.

Date set for completion, Nov. 1, 1919.

The bidder must submit a proposal and contract bond for an amount equal to the amount of the estimated cost.

Plans and specifications are on file in the office of the County Surveyor and the County Auditor.

The County Commissioners reserve the right to reject any or all bids.

A. D. RINEHART,
County Auditor.

Dated: February 11, 1919.

Bids: March 22.

Eleven Miles of Railroad

Tillamook County, Oregon.

Bids will be received up to March 17th, 1919, and contract will be awarded March 22, 1919, by this company for the construction of about eleven miles of standard gauge railroad in Tillamook County, Oregon. Proposals, maps and all data necessary for intelligent estimates can be had by addressing or calling A. P. Cole, Chief Engineer, 904 Lewis Building, Portland, Oregon, (or c/o Bay City P. O., Oregon).

THE WHITNEY COMPANY

Bids: March 10.

Road Improvements

Salem, N. J.

Notice is hereby given that sealed bids will be received by Road Committee of the Board of Chosen Freeholders of the County of Salem, for the building of 4th and 5th Sections of Malaga-Pennsgrove Road in the township of Pilesgrove in the County of Salem, with a concrete surface, estimated amount of surface pavement required is 41,453 sq.yd., and opened and read in public at the Court House in Salem, on March 10, 1919, at 10:30 A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by H. B. Keasbey, County Engineer, and approved by the State Commissioner of Public Roads have been filed in the office of the said Engineer at Salem, N. J., and of said Commissioner at the State House, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawing by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be inclosed in sealed envelopes, bearing the name and address of bidder on the outside, addressed to the Road Committee of the Board of Chosen Freeholders of the County of Salem, and must be accompanied by a certified check for not less than $1000 and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of the Board of Chosen Freeholders of the County of Salem.

I. C. SMASHEY, Clerk.

OFFICIAL PROPOSALS

Bids: March 15.

Steel Deck Plate Girder Railroad Bridge

Charleston, Miss.

Bids will be received until March 15, 1919, for furnishing all labor, construction plant and all equipment for the complete erection of the sub- and super-structure of a steel railroad bridge for the Lamb-Fish Lumber Company, Charleston, Miss., across the Tallahatchie River, seven miles westerly of Charleston, Tallahatchie County, Mississippi.

The bridge will consist of three deck plate girder spans, forty, seventy-four and sixty-one feet in length, the central 74-ft. span being a vertical lift span of the "Waddell" type. The spans will be carried on four concrete piers, pedestals of which will rest on wooden piles. Approximate quantities are as follows:

Concrete in piers bases	420 cu.yd.
Piles below bases of piers	2750 lin.ft.
Concrete in piers shafts	500 cu.yd.
Structural steel	130 tons
Machinery	14 tons
Rails and fastenings	8000 lb.
Timber in deck	37 M.ft.

All materials will be delivered to the contractor f.o.b. cars at the bridge site. The bridge approaches will not be included in the contract.

The present contract form and specifications are prepared on a fixed cost plus fixed profit basis, wherein the bidder states his estimated cost and profit, and if he under runs his estimate of cost he receives bonus, where as if he over runs he loses part of his profit, but proposals and bids based on a "lump sum contract" will be also carefully considered.

Each bid is to be accompanied by a certified check for one thousand dollars payable to the Lamb-Fish Lumber Company. The right is reserved to reject any and all bids.

Plans and specifications can be obtained from

LAMB-FISH LUMBER COMPANY,
VICTOR K. WAGNER, Civil Engineer,
Charleston, Mississippi.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., March 19, 1919, for constructing about 290,000 cubic yards of earthwork (210,000 cubic yards hydraulic fill in old borrow pits; and 80,000 cubic yards levee enlargement) in the Lima Lake Drainage District, Ill. Further information on application.

Put Public Buying on an Efficiency Basis

NOW, more than ever before, it is important that those having contracts to let, whether for new work or the furnishing of machinery or supplies, should consider the best methods of securing extensive competition and low bids.

Engineering News-Record

with a circulation of over 32,000 a week, reaches almost every worthwhile contractor, manufacturer and dealer interested in public contracts.

Over 4,000 Official Proposals

have been published each year in Engineering News and Engineering Record, now consolidated as the Engineering News-Record. These small investments for advertising have invariably saved large sums on the contract prices. You can now cover the entire field and secure the greatest possible competition from reliable contractors by publishing your advertisements for bids in the

One Dominant Paper

This will put your public buying on an efficiency basis. It will make the tax payers' money go farther and will give you a reputation for a business administration. Local bidders always figure closer when they find that the letting of a contract is being advertised in

OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Canal Improvements

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS
NOTICE TO CONTRACTORS

Albany, February 10th, 1919.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., unti ltwelve o'clock noon of Tuesday, March 11th, 1919, at which place and hour they will be publicly opened and read, for improving the New York State canals pursuant to the provisions of Chapter 147 of the Laws of 1903, and of the acts amendatory thereof and supplementary thereto, and Chapter 570 of the Laws of 1915, as follows:

CONTRACT NO. 190
Erie Canal—Section 9

For completing the canal from King's Bend to the Lehigh Valley railroad crossing at Rochester.

Sheets 1 to 14, inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the State for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON.
Superintendent of Public Works.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of the Board of Chosen Freeholders of the County of Salem.

I. C. SMASHEY, Clerk.

Bids: March 4.

Road Improvement

West Virginia.

Sealed proposals for the improvement of the following roads addressed to the county court of Hancock county, West Virginia, will be received by the undersigned until 1 P.M., March 4, 1919:

Section A—Of Federal Aid Project. No. 22, $\frac{3}{10}$ mile.

Section B—Of Federal Aid Project. No. 22, 75/100 mile. To be paved with brick on concrete base 9 ft. wide.

Section 2—Lawrenceville Road. Grant district, 1 mile.

Section 3—Chester-Pughtown Road. Grant district, 1 mile.

Section 2—Harden's Run Road. Clay district, ½ mile.

Section 3—Ewing Run Road. Clay district, ½ mile.

To be paved with brick or concrete 9 ft. wide.

Plans and specifications may be seen at the office of the County Clerk and of the Federal Aid Project at the office of the State Road Commission, Charleston, W. Va. Proposals shall be submitted on blank forms to be provided by the undersigned and shall be accompanied by a certified check for $500 for each proposal. The right is reserved to reject any or all bids.

R. R. HOBBS,
County Clerk,
New Cumberland, W. Va.

OFFICIAL PROPOSALS

Bids: March 4.

County Road Improvement

Augusta, Georgia.

Sealed proposals addressed to the County Commissioners of Richmond County, Augusta, Ga., will be received until 11 o'clock A.M., March 4, 1919, by County Commissioners of Richmond County, for furnishing labor and materials for paving approximately two (2) miles of road, beginning at city limits of Augusta, Ga., to be divided into three sections of 6,200 sq.yd. each, more or less.

Each bid must be accompanied by certified check, payable to the Commissioners of Roads and Revenues of Richmond County (Ga.), for (5%) five per cent of total sum of proposal or bid as a guarantee of good faith.

Detailed plans and specifications and maps of work may be seen and examined after February 15, 1919, at the office of the County Commissioners, County Court House, Augusta, Ga.

The County Commissioners reserve the right to reject any and all bids for any or all sections of said work.

By order of County Commissioners, Richmond County, Ga.

W. W. HUNTER, Engineer.

Feb. 7, 1919.

Bids: March 20.

Road Work—Re-Letting

West Virginia.

Sealed proposals for the construction of the following roads addressed to the County Court of Barbour County, West Virginia and endorsed "Proposals for Construction of Class A Road in Barbour County," will be received by said Court at the office the Clerk of said Court in Philippi, W. Va., until 1 P.M. on the 20th day of March, 1919.

The Fairmont and Beverley Turnpike Federal Aid Projects No. 16 and No. 27—Bituminous macadam: 14 ft. wide, 6.5 miles.

The Junior Road—Bituminous macadam: 14 ft. wide, 2.85 miles.

Plans and Specifications may be seen at the office of said County Clerk and at the office of the State Road Commission, Charleston, W. Va.

Proposals shall be submitted upon the blank forms to be provided by the undersigned and shall be accompanied by a certified check for at least 5 per cent. of the total amount bid.

The right is reserved to reject any or all bids.

S. F. HOFFMAN,
Clerk of Barbour County Court,
Philippi, W. Va.

Bids: March 18.

Grading Boulevard

Kansas City, Mo.

Bids will be received by the Board of Park Commissioners of Kansas City, Missouri, up to 2 o'clock March 18th, 1919, at their office, for the grading of Van Brunt Boulevard from the north line of Van Brunt Boulevard along 12th Street, to the north line of Linwood Boulevard. Deposit in the sum of $1500.00, cash or certified check made payable to the City Comptroller, will be required with each bid. CIVIL engineer, ten years' surveys, investigations, development of mines, water power, lands and timber projects in northern Canada, wishes connection with development or construction company with interests there. PW-741, Eng. News-Record.

STUDY BY MAIL

Reinforced Concrete Engineering

Structural Steel Designing

Structural Drafting

Are you able to design and estimate the cost of any and all types of structures in Reinforced Concrete, Steel or Wood? And are your designs safe, economical and up to the minute? If not, WHY NOT?

Special courses of HOME STUDY have been arranged by well known engineer with 30 years' experience in this country and abroad; they are meeting a long felt want.

Men with a High School education are as qualified to take up these courses of work as are technical graduates. Ideal work for the man who wants to "brush up" after being away.

These are courses in experience. You learn to do the work by *actually doing it.* A chance for the ambitious man to get ahead.

Descriptive literature sent free upon request.

Bids: March 11.

Canal Improvements

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS
NOTICE TO CONTRACTORS

Albany, February 10th, 1919.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., unti ltwelve o'clock noon of Tuesday, March 11th, 1919, at which place and hour they will be publicly opened and read, for improving the New York State canals pursuant to the provisions of Chapter 147 of the Laws of 1903, and of the acts amendatory thereof and supplementary thereto, and Chapter 570 of the Laws of 1915, as follows:

CONTRACT NO. 190
Erie Canal—Section 9

For completing the canal from King's Bend to the Lehigh Valley railroad crossing at Rochester.

Sheets 1 to 14, inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, form of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of the contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

OFFICIAL PROPOSALS

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the State for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON,
Superintendent of Public Works.

Bids: March 18.

Grading Boulevard

Kansas City, Mo.

Bids will be received by the Board of Park Commissioners of Kansas City, Missouri, up to 2 o'clock March 18th, 1919, at their office, for the grading of Van Brunt Boulevard from the north line of Van Brunt Boulevard along 12th Street, to the north line of Linwood Boulevard. Deposit in the sum of $1500.00, cash or certified check made payable to the City Comptroller, will be required with each bid. Plans, specifications and form of contract can be seen at the office of the Board. The Board reserves the right to reject any or all proposals, and contract may be let to the lowest and best bidder. Additional information furnished upon application to T. C. Harrington, Secretary.

OFFICIAL PROPOSALS

Bids: March 25.

Steel Pipe and Appurtenances

Jersey City, N. J.

Sealed proposals for furnishing and laying, complete, 34,590 ft. of 72-in. rivetted steel pipe and appurtenances, will be received by the Board of Commissioners of Jersey City, N. J., in the Assembly Chamber of the City Hall, Jersey City, N. J., Tuesday, March 25, 1919, at 2 P.M., at which place and time they will be publicly opened.

Proposals must be accompanied by the consent in writing of a surety company authorized to do business according to the laws of the State of New Jersey, that, should the proposal be accepted it will become surety in the full amount of the contract, as provided in specifications and in Chapter 75, P. L. 1918, of the State of New Jersey.

Copies of the plans, proposal forms, specifications and forms of bond and contracts, can be seen at the office of Frank A. Dolan, City Clerk, City Hall, Jersey City, N. J., or at the office of Michael I. Fagen, Director, Department of Streets and Public Improvements, City Hall, Jersey City, N. J., or at the office of Mr. Clyde Potts, Consulting Engineer, 30 Church Street, New York City, or may be obtained at the office of Michael I. Fagen, Director, Department of Streets and Public Improvements, City Hall, Jersey City, N. J., or at the office of Mr. Clyde Potts, Consulting Engineer, 30 Church Street, New York City, by prospective bidders, upon depositing twenty-five ($25) dollars, which sum will be refunded on return of the plans and specifications within ten days after the contract has been awarded, if same are in good condition when returned.

he Board of Commissioners of Jersey City reserves the right to reject any and all proposals.

By order of the Board of Commissioners of Jersey City.

FRANK A. DOLAN,
City Clerk.

Dated: Feb. 18, 1919.

Bids: March 10.

Grading and Paving Roadways

C., February 26, 1919.—Sealed proposals will be opened in this office at 3 p.m., April 15, 1919, for the installation complete of three electric triplex elevator pumps, etc., in the United States courthouse, customhouse, and post office at Omaha, Nebr., in accordance with the drawing and specification, copies of which may be had at this office in the discretion of the Supervising Architect.—James A. Wetmore, Acting Supervising Architect.

N. B.—Bidders are required to return the drawing and specification without marks, notes, or other mutilations.

The Government frank sent to inteding bidders is to be used for the return of the drawing and specification and for no other purpose.

OFFICIAL PROPOSALS

Bids: March 20.

Water-Works Tunnel

OFFICE OF THE DEPARTMENT OF PUBLIC WORKS

Milwaukee, February 28, 1919.

Sealed proposals will be received at this office until March 20th, 1919, at 10:30 A.M. for furnishing all materials and doing all the work necessary and required for constructing the Water Pipe Tunnel under Menomonee River, West Water Street to Reed Street, and two shafts, and for laying a connecting Water Pipe Line at locations as shown on the plans.

This contract requires the construction of approximately one hundred eighty-one (181)' lineal feet of steel encased concrete shafts, ten (10) feet in internal diameter, two hundred sixty eight (268) lineal feet of reinforced concrete lined tunnel under the bed of the Menomonee River, seven (7) feet by nine (9) feet in internal dimensions. It also requires the placing of about four hundred forty (440) lineal feet of twenty-four (24) inch diameter cast iron water pipe in the shafts and tunnel, and about seven hundred sixty-five (765) lineal feet of twenty-four (24) and twenty (20) inch diameter cast iron water pipe laid in trenches from the shafts to the connecting water mains in Reed Street and Third Street extended, all as shown on the plans and described in the specifications now on file in the Office of the City Engineer.

The time allowed for the completion of this contract shall be seven (7) months from the date of the Engineer's notice to begin work.

Bidders are required to furnish bid bonds in the penal sum of $24,000.00 or in lieu thereof, the bidder may deposit with the Commissioner of Public Works the sum of $12,000.00 in money or certified bank check, payable to the Commissioner of Public Works, failing in which his bid will be rejected.

The Commissioner of Public Works reserves the right to reject any or all bids.

Full sets of plans will be sent to any Contractor desiring to bid, upon the receipt of Ten Dollars ($10.00). Said sum shall be returned by the City after the set of plans are returned in good condition to the City Engineer.

PERCY BRAMAN,
Dep. Commissioner of Public Works.
Countersigned.
L. M. KOTECKI,
Comptroller.

Bids: March 27.

Concrete Bridge

OFFICE OF BOARD OF PUBLIC WORKS
City of Janesville, Wis.

Sealed proposals will be received at this office until March 27th, 1919, for the construction of a reinforced Concrete Bridge over Rock River on Jackson Street consisting of six 54 foot spans 55 feet wide in accordance with plans and specifications. Plans and details on file in this office. A certified check for 5% of bid required. Copies of official notice, specifications and form of contract and bond furnished on application.

C. L. VALENTINE, Chairman.
C. V. KERCH, City Engr.
Feb. 24. 1919.

PROPOSALS FOR SOUTH WING SOUTH CADET Barracks and Guard House. Office Qaurtermaster, West Point, N. Y. Sealed proposals will be received here until 12 M., March 27, 1919, and then opened, for construction of South Wing South Cadet Barracks and Guard House. Information on application.

OFFICIAL PROPOSALS

Bids: March 19.

Furnishing and Erecting Thirty Million Gallon Turbo-Centrifugal Pump and Auxiliary Equipment for Mount Royal Pumping Station

Baltimore, Md.

Sealed proposals in duplicate endorsed bids for furnishing and erecting 30,000,000 gallon turbo-centrifugal pump for Mt. Royal Pumping Station will be received at the office of the City Register, City Hall, Baltimore, Md., until 12 o'clock noon, Wednesday, March 19, 1919.

Plans and specifications can be obtained at the office of the Water Engineer, City Hall, Baltimore, Md., on and after March 1, 1919. A charge of five dollars ($5) will be made for each set of plans and specifications; this amount will be refunded upon the return of these plans and specifications in good condition before March 26, 1919. Specifications used in making a bid will be considered as returned.

A certified check of the bidder on a clearing-house bank made payable to the Mayor and City Council of Baltimore, for the sum of five thousand dollars ($5000) will be required with each bid.

The extent of the work is approximately as follows:

For furnishing and erecting one 30,000,000 gallon turbine driven centrifugal pump; reduction gearing; condenser and auxiliaries, including condensate and air removal pumps.

The successful bidder will be required to give bond to comply with the City Charter respecting contracts.

While bids are asked for on the various items the contract will be let as a whole.

The Board of Awards reserves the right to reject any or all bids and to waive technical defects if in its judgment it is to the best interest of the city to do so.

WALTER E. LEE,
Water Engineer.

Approved:
J. BARRY MAHOOL,
Acting Pres. Board of Awards.

Bids: March 20.

Pavement Construction

Logan, Iowa.

Sealed proposals will be received by the undersigned until 8 o'clock, P.M., March 20, 1919, for the work of constructing approximately 60,000 square yards of concrete or monolithic brick pavement, 40,000 linear feet of concrete curb and gutter, and a storm sewer system, etc.

Plans, profiles, specifications and form of proposal, contract and bond may be seen at the office of the undersigned, and may be obtained from the engineer upon receipt of $10.00, which will be returned upon return of plans, etc., in good condition.

HERBERT WESSELS, Clerk.

OFFICIAL PROPOSALS

Bids: March 15.

Laboratory Construction Work

Albany, N. Y.

Sealed proposals for Construction Work —Sterile Rooms, Media Hood, Refrigerator, Cupboards and Shelvings, Electric Dumb Waiters and Electric Clock System, Laboratory Building, Division of Laboratories, State Department of Health, Albany, N. Y., will be received by Dr. H. M. Biggs, Commissioner of Health, State Department of Health, Albany, N. Y., until 11 o'clock A.M. on Saturday, March 15, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bonds in the sum of fifty per cent. (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3195, 3173 and 3175. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the New York Office of the Department of Architecture, 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

Dated: February 24. 1919.

Dam Construction

Gilboa, N. Y.

Plans and specifications for the Gilboa dam are in course of preparation and a contract for this work will be advertised as soon as conditions warrant.

This dam, which will form the Schoharie Reservoir of the Catskill Water Supply, will be a cyclopean masonry overfall structure wit han earth wing, spillway channel and appurtenances. It will be built across Schoharie Creek, in the Town of Gilboa, about 4 miles northeast from the Town of Grand Gorge on the Ulster & Delaware Railroad.

Interested contractors may obtain preliminary information at the office of the Chief Engineer of the Board of Water Supply, 22d floor, Municipal Building, New York City.

Bids: March 17

Eleven Miles of Railroad

Tillamook County, Oregon.

Bids will be received up to March 17th, 1919, and contract will be awarded March 22, 1919, by this company for the construction of about eleven miles of standard gauge railroad in Tillamook County, Oregon. Proposals, maps and all data necessary for intelligent estimates can be had by addressing or calling A. P. Cole, Chief Engineer, 904 Lewis Building, Portland, Oregon, (or c/o Bay City P. O., Oregon).

THE WHITNEY COMPANY

U. S. ENGINEER OFFICE, 1st District, Cincinnati, O. Sealed proposals will be received here until 2 p.m., March 29, 1919, and then opened for constructing Lock and Abutment for Dam No. 30, Ohio River, near Greenup, Ky. Further information on application.

Bids: March 18.

Bituminous Materials

State of New York.

State of New York, Office of the State Commission of Highways, Albany, N. Y.—Pursuant to the provisions of Chapter 30, Laws of 1909, as amended by Chapter 646, Laws of 1911, and Chapter 80, Laws of 1913, sealed proposals will be received by the undersigned for furnishing and delivering bituminous materials f.o.b. cars at destination, for use by the State Highway Department in the maintenance and repair of improved State and County Highways in all of the counties of the State unless otherwise specified, at the office of the State Commission of Highways, 55 Lancaster Street, Albany, N. Y., at one o'clock p.m. on Tuesday, the 18th day of March, 1919, for the following contracts:

B. M. Contract No. 1—Bituminous Material Cold Patch Asphaltic Emulsion in Divisions Nos. 1, 2, 3, 4 and 5.

B M. Contract No. 2—Bituminous Material Cold Patch Asphaltic Emulsion in Divisions Nos. 6, 7, 8 and 9.

B. M. Contract No. 3—Bituminous Material Asphaltic Cut-Back.

B. M. Contract No. 4—Bituminous Material A. Binder.

B. M. Contract No. 5—Bituminous Material A. Light Cold Oil and Light Hot Oil.

B. M. Contract No. 6—Bituminous Material T. Cold Patch.

B. M. Contract No. 7—Bituminous Material T. Binder and Cold Application.

All proposals except Contracts Nos. 1 and 2 will be for furnishing the specified material at any railroad delivery point within this state. Proposals for Contracts 1 and 2 will be for furnishing that specified material at any railroad point within the nties comprising the divisions named in the proposal.

Tables showing approximate quantities and railroad delivery point specifications and proposals may be obtained at the office of the State Commission of Highways at Albany, N. Y.

Each proposal must be accompanied by cash or certified check payable to the order of the State Commission of Highways for an amount equal to at least five per centum of the amount of the proposal which such cash or check accompanies. This cash or check will be held by the Commission until the contract is executed and the bond is filed. The successful bidder on each proposal will be required to give a bond for fifty per centum of the amount of the contract, such bond to be executed by a surety company to be approved by the Commission. The bond is for the purpose of insuring the delivery of the bituminous material as called for by the Commission. The right is reserved to reject any or all bids.

EDWIN DUFFEY,
Commissioner.

I. J. MORRIS,
Secretary.

ROBERT P. WILLIAMS,
City Recorder.

JOHN W. FLENNIKEN,
Com'r. Sts. & Pb. Imp.
J. B. M. McCALLA,
City Engineer.

Bids: March 21.

Sewers

Granite City, Ill.

Bids will be received by the Board of Local Improvements of the City of Granite City, Illinois, at the hour of two o'clock p.m., March 21, 1919, at the City Hall in Granite City, Ill.

Estimated 18,000 lin.ft. of concrete sewer from nine (9) feet diameter to three feet six inches (3' 6") diameter.

Specifications, plans and estimate may be seen at the office of EDMUND HALL, Engineer, First National Bank Building, Granite City, Ill.

Bids: March 26.

Road Work

Marion County, W. Va.

Sealed proposals will be received until 12 o'clock noon March 26th, 1919, by the County Court of Marion County, for the construction of 8.73 miles of brick and concrete roads in Paw Paw, Lincoln and Mannington Districts.

Specifications and instructions to bidders are on file in the County Clerk's Office, and at the office of W. M. Linn, Road Engineer, Fairmont, W. Va.

A certified check in the sum of $500.00 must accompany each bid. The County Court reserves the right to reject any or all bids.

A. G. MARTIN,
Clerk of the County Court of
Marion County, W. Va.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., March 26, 1919, for constructing about 47,000 cubic yards of earthwork in the East Cape Girardeau and Clear Creek Drainage District, Ill. Further information on application.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., March 19, 1919, for constructing about 290,000 cubic yards of earthwork (210,000 cubic yards hydraulic fill in old borrow pits; and 80,000 cubic yards levee enlargement) in the Lima Lake Drainage District, Ill. Further information on application.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., March 19, 1919, for constructing about 110,000 cubic yards of earthwork (75,000 cubic yards hydraulic fill in old borrow pits; and 35,000 cubic yards levee enlargement) in the Hunt Drainage District, Ill. Further information on application.

Bids: March 28.

Pavement Reconstruction

Harrisburg, Pa.

Pennsylvania State Highway Department, Harrisburg, Pa. Sealed proposals will be received at said office until 10 A.M., March 28, 1919, when bids will be publicly opened and scheduled, and contracts awarded as soon thereafter as possible for the reconstruction of the following pavements: 21,680 linear feet of Reinforced Concrete and Hillside Vitrified Brick in Armstrong Co.: 10,800 feet of Reinforced Concrete and Hillside Vitrified Brick in Berks Co.; 31,700 feet of Reinforced Concrete in Bradford Co.; 4983 feet of Vitrified Brick in Cambria Co.; 676 feet of Vitrified Brick, also 32,100 feet of Reinforced Concrete and Hillside Vitrified Brick in Centre Co.: 13,740 feet of Reinforced Concrete in Clinton Co.: 17,693 feet of Reinforced Concrete in Crawford Co.; 29,667 feet of Reinforced Concrete and Hillside Vitrified Brick in Elk Co.: 15,918 feet of Bituminous Surface Course on a concrete Foundation in Erie Co.; 20,086 feet of Reinforced Concrete in Franklin Co.; 23,912 feet of Reinforced Concrete in Mercer Co.; 1957 feet of Vitrified Brick in McKean Co.; 28,791 feet of Reinforced Concrete in Northumberland Co.; 11,800 feet of Reinforced Concrete in Potter Co.; and 7783 feet of Reinforced Concrete and Hillside Vitrified Brick in Warren Co. Bidding blanks and specifications may be obtained free, and plans upon payment of $2.50 per set, upon application to State Highway Department, Harrisburg. No refund for plans returned. They can also be seen at office of State Highway Department, Harrisburg, 1001 Chestnut Street, Philadelphia, and 904 Hartje Building, Pittsburgh, Pa.

LEWIS S. SADLER,
State Highway Commissioner.

Bids: March 25.

Paving

Mt. Olive, N. C.

Sealed proposals will be received by the Mayor and Board of Aldermen of the Town of Mt. Olive, N. C., at the Town Hall in Mt. Olive, N. C., until 5 P.M., March 25, 1919, for street improvements.

The work will consist of about:

25,000	sq.yd. of brick, asphalt, bitulithic, or other pavement.
15,000	lin.ft. of granite or concrete curb.
15,000	lin.ft. of concrete gutter.
20,000	sq.yd. of sidewalk.

And the necessary drainage, etc.

It is expected that considerable additional work will be done later.

Proposals must be marked, "Proposal for Street Improvements."

All bids must be upon blank forms provided in the Proposal and Contract and Specifications.

Each bid must be accompanied by a certified check for $2000 as evidence of good faith.

Plans and specifications will be on file at the clerk's office in Mt. Olive and at the office of the engineer in Durham, N. C.; and copies of the specifications, form of proposal, etc., will be mailed upon application to the engineer at Durham, N. C.

The right is reserved to reject any or all bids.

Specifications will be ready about March 10.

S. J. ROBERTS, Mayor.
M. T. BREAZEALE, Clerk.
GILBERT C. WHITE, Engineer,
Durham, N. C.

Put Public Buying on an Efficiency Basis

NOW, more than ever before, it is important that those having contracts to let, whether for new work or the furnishing of machinery or supplies, should consider the best methods of securing extensive competition and low bids.

Engineering News-Record

with a circulation of over 32,000 a week, reaches almost every worthwhile contractor, manufacturer and dealer interested in public contracts.

Over 4,000 Official Proposals

have been published each year in Engineering News and Engineering Record, now consolidated as the Engineering News-Record. These small investments for advertising have invariably saved large sums on the contract prices. You can now cover the entire field and secure the greatest possible competition from reliable contractors by publishing your advertisements for bids in the

One Dominant Paper

This will put your public buying on an efficiency basis. It will make the tax payers' money go farther and will give you a reputation for a business administration. Local bidders always figure closer when they find that the letting of a contract is being advertised in

The One Nationally Recognized Medium for Proposal Advertising

A deposit of Five Dollars will be required with request for plans and specifications.

Dated, this the 24th day of February, 1919.

W. M. CARROLL,
County Judge,
Beaumont, Texas.

Bids: March 20.

Plant Operation

Springfield, Massachusetts.

The Board of Supervisors of the Department of Streets and Engineering will receive at room 326, Administration Building, until 12 M., March 20th, 1919, proposals for the operation of the Logan Street plant for the salvage of waste materials. The City collects about 8 tons per day and delivers it to the plant without expense to the contracor. The plan is modern in every respect with belt conveyor for sorting, ample storage space, and spur track for loading cars. Further information may be obtained from the S uperintendent of the Department of Streets and Engineers, Administration Building, Springfield, Massachusetts.

ROBERT P. MARSH,
Supt. Dept. Sts. & Engineering.

PROPOSALS FOR DREDGING.—U. S. Engr. Office, Old Federal Building, Wilmington, Del. Sealed proposals will be received here until 11 A.M., Mar. 31, 1919, and then opened, for dredging Tuckerton Creek, N. J. Further information on application.

PROPOSALS FOR DREDGING. U. S. Engineer Office, Old Federal Building, Wilmington, Del.—Sealed proposals will be received here until 11 A.M., March 24, 1919, and then opened, for dredging Smyrna River, Del. Further information on application.

OFFICIAL PROPOSALS

Bids: April 4.

Excavating Ditch

Whiteside Co., Ill.

Dr. Comrs. Dr. Dist. No. 1 Hahnaman Tp., Whiteside Co., Ill., will receive bids at office of Carl E. Sheldon, Sterling, Ill., up to 3 P.M., April 4, 1919, for deepening, widening, etc., ditch of district requiring excavation of 101,211 cu.yds. Length of ditch 37,765 feet. Specifications office of Carl E. Sheldon.

POSITIONS VACANT

A STEAM engineer wanted; capable of taking full charge of electric light plant and pumping station; one 500 kilowatt and one 1000 kilowatt Allis-Chalmers turbine. City 7000 population, located in the middle west. Salary to start, $1800. P-834, Eng. News-Record, Chicago.

ASPHALT plant inspector wanted, capable of making chemical and physical tests on materials, to work in the South. Give in detail training, experience, references and salary, in first letter. P-873, Eng. News-Record.

CIVIL engineer wanted, of practical experience in building concrete and brick State roads. Requirements: Ability to estimate costs, make bids, purchase machinery and assume active general management of such an enterprise. A splendid opportunity for the right man. No one not capable of earning a large salary need answer. Reply in own handwriting stating experience, salary expected and other particulars. Lock Box 395, Erie, Pa.

CONTRACTOR'S superintendent. — Must have broad experience in all branches of contracting. Write experience in detail and state salary. P-853, Eng. News-Record, Chicago.

DEPARTMENTAL sales manager wanted for prominent established company located in Ohio, and manufacturing steel sash and steel doors. Men with experience in handling selling organization, and preferably with a knowledge of structural and ornamental iron. Good salary paid to right party. P-857, Eng. News-Record.

FIRST class structural steel and reinforced concrete designer and draftsman wanted with several years' experience on all classes of building work. Also one or two reinforced concrete draftsmen, rapid, accurate and with good execution. State experience in full giving names of past employers and character of work with each. Experience must have included detailing structural steel and reinforced concrete. State salary desired and earliest date for beginning work. Location middle west. P-864, Eng. News-Record, Chicago.

SALES ENGINEER, thoroughly trained in estimating and designing reinforced concrete. P-887, Eng. News-Record.

POSITIONS VACANT

GRADUATE engineer wanted, experienced in reinforced concrete design, by large distributors of reinforcing steel. Permanent position and good chance for advancement, depending on ability. P-905, Eng. News-Record.

MAN wanted with sufficient training and experience to qualify him to take charge of an ornamental shop, employing about fifty (50) men, fabricating stairs, fire escapes and other ornamental iron work; one who is capable of supervising machine shop employing twenty (20) men in conection with ornamental work given preference. P-736, Eng. News-Record.

MAP draftsman and instrument men wanted for land and irrigation development in southwest Texas. Reply stating age, education, experience and salary expected; address Construction Engineer, American Rio Grande Land & Irrigation Company, Mercedes, Texas.

PRACTICAL quarry man wanted, capable taking full charge: one who is familiar with southern conditions and experienced in Sandstone, Limestone and Granite. In reply, give complete record, age, experience, capacity, references. P-755, Eng. News-Record, Chicago.

STRUCTURAL estimator wanted. Require a first class experienced man who knows this work and can design, estimate and obtain contracts for fabricated, structural and plain material. Mostly in the building line and on medium size contracts. An excellent position is offered to one who can qualify with a large organization on a salary and commission basis. Kindly give us a record of your experience and salary required. Location, Cleveland, Ohio. All replies confidential. P-861, Eng. News-Record, Cleveland.

SUPERINTENDENT, foremen, wanted, able to get results, for grading and concrete mixer gangs. Rollermen, pumpmen, cranemen, Keystone men. Dinky engineer and trainmen, auto truck operators, commissary man, cook, etc., for early start. State age, experience, references, wages in first letter. Also camp complete for 75 to 100 men. P-807, Eng. News-Record.

THEW shovel operator required for permanent position in Latin-American country; to also oversee operation of stone crushers and road rollers. Salary $200 and traveling expenses to job. Knowledge of Spanish not essential but desirable. Opportunity to become Master Mechanic. P-904, Eng. News-Record.

TRUCK body or trailer designer wanted; Watson, Canastota, N. Y.

TWO engineers wanted for work in South, capable of taking charge of municipal paving program, including extension water and sewers. Give in first letter experience in detail, references and salary. Graduate engineers only. P-868, Eng. News-Record.

WANTED in Minneapolis, engineer to estimate, design and sell reinforcing bars for building construction; salary and percentage to right party. P-888, Eng. News-Record, Chicago.

GENERAL contractor's office man.—Must be of the manager type and having had outside experience. Permanent position in Ohio. Write fully and state salary. P-854, Eng. News-Record, Chicago.

Flood Protection Work

Newport, Arkansas.

Sealed proposals will be received by the Board of Directors of the Newport Levee District, Jackson County, Arkansas, at Newport, Arkansas, until 2 o'clock P.M., April 10, 1919, for the construction of flood protection works, involving approximately the following principal quantities:

Earth embankment	297,500 cu.yd.
Concrete	2,150 cu.yd.
Reinforcing steel	65 tons
Miscellaneous cast iron and steel	5 tons
Wood sheet piling	116 M. ft. B.M.
Tile, 4 in. and 10 in. diameters	8,270 lin.ft.
Corrugated iron pipe—18 in. and 24 in. diameters	550 lin.ft.
Cast iron or concrete pipe, 24 in. and 36 in. diameters	290 lin.ft.
Sluice gates, 24 in. diam.	4
36 in. diam.	4
48 in. diam.	2
Sodding embankments	162,800 sq.yd.

The work is divided into three sections and proposals will be received for the entire work or for any section or combination of sections. Proposals must be submitted on the form furnished by the Board and must be accompanied by a certified check, payable to the Treasurer of the Newport Levee District, for not less than 5 per cent of the total amount of the bid, but in no case need the certified check exceed $5000.

Payments for the work will be made in cash.

All requests for information should be addressed to Morgan Engineering Company, Memphis, Tennessee. Specifications and a general map of the district will be furnished on request without charge. Detailed plans will be supplied at cost.

The right is reserved to reject any or all bids and to waive any informality in the bids received.

BOARD OF DIRECTORS NEWPORT LEVEE DISTRICT.
By C. R. HITE, Secretary.
MORGAN ENGINEERING COMPANY,
Engineers.

Bids: March 25.

Concrete Pavement

Longmont, Colo.

Sealed proposals for the construction of approximately 15,300 sq.yd. of concrete pavement with 3300 cu.yd. of grading and 6400 lin.ft. of concrete curb, in the Longmont Paving District Number 3, will be received by the City Clerk at his office at the City Hall, Longmont, Colorado, until 5 o'clock P.M., Tuesday, March 25, 1919.

Plans, specifications, proposal and contract may be obtained at the office of the City Clerk or the City Engineer.

The City Council reserves the right to reject any or all bids.

GEO. H. STONEX,
City Clerk.
E. S. BICE,
City Engineer.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., March 19, 1919, for constructing about 110,000 cubic yards of earthwork (75,000 cubic yards hydraulic fill in old borrow pits; and 35,000 cubic yards levee enlargement) in the Hunt Drainage District, Ill. Further information on application.

Bids: March 21.

Highway Reconstruction

STATE OF RHODE ISLAND
STATE BOARD OF PUBLIC ROADS
Providence, R. I.

Sealed proposals for the reconstruction under the provisions of the Federal Aid Road Act of a section of State highway 1.15 miles in length and located upon the Boston Neck Road in the Town of Narragansett will be received by the State Board of Public Roads at its office, State House, Providence, R. I., until 12 M., on Friday, March 21, 1919, at which time they will be opened and read in public.

The principal quantities involved are as follows:

Earth excavation	3,400 cu.yd.
Crushed stone	4,000 tons
Hauling, heating and applying asphalt	30,000 gallons
Gravel foundations	2,800 cu.yd.

Bids must be made upon blank forms to be furnished by the board.

No bids will be received unless accompanied by a certified check for the sum of $200, payable to the State of Rhode Island.

The Board reserves the right to reject any and all bids and to give preference to towns or cities in accordance with Section 5 of Chapter 84 of the General Laws.

Plans may be examined and specifications and bidding blanks may be obtained at the office of the State Board of Public Roads, State House, Providence, R. I., on and after Monday, March 10, 1919, every week day (except holidays and Saturdays) between the hours of 9 A.M. and 5 P.M., Saturdays 9 A.M. to 12 noon.

OFFICIAL PROPOSALS

Bids: March 20.

Water-Works Tunnel

OFFICE OF THE DEPARTMENT OF PUBLIC WORKS

Milwaukee, February 28, 1919.

Sealed proposals will be received at this office until March 20th, 1919, at 10:30 A.M. for furnishing all materials and doing all the work necessary and required for constructing the Water Pipe Tunnel under Menomonee River, West Water Street to Reed Street, and two shafts, and for laying a connecting Water Pipe Line at locations as shown on the plans.

This contract requires the construction of approximately one hundred eighty-one (181)' lineal feet of steel encased concrete shafts, ten (10) feet in internal diameter, two hundred sixty eight (268) lineal feet of reinforced concrete lined tunnel under the bed of the Menomonee River, seven (7) feet by nine (9) feet in internal dimensions. It also requires the placing of about four hundred forty (440) lineal feet of twenty-four (24) inch diameter cast iron water pipe in the shafts and tunnel, and about seven hundred sixty-five (765) lineal feet of twenty-four (24) and twenty (20) inch diameter cast iron water pipe laid in trenches from the shafts to the connecting water mains in Reed Street and Third Street extended, all as shown on the plans and described in the specifications now on file in the Office of the City Engineer.

The time allowed for the completion of this contract shall be seven (7) months from the date of the Engineer's notice to begin work.

Bidders are required to furnish bid bonds in the penal sum of $24,000.00 or in lieu thereof, the bidder may deposit with the Commissioner of Public Works the sum of $12,000.00 in money or certified bank check, payable to the Commissioner of Public Works, failing in which his bid will be rejected.

The Commissioner of Public Works reserves the right to reject any or all bids.

Full sets of plans will be sent to any Contractor desiring to bid, upon the receipt of Ten Dollars ($10.00). Said sum shall be returned by the City after the set of plans are returned in good condition to the City Engineer.

PERCY BRAMAN,
Dep. Commissioner of Public Works.
Countersigned.
L. M. KOTECKI,
Comptroller.

Bids: March 20.

Plant Operation

Springfield, Massachusetts.

The Board of Supervisors of the Department of Streets and Engineering will receive at room 326, Administration Building, until 12 M., March 20th, 1919, proposals for the operation of the Logan Street plant for the salvage of waste materials. 5 miles State Highway No. 3
11 miles State Highway No. 8

Plans, profiles, specifications and estimates are on file in the office of the County Engineer, Court House, Beaumont, Texas, and with the State Highway Department, Austin, Texas.

All proposals to be addressed, sealed and delivered to the County Judge of Jefferson County, Texas, on or before 10 a.m. March 24th, 1919. Mark bids "Highways." Proposals to be accompanied by certified check to an amount equal to approximately five per cent. of the total of the bid. The right reserved to reject any and all bids. A deposit of Five Dollars will be required with request for plans and specifications.

Dated, this the 24th day of February, 1919.

W. M. CARROLL,
County Judge,
Beaumont, Texas.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., March 19, 1919, for constructing about 290,000 cubic yards of earthwork (210,000 cubic yards hydraulic fill in old borrow pits; and 80,000 cubic yards levee enlargement) in the Lima Lake Drainage District, Ill. Further information on application.

OFFICIAL PROPOSALS

Bids: March 26.

Highway Construction

THE STATE OF DELAWARE
Dover, Delaware.

Sealed proposals will be received by the State Highway Department at its office, Dover, Delaware, until two (2) o'clock P. M., March 26, 1919, and at that place and time publicly opened, for the construction of 0.5 miles of State Highway (Vitrified Brick) in New Castle County, Delaware, involving the following approximate quantities:

3400 cu.yd. grading.
800 lin.ft. pipe underdrain.
5000 lin.ft. concrete curb.
1800 cu.yd. concrete foundation.
11,500 cu.yd. vitrified brick pavement.
4 bounds.
10 catch basins.
[illegible] drop inlets.
1880 tons stone ballast for street railway.
990 lin.ft. 12 in. vitrified pipe sewer.
1250 lin.ft. 18 in. vitrified pipe sewer.

Performance of contract shall commence within ten (10) days after execution of the contract and be completed on or before November 1, 1919.

Monthly payments will be made for 90 per cent of the construction completed each month.

Bidders must submit proposals upon forms provided by the Department.

Each proposal must be accompanied by a surety bond, certified check, or money to the amount of at least ten (10) percentum of the total amount of the proposal.

The envelope containing the proposal must be marked: "Proposal for the Construction of a State Highway under Contract No. 9."

The contract will be awarded or rejected within twenty (20) days from the date of opening proposals.

The right is reserved to reject any or all bids.

Detailed plans may be seen, and index plans and specifications may be obtained after March 5, 1919, upon deposit of ($10) ten dollars which amount will be refunded upon return of plans and specifications in good condition, at the office of

CHAS. M. UPHAM, Chief Engineer,
State Highway Department,
Dover, Delaware,

NOTE—Lettings for the construction of State Highways will be advertised every two weeks until approximately 75 miles are under contract.

Bids: March 20.

Pavement Construction

Logan, Iowa.

Sealed proposals will be received by the undersigned until 8 o'clock, P.M., March 20, 1919, for the work of constructing approximately 60,000 square yards of concrete or monolithic brick pavement, 40,000 linear feet of concrete curb and gutter, and a storm sewer system; etc.

Plans, profiles, specifications and form of proposal, contract and bond may be seen at the office of the undersigned, and may be obtained from the engineer upon receipt of $10.00, which will be returned upon return of plans, etc., in good condition.

HERBERT WESSELS, Clerk.
Logan, Iowa.
C. L. HUFF, Engineer,
Logan, Iowa.
March 3, 1919.

VALVE-OPERATING MACHINERY.—U. S. Engineer Office, Wheeling, W. Va.—Sealed proposals will be received here until 11 a.m. (Eastern time), March 24, 1919, and then opened, for furnishing and delivering valve-operating machinery for Dams Nos. 23, 25 and 27, Ohio River. Information on application.

OFFICIAL PROPOSALS

Bids: March 27.

Pier Construction

Philadelphia, Pa.

Sealed proposals, endorsed "Bids for the construction, with appurtenant work, of Wolf Street Pier, No. 82 South, and Orter Street Pier, No. 84 South," will be received until 12 o'clock noon, Thursday, March 27, 1919, in the office of the Director of the Department of Wharves, Docks and Ferries, 550 Bourse Building, Philadelphia, and then publicly opened.

Plans, specifications and blank forms upon which bids must be made can be obtained at the office above mentioned, upon the deposit of a certified check in the sum of $25 to cover cost of blue prints, which check will be returned upon the receipt of the plans and specifications in this office in good condition and **unmarked.** The successful bidder will be furnished with all necessary blue prints free of charge.

Proof must be submitted the Department by the contractor that he has accepted the provisions of the Workingmen's Compensation Act of June 18, 1917, relative to workingmen's compensation and insured his liability thereunder or secured exemption therefrom.

No bids will be considered unless accompanied by a certificate from the City Solicitor of the City of Philadelphia to the effect that the provisions of an ordinance approved May 25, 1860, requiring proposal bonds on all bids exceeding in amount $500, have been complied with.

The Director reserves to himself the right to reject any or all bids as he may deem best for the interest of the City of Philadelphia.

GEORGE S. WEBSTER,
Director.

Bids: April 3.

Road Work

Flemington, N. J.

The Board of Chosen Freeholders of Hunterdon County will receive bids at their rooms, Flemington, N. J., on April 3d, 1919, up to the hour of 11 o'clock A.M., for resurfacing a portion of the Ringoes-Woodsville Road in said County.

Length	2.457 miles
Broken stone	2250 tons
Filler	700 tons
Dustless screenings...	400 tons
Tarvia B	15135 gallons

Specifications may be obtained from Grant Davis, County Engineer, Whitehouse Station, N. J., and will be on file at the office of H. L. Stout, County Solicitor, Flemington, N. J.

By order of the Board of Chosen Freeholders.

DAVID L. HOLCOMBE,
Director.
EDWARD H. WILSON,
WM. B. WEAN.

Bids: April 1.

Road Materials

Columbus, Ohio.

Bids will be received up until 2:00 P.M., April 1, 1919, at the office of the State Highway Commissioner, Columbus, Ohio, for stone, gravel, slag and sand to be used in maintaining and repairing state roads during 1919. Quotations will be placed on file and material ordered from time to time during the season as needed. Price at quarry and freight rates to various railroad stations are requested. Bidding blanks will be furnished upon request.

CLINTON COWEN,
State Highway Commissioner.

OFFICIAL PROPOSALS

Bids: April 9.

Road Improvement

Bergen County, N. J.

Notice is hereby given that sealed bids will be received by the Road Committee of the Board of Chosen Freeholders of Bergen County for the improvement of Williams Avenue, Section No. 2, in the Boroughs of Hasbrouck Heights, Peterboro and Little Ferry in the County of Bergen with a 7½" to 10½" Portland Cement Concrete surface upon a cinder foundation: estimated amount of surface pavement required is 18,647 square yards, of foundation 10,640 cubic yards; and opened and read in public at Court House, Bergen County, New Jersey, on April 9th, 1919, at 2.30 P.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by County Engineer, and approved by the State Highway Commission, have been filed in the office of said engineer at Court House, Hackensack, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of cost of preparation. Bids must be made on the Standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to Road Committee, Bergen County Board of Chosen Freeholders, and must be accompanied by a certified check for not less than 10% of said bid, drawn to the order of the County Collector of Bergen County, N. J., and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

By order of Bergen County Board of Chosen Freeholders.

JAS. M. HARKNESS,
Clerk.

Bids: March 25.

Air Compressor

Marion, Indiana.

Bids for an Air Compressor, according to plans and specifications on file, will be received at Marion, Indiana, on Tuesday, March 25, 1919, at 10 o'clock A.M., by the Board of Public Works.

Further information will be furnished upon request.

T. E. PETRIE, President.
BOARD OF PUBLIC WORKS.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., March 26, 1919, for constructing about 47,000 cubic yards of earthwork in the East Cape Girardeau and Clear Creek Drainage District, Ill. Further information on application.

OFFICE OF THE COMMISSIONERS, D. C., Washington, March 3, 1919.—Sealed proposals will be received at this office, Room 511, District Building, until 2 o'clock P.M., Wednesday, March 26, 1919, for grading certain streets, aggregating about thirty thousand cubic yards of grading. Blank forms of proposals, specifications, and all necessary information may be obtained from the Chief Clerk, Engineer Department, Room 427, District Building, Washington, D. C. LOUIS BROWNLOW W. GWYNN GARDINER, CHARLES W. KUTZ, COMMISSIONERS, D. C.

Bids: April 7.

Road Improvements

Salem, N. J.

Notice is hereby given that sealed bids will be received by the Road Committee of the Board of Chosen Freeholders of the County of Salem for the construction of Malaga-Penn Grove road, 3rd Section, in the Borough of Woodstown and Township of Pilesgrove in the County of Salem with a gravel surface upon an earth foundation; estimated amount of surface pavement required is 42,120 sq.yd.; and opened and read in public at the Freeholders' Room, Court House, Salem, N. J., on Monday, April 7, 1919, at eleven A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by Howard B. Keasbey, County Engineer, and approved by the State Highway Commission have been filed in the office of the said engineer at Salem, N. J., and of said Commission at the State House, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawing by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder on the outside, addressed to I. C. Smashey, Clerk of said Board, and must be accompanied by a certified check for not less than $1000 and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of the Board of Chosen Freeholders of the county of Salem.

I. C. SMASHEY,
Clerk.

Bids: April 8.

Bridge Letting

Greenbrier County, W. Va.

Bids will be received by the County Court of Greenbrier County until noon, April 8, for the construction of a bridge across Culberson Creek, in the Williamsburg District of said County. Alternate plans, prepared by the contractors, will be accepted, as well as bids based on plans and specifications supplied by the Court, and in both cases plans and bids will be submitted covering,

First: A bridge of 2 spans, 30 ft. each, 12 ft. roadway, and

Second: One span, 50 ft., of the same width roadway.

Detail information may be had on request from Frank K. Rader, County Road Engineer, Lewisburg, W. Va.

The County Court reserves the right to reject any and all bids.

FRANK K. RADER,
County Road Engineer.

PROPOSALS FOR COAL. Office of the District Engineer, Mississippi River Dredging District, U. S. Dredge Depot, opposite Memphis, Tenn.—Sealed proposals will be received here until 12 M., March 31, 1919, and then opened, for furnishing 14,000 tons coal in barges. Further information on application to the District Engineer, Lock Box 1017, Memphis, Tenn.

SEALED PROPOSALS will be opened by the Lighthouse Superintendent, Buffalo N. Y., April 1, 1919, 2 o'clock p.m., for 500 bbls. American Portland Cement delivered at Conneaut Harbor, Ohio. Information upon application to the above office.

Bids: April 11.

Deck Steel Girder Bridge

Holyoke, Mass.

The Board of Public Works of Holyoke, Mass., will receive at its office in Holyoke until 10 o'clock in the morning of Friday, April 11, 1919, sealed proposals for the construction of a deck steel girder bridge, the steel work to be encased or covered with reinforced concrete, the bridge to be erected across the first level canal on Appleton Street in said Holyoke. As soon as may be after the above time and at the office of the Board the proposals so received will be publicly opened and read. The bidder will be expected to submit his own specifications and plans covering the work which is to be done in accordance with "General Specifications for Bridge over the First Level Canal Appleton Street, Holyoke, Mass.," prepared by the City Engineer. Full information may be had upon application to the City Engineer, City Hall Annex and Police Building, Holyoke, Mass. A general form of the proposed contract may be seen at the office of the Board. Proposals must be accompanied by a certified bank check in the sum of Five Hundred Dollars ($500) or by lawful money in the same sum. Bids must be addressed to the Chairman marked "Proposals for Appleton Street Bridge," and left at the office of the Board before the time hereinbefore specified. The Board reserves the right to reject any or all bids or to accept any bid that in its opinion may be for the best interests of the City of Holyoke. Oscar C. Ferry, Asst. Clerk, Holyoke, Mass., March 10, 1919.

Bids: April 2.

Sewer Construction

Hamilton, Ont.

Sealed tenders will be received by the undersigned, addressed to Chas. G. Booker, Esq., Mayor; Chairman Board of Control, City Hall, Hamilton, up to 5 o'clock P.M. on Wednesday, April 2, 1919, for the construction of the following work:

A sewer constructed of brick or concrete (alternative tenders for which will be received), 1750 ft. in length, on King Street, Macklin Street and Dundas Street, Hamilton, Ontario.

Tenders must be on forms supplied and plainly marked on the outside as to contents.

Specifications and form of tender for the above can be obtained at the office of the City Engineer, where any other information may be secured.

The lowest or any tender not necessarily accepted.

S. H. KENT,
City Clerk.

Dated March 8, 1919.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., March 10, 1919.—Sealed proposals will be received at this office until 3 P.M., March 26, 1919, and then opened for miscellaneous alterations in work room and basement of the United States Post Office in Meridian, Miss., in accordance with drawing RHP-701, and the specification, copies of which may be had at the office of the Custodian or at this office, in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

U. S. ENGINEER OFFICE, WHEELING, W. VA.—Sealed proposals will be received here until 11 A.M. (Eastern time), April 5, 1919, and then opened, for constructing Pass, Weir, Beartrap, etc., for each of Dams Nos. 23 and 25, Ohio River. Information on application.

Bids: April 15.

Road Surfacing

Greenville, Miss.

The Highway Commission of Washington County, Mississippi, will receive in their office in Greenville, Mississippi, up to 11 o'clock A.M., on Tuesday, the 15th day of April, 1919, sealed proposals for the surfacing of about 49.5 miles of road with concrete nine (9) feet wide, or gravel twelve (12) feet wide, as follows:

	Miles
Greenville to head of Lake Washington	[illegible]
Greenville to Metcalfe	[illegible]
Leland to Sunflower County line	10.2
Hollandale to Murphy Bayou	5.0
Arcola to Trail Lake	4.7

All in said County, according to the plans and specifications adopted by the Highway Commission, and on file in their office. All bids must be accompanied by a certified check in the sum of 5% of the amount of the contract bid upon, payable to the Chairman of the Highway Commission to guarantee execution of contract if awarded.

The Highway Commission reserves the right to reject any and all bids.

E. W. WOOD,
Chairman.

Bids: April 2.

Street Paving

Durham, N. C.

Sealed proposals will be received by the Mayor and Board of Aldermen of the City of Durham, for the construction of a permanent pavement of approximately 20,000 sq.yd. until 3 o'clock P.M., April 2, 1919, at which time they will be opened and publicly read at the Council Chamber of the said Board.

Plans and specifications of the proposed work may be had at the office of the City Engineer, between the hours of 9 A.M. and 5 P.M., from March 16, 1919 to April 2, 1919. Said specifications provide for the grading, drawing, curbing and paving with some suitable pavement on a six inch concrete base, Main Street from Fuller Street to Alston Ave. and also the submission of bids on 50,000 sq.yd. to 100,000 sq.yd. to be defined later.

The Board reserves the right to reject any or all bids, or to accept such bids as appear in its own judgment to be for the best interests of the City.

M. E. NEWSOM, Mayor.
GEO. W. WOODWARD, City Clerk.
J. L. MOOREHEAD, City Attorney.
H. W. KUEFFNER, City Engineer.

Bids: April 1.

Single Light Lamp Poles

Loveland, Colo.

Sealed proposals for the furnishing of approximately 109 ornamental single light lamp poles and 10,000 ft. of three conductor, 600 volt under-ground wire for the City of Loveland, will be received by the City Clerk of the City of Loveland, at its office in the City Hall, until 7:30 o'clock P.M., Thursday, April 1, 1919.

All bids must be on forms provided for the same by the city, and must be accompanied by a certified check in the sum of $250, payable to the Treasurer of the City of Loveland.

Proposal and specifications may be examined at the office of the City Clerk, or will be forwarded upon receipt of application.

The City Council reserves the right to reject any or all bids.

Put Public Buying on an Efficiency Basis

NOW, more than ever before, it is important that those having contracts to let, whether for new work or the furnishing of machinery or supplies, should consider the best methods of securing extensive competition and low bids.

Engineering News-Record

with a circulation of over 32,000 a week, reaches almost every worthwhile contractor, manufacturer and dealer interested in public contracts.

Over 4,000 Official Proposals

have been published each year in Engineering News and Engineering Record, now consolidated as the Engineering News-Record. These small investments for advertising have invariably saved large sums on the contract prices. You can now cover the entire field and secure the greatest possible competition from reliable contractors by publishing your advertisements for bids in the

One Dominant Paper

This will put your public buying on an efficiency basis. It will make the tax payers' money go farther and will give you a reputation for a business administration. Local bidders always figure closer when they find that the letting of a contract is being advertised in

Bids: March 21.

Bridge Construction

City of Trenton, N. J.

Pursuant to a resolution adopted March 7, 1919, the City Commission will receive at its meeting to be held on March 21, 1919, at 2 o'clock p.m., sealed proposals for the construction of a steel and concrete bridge across the Assanpink Creek, each of Olden Avenue, Trenton, N. J.

Plans and specifications with a draft of the contract and of the bonds required to be given may be obtained at the ocffie of John W. Thompson, Consulting Engineer, Broad Street Bank Building, Trenton, N. J., on payment of ten dollars ($10) which amount will be returned to actual bidders and those returning plans and specifications at or before opening of bids.

The bridge is approximately 14 feet wide with 64 feet span carried on girders, and 20 feet approaches. The work to be completed in three months.

Each proposal must be made on a blank form which will be furnished by the Engineer, and must be accompanied by a certified check to the amount of $500, conditioned that if the proposal be accepted the person or persons making it will execute the contract required to be executed and furnish the bond required to be furnished, within five days after the acceptance of the proposal.

The proposal must not be filed with any city official, but must be delivered by the bidder or his agent to the City Clerk, at the meeting above mentioned, when the same shall be called for by the President of the City Commission.

Said City Commission reserves the right to reject any or all proposals. Contract will be made subject to Chapter 253, laws of New Jersey, 1913.

LEON D. HIRSCH,
City Clerk.

Dated March 10, 1919.

Bids: April 11.

Deck Steel Girder Bridge

Holyoke, Mass.

The Board of Public Works of Holyoke, Mass., will receive at its office in Holyoke until 10 o'clock in the morning of Friday, April 11, 1919, sealed proposals for the construction of a deck steel girder bridge, the steel work to be encased or covered with reinforced concrete, the bridge to be erected across the first level canal on Appleton Street in said Holyoke. As soon as may be after the above time and at the office of the Board the proposals so received will be publicly opened and read. The bidder will be expected to submit his own specifications and plans covering the work which is to be done in accordance with "General Specifications for Bridge over the First Level Canal Appleton Street, Holyoke, Mass.," prepared by the City Engineer. Full information may be had upon application to the City Engineer, City Hall Annex and Police Building, Holyoke, Mass. A general form of the proposed contract may be seen at the office of the Board. Proposals must be accompanied by a certified bank check in the sum of Five Hundred Dollars ($500) or by lawful money in the same sum. Bids must be addressed to the Chairman marked "Proposals for Appleton Street Bridge," and left at the office of the Board before the time hereinbefore specified. The Board reserves the right to reject any or all bids or to accept any bid that in its opinion may be for the best interests of the City of Holyoke. Oscar C. Ferry, Asst. Clerk, Holyoke, Mass., March 10, 1919.

Bids: April 1.

Road Materials

Columbus, Ohio.

Bids will be received up until 2:00 P.M., April 1, 1919, at the office of the State Highway Commissioner, Columbus, Ohio, for stone, gravel, slag and sand to be used in maintaining and repairing state roads during 1919. Quotations will be placed on file and material ordered from time to time during the season as needed. Price at quarry and freight rates to various railroad stations are requested. Bidding blanks will be furnished upon request.

CLINTON COWEN,
State Highway Commissioner.

OFFICIAL PROPOSALS

Bids: April 7.

Road Improvements

Salem, N. J.

Notice is hereby given that sealed bids will be received by the Road Committee of the Board of Chosen Freeholders of the County of Salem for the construction of Malaga-Penn Grove road, 3rd Section, in the Borough of Woodstown and Township of Pilesgrove in the County of Salem with a gravel surface upon an earth foundation; estimated amount of surface pavement required is 42,120 sq.yd.; and opened and read in public at the Freeholders' Room, Court House, Salem, N. J., on Monday, April 7, 1919, at eleven A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by Howard B. Keasbey, County Engineer, and approved by the State Highway Commission have been filed in the office of the said engineer at Salem, N. J., and of said Commission at the State House, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawing by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder on the outside, addressed to I. C. Smashey, Clerk of said Board, and must be accompanied by a certified check for not less than $1000 and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of the Board of Chosen Freeholders of the county of Salem.

I. C. SMASHEY,
Clerk.

Bids: March 24.

Road Work

Jefferson County, Texas.

Notice is hereby given that on the 24th day of March, 1919, the Commissioners' Court of Jefferson County, Texas, will receive, open and consider bids on the following Jefferson County roads:

5 miles State Highway No. 3
11 miles State Highway No. 8

Plans, profiles, specifications and estimates are on file in the office of the County Engineer, Court House, Beaumont, Texas, and with the State Highway Department, Austin, Texas.

All proposals to be addressed, sealed and delivered to the County Judge of Jefferson County, Texas, on or before 10 a.m. March 24th, 1919. Mark bids "Highways." Proposals to be accompanied by certified check to an amount equal to approximately five per cent. of the total of the bid. The right reserved to reject any and all bids. A deposit of Five Dollars will be required with request for plans and specifications.

Dated, this the 24th day of February, 1919.

W. M. CARROLL,
County Judge,
Beaumont, Texas.

OFFICIAL PROPOSALS

Bids: April 9.

Reservoir Completion

Kansas City, Mo.

Sealed proposals will be received by the Purchasing Agent of Kansas City, Mo., at his office in the City Hall, until 2 o'clock P.M., on Wednesday, April 9, 1919, for the construction and completion of a 15 million gallon storage basin at Wabash and St. John Avenue, Kansas City, Mo. All proposals shall be based upon and shall be in accordance with the approximate estimate of quantities, and the plans and specifications approved by the Board of Fire and Water Commissioners and on file in the office of said Board.

Contract for the excavation of the above basin has been let and work is now proceeding on same. The proposals requested in this advertisement are to cover all other work as shown in the plans and specifications to fully complete the basin.

Proposals shall be made upon the forms attached to specifications and inclosed in a sealed envelope and addressed to the Purchasing Agent, City Hall, Kansas City, Mo., and marked on the outside: "Proposal for 15 Million Gallon Storage Basin."

Each bid shall be accompanied by City Comptroller's receipt for deposit of cash or certified check drawn on a solvent Kansas City bank or Trust Company, made payable to the City Comptroller, in the amount of $1,500, which deposit shall be forfeited to the city in case the bidder, if successful, shall fail or refuse to enter into the contract and bond within ten (10) days after award of contract.

The Board of Fire and Water Commissioners reserves the right to reject any and all bids or to waive any informality or irregularity in any bid, when it shall appear to the interest of the City to do so.

J. RAY SAMUEL,
Purchasing Agent.

W. G. GOODWIN,
Chief Engineer and Superintendent.

Bids: April 8.

Sanitary Sewers

OFFICIAL NOTICE NO. 5
March 3, 1919.

Published by the authority of the Sewerage Commission of Hagerstown, Maryland, sealed proposals for building intercepting storm and sanitary sewers in certain streets, alleys, rights-of-way secured and to be secured and other localities in the City of Hagerstown, will be received at the office of the Sewerage Commission in the Police Headquarters Building until 7:30, Tuesday, April 8, 1919, at which time and place during the session of the said Commissioners, the proposals will be publicly opened and read.

The work to be done embraces the building of approximately 2800 lin.ft. each of 18-in. sanitary and 66-in. storm water sewers with all manholes, inlets, foundations and appurtenances, both largely in tunnel.

On and after Thursday, March 13, 1919, specifications and blank forms of proposals can be obtained and detailed plans examined at the office of the Sewerage Commission and full sets of plans will be sent to any contractor on the receipt of $10, the sum to be returned upon the surrender of the plans in good condition within 30 days from the date of award.

The Sewerage Commission reserves the right to reject any and all bids.

(Signed) E. LEROY HEARD,
Secretary.
(Countersigned) WILLIAM WINGERT,
Chairman.

OFFICIAL PROPOSALS

Bids: March 27.

Pier Construction

Philadelphia, Pa.

Sealed proposals, endorsed "Bids for the construction, with appurtenant work, of Wolf Street Pier, No. 82 South, and Orter Street Pier, No. 84 South," will be received until 12 o'clock noon, Thursday, March 27, 1919, in the office of the Director of the Department of Wharves, Docks and Ferries, 550 Bourse Building, Philadelphia, and then publicly opened.

Plans, specifications and blank forms upon which bids must be made can be obtained at the office above mentioned, upon the deposit of a certified check in the sum of $25 to cover cost of blue prints, which check will be returned upon the receipt of the plans and specifications in this office in good condition and -marked. The successful bidder will be furnished with all necessary blue prints free of charge.

Proof must be submitted the Department by the contractor that he has accepted the provisions of the Workingmen's Compensation Act of June 18, 1917, relative to workingmen's compensation and insured his liability thereunder or secured exemption therefrom.

No bids will be considered unless accompanied by a certificate from the City Solicitor of the City of Philadelphia to the effect that the provisions of an ordinance approved May 25, 1860, requiring proposal bonds on all bids exceeding in amount $500, have been complied with.

The Director reserves to himself the right to reject any or all bids as he may deem best for the interest of the City of Philadelphia.

GEORGE S. WEBSTER,
Director.

Bids: April 15.

Road Surfacing

Greenville, Miss.

The Highway Commission of Washington County, Mississippi, will receive in their office in Greenville, Mississippi, up to 11 o'clock A.M., on Tuesday, the 15th day of April, 1919, sealed proposals for the surfacing of about 49.5 miles of road with concrete nine (9) feet wide, or gravel twelve (12) feet wide, as follows:

	Miles
Greenville to head of Lake Washington	25.2

OFFICIAL PROPOSALS

Bids: April 9.

Road Improvement

Bergen County, N. J.

Notice is hereby given that sealed bids will be received by the Road Committee of the Board of Chosen Freeholders of Bergen County for the improvement of Williams Avenue, Section No. 2, in the Boroughs of Hasbrouck Heights, Peterboro and Little Ferry in the County of Bergen with a 7½" to 10½" Portland Cement Concrete surface upon a cinder foundation; estimated amount of surface pavement required is 18,647 square yards, of foundation 10,640 cubic yards; and opened and read in public at Court House, Bergen County, New Jersey, on April 9th, 1919, at 2.30 P.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by County Engineer, and approved by the State Highway Commission, have been filed in the office of said engineer at Court House, Hackensack, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of cost of preparation. Bids must be made on the Standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to Road Committee, Bergen County Board of Chosen Freeholders, and must be accompanied by a certified check for not less than 10% of said bid, drawn to the order of the County Collector of Bergen County, N. J., and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

By order of Bergen County Board of Chosen Freeholders.

JAS. M. HARKNESS,
Clerk.

Bids: April 2.

Street Paving

Durham, N. C.

Sealed proposals will be received by the Mayor and Board of Aldermen of the City of Durham, for the construction of a permanent pavement of approximately 30,000 sq.yd. until 3 o'clock P.M., April 2, 1919, at which time they will be opened and publicly read at the Council Chamber of the said Board.

Plans and specifications of the proposed work may be had at the office of the City Engineer, between the hours of 9 A.M. and 5 P.M., from March 16, 1919 to April 2, 1919. Said specifications provide for the grading, drawing, curbing and paving with some suitable pavement on a six inch concrete base, Main Street from Fuller Street to Alston Ave. and also the submission of bids on 50,000 sq.yd. to 100,000 sq.yd. to be defined later.

The Board reserves the right to reject any or all bids, or to accept such bids as appear in its own judgment to be for the best interests of the City.

M. E. NEWSOM, Mayor,
GEO. W. WOODWARD, City Clerk,
J. L. MOOREHEAD, City Attorney,
H. W. KUEFFNER, City Engineer.

U. S. ENGINEER OFFICE, NEW LONDON, CONN.—Sealed proposals will be received here until 2 p.m., April 3, 1919, and then opened, for annual maintenance dredging in Connecticut River, below Hartford. Further information on application.

OFFICIAL PROPOSALS

Bids: March 26.

Bids: March 26.

Paving

Baltimore, Md.

Separate sealed proposals, executed in duplicate, addressed to the Board of Awards, care of City Register, will be received by him in his office, in the City Hall, until 12 M., Wednesday, March 26, to grade, curb, and pave with Sheet Asphalt, Vitrified Block, Wood Block, and Granite Block Redressed, all on concrete base, the streets listed in the following contracts:

CONTRACT NO. 158

	From	To
Franklin St.	Howard St.	Charles St.
St. Paul St. Improvement	Lexington St.	Hamilton St.

Sheet asphalt	13,590 sq.yd.
Vitrified block	800 sq.yd.
Granite block redressed	480 sq.yd.
Certified check	$800

CONTRACT NO. 159

	From	To
Pratt St.	Carey St.	Parkin St.
Fayette St.	Smallwood St.	Gilmor St.
McHenry St.	Bentalou St.	Carey St.
Cole St.	Wilkens Ave.	Stricker St.
Eagle St.	Bentalou St.	Fulton Ave.
Bentalou St.	Eagle St.	Wilkens Ave.

Sheet asphalt	47,950 sq.yd.
Vitrified block	3,550 sq.yd.
Granite block redressed	180 sq.yd.
Certified check	$3,000

CONTRACT NO. 160

	From	To
Fairmount Ave.	Brodway	Kenwood Ave.
Lexington St.	Calvert St.	Guilford Ave.
St. Matthews St.	Aisquith St.	Lexington St.

Sheet asphalt	19,485 sq.yd.
Vitrified block	1,865 sq.yd.
Granite block redressed	2,405 sq.yd.

The figures above represent the approximate quantities of the principal items appearing in the contracts.

Specifications and proposal sheets and all other information can be obtained at the office of the Paving Commission, 214 E. Lexington St. A deposit of $5 will be required for specifications covering each contract. This will not be refunded unless a bid is filed.

The Board of Awards reserves the right to reject any and all bids. A certified check of the bidder on a clearing-house bank, drawn to the order of the Mayor and City Council of Baltimore to the amount as recited above, must accompany each bid.

The successful bidder will be required to furnish bond and to comply with the City Charter respecting contracts.

By order of the Paving Commission.

S. C. ROWLAND,
Chairman.

J. MYERS HEDIAN,
Secretary.

Approved: J. BARRY MAHOOL,
Acting Pres. Board of Awards.

O. K.: FRANK DRISCOLL,
Asst. City Solicitor.

Bids: March 27.

Road Construction

Danville, Ill.

1. Notice is hereby given that sealed proposals for the construction of roads in Vermilion County will be received at the office of the County Clerk, Court House, City of Danville, Illinois, until 2 o'clock P.M., March 27, 1919, at which time and place during the meeting of the Board of Supervisors, the proposals will be publicly opened and read.

2. The proposed work comprises the construction of concrete and brick roads ten (10) feet wide with three (3) feet of macadam or gravel shoulders together with all grading, shaping earth shoulders, reinforced concrete work, ditching, drainage and other incidental work as shown in detail on plans and specifications, on file in the office of the County Clerk, and Superintending Engineer.

3. Proposals shall be made on forms furnished by the County of Vermilion.

3a. Proposal blanks and also the forms of contract and bonds that the successful bidders will be required to execute are now on file in the offices of said County Clerk and said Superintending Engineer.

4. The Board of Supervisors reserves the right to reject any and all proposals, and to waive technicalities in any proposal.

4a. The Board of Supervisors reserves the right to withdraw from said opening of bids, at any time on or before March 25, 1919, any Subdivision or Subdivisions of said unfinished work, in case the bondsmen who are responsible to said County for the completion of such Subdivision or Subdivisions shall have taken over and undertaken the completion of such Subdivision or Subdivisions, and shall have made arrangements, satisfactory to this Board, to complete said work not later than said November 15, 1919; and that said Board reserves the right to reject bids on any part or parts of said work, if such bids seem to this Board to be too high, and to do any part or parts of said work under its own management and direction.

5. Bidders may furnish proposals on one or more of the fourteen Subdivisions of approximately four miles each, into which the work is divided.

6. All proposals must be accompanied by a certified check in the sum of two (2) per cent of the total bid and made payable to the order of Robert H. Mater, County Treasurer of said County; said check to be returned unless in case of the acceptance of his proposal, the bidder should fail to execute a contract and file a bond in a sum equal to the amount of the bid within ten (10) days of the date of the acceptance of this proposal, in which case the check is to become the property of Vermilion County, and is to be considered as payment of damages due to delay and other causes suffered by the county from neglect of the bidder to execute a contract.

7. Proposals must be addressed or delivered to said County Clerk, Court House, Danville, Illinois; marked plainly on the outside, "Proposal for the Construction of Vermilion County Bond Roads Subdivision, Number————."

Dated this 12th day of March, A.D. 1919.

JOHN R. MOORE,
County Clerk of the County
of Vermilion in the State of Illinois.

Bids: April 1.

Length	2.457 miles
Broken stone	2250 tons
Filler	700 tons
Dustless screenings	400 tons
Tarvia B	15135 gallons

Specifications may be obtained from Grant Davis, County Engineer, Whitehouse Station, N. J., and will be on file at the office of H. L. Stout, County Solicitor, Flemington, N. J.

By order of the Board of Chosen Freeholders.

DAVID L. HOLCOMBE,
Director.
EDWARD H. WILSON,
WM. B. WEAN.

Bids: April 18.

Constructing 48-Inch Force Main

CITY OF AKRON, OHIO
DEPARTMENT OF PUBLIC SERVICE
WATER WORKS IMPROVEMENT
CONTRACT NO. 121

Sealed proposals for constructing a forty-eight inch pipe line and appurtenances will be received at the office of the Director of Public Service, Delaware Building, Akron, Ohio, until 12 o'clock noon, central standard time of Friday, the eighteenth day of April, 1919, at which time and place they will be publicly opened and read.

The contract includes the furnishing and laying of approximately 2.3 miles of 48-in. pipe line, 0.1 mile of 36-in. pipe line, together with all appurtenances, between the Village of Kent and the Distributing Reservoir in Akron.

Bids will be received as follows:

Bid A.—For furnishing approximately 4400 tons of 48-in. cast iron pipe, 170 tons of 36-in. cast iron pipe and 230 tons of special castings.

Bid B.—For laying 2.3 miles of 48-in. cast iron pipe, 0.1 mile of 36-in. cast iron pipe and doing all appurtenant work.

Bid C.—For furnishing and laying 2.3 miles of 48-in. steel pipe, 0.1 mile of 36-in. cast iron pipe and doing all appurtenant work.

All proposals must be made on the forms furnished by the city.

Each bidder must accompany his proposal with a satisfactory bond or certified check in the sum of ten thousand ($10,000) dollars.

A surety bond in the amount of fifty (50) per cent of the amount of the contract will be required of the successful bidder.

Plans and specifications may be seen at the office of the Director or copies may be obtained from the Bureau of Water Works Improvement, 102 E. Mill St., Akron, Ohio, upon deposit of ten ($10) dollars, which sum will be refunded on return of the plans and specifications in good condition within ten days after the award of the contract.

The right is reserved to reject any or all bids.

H. S. MORSE,
Director of Public Service.
H. H. FROST,
Superintendent of Water Works
G. G. DIXON, Engineer.

Bids: April 9.

Road Work

CITY OF PROVIDENCE WATER SUPPLY BOARD

Providence, R. I.

Sealed proposals for building two sections of Earth Road, one (Contract 4) about 1.8 miles in length in the Town of Scituate, R. I., and one (Contract 7) about 3.4 miles in length in the Town of Foster, R. I., as parts of the Road Relocation in connection with the proposed Scituate Reservoir, will be received at the office of the Water Supply Board, City Hall, until 2:30 o'clock P.M. on Wednesday, April 9, 1919, at which time and place they will be publicly opened and read.

The quantities, in cubic yards, of the main items of work are as follows:

	Contract No. 4	Contract No. 7
Earth excavation	12,000	20,000
Rock excavation	2,000	2,000
Borrow	5,000	10,000
Concrete masonry	250	190

Contracts 4 and 7 are located, respectively, about 9 miles and 16 miles westerly from the City of Providence.

Plans and pamphlets containing information for bidders, form of proposal, contract and bond and the specifications may be obtained from the Secretary of the Board, City Hall, or at the office of the Chief Engineer, 661 Westminster St.

By order of the Water Supply Board.

B. THOMAS POTTER, Chairman,
SAMUEL N. GRAMMONT, Secretary,
FRANK E. WINSOR, Chief Engineer.

PRELIMINARY NOTICE

Plans and specifications for the construction of other earth roads in connection with the proposed Scituate Reservoir, and for the construction during 1919 of portions of the main dam of the Scituate Reservoir are in preparation, and contracts for this work will probably be advertised during April.

Plans and specifications for the main dam and dike of the Scituate Reservoir are also in preparation and this work will, it is expected, be advertised during the late summer or early fall, if conditions then warrant. The main dam and dike will be built mainly of earth and will involve the handling of about 2,500,000 cu.yd.; the work will include gate chambers, masonry spillway, spillway channel, a reinforced concrete bridge, and other appurtenant structures.

Preliminary information may be obtained by interested contractors at the office of the Chief Engineer, 661 Westminster St., Providence, R. I.

Bids: April 1.

Concrete Bridge Construction

Kansas City, Mo.

Bids will be received by the Board of Park Commissioners, Kansas City, Mo., until 2 P.M., Tuesday, April 1, 1919, for the construction of reinforced concrete bridge carrying Cliff Drive over Chestnut Avenue Trafficway in Kansas City, Mo. Approximate quantities reinforcing metal, 100,000 lb.; concrete in abutments, 1850 cu.yd.; concrete in arch, 846 cu.yd.; concrete in stairway, 30 cu.yd.; handrail, 433 lin.ft.; surface finish, 3700 sq.ft.; stone veneer, 258 sq.yd. Deposit of $750 required with each bid.

Contracts will be awarded to the lowest and best bidders, but the right is reserved to reject any and all proposals.

PROPOSALS FOR DREDGING. U. S. Engineer Office, Old Federal Building, Wilmington, Del.—Sealed proposals will be received here until 11 A.M., March 24, 1919, and then opened, for dredging Smyrna River, Del. Further information on application.

Bids: April 9.

Highway Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey, for the improvement of the following:

State Highway Route No. 6, Mullica Hill—Mantua Section, concrete surface estimated 54,386 sq.yds., Gloucester County.

Bids will be opened and read in public at the office of the State Highway Commission, Broad St. Bank Bldg., Trenton, N. J., on Wednesday, April 9, 1919, at 10:30 A.M.

Drawings, specifications and forms of bid, contract and bond, for the proposed work are on file in the office of the said Department, at Trenton, N. J., and in the offices of J. A. Williams, Division Engineer, 503 Market Street, Camden, N. J., and may be inspected by or furnished on deposit of Ten Dollars ($10) to prospective bidders. Bids must be made on the standard proposal forms in the manner designated therein and as required by the specifications, same to be enclosed in sealed envelopes, bearing the name and address of bidder and name of the road on the outside, addressed to State Highway Commission, Broad Street Bank Building, Trenton, New Jersey, and must be accompanied by a certified check for not less than ten per cent. (10%) of the amount of the bid, and be delivered at the above place on or before the hour named. Copies of standard proposal form will be furnished on application.

Each bidder must accompany his bid with a certificate from a surety company, duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in, and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: April 22.

Westerly Sewage Treatment Works

Cleveland, Ohio.

Sealed proposals will be received at the office of the Commissioner of Purchases and Supplies, Room No. 219, City Hall, until 12 o'clock noon (Eastern Standard time), April 22, 1919, for the construction of the Sewage Treatment Works at the westerly site.

The work contemplated comprises the construction of grit chambers, two-story settling tanks, outfall conduits, buildings and appurtenances. The following quantities give a general idea of the amount and character of the work to be done:

Wooden Piling	15,000	lin.ft.
Excavation	30,000	cu.yds.
Concrete	15,000	cu.yds.
Steel Reinforcement	850	tons
C. I. Piping	60	tons
Buildings	125,000	cu.ft.

Copies of plans and specifications and blank proposals may be obtained at the office of the Commissioner of Engineering, Room No. 618, City Hall, after March 31, 1919. A deposit of Fifteen Dollars ($15.00) will be required for each set of plans and Three Dollars $3.00) for each set of specifications taken from the above office. If a bid is submitted this deposit will be refunded upon the return of said plans and specifications in good condition. Similar deposits will be required for additional sets of plans and specifications taken from the above office, there being no refund for their return. All checks for said plans and specifications shall be made payable to the City of Cleveland.

The proposal shall contain the full name and address of the party or parties making the same and all persons interested therein, and shall be accompanied by a proposal bond signed by a surety copmany authorized to do business in the State of Ohio or by a certified check on a solvent bank for Ten Thousand Dollars ($10,000.00) made payable to the City of Cleveland, as surety that if the bid be accepted a contract will be entered into and the performance of it properly secured.

No proposal will be entertained unless made on the blanks furnished by the Commissioner of Engineering and delivered at the office of the Commissioner of Purchases and Supplies, Room No. 219, City Hall, previous to 12 o'clock noon (Eastern Standard Time) on the day specified.

The City reserves the right to reject any or all bids.

ED. SHATTUCK,
Commissioner of Purchases and Supplies.

Bids: March 31.

Highway Work

Maryland.

SEALED PROPOSALS for building one section of State Highway, as follows:

Contract No. A-13, Allegany County.—One section of State Highway from Green Ridge to the West side of Polish Mountains, for a distance of 1.4 miles, oilbound macadam will be received by the State Roads Commission, at its offices, 601 Garrett Commission, at its offices, 601 Garrett Building, Baltimore, Maryland, until 12 M. on the 31st day of March, 1919, at which time and place they will be publicly opened and read.

Bids must be made upon the blank form contained in the book of specifications. Specifications and plans will be furnished by the Commission upon application and cash payment of $1, as hereafter no charges will be permitted.

No bids will be received unless accompanied by a certified check for the sum of five hundred ($500) dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

By order of the State Roads Commission this 17th day of March, 1919.

FRANK H. ZOUCK,
Chairman.
CLYDE H. WILSON, Secretary.

Bids: April 9.

Paving

Ithaca, N. Y.

Bids will be received until April 9, 1919, for paving various streets:

5,600	sq.yd. brick pavement with concrete foundation.
20,000	sq.yd. brick pavement over old macadam.
5,600	sq.yd. bitulithic surface on bituminous concrete foundation.
5,600	sq.yd. bitulithic surface on cement concrete foundation.
20,000	sq.yd. bitulithic surface on old macadam.
10,200	lin.ft. cement concrete curb.

HENRY L. STEWART,
City Engineer.

OFFICIAL PROPOSALS

Bids: April 7.

Road Improvement

Camden, N. J.

Notice is hereby given that sealed bids will be received by Chas. F. Wise, Chairman of Road Committee for the widening and resurfacing of a portion of the Camden, Ellisburg and Marlton Turnpike Road, in the County of Camden, with a bituminous surface upon an old Telford and new Telford foundation; estimated amount of surface pavement required is 5640.19 tons of bituminous concrete, of foundation 9471.9 tons of new stone; and opened and read in public at public meeting in the Court House in Camden, N. J., on Monday, April 7, 1919, at 11 A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by J. J. Albertson, Camden County Engineer, and approved by the State Highway Department, have been filed in the office of the said engineer at the Court House in Camden, and of said State Highway Department, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to Chas. F. Wise, Chairman, Road Committee, Court House, Camden, N. J., and must be accompanied by a certified check for not less than $1000, and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of Board of Chosen Freeholders of the County of Camden, N. J.

FRED W. GEORGE, Clerk.

March 17, 1919.

Bids: April 1.

Sanitary Sewer

Town of Nutley, N. J.

Sealed bids for furnishing labor and material and constructing vitrified pipe sanitary sewer on Centre St. from Washington Ave. to Franklin Ave., will be received by the Town Clerk, Town Hall, Nutley, N. J., at 8:15 P.M., April 1, 1919, at which time they will be publicly opened and read by the Board of Commissioners.

The principal items of the contract are: 8572 ft. of trench of various depths; 3200 ft. of 6 in. vitrified pipe; 5000 ft. of 6 in. vitrified pipe; 22 manholes. The time of completion is limited to ninety calendar days.

Pamphlets containing information for bidders, form of proposal, agreement and specifications, also set of blue prints, can be obtained from the Town Engineer or Town Clerk on payment of $5, which will be refunded on the return of the pamphlet and drawings in good order.

A certified check for $1000 must accompany each bid and a bond for the full amount of the bid will be required for the faithful performance of the work.

SIMON BLUM, Town Clerk.

Bids: March 25.

Air Compressor

Marion, Indiana.

Bids for an Air Compressor, according to plans and specifications on file, will be received at Marion, Indiana, on Tuesday, March 25, 1919, at 10 o'clock A.M., by the Board of Public Works.

Further information will be furnished upon request.

T. E. PETRIE, President.
BOARD OF PUBLIC WORKS.

Bids: April 8.

Railroad Construction

DEPARTMENT OF CITY TRANSIT
CITY OF PHILADELPHIA
11th FLOOR, MERSHON BUILDING—
1211 CHESTNUT STREET

Philadelphia, March 18, 1919.

Sealed proposals addressed to the undersigned, as above, will be received until 12 o'clock Noon on Tuesday, April 8, 1919, for constructing the first four sections of the Frankford, Bustleton and Byberry Surface Passenger Railway from Frankford to Bustleton, a distance of about six miles. Contract No. 701, authorized by Ordinance of Councils approved July 20, 1916.

The contract will include the grading, and the furnishing and laying of the track, and the construction of a 504 ft. steel viaduct. There will be about 15,900 lin.ft. of individual track of girder rail type with granite block paving and about 32,200 lin.ft. of individual track of "T" rail type with ballast.

Plans and specifications can be seen at the office of the Department on the 12th floor of the Mershon Building, and copies of same with blank forms of proposals will be supplied to intending bidders upon deposit of $10 which will be refunded upon the return of the plans.

Bidders must be skilled and regularly engaged in this class of work.

The Contractor will be required to comply with the Act of Assembly of July 18, 1917, relative to Workmen's Compensation insurance and must furnish proof of the acceptance of the said act and proof of insurance of liability thereunder, or a certificate of exemption therefrom.

No bid will be considered unless accompanied by a certificate from the city Solicitor that a proposal bond in the sum of Five Hundred Dollars ($500) has been filed in accordance with the provisions of an Ordinance approved May 25, 1860.

The Director reserves the right to reject any or all bids as he may deem best for the interests of the City of Philadelphia.

WM. S. TWINING, Director.

Bids: April 2.

Road Work

Paragould, Arkansas.

Notice is hereby given that the Board of Commissioners of Road Improvement, District No. 4, of Poinsett County, Arkansas, at the office of W. R. Heagler & Sons, in the city of Harrisburg, Arkansas, will until 2 P. M. on Wednesday, April 2, receive proposals for the performance of the following work:

Clearing, 43.4 acres; grubbing, 39 acres; furnishing and placing 797 lin.ft. 12-in. vitrified clay pipe, 491 lin.ft. 18-in. vitrified clay pipe; reinforced concrete abutments, 7 cu.yd.; reinforced concrete culverts, 75 cu.yd.; plain concrete end walls for pipe, 71.5 cu.yd.; 742 lin.ft. wood and pile bridges; 6840 ft. B.M. reflooring old steel bridges; moving one 25-ft. steel span about twenty-five feet to line; 97,000 cu.yd. excavation for roadway and ditches; furnish gravel and clay binder, haul and roll and finish hard surface on 16.38 miles road. The preceding quantities are approximate only.

All proposals must be made on blanks furnished by the engineers or may be had on application to the secretary of the Board of Commissioners, and must be accompanied by either a certified check or a proper and good proposal bond in the amount of one thousand dollars.

All proposals will be opened in public promptly at 2 P.M. on Wednesday, April 2, 1919, at the office of the Board of Commissioners.

The Board of Commissioners reserve the right to accept any or to reject any or all of the bids or proposals offered.

Plans, specifications and estimates may be had from the engineers, W. R. Heagler & Sons, Paragould, Arkansas, upon deposit of ten dollars, or may be seen at the office of the County Court of Poinsett County, in the City of Harrisburg, Arkansas.

L. B. STONE, President,
L. N. LANDERS, Secretary.
W. R. HEAGLER & SONS, Engineers,
Paragould, Arkansas.
March 10, 1919.

Bids: March 31.

Water-Works Improvement

Philadelphia, Pa., March 18, 1919.

Notice is hereby given that sealed proposals will be received by the Bakerton Water Company, at their office in Bakerton (Elmora P. O.), Cambria County, Penn., until 12 o'clock noon, on Monday, March 31st, 1919, for the construction complete of a

(1) STORAGE WATER RESERVOIR

One and one-fourth miles east of Bakerton, Cambria County, Penn., with all its accessories, in which the Embankment Item is about Seventeen Thousand Cubic Yards, and the Concrete Masonry Item about Twelve Hundred Cubic Yards; and

(2) EIGHT INCH CAST IRON PIPE WATER LINE

From the Gate House of the Dam to Reed Street, in Bakerton, about 6600 lineal feet, with Specials, Gates, Hydrants, etc.

Proposals will be required to conform to Plans and Specifications on file at the Office of the Bakerton Water Company, 421 Chestnut St., Philadelphia; at the Office of the Sterling Coal Company, in Bakerton (Elmora P. O.), Cambria County, Penn.; or at the Office of E. W. Hess, Engineer in Clearfield, Penn., and must be made on the Bidding Sheet that will be furnished to bidders on request.

Each bidder must deposit with each of his bids, Cash or a certified check, made payable to the "aBkerton Water Company" in the amount of Five Hundred Dollars ($500.00) a sa guarantee of good faith that he will, if a contract is awarded to him, within ten (10) days thereafter, execute a written contract for the performance of the same. The deposits of other bidders will be returned them.

A Bond satisfactory to the Bakerton Water Company, in an amount equal to the amount of the bid, for the faithful performance of the contract, will be required of the bidder to whom either contract is awarded.

Bids must be sealed, and addressed to the "Bakerton Water Company" and marked plainly on the outside of the envelope enclosing them, "Proposal for Water Works Improvements."

The right is reserved to accept any or reject any or all of the bids.

BAKERTON WATER COMPANY.

Bids: April 1.

Concrete Bridge

Fort Dodge, Iowa.

Sealed bids will be received until 9:30 A.M., April 1, 1919, at the office of the City Clerk, for the construction of a reinforced concrete bridge across Des Moines River, in the City of Fort Dodge, Iowa. Estimated quantities, 2100 cu.yd. concrete, 60 tons reinforcing steel. Plans and specifications may be received from the City Engineer upon a deposit of $25, which will be refunded upon return of plans within 30 days in good condition. Certified check, 10 per cent.

C. H. REYNOLDS, City Engineer

OFFICIAL PROPOSALS

Bids: April 7.

Highway Work

Denver, Colo.

Bids will be received by the State Highway Commission of Colorado, at its offices in the Museum Building, Denver, Colorado, until 2 o'clock P.M., the 7th day of April, 1919, and will then be opened for the construction of State Highway No. 26, between Apache Creek via Walsenburg and Trinidad to Raton Pass.

Bids must be in a sealed envelope and labeled, "Proposal for the construction of State Highway No. 26, known as the 'Pueblo, Walsenburg, Trinidad Road'."

The State Highway Commission will not be responsible for the premature opening of bids not properly labeled.

A certified check for the sum of one thousand and five hundred ($1500) dollars, payable to the State Treasurer of Colorado, must be deposited with all bids for each section bid upon and receipt taken therefor, from the Secretary of the State Highway Commission.

Bids will be for the following classes of work:

Excavation other than rock.
Rock excavation.
Screened or crushed shale }
Screened or crushed gravel } Surfacing
Crushed rock }
Rubble wall.
Corrugated metal culverts.
Steel bridges.
Concrete, bridges and culverts.
Reinforcing steel.
Railing.

The work will be divided into four sections as shown on the proposal sheet. Bidders may bid upon one or more sections.

Each proposal must be for all the items for the section, and each proposal will be considered on the basis of the total of all the items for each section.

Bids must be upon the plans and specifications on file. Alternate plans or specifications will not be considered.

Plans and specifications will be on file in the office of the State Highway Commission, Museum Building, Denver, Colorado, and the office of the County Clerk at Trinidad and the County Clerk at Walsenburg, Colorado.

T. J. EHRHART,
State Highway Commissioner.

OFFICIAL PROPOSALS

Bids: April 3.

Road Improvements

Jonesboro, Ark.

Sealed bids for the improvement of certain roads and streets in Road Improvement District No. 4, Craighead County, Arkansas, will be received by the Board of Commissioners of the Jonesboro-Nettleton Road Improvement District at the office of the Secretary, V. C. Kays, Jonesboro, Arkansas, until 2 P.M., April 3, 1919, at which time and place they will be publicly opened and read.

The work proposed consists of the grading and paving with asphaltic concrete pavement of approximately nine miles of roads, together with the construction of the necessary culverts.

The principal quantities are approximately as follows:

Grading, average haul not exceeding 500 ft.	27,800	cu.yd.
Paving, asphaltic concrete	78,100	sq.yd.
Vitrified pipe culverts, 18 in. diameter	335	lin.ft.
Vitrified pipe culverts, 24 in. diameter	235	lin.ft.
Concrete in culverts and head walls	583	cu.yd.

Plans and specifications may be examined at the office of the Secretary of the District, Jonesboro, Arkansas, or at the Jonesboro office of the Engineers, Klyce & Kackley, or a copy may be obtained from the Engineers upon receipt of a deposit of $15, of which amount ten dollars ($10) will be refunded when the plans and specifications are returned in good order. If additional information is required, address the Engineers.

The right is reserved to reject any or all proposals and to waive informalities. The contractor will be paid cash on monthly estimates amounting to 80 per cent of the work done.

All proposals or bids must be accompanied by a certified check drawn on a responsible bank or trust company and made payable to J. E. Parr, Treasurer, for a sum not less than $10,000. The successful bidder will be required to furnish a performance bond in the sum of 50 per cent of the contract price.

V. C. KAYS, Secretary,
Board of Commissioners.

An Opportunity—
for

Sales Managers, Department Managers, District Managers, and Salesmen, who have been more than successful in the building material line.

We want to receive confidential applications from men who have their eyes open, who know that some men have made their biggest strides by going from one industry to another.

The positions in question are newly created and applications should be made to cover any one but only one of the above positions.

Age: About 30 to 40 years with a degree of maturity greater, if possible, than is usually found at that age.

Experience: A record of successful accomplishments in any Branch of the building material business. Practical experience in dealing with sales problems, organization and management and sound methods of procedure are essential.

Personal Qualifications:

1. Superior executive ability which will enable you to deal effectively with new situations and problems as they arise.
2. Poise and judicial quality which will inspire confidence in your mental processes.
3. Initiative and resourcefulness which will assist you in obtaining results without close supervision of others.
4. Tact, cooperative spirit, and adaptability which will insure your making good with our business friends and your office associates and obtaining their support.

To the right men these positions offer genuine opportunity for growth. You will be cordially received into an official family of young men who know the value of team work and who are practicing it.

We especially solicit applications from men who have done big things elsewhere and who will enjoy surroundings inviting their highest ability.

To insure consideration applications should set forth full particulars concerning age, nationality, business experience, especially what line of building material have you sold or managed successfully, past and present connections. Please state these as concisely as possible, if possible forward a recent photograph (this will be returned to you.)

Do not answer this unless you are thoroughly convinced of your eligibility and can demonstrate in your letter that it would be advantageous to engage you.

All replies will naturally be held in the strictest confidence, and must be by letter only.

Address Vice President,

GAGEN SALES CORPORATION
Majestic Building, Chicago, Ill.

OFFICIAL PROPOSALS

Bids: April 7.

Highway Work

Denver, Colo.

Bids will be received by the State Highway Commission of Colorado, at its offices in the Museum Building, Denver, Colorado, until 2 o'clock P.M., the 7th day of April, 1919, and will then be opened for the construction of State Highway No. 26, between Apache Creek via Walsenburg and Trinidad to Raton Pass.

Bids must be in a sealed envelope and labeled, "Proposal for the construction of State Highway No. 26, known as the 'Pueblo, Walsenburg, Trinidad Road'."

The State Highway Commission will not be responsible for the premature opening of bids not properly labeled.

A certified check for the sum of one thousand and five hundred ($1500) dollars, payable to the State Treasurer of Colorado, must be deposited with all bids for each section bid upon and receipt taken therefor, from the Secretary of the State Highway Commission.

Bids will be for the following classes of work:

Excavation other than rock.
Rock excavation.
Screened or crushed shale ⎫
Screened or crushed gravel ⎬ **Surfacing**
Crushed rock ⎭
Rubble wall.
Corrugated metal culverts.
Steel bridges.
Concrete, bridges and culverts.
Reinforcing steel.
Railing.

The work will be divided into four sections as shown on the proposal sheet. Bidders may bid upon one or more sections.

Each proposal must be for all the items for the section, and each proposal will be considered on the basis of the total of all the items for each section.

Bids must be upon the plans and specifications on file. Alternate plans or specifications will not be considered.

Plans and specifications will be on file in the office of the State Highway Commission, Museum Building, Denver, Colorado, and the office of the County Clerk at Trinidad and the County Clerk at Walsenburg, Colorado.

T. J. EHRHART,
State Highway Commissioner.

Attest:
N. A. BALLOU,
Secretary.

Bids: April 4.

OFFICIAL PROPOSALS

Bids: April 9.

Highway Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey, for the improvement of the following:

State Highway Route No. 6, Mullica Hill—Mantua Section, concrete surface estimated 54,386 sq.yds., Gloucester County.

Bids will be opened and read in public at the office of the State Highway Commission, Broad St. Bank Bldg., Trenton, N. J., on Wednesday, April 9, 1919, at 10:30 A.M.

Drawings, specifications and forms of bid, contract and bond, for the proposed work are on file in the office of the said Department, at Trenton, N. J., and in the offices of J. A. Williams, Division Engineer, 503 Market Street, Camden, N. J., and may be inspected by or furnished on deposit of Ten Dollars ($10) to prospective bidders. Bids must be made on the standard proposal forms in the manner designated therein and as required by the specifications, same to be enclosed in sealed envelopes, bearing the name and address of bidder and name of the road on the outside, addressed to State Highway Commission, Broad Street Bank Building, Trenton, New Jersey, and must be accompanied by a certified check for not less than ten per cent. (10%) of the amount of the bid, and be delivered at the above place on or before the hour named. Copies of standard proposal form will be furnished on application.

Each bidder must accompany his bid with a certificate from a surety company, duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in, and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: April 3.

They can also be seen at office of State Highway Department, Harrisburg; 1001 Chestnut St., Philadelphia, and 904 Hartje Building, Pittsburgh, Pa. L. S. Sadler, State Highway Commissioner.

Bids: April 8.

Sanitary Sewers

OFFICIAL NOTICE NO. 5

Hagerstown, Maryland.
March 3, 1919.

Published by the authority of the Sewerage Commission of Hagerstown, Maryland, sealed proposals for building intercepting storm and sanitary sewers in certain streets, alleys, rights-of-way secured and to be secured and other localities in the City of Hagerstown, will be received at the office of the Sewerage Commission in the Police Headquarters Building until 7:30, Tuesday, April 8, 1919, at which time and place during the session of the said Commissioners, the proposals will be publicly opened and read.

The work to be done embraces the building of approximately 2800 lin.ft. each of 18-in. sanitary and 66-in. storm water sewers with all manholes, inlets, foundations and appurtenances, both largely in tunnel.

On and after Thursday, March 13, 1919, specifications and blank forms of proposals can be obtained and detailed plans examined at the office of the Sewerage Commission and full sets of plans will be sent to any contractor on the receipt of $10, the sum to be returned upon the surrender of the plans in good condition within 30 days from the date of award.

The Sewerage Commission reserves the right to reject any and all bids.

(Signed) E. LEROY HEARD,
Secretary.
(Countersigned) WILLIAM WINGERT,
Chairman.

OFFICIAL PROPOSALS

Bids: April 25.

Constructing 48-Inch Force Main

CONTRACT NO. 121
DEPARTMENT OF PUBLIC SERVICE
WATER WORKS IMPROVEMENT
CITY OF AKRON, OHIO

Sealed proposals for constructing a forty-eight inch pipe line and appurtenances will be received at the office of the Director of Public Service, Delaware Building, Akron, Ohio, until 12 o'clock noon, central standard time of Friday, the twenty-fifth day of April, 1919, at which time and place they will be publicly opened and read.

The contract includes the furnishing and laying of approximately 2.3 miles of 48-in. pipe line, 0.1 mile of 36-in. pipe line, together with all appurtenances, between the Village of Kent and the Distributing Reservoir in Akron.

Bids will be received as follows:

Bid A.—For furnishing approximately 4400 tons of 48-in. cast iron pipe, 170 tons of 36-in. cast iron pipe and 230 tons of special castings.

Bid B.—For laying 2.3 miles of 48-in. cast iron pipe, 0.1 mile of 36-in. cast iron pipe and doing all appurtenant work.

Bid C.—For furnishing and laying 2.3 miles of 48-in. steel pipe, 0.1 mile of 36-in. cast iron pipe and doing all appurtenant work.

All proposals must be made on the forms furnished by the city.

Each bidder must accompany his proposal with a satisfactory bond or certified check in the sum of ten thousand ($10,000) dollars.

A surety bond in the amount of fifty (50) per cent of the amount of the contract will be required of the successful bidder.

Plans and specifications may be seen at the office of the Director or copies may be obtained from the Bureau of Water Works Improvement, 102 E. Mill St., Akron, Ohio, upon deposit of ten ($10) dollars, which sum will be refunded on return of the plans and specifications in good condition within ten days after the award of the contract.

The right is reserved to reject any or all bids.

H. S. MORSE,
Director of Public Service.
H. H. FROST,
Superintendent of Water Works.
G. G. DIXON, Engineer.

Bids: April 8.

Bridge Letting

Lewisburg, W. Va.

Bids will be received by the County Court of Greenbrier County until noon, April 8, for the construction of a bridge across Culberson Creek, in the Williamsburg District of said County. Alternate plans, prepared by the contractors, will be accepted, as well as bids based on plans and specifications supplied by the Court, and in both cases plans and bids will be submitted covering,

First: A bridge of 2 spans, 30 ft. each, 12 ft. roadway, and

Second: One span, 50 ft., of the same width roadway.

Detail information may be had on request from Frank K. Rader, County Road Engineer, Lewisburg, W. Va.

The County Court reserves the right to reject any and all bids.

FRANK K. RADER,
County Road Engineer.

OFFICIAL PROPOSALS

Bids: April 8.

Railroad Construction

DEPARTMENT OF CITY TRANSIT
CITY OF PHILADELPHIA
11th FLOOR, MERSHON BUILDING—
1211 CHESTNUT STREET

Philadelphia, March 18, 1919.

Sealed proposals addressed to the undersigned, as above, will be received until 12 o'clock Noon on Tuesday, April 8, 1919, for constructing the first four sections of the Frankford, Bustleton and Byberry Surface Passenger Railway from Frankford to Bustleton, a distance of about six miles. Contract No. 701, authorized by Ordinance of Councils approved July 20, 1916.

The contract will include the grading, and the furnishing and laying of the track, and the construction of a 504 ft. steel viaduct. There will be about 15,900 lin.ft. of individual track of girder rail type with granite block paving and about 32,200 lin.ft. of individual track of "T" rail type with ballast.

Plans and specifications can be seen at the office of the Department on the 12th floor of the Mershon Building, and copies of same with blank forms of proposals will be supplied to intending bidders upon deposit of $10 which will be refunded upon the return of the plans.

Bidders must be skilled and regularly engaged in this class of work.

The Contractor will be required to comply with the Act of Assembly of July 18, 1917, relative to Workmen's Compensation insurance and must furnish proof of the acceptance of the said act and proof of insurance of liability thereunder, or a certificate of exemption therefrom.

No bid will be considered unless accompanied by a certificate from the city Solicitor that a proposal bond in the sum of Five Hundred Dollars ($500) has been filed in accordance with the provisions of an Ordinance approved May 25, 1860.

The Director reserves the right to reject any or all bids as he may deem best for the interests of the City of Philadelphia.

WM. S. TWINING, Director.

Bids: April 1.

Sanitary Sewer

Nutley, N. J.

Sealed bids for furnishing labor and material and constructing vitrified pipe sanitary sewer on Centre St. from Washington Ave. to Franklin Ave., will be received by the Town Clerk, Town Hall, Nutley, N. J., at 8.15 P.M., April 1, 1919, at which time they will be publicly opened and read by the Board of Commissioners.

The principal items of the contract are: 8572 ft. of trench of various depths; 3200 ft. of 6 in. vitrified pipe; 5000 ft. of 6 in. vitrified pipe; 22 manholes. The time of completion is limited to ninety calendar days.

Pamphlets containing information for bidders, form of proposal, agreement and specifications, also set of blue prints, can be obtained from the Town Engineer or Town Clerk on payment of $5, which will be refunded on the return of the pamphlet and drawings in good order.

A certified check for $1000 must accompany each bid and a bond for the full amount of the bid will be required for the faithful performance of the work.

SIMON BLUM, Town Clerk

U. S. ENGINEER OFFICE, WHEELING, W. VA.—Sealed proposals will be received here until 11 A.M. (Eastern time), April 5, 1919, and then opened, for constructing Pass, Weir, Beartrap, etc., for each of Dams Nos. 23 and 25, Ohio River. Information on application.

OFFICIAL PROPOSALS

Bids: April 2.

Road Construction

STATE BOARD OF PUBLIC ROADS
Providence, R. I.

Sealed proposals for the reconstruction of a section of state highway upon the Putnam Pike, so-called, in the towns of Smithfield and Glocester and approximately 2.4 miles in length will be received by the State Board of Public Roads at its office, State House, Providence, R. I., until 12 M. on Wednesday, April 2, 1919, at which time they will be opened and read in public:

The principal quantities involved are as follows:

Earth excavation	9250	cu.yd.
Borrow	3500	cu.yd.
Ledge	500	cu.yd.
Stone fill	3450	cu.yd.
Gravel foundations	3350	cu.yd.
Concrete masonry	160	cu.yd.
Rip-rap	1500	sq.yd.
Cobble gutter	1100	sq.yd.
Wooden guard rail	2750	lin.ft.
Crushed stone	6000	tons
Bituminous concrete surface (Topeka type)	26000	sq.yd.

Bids must be made upon blank forms to be furnished by the Board.

No bids will be received unless accompanied by a certified check for the sum of $200, payable to the State of Rhode Island.

The Board reserves the right to reject any and all bids and to give preference to towns or cities in accordance with Section 5 of Chapter 84 of the General Laws.

Plans may be examined and specifications and bidding blanks may be obtained at the office of the State Board of Public Roads, State House, Providence, R. I., on and after Friday, March 21, 1919, every week day (except holidays and Saturdays) between the hours of 9 A.M. and 5 P.M., Saturdays 9 A.M. to 12 M.

ABRAM L. ATWOOD,
BENJAMIN F. ROBINSON,
FRANK COLE,
MICHAEL VAN BEUREN,
J. HENRY WOODWARD.

Bids: April 17.

Sewer Construction

Pawtucket, R. I.

Sealed proposals for building sewers in Cottage Street, Mendon Avenue and Benefit Street, will be received at the office of the City Engineer, Masonic Building, Pawtucket, R. I., until 10 o'clock of Thursday, April 17, 1919.

The work consists of the furnishing of all materials and the building of about 1840 ft. of 60-in., 913 ft. of 50-in., 620 ft. of 44-in. brick, "lock joint" pipe, segment block or monolithic concrete sewers in excavation varying from 13 ft. to 25 ft. in depth, with all necessary bell-mouths, catch-basins and man-holes.

Plans and specifications can be obtained from the City Engineer.

A bond for the faithful execution of the contract will be required from the successful bidder.

The Commissioner of Public Works reserves the right to reject any or all bids.

ISAAC GILL.
Commissioner of Public Works.
Pawtucket, R. I.
March 21, 1919.

U. S. ENGINEER OFFICE, 1st District, Cincinnati, O. Sealed proposals for furnishing, delivering and erecting Bear-Trap Leaves for Dam No. 39, Ohio River, will be received here until 2 p.m., April 4, 1919, and then opened. Information on application.

OFFICIAL PROPOSALS

Bids: April 9.

Reservoir Completion

Kansas City, Mo.

Sealed proposals will be received by the Purchasing Agent of Kansas City, Mo., at his office in the City Hall, until 2 o'clock P.M., on Wednesday, April 9, 1919, for the construction and completion of a 15 million gallon storage basin at Wabash and St. John Avenue, Kansas City, Mo. All proposals shall be based upon and shall be in accordance with the approximate estimate of quantities, and the plans and specifications approved by the Board of Fire and Water Commissioners and on file in the office of said Board.

Contract for the excavation of the above basin has been let and work is now proceeding on same. The proposals requested in this advertisement are to cover all other work as shown in the plans and specifications to fully complete the basin.

Proposals shall be made upon the forms attached to specifications and inclosed in a sealed envelope and addressed to the Purchasing Agent, City Hall, Kansas City, Mo., and marked on the outside: "Proposal for 15 Million Gallon Storage Basin."

Each bid shall be accompanied by City Comptroller's receipt for deposit of cash or certified check drawn on a solvent Kansas City bank or Trust Company, made payable to the City Comptroller, in the amount of $1,500, which deposit shall be forfeited to the city in case the bidder, if successful, shall fail or refuse to enter into the contract and bond within ten (10) days after award of contract.

The Board of Fire and Water Commissioners reserves the right to reject any and all bids or to waive any informality or irregularity in any bid, when it shall appear to the interest of the City to do so.

J. RAY SAMUEL,
Purchasing Agent.
W. G. GOODWIN,
Chief Engineer and Superintendent.

Bids: March 31.

Highway Work

Baltimore, Maryland.

Sealed proposals for guilding one section of State Highway, as follows:

Contract No. A-13, Allegany County.—One section of State Highway from Green Ridge to the West side of Polish Mountains, for a distance of 1.4 miles, oilbound macadam will be received by the State Roads Commission, at its offices, 601 Garrett Building, Baltimore, Maryland, until 12 M. on the 31st day of March, 1919, at which time and place they will be publicly opened and read.

Bids must be made upon the blank form contained in the book of specifications. Specifications and plans will be furnished by the Commission upon application and cash payment of $1, as hereafter no charges will be permitted.

No bids will be received unless accompanied by a certified check for the sum of five hundred ($500) dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

By order of the State Roads Commission this 17th day of March, 1919.

FRANK H. ZOUCK,
Chairman.
CLYDE H. WILSON, Secretary.

OFFICIAL PROPOSALS

Bids: April 2.

Street Paving

Durham, N. C.

Sealed proposals will be received by the Mayor and Board of Aldermen of the City of Durham, for the construction of a permanent pavement of approximately 30,000 sq.yd. until 3 o'clock P.M., April 2, 1919, at which time they will be opened and publicly read at the Council Chamber of the said Board.

Plans and specifications of the proposed work may be had at the office of the City Engineer, between the hours of 9 A.M. and 5 P.M., from March 16, 1919 to April 2, 1919. Said specifications provide for the grading, drawing, curbing and paving with some suitable pavement on a six inch concrete base, Main Street from Fuller Street to Alston Ave. and also the submission of bids on 50,000 sq.yd. to 100,000 sq.yd. to be defined later.

The Board reserves the right to reject any or all bids, or to accept such bids as appear in its own judgment to be for the best interests of the City.

M. E. NEWSOM, Mayor,
GEO. W. WOODWARD, City Clerk,
J. L. MOOREHEAD, City Attorney,
H. W. KUEFFNER, City Engineer.

Bids: April 7.

Road Improvement

Camden, N. J.

Notice is hereby given that sealed bids will be received by Chas. F. Wise, Chairman of Road Committee for the widening and resurfacing of a portion of the Camden, Ellisburg and Marlton Turnpike Road, in the County of Camden, with a bituminous surface upon an old Telford and new Telford foundation; estimated amount of surface pavement required is 5640.19 tons of bituminous concrete, of foundation 9471.9 tons of new stone; and opened and read in public at public meeting in the Court House in Camden, N. J., on Monday, April 7, 1919, at 11 A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by J. J. Albertson, Camden County Engineer, and approved by the State Highway Department, have been filed in the office of the said engineer at the Court House in Camden, and of said State Highway Department, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to Chas. F. Wise, Chairman, Road Committee, Court House, Camden, N. J., and must be accompanied by a certified check for not less than $1000, and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of Board of Chosen Freeholders of the County of Camden, N. J.

FRED W. GEORGE, Clerk.
March 17, 1919.

U. S. ENGINEER OFFICE, WHEELING, W. VA.—Sealed proposals will be received here until 11 A.M. (Eastern time), April 17, 1919, and then opened, for furnishing and delivering river-wall valve jacks for Dams Nos. 23, 25 and 27, Ohio River. Information on application.

Bids: April 10.

Earth and Concrete Levee

Newport, Arkansas.

Sealed proposals will be received by the Board of Directors of the Newport Levee District, Jackson County, Arkansas, at Newport, Arkansas, until 2 o'clock P.M., April 10, 1919, for the construction of flood protection works, involving approximately the following principal quantities:

Earth embankment	297,500 cu.yd.
Concrete	2,150 cu.yd.
Reinforcing steel	65 tons
Miscellaneous cast iron and steel	5 tons
Wood sheet piling	116 M. ft. B.M.
Tile, 4 in. and 10 in. diameters	8,270 lin.ft.
Corrugated iron pipe—18 in. and 24 in. diameters.	550 lin.ft.
Cast iron or concrete pipe, 24 in. and 36 in. diameters	290 lin.ft.
Sluice gates, 24 in. diam.	4
36 in. diam.	4
48 in. diam.	2
Sodding embankments...	162,800 sq.yd.

The work is divided into three sections and proposals will be received for the entire work or for any section or combination of sections. Proposals must be submitted on the form furnished by the Board and must be accompanied by a certified check, payable to the Treasurer of the Newport Levee District, for not less than 5 per cent of the total amount of the bid, but in no case need the certified check exceed $5000.

Payments for the work will be made in cash.

All requests for information should be addressed to Morgan Engineering Company, Memphis, Tennessee. Specifications and a general map of the district will be furnished on request without charge. Detailed plans will be supplied at cost.

The right is reserved to reject any or all bids and to waive any informality in the bids received.

BOARD OF DIRECTORS NEWPORT
LEVEE DISTRICT.
By C. R. Hite, Secretary.
MORGAN ENGINEERING COMPANY,
Engineers.

Bids: April 8.

Sewer Construction

College Hill, Pa.

Sealed proposals will be received by the undersigned, up to 6 o'clock P.M., April 8, 1919, for the construction of 28,000 ft. of sewer, more or less, with necessary manholes, flush tanks, etc. The pipe will be furnished by the Borough.

Plans and specifications are on file at the offices of H. P. Dawson, Borough Engineer, Colonial Theatre Bldg., Beaver Falls, Pa., and 341 Fourth Avenue, Pittsburgh, Pa.

Proposals shall be made on the blank forms to be obtained at the Borough Engineer's Offices.

A certified check for $1000 shall be enclosed in the sealed bids.

The Borough Council reserves the right to reject any or all bids.

JOHN LEEPER,
Secretary of Council.

PROPOSAL FOR FURNISHING AND PLACING SOIL AND SOD.—Office U. S. Engineer, Galveston, Texas.—Sealed proposals will be received here until 12 o'clock M., April 23, 1919, and then opened, for furnishing and placing soil and sod at the U. S. Reservation, Fort Crockett, Galveston, Texas. Further information on application.

Bids: April 9.

Road Improvement

Hackensack, N. J.

Notice is hereby given that sealed bids will be received by the Road Committee of the Board of Chosen Freeholders of Bergen County for the improvement of Williams Avenue, Section No. 2, in the Boroughs of Hasbrouck Heights, Peterboro and Little Ferry in the County of Bergen with a 7½" to 10½" Portland Cement Concrete surface upon a cinder foundation; estimated amount of surface pavement required is 18,647 square yards, of foundation 10,640 cubic yards; and opened and read in public at Court House, Bergen County, New Jersey, on April 9th, 1919, at 2.30 P.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by County Engineer, and approved by the State Highway Commission, have been filed in the office of said engineer at Court House, Hackensack, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of cost of preparation. Bids must be made on the Standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to Road Committee, Bergen County Board of Chosen Freeholders, and must be accompanied by a certified check for not less than 10% of said bid, drawn to the order of the County Collector of Bergen County, N. J., and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the Engineer.

By order of Bergen County Board of Chosen Freeholders.

JAS. M. HARKNESS,
Clerk.

Bids: April 17.

Sewer Construction

Pawtucket, R. I.

Sealed proposals for building sewers in Pleasant Street and on the Oak Hill Avenue Plat will be received at the office of the City Engineer, Masonic Building, Pawtucket, R. I., until 10 o'clock of Thursday, April 17, 1919.

The work consists of the furnishing of all materials and the building of about 1200 ft. of segment block sewer, 33 and 45 in. in diameter, about 160 ft. of 20-in. brick sewer, about 2000 ft. of pipe sewer varying in diameter from 10 in. to 24 in., with the necessary catch-basins and manholes.

Plans and specifications can be obtained from the City Engineer.

A bond for the faithful execution of the contract will be required from the successful bidder.

The Commissioner of Public Works reserves the right to reject any or all bids.

ISAAC GILL,
Commissioner of Public Works.
Pawtucket, R. I.
March 21, 1919.

U. S. ENGINEER OFFICE, Room 601, Army Building, 39 Whitehall Street, New York City.—Sealed proposals will be received here until 12 M., April 28, 1919, and then opened, for dredging in Staten Island Sound, N. Y. and N. J. Further information on application.

Bids: April 12.

Highway Construction

Johnstown, Pa.

Sealed proposals will be received in person by Webster Mosholder, President of the Board of Supervisors of Upper Yoder Township, Cambria County, Pennsylvania, at the office of Frank P. Barnhart, Solicitor for Upper Yoder Township, at his offices in the Swank building, in the City of Johnstown, Pennsylvania, promptly at 12 o'clock noon, Saturday, April 12, 1919, from the bidders in person or their duly constituted agents, at which time and place the bids will be opened and read in the presence of all bidders or their said agents, and the contracts awarded within five (5) days thereafter, for the reconstruction of approximately 28,500 lin.ft. of the Millcreek road in said township, extending from the line of the Borough of Westmont to the Ligonier Pike, with three-inch vitrified block on a concrete base.

At the same time and place and in the same manner, separate bids will be received, opened and read and the contracts awarded within five (5) days thereafter for furnishing the following items, namely:

3,500	M 3-in. vitrified blocks.
12,000	barrels of Portland cement.
2,000	lin.ft. of 24-in. reinforced concrete pipe.
2,000	lin.ft. of 30-in. reinforced concrete pipe.
2,000	lin.ft. of cast-iron pipe, sizes 12 in. to 24 inches.

The unloading from cars, hauling to the roadside and stacking of each of the above items.

All quantities are approximate.

Each proposal must be accompanied with a certified check to the amount of at least five (5) per centum of the total amount of the proposal, and the envelope enclosing the proposal must be marked "Proposal for the Reconstruction of the Millcreek Road."

Proposals must be submitted upon the blank forms provided for that purpose. The Supervisors reserve the right to reject any and all bids.

Plans, specifications and bidding blanks may be seen at the office of C. E. Brown, Township Engineer, third floor Hannan Building, Johnstown, Pennsylvania. A deposit of fifteen ($15) dollars will be required with request for plans and five ($5) dollars with request for specifications, which amount will be refunded upon return of the same with a bid.

WEBSTER MOSHOLDER,
CONRAD H. RAAB,
D. H. WEIMER,
Supervisors.
Frank P. Barnhart, Att. for Supervisors.
Swank Building.
Johnstown, Pa.

PROPOSALS FOR HIRE OF ROCK DRILLING PLANT AND FOR DREDGING.—U. S. Engineer Office, Buffalo, N. Y.—Sealed proposals will be received here until 11 A.M., April 16, 1919, and then opened, for hire of rock drilling plant and for dredging in Buffalo River Entrance Channel, Buffalo Harbor, N. Y. Further information on application.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 A.M., April 23, 1919, for constructing about 110,000 cu.yd. of earthwork (75,000 cu.yd. hydraulic fill in old borrow pits; and 35,000 cu.yd. levee enlargement) in the Hunt Drainage Dist., Ill. Further information on application.

OFFICIAL PROPOSALS

Bids: April 2.

Road Work

Paragould, Arkansas.

Notice is hereby given that the Board of Commissioners of Road Improvement, District No. 4, of Poinsett County, Arkansas, at the office of W. R. Heagler & Sons, in the city of Harrisburg, Arkansas, will until 2 P.M., on Wednesday, April 2, receive proposals for the performance of the following work:

Clearing, 43.4 acres; grubbing, 39 acres; furnishing and placing 797 lin.ft. 12-in. vitrified clay pipe, 491 lin.ft. 18-in. vitrified clay pipe; reinforced concrete abutments, 7 cu.yd.; reinforced concrete culverts, 75 cu.yd.; plain concrete end walls for pipe, 71.5 cu.yd.; 742 lin.ft. wood and pile bridges; 6840 ft. B.M. reflooring old steel bridges; moving one 25-ft. steel span about twenty-five feet to line; 97,000 cu.yd. excavation for roadway and ditches; furnish gravel and clay binder, haul and roll and finish hard surface on 16.38 miles road. The preceding quantities are approximate only.

All proposals must be made on blanks furnished by the engineers or may be had on application to the secretary of the Board of Commissioners, and must be accompanied by either a certified check or a proper and good proposal bond in the amount of one thousand dollars.

All proposals will be opened in public promptly at 2 P.M. on Wednesday, April 2, 1919, at the office of the Board of Commissioners.

The Board of Commissioners reserve the right to accept any or to reject any or all of the bids or proposals offered.

Plans, specifications and estimates may be had from the engineer, W. R. Heagler & Sons, Paragould, Arkansas, upon deposit of ten dollars, or may be seen at the office of the County Court of Poinsett County, in the City of Harrisburg, Arkansas.

L. B. STONE, President.
L. N. LANDERS, Secretary.
W. R. HEAGLER & SONS, Engineer,
Paragould, Arkansas.
March 10, 1919.

Bids: April 11.

Earth Dam, Filter Plant and Appurtenances

City of Jacksonville, Ill.

Sealed proposals for an Earth Dam and Filter Plant will be received by the City of Jacksonville until 12 o'clock noon, on the 11th day of April, 1919.

The work for which proposals are invited includes an earth dam about 600 ft. long, a concrete spillway, a water filtration plant of 1.5 million gallons capacity with all appurtenances, according to plans and specifications on file in the office of the City Engineer, Jacksonville, Ill., and of Pearse and Greeley, Engineers, 64 W. Randolph St., Chicago, Ill.

A certified check or surety bond acceptable to the City to the sum of $500 shall be deposited with each bid. Bids may be made on the dam and the filter plant as separate contracts, or together as one.

Plans and specifications may be secured upon deposit of $5.

The City Council reserves the right to reject any or all bids, waive any informality in the bids and to accept any bid which it deems most favorable to the City of Jacksonville.

The City of Jacksonville, Illinois.
BY HENRY J. RODGERS,
Mayor.
R. L. PYATT, Clerk.
March 24, 1919.

OFFICIAL PROPOSALS

Bids: April 9.

Wood Pipe

Kansas City, Mo.

Sealed proposals will be received by the Purchasing Agent of Kansas City, Mo., at his office, 2nd floor, City Hall, until 2 o'clock P.M. of April 9, 1919, for the manufacture and delivery f.o.b., cars in Kansas City, Kansas, on such railroad switches as the Board of Fire and Water Commissioners may designate and the furnishing of all necessary labor and materials to lay approximately 8000 lin.ft. of 48-in. wood pipe and specials in accordance with the plans, bill of material, and specifications on file in the office of the said Board of Fire and Water Commissioners.

Copies of the plans, bill of material, specifications, form of proposal, form of contract and form of bond can be secured by communicating with the Chief Engineer of the Water Department.

Bids must be made upon the forms attached to the specifications and enclosed in a sealed envelope and addressed to the Board of Fire and Water Commissioners of Kansas City, Mo., and marked "Proposals for Furnishing and Laying 48-in. Wood Pipe."

A certified check on some solvent Kansas City bank or trust company for the amount of twenty-five hundred dollars, made payable to the City Comptroller, must be deposited with the City Comptroller, Kansas City, Mo., and his receipt therefor must accompany bid.

The Board of Fire and Water Commissioners reserves the right to reject any and all bids or to waive any informality or irregularity in any bid when it appears to be to the interest of Kansas City (Mo.) so to do.

J. RAY SAMUEL,
Purchasing Agent.

Bids: April 9.

Concrete Pipe

Kansas City, Mo.

Sealed proposals will be received by the Purchasing Agent of Kansas City, Mo., at his office, 2nd floor, in the City Hall, until 2 o'clock P.M. of April 9, 1919, for the manufacture and delivery f.o.b., cars in Kansas City, Kansas, on such railroad switches as the Board of Fire and Water Commissioners may designate and the furnishing of all necessary labor and material to lay approximately 8000 lin.ft. of 48-in. concrete pipe and specials in accordance with the plans, bill of material and specifications on file in the office of the said Board of Fire and Water Commissioners.

Copies of the plans, bill of material, specifications, form of proposal, form of contract and form of bond can be secured by communicating with the Chief Engineer of the Water Department.

Bids must be made upon the forms attached to the specifications and enclosed in a sealed envelope and addressed to the Board of Fire and Water Commissioners of Kansas City, Mo., and marked, "Proposal for Furnishing and Laying 48-in. Concrete Pipe."

A certified check on some solvent Kansas City bank or trust company for the amount of twenty-five hundred dollars, made payable to the City Comptroller, must be deposited with the City Comptroller, Kansas City, Mo., and his receipt therefor must accompany bid.

The Board of Fire and Water Commissioners reserves the right to reject any and all bids or to waive any informality or irregularity in any bid when it appears to be to the interest of Kansas City (Mo.) so to do.

J. RAY SAMUEL,
Purchasing Agent.

Bids: April 12.

Storm Water Drains

Buffalo, N. Y.

The Commissioner of Public Works will receive sealed proposals at Room No. 1, Municipal Building, Buffalo, N. Y., until 11 o'clock A.M., April 12, 1919, for the construction of an 8, 7 and 6 foot storm water drain, known as "The Sloan Drain."

It is to be about 11,000 ft. in length on which brick, segmental tile block or reinforced concrete pipe may be used in part or in whole. The first section is in sandy soil with water, the remainder in clay with some rock excavation required. Part may be constructed in tunnel at contractor's option.

Bids and contract will be on a lump sum basis, excepting a very small section. Bond for 50% or certified check for 10% required with bids.

Plans and specifications may be had by addressing City Engineer, No. 7 Municipal Building, Buffalo, N. Y.

Formal advertisement will be found in the Buffalo Commercial, Morning Express and Buffalo Engineer, March 24, 25, 31 and April 1, 1919.

This is not a formal advertisement.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 A.M., April 23, 1919, for constructing about 290,000 cu.yd. of earthwork (210,000 cu.yd. hydraulic fill in old borrow pits; and 80,000 cu.yd. levee enlargement) in the Lima Lake Drainage District, Ill. Further information on application.

Profitable Proposal Advertising

THE readers of ENGINEERING NEWS-RECORD are the active, progressive engineers and contractors of the civil engineering and contracting field. They look to this paper for information as to new projects and the development of established properties, from the time a bond issue or improvement is talked about until the work is completed.

Money can be saved by getting these men to figure on new work. Advertisements for bids published in ENGINEERING NEWS-RECORD secure maximum competition—the most bidding by the best bidders.

No work is too small, none too large, to be beyond the money-saving quality-insuring influence of NEWS-RECORD Proposal advertising. Cost is only $3.60 an inch.

Proposal ads invariably save large sums on contract prices.

Plans and specifications for work advertised in the Engineering News-Record may be filed without extra expense at our New York, Philadelphia, Cleveland, Chicago or San Francisco offices for the convenience of prospective bidders.

Street Improvements

ETC., ON THE GLOUCESTER HOUSING PROJECT, NOREG VILLAGE, CENTER TOWNSHIP, NEW JERSEY, FOR UNITED STATES SHIPPING BOARD,
EMERGENCY FLEET CORPORATION

Sealed proposals will be received at the office of William H. Boardman, Project Engineer, 426 Walnut Street, Philadelphia, Pa., until 12 o'clock noon, april 7th, 1919, for the construction of Street Pavements, Curbs, Gutters, Storm Water Inlet, Street Walks, House Walks, and work incidental thereto, on the Gloucester Housing Project, Noreg Village, Center Township, New Jersey, for United States Shipping Board, Emergency Fleet Corporation, according to Drawings and Specifications on file with the Project Engineer, and at that time and place the proposals will be publicly opened and read.

On and aftre March 28th plans, specifications, blank forms and all necessary information may be obtained from the Project Engineer, 426 Walnut Street, Philadelphia, and plans may also be seen at the Field Engineer's Office on the Project.

The approximate cost of the work to be done is $15,000.00. Each bid must be accompanied by a certified check drawn upon a National Bank or Trust Company in the amount of Twenty-Five Hundred Dollars, ($2500), payable to the United States Shipping Board, Emergency Fleet Corporation.

Only experienced and responsible bidders will be considered in awarding the Contract, and bidders may be required to submit evidence of experience and financial ability sufficient to warrant their undertaking the work and carrying it on to successful completion. The Owner does not obligate itself to accept the lowest, or any bid.

Bids: April 14.

Standpipe, 25 Ft. Diameter by 130 Ft. High; Concrete Foundation; Metal Work

City of Salem, N. J.

Sealed proposals, marked "Proposal for ("Standpipe Foundation," 'Standpipe Metal Work," or both), and addressed to W. A. W. Grier, Mayor, City of Salem, Salem, New Jersey, will be received until seven (7) o'clock P.M., on Monday, April 14th, 1919, at City Hall, Salem, New Jersey, for the furnishing of all of the materials and labor required for the installation of the said Standpipe Foundation and Metal Work.

Specifications and information may be obtained at the office of Mr. William H. Boardman, Engineer, 426 Walnut St., Philadelphia, or at the office of the undersigned.

A certified check for $200.00, drawn to the order of "The City Treasurer of the City of Salem, New Jersey," or equivalent bidder's bond, must accompany each proposal for the said Foundation, and for $500.00 for the said Metal Work.

The City of Salem reserves the right to reject any or all proposals, or to accept any proposal subject to such modifications as the Engineer may recommend at any time prior to the signing of the Contract.

OFFICIAL PROPOSALS

Bids: April 29.

Canal Terminals

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS
Albany, New York.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, April 29th, 1919, at which place and hour they will be publicly opened and read, for the construction of Barge canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

—1—

TERMINAL CONTRACT NO. 44-P.

For paving parts of the terminal sites at Mott Haven, Greenpoint and Gowanus Bay.

Contract plans, sheets 1 to 5, inclusive.

—2—

TERMINAL CONTRACT NO. 77

For dredging at the Barge canal terminals at Piers 5 and 6, East river, at Greenpoint, and at Long Island City, New York.

Contract plans, sheets 1 to 4, inclusive.

—3—

TERMINAL CONTRACT NO. 218

For constructing a Barge canal terminal freight-shed on Pier 93, West 53rd Street, North River, New York City.

Contract plans, sheets 1 to 7, inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, forms of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award ha sbeen made.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

OFFICIAL PROPOSALS

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner, if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON,
Superintendent of Public Works.

Bids: April 5.

Motor Vehicle Seals

Austin, Texas.

Proposals will be received until April 5th for 400,000 motor-vehicle seals, 3¼ x 5⅜ inches, bearing the following indicia in three lines:

Registered Motor Vehicle
1 2 3 4 5 6
Texas 1920

The seals shall be made of 34 gauge steel. The middle-line serial numbers shall be not less than ⅜ inches high, and shall run consecutively from 1 to 400,000.

STATE HIGHWAY DEPARTMENT,
Austin, Texas.

Maps, plans, specifications and estimates may be seen and proposal forms obtained at the office of the Commission in Albany, N. Y., and also at the office of the Division Engineers in whose division the roads are to be improved. The addresses of the Division Engineers and the counties in which they are in charge will be furnished on request.

The especial attention of bidders is called to "General Information for Bidders" on the itemized proposal, specifications and contract agreement.

EDWIN DUFFEY, Commissioner.
I. J. MORRIS, Secretary.

Bids: April 8.

Highway Work

STATE ROADS COMMISSION
Baltimore, Maryland.

Sealed proposals for building one section of State Highway, as follows:

Contract No. T-11—Talbot County—One section of State Highway from St. Michaels to Claiborne, for a distance of 2.65 miles, concrete,

will be received by the State Roads Commission, at its offices, 601 Garrett Building, Baltimore, Maryland, until 12 M. on the 8th day of April, 1919, at which time and place they will be publicly opened and read.

Bids must be made upon the blank form contained in the book of specifications. Specifications and plans will be furnished by the Commission upon application and cash payment of $1.00 ,as hereafter no cahrges will be permitted.

No bids will be received unless accompanied by a certified check for the sum of Five Hundred ($500) Dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

By order of the State Roads Commission this 24th day of March, 1919.

FRANK A. ZOUCK, Chairman.
CLYDE H. WILSON, Secretary.

Bids: April 12.

Highway Construction

Johnstown, Pa.

Sealed proposals will be received in person by Webster Mosholder, President of the Board of Supervisors of Upper Yoder Township, Cambria County, Pennsylvania, at the office of Frank P. Barnhart, Solicitor for Upper Yoder Township, at his offices in the Swank building, in the City of Johnstown, Pennsylvania, promptly at 12 o'clock noon, Saturday, April 12, 1919, from the bidders in person or their duly constituted agents, at which time and place the bids will be opened and read in the presence of all bidders or their said agents, and the contracts awarded within five (5) days thereafter, for the reconstruction of approximately 28,500 lin.ft. of the Millcreek road in said township, extending from the line of the Borough of Westmont to the Ligonier Pike, with three-inch vitrified block on a concrete base.

At the same time and place and in the same manner, separate bids will be received, opened and read and the contracts awarded within five (5) days thereafter for furnishing the following items, namely:

3,500	M 3-in. vitrified blocks.
12,000	barrels of Portland cement.
2,000	lin.ft. of 24-in. reinforced concrete pipe.
2,000	lin.ft. of 30-in. reinforced concrete pipe.
2,000	lin.ft. of cast-iron pipe, sizes 12 in. to 24 inches.

The unloading from cars, hauling to the roadside and stacking of each of the above items.

All quantities are approximate.

Each proposal must be accompanied with a certified check to the amount of at least five (5) per centum of the total amount of the proposal, and the envelope enclosing the proposal must be marked "Proposal for the Reconstruction of the Millcreek Road."

Proposals must be submitted upon the blank forms provided for that purpose. The Supervisors reserve the right to reject any and all bids.

Plans, specifications and bidding blanks may be seen at the office of C. E. Brown, Township Engineer, third floor Hannan Building, Johnstown, Pennsylvania. A deposit of fifteen ($15) dollars will be required with request for plans and five ($5) dollars with request for specifications, which amount will be refunded upon return of the same with a bid.

WEBSTER MOSHOLDER,
CONRAD H. RAAB,
D. H. WEIMER,
Supervisors.
Frank P. Barnhart, Att. for Supervisors,
Swank Building,
Johnstown, Pa.

Bids: April 24.

Paving

Auburn, Me.

Sealed bids will be received until 10 A.M., Thursday, April 24, 1919, by the City Manager, City Building, Auburn, Me., for the improving and paving of certain streets in said City with vitrified paving block or concrete, or granite block. The work contemplated is about 12,000 sq.yd. Plans and specifications may be seen at the office of the City Manager.

GEORGE W. BUMPUS,
City Clerk.

Bids: April 7.

Highway Work

Denver, Colo.

Bids will be received by the State Highway Commission of Colorado, at its offices in the Museum Building, Denver, Colorado, until 2 o'clock P.M., the 7th day of April, 1919, and will then be opened for the construction of State Highway No. 26, between Apache Creek via Walsenburg and Trinidad to Raton Pass.

Bids must be in a sealed envelope and labeled, "Proposal for the construction of State Highway No. 26, known as the 'Pueblo, Walsenburg, Trinidad Road'."

The State Highway Commission will not be responsible for the premature opening of bids not properly labeled.

A certified check for the sum of one thousand and five hundred ($1500) dollars, payable to the State Treasurer of Colorado, must be deposited with all bids for each section bid upon and receipt taken therefor, from the Secretary of the State Highway Commission.

Bids will be for the following classes of work:

Excavation other than rock.
Rock excavation.
Screened or crushed shale ⎫
Screened or crushed gravel ⎬ Surfacing
Crushed rock ⎭
Rubble wall.
Corrugated metal culverts.
Steel bridges.
Concrete, bridges and culverts.
Reinforcing steel.
Railing.

The work will be divided into four sections as shown on the proposal sheet. Bidders may bid upon one or more sections.

Each proposal must be for all the items for the section, and each proposal will be considered on the basis of the total of all the items for each section.

Bids must be upon the plans and specifications on file. Alternate plans or specifications will not be considered.

Plans and specifications will be on file in the office of the State Highway Commission, Museum Building, Denver, Colorado, and the office of the County Clerk at Trinidad and the County Clerk at Walsenburg, Colorado.

T. J. EHRHART,
State Highway Commissioner.

Attest:
N. A. BALLOU,
Secretary.

Bids: April 11.

Dredging

Bridgeport, Conn.

Sealed proposals will be received at the office of the Clerk of the Board, by the Board of Park Commissioners of Bridgeport, Connecticut, for filling at Fayerweather Island Seaside Park up to 12 o'clock noon of April 11, 1919, at which time the proposals will be publicly opened.

Job includes about 40,000 cubic yards of suction dredging.

Plans and specifications can be obtained fro mthe Engineer, Alfred H. Terry, 886 Main Street, Bridgeport.

No proposal will be accepted unless accompanied by a certified check for $500 payable to the Treasurer of the City of Bridgeport.

The Board reserves the right to reject any and all bids.

B. F. COONEY, Clerk.
Security Building,
Bridgeport, Connecticut.

Bids: April 9.

Highway Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey, for the improvement of the following:

State Highway Route No. 6, Mullica Hill—Mantua Section, concrete surface estimated 54,386 sq.yds., Gloucester County.

Bids will be opened and read in public at the office of the State Highway Commission, Broad St. Bank Bldg., Trenton, N. J., on Wednesday, April 9, 1919, at 10:30 A.M.

Drawings, specifications and forms of bid, contract and bond, for the proposed work are on file in the office of the said Department, at Trenton, N. J., and in the offices of J. A. Williams, Division Engineer, 503 Market Street, Camden, N. J., and may be inspected by or furnished on deposit of Ten Dollars ($10) to prospective bidders. Bids must be made on the standard proposal forms in the manner designated therein and as required by the specifications, same to be enclosed in sealed envelopes, bearing the name and address of bidder and name of the road on the outside, addressed to State Highway Commission, Broad Street Bank Building, Trenton, New Jersey, and must be accompanied by a certified check for not less than ten per cent. (10%) of the amount of the bid, and be delivered at the above place on or before the hour named. Copies of standard proposal form will be furnished on application.

Each bidder must accompany his bid with a certificate from a surety company, duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in, and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: April 15.

Road Surfacing

Greenville, Miss.

The Highway Commission of Washington County, Mississippi, will receive in their office in Greenville, Mississippi, up to 11 o'clock A.M., on Tuesday, the 15th day of April, 1919, sealed proposals for the surfacing of about 58.4 miles of road with concrete nine (9) feet wide, or gravel twelve (12) feet wide, as follows:

Greenville to head of Lake Washington	25.2 Miles
Head of Lake Washington to County line	8.9 Miles
Greenville to Metcalfe	4.4 Miles
Leland to Sunflower County line	10.2 Miles
Hollandale to Murphy Bayou	5.0 Miles
Arcola to Trail Lake	4.7 Miles

All in said County, according to the plans and specifications adopted by the Highway Commission, and on file in their office. All bids must be accompanied by a certified check in the sum of 5% of the amount of the contract bid upon, payable to the Chairman of the Highway Commission to guarantee execution of contract if awarded.

The Highway Commission reserves the right to reject any and all bids.

E. W. WOOD, Chairman.

OFFICIAL PROPOSALS

Bids: April 25.

Constructing 48-Inch Force Main

CONTRACT NO. 121
DEPARTMENT OF PUBLIC SERVICE
WATER WORKS IMPROVEMENT
CITY OF AKRON, OHIO

Sealed proposals for constructing a forty-eight inch pipe line and appurtenances will be received at the office of the Director of Public Service, Delaware Building, Akron, Ohio, until 12 o'clock noon, central standard time of Friday, the twenty-fifth day of April, 1919, at which time and place they will be publicly opened and read.

The contract includes the furnishing and laying of approximately 2.3 miles of 48-in. pipe line, 0.1 mile of 36-in. pipe line, together with all appurtenances, between the Village of Kent and the Distributing Reservoir in Akron.

Bids will be received as follows:

Bid A.—For furnishing approximately 4400 tons of 48-in. cast iron pipe, 170 tons of 36-in. cast iron pipe and 230 tons of special castings.

Bid B.—For laying 2.3 miles of 48-in. cast iron pipe, 0.1 mile of 36-in. cast iron pipe and doing all appurtenant work.

Bid C.—For furnishing and laying 2.3 miles of 48-in. steel pipe, 0.1 mile of 36-in. cast iron pipe and doing all appurtenant work.

All proposals must be made on the forms furnished by the city.

Each bidder must accompany his proposal with a satisfactory bond or certified check in the sum of ten thousand ($10,000) dollars.

A surety bond in the amount of fifty (50) per cent of the amount of the contract will be required of the successful bidder.

Plans and specifications may be seen at the office of the Director or copies may be obtained from the Bureau of Water Works Improvement, 102 E. Mill St., Akron, Ohio, upon deposit of ten ($10) dollars, which sum will be refunded on return of the plans and specifications in good condition within ten days after the award of the contract.

The right is reserved to reject any or all bids.

H. S. MORSE,
Director of Public Service.
H. H. FROST,
Superintendent of Water Works.
G. G. DIXON, Engineer.

Bids: April 15.

Pavement Construction

Pawtucket, R. I.

Sealed proposals will be received at the office of the City Engineer, Masonic Building, Pawtucket, R. I., until 10 o'clock of Tuesday, April 15, 1919, for furnishing all materials and laying about 10,500 sq.yd. of grouted, granite block pavement on a concrete base in Main Street and about 7900 sq.yd. in School and Prospect Streets.

The above work will be let as two separate contracts.

Plans and specifications can be obtained from the City Engineer.

A bond for the faithful execution of the contract will be received from the successful bidder.

The Commissioner of Public Works reserves the right to reject any or all bids.

ISAAC GILL,
Commissioner of Public Works.
Pawtucket, R. I.
March 21, 1919.

OFFICIAL PROPOSALS

Bids: April 7.

Road Improvements

Salem, N. J.

Notice is hereby given that sealed bids will be received by the Road Committee of the Board of Chosen Freeholders of the County of Salem for the construction of Malaga-Penn Grove road, 3rd Section, in the Borough of Woodstown and Township of Pilesgrove in the County of Salem with a gravel surface upon an earth foundation; estimated amount of surface pavement required is 42,120 sq.yd.; and opened and read in public at the Freeholders' Room, Court House, Salem, N. J., on Monday, April 7, 1919, at eleven A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by Howard B. Keasbey, County Engineer, and approved by the State Highway Commission have been filed in the office of the said engineer at Salem, N. J., and of said Commission at the State House, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawing by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder on the outside, addressed to I. C. Smashey, Clerk of said Board, and must be accompanied by a certified check for not less than $1000 and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of the Board of Chosen Freeholders of the county of Salem.

I. C. SMASHEY,
Clerk.

Bids: April 10.

Paving

Farmville, N. C.

Sealed proposals will be received by the Mayor and Board of Commissioners of the Town of Farmville, N. C., at Town Hall in Farmville, N. C., until 2 P.M., April 10, 1919, for Street Improvements.

The work will consist of about:

25,000 or 50,000 sq.yd. of asphalt, bitulithic, brick or other pavement.
15,000 lin.ft. of granite or concrete curb.
15,000 lin.ft. of concrete gutter.
20,000 sq.yd. of sidewalk.

And the necessary grading and drainage, etc.

It is expected that additional work will be done later.

Proposals must be marked, "Proposals for Improvement."

All bids must be upon blank forms provided in the Proposal and Contract and Specifications.

Each bid must be accompanied by a certified check for $2,000.00 as evidence of good faith.

Plans and Specifications will be on file at the Clerk's office in Farmville and at the office of the Engineer in Durham, N. C.; and copies of the specifications, form of proposal, etc., will be mailed upon application to the Engineer at Durham, N. C.

The right is reserved to reject any or all bids.

R. E. BELCHER, Mayor.
T. E. JOYNER, Clerk.
GILBERT C. WHITE, Engineer,
Durham, N. C.

Bids: April 15.

Railroad Construction

DEPARTMENT OF CITY TRANSIT
CITY OF PHILADELPHIA
11th FLOOR, MERSHON BUILDING—
1211 CHESTNUT STREET
Philadelphia, March 18, 1919.

Sealed proposals addressed to the undersigned, as above, will be received until 12 o'clock Noon on Tuesday, April 15, 1919, for constructing the first four sections of the Frankford, Bustleton and Byberry Surface Passenger Railway from Frankford to Bustleton, a distance of about six miles. Contract No. 701, authorized by Ordinance of Councils approved July 20, 1916.

The contract will include the grading, and the furnishing and laying of the track, and the construction of a 504 ft. steel viaduct. There will be about 15,900 lin.ft. of individual track of girder rail type with granite block paving and about 22,400 lin.ft. of individual track of "T" rail type with ballast.

Plans and specifications can be seen at the office of the Department on the 12th floor of the Mershon Building, and copies of same with blank forms of proposals will be supplied to intending bidders upon deposit of $10 which will be refunded upon the return of the plans.

Bidders must be skilled and regularly engaged in this class of work.

The Contractor will be required to comply with the Act of Assembly of July 18, 1917, relative to Workmen's Compensation Insurance and must furnish proof of the acceptance of the said act and proof of insurance of liability thereunder, or a certificate of exemption therefrom.

No bid will be considered unless accompanied by a certificate from the city Solicitor that a proposal bond in the sum of Five Hundred Dollars ($500) has been filed in accordance with the provisions of an Ordinance approved May 25, 1860.

The Director reserves the right to reject any or all bids as he may deem best for the interests of the City of Philadelphia.

WM. S. TWINING, Director.

Pavement Reconstruction

PENNSYLVANIA STATE HIGHWAY DEPARTMENT

Harrisburg, Pa.

Sealed proposals will be received at said office until 10 A.M., April 11, 1919, when bids will be publicly opened and scheduled, and contracts awarded as soon thereafter as possible for the reconstruction of the following pavements: 6915 lin.ft. of reinforced concrete, also 43,391 ft. of bituminous surface course on a concrete foundation in Allegheny County; 16,362 ft. of bituminous surface course on a concrete foundation in Bradford County; 8000 ft. of reinforced concrete in Franklin County; 15,020 ft. of reinforced concrete in Fulton County; 20,720 ft. of bituminous surface course on a concrete foundation in Jefferson County; 28,815 ft., also 8916 ft. of bituminous surface course on a concrete foundation in Lackawanna County; 20,366 ft. of bituminous surface course on a concrete foundation in Northumberland County; 29,546 ft. of bituminous surface course on a concrete foundation in Pike County; 9934 ft. of vitrified brick in McKean County, and 6675 ft. of reinforced concrete and Hillside vitrified brick, in Somerset County.

Bids will also be received for the resurfacing with bituminous mixtures on a prepared broken stone base of 39,824 ft. in Berks County, also 35,907 ft. and 38,282 ft. in Lebanon County.

Bidding blanks and specifications may be obtained free, and plans upon payment of $2.50 per set, upon application to State Highway Department, Harrisburg. No refund for plans returned. They can also be seen at office of State Highway Department, Harrisburg; 1001 Chestnut St., Philadelphia, and 904 Hartje Building, Pittsburgh, Pa. L. S. Sadler, State Highway Commissioner.

Bids: April 8.

Sanitary Sewers

OFFICIAL NOTICE NO. 5

Hagerstown, Maryland.

Published by the authority of the Sewerage Commission of Hagerstown, Maryland, sealed proposals for building intercepting storm and sanitary sewers in certain streets, alleys, rights-of-way secured and to be secured and other localities in the City of Hagerstown, will be received at the office of the Sewerage Commission in the Police Headquarters Building until 7:30, Tuesday, April 8, 1919, at which time and place during the session of the said Commissioners, the proposals will be publicly opened and read.

The work to be done embraces the building of approximately 2800 lin.ft. each of 18-in. sanitary and 66-in. storm water sewers with all manholes, inlets, foundations and appurtenances, both largely in tunnel.

On and after Thursday, March 13, 1919, specifications and blank forms of proposals can be obtained and detailed plans examined at the office of the Sewerage Commission and full sets of plans will be sent to any contractor on the receipt of $10, the sum to be returned upon the surrender of the plans in good condition within 30 days from the date of award.

The Sewerage Commission reserves the right to reject any and all bids.

(Signed) E. LEROY HEARD,
Secretary.
(Countersigned) WILLIAM WINGERT,
Chairman.

Sanitary Work

Willard, N. Y.

Sealed proposals for Sanitary Work—Chlorinating Plant, Willard State Hospital, Willard, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 3 P.M., on Wednesday, April 9, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 3174. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Willard State Hospital, Willard, N. Y., at the New York Office of the Department of Architecture, 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

E. S. ELWOOD,
Secretary, State Hospital Commission.
Dated: March 17, 1919.

OFFICIAL PROPOSALS

Bids: April 15.

Water Work System

Freeport, Ohio.

Sealed proposals will be received at the office of the Clerk of the Board of Trustees of Public Affairs, Freeport, Ohio, until six (6) o'clock P.M., of the fifteenth (15) day of April, 1919, and will be publicly opened and read by the Clerk in the Council Room for furnishing all tools, labor and materials and constructing certain improvements to the existing municipal water works system, including cast-iron pipe lines, valves, hydrants and appurtenances, in accordance with the plans and specifications now on file at the offices of the Clerk of the Board of Trustees of Public Affairs, Freeport, Ohio, and the W. J. Sherman Co., Engineers, Toledo, Ohio.

Copies of the bidding blanks, contract and specifications may be obtained from the undersigned.

Each bid must be accompanied by a surety company bond, a cash deposit or a certified check on some solvent bank, payable to the order of the Village Treasurer, for an amount equal to five (5) per cent of the aggregate amount of the bid, as a guarantee that if the bid is accepted a contract will be entered into and the required bond will be furnished for the faithful

Bids will be received on the whole or any portion of the work herein provided for.

The Board of Trustees of Public Affairs reserves the right to reject any or all bids received, to waive irregularities in the bids, in the interests of the village, and to adjust the extent of the work to the amount of the appropriation.

CHAS. LINARD, Clerk.

Bids: April 17.

Sewer Construction

Pawtucket, R. I.

Sealed proposals for building sewers in Cottage Street, Mendon Avenue and Benefit Street, will be received at the office of the City Engineer, Masonic Building, Pawtucket, R. I., until 10 o'clock of Thursday, April 17, 1919.

The work consists of the furnishing of all materials and the building of about 1840 ft. of 60-in., 913 ft. of 50-in., 620 ft. of 44-in. brick, "lock joint" pipe, segment block or monolithic concrete sewers in excavation varying from 13 ft. to 25 ft. in depth, with all necessary bell-mouths, catch-basins and man-holes.

Plans and specifications can be obtained from the City Engineer.

A bond for the faithful execution of the contract will be required from the successful bidder.

The Commissioner of Public Works reserves the right to reject any or all bids.

ISAAC GILL.
Commissioner of Public Works.
Pawtucket, R. I.

PROPOSALS FOR COAL—U. S. ENGINEER OFFICE, Jacksonville, Fla.—Sealed proposals will be received here until 12 o'clock noon, April 16, 1919, and then opened, for furnishing 3000 short tons coal for U. S. dredges on St. Johns River and tributary waters. Information on application.

U. S. ENGINEER OFFICE, Louisville, Ky. Sealed proposals for furnishing and delivering Accumulators for Lock No. 41, and Operating Machinery for Lock No. 43, Ohio River, will be received here until 12 noon, central time, April 30, 1919, and then opened. Information on application.

Bids: April 18.

Constructing, Draining and Paving Chatham County Public Roads

Savannah, Georgia.

Office of the Commissioners of Chatham county and Ex-officio Judges, Savannah, Georgia, March 14, 1919.

Bids will be received by Chatham county at the office of the commissioners of Chatham county in the county court house, Savannah, Georgia, until Friday, April 18, 1919, not later than 12 o'clock noon, Savannah city time, for furnishing all material and labor and constructing, draining and paving the public roads of Chatham county, Georgia hereinafter named. Plans and specifications can be had upon application to this office, and the payment of $50.00 to cover the cost of the detailed plans, should they be desired. Plans and specifications are, however, subject to inspection, in this office, without such payment.

Bids must be sealed and marked, "Proposal for constructing and paving public roads," and addressed to the Commissioners of Chatham County and Ex-officio Judges, and delivered at the office of the Commissioners of Chatham county at the county court house, Savannah, Georgia.

Terms and time of payment. Payment for each kind of work will be made on the basis stated in the specifications for that particular item and at the rate mentioned in the proposal or bid. Partial payments will be made monthly on or before the 15th day of each month, in accordance with the rules of the county commissioners, on the basis specified in the specifications for that particular item, and at the rate mentioned in the proposal. The total amounts of such payment at any time before final completion shall not exceed eighty-five per cent. (85%) of the relative value of the work done and material furnished, as estimated by the engineer. Estimates of the relative value of the material furnished and work performed will be made by the engineer on or before the last day of the month in which the material is furnished and the work done. Payment therefor will be made on or before the 15th day of the succeeding month. Whenever the total amount of work provided for by the contract shall have been performed and all parts of the work have been approved by the engineer, final estimate showing the value of the material and work will be prepared by the engineer as soon as the necessary measurements can be made. The amount of this estimate, less any sums that may have been deducted in accordance with the provisions of the contract, will be paid to the contractor within thirty days after the final estimate is forwarded by the engineer, provided that the contractor has properly maintained the road as required in the specifications.

No material merely delivered, but not worked into place, temporary work, false work, or the like, shall be included in such estimate and no payments will be allowed for such items.

Work under the contract for the Augusta and Port Wentworth roads and Lathrop avenue, from the corporate limits of the city of Savannah to Port Wentworth must be begun within thirty days after the signing of the contract therefor and completed within five months after such signing. Work on the Port Wentworth and Augusta roads, from Port Wentworth to the county line, shall be begun not later than five months after the signing of the contract and completed within nine months after such signing. Work on the Louisville road, from the limits of the city of Savannah to the county line, shall be begun within thirty days after the signing of the contract and completed within seven months thereafter. Work on the Ogeechee road, from the limits of the city of Savannah to the county line, shall be begun within thirty days from the signing of the contract and completed within seven months thereafter. Work on the Tybee road shall be begun within thirty days after the signing of the contract and completed within one and one-half years thereafter.

Further information, detail plans and specifications can be had by reference to this office and such plans and specifications are on file in this office and open to inspection.

Bidder's bond, check, etc. There must accompany each proposal or bid, a certified check, payable to the order of the Commissioners of Chatham County, Georgia, in a sum equal to five per cent. (5%) of the total of any bid, or a bidder's bond in like sum, acceptable to the county commissioners with a surety company as surety, which has a regular established agency at Savannah, Georgia.

The county reserves the right to reject any and all bids.

OLIVER T. BACON, C. C. C.
A. B MOORE, C. C. C.
ALBERT WYLLY, C. C. C.
HARVEY GRANGER, C. C. C.
A. W. SOLOMON, C. C. C.

Bids: April 9.

Water Main

Ward's Island, N. Y.

Sealed proposals for Water Main, Manhattan State Hospital, Ward's Island, N. Y., will be received by the State Hospital Commission at the Capitol, Albany, N. Y., until 3 o'clock P.M. on Wednesday, April 9, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accopmanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent. (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 2465 including Addenda No. 1. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Manhattan State Hospital, Ward's Island, N. Y., at the New York Office of the Department of Architecture, Room 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

Dated: March 24, 1919.

E. S. ELWOOD,
Secretary, State Hospital Commission.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., March 24, 1919.—Sealed proposals will be received at this office until 3 p.m., April 21, 1919, and then opened, for alterations at the U. S. Post Office and Court House, Erie, Pa., in accordance with the specification and drawings mentioned therein, copies of which may be had at this office or at the office of the Custodian, in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

Bids: April 17.

Highway Work

LITTLE ROCK AND HOT SPRINGS HIGHWAY

Little Rock, Ark.

Notice is hereby given that sealed bids will be received at the office of the State Highway Department, Little Rock, Arkansas, until 2 P.M., April the 17th, 1919, when they will be publicly opened and read.

The work contemplated under the contract is the building of a highway about 55 miles in length, from Little Rock to Hot Springs, Arkansas, and the surfacing of same with concrete or asphalt including culverts and bridges.

The plans contemplate a 30 foot roadbed, 18 feet paved way, and concrete culverts and bridges, except for the small culverts which will be of vitrified tile.

The work has been divided into two 16 mile sections and one 21 mile section. Bids are invited on each section and as a whole.

Bids will be compared on a basis of the engineers estimates as follows:

Clearing and grubbing	74	acres
Earth work	492,000	Cu. Yds.
Loose rock	110,000	"
Solid rock	14,000	"
12" culverts	905	Ft.
18" culverts	70	"
24" culverts	2,310	"
30" culverts	1,015	"
Plain concrete in headwalls	392	Cu. Yds.
Reinforced concrete in culverts and bridges	1,994	"
Fences to be moved	4,900	Rods
Paving	746,900	Sq. Yds.
As an alternate for cement base		
Gravel or macadam base haul 0-1 mile	78,150	Cu. Yds.
Gravel or macadam base haul 1-2 mile	45,885	"
Gravel or macadam base haul 2-3 mile	25,015	"
Gravel or macadam base haul 3-4 mile	29,330	"
Gravel or macadam base haul 4-5 mile	10,745	"

Plans and specifications are on file at the office of the County Clerk in the Court House in Hot Springs, Benton and Little Rock and may be seen there.

Blue prints of alignment and grade and bridges comprising 53 sheets may be secured from the engineers for $8.00. Specifications may be secured from the engineers free of cost.

The right is reserved to reject any or all bids.

Board of Commissioners,
Little Rock—Hot Springs Highway.
W. S. SORRELS, Pres.—Hot Springs.
E. O. BAGLEY, Secty.—Little Rock.
GEO. F. BUZBEE.—Benton.

Paving

Cohoes, N. Y.

Sealed proposals will be received on the 17th day of April, 1919, at 2 P.M., in the Mayor's Office, City Hall, Cohoes, N. Y., for the paving of Manor Avenue, from intersection North Mohawk street to City line, brick, bitulitic, tarvis, or concrete. Certified check 10% of amount of bid must accompany proposal. Successful bidder must file bond 50% of amount of contract.

EUGENE M. HERBERT,
Secretary.

OFFICIAL PROPOSALS

Bids: April 22.

Road Improvements

Salem, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Salem for the reconstruction of Malaga-Penn Grove Road, 7th Section, in the Borough of Pennsgrove and Township of Upper Penns Neck, in the County of Salem with a Bituminous Dressing (Sheet Asphalt) upon a Macadam foundation; estimated amount of surface pavement required is 27,804 square yards, of foundation 27,804 square yards; and opened and read in public at the Freeholders Room, Court House, Salem, N. J., on Tuesday, April 22, 1919, at eleven A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by Howard B. Keasbey, County Engineer, and approved by the State Highway Commission have been filed in the office of the said engineer at Salem, N. J., and of said Commission at Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of the cost of preparation. Bids must be made on the Standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder on the outside, addressed to I. C. Smashey, Clerk of said Board and must be acompanied by a certified check for not less than $1000.00 and be delivered at the place and on the hour above named. The Standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of the Board of Chosen Freeholders of the County of Salem.

I. C. SMASHEY,
Clerk.

Bids: April 17.

Sewer Construction

Pawtucket, R. I.

Sealed proposals for building sewers in Pleasant Street and on the Oak Hill Avenue Plat will be received at the office of the City Engineer, Masonic Building, Pawtucket, R. I., until 10 o'clock of Thursday, April 17, 1919.

The work consists of the furnishing of all materials and the building of about 1200 ft. of segment block sewer, 33 and 45 in. in diameter, about 160 ft. of 20-in. brick sewer, about 2000 ft. of pipe sewer varying in diameter from 10 in. to 24 in., with the necessary catch-basins and manholes.

Plans and specifications can be obtained from the City Engineer.

A bond for the faithful execution of the contract will be required from the successful bidder.

The Commissioner of Public Works reserves the right to reject any or all bids.

ISAAC GILL,
Commissioner of Public Works.
Pawtucket, R. I.
March 21, 1919.

U. S. ENGINEER OFFICE, Room 601, Army Building, 39 Whitehall Street, New York City.—Sealed proposals will be received here until 12 M., April 29, 1919, and then opened, for dredging in Woodbridge Creek, Raritan Bay and Keyport Harbor, N. J. Bids for any or all of these works will be considered. Further information on application.

Dining Room Accommodations

Ward's Island, N. Y.

Sealed proposals for Construction, Heating, Sanitary and Electric Work, Dining Room Accommodations for Patients in Main Building, Manhattan State Hospital, Ward's Island, N. Y., will be received by the Hospital Commission, Capitol, Albany, N. Y., until 3 o'clock P.M. on Wednesday, April 9, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bonds in the sum of fifty per cent. (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications No. 3124, including Addenda dated March 12, 1919, No. 3132, No. 3133 and No. 3134. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Manhattan State Hospital, Ward's Island, N. Y., at the New York Office of the Department of Architecture, 1715 Tribune Building and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

Dated: March 20, 1919.

E. S. ELWOOD,
Secretary, State Hospital Commission.

Bids: April 22.

Drainage

Crowley, La.

Sealed bids will be received by the Iota-Longpoint Drainage District, at the office of Merrill Bernard, Civil Engineer, Crowley, Louisiana, on the following work in Acadia Parish, Louisiana.

Approximately 495,000 cu.yd. of excavation, in the construction of 50 miles of drainage ditches.

Bids will be opened at 2 P.M., April 22, 1919. All bids must be accompanied by a certified check made payable to the Board of Commissioners, Iota-Longpoint Drainage District, for the sum of $1000.

Contractors may see plans and specifications at the office of the engineer.

All bids must be made on blank form accompanying the specifications. The right is reserved to reject any or all bids.

IOTA-LONGPOINT DRAINAGE DISTRICT
L. F. MILNER,
President.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 A.M., April 23, 1919, for constructing about 290,000 cu.yd. of earthwork (210,000 cu.yd. hydraulic fill in old borrow pits; and 80,000 cu.yd. levee enlargement) in the Lima Lake Drainage District, Ill. Further information on application.

PROPOSALS FOR STERN WHEEL STEEL TOWBOAT "CAPTAIN CHAS. D. HARRIS."—Office, Mississippi River Commission, 1st and 2nd Districts, Custom House, Memphis, Tenn.—Sealed proposals will be received here until 11 A.M., April 25, 1919, and then opened, for furnishing one stern wheel steel towboat. Further information on application.

OFFICIAL PROPOSALS

U. S. ENGINEER OFFICE, Room 601, Army Building, 39 Whitehall Street, New York City.—Sealed proposals will be received here until 12 M., April 28, 1919, and then opened, for dredging in Staten Island Sound, N. Y. and N. J. Further information on application.

PROPOSALS FOR HIRE OF ROCK DRILLING PLANT AND FOR DREDGING.—U. S. Engineer Office, Buffalo, N. Y.—Sealed proposals will be received here until 11 A.M., April 16, 1919, and then opened, for hire of rock drilling plant and for dredging in Buffalo River Entrance Channel, Buffalo Harbor, N. Y. Further information on application.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 A.M., April 23, 1919, for constructing about 110,000 cu.yd. of earthwork (75,000 cu.yd. hydraulic fill in old borrow pits; and 35,000 cu.yd. levee enlargement) in the Hunt Drainage Dist., Ill. Further information on application.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Jacksonville, Fla. Sealed proposals will be received here until 12 o'clock, noon, May 3, 1919, and then opened, for dredging in Miami Harbor (Biscayne Bay), Fla. Further information on application.

PROPOSALS FOR QUARTERS for eight married officers. Office Quartermaster, West Point, N. Y. Sealed proposals will be received here until 12 M., April 28, 1919, and then opened for construction of Quarters for Eight Married Officers. Information on application.

U. S. ENGINEER OFFICE, NEW LONDON, CONN.—Sealed proposals will be received here until 2 p.m., April 8, 1919, and then opened, for annual maintenance dredging in Connecticut River, below Hartford. Further information on application.

PROPOSAL FOR FURNISHING AND PLACING SOIL AND SOD.—Office U. S. Engineer, Galveston, Texas.—Sealed proposals will be received here until 12 o'clock M., April 23, 1919, and then opened, for furnishing and placing soil and sod at the U. S. Reservation, Fort Crockett, Galveston, Texas. Further information on application.
Bids: April 7.

Bids: April 8.

Bridge Letting

Lewisburg, W. Va.

Bids will be received by the County Court of Greenbrier County until noon, April 8, for the construction of a bridge across Culberson Creek, in the Williamsburg District of said County. Alternate plans, prepared by the contractors, will be accepted, as well as bids based on plans and specifications supplied by the Court, and in both cases plans and bids will be submitted covering,

First: A bridge of 2 spans, 30 ft. each, 12 ft. roadway, and

Second: One span, 50 ft., of the same width roadway.

Detail information may be had on request from Frank K. Rader, County Road Engineer, Lewisburg, W. Va.

The County Court reserves the right to reject any and all bids.

FRANK K. RADER,
County Road Engineer

OFFICIAL PROPOSALS

Bids: April 24.

Des Plaines River Sewage Treatment Works

DES PLAINES RIVER SEWAGE TREAT-
THE SANITARY DISTRICT OF
CHICAGO
Chicago, Ill.

Sealed proposals, endorsed "Proposals for Des Plaines River Sewage Treatment Works" will be received by the Clerk of the Sanitary District of Chicago, at the office of said Sanitary District, Room 700, Number 910 South Michigan Avenue, Chicago, Illinois, until 12 noon, standard time, on Thursday, April 24, 1919, and will be opened publicly by the Board of Trustees of said Sanitary District at a meeting to be held on that day or at the first meeting thereafter.

The work for which tenders are invited includes the following divisions:

Division A.—Sewage Treatment Plant.

This includes excavation, concrete, reinforcing steel, cast iron piping, gate valves, tile piping, and miscellaneous material and equipment to construct an activated sludge plant.

Division C.—Structural Steel.

This includes the furnishing of steel columns, roof trusses, purlins, lintels, crane girders, crane rails, floor beams, wall plates, anchors, bolts, washers, etc., shop painted.

Division N.—Traveling Crane.

This includes the furnishing of a hand traveling crane.

Division O.—Pumping Machinery.

This includes the furnishing of three (3) 14 inch centrifugal pumps (in accordance with designs submitted by the Sanitary District) and miscellaneous appurtenances.

Division P.—Electrical Equipment.

This includes three (3) vertical shaft, squirrel cage induction motors, each 50 H.P.; four (4) horizontal shaft, slipping wound rotor motors, each 150 H.P.; two (2) horizontal shaft squirrel cage induction motors, comprising one (1) at 75 H.P. and one (1) at 30 H.P.; four (4) 300 K.V.A transformers, oil switch equipment and miscellaneous appurtenances.

Division R.—Blowers.

This includes furnishing six (6) blowers of the horizontal hydro-turbine type.

Division V.—Sluice Gates.

This includes furnishing miscellaneous sluice gates with floor stands and appurtenances.

Division W.—Venturi Meters.

This includes furnishing miscellaneous sewage and air eVnturi meters with recording and indicating apparatus.

The work called for under Division A is to be furnished and erected complete, with appurtenances, as shown on the detailed plans and specifications, at the Des Plaines Sewage Treatment Works of The Sanitary District of Chicago, Broadview, Illinois.

The equipment or material called for under Divisions C, N, O, P, R, V, W, is to be delivered, freight prepaid, on board cars, the Chicago and Northwestern Railway, Maywood, Ill.

Proposals may be made on one division or any number of divisions, complete, but not on any part of any one division. A proposal may also be made on all divisions as an entirety.

All proposals must be made on blank forms of proposal furnished by said Sanitary District and shall be made in accordance with and conform to all of the terms and conditions set forth in "Requirements for Bidding and Instructions to Bidders" attached thereto.

Specifications, forms of proposal and plans may be obtained upon deposit of the following amounts at the office of said Sanitary District, which sum or sums so deposited shall be refunded if said plans and specifications are returned in good condition within thirty days following the opening of bids.

Specifications and Forms of Proposal. For each Copy, Two Dollars and Fifty Cents ($2.50).

Plans of Treatment Works, Twenty dollars ($20.00).

Plans of Pumps, Twenty Dollars ($20.00).

Each proposal must be accompanied by a certified check on a responsible bank doing business in the City of Chicago, or U. S. government coupon bonds, payable to bearer, or cash, to the amount or amounts as follows:

Division A.—Sewage Treatment Plant, Fifteen Thousand Dollars ($15,000.00).

Division C.—Structural Steel, Five Hundred Dollars ($500.00).

Division N.—Traveling Crane, Three Hundred Dollars ($300.00).

Division O.—Pumping Machinery, One Thousand Dollars ($1000.00).

Division P.—Electrical Equipment, Two Thousand Dollars ($2000.00).

Division R.—Blowers, Eight Hundred Dollars ($800.00).

Division V.—Sluice Gates, Five Hundred Dollars ($500.00).

Division W.—Venturi Meters, Seven Hundred Dollars ($700.00).

In no event, however, is a total deposit required of more than Twenty Thousand Eight Hundred Dollars ($20,800.00).

The Board of Trustees of The Sanitary District of Chicago reserves the right to reject any or all proposals.

THE SANITARY DISTRICT OF CHICAGO
By JOHN McGILLEN, Clerk.
Chicago, March 29, 1919.

Put Public Buying on an Efficiency Basis

Now, more than ever before, it is important that those having contracts to let, whether for new work or the furnishing of machinery or supplies, should consider the best methods of securing extensive competition and low bids.

Thousands of reliable contractors and manufacturers constantly seek opportunities to bid on contracts for public work or supplies. They compete for it. That keeps public expenditures down. It makes the taxpayers' money go farther. It puts public buying on an efficient basis. It makes local bidders figure more closely.

These contractors and manufacturers naturally seek news of contracts where it is most plentiful. They read

ENGINEERING NEWS-RECORD
A Consolidation of Engineering News, Engineering Record and the Contractor

the best known and most widely read papers used for the advertising of contracts to be let. Practically every worth-while contractor and manufacturer who wants to figure on public contracts reads Engineering News-Record. No guessing. No uncertainty. Engineering News-Record, with its circulation of 32,000 copies weekly, reaches practically *all* the men who would be interested in advertised contracts.

Proposal Advertising Rate, $3.60 an inch an issue. (About 10 cents per thousand circulation.)

As a government, state or municipal engineer, or public official you should use this means of giving your taxpayers the biggest value for their money. Advertise your contracts in the News-Record—the one nationally recognized medium for this class of advertising.

Look at the Proposals in this issue and see how other communities use it.

0063

*Bids: May 6.

Westerly Sewage Treatment Works

Cleveland, Ohio.

Sealed proposals will be received at the office of the Commissioner of Purchases and Supplies, Room No. 219, City Hall, until 12 o'clock noon (Eastern Standard Time), May 6, 1919, for the construction of the Sewage Treatment Works at the Westerly site.

The work contemplated comprises the construction of grit chambers, two-story settling tanks, outfall conduits, buildings and appurtenances. The following quantities give a general idea of the amount and character of the work to be done:

Wooden piling	15,000 lin.ft.
Excavation	30,000 cu.yd.
Concrete	15,000 cu.yd.
Steel reinforcement	850 tons
C. I. piping	60 tons
Buildings	125,000 cu.ft.

Copies of plans and specifications and blank proposals may be obtained at the office of the Commissioner of Engineering, Room No. 618, City Hall, after April 15, 1919. A deposit of fifteen dollars ($15) will be required for each set of plans and three dollars ($3) for each set of specifications taken from the above office. If a bid is submitted this deposit will be refunded upon the return of said plans and specifications in good condition. Similar deposits will be required for additional sets of plans and specifications taken from the above office, there being no refund for their return. All checks for said plans and specifications shall be made payable to the City of Cleveland.

The proposal shall contain the full name and address of the party or parties making the same and all persons interested therein, and shall be accompanied by a proposal bond signed by a surety company authorized to do business in the State of Ohio or by a certified check on a solvent bank for ten thousand dollars ($10,000), made payable to the City of Cleveland, as surety that if the bid be accepted a contract will be entered into and the performance of it properly secured.

No proposal will be entertained unless made on the blanks furnished by the Commissioner of Engineering and delivered at the office of the Commissioner of Purchases and Supplies, Room No. 219, City Hall, previous to 12 o'clock noon (Eastern Standard Time) on the day specified.

The City reserves the right to reject any or all bids.

ED. SHATTUCK,
Commissioner of Purchases
and Supplies.

*This ad was published through error in March 20th issue.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 A.M., April 30, 1919, for constructing about 200,000 cu.yd. of earthwork by the hydraulic method in the Muscatine-Louisa Island Levee District, Iowa. Further information on application.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., March 31, 1919.—Sealed proposals will be received at this office until 3 P.M., April 24, 1919, and then opened, for Lookout Gallery at the U. S. Post Office, Saginaw, Mich., in accordance with drawing No. 71 and this specification, copies of which may be had at the office of the Custodian or at this office in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

Bids: April 10.

Street Improvementz, Etc.

ON THE GLOUCESTER HOUSING PROJECT, NOREG VILLAGE, CENTER TOWNSHIP, NEW JERSEY, FOR UNITED STATES SHIPPING BOARD.

EMERGENCY FLEET CORPORATION

CHANGE OF DATE

Sealed proposals will be received at the office of William H. Boardman, Project Engineer, 426 Walnut Street, Philadelphia, Pa., until 12 o'clock noon, April 10, 1919, for the construction of Street Pavements, Curbs, Gutters, Storm Water Inlet, Street Walks, House Walks, and work incidental thereto, on the Gloucester Housing Project, Noreg Village, Center Township, New Jersey, for United States Shipping Board, Emergency Fleet Corporation, according to Drawings and Specifications on file with the Project Engineer, and at that time and place the proposals will be publicly opened and read.

On and after March 28th plans, specifications, blank forms and all necessary information may be obtained from the Project Engineer, 426 Walnut Street, Philadelphja, and plans may also be seen at the Field Engineer's Office on the Project.

The approximate cost of the work to be done is $140,000. Each bid must be accompanied by a certified check drawn upon a National Bank or Trust Company in the amount of twenty-five hundred dollars ($2500), payable to the United States Shipping Board, Emergency Fleet Corporation.

Only experienced and responsible bidders will be considered in awarding the contract, and bidders may be required to submit evidence of experience and financial ability sufficient to warrant their undertaking the work and carrying it on to successful completion. The Owner does not obligate itself to accept the lowest, or any bid.

Bids: April 8.

Road Materials

Wilmington, Del.

Proposals addressed to the President of the Levy Court, Room 133 County Building, Wilmington, Delaware, will be received until 12 o'clock noon, Tuesday, April 8, 1919, for the following materials: Prices for Crushed Stone, Gravel, Slag, Road Tar and Oils and Asphalts, f.o.b. at the plant and at the different Railroad Stations in this county. Also prices for sweeping and applying Road Tar and Asphalt as per specifications on the different roads in this county. Prices for hauling Crushed Stone, Gravel and Slag per ton from Railroad Stations to the different roads in this county as per specifications.

Specifications and Bidding Blanks may be obtained at the office of the County Engineer, Room 133, County Building, on and after April 2, 1919. A certified check for the amount of $100 must accompany each bid. The Levy Court reserves the right to reject any and all bids.

CHARLES E. GRUBB,
County Engineer.

OFFICE OF THE COMMISSIONERS, D. C., March 28, 1919. Sealed proposals will be received at this office, Room 511, District Building, until 2 o'clock P.M., on April 21, 1919, for the construction of the substructure for the Rock Creek Pumping Station of the Sewage Disposal System District of Columbia. Forms of proposals, specifications and necessary information may be obtained from the Chief Clerk, Engineer Department, Room 427 District Building, Washington, D. C. Louis Brownlow, W. Gwynn Gardiner, Charles W. Kutz, Commissioners.

Bids: April 24.

Water Works, Electric Light Plant and Sewerage

Benson, N. C.

Sealed proposals will be received by the Mayor and Board of Commissioners of the Town of Benson, N. C., at the Town Hall in Benson, N. C., until 4 P.M., April 24, 1919, for water works, electric light plant and sewerage.

The work will consist of Deep Well and Pump, combined water and electric station, 60 and 100 kw. units, boilers, pumps and reservoir, and about five miles of water pipe lines, about four miles of sewers and Sewage Disposal Plant; no bids on electric distribution system.

Proposals must be marked, "Proposal for Improvements."

All bids must be upon blank forms provided in the Proposal and Contract and Specifications.

Each bid must be accompanied by a certified check for five per cent of the amount of bid, but not less than $250, as evidence of good faith.

Plans and Specifications will be on file at the Clerk's office in Benson and at the office of the Engineer in Durham, N. C.; copies of the specifications, form of proposal, etc., will be mailed upon application to the Engineer at Durham, N. C.

Copies of plans may be obtained from the Engineer by depositing $10, which will be returned only upon the return of the plans in good condition within 3 weeks after the letting.

The right is reserved to reject any or all bids.

EZRA PARKER, Mayor.
L. GILBERT, Clerk.
GILBERT C. WHITE, Engineer,
Durham, N. C.

Bids: April 16.

Furnishing Valves

WATER DEPARTMENT

Baltimore, Md.

Sealed proposals, in duplicate, addressed to the "Board of Awards" of Baltimore City, will be received at the office of the City Register, City Hall, Baltimore, Md., until 12 o'clock noon, Wednesday, April 16, 1919, for furnishing and delivering the following valves to the Water Department, Baltimore, Maryland.

Iron Body Gate Valves

275— 4 in.
500— 6 in.
6— 8 in.
20—10 in.
10—12 in.
5—16 in.
5—20 in.

Specifications and proposal forms may be obtained at the office of the Water Engineer, City Hall, Baltimore, Md., on and after March 29, 1919. A charge of $5 will be made for each set of specifications. This amount will be refunded upon their return on or before April 25, 1919, in good condition. Specifications used in making a bid will be considered as returned.

All bids must be accompanied by a certified check of the bidder upon a clearing house bank, in the amount recited in the specifications, drawn to the order of the Mayor and City Council of Baltimore, Md. The successful bidder will be required to give satisfactory bond for the faithful performance of the agreement, equal in amount to the value of the contract.

The Board of Awards reserves the right to reject any or all bids.

WALTER E. LEE,
Water Engineer.

Approved:
J. BARRY MAHCOL,
Acting Pres. Board of Awards.

OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Bids: April 29.

Canal Terminals

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS
Albany, New York.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, April 29th, 1919, at which place and hour they will be publicly opened and read, for the construction of Barge canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

—1—

TERMINAL CONTRACT NO. 44-P.

For paving parts of the terminal sites at Mott Haven, Greenpoint and Gowanus Bay.

Contract plans, sheets 1 to 5, inclusive.

—2—

TERMINAL CONTRACT NO. 77

For dredging at the Barge canal terminals at Piers 5 and 6, East river, at Greenpoint, and at Long Island City, New York.

Contract plans, sheets 1 to 4, inclusive.

—3—

TERMINAL CONTRACT NO. 218

For constructing a Barge canal terminal freight-shed on Pier 93, West 53rd Street, North River, New York City.

Contract plans, sheets 1 to 7, inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, forms of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

OFFICIAL PROPOSALS

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner, if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON,
Superintendent of Public Works.

LITTLE ROCK AND HOT SPRINGS HIGHWAY
Little Rock, Ark.

Notice is hereby given that sealed bids will be received at the office of the State Highway Department, Little Rock, Arkansas, until 2 P.M., April the 17th, 1919, when they will be publicly opened and read.

The work contemplated under the contract is the building of a highway about 55 miles in length, from Little Rock to Hot Springs, Arkansas, and the surfacing of same with concrete or asphalt including culverts and bridges.

The plans contemplate a 30 foot roadbed, 18 feet paved way, and concrete culverts and bridges, except for the small culverts which will be of vitrified tile.

The work has been divided into two 16 mile sections and one 21 mile section. Bids are invited on each section and as a whole.

Bids will be compared on a basis of the engineers estimates as follows:

Clearing and grubbing	74	acres
Earth work	492,000	Cu.Yds.
Loose rock	110,000	"
Solid rock	14,000	"
12" culverts	905	Ft.
18" culverts	70	"
24" culverts	2,310	"
30" culverts	1,015	"
Plain concrete in headwalls	392	Cu.Yds.
Reinforced concrete in culverts and bridges	1,994	"
Fences to be moved	4,900	Rods
Paving	746,900	Sq.Yds.
As an alternate for cement base		
Gravel or macadam base haul 0-1 mile	78,150	Cu.Yds.
Gravel or macadam base haul 1-2 mile	45,885	"
Gravel or macadam base haul 2-3 mile	25,015	"
Gravel or macadam base haul 3-4 mile	29,330	"
Gravel or macadam base haul 4-5 mile	10,745	"

Plans and specifications are on file at the office of the County Clerk in the Court House in Hot Springs, Benton and Little Rock and may be seen there.

Blue prints of alignment and grade and bridges comprising 53 sheets may be secured from the engineers for $8.00. Specifications may be secured from the engineers free of cost.

The right is reserved to reject any or all bids.

Board of Commissioners,
Little Rock—Hot Springs Highway.
W. S. SORRELS, Pres.—Hot Springs.
E. O. BAGLEY, Secty.—Little Rock.
GEO. F. BUZBEE.—Benton.

LUND AND HILL, Engrs.
Little Rock, Arkansas.

U. S. ENGINEER OFFICE, WHEELING, W. VA.—Sealed proposals will be received here until 11 A.M. (Eastern time), April 17, 1919, and then opened, for furnishing and delivering river-wall valve jacks for Dams Nos. 23, 25 and 27, Ohio River. Information on application.

Canal Terminals

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF
PUBLIC WORKS
Albany, New York.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, April 29th, 1919, at which place and hour they will be publicly opened and read, for the construction of Barge canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

—1—

TERMINAL CONTRACT NO. 44-P.

For paving parts of the terminal sites at Mott Haven, Greenpoint and Gowanus Bay.

Contract plans, sheets 1 to 5, inclusive.

—2—

TERMINAL CONTRACT NO. 77

For dredging at the Barge canal terminals at Piers 5 and 6, East river, at Greenpoint, and at Long Island City, New York.

Contract plans, sheets 1 to 4, inclusive.

—3—

TERMINAL CONTRACT NO. 218

For constructing a Barge canal terminal freight-shed on Pier 93, West 53rd Street, North River, New York City.

Contract plans, sheets 1 to 7, inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, forms of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

OFFICIAL PROPOSALS

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner, if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON,
Superintendent of Public Works.

Bids: April 17.

Paving

Cohoes, N. Y.

Sealed proposals will be received on the 17th day of April, 1919, at 2 P.M., in the Mayor's Office, City Hall, Cohoes, N. Y., for the paving of Manor Avenue, from intersection North Mohawk street to City line, brick, bitulitic, tarvis, or concrete. Certified check 10% of amount of bid must accompany proposal. Successful bidder must file bond 50% of amount of contract.

EUGENE M. HERBERT,
Secretary.

Goshen & W. Whiteland Townships, Chester County, on Route No. 147; also 2334 Linear Feet of Reinforced Concrete Pavement, from 18′ to 32½′ in width, situated in Kennett Square Borough, Chester County, on Route No. 131; 26,648 Linear Feet of Reinforced Concrete and Hillside Vitrified Brick Pavement, 18 feet wide, situated in Paint and Elk Townships, Clarion County, on Route No. 65; also 1842 Linear Feet of Vitrified Brick Pavement, 16 and 35 feet wide, situated in Clarion Borough, Clarion County, on Route No. 65; 8414 Linear Feet of Reinforced Concrete and Hillside Vitrified Brick Pavement, 18 feet wide, situated in Walker and Formanagh Townships, Juniata County, on Route No. 31; 10,560 Linear Feet of Reinforced Concrete Pavement, 18 feet wide, situated in Union Township, Luzerne County, on Route No. 4; also 22,452 Linear Feet of Bituminous Pavement, 18 feet wide, situated in Salem Township, Luzerne County, on Route No. 4; 26,310 Linear Feet of Reinforced Concrete Pavement, 18 feet wide, situated in Charleston and Richmond Townships, Tioga County, on Route No. 21; also, 10,717 Linear Feet of Reinforced Concrete Pavement, 18 feet wide, situated in Broken Straw Township, Warren County, on Route No. 88. Bidding blanks and specifications may be obtained free, and plans upon payment of $2.50 per set, upon application to State Highway Department, Harrisburg. No refund for plans returned. They can also be seen at office of State Highway Department, Harrisburg, 1001 Chestnut Street, Philadelphia, and 904 Hartje Building, Pittsburgh, Pa.

L. S. SADLER,
State Highway Commissioner.

TREASURY DEPARTMENT. Supervising Architect's Office, Washington, D. C., March 24, 1919.—Sealed proposals will be received at this office until 3 p.m., April 21, 1919, and then opened, for alterations at the U. S. Post Office and Court House, Erie, Pa., in accordance with the specification and drawings mentioned therein, copies of which may be had at this office or at the office of the Custodian, in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

U. S. ENGINEER OFFICE, Room 601, Army Building, 39 Whitehall Street, New York City.—Sealed proposals will be received here until 12 M., April 29, 1919, and then opened, for dredging in Woodbridge Creek, Raritan Bay and Keyport Harbor, N. J. Bids for any or all of these works will be considered. Further information on application.

OFFICIAL PROPOSALS

*Bids: May 6.

Westerly Sewage Treatment Works

Cleveland, Ohio.

Sealed proposals will be received at the office of the Commissioner of Purchases and Supplies, Room No. 219, City Hall, until 12 o'clock noon (Eastern Standard Time), May 6, 1919, for the construction of the Sewage Treatment Works at the Westerly site.

The work contemplated comprises the construction of grit chambers, two-story settling tanks, outfall conduits, buildings and appurtenances. The following quantities give a general idea of the amount and character of the work to be done:

Wooden piling	15,000 lin.ft.
Excavation	30,000 cu.yd.
Concrete	15,000 cu.yd.
Steel reinforcement	850 tons
C. I. piping	60 tons
Buildings	125,000 cu.ft.

Copies of plans and specifications and blank proposals may be obtained at the office of the Commissioner of Engineering, Room No. 618, City Hall, after April 15, 1919. A deposit of fifteen dollars ($15) will be required for each set of plans and three dollars ($3) for each set of specifications taken from the above office. If a bid is submitted this deposit will be refunded upon the return of said plans and specifications in good condition. Similar deposits will be required for additional sets of plans and specifications taken from the above office, there being no refund for their return. All checks for said plans and specifications shall be made payable to the City of Cleveland.

The proposal shall contain the full name and address of the party or parties making the same and all persons interested therein, and shall be accompanied by a proposal bond signed by a surety company authorized to do business in the State of Ohio or by a certified check on a solvent bank for ten thousand dollars ($10,000), made payable to the City of Cleveland, as surety that if the bid be accepted a contract will be entered into and the performance of it properly secured.

No proposal will be entertained unless made on the blanks furnished by the Commissioner of Engineering and delivered at the office of the Commissioner of Purchases and Supplies, Room No. 219, City Hall, previous to 12 o'clock noon (Eastern Standard Time) on the day specified.

The City reserves the right to reject any or all bids.

ED. SHATTUCK,
Commissioner of Purchases
and Supplies.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 A.M., April 23, 1919, for constructing about 290,000 cu.yd. of earthwork (210,000 cu.yd. hydraulic fill in old borrow pits; and 80,000 cu.yd. levee enlargement) in the Lima Lake Drainage District, Ill. Further information on application.

PROPOSALS FOR STERN WHEEL STEEL TOWBOAT "CAPTAIN CHAS. D. HARRIS."—Office, Mississippi River Commission, 1st and 2nd Districts, Custom House, Memphis, Tenn.—Sealed proposals will be received here until 11 A.M., April 25, 1919, and then opened, for furnishing one stern wheel steel towboat. Further information on application.

OFFICIAL PROPOSALS

Bids: April 30.

Re-Paving and Sewer

Akron, Ohio.

Sealed bids or proposals addressed to the Director of Public Service, and endorsed "Proposal for Re-paving and Sewer in South Main Street, from Thornton to Crosier" will be received at the office of the Director, Delaware Bldg., Akron, Ohio, until 12 o'clock noon, Central Standard time, of Wednesday, the 30th day of April, 1919, and at that time and place will be publicly opened and read.

The work includes removal of 6670 sq.yds. of old pavement and concrete base.

Removal of 4500 sq.yds. of pavement only.
Laying 6670 sq.yds. concrete base.
910 lin.ft. of 30″ to 36″ Trunk Sewer.
1680 lin.ft. 8″ to 24″ vitrified pipe sewer.
4800 lin.ft. 4″ sub-drain.
13 manholes.
21 street inlets.
Laying 11,175 sq.yds. stone block or brick pavement.

Each proposal must be accompanied by certified check in the sum of Five Hundred Dollars ($500.00).

A surety bond in the sum of Fifty (50) per cent. of the amount of the contract will be required of the successful bidder.

Plans and specifications on file in the office of the Chief Engineer, or can be obtained upon deposit of Five Dollars ($5.00), which deposit will be returned if plans are returned in good condition within ten days after taking of the bids.

The right is reserved to reject any or all bids.

H. S. MORSE, Director Public Service.
E. A. ZEISLOFT, Chief Engineer.

Bids: April 23.

Concrete Stand Pipe

Kansas City, Mo.

Sealed proposals will be received by the Purchasing Agent of Kansas City, Missouri, at his office in the City Hall, until 2 o'clock p.m. of April 23, 1919, for designing and erecting a reinforced concrete stand pipe of 1,000,000 gallon capacity at 75th & Holmes Street, Kansas City, Missouri. All proposals shall be based upon and shall be in accordance with the general specifications approved by the Board of Fire and Water Commissioners and on file in the office of said Board.

Copies of Instructions to Bidders, Plans and Specifications, Form of Proposal, Form of Contract and Form of Bond can be secured by communicating with the Purchasing Agent or the Chief Engineer and Superintendent of the Water Department.

Proposals shall be made upon the forms attached to specifications and enclosed in a sealed envelope and addressed to the Purchasing Agent, City Hall, Kansas City, Missouri, and marked on the outside "Proposal for 1 Million Gallon Reinforced Concrete Stand Pipe, 75th & Holmes Street."

Each bid shall be accompanied by City Comptroller's receipt for deposit of cash or certified check drawn on a solvent Kansas City bank or trust company, made payable to the City Comptroller, in the amount of $1500.00, which deposit shall be forfeited to the City in case the bidder, if successful, shall fail or refuse to enter into the contract and bond within ten (10) days after award of contract.

The Board of Fire and Water Commissioners reserves the right to reject any and all bids or to waive any informality or irregularity in any bid, when it shall appear to the interest of the City to do so.

J. RAY SAMUEL,
Purchasing Agent.

OFFICIAL PROPOSALS

Bids: April 17.

Highway Work

Albany, N. Y.

Office of the State Commission of Highways, Albany, N. Y. Sealed proposals will be received by the undersigned at their office, No. 55 Lancaster Street, Albany, N. Y., at one o'clock P.M., on Thursday, the 17th day of April, 1919, for the construction of highways in the following counties:

ALBANY	(Approx. 1.45)
CHEMUNG	(Approx. 0.03)
ERIE	(two highways—5.25 & 5.78)
FULTON	(Approx. 4.90)
HERKIMER	(two highways—5.84 & 5.67)
ONEIDA	(two highways—6.15 & 5.74)
PUTNAM	(Approx. 1.61)
ST. LAWRENCE	(two highways—5.45 & 3.48)
TOMPKINS	(Approx. 2.46)
WASHINGTON	(Approx. 5.40)
WAYNE	(Approx. 2.99)

Maps, plans, specifications and estimates may be seen and proposal forms obtained at the office of the Commission in Albany, N. Y., and also at the office of the Division Engineers in whose division the roads are to be improved. The addresses of the Division Engineers and the counties in which they are in charge will be furnished on request.

The especial attention of bidders is called to "General Information for Bidders" on the itemized proposal, specifications and contract agreement.

EDWIN DUFFEY, Commissioner.
I. J. MORRIS, Secretary.

Bids: April 29.

Bridge Construction

Franklin, Pa.

Sealed proposals will be received up to 1:00 P.M. on Tuesday, April 29, 1919, by the County Commissioners of Venango County, Pa., at the County Court House at Franklin, Pa., for the construction of the following work. Plans and specifications may be seen at the Court House or at the office of R. L. Phillips, County Bridge Engineer at Meadville, Pa.

1. Constructing New bridge over Scrubgrass Creek one mile north of Clintonville in Clinton Township, Venango County, Pa., known as the Crawford Bridge. For this bridge, bids will be received for the following types of structure.

A. Reinforced concrete bridge consisting of 66 ft. arch span, 15 ft. rise with three 16 ft. approach spans.

B. Stone Arch bridge with a span of 66 ft. and a rise of 20 ft.

C. A Pony Warren Truss Bridge 102.5 ft. span, 16 ft. roadway with a variety of floor types and with both cut stone and concrete abutments.

2. Constructing a new bridge over North Sandy Creek in the Borough of Polk, Venango County, Pa. Bids received for the following styles of structure.

A. Steel pony truss bridge of 45 ft. span with 18 ft. roadway and creosoted wood block floor.

B. Through Girder, reinforced concrete bridge of same span and roadway with concrete floor. Both types on reinforced concrete abutments.

3. Repairing present concrete floor with Tarvia KP and laying thereon a creosoted wood block floor on a 1 in. sand cushion on the Washington St. Bridge in Franklin, Pa. 1600 sq.yards.

VENANGO COUNTY COMMISSIONERS.

Bids: April 23.

Road Work

STATE OF ILLINOIS
DEPARTMENT OF PUBLIC WORKS
AND BUILDINGS
DIVISION OF HIGHWAYS

Springfield, Ill.

Notice is hereby given that sealed proposals will be received in the office of the Department of Public Works and Buildings, Division of Highways, Springfield, Illinois, until 11 o'clock A.M., April 23, 1919, for the road work on the Dixie Highway designated by county and section below. All bids must be on regular forms furnished by the Department.

Plans for all the work may be examined in the office of the Department of Public Works and Buildings, Division of Highways, Springfield, Illinois; in the office of District No. 1, H. B. Bushnell, District Engineer, 138 Fox Street, Aurora, Illinois; and also in the office of District No. 4, R. L. Bell, District Engineer, Buchanan-Link Building, Paris, Illinois. Plans will not be sent to prospective bidders, but upon making a deposit with District Engineer R. L. Bell, plans may be obtained for temporary use while inspecting the conditions attending the work in question.

Alternative bids will be received for the following types of construction: Portland cement concrete; monolithic brick (4 inch brick); monolithic brick (3 inch brick); bituminous concrete with binder course (Specifications C1, C2, C3 or CT); bituminous concrete without binder course (Specifications C1, C2, C3 or CT).

County	Sec.	Width, Feet	Approximate Length, Feet
Iroquois	1	16	39,730
Iroquois	2	16	22,854
Iroquois	H—15d	16	5,600
Iroquois	4	16	20,999
Iroquois	H—15d	16	5,250
Kankakee	5	16	44,539
Kankakee	K—15d	16	11,161
Kankakee	6	16 & 18	37,757
Kankakee	7	18	35,079

Cement will be furnished on all sections by the Department of Public Works and Buildings or the County.

Sections 4 and H-15d will not be let separately from one another but aside from this, proposal forms will be so arranged that the several sections may be let separately, in one combination, or in such other fixed combinations as the proposal forms show, that bidders may select almost at will the size and location of the job upon which to bid.

The locations of the proposed work are shown on the printe accompanying the proposal forms.

By order of Department of Public Works and Buildings.

FRANK I. BENNETT,
Director.

S. E. BRADT,
Superintendent of Highways.
CLIFFORD OLDER,
Chief Highway Engineer.

U. S. ENGINEER OFFICE, 1st District, Cincinnati, O. Sealed proposals will be received here until 2 p.m., May 6, 1919, and then opened for constructing Lock and Abutment for Dam No. 32, Ohio River, about 5 miles below Vanceburg, Ky. Further information on application.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Custom House, Norfolk, Va. Sealed proposals will be received until 12 o'clock noon, April 26, 1919, and then opened, for dredging for widening the channel to Newport News, Va. Further information on application.

OFFICIAL PROPOSALS

Bids: May 1.

Road Work

Danville, Ill.

1. Notice is hereby given that sealed proposals for the construction of roads in Vermilion County will be received at the office of the County Clerk, Court House, City of Danville, Illinois, until 2 o'clock P.M., May 1st, 1919, at which time and place during the meeting of the Board of Supervisors, the proposals will be publicly opened and read.

2. The proposed work comprises the construction of concrete and brick roads ten (10) feet wide with three (3) feet macadam or gravel shoulders together with all grading, shaping earth shoulders, reinforced concrete work, ditching, drainage and other incidental work as shown in detail on plans and specifications, on file in the office of the County Clerk, and Superintending Engineer.

3. Proposals shall be made on forms furnished by the County of Vermilion.

3a. Proposal blanks and also the forms of contract and bonds that the successful bidders will be required to execute are now on file in the offices of said County Clerk and said Superintending Engineer.

4. The Board of Supervisors reserves the right to reject any and all proposals, and to waive technicalities in any proposal.

4a. The Board of Supervisors reserves the right to withdraw from said opening of bids, at any time on or before April 25, 1919, any Subdivision or Subdivisions of said unfinished work, in case the bondsmen who are responsible to said County for the completion of such Subdivision or Subdivisions shall have taken over and undertaken the completion of such Subdivision or Subdivisions, and shall have made arrangements, satisfactory to this Board, to complete said work not later than said November 15, 1919; and that said Board reserves the right to reject bids on any part or parts of said work, if such bids seem to this Board to be too high, and to do any part or parts of said work under its own management and direction.

5. Bidders may furnish proposals on one or more of the fourteen Subdivisions of approximately four miles each, into which the work is divided.

6. All proposals must be accompanied by a certified check in the sum of two (2) per cent. of the total bid and made payable to the order of Robert H. Mater, County Treasurer of said County; said check to be returned unless in case of the acceptance of his proposal, the bidder should fail to execute a contract and file a bond in a sum equal to the amount of the bid within ten (10) days of the date of the acceptance of this proposal, in which case the check is to become the property of Vermilion County and is to be considered as payment of damages due to delay and other causes suffered by the county from neglect of the bidder to execute a contract.

7. Proposals must be addressed or delivered to said County Clerk, Court House, Danville, Illinois; marked plainly on the outside, "Proposal for the Construction of Vermilion County Bond Roads Subdivision Number ———."

Dated this 28th day of March A. D. 1919.

JOHN R. MOORE,
County Clerk of the County of Vermilion
in the State of Illinois.

U. S. ENGINEETR OFFICE, Florence, Alabama. Sealed proposals will be received here until eleven o'clock A.M., May 9, 1919, and then opened for furnishing Rock Crushers. Further information on application.

OFFICIAL PROPOSALS

Bids: April 22 .

Highway Work

STATE OF MARYLAND
STATE ROADS COMMISSION

Sealed proposals for building four sections of State Highway, as follows:

Carroll County, Contract C1-20: One section of Littlestown Pike from Town Limits of Westminster toward Union Mills, for a distance of 2.01 miles. (Concrete.)

Frederick and Washington Counties, Contract W-16A: One section of State Highway from Knoxville to Harpers Ferry, for a distance of 3.51 miles. (Concrete.)

Howard County, Contract Ho-12: One section of Clarksville Pike from Highland to Clarksville, for a distance of 2.51 miles. (Concrete.)

Kent County, Contract K-12: One section of Rock Hall to Swan Creek Road, near Edesville, for a distance of 3.03 miles. (Concrete.)
will be received by the State Roads Commission, at its offices, 601 Garrett Building, Baltimore, Maryland, until 12 M. on the 22nd day of April, 1919, at which time and place they will be publicly opened and read.

Bids must be made upon the blank proposal form which with specifications and plans will be furnished by the Commission upon application and cash payment of $1.00, as hereafter no charges will be permitted.

No bids will be received unless accompanied by a certified check for the sum of Five Hundred ($500) Dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

By order of the State Roads Commission this 3rd day of April, 1919.

FRANK H. ZOUCK, Chairman.
CLYDE H. WILSON, Secretary.

Bids: April 24.

Cleaning Out Drainage Canals

Hyde Co., N. C.

Sealed proposals will be received by the board of drainage commissioners of the Mattamuskeet Drainage District of Hyde Co., North Carolina, for the cleaning out of approximately 30 miles of drainage canals containing approximately 850,000 cu. yd. of material, until 2 o'clock p.m., Thursday, April 24th, at the offices of the board of commissioners at New Holland, North Carolina.

Proposals will be received in either of the following forms:

Unit price, Cost plus percentage, and rental per hour of operation.

Each proposal must be accompanied by a certified check or bidder's bond executed by some surety company authorized to do business in the state of North Carolina for $1000 as guarantee that the successful bidder will enter into contract with the board of commissioners.

Bond will be required of the successful bidder in the sum of 50 per cent. of his estimated cost.

Right is reserved to reject any and all bids.

J. S. MANN, chairman.
K. L. PONZER, Vice chairman.
T. B. JONES, commissioner.
K. L. PONZER, engineer.

OFFICIAL PROPOSALS

Bids: April 24.

Storm Water Drain

Coatesville, Penn.

Sealed proposals, addressed to the City Clerk of Coatesville, Penn., will be received at the City Hall at Coatesville until 8 o'clock P.M., April 24th, 1919, for the construction of a storm water drain to replace "Gibbon's Run."

This drain will be approximately 5400 lineal feet in length and will vary in size from 87" to 36". The construction will be of brick, segmental tile block or reinforced concrete pipe in part or in whole. There will also be 25 manholes and 80 steam water inlets with the necessary vitrified pipe connections.

Plans and specifications are on file in the office of the City Engineer in Coatesville, Penn.

A set of plans and specifications may be obtained upon application to the undersigned accompanied by a deposit of Ten Dollars ($10.00) which will be refunded upon the return of the plans and specifications in good condition up to and including the date of letting.

Proposals shall be submitted upon blanks provided for this purpose by the undersigned, and shall be accompanied by a certified check for Five per cent. (5%) of the total amount of bid. A satisfactory surety bond in an amount equal to fifty per cent. (50%) of the contract will be required from the successful bidder.

The City Council reserves the right to reject any and all bids and to award the work as a whole or in part.

The Contractor must comply with all the requirements of the Workmen's Compensation Law of the State of Pennsylvania.

CHAS. A. NILES,
City Engineer.
WILLIAM S. G. COOK,
City Clerk.
GEORGE ROMMEL, JR.,
Special Assistant.

Bids: April 28.

Sanitary Sewer

Flagstaff, Arizona.

Up to 4 P.M., of the 28th day of April 1919, sealed bids will be received by the Town Clerk of Flagstaff, Arizona, for the construction and extension of a sanitary sewer system. Funds to the amount of $95,000 are available for the work.

Plans and specifications are on file at the office of the Town Clerk and may be obtained from Olmsted & Gillelen, 1112 Hollingsworth Building, Los Angeles, California, on payment of $1.50; the plans to remain the property of the bidder.

Certified check to the amount of 10% of the bid must accompany each bid. The Town retains the right to reject any and all bids.

ALEX. A. JOHNSTON,
Town Clerk

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 A.M., April 30, 1919, for constructing about 200,000 cu.yd. of earthwork by the hydraulic method in the Muscatine-Louisa Island Levee District, Iowa. Further information on application.

UNITED STATES ENGINEER OFFICE, Room 710, Army Buildign, 39 Whitehall Street, New York, N. Y.—Sealed proposals for dredging and rock removal in East River, N. Y., will be received here until 12 m., May 9, 1919, and then opened. Further information on application.

Bids: April 18.

Furnishing and Laying 30-in. Cast Iron River Crossing

City Hall, Bayonne, N. J.
April 4, 1919.

Sealed proposals will be received from 4 o'clock to 4:15 o'clock P.M., on Friday, April 18, 1919, by the Board of Commissioners of the City of Bayonne, in public meeting in the City Hall, and publicly opened and read at the last named hour, for the furnishing and providing of all materials, machinery and plant, and the performing of all necessary work required in the carrying out of two certain agreements—one dated November 18, 1918, made and entered into between the Mayor and Council of the City of Bayonne and the Federal Shipbuilding Company, and the other dated November 15, 1918, made and entered into between the Mayor and Council of the City of Bayonne, and the Blast Furnace Products Corporation, copies of which agreements are on file in the office of the City Clerk of Bayonne, and may be examined by proposed bidders.

The work is to be done under the supervision of and in accordance with the plans and specifications prepared by Morris R. Sherrerd, Consulting Engineer. The plans and specifications may be examined at his office, Room 214, 20 Clinton Street, Newark, N. J. Copies of the plans and specifications may be obtained at said office upon the deposit of ten dollars ($10), which deposit will be repaid upon the return of such plans and specifications, within thirty (30) days.

The work will include the furnishing and laying of approximately 3100 ft. of new 30-in. water pipe upon proper pile and timber foundation upon the east and west banks of the Hackensack River, and a double 30-in. cast-iron pipe with flexible joints in a trench to be dredged under the Hackensack River; with all necessary valves and connections thereto; also the taking up of about 3300 ft. of 30-in. cast-iron water pipe, now located upon the old right of way, on the east and west sides of the Hackensack River, and thoroughly cleaning and repainting the same inside and out, and removing and relaying the same upon the new right of way parallel with the said new 30-in. line; also the furnishing and laying, with necessary valves and appurtenances, of about 900 ft. of 18-in. cast-iron water pipe, 760 ft. of 12-in. cast-iron water pipe, and 700 ft. of 4-in. cast-iron water, pipe, all of said cast-iron pipe to be of Class B, American Water Works Standard.

The above embraces approximately the following quantities:

Furnishing and laying 950 tons of 30-in. flexible joint cast-iron pipe.

Furnishing and laying 520 tons of 30-in. cast-iron pipe.

Taking up and re-laying 3300 ft. of 30-in. cast-iron pipe.

Furnishing and laying 70 tons of 18-in. cast-iron pipe.

Furnishing and laying 30 tons of 12-in. cast-iron pipe.

Furnishing and laying 8 tons of 4-in. cast-iron pipe.

Furnishing and driving 1700 piles.

Dredging 100,000 cu.yd. in Hackensack River.

Placing 1000 cu.yd. of concrete.

Furnishing valves, hydrants and meters and other appurtenances.

All bids will state prices in writing as well as figures, and proposals must be accompanied by the consent in writing of a Surety Company qualified to do business in New Jersey, who shall at the time of putting in such proposal, qualify as to its responsibility in the amount of such proposal, and bind itself that if the contract be awarded to the person or persons making the proposals, the said Surety Company will, upon the awarding of such contract, become surety for the faithful performance of the said controct, and to protect all persons performing labor or furnishing materials therefor, as required by law, said contract bond to be in an amount equal to the contract price and in the form required by Chapter 75, Laws 1918.

All bids must be accompanied by a certified check for twenty-five thousand dollars ($25,000) to insure the City that if the person or persons to whom the contract may be awarded, shall omit or refuse to execute such contract, the City of Bayonne may deduct therefrom the expenses of reletting the contract and any difference between the sums to which said proposer would have been entitled upon the completion of the contract and that which the City of Bayonne might be obliged to pay to the person or persons by whom such contract should be finally executed, using the contract quantities as the basis of such comparison. The certified check of unsuccessful bidders to be returned upon the award of contract and certified check of successful bidder to be returned upon execution of contract and bond.

The Board of Commissioners of the City of Bayonne reserves the right to reject any proposal which may be informal, or the acceptance of which would be, in the judgment of the Commissioners, detrimental to the interests of the City.

By order of the Board of Commissioners of the City of Bayonne.

WM. P. LEE,
City Clerk.

MORRIS R. SHERRERD,
Consulting Engineer.

Bids: April 23.

Portions of Main Dam of the Scituate Reservoir, and Earth Roads

CITY OF PROVIDENCE,
WATER SUPPLY BOARD,

Providence, R. I.

Sealed proposals for building, during 1919, portions of the Main Dam of the Scituate Reservoir (contract 11), and for building an Earth Road about 3.5 miles in length (contract 10), both in the Town of Scituate, R. I., about 10 miles westerly from the City of Providence, will be received at the office of the Water Supply Board, City Hall, until 2:30 o'clock P.M., on Wednesday, April 23, 1919, at which time and place they will be publicly opened and read.

The Engineer's estimate in cubic yards of some of the main items are as follows: Contract 11—Earth excavation and borrow, 132,000; rock excavation, 3500; concrete masonry, 1500. Contract 10—Earth excavation and borrow, 24,000; rock excavation, 800; concrete masonry, 400.

Plans and pamphlets containing information for bidders, form of proposal, contract and bond and the specifications may be obtained from the Secretary of the Board, City Hall, or at the office of the Chief Engineer, 661 Westminster St.

By order of the Water Supply Board.
B. THOMAS POTTER, Chairman,
SAMUEL N. GRAMMONT, Secretary,
FRANK E. WINSOR, Chief Engineer.

Bids: May 5.

North Hill Viaduct

FOR
SUMMIT COUNTY,
AKRON, OHIO

Sealed proposals to be filed with L. M. Kauffman, Clerk, will be received by the Board of County Commissioners of Summit County, at Akron, Ohio, up to 9 A.M. o'clock (Central Standard time), May 5, 1919, for furnishing the materials and performing the labor necessary for the construction of the North Hill Viaduct in Akron, Ohio.

The viaduct will be of reinforced concrete with an over-all length of about 2790 ft. consisting of 16 arch spans varying in length from 116 ft. to 191 ft., and of 12 short girder spans. A roadway 52 ft. wide and two sidewalks, each 10 ft. wide are provided. Certain piers will rest on sand and gravel; others on concrete piles.

Payments will be made in cash and monthly estimates will be rendered. All bids shall be accompanied by a check of the bidder, certified to by a solvent bank in the State of Ohio, made payable to Board of County Commissioners, for an amount of five per cent of the bid, to be forfeited as liquidated damages (but not a penalty) by any bidder who is awarded a contract and who fails promptly and properly to execute the contract and bond. Upon the execution of the contract and bond by the successful bidder, said check will be returned to him and the checks of unsuccessful bidders will be returned to them. The contract will be awarded to the lowest responsible and competent bidder, but the Board reserves the right to reject any and all bids and to waive informalities.

Conforming to Ohio General Code, bids will also be received on alternate designs prepared by the bidder, providing certain requirements are complied with.

Plans and specifications are on file in the office of the County Engineer, the County Auditor, Akron, Ohio, and in the office of Harrington, Howard and Ash, Consulting Engineers, Kansas City, Missouri. Copies of the plans and specifications may be secured from the Consulting Engineers by depositing twenty-five dollars. Such plans and specifications are to be returned upon request, at which time refund of fifteen dollars will be made.

Bids: April 21.

Storm Sewers

Highland Park, N. J.
(New Brunswick P. O.)

Sealed proposals will be received by the Council of the Borough of Highland Park, at a meeting thereof to be held at the Fire House on Raritan Avenue, Highland Park, New Jersey, on Monday, April 21st, 1919, at 8 p.m., for the construction of Storm Sewers and drains in accordance with plans and specifications prepared for the same by John T. Hopkins, Borough Engineer, approved by said Council. Copies of said plans and specifications may be procured by application to said Borough Engineer at his office in said Fire House.

Said work will be divided in two contracts and bidders may submit proposals for one of said contracts or both of them. Such proposals must be submitted on separate blanks and each proposal must be accompanied by a certified check payable without condition to the order of said Borough of Highland Park for the sum of one thousand ($1000) dollars.

Council reserves the right to reject any and all bids.

ROBERT E. CRAIG,
Borough Clerk.

OFFICIAL PROPOSALS

Bids: **May 15.**

Dredging

Mobile, Alabama.

Notice is hereby given that the Board of City Commissioners of Mobile, Alabama, will receive bids up to twelve o'clock noon, Thursday, May 15th, 1919, for dredging a minimum of one million cubic yards (1,000,000) of material at the Arlington Pier, on Mobile Bay. Bids must be accompanied by a certified check for the sum of Five thousand dollars ($5000). The right is reserved by the board to increase the quantity and also to reject any or all bids. Specifications and information in regard to the work can be obtained from the City Engineer.

H. PILLANS,
Commissioner of Docks.

WRIGHT SMITH,
City Engineer.

Bids: May 7.

Paving

Burlington, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of Burlington County, N. J., for the reconstruction of Main Street, Moorestown, in the township of Chester and the County of Burlington with sheet asphalt surface upon a concrete foundation; estimated amount of surface pavement required is 34,051 sq.yd., of foundation 34,051 sq.yd., and opened and read in public at the Court House on Wednesday, May 7, 1919, at 11 A.M.

Drawings, specifications and forms of bids, contract and bond for the proposed work, prepared by James Logan, County Engineer and Henry J. Sherman, Chester Township Engineer, have been filed in the office of said engineers at No. 11 Main St., Mt. Holly, N. J., and No. 306 Temple Bldg., Camden, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineers on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of the road on the outside, addressed to Harry Hawkins, Jr., Clerk of the Board of Chosen Freeholders and must be accompanied by a certificate from a Surety Company to furnish bond and a certified check for not less than $1000, and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the engineers.

By order of the Board of Chosen Freeholders.

HARRY HAWKINS, JR.,
Clerk.

PROPOSALS FOR DREDGING.—U. S. Engr. Office, Old Federal Building, Wilmington, Del. Sealed proposals will be received here until 11 A.M., May 5, 1919, and then opened, for dredging Waterway between Rehoboth Bay and Delaware Bay (Lewes Canal), Del. Further information on application.

60	lin.ft. 15 in. Reinf. Concrete Pipe
102	lin.ft. 18 in. Reinf. Concrete Pipe
170	lin.ft. 24 in. Reinf. Concrete Pipe
50	Bounds
40	tons Stone for Macadam
8,600	cu.yds. Cement Concrete Roadway
130	Joints

CONTRACT NO. 11—4.00 MILES

1.74	acres Clearing and Grubbing
19,500	cu.yds. Grading
240	cu.yds. Concrete Masonry
10,000	pounds Reinforcement
140	lin.ft. 15 in. Reinf. Concrete Pipe
204	lin.ft. 18 in. Reinf. Concrete Pipe
102	lin.ft. 24 in. Reinf. Concrete Pipe
136	lin.ft. 30 in. Reinf. Concrete Pipe
34	lin.ft. 36 in. Reinf. Concrete Pipe
46	Bounds
50	tons Stone for Macadam
7,655	cu.yds. Cement Concrete Roadway
125	Joints

CONTRACT NO. 12—5.97 MILES

11.6	acres Clearing and Grubbing
26,273	cu.yds. Grading
350	cu.yds. Concrete Masonry
10,000	pounds Reinforcement
165	lin.ft. 15 in. Reinf. Concrete Pipe
222	lin.ft. 18 in. Reinf. Concrete Pipe
238	lin.ft. 24 in. Reinf. Concrete Pipe
70	Bounds
50	tons Stone for Macadam
11,400	cu.yds. Cement Concrete Roadway
200	Joints

Bids may be submitted for one, all, or any combination of the three contracts.

Performance of contract shall commence within ten (10) days after execution of the contract and be completed on or before December 1, 1919.

Monthly payments will be made for 90 per cent. of the construction completed each month.

Bidders must submit proposals upon forms provided by the Department.

Each proposal must be accompanied by a surety bond, certified check, or money to the amount of at least ten (10) percentum of the total amount of the proposal.

The envelope containing the proposal must be marked: "Proposal for the Construction of a State Highway under Contract No. 10, No. 11, and No. 12."

The contract will be awarded or rejected within twenty (20) days from the date of opening proposals.

The right is reserved to reject any or all bids.

Detailed plans may be seen, and index plans and specifications may be obtained after April 19, 1919, upon deposit of ($10.00) ten dollars which amount will be refunded upon return of plans and specifications in good condition at the office of

STATE HIGHWAY DEPARTMENT,
DOVER, DELAWARE.

CHAS. M. UPHAM, Chief Engineer.

OFFICIAL PROPOSALS

Bids: April 30.

Highway Work

Albany, N. Y.

Office of the State Commission of Highways, Albany, N. Y.—Sealed proposals will be received by the undersigned at their office, No. 55 Lancaster Street, Albany, N. Y., at 1 o'clock P.M., on Wednesday, the 30th day of April, 1919, for the construction of highways in the following counties:

Highway Work

LITTLE ROCK AND HOT SPRINGS
HIGHWAY

CHANGE OF DATE
PREVIOUSLY ADVERTISED
BIDS TO CLOSE APRIL 17

Little Rock, Ark.

Notice is hereby given that sealed bids will be received at the office of the State Highway Department, Little Rock, Arkansas, until 2 P.M., May the 14th, 1919, when they will be publicly opened and read.

The work contemplated under the contract is the building of a highway about 55 miles in length, from Little Rock to Hot Springs, Arkansas, and the surfacing of same with concrete or asphalt including culverts and bridges.

The plans contemplate a 30 foot roadbed, 18 feet paved way, and concrete culverts and bridges, except for the small culverts which will be of vitrified tile.

The work has been divided into tow 16 mile sections and one 21 mile section. Bids are invited on each section and as a whole.

Bids will be compared on a basis of the engineers estimates as follows:

Clearing and grubbing	74	acres
Earth work	492,000	Cu.Yds.
Loose rock	110,000	"
Solid rock	14,000	"
12" culverts	905	Ft.
18" culverts	70	"
24" culverts	2,310	"
30" culverts	1,015	"
Plain concrete in headwalls.	392	Cu.Yds.
Reinforced concrete in culverts and bridges	1,994	"
Fences to be moved	4,900	Rods
Paving	746,900	Sq.Yds.
As an alternate for cement base		
Gravel or macadam base haul 0-1 mile	78,150	Cu.Yds.
Gravel or macadam base haul 1-2 mile	45,885	"
Gravel or macadam base haul 2-3 mile	25,015	"
Gravel or macadam base haul 3-4 mile	29,330	"
Gravel or macadam base haul 4-5 mile	10,745	"

Plans and specifications are on file at the office of the County Clerk in the Court House in Hot Springs, Benton and Little Rock and may be seen there.

Blue prints of alignment and grade and bridges comprising 53 sheets may be secured from the engineers for $8.00. Specifications may be secured from the engineers free of cost.

The right is reserved to reject any or all bids.

Engineer, Galveston, Texas.—Sealed proposals will be received here until 12 o'clock M., April 23, 1919, and then opened, for furnishing and placing soil and sod at the U. S. Reservation, Fort Crockett, Galveston, Texas. Further information on application.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 A.M., April 23, 1919, for constructing about 110,000 cu.yd. of earthwork (75,000 cu.yd. hydraulic fill in old borrow pits; and 35,000 cu.yd. levee enlargement) in the Hunt Drainage Dist., Ill. Further information on application.

Bids: May 1.

Sewers, Water Mains, Disposal Plant, Storage Reservoir, Transmission Line, Pump and Filter.

La Grange, Georgia.

Proposals will be received by the undersigned until 12 o'clock noon, May 1, 1919, for the construction of approximately eleven miles of sewers, Disposal Plant, four miles of Water Mains, Storage Reservoir, two miles Transmission Line, one 500,000 gallon Filter and one 500 gallons per minute Horizontal, Centrifugal pump direct connected to motor, and the furnishing of all materials and labor entering therein.

Specifications may be procured and plans and profiles seen at the office of the City Engineer, LaGrange, Ga., and general information from the undersigned.

Each proposal must be accompanied by a certified check in the sum of five (5) per cent of the amount bid, as evidence of good faith upon the part of the bidder.

A deposit of $10.00 will be required for each set of plans, which will be refunded on the return of plans in good condition.

The Town reserves the right to reject any and all bids, or waiving all formalities to accept any which may seem to be the best for the Town of South West La Grange.

C. W. COLEMAN, Mayor.
C. L. SMITH, Clerk & Treas.,
Southwest LaGrange, Ga.

G. H. SARGENT,
City Engineer,
LaGrange, Ga.

Bids: April 28.

Sanitary Sewer

Flagstaff, Arizona.

Up to 4 P.M., of the 28th day of April, 1919, sealed bids will be received by the Town Clerk of Flagstaff, Arizona, for the construction and extension of a sanitary sewer system. Funds to the amount of $95,000 are available for the work.

Plans and specifications are on file at the office of the Town Clerk and may be obtained from Olmsted & Gillelen, 1112 Hollingsworth Building, Los Angeles, California, on payment of $1.50; the plans to remain the property of the bidder.

Certified check to the amount of 10% of the bid must accompany each bid. The Town retains the right to reject any and all bids.

ALEX. A. JOHNSTON,
Town Clerk.

Bids: May 15.

Dredging

Mobile, Alabama.

Notice is hereby given that the Board of City Commissioners of Mobile, Alabama, will receive bids up to twelve o'clock noon, Thursday, May 15th, 1919, for dredging a minimum of one million cubic yards (1,000,000) of material at the Arlington Pier, on Mobile Bay. Bids must be accompanied by a certified check for the sum of Five thousand dollars ($5000). The right is reserved by the board to increase the quantity and also to reject any or all bids. Specifications and information in regard to the work can be obtained from the City Engineer.

H. PILLANS,
Commissioner of Docks.

WRIGHT SMITH,
City Engineer.

Bids: May 5.

North Hill Viaduct

FOR

SUMMIT COUNTY,
AKRON, OHIO

Sealed proposals to be filed with L. M. Kauffman, Clerk, will be received by the Board of County Commissioners of Summit County, at Akron, Ohio, up to 9 A.M. o'clock (Central Standard time), May 5, 1919, for furnishing the materials and performing the labor necessary for the construction of the North Hill Viaduct in Akron, Ohio.

The viaduct will be of reinforced concrete with an over-all length of about 2790 ft. consisting of 16 arch spans varying in length from 116 ft. to 191 ft., and of 12 short girder spans. A roadway 52 ft. wide and two sidewalks, each 10 ft. wide are provided. Certain piers will rest on sand and gravel; others on concrete piles.

Payments will be made in cash and monthly estimates will be rendered. All bids shall be accompanied by a check of the bidder, certified to by a solvent bank in the State of Ohio, made payable to Board of County Commissioners, for an amount of five per cent of the bid, to be forfeited as liquidated damages (but not a penalty) by any bidder who is awarded a contract and who fails promptly and properly to execute the contract and bond. Upon the execution of the contract and bond by the successful bidder, said check will be returned to him and the checks of unsuccessful bidders will be returned to them. The contract will be awarded to the lowest responsible and competent bidder, but the Board reserves the right to reject any and all bids and to waive informalities.

Conforming to Ohio General Code, bids will also be received on alternate designs prepared by the bidder, providing certain requirements are complied with.

Plans and specifications are on file in the office of the County Engineer, the County Auditor, Akron, Ohio, and in the office of Harrington, Howard and Ash, Consulting Engineers, Kansas City, Missouri. Copies of the plans and specifications may be secured from the Consulting Engineers by depositing twenty-five dollars. Such plans and specifications are to be returned upon request, at which time refund of fifteen dollars will be made.

Bids: April 23.

Asphalt Road Oil

DEPARTMENT OF PUBLIC IMPROVEMENTS, SUB-DEPARTMENT OF HIGHWAYS ENGINEER

Baltimore, Maryland,

Separate sealed proposals, executed in duplicate and addressed to the Board of Awards, care of the City Register, will be received by him at his office until 12 o'clock noon, Wednesday, April 23, 1919, for furnishing and delivering asphalt road oil.

Specifications and blank proposal sheets will be furnished upon application at this office, City Hall. A certified check of the bidder on a clearing house bank, drawn to the order of the Mayor and City Council of Baltimore, in the amount recited in such specification, must accompany each bid.

The Board of Awards reserves the right to reject any and all bids.

GEORGE F. WIEGHARDT,
Highways Engineer,
Baltimore, Maryland.

Bids: April 22.

Road Improvements

Salem, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of the County of Salem for the reconstruction of Malaga-Penn Grove Road, 7th Section, in the Borough of Pennsgrove and Township of Upper Penns Neck, in the County of Salem with a Bituminous Dressing (sheet asphalt) upon a Macadam foundation; estimated amount of surface pavement required is 27,804 square yards, of foundation 27,804 square yards; and opened and read in public at the Freeholders Room, Court House, Salem, N. J., on Tuesday, April 22, 1919, at eleven A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by Howard B. Keasbey, County Engineer, and approved by the State Highway Commission have been filed in the office of the said engineer at Salem, N. J., and of said Commission at Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawing by the engineer of proper notice and payment of the cost of preparation. Bids must be made on the Standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder on the outside, addressed to I. C. Smashey, Clerk of said Board and must be accompanied by a certified check for not less than $1000, and be delivered at the place and on the hour above named. The Standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of the Board of Chosen Freeholders of the County of Salem.

I. C. SMASHEY,
Clerk.

Bids: May 5.

Road Work

Fayetteville, W. Va.

Bids will be received up to May 5th, 1919, at the Office of J. K. McGrath, County Engineer, Fayetteville, West Va., for the grading of 10 miles of County road in Fayette County. This work is steam shovel and team work and will be let in two (2) sections of 5 miles each. Bids will be received on both sections, together or separately. There will be approximately 20,000 Cu.Yds. of excavation on each section. Specifications, bid sheets and all other necessary information can be had by applying to above named engineer. There will be a party on the ground to show bidders over the work May 1st, 1919.

A certified check of $1000.00 made payable to Thoney Pietro and Company, shall be filed with each bid. The right is reserved to reject any or all bids.

THONEY PIETRO & COMPANY
By JAMES CAIN.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 A.M., April 23, 1919, for constructing about 290,000 cu.yd. of earthwork (210,000 cu.yd. hydraulic fill in old borrow pits; and 80,000 cu.yd. levee enlargement) in the Lima Lake Drainage District, Ill. Further information on application.

OFFICIAL PROPOSALS

Bids: April 22.

Applying Bituminous Dressing

Mercer County, New Jersey.

Sealed proposals will be received by the Board of Chosen Freeholders of the County of Mercer, at its regular place of meeting at the Court House, Trenton, N. J., on Tuesday, April 22, 1919, at 2:30 o'clock in the afternoon:

1. For furnishing all labor, material and equipment necessary or incident to the application of a surface dressing of TAR to approximately forty miles of road in the southern section of the said County of Mercer, being that portion of said county lying south of the Pennsylvania Railroad. The estimated quantity of tar required will be approximately 95,960 gallons, and the estimated quantity of covering material will be approximately 3695 tons.

2. For furnishing all labor, material and equipment necessary or incident to the application of a surface dressing of TAR on approximately twenty-four miles of road in the northern section of the said County of Mercer, said northern section being that part of the said County lying north of the Pennsylvania Railroad. The estimated quantity of material required for this section will be 51,030 gallons of tar, and 2005 tons of covering material.

3. For furnishing all labor, material and equipment necessary or incident to the application of a surface dressing of ASPHALTIC OIL on approximately forty-three miles, on roads located chiefly in that part of the said county of Mercer lying north of the Pennsylvania Railroad or adjacent thereto. The estimated quantity of asphaltic oil required will be 121,773 gallons and the estimated quantity of covering material required will be 4195 tons.

Separate proposals will be received for each of the above divisions of work designated as 1, 2 and 3 respectively.

Complete specifications, as to the quality of materials, manner of application, time of performance and other details of the said work, and the manner of making up and submitting proposals, together with blank forms and maps therefor, may be obtained at the office of Harry F. Harris, County Engineer, Court House, Trenton, N. J., upon payment of the sum of one dollar for each set, covering cost of preparation. The conditions of such specifications shall absolutely govern the manner of submitting bids and of performing the work, and references thereto for complete information regarding the same is herewith insisted upon.

Eac hand every bid must be accompanied by cash or a certified check payable to the order of Edgar G. Weart, County Collector, in the sum of five hundred dollars ($500), which deposit is made with the understanding that it shall be retained and kept by the County of Mercer as against the successful bidder, by way of liquidated damages should he fail to execute valid contract and surety bond within seven (7) days from the awarding of the contract.

Each proposal must be accompanied by a proposition for a Surety Company on the form furnished by the Engineer, whereby said surety company agrees to furnish on application a bond as required. No bid will be received or read unless this condition is complied with on the part of the bidder.

The right is reserved to reject any or all bids, or to waive any immaterial defect or informality in any bid, should it be deemed to the interest of the County to do so.

GEORGE R. HUTCHINSON,
Director of Road Repair.

OFFICIAL PROPOSALS

Bids: April 24.

Storm Water Drain

Coatesville, Penn.

Sealed proposals, addressed to the City Clerk of Coatesville, Penn., will be received at the City Hall at Coatesville until 8 o'clock P.M., April 24th, 1919, for the construction of a storm water drain to replace "Gibbon's Run."

This drain will be approximately 5400 lineal feet in length and will vary in size from 87" to 36". The construction will be of brick, segmental tile block or reinforced concrete pipe in part or in whole. There will also be 25 manholes and 80 steam water inlets with the necessary vitrified pipe connections.

Plans and specifications are on file in the office of the City Engineer in Coatesville, Penn.

A set of plans and specifications may be obtained upon application to the undersigned accompanied by a deposit of Ten Dollars ($10.00) which will be refunded upon the return of the plans and specifications in good condition up to and including the date of letting.

Proposals shall be submitted upon blanks provided for this purpose by the undersigned, and shall be accompanied by a certified check for Five per cent. (5%) of the total amount of bid. A satisfactory surety bond in an amount equal to fifty per cent. (50%) of the contract will be required from the successful bidder.

The City Council reserves the right to reject any and all bids and to award the work as a whole or in part.

The Contractor must comply with all the requirements of the Workmen's Compensation Law of the State of Pennsylvania.

CHAS. A. NILES,
City Engineer.
WILLIAM S. G. COOK,
City Clerk.

GEORGE ROMMEL, JR.,
Special Assistant.

Bids: April 24.

Cleaning Out Drainage Canals

Hyde Co., N. C.

Sealed proposals will be received by the board of drainage commissioners of the Mattamuskeet Drainage District of Hyde Co., North Carolina, for the cleaning out of approximately 30 miles of drainage canals containing approximately 850,000 cu. yd. of material, until 2 o'clock p.m., Thursday, April 24th, at the offices of the board of commissioners at New Holland, North Carolina.

Proposals will be received in either of the following forms:

Unit price, Cost plus percentage, and rental per hour of operation.

Each proposal must be accompanied by a certified check or bidder's bond executed by some surety company authorized to do business in the state of North Carolina for $1000 as guarantee that the successful bidder will enter into contract with the board of commissioners.

Bond will be required of the successful bidder in the sum of 50 per cent. of his estimated cost.

Right is reserved to reject any and all bids.

J. S. MANN, chairman.
K. L. PONZER, Vice chairman.
T. B. JONES, commissioner.
K. L. PONZER, engineer.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Jacksonville, Fla. Sealed proposals will be received here until 12 o'clock, noon, May 3, 1919, and then opened, for dredging in Miami Harbor (Biscayne Bay), Fla. Further information on application.

OFFICIAL PROPOSALS

Bids: April 25.

Laying Sewer

Ridgefield, Conn.

Sealed proposals will be received by the Sewer Committee of the Burgesses for the Borough of Ridgefield, Conn., on April 25, 1919, at 3 o'clock P.M., at the Town Hall at Ridgefield, Conn., for furnishing materials and laying about 5200 ft. of 8 in. tile sewer, according to plans, profiles and specifications on file with said Sewer Committee, in and about section of said Borough known as Bryon Park, together with 28 man-holes and all appurtenances. A bond of 50% of contract price will be required for the faithful performance of the contract. Cash or certified check for $100 must accompany each proposal. This amount will be returned to the unsuccessful bidders.

Separate bids will be received at same time and place for two detention tanks, dosing chamber, sludge bed and appurtenances as per plans and specifications on file with the Sewer Committee. A bond of 50% of contract price will be required and cash or certified check for $100 must accompany each proposal. Plans, blank forms for proposals and specifications may be obtained from the Borough Clerk at Ridgefield, Conn.

The Borough reserves the right to reject any or all bids.

GEO. E. BENEDICT,
Borough Clerk.

W. J. WOOD, JR.
Engineer,
Westport, Conn.
Dated: April 8, 1919.

Bids: April 30.

Re-Paving and Sewer

Akron, Ohio.

Sealed bids or proposals addressed to the Director of Public Service, and endorsed "Proposal for Re-paving and Sewer in South Main Street, from Thornton to Crosier" will be received at the office of the Director, Delaware Bldg., Akron, Ohio, until 12 o'clock noon, Central Standard time, of Wednesday, the 30th day of April, 1919, and at that time and place will be publicly opened and read.

The work includes removal of 6670 sq.yds. of old pavement and concrete base.

Removal of 4500 sq.yds. of pavement only.
Laying 6670 sq.yds. concrete base.
910 lin.ft. of 30" to 36" Trunk Sewer.
1680 lin.ft. 8" to 24" vitrified pipe sewer.
4800 lin.ft. 4" sub-drain.
13 manholes.
21 street inlets.
Laying 11,175 sq.yds. stone block or brick pavement.

Each proposal must be accompanied by certified check in the sum of Five Hundred Dollars ($500.00).

A surety bond in the sum of Fifty (50) per cent. of the amount of the contract will be required of the successful bidder.

Plans and specifications on file in the office of the Chief Engineer, or can be obtained upon deposit of Five Dollars ($5.00), which deposit will be returned if plans are returned in good condition within ten days after taking of the bids.

The right is reserved to reject any or all bids.

H. S. MORSE, Director Public Service.
E. A. ZEISLOFT, Chief Engineer.

Bids: April 24.

Road Work

STATE OF ILLINOIS
DEPARTMENT OF PUBLIC WORKS
AND BUILDINGS
DIVISION OF HIGHWAYS
Springfield, Ill.

Notice is hereby given that sealed proposals will be received at the office of the Department of Public Works and Buildings, Division of Highways, Springfield, Illinois, until 11 o'clock A.M., April 24, 1919, for the road work on the Lincoln Highway designated by county and section below. All bids must be on regular forms furnished by the Department.

Plans for all the work may be examined in the office of the Department of Public Works and Buildings, Division of Highways, Springfield, Illinois, and also in the office of District No. 1, H. B. Bushnell, District Engineer, 138 Fox Street, Aurora, Illinois. Plans for the sections in Ogle, Lee and Dhiteside counties may be examined also in the office of District No. 2, H. E. Surman, District Engineer, Dixon National Bank, Dixon, Illinois. Plans will not be sent to prospective bidders, but upon making a deposit with the district engineer in whose district the work is located, plans for the work in the respective districts may be obtained for temporary use while inspecting the conditions attending the work in question.

Alternative bids will be received for the following types of construction: Portland cement concrete; monolithic brick (4 inch brick); monolithic brick (3 inch brick); bituminous concrete with binder course (Specifications C1, C2, C3 or CT); bituminous concrete without binder course (Specifications C1, C2, C3 or CT).

County	Sec.	Width, Feet	Approximate Length, Feet
DuPage	1	18	22,433
DuPage	G	18	12,400

Bids: April 30.

Bridge Construction

SOUTH CAROLINA STATE HIGHWAY COMMISSION

Lockhart, S. C.

Notice is hereby given that sealed proposals for the construction of highway improvement in Union and Chester Counties will be received at the office of Lockhart Mills, at Lockhart, South Carolina, until 12 o'clock, M., April 30, 1919, and then publicly opened.

DESCRIPTION OF WORK TO BE DONE:

To construct a steel highway bridge across the Broad River at Lockhart, South Carolina, of approximately seven hundred (700) feet in total length, consisting of two (2) spans of approximately two hundred and fifty (250) feet and tow (2) end spans of approximately one hundred (100) feet, and the necessary concrete piers and abutments therefor, containing approximately eight hundred and eighty-five (885) cubic yards of Class (1:2½:5) concrete and seven hundred and seventy-five (775) pounds of reinforcing steel. Width of roadway, 16 feet. Bidder to submit design of superstructure in compliance with South Carolina Highway Bridge Specifications.

Uniform live load of 80 pounds per square foot for each 100-ft. span and 64 pounds per square foot for each 250-ft. span. Concentrated live load, 15-ton truck as per specifications.

Detailed plans of the work may be seen for examination at the office of Lockhart Mills, at Lockhart, South Carolina, and at the offices of the State Highway Commission, Columbia, South Carolina. Bids may be submitted separately on substructure and on superstructure.

A certified check for one thousand dollars ($1000), made payable to order of the Chairman of the Commission to erect a bridge at or near Lockhart Mills, S. C., must accompany each proposal.

The right is reserved by the party of the second part to reject any and all proposals.

Proposals shall be submitted in sealed envelopes and marked, "Bids on the Construction of the Lockhart bridge, between Union and Chester Counties."

Proposals may be sent by mail, and when sent by mail shall be inclosed in an additional sealed envelope properly marked as indicated above.

All proposals otherwise submitted will be rejected as irregular. Only sealed bids will be considered.

All bids received will be retained by the State Highway Commission and will not be returned to the bidders.

J. ROY PENNELL,
State Highway Engineer.

Bids: April 28.

Excavating Ditch

Sterling, Illinois.

Drainage Commissioners of Drainage District No. 1, Hahnaman Township, Whiteside County, Illinois, will receive bids, at office of Carl E. Sheldon, Sterling, Illinois, up to 2:00 p.m., April 28, 1919, for deepening, widening, etc., of ditch. Excavation required, 101,211 cu.yds. Length of ditch, 37,765 ft. Estimated cost, $26,666.42. Six highway bridges to be removed and replaced. Specifications, office of Carl E. Sheldon. Addition information, E. O. Hills, Engineer, Fulton, Illinois.

COTTONWOOD VALLEY DRAINAGE DISTRICT,
BY F. R. WILLIAMS, Secretary.

SEALED PROPOSALS will be opened by the Supt. of Lighthouses, Baltimore, Md., at 2 o'clock P.M., May 15, 1919, for furnishing and placing rip rap stone at light stations in the Chesapeake Bay and Potomac River. Information upon application to the above office.

U. S. ENGINEER OFFICE, Louisville, Ky. Sealed proposals for furnishing and delivering Accumulators for Lock No. 41, and Operating Machinery for Lock No. 43, Ohio River, will be received here until 12 noon, central time, April 30, 1919, and then opened. Information on application.

Put Public Buying on an Efficiency Basis

NOW, more than ever before, it is important that those having contracts to let, whether for new work or the furnishing of machinery or supplies, should consider the best methods of securing extensive competition and low bids.

Engineering News-Record

with a circulation of over 32,000 a week, reaches almost every worthwhile contractor, manufacturer and dealer interested in public contracts.

Over 4,000 Official Proposals

have been published each year in Engineering News and Engineering Record, now consolidated as the Engineering News-Record. These small investments for advertising have invariably saved large sums on the contract prices. You can now cover the entire field and secure the greatest possible competition from reliable contractors by publishing your advertisements for bids in the

One Dominant Paper

This will put your public buying on an efficiency basis. It will make the tax payers' money go farther and will give you a reputation for a business administration. Local bidders always figure closer when they find that the letting of a contract is being advertised in

The One Nationally Recognized Medium for Proposal Advertising

Bids: May 7.

Duboistown Bridge

Williamsport, Pa.

Sealed proposals for the construction of a reinforced concrete bridge over the West Branch of the Susquehanna River at the foot of Second Street in the Borough of Montgomery, Pa., will be received by the Board of Commissioners of Lycoming County at their office in Williamsport, Pa., until 10 o'clock a.m. of May 7, 1919, at which they will be publicly opened and read.

The bridge as contemplated will be about one thousand (1000) feet long and will consist of nine (9) open spandrel arches; three of the arches will be of 101 feet span and the remainder will be 93 feet.

Prospective bidders may secure copies of the plans and specifications, including form of proposal, by making a deposit of Twenty-five Dollars ($25), which sum will be refunded upon return of plans and specifications in good order.

A certified check for the sum of Five Thousand Dollars ($5000) payable to H. D. Achenbach, County Treasurer, and subject to the usual rules of forfeiture, must accompany each proposal, both of which must be enclosed in a sealed envelope and marked "Proposal for the construction of the Montgomery Bridge," and must be delivered to L. O. Bower, Chief Clerk, Commissioners' Office, Williamsport, Pa.

The right to reject any or all bids or to accept any bid they may deem to be to the best interests of the County is hereby reserved.

CHAS. W. MYERS,
JOHN G. DURRWACHTER,
JOS. H. NICELY,
County Commissioners.

Bids: May 7.

Concrete Roof for Reservoir, Water Supply, Road Improvement, Concrete Coal Bin and Conveyor, Sewage Treatment Plant Extensions

Harrisburg, Pa.

Sealed proposals on contracts for the above work for the State Sanatorium, near Mont Alto, Franklin County, Pa., will be received by Edward Martin, State Health Commissioner, Harrisburg, Pa., until 2 P.M., Wednesday, May 7, 1919.

Concrete roof for reservoir, Cont. No. 30, includes replacing existing wood roof on 60 ft. diam. concrete reservoir, with roof of I-beams, expanded metal and concrete. Extensions to water supply system, Cont. No. 31, include approx. 5000 ft. 8 in. c.i. water pipe, 5000 ft. w.i. and c.i. water pipe varying from 2 in. to 6 in. diam., valves, fire hydrants, etc. Construction and resurfacing macadam roads, Cont. No. 32, includes approx. 15,000 ft. water-bound macadam roads. Elevated concrete coal bin and coal handling machinery, Cont. No. 33, includes reinforced concrete elevated coal bin, 300 tons capacity, with necessary coal handling machinery. Extensions to sewage treatment plant, Cont. No. 34, includes approx. 60 cu.yd. concrete, 1 ton steel reinforcement, 1000 cu.yd. excavation, 350 cu.yd. broken stone filter material, 50 cu.yd. rubble masonry, piping, valves, etc.

Plans and specifications can be seen at offices of Dept. of Health, Harrisburg, at 1900 Race St., Phila., Pa., and sets may be obtained Wednesday, April 23, at the office of the Engineering Div., State Health Dept., Keystone Bldg., Harrisburg, upon deposit of $25 for each contract set. Deposits will be returned upon receipt of sets in good condition. Sets will be issued to general contractors only.

Each proposal must be accompanied by certified check for $500. The successful contractors must file a surety bond for fifty per cent. of estimated amount of each contract. Contracts will be awarded separately. The right is reserved to reject any or all bids.

EDWARD MARTIN,
Commissioner of Health.

Bids: May 7.

Montgomery Bridge

Williamsport, Pa.

Sealed proposals for the construction of a reinforced concrete bridge over the West Branch of the Susquehanna River between the foot of Arch Street and West Williamsport and the foot of what will be High Street in the Borough of DuBoistown, Pa., will be received by the Board of Commissioners of Lycoming County at their office in Williamsport, Pa., until 10 o'clock a.m. of May 7, 1919, at which time they will be publicly opened and read.

The bridge as contemplated will be about 1500 feet long and will consist of thirteen (13) open spandrel arches of ninety-eight (98) feet clear span.

Prospective bidders may secure copies of the plans and specifications including form of proposal by making a deposit of Twenty-five ($25) Dollars, which sum will be refunded upon return of plans and specifications in good order.

A certified check for the sum of Five Thousand Dollars ($5000) payable to H. D. Achenbach, County Treasurer, and subject to the usual rules of forfeiture, must accompany each proposal, both of which must be enclosed in a sealed envelope and marked "Proposal for the construction of the DuBoistown Bridge," and must be delivered to L. O. Bower, Chief Clerk, Commissioners' Office, Williamsport, Pa.

The right to reject any and all bids or to accept any bid they may deem to be to the best interests of the County is hereby reserved.

Bids: April 29.

Canal Terminals

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS
Albany, New York.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon of Tuesday, April 29th, 1919, at which place and hour they will be publicly opened and read, for the construction of Barge canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

—1—

TERMINAL CONTRACT NO. 44-P.

For paving parts of the terminal sites at Mott Haven, Greenpoint and Gowanus Bay.

Contract plans, sheets 1 to 5, inclusive.

—2—

TERMINAL CONTRACT NO. 77

For dredging at the Barge canal terminals at Piers 5 and 6, East river, at Greenpoint, and at Long Island City, New York.

Contract plans, sheets 1 to 4, inclusive.

—3—

TERMINAL CONTRACT NO. 218

For constructing a Barge canal terminal freight-shed on Pier 93, West 53rd Street, North River, New York City.

Contract plans, sheets 1 to 7, inclusive.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, forms of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

OFFICIAL PROPOSALS

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner, if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON,
Superintendent of Public Works.

U. S. ENGINEER OFFICE, Florence, Alabama. Sealed proposals will be received here until eleven o'clock A.M., May 21, 1919, and then opened, for furnishing Derricks. Further information on application.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Boston, Mass.—Sealed proposals will be received here until 12 M., May 3, 1919, and then opened, for dredging at Hog Island, Boston, Harbor, Mass. Further information on application.

Bids: April 30.

Highway Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey, for the improvement of the following:

State Highway Route No. 5, Section 1B (Morris Plains to Morristown), concrete surface. Estimated 11,500 sq.yd., Morris County.

Bids will be opened and read in public at the office of the State Highway Commission, Broad St. Bank Bldg., Trenton, N. J., on Wednesday, April 30, 1919, at 10:30 A.M.

Drawings, specifications and forms of bid, contract and bond, for the proposed work are on file in the office of the said Department at Trenton, N. J., and in the office of Roy Mullins, Division Engineer, 790 Broad Street, Newark, N. J., and may be inspected by, or furnished on deposit of ten dollars ($10) to prospective bidders. Bids must be made on the standard proposal forms in the manner designated therein and as required by the specifications, same to be enclosed in sealed envelopes, bearing the name and address of bidder and name of the road on the outside, addressed to

STATE HIGHWAY COMMISSION,
Broad Street Bank Building,
Trenton, New Jersey,

and must be accompanied by a certified check for not less than ten per cent (10%) of the amount of the bid and be delivered at the above place on or before the hour named. Copies of standard proposal form will be furnished on application.

Each bidder must accompany his bid with a certificate from a surety company, duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in, and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: May 15.

Dredging

Mobile, Alabama.

Notice is hereby given that the Board of City Commissioners of Mobile, Alabama, will receive bids up to twelve o'clock noon, Thursday, May 15th, 1919, for dredging a minimum of one million cubic yards (1,000,000) of material at the Arlington Pier, on Mobile Bay. Bids must be accompanied by a certified check for the sum of Five thousand dollars ($5000). The right is reserved by the board to increase the quantity and also to reject any or all bids. Specifications and information in regard to the work can be obtained from the City Engineer.

H. PILLANS,
Commissioner of Docks.

WRIGHT SMITH,

Highway Work

LITTLE ROCK AND HOT SPRINGS HIGHWAY

CHANGE OF DATE
PREVIOUSLY ADVERTISED
BIDS TO CLOSE APRIL 17

Little Rock, Ark.

Notice is hereby given that sealed bids will be received at the office of the State Highway Department, Little Rock, Arkansas, until 2 P.M., May the 14th, 1919, when they will be publicly opened and read.

The work contemplated under the contract is the building of a highway about 55 miles in length, from Little Rock to Hot Springs, Arkansas, and the surfacing of same with concrete or asphalt including culverts and bridges.

The plans contemplate a 30 foot roadbed, 18 feet paved way, and concrete culverts and bridges, except for the small culverts which will be of vitrified tile.

The work has been divided into tow 16 mile sections and one 21 mile section. Bids are invited on each section and as a whole.

Bids will be compared on a basis of the engineers estimates as follows:

Clearing and grubbing	74	acres
Earth work	492,000	Cu.Yds.
Loose rock	110,000	"
Solid rock	14,000	"
12" culverts	905	Ft.
18" culverts	70	"
24" culverts	2,310	"
30" culverts	1,015	"
Plain concrete in headwalls.	392	Cu.Yds.
Reinforced concrete in culverts and bridges	1,994	"
Fences to be moved	4,900	Rods
Paving	746,900	Sq.Yds.
As an alternate for cement base		
Gravel or macadam base haul 0-1 mile	78,150	Cu.Yds.
Gravel or macadam base haul 1-2 mile	45,885	"
Gravel or macadam base haul 2-3 mile	25,015	"
Gravel or macadam base haul 3-4 mile	29,330	"
Gravel or macadam base haul 4-5 mile	10,745	"

Plans and specifications are on file at the office of the County Clerk in the Court House in Hot Springs, Benton and Little Rock and may be seen there.

Blue prints of alignment and grade and bridges comprising 53 sheets may be secured from the engineers for $8.00. Specifications may be secured from the engineers free of cost.

The right is reserved to reject any or all bids.

Board of Commissioners,
Little Rock—Hot Springs Highway.
W. S. SORRELS, Pres.—Hot Springs.
E. O. BAGLEY, Secty.—Little Rock.

Bids: April 30.

Bridge Construction

SOUTH CAROLINA STATE HIGHWAY COMMISSION

Lockhart, S. C.

Notice is hereby given that sealed proposals for the construction of highway improvement in Union and Chester Counties will be received at the office of Lockhart Mills, at Lockhart, South Carolina, until 12 o'clock, M., April 30, 1919, and then publicly opened.

DESCRIPTION OF WORK TO BE DONE:

To construct a steel highway bridge across the Broad River at Lockhart, South Carolina, of approximately seven hundred (700) feet in total length, consisting of two (2) spans of approximately two hundred and fifty (250) feet and tow (2) end spans of approximately one hundred (100) feet, and the necessary concrete piers and abutments therefor, containing approximately eight hundred and eighty-five (885) cubic yards of Class (1:2½:5) concrete and seven hundred and seventy-five (775) pounds of reinforcing steel. Width of roadway, 16 feet. Bidder to submit design of superstructure in compliance with South Carolina Highway Bridge Specifications.

Uniform live load of 80 pounds per square foot for each 100-ft. span and 64 pounds per square foot for each 250-ft. span. Concentrated live load, 15-ton truck as per specifications.

Detailed plans of the work may be seen for examination at the office of Lockhart Mills, at Lockhart, South Carolina, and at the offices of the State Highway Commission, Columbia, South Carolina. Bids may be submitted separately on substructure and on superstructure.

A certified check for one thousand dollars ($1000), made payable to order of the Chairman of the Commission to erect a bridge at or near Lockhart Mills, S. C., must accompany each proposal.

The right is reserved by the party of the second part to reject any and all proposals.

Proposals shall be submitted in sealed envelopes and marked, "Bids on the Construction of the Lockhart bridge, between Union and Chester Counties."

Proposals may be sent by mail, and when sent by mail shall be inclosed in an additional sealed envelope properly marked as indicated above.

All proposals otherwise submitted will be rejected as irregular. Only sealed bids will be considered.

All bids received will be retained by the State Highway Commission and will not be returned to the bidders.

J. ROY PENNELL,
State Highway Engineer.

PROPOSALS FOR MARINE RAILWAY. U. S. Engineer Office, Philadelphia, Pa. Sealed proposals will be received here until 12 noon, May 8, 1919, and then opened, for the construction of a marine railway at Fort Mifflin, Philadelphia, Pa. Further information on application.

PROPOSALS FOR DREDGING. U. S Engineer Office, Duluth, Minn. Sealed **proposals will be received here until 10 a.m., May 21, 1919, and then opened, for dredging in Duluth-Superior Harbor, Minn. and Wis. Further information on application**

Bids: May 12.

Sewage Treatment Works

Pontiac, Mich.

Sealed proposals will be received at the office of the City Clerk, City Hall, until 1:30 P.M., **May 12, 1919**, for the construction of the Sewage Treatment Works.

The work contemplated comprises the construction of an outfall sewer, grit chamber, two-story settling tanks, trickling filters, secondary tanks, sludge bed, conduits, bridge, and appurtenances. The following quantities give a general idea of the amount and character of the work to be done:

Outfall sewer	2,052 lin.ft.
Excavation	34,710 cu.yd.
Reinforced concrete	4,078 cu.yd.
Filter stone	15,700 cu.yd.
C. I. piping	35 tons

Plans and specifications are on file at the office of the City Clerk, City Hall, and copies may be obtained at the office of Clarence W. Hubbell, Consulting Engineer, 2348 Penobscot Bldg., Detroit, Mich. A deposit of $15 (fifteen dollars) will be required for each set of plans and specifications. If a bid is submitted this deposit will be refunded upon the return of said plans and specifications in good order.

All bids must be accompanied by a certified check on a solvent bank for fifteen thousand dollars ($15,000).

Separate proposals will be entertained on the Outfall Sewer; a certified check for one thousand dollars ($1000) will be required where proposals are made on outfall sewes only.

No proposal will be entertained unless made on blanks furnished by the consulting engineer, and delivered to the City Clerk on or before 1:30 P.M., May 12, 1919.

The city reserves the right to reject any or all bids.

By order of the City Commission.

C. W. HAM,
City Clerk.

Bid: May 3.

Concrete Bridge

City of North Adams, Mass.

Sealed proposals will be received at the office of the Commissioner of Public Works until 12 o'clock noon, May 3, 1919, for the construction of a reinforced concrete arch bridge on West Main Street, consisting of a single arch of 80 ft. clear span, length of bridge 108 ft., width 28 ft. A certified check for 5% of bid required. Plans and specifications may be obtained by responsible bidders upon application. The right is reserved to reject any or all bids.

JACKSON L. TEMPLE,
Commissioner of Public Works.

F. N. HOLMQUIST,
Office Engineer.

Bids: May 29

Reservoir

BOROUGH OF TAMAQUA
OFFICE OF THE COMMISSIONERS OF WATER WORKS.
Tamaqua, Pa.

Sealed proposals will be received by the undersigned at their office in Tamaqua, Pa., until 12 o'clock noon of May 29, 1919, at which place and hour they will be publicly opened and read, for the construction of a reservoir on Owl Creek, in Rahn Township, Schuylkill County, for the Borough of Tamaqua.

The construction will involve about 57,000 cu.yd. of embankment and about 2000 cu.yd. of concrete, mass and reinforced.

Proposals must cover the entire construction, and the necessary labor and materials for same.

The right is reserved to reject any or all proposals and to readvertise and award the contract in the regular manner.

Plans and specifications may be seen at the office of the Commissioners of Water Works at Tamaqua; or they may be obtained from the Commissioners on payment of $3, which will be refunded upon return of plans and specifications in good condition.

Every proposal must be accompanied by a money deposit in the form of a draft or certified check, payable to the Borough of Tamaqua, for $2000.

The successful bidder will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them, or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the draft or certified check will be returned to the bidder.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The amount of security required for faithful performance of the work will be 10 per cent. of the amount of the estimated cost of the work according to the contract price.

COMMISSIONERS OF WATER WORKS,
Borough of Tamaqua, Pa.
JOHN M. HARRIS,
Secretary.

Bids: May 9.

Concrete Pavements

Village of Patchogue, Suffolk Co., N. Y.

Sealed proposals for the construction of concrete pavements and curbing in North Ocean Avenue and Oak Street, in the Village of Patchogue, N. Y., will be received by the Village Clerk, under 8:15 o'clock P.M., Friday, May 9, 1919, when they will be publicly opened at the village office.

Plans and specifications for the work, which will include approximately 13,000 sq.yd. of concrete pavement and 3400 lin. ft. of concrete curbing may be obtained at the office of Edward A. May, Civil Engineer, Patchogue, N. Y., by payment of $1 to cover cost of producing same.

Each bid must be accompanied by a certified check for an amount equal to 5% of the amount of bid, made payable to the Village of Patchogue.

The right is reserved by the Board of Trustees to reject any or all bids.

E. AGATE FOSTER,
President.
EDWARD B. WOODRUFF, Clerk.
Dated: Apr. 24, 1919.

Bids: June 2.

Constructing Drainage System

Beaufort, N. C.

Sealed proposals will be received by the Virginia-Carolina Farms Co. at Beaufort, N. C., until noon of the second day of June, 1919, for the following work:

Constructing New Canals (Side slopes: ½ to 1)
- 17 miles main canals, 6 to 10 ft. bottom x 8 ft. deep.
- 66 miles laterals, 3 ft. bottom x 6 ft. deep.
- 117 miles sub-laterals, 2 ft. bottom x 4½ ft. deep.

Enlarging existing canals to above sizes:
- 10 miles mains.
- 28 miles laterals.
- 35 miles sub-laterals.

Total excavation: Approximately 1,500,000 cu.yd.

Grading, 110 miles of roads.

Constructing 210 wooden bridges, requiring from 700 to 2200 ft. B.M. lumber per bridge.

Each proposal must be enclosed in a sealed envelope and addressed to the Virginia-Carolina Farms Co., Beaufort, N. C., and marked: "Proposal for Constructing Drainage System."

Each bidder must deposit with his bid cash or certified check, made payable to the Virginia-Carolina Farms Co., in the amount of $1000 as a guarantee of good faith that he will, if a contract is awarded him, execute a written contract to perform the same. Checks of unsuccessful bidders will be returned as soon as award is made.

All requests for information should be directed to B. M. Potter, Engineer, New Bern, N. C. Plans, specifications, forms of proposals, instructions, and a full set of maps and profiles will be furnished upon receipt of a deposit of $10, which amount will be refunded upon return of same in good condition.

OFFICIAL PROPOSALS

Bids: May 7.

Road Reconstruction

Burlington, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of Burlington County, N. J., for the reconstruction of the Camden County line, Marlton-Medford Road, in the townships of Evesham and Medford in the County of Burlington, with a sheet asphalt surface upon a macadam foundation; estimated amount of surface pavement required is 75,000 sq.yd., and opened and read in public at the Court House on Wednesday, May 7, 1919, at 11:30 A.M.

Specifications and forms of bid, contract and bond for the proposed work prepared by James Logan, County Engineer, and approved by the State Highway Commission, have been filed in the office of said engineer at No. 11 Main St., Mt. Holly, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required in the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and the name of road on the outside, addressed to Harry Hawkins, Jr., Clerk of the Board of Chosen Freeholders, and must be accompanied by a certificate from a surety company to furnish bond and a certified check for not less than $1000, and be delivered at the place and on the hour above named. The standard proposal forms are attached to the specifications, copies of which will be furnished on application to engineer.

By order of the Board of Chosen Freeholders.

HARRY HAWKINS, JR.
Clerk.

Bids: May 9.

Steel Improvement

OFFICE OF
THE DIRECTOR OF PUBLIC WORKS
Norfolk, Va

Sealed proposals will be received at the office of the City Manager until 12 o'clock noon on the 9th day of May, 1919, for improving with sheet asphalt certain streets designated as Class A, aggregating 27,000 sq.yd. and certain other streets designated Class B, aggregating 17,000 sq.yd. including incidental work, in the City of Norfolk, Virginia, at which time and place the same will be publicly opened.

A schedule of the work, specifications and proposal blanks can be had at the Office of Director of Public Works. Bids made on said proposal blanks must be sealed and addressed to Mr. Chas. E. Ashburner, City Manager, marked, "Paving Proposal, May 9, 1919."

A certified check on some local bank in the sum of three thousand ($3000) dollars, payable to B. Gray Tunstall, City Treasurer, or a bidder's bond from well recognized surety company must accompany each bid under the conditions expressed in the proposal.

The right to reject any or all bids is especially reserved or the right to award by classes or in part.

CHAS. E. ASHBURNER,
City Manager.

Santa Fe Trail Road Work

KANSAS HIGHWAY COMMISSION

Hutchinson, Kansas

Project No. 15

SECTION A

1. Notice is hereby given that sealed proposals for the construction of Federal Aid road work in Medford, Salt Creek and Grant Townships, Reno County, State of Kansas, said road work known as the New Santa Fé Trail Road, Section A, Project No. 15, will be received at the office of the County Clerk at Hutchinson, Kansas, until 12 o'clock M., Monday, May 12, 1919, and then publicly opened.

2. The proposed work is located on the public highway in the county and townships before mentioned. Said proposed improvement includes the construction of an 18 ft. wide monolithic brick road with six ft. wide earth shoulders, together with all work involved and indicated by the plans and specifications therewith, beginning at Station 0 plus 00, which is a point on the Reno and Rice county line and extending in an easterly direction for a distance of 38,200 ft., of which 37,454 ft. are to be improved.

The point of beginning is approximately 4 miles by road from the A. T. & S. F. railroad passenger depot at Sterling, Kansas.

Station No. 382 plus 00 is approximately ½ mile from the A. T. & S. F. railroad siding at Nickerson, Kansas.

Station No. 382 plus 00 is approximately ¾ mile from the Mo. Pac. railroad siding at Nickerson, Kansas.

3. Detailed information of the work to be done may be had by an examination of the plans and specifications on file in the office of the County Clerk.

4. The Board of Commissioners reserves the right to reject any and all proposals and to waive technicalities.

By Order of the Board of County Commissioners.

CHAS. H. STEWART,
April 10, 1919. County Clerk.

Project No. 15

SECTION B

1. Road Construction

Atlantic City, N. J.

Notice is hereby given that sealed bids will be received by The Board of Chosen Freeholders of Atlantic County, N. J., at Freeholders Meeting Room, 523 & 524 Guarantee Trust Bldg., Atlantic City, N. J., at 11 A.M. on May 14th, for the reconstruction of two sections of Mays Landing-Pleasantville Road in the Townships of Hamilton and Egg Harbor in the County of Atlantic and State of New Jersey with a bituminous concrete surface upon a concrete foundation; estimated amount of surface pavement required is 44.249.1 square yards, of foundation 44,249.1 square yards; and opened and read in public at the aforesaid time and place.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by A. H. Nelson, County Engineer, and approved by the State Highway Commission, have been filed in the office of the said engineer at Atlantic City, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, baring th name and address of bidder and name of road on the outside, adderssed to The Board of Chosen Freeholders of Atlantic County, N. J., and must be accompanied by the name and certificate of proposed surety and a certified check for not less than $1000.00 and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of The Board of Chosen Freeholders, Atlantic County, N. J.

F. W. WILLETTS,
Clerk.

Bids: May 14.

Highway Work

STATE OF NEW JERSEY
STATE HIGHWAY COMMISSION
TRENTON

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey, for the improvement of the following:

State Highway Route No. 4, Section IA. Concrete Surface, estimated 1400 square yards. Monmouth County.

State Highway Route No. 3, Da Costa-Hammonton Section. Concrete Surface, estimated 46,658 square yards. Atlantic County.

Bids will be opened and read in public at the office of the State Highway Commission, Broad Street Bank Building, Trenton, N. J., on Wednesday, May 14, 1919, at 10:30 A.M.

OFFICIAL PROPOSALS

Drawings, specifications and form of bid, contract and bond, for the proposed work are on file in the office of the said Department at Trenton, N. J., and in the office of J. A. Williams, Division Engineer, 503 Market Street, Camden, N. J., and may be inspected by, or furnished on deposit of Ten Dollars ($10) to prospective bidders. Bids must be made on the standard proposal forms in the manner designated therein, and as required by the specifications, same to be enclosed in sealed envelopes, bearing the name and address of bidder and name of the road on the outside, addressed to State Highway Commission, Broad Street Bank Bldg., Trenton, N. J., and must be accompanied by a certified check for not less than ten per cent. (10%) of the amount of the bid, and be delivered at the above place on or before the hour named. Copies of standard proposal form will be furnished on application.

Each bidder must accompany his bid with a certificate from a surety company, duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in, and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Put Public Buying on an Efficiency Basis

Now, more than ever before, it is important that those having contracts to let, whether for new work or the furnishing of machinery or supplies, should consider the best methods of securing extensive competition and low bids.

Thousands of reliable contractors and manufacturers constantly seek opportunities to bid on contracts for public work or supplies. They compete for it. That keeps public expenditures down. It makes the taxpayers' money go farther. It puts public buying on an efficient basis. It makes local bidders figure more closely.

These contractors and manufacturers naturally seek news of contracts where it is most plentiful. They read

ENGINEERING NEWS-RECORD

A Consolidation of Engineering News, Engineering Record and the Contractor

the best known and most widely read papers used for the advertising of contracts to be let. Practically every worth-while contractor and manufacturer who wants to figure on public contracts reads Engineering News-Record. No guessing. No uncertainty. Engineering News-Record, with its circulation of 33,000 copies weekly, reaches practically *all* the men who would be interested in advertised contracts.

Proposal Advertising Rate, $3.60 an inch an issue. (About 10 cents per thousand circulation.)

As a government, state or municipal engineer, or public official you should use this means of giving your taxpayers the biggest value for their money. Advertise your contracts in the News-Record—the one nationally recognized medium for this class of advertising.

Look at the Proposals in this issue and see how other communities use it.

OFFICIAL PROPOSALS

Bids: May 20.

Dam Construction

Stamford, Texas.

Sealed bids will be received by the Mayor and Board of Commissioners of the City of Stamford, Texas, until noon May 20, 1919, and then publicly opened and read, for furnishing all equipment ,tools, labor, materials, etc., necessary for constructing the following:

A dam across the Clear Fork of the Braezs River. The dam contemplated contains approximately nine thousand cubic yards of rubble and concrete masonry, seventy thousand cubic yards earthworth and minor items. A concrete pipe line from river to pumping station (about twelve miles), a cast iron pipe line from pumping station to Stamford (about two miles) and two earthen reservoirs along the pipe line. Plans and specifications for the dam are separate, and either or both sets will be mailed to prospective bidders on receipt of $25.00 for each set, which will be returned only upon their return in good order within two weeks after opening bids. Bids will be considered on all or a part. The right is reserved to reject any and all bids and to waive informalities.

A certified check covering four per cent. of the work bid on must accompany each bid and be made payable to R. L. Penick, Mayor of Stamford, Texas, as an evidence of good faith.

R. L. PENICK, Mayor,
Stmaford, Texas.

Bids: May 6.

Grading and Paving

Omaha, Neb.

Sealed proposals to be received by City Clerk of Omaha, up to nine o'clock on Tuesday, May 6, for grading and repaving within District No. 1721, including 150,000 cu.yd. grading and 20,000 sq.yd. of paving. Approximate private grading work in connection with the above, 200,000 cu.yd. Grading and paving contracts may be let separately.

Plans and specifications on file with John A. Bruce, City Engineer, Chicago office of Engineering News-Record. Work to be commenced about October 1; time limit for grading within district, four months.

Certified check, five per cent. of total bid.

JOHN A. BRUCE,
Omaha, April 17, 1919. City Engineer.

S. S. JOHNSON & BRO.

Storm Sewer

Dearborn, Mich.

Sealed proposals will be received at the office of the Village Clerk, Village Hall, until 8:00 P.M., May 6, 1919, for the construction of a Storm Water Sewer lying in Military, Garrison, Beeson and Adeline Streets.

The work consists of approximately as follows:

1013	lin.ft.	of	6' 3"	Circular	Sewer
1634	"	"	5' 9"	"	"
950	"	"	5' 6"	"	"
575	"	"	5' 0"	"	"
930	"	"	4' 6"	"	"
1237	"	"	4' 0"	"	"

Plans and specifications are on file at the office of the Village Clerk, Dearborn, Michigan, and copies may be obtained at the office of Clarence W. Hubbell, Consulting Engineer, 2348 Penobscot Bldg., Detroit, Michigan. A deposit of $10.00 (ten dollars) will be required for each set of plans and specifications. If a bid is submitted this deposit will be refunded upon return of said plans and specifications in good order.

All bids must be accompanied by a certified check on a solvent bank for seven thousand dollars ($7000.00). All certificate accompany rejected proposals will be returned. Should any proposal be accepted, the party or parties making same shall execute a contract and furnish the required surety bonds satisfactory to the Village of Dearborn,within ten days after receiving notice; or, failing so to do, the certificate of deposit shall be forfeited to the said Village of Dearborn.

No proposal will be entertained unless made on blanks furnished by the consulting engineer, and delivered to the Village Clerk on or before 8:00 P.M., May 6, 1919.

The Village reserves the right to reject any or all bids.

By order of the Village Commission.

FRED C. REAMER,
Village Clerk.

Bids: April 28.

Paving

Elmira, N. Y.

Sealed proposals for grading, curbing and paving the below named streets will be received by the undersigned at his office in the City Hall until 11:30 o'clock A.M., April 28, 1919:

Woodlawn Ave., 2800 sq.yd.
East & West First Street, 2400 sq.yd.
Walnut Street, 14,900 sq.yd.

Plans and specifications are on file in the City Engineer's Office, City Hall, where also may be obtained the "proposal sheets" which must be used.

Separate certified checks are required as follows:

Woodlawn Ave., $1100; E. and W. First Sts., $900; Walnut St., $6200 payable to the order of the Mayor of Elmira, N. Y., and must accompany the bids. They will be returned to the bidders upon execution of the contracts.

The envelopes must be endorsed "Proposals for Pavements."

The Board of Public Works reserves the right to reject any or all bids.

LOUIS C. ANDREWS,
City Clerk.

OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Bids: May 12.

Paving

CITY OF ONEONTA, NEW YORK.
DEPARTMENT OF PUBLIC WORK.

Sealed bids or proposals will be received by the Board of Public Works, at the City Clerk's Office, at Oneonta, New York, until 8 P.M., on the 12th day of May, 1919, for the improvement named below, at which time and place such proposals will be publicly opened and read.

Paving with bituminous macadam, Maple Street from Main Street to south line of Center Street; Maple Street from south line of Center Street to Normal School Grounds; Elm Street from Main Street to Cedar Street and Spruce Street from Elm Street to Maple Street, together with such sewer constructions as is necessary for the paving.

All bids must be made on the regular printed forms furnished for that purpose, and all prices must be plainly stated in ink, both in wards and figures.

Plans and specifications are on file in the City Engineer's office and may be obtained for the price of five dollars ($5), said five dollars will not be refunded upon return of the plans, but will be retained by the City of Oneonta as a part compensation for the printing of the same.

All bids will be considered informal, which do not contain prices set opposite each and all of the items which enter into the construction of the particular kind of pavement bid upon, and which are called for in the printed forms for bids, or which are otherwise not in conformity with this notice.

No bid shall be allowed to be withdrawn for any reason whatever, after it has been presented to the Board of Public Works.

No bid shall be accepted from, or contract awarded to any person who is in arrears to the City of Oneonta upon debt or contract, or who is in default as surety or otherwise, upon any obligation to said city.

All bids which, in the opinion of the Board of Public Works, are unbalanced will be deemed informal.

Bidders are required to state in their bids their names and places of residence, and the names of all persons interested with them in said bids. Also that the bid is made without any connection with any persons making another bid for the same contract, and that the bid is in all respects fair and without collusion of fraud.

A certified check in an amount equal to at least five (5%) per cent. of the bid, payable to the Chamberlain of the City of Oneonta, will be required to accompany each bid. All such deposits, except that of the bidder whose bid shall have been accepted, will be returned to the person or persons making the same within three days (3) after the execution of the contract. If the bidder whose bid shall have been accepted, shall refuse or neglect to execute the contract within fifteen (15) days after the notice that it has been awarded to him or them, the amount of the deposit made by him or them will be forfeited to and retained by the City of Oneonta as liquidated damages for such neglect or refusal. But if he or they shall execute the contract within the time aforesaid, the amount of his or their deposit will be returned to him or them.

No contract will be considered unless accompanied with a surety bond in an amount equal to fifty (50%) per cent. of the bid, approved as to sufficiency by the Board of Public Works, and conditioned that if the contract be accepted, the proposer will construct the work at the prices and upon the terms proposed, according to the plans and specifications, and subject to the supervision and approval of the City Engineer, and also conditioned for the faithful performance of all the provisions of the contract.

The Board of Public Works reserves the right to reject any or all bids not deemed for the interest of the City.

The Engineer's estimate of quantities, as attached to the bidding form, will be used only as a basis of computing and canvassing the various bids.

Bidders are required to form their own judgment of the quantities and character of the work by personal examination of the ground where it is to be done and of the specifications and the drawings relating to it, or by such other means as they may prefer.

Bidders must not assert any misunderstanding in regard to any thing relating to the work, or the location and ground where it is to be executed.

BOARD OF PUBLIC WORKS,
CITY OF ONEONTA
SHELDON H. CLOSE,
City Clerk.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

Bids: May 7.

Stokers and Drivers

DEPARTMENT OF PUBLIC
IMPROVEMENTS,
SUB-DEPARTMENT OF HIGHWAYS
ENGINEER.

Baltimore, Maryland.

Sealed proposals, in duplicate, endorsed "Bids for furnishing and erecting one Four Hundred and three Two Hundred and Sixty-six Horse-power Mechanical Side-feed Stokers and Drivers for Sewage Pumping Station, Eastern Avenue and President Street, Baltimore, Maryland," addressed to the Board of Awards of Baltimore City; will be received at the office of the City Register, City Hall, Baltimore, Maryland, until noon, Wednesday, May 7, 1919.

Specifications can be obtained at the office of the Highways Engineer, City Hall, Baltimore, Maryland, on and after April 23, 1919. A charge of $5 will be made for each set of specifications; this amount will be refunded upon the return of these specifications in good condition before noon of May 7, 1919. Specifications used in making a bid will be considered as returned.

A certified check of the bidder on a Clearing House Bank, made payable to the Mayor and City Council of Baltimore, for the sum of twelve hundred dollars ($1200) will be required with each bid.

The extent of the work is approximately as follows:

For furnishing and erecting complete ready for brick-work one Four Hundred (400) and three (3) Two Hundred and Sixty-six (266) Horse-power Side Feed type Mechanical Stokers, and the furnishing and ereting complete of two Stoker Engines.

The successful bidder will be required to give bond and comply with the City Charter respecting contracts.

The Board of Awards reserves the right to reject any or all bids.

GEORGE F. WIEGHARDT,
Highways Engineer.
April 23, 1919. Baltimore, Maryland.

Bids: May 14.

Dam Construction

Gilboa, New York.

Sealed bids will be received by the Board of Water Supply, at its offices, twenty-second floor, Municipal Building, Park Row, Centre and Chambers streets, New York City, until 11 A.M., on Wednesday, May 14, 1919, for Contract 203, for the construction of the Gilboa dam, in the Town of Gilboa, Schoharie county, New York. The dam is part of the Schoharie Watershed development for the New York City water-supply and is composed of two parts, an overfall masonry portion about 1300 feet in length and having a maximum height of about 160 feet, and an earthen section approximately 1000 feet long.

At the above place and time the bids will be publicly opened and read. Pamphlets containing information for bidders and contract drawings can be obtained at the above address, at the office of the Secretary, by depositing the sum of twenty dollars ($20) in cash or its equivalent for each pamphlet. For further particulars apply to the office of the Principal Assistant Engineer at the above address.

JOHN F. GALVIN, President.
CHARLES N. CHADWICK.
L. J. O'REILLY,
Commissioners, Board of Water Supply.

OFFICIAL PROPOSALS

Bids. May 10.

Pavement Construction

City of Pittsfield, Mass.

Sealed bids or proposals for constructing pavements and appurtenances, addressed to the Clerk of the Board of Public Works, will be received at the office of the Board of Public Works, City Hall, Pittsfield, Mass., until 2:30 o'clock P.M., of the tenth day of May, 1919. At the above place and time the bids will be publicly opened and read.

Pavement on South Street; the principal items of work are about 33,000 sq.yd. of pavement; about 8000 lin.ft. of curbs and other miscellaneous work. Alternative bids on different types of pavements will be received, which must be accompanied by a certified check for thirty-five hundred dollars drawn upon a national bank or trust company established in Pittsfield, Boston, or New York, and calls for a bond of thirty-five thousand dollars.

Pavement on West Housantonic and other streets; the principal items of work are about 14,000 sq.yd. of pavement; about 6000 lin.ft. of curbs and other miscellaneous work. Alternative bids on different types of pavements will be received, which must be accompanied by a certified check for fifteen hundred dollars drawn upon a national bank or trust company established in Pittsfield, Boston, or New York, and calls for a bond of fifteen thousand dollars.

Pavement on Pecks Road; the principal items of work are about 9500 sq.yd. of pavement, and other miscellaneous work. Alternative bids on different types of pavement will be received, which must be accompanied by a certified check for one thousand dollars, drawn upon a national bank or trust company established in Pittsfield, Boston, or New York, and calls for a bond of ten thousand dollars.

Pamphlets containing information for bidders, form of proposal, contract, specifications and plans will be mailed to contractors who apply to the Engineer of the Board of Public Works, or may be obtained at his office.

Bidders may bid on one, two, or all the contracts and the right is reserved to reject any or all bids, or to accept any bid.

Mayor and Chairman Paving Committee.
WILLIAM C. MOULTON,
A. B. FARNHAM,
Engineer Board of Public Works.

OFFICIAL PROPOSALS

Bids: May 7.

Road Work

CLARK COUNTY ROAD DISTRICT NO. 1

Little Rock, Ark.

Notice is hereby given that sealed bids will be received at the office of the State Highway Department, Little Rock, Ark., until 2 P.M., May the 7th, 1919, and will then be publicly opened and read. The work contemplated is the building of 93 miles of gravelled roads radiating from the City of Arkadelphia, Clark County, Ark., together with culverts, bridges, etc.

The work has been divided into five sections, ranging in length from ten to thirty miles. Bids will be compared on a basis of the engineers' estimates, copies of which may be obtained free of cost from the engineers or the attorney of the district. Plans and specifications are on file at the office of the County Clerk in Clark County and at the office of the engineers in Little Rock, and may there be seen. Blue prints of alignment, grades and bridges comprising fifty sheets may be obtained from the engineers for $10. Specifications may be obtained from the engineers free of cost.

Bids must be accompanied by a certified check for 5% of the value of the work bid upon, and a construction bond of 25% will be required of the successful bidder.

The right is reserved to reject any and all bids.

BOARD OF COMMISSIONERS,
Clark County Road District No. 1
J. G. CLARK, President.
W. E. BARKMAN, Secretary.
McMILLAN and McMILLAN, Att'ys.
Arkadelphia, Arkansas.
LUND and HILL, Engrs.,
Little Rock, Arkansas.

Bids: May 15.

Ornamental Street Lighting System

Mandan, North Dakota.

The Board of City Commissioners will receive sealed bids, at the office of the City Auditor, Mandan, N. D., until eight o'clock P.M., May 15, 1919, for the furnishing of all material including plant equipment and labor for the installation of an ornamental street lighting system.

The work to be done embraces approximately 80 blocks, with 294 posts.

Each proposal shall be accompanied by a certified check of $500 and a bond running to the city in a sum equal to 5% of the amount of the bid.

Plans and specifications are on file with the City Auditor or may be obtained from the engineers by depositing $5.

The right is reserved to reject any or all bids.

H. L. HENKE,
Pres. City Commission.
W. H. SEITZ, City Auditor.
BLACK & GRIFFIN, Engineers.

Bids: May 13.

Sewer Bonds For Sale

Frederick, Okla.

The City of Frederick, Okla., will offer for sale on Tuesday evening, May 13, 1919 (subject to approval of the property owners of said City at a special election to be called immediately thereafter), one hundred and fifty thousand ($150,000) dollars more or less of 30-year Sanitary Sewer Bonds. The Mayor and Council reserve the right to reject any or all bids.

D. W. WOMACK,
City Clerk.

OFFICIAL PROPOSALS

Bids: May 12.

Road Reconstruction

Salem, N. J.

Notice is hereby given that sealed bids will be received by the Road Committee of the Board of Chosen Freeholders of the County of Salem for the reconstruction of Penn Grove-Pennsville Road, Second Section, in the townships of Upper Penns Neck and Lower Penns Neck, in the County of Salem, with a concrete surface; estimated amount of surface pavement required is 10,400 sq.yd., and opened and read in public at the Court House in Salem, N. J., on May 12, 1919, at 11 A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by H. B. Keasbey, County Engineer, and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to the Road Committee of the Board of Chosen Freeholders of the County of Salem and must be accompanied by a certified check for not less than $1000 and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By Order of the Board of Chosen Freeholders of the County of Salem.

I. C. SMASHEY,
Clerk.

Bids: May 16.

Ditch Construction

Grant City, Mo.

Notice is hereby given that on Friday, the 16th day of May, 1919, at 2:00 o'clock p.m., at the office of the Secretary of Worth County Drainage District Number One in the Town of Grant City, Missouri, bids will be received by W. C. Okey, Secretary of the District for the construction of the Main Ditch and 8 lateral ditches, as set out in "The Plan for Reclamation" of said District.

The letting will be public outcry. If contractors are unable to attend the letting they may send in their bid by mail to W. C. Okey, Secretary, Grant City, Missouri.

Bids will be based on 961,000 cubic yards earth excavation in the Main Ditch and 32,315 cubic yards of earth excavation in the 8 lateral ditches.

Certified check or Bidder's Bond, 5% of the amount of bid. Surety bond, 40% of the cost of the work contracted for.

For further information address W. C. Okey, Secretary, Grant City, Missouri, or Clark E. Jacoby Engineering Company, 528 Shukert Building, Kansas City, Missouri.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Boston, Mass.—Sealed proposals will be received here until 12 M., May 3, 1919, and then opened, for dredging at Hog Island, Boston, Harbor, Mass. Further information on application.

U. S. ENGINEER OFFICE, NEW LONDON, CONN.—Sealed proposals for maintenance dredging in New Haven Harbor, Conn., will be received here until 2 o'clock p.m., May 20, 1919 and then opened. Information on application.

OFFICIAL PROPOSALS

Bids: May 29

Reservoir

BOROUGH OF TAMAQUA
OFFICE OF THE COMMISSIONERS OF WATER WORKS.

Tamaqua, Pa.

Sealed proposals will be received by the undersigned at their office in Tamaqua, Pa., until 12 o'clock noon of May 29, 1919, at which place and hour they will be publicly opened and read, for the construction of a reservoir on Owl Creek, in Rahn Township, Schuylkill County, for the Borough of Tamaqua.

The construction will involve about 57,000 cu.yd. of embankment and about 2000 cu.yd. of concrete, mass and reinforced.

Proposals must cover the entire construction, and the necessary labor and materials for same.

The right is reserved to reject any or all proposals and to readvertise and award the contract in the regular manner.

Plans and specifications may be seen at the office of the Commissioners of Water Works at Tamaqua; or they may be obtained from the Commissioners on payment of $3, which will be refunded upon return of plans and specifications in good condition.

Every proposal must be accompanied by a money deposit in the form of a draft or certified check, payable to the Borough of Tamaqua, for $2000.

The successful bidder will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them, or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the draft or certified check will be returned to the bidder.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The amount of security required for faithful performance of the work will be 10 per cent. of the amount of the estimated cost of the work according to the contract price.

COMMISSIONERS OF WATER WORKS,
Borough of Tamaqua, Pa.
JOHN M. HARRIS,
Secretary.

Bids: May 14.

EXTENSION OF DATE
Westerly Sewage Treatment Works

Cleveland, Ohio.

In order to give the contractors more time to prepare their bids for construction of Cleveland's Westerly Sewage Treatment Works, it has been decided to change the date of receiving bids from May 6 to May 14. (Previously advertised in issues of April 3rd and 10th.)

UNITED STATES ENGINEER OFFICE Room 710, Army Building, 39 Whitehall Street, New York, N. Y.—Sealed proposals for dredging and rock removal in East River, N. Y., will be received here until 12 m., May 9, 1919, and then opened. Further information on application.

PROPOSALS FOR MARINE RAILWAY U. S. Engineer Office, Philadelphia, Pa. Sealed proposals will be received here until 12 noon, May 8, 1919, and then opened, for the construction of a marine railway at Fort Mifflin, Philadelphia, Pa. Further information on application.

OFFICIAL PROPOSALS

Bids: June 2.

Constructing Drainage System

Beaufort, N. C.

Sealed proposals will be received by the Virginia-Carolina Farms Co. at Beaufort, N. C., until noon of the second day of June, 1919, for the following work:

Constructing New Canals (Side slopes: ½ to 1)
- 17 miles main canals, 6 to 10 ft. bottom x 8 ft. deep.
- 66 miles laterals, 3 ft. bottom x 6 ft. deep.
- 117 miles sub-laterals, 2 ft. bottom x 4½ ft. deep.

Enlarging existing canals to above sizes:
- 10 miles mains.
- 28 miles laterals.
- 35 miles sub-laterals.

Total excavation: Approximately 1,500,000 cu.yd.

Grading, 110 miles of roads.

Constructing 210 wooden bridges, requiring from 700 to 2200 ft. B.M. lumber per bridge.

Each proposal must be enclosed in a sealed envelope and addressed to the Virginia-Carolina Farms Co., Beaufort, N. C., and marked: "Proposal for Constructing Drainage System."

Each bidder must deposit with his bid cash or certified check, made payable to the Virginia-Carolina Farms Co., in the amount of $1000 as a guarantee of good faith that he will, if a contract is awarded him, execute a written contract to perform the same. Checks of unsuccessful bidders will be returned as soon as award is made.

All requests for information should be directed to B. M. Potter, Engineer, New Bern, N. C. Plans, specifications, forms of proposals, instructions, and a full set of maps and profiles will be furnished upon receipt of a deposit of $10, which amount will be refunded upon return of same in good condition.

VIRGINIA-CAROLINA FARMS CO.
G. S. SPEER, President.
B. M. POTTER, Engineer,
New Bern, N. C.

Bids: May 7.

Filters

City of Winston-Salem, N. C.

Bids: May 14.

Highway Work

STATE OF NEW JERSEY
STATE HIGHWAY COMMISSION
TRENTON

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey, for the improvement of the following:

State Highway Route No. 4, Section IA. Concrete Surface, estimated 1400 square yards. Monmouth County.

State Highway Route No. 3, Da Costa-Hammonton Section. Concrete Surface, estimated 46,658 square yards. Atlantic County.

Bids will be opened and read in public at the office of the State Highway Commission, Broad Street Bank Building, Trenton, N. J., on Wednesday, May 14, 1919, at 10:30 A.M.

Drawings, specifications and form of bid, contract and bond, for the proposed work are on file in the office of the said Department at Trenton, N. J., and in the office of J. A. Williams, Division Engineer, 503 Market Street, Camden, N. J., and may be inspected by, or furnished on deposit of Ten Dollars ($10) to prospective bidders. Bids must be made on the standard proposal forms in the manner designated therein, and as required by the specifications, same to be enclosed in sealed envelopes, bearing the name and address of bidder and name of the road on the outside, addressed to State Highway Commission, Broad Street Bank Bldg., Trenton, N. J., and must be accompanied by a certified check for not less than ten per cent. (10%) of the amount of the bid, and be delivered at the above place on or before the hour named. Copies of standard proposal form will be furnished on application.

Each bidder must accompany his bid with a certificate from a surety company, duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in, and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: May 10.

Reinforced Concrete Bridge

Adrian, Mich.

Bids: May 8, 1919.

Paving

Cohoes, N. Y.

Sealed proposals will be received on the 8th day of May, 1919, at 2 P.M., in the Mayor's office, City Hall, Cohoes, N. Y., for the paving of Manor Avenue, from the intersection of Reservoir Street to City line. Brick, bithulitic, concrete, tarvia or bituminous material. Certified check for 10% of amount of bid must accompany proposal. Successful bidder must file bond for 50% of total amount of contract.

EUGENE M. HEBERT,
Secretary.

Bids: May 6.

Road Improvements

STATE HIGHWAY COMMISSION,
DURHAM COUNTY, NORTH CAROLINA

Sealed bids for Road Improvements on the North Carolina Central Highway, in Durham County, North Carolina, will be received by the Board of County Commissioners at the County Court, House in Durham, North Carolina, until 3 o'clock P.M., on the sixth (6th) day of May, 1919, opened and read publicly.

The work will consist approximately as follows:

78,900	Sq.yd. of brick, asphalt, cement, concrete, bituminous concrete, or other approved pavement. Combination cement concrete header curbing and base course required except with cement concrete construction.
4,000	Cu.yd. old macadam in present surface removed and replaced along edges of new pavement.
56.92	Cu.yd. Class "A" Concrete Culverts.
4774.0	Lb. reinforcing steel in Concrete Culverts.
75.66	Cu.yd. Class "B" Concrete Pipe Headwalls.
612.5	Lin.ft. 15" Standard Vitrified Pipe.
152.5	Lin.ft. 18" Standard Vitrified Pipe.
152.5	Lin.ft. 24" Standard Vitrified Pipe.

No bid will be considered unless accompanied by cash, certified check, as specified in "Instructions to Bidders" for an amount equal to at least five per cent. (5%) of the total amount of the bid.

A Corporate Surety Bond will be required for the faithful performance of the Contract, in a sum equal to one-half (½) the total amount of the bid.

Plans, Specifications, Forms of Contract, Proposal Blanks, and full information for bidders may be obtained at the Office of the State Highway Commission, at Raleigh, North Carolina, upon the deposit of $5.00.

The right is reserved to reject any or all proposals or to accept the proposal or proposals deemed best for the State, County or Township.

By order of the Board of County Commissioners of Durham County.

This the 10th day of April, 1919.

A. L. CARLTON,
Chairman of Board of County Commissioners of Durham County.
M. G. MARKHAM,
Clerk or Secretary.

Bids: May 15.

Paving

Lebanon, Pa.

Sealed proposals directed to the City Clerk of Lebanon, Pa., will be received at the City Hall until 5 P.M., Thursday, May 15, and publicly opened at a special Council meeting that same evening, for the furnishing of all labor and materials required to construct the following pavements:

Cumberland Street—4th St. to 5th St., approximately.....	1,500 sq.yds.
Cumberland Street—9th St. to Pennsylvania R.R. approximately	4,600 " "
Cumberland Street—Pennsylvania R.R. to 16th St. approximately	9,000 " "
Chestnut Street—4th St. to 12th St. approximately....	16,700 " "

Alternate bids will be received on Woodblock, Vitrified Brick, Cement Concrete, Asphaltic Concrete and Sheet Asphalt. The Contractor may bid on any or all of these different types of surfacing.

Certified check of $250, $700, $1500, $2500 respectively, must accompany each bid.

Specifications, proposal blanks and detailed information concerning the condition and manner of submitting bids can be obtained by applying to the City Engineer. A deposit of $5.00 is required for each complete set of the specifications sent out. This will be refunded upon the return of the specifications in good condition.

Payment for the work done in paving the street intersections and in all drainage structures will be by monthly estimates. Payment for all other work will be made by two-year improvements bonds of the City of Lebanon, bearing 6 per cent. interest. The security for the payment and redemption of these bonds is the assessment levied against the abutting property owners as provided for by an act of Assembly entitled, "An act providing for the Incorporation of 3rd Class Cities" approved May 23, 1889, and any supplements thereto which may be applicable.

Plans of streets and standard structures may be seen at the City Engineer's office.

The Mayor and Council reserve the right to reject any or all bids and to award the contract as is deemed to the best interest of the City of Lebanon.

PAUL A. VOLCKER,
City Engineer.

Attest:
DAN M. SHARP,
City Clerk.

Bids: May 6.

Grading and Paving

Omaha, Neb.

Sealed proposals to be received by City Clerk of Omaha, up to nine o'clock on Tuesday, May 6, for grading and repaving within District No. 1721, including 150,000 cu.yd. grading and 20,000 sq.yd. of paving. Approximate private grading work in connection with the above, 200,000 cu.yd. Grading and paving contracts may be let separately.

Plans and specifications on file with John A. Bruce, City Engineer, Chicago office of Engineering News-Record. Work to be commenced about October 1; time limit for grading within district, four months.

Certified check, five per cent. of total bid.

JOHN A. BRUCE,
Omaha, April 17. 1919. City Engineer.

Bids: May 8.

Road Oiling

Poughkeepsie, N. Y.

Sealed proposals will be received by the Board of Public Works at their office in Eastman Park Mansion up to 4 P.M., Thursday, May 8, 1919, for the following:

Furnishing and applying asphaltic oil of 40% to 50% asphaltic content to approximately 300,000 sq.yd. of earth and macadam streets during the season of 1919.

Price to be per square yard treated.

A certified check for $300 must accompany each proposal. Specifications can be obtained from or will be mailed by the Clerk of the Board of Public Works upon receipt of a deposit of $5.

The right is expressly reserved to reject any or all proposals.

E. W. SYLVESTER,
Supt. Public Works.

Dated: April 25, 1919.

Bids: May 9.

Road Reconstruction

Johnstown, Pa.

Sealed proposals addressed to the Supervisors of East Carroll Township, Cambria County, Penn., in care of the County Controller, Ebensburg, Penn., will be received up until 2 o'clock P.M., and publicly opened and read in the Commissioners' office at 2:30 o'clock P.M., on the 9th day of May, A. D. 1919, for furnishing all labor and material for the reconstruction of (7) seven miles and 152 ft. in East Carroll Township, Cambria County, Penn., from Patton to Carrolltown and from Bradley Junction to 1 mile south of Carrolltown, with an eighteen foot roadway of vitrified brick paving block on a concrete base and curb.

Proposals must be made in accordance with the plans and specifications, and on the blank forms furnished by the engineer, which are part of the specifications.

Plans and specifications are on file and may be secured from O. P. Thomas, Engineer for East Carroll Township, Leader Building, Johnstown, Penn. A deposit of $10 will be required which will be refunded when specifications are returned in good condition. Contractors desiring plans will be furnished same for the cost of blue-printing.

Each proposal must be accompanied by a certified check on a basis of $500 per mile of work, which will be returned to the unsuccessful bidders on the day of the letting and to the successful bidder after the contract is properly executed and the required idemnity bond furnished and approved by the Board of Supervisors and County Commissioners, amount of which must be equal to the gross amount of the contract.

The Supervisors reserve the right to reject any or all bids, to waive defects or accept any bid they may deem for the best interest of the township.

At the same time separate bids will be received for approximately 2,775,000 No. 1 repressed vitrified paving blocks, f.o.b. cars nearest point of delivery to work.

By order of Charles Yeckley, T. B. Airhart, Herman Illig, Supervisors of East Carroll Township, Cambria County, Penn.

O. P. THOMAS,
Engineer.

Bids: May 15.

Street Improvements

Cumberland, Md.

Sealed proposals addressed to the Mayor and City Council of Cumberland, Md., and endorsed "Proposals for the paving and otherwise improving streets in the City of Cumberland, Md.," will be received at the office of the City Clerk on or before 9:30 A.M., May 15, 1919. Plans and specifications may be obtained at the office of the City Engineer. A deposit of one dollar ($1) for each plan will be required, which will be refunded upon the return of same in good condition. Specifications will be furnished free of charge to each bidder receiving one or more plans.

This work embraces curbing, paving and otherwise improving on eight (8) streets, aggregating approximately, as follows:

9,135 ft. concrete curbing.
7,050 sq.yd. concrete paving.
930 sq.yd. wood block paving.
14,200 sq.yd. brick paving (semi-monolithic) and miscellaneous sewer work, etc. Alternate bids will be asked on 11,280 sq.yd. of Sheet Asphalt on part of the above mentioned paving.

Each proposal must be accompanied by a certified check drawn to the order of the Mayor and City Council of Cumberland, Md., amounting to one hundred dollars ($100) for each and every street bid on, which check will be forfeited to the Mayor and City Council of said City as liquidated damages in case an award is made and the contract and bond are not promptly and properly executed. The Mayor and City Council reserve the right to reject any or all bids, and further, to contract for all or any part of said work.

RALPH L. RIZER, City Engineer,
City Hall, Cumberland, Md.

Bids: May 16.

Fire Proof Grade School

Grand Rapids, Mich.

made payable to the President of the Board of Education, and will be returned when the successful bidder has qualified and signed contract. This certified deposit check is demanded as a guarantee that the successful bidder will sign the contract and furnish the necessary bonds within ten days after the contract is presented to him for signature. The right is reserved to reject any or all bids.

THE BOARD OF EDUCATION.
HENRY E. CROW,
President.

Attest:
H. N. MORRILL, Secretary.

OFFICIAL PROPOSALS

Bids: May 12.

Hospital Building, Power House, Laundry and Tunnel

CITY OF HIGHLAND PARK,
MICHIGAN.

Sealed proposals in *triplicate* will be received by the City of Highland Park, 20 Gerald Avenue, Highland Park, Michigan, at the office of the City Clerk, up to 8 o'clock P.M., May 12, 1919, for general work, heating, plumbing, electric, lighting fixtures, refrigeration, sterilizers, laundry machinery, cooking apparatus, lockers, for a four story basement and sub-basement hospital building, a two story power house and laundry and connecting tunnel for the City of Highland Park, Michigan.

All bids must be made on the regular bid blanks which will be furnished to the contractors in quadruplicate, three copies to be signed, sealed and returned and the fourth to be filed by the bidder.

Separate bids will be received for each, all or any number of the above enumerated items.

Each bid must be accompaned by a certified check for at least 5% of the bid, as a guarantee that the accepted bidder will enter into contract.

The successful bidder must furnish acceptable bond in the sum of the full amount of his contract.

Right is reserved to reject any or all bids and to waive defect in any bid if deemed to the interest of the city to do so.

Plans and specifications may be obtained upon application at the office of the City Engineer, L. C. Whitsit, 28 Gerald Avenue, Highland Park, Michigan.

All requests for plans and specifications must be accompanied by a certified check for $25, payable to the City of Highland Park, Michigan for the return of such plans and specifications in good order.

DELMER C. GOWING,
City Clerk.

Bids: May 6.

Road Work

STATE OF MARYLAND
STATE ROADS COMMISSION

Sealed proposals for building one section of State Highway, as follows:

WICOMICO AND SOMERSET COUNTIES, CONTRACT NO. 094-A: One section of road over the Allen Mill Dam, for a distance of 0.23 miles. Concrete.

will be received by the State Roads Commission, at its offices, 601 Garrett Building, Baltimore, Maryland, until 12 M. on the 6th day of May, 1919, at which time and place they will be publicly opened and read.

Bids must be made upon the blank proposal form which, with specifications and plans will be furnished by the Commission upon application and cash payment of $1, as hereafter no charges will be permitted.

No bids will be received unless accompanied by a certified check for the sum of five hundred ($500) dollars, payable to the State Roads Commission.

The successful bidder will be required to give bond, and comply with the Acts of the General Assembly of Maryland, respecting contracts.

The Commission reserves the right to reject any and all bids.

By order of the State Roads Commission this 25th day of April, 1919.

FRANK H. ZOUCK, Chairman.
CLYDE H. WILSON, Secretary.

Bids: May 20.

Street Paving

OFFICE OF THE BOARD OF
COMMISSIONERS
Nashville, Tenn.

Notice is hereby given that sealed proposals will be received at the office of the Secretary of the Board of Commissioners until 10 o'clock A.M., Tuesday, May 20, 1919, for the construction of certain Bitulithic Paving under Special Benefit Improvement Ordinances Nos. 102, 103, 104, 105; certain Asphaltic Concrete Paving under Special Benefit Improvement Ordinance No. 106; certain Recut Granite Block Paving under Special Benefit Improvement Ordinances Nos. 107, 108, 109, 110, 111, 112; certain Wood Block Paving under Special Benefit Improvement Ordinances Nos. 113, 114; and certain Macadam Paving (Oil and Gravel Surface Treatment) under Special Benefit Improvement Ordinance No. 115.

Separate proposals must be submitted for each street and must be on blank forms accompanying specifications, which will be furnished by William W. Southgate, City Engineer, upon request. Proposals must be accompanied by a certified check or cashier's check of a national bank located in Nashville, Tenn., payable to the order of the Board of Commissioners, in an amount equivalent to 10 per cent. of the aggregate bid, or an approved bond in the penal sum of a like amount, with at least two good solvent sureties, who are citizens or residents of Nashville, Tenn., or in lieu of personal sureties, the bond of some surety company authorized to execute such a bond in the State of Tennessee. The said checks or bonds will be returned to unsuccessful bidders upon award of contracts, and to successful bidders when they shall have entered into contract and made approved bond for the faithful performance of said contract as required by law. A deposit of $5 will be required to accompany each application for specifications, and which will be returned to the depositor either upon the filing of bids or upon the return of the specifications. The right is reserved to reject any and all bids.

By order of the Board of Commissioners. WM. GUPTON, Mayor.

Attest:
J. W. DASHIELL, Secretary.

Bids: May 12.

Road Grading

Great Falls, S. C.

Sealed proposals for grading the road from Great Falls to Wateree will be received by the Great Falls Farms Co. until noon, May 12. The work will be let in two sections; Section 2, 10 miles and Section 3, 15 miles. The work will average five thousand cubic yards per mile, with several stream crossings of twenty thousand cubic yards in addition. Information may be obtained from Alfred T. Jones, Engineer Roads and Bridges, Great Falls, S. C.

UNITED STATES ENGINEER OFFICE, Room 710, Army Building, 39 Whitehall Street, New York, N. Y.—Sealed proposals for dredging in the Narrow of Lake Champlain, N. Y., and Vermont, will be received here until 12 m., May 12, 1919, and then opened. Further information on application.

OFFICIAL PROPOSALS

Bids: May 14.

Drainage Channels

Poplar Bluff, Mo.

Sealed proposals for the construction of 7,200,000 cu.yd. of earth excavation for drainage channels will be received until 10 o'clock P.M., May 14, 1919, by the Board of Supervisors of the Inter-River Drainage District of Missouri at their office at Poplar Bluff, Mo.

Bids will be accepted for the work as a whole or for any contract or combination of contracts into which the work has been divided.

No proposal will be considered unless accompanied by a satisfactory corporate proposal bond, in the form approved by the District or by a certified check for not less than 5% of the amount of the bid, but in no case need a certified check exceed $10,000.

The bidder or bidders, to whom awards are made will be required to enter into written contracts with the District in the form approved by the District, with good and approved security for the full amount of the contract, within twenty days after being notified of the acceptance of his proposal.

The right is reserved to reject any or all bids or to waive any informality in the bids received.

Payments for the work will be made in cash. Requests for information and for plans and specifications should be addressed to the Morgan Engineering Company, Memphis, Tennessee.

INTER-RIVER DRAINAGE DISTRICT
OF MISSOURI.
A. H. FREDERICK, Secretary.
MORGAN ENGINEERING COMPANY,
Engineers.

Bids: May 8.

Bridge Construction

CITY ENGINEER'S OFFICE
NO. 17 CITY HALL.
New Haven, Conn.

Sealed proposals will be received at this office until 11 a.m., May 8, 1919, for the construction of a three span rolled steel girder beam bridge of Bethlehem sections on Washington Avenue over West River. Total length of bridge 125 feet, width 50 feet. Two new abutments and two new piers to be built of local sandstone on pile and timber foundation. All steel work to be encased in concrete. Flooring to be of reinforced concrete slab construction.

Plans, proposals and specifications can be obtained at the City Engineer's Office on or after April 28th.

A certified check, for 5% of bid, made payable to the Controller of the City of New Haven must accompany each proposal.

No proposals will be received after the time specified, and all proposals not on the blanks furnished or not properly filled out will be rejected.

The right to reject any or all bids is reserved.

By order of the Director of Public Works.

F. L. FORD,
April 23, 1919. City Engineer.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Newport, R. I.—Sealed proposals will be received here until 12 o'clock, noon, May 15, 1919, and then opened, for dredging in New Bedford Harbor, Mass. Further information on application.

Bids: May 7.

Water Tube Boiler

DEPARTMENT OF PUBLIC IMPROVEMENTS,
SUB-DEPARTMENT OF HIGHWAYS ENGINEER.
Baltimore, Md.

Sealed proposals in duplicate, endorsed "Bids for furnishing and erecting Four Hundred Horse Power Water Tube Boiler for Sewage Pumping Station" will be received at the office of the City Register, City Hall, Baltimore, Maryland, until 12 noon, Wednesday, May 7, 1919.

Specifications can be obtained at the office of the Highways Engineer, City Hall, Baltimore, Maryland, on and after April 23, 1919. A charge of five dollars ($5) will be made for each set of specifications. This amount will be refunded upon the return of those specifications in good condition before noon of May 7, 1919. The specifications used in making a bid will be considered as returned.

A certified check of the bidder on a Clearing House Bank, made payable to the Mayor and City Council of Baltimore, for the sum of $1000 will be required with each bid.

The extent of the work is approximately as follows:

For furnishing and erecting complete ready for brick work, on foundation furnished by the City, one Four Hundred Horse Power Water Tube Boiler, together with all iron work and accessories, including Soot Blower.

The successful bidder will be required to give bond and comply with the City Charter respecting contracts.

Bids are asked for on two items and the Board of Awards reserves the right to let the contract as a whole or separately.

The Board of Awards also reserves the right to reject any or all bids.

GEORGE F. WIEGHARDT,
Highway Engineer,
April 23, 1919. Baltimore, Maryland.

Bids: June 2.

Reinforced Concrete Dam and Bridge

DEPARTMENT OF THE INTERIOR
UNITED STATES INDIAN SERVICE

Sealed proposals for the construction of a reinforced concrete diversion dam and bridge on the Gila River in Arizona will be received at the office of the Supervising Engineer, United States Indian Service, 528 Federal Building, Los Angeles, Calif., until noon June 2, 1919, and then opened.

The structure will be located about three miles east of Sacaton, Arizona, and 18 miles north of Casa Grande, the nearest railroad station.

The work will require about 31,700 cu.yd. of earth work, 17,740 cu.yd. of concrete, 738,500 lb. of reinforcing steel, 12,400 ft. of round piling, 28,000 ft. of wood sheet piling and eighteen steel gates with operating machinery. Cement, reinforcing steel, round piles, gates and machinery will be furnished by the Government f.o.b. nearest railroad point, hauling to be included in the contract.

All proposals must be made upon blank forms of proposal attached to the contract and specifications which, with the plans, may be obtained upon application to the Supervising Engineer. A deposit of $25 will be required for each set of plans and specifications and this amount will be refunded providing the plans and specifications are returned within ten days after the date on which proposals are to be received.

Detailed schedule of the work to be performed will be furnished bidders and bids should be submitted on all items, as proposals for only a part of the work will not be considered.

HERBERT V. CLOTTS,
Supervising Engineer.

Bids: May 19.

WALTER H. TAYLOR, 3rd,
Director Public Works.
April 17, 1919.

U. S. ENGINEETR OFFICE, Florence, Alabama. Sealed proposals will be received here until eleven o'clock A.M., May 9, 1919, and then opened for furnishing Rock Crushers. Further information on application.

Why?

WHY do Government regulations specify that contracts for construction, equipment and supplies over a certain minimum amount **must** be advertised?

WHY do the laws of most States and Municipalities specify the same thing?

WHY do so many private corporations advertise **their** big contracts?

WHY do Consulting Engineers, Architects, and others recommend and endorse the advertising of Contracts To Be Let?

And—

WHY are 90% of the advertisements on which real national competition is desired published in ENGINEERING NEWS-RECORD?

In the answers to the foregoing questions you will find unquestionable proof that

1—**Advertised Contracts** are the accepted form of public letting to insure the awarding of contracts free of prejudice.

2—**Advertised Contracts** guarantee the greatest possible saving through maximum competition and that—

3—ENGINEERING NEWS-RECORD is universally recognized as the **one** dominant medium of **national** circulation for advertising Contracts To Be Let.

Are your contracts advertised?
Are they advertised in Engineering News-Record?
If not—WHY?

0083

OFFICIAL PROPOSALS

Bids: June 3.

Barge Canal Terminals

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS

Albany, May 1st, 1919.

Sealed proposals will be received at the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon on Tuesday, June 3rd, 1919, at which place and hour they will be publicly opened and read, for the construction of Barge canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

—1—

TERMINAL CONTRACT NO. 52-P

For paving Pier 6, East river, borough of Manhattan, New York City.

Contract plans, sheets 1 and 2.

—2—

TERMINAL CONTRACT NO. 113

For furnishing, testing and delivering electric capstans and trolley hoists at various Barge canal terminals.

—3—

TERMINAL CONTRACT NO. 117

For furnishing, testing and delivering battery-charging motor-generator sets, with switchboard panels for Barge canal terminals in New York City.

Plans may be seen and detached specifications, engineer's estimate of quantities, proposal blanks, forms of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its worth-while contractor in this country who bids on public work outside his own city. Searchlight Section is read each week by nearly every

OFFICIAL PROPOSALS

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the stae for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner, if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON,
Superintendent of Public Works.

U. S. ENGINEER OFFICE, First District, Cincinnati, O.—Sealed proposals will be received here until 2 P.M., May 28, 1919, and then opened for constructing Lock and Abutment for Dam No. 34, Ohio River, near Chilo, Ohio. Further information on application.

Bids: May 14.

Road Construction

Atlantic City, N. J.

Notice is hereby given that sealed bids will be received by The Board of Chosen Freeholders of Atlantic County, N. J., at Freeholders Meeting Room, 523 & 524 Guarantee Trust Bldg., Atlantic City, N. J., at 11 A.M. on May 14th, for the reconstruction of two sections of Mays Landing-Pleasantville Road in the Townships of Hamilton and Egg Harbor in the County of Atlantic and State of New Jersey with a bituminous concrete surface upon a concrete foundation; estimated amount of surface pavement required is 44.249.1 square yards, of foundation 44,249.1 square yards; and opened and read in public at the aforesaid time and place.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by A. H. Nelson, County Engineer, and approved by the State Highway Commission, have been filed in the office of the said engineer at Atlantic City, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, baring th name and address of bidder and name of road on the outside, adderssed to The Board of Chosen Freeholders of Atlantic County, N. J., and must be accompanied by the name and certificate of proposed surety and a certified check for not less than $1000.00 and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of The Board of Chosen Freeholders, Atlantic County, N. J.

F. W. WILLETTS,
Clerk.

U. S. ENGINEETR OFFICE, Florence, Alabama. Sealed proposals will be received here until eleven o'clock A.M., May 9, 1919, and then opened for furnishing Rock Crushers. Further information on application.

U. S. ENGINEER OFFICE, Florence, Alabama. Sealed proposals will be received here until eleven o'clock A.M., May 21, 1919, and then opened, for furnishing Derricks. Further information on application.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., April 26, 1919.—Sealed proposals will be opened in this office at 3 P.M., June 6, 1919, for the construction of the United States Post Office at Bellefourche, South Dakota. Drawings and specifications may be obtained from the Custodian of the site at Bellefourche, South Dakota, or at this office, in the discretion of the Supervising Architect. Jas. A. Wetmore, Acting Supervising Architect.

Bids: May 29

Reservoir

BOROUGH OF TAMAQUA
OFFICE OF THE COMMISSIONERS OF WATER WORKS.
Tamaqua, Pa.

Sealed proposals will be received by the undersigned at their office in Tamaqua, Pa., until 12 o'clock noon of May 29, 1919, at which place and hour they will be publicly opened and read, for the construction of a reservoir on Owl Creek, in Rahn Township, Schuylkill County, for the Borough of Tamaqua.

The construction will involve about 57,000 cu.yd. of embankment and about 2000 cu.yd. of concrete, mass and reinforced.

Proposals must cover the entire construction, and the necessary labor and materials for same.

The right is reserved to reject any or all proposals and to readvertise and award the contract in the regular manner.

Plans and specifications may be seen at the office of the Commissioners of Water Works at Tamaqua; or they may be obtained from the Commissioners on payment of $3, which will be refunded upon return of plans and specifications in good condition.

Every proposal must be accompanied by a money deposit in the form of a draft or certified check, payable to the Borough of Tamaqua, for $2000.

The successful bidder will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them, or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the draft or certified check will be returned to the bidder.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award nas been made.

The amount of security required for faithful performance of the work will be 10 per cent. of the amount of the estimated cost of the work according to the contract price.

COMMISSIONERS OF WATER WORKS,
Borough of Tamaqua, Pa.
JOHN M. HARRIS,
Secretary.

Bids: May 15.

Ornamental Street Lighting System

Mandan, North Dakota.

The Board of City Commissioners will receive sealed bids, at the office of the City Auditor, Mandan, N. D., until eight o'clock P.M., May 15, 1919, for the furnishing of all material including plant equipment and labor for the installation of an ornamental street lighting system.

The work to be done embraces approximately 80 blocks, with 294 posts.

Each proposal shall be accompanied by a certified check of $500 and a bond running to the city in a sum equal to 5% of the amount of the bid.

Plans and specifications are on file with the City Auditor or may be obtained from the engineers by depositing $5.

The right is reserved to reject any or all bids.

H. L. HENKE,
Pres. City Commission.
W. H. SEITZ, City Auditor.
BLACK & GRIFFIN, Engineers.

Bids: May 15.

Street Improvements

Cumberland, Md.

Sealed proposals addressed to the Mayor and City Council of Cumberland, Md., and endorsed "Proposals for the paving and otherwise improving streets in the City of Cumberland, Md.," will be received at the office of the City Clerk on or before 9:30 A.M., May 15, 1919. Plans and specifications may be obtained at the office of the City Engineer. A deposit of one dollar ($1) for each plan will be required, which will be refunded upon the return of same in good condition. Specifications will be furnished free of charge to each bidder receiving one or more plans.

This work embraces curbing, paving and otherwise improving on eight (8) streets, aggregating approximately, as follows:

9,135 ft. concrete curbing.
7,050 sq.yd. concrete paving.
930 sq.yd. wood block paving.
14,200 sq.yd. brick paving (semi-monolithic) and miscellaneous sewer work, etc. Alternate bids will be asked on 11,280 sq.yd. of Sheet Asphalt on part of the above mentioned paving.

Each proposal must be accompanied by a certified check drawn to the order of the Mayor and City Council of Cumberland, Md., amounting to one hundred dollars ($100) for each and every street bid on, which check will be forfeited to the Mayor and City Council of said City as liquidated damages in case an award is made and the contract and bond are not promptly and properly executed. The Mayor and City Council reserve the right to reject any or all bids, and further, to contract for all or any part of said work.

RALPH L. RIZER, City Engineer,
City Hall, Cumberland, Md.

Bids: May 21.

Road Machinery

Harrisburg, Pa.

Pennsylvania State Highway Department, Harrisburg, Pa. Sealed proposals will be received at said office until 10 a.m., May 21, 1919, when bids will be publicly opened and scheduled, and contracts awarded as soon thereafter as possible for Road Machinery to be used for Maintenance Work of the Department. Bidding blanks and specifications may be obtained free upon application to the State Highway Department, Harrisburg, Pa.

LEWIS S. SADLER.

Bids: May 8, 1919.

Paving

Cohoes, N. Y.

Sealed proposals will be received on the 8th day of May, 1919, at 2 P.M., in the Mayor's office, City Hall, Cohoes, N. Y., for the paving of Manor Avenue, from the intersection of Reservoir Street to City line. Brick, bithulitic, concrete, tarvia or bituminous material. Certified check for 10% of amount of bid must accompany proposal. Successful bidder must file bond for 50% of total amount of contract.

EUGENE M. HEBERT,
Secretary.

U. S. ENGINEER OFFICE, New London, Conn.—Sealed proposals for dredging in Greenwich Harbor, Conn., will be received here until 2 o'clock p.m., May 28, 1919, and then opened. Information on application.

Bids: May 15.

Paving

Lebanon, Pa.

Sealed proposals directed to the City Clerk of Lebanon, Pa., will be received at the City Hall until 5 P.M., Thursday, May 15, and publicly opened at a special Council meeting that same evening, for the furnishing of all labor and materials required to construct the following pavements

Cumberland Street—4th St. to 5th St., approximately.....	1,500 sq.yds.
Cumberland Street—9th St. to Pennsylvania R.R. approximately	4,600 " "
Cumberland Street—Pennsylvania R.R. to 16th St. approximately	9,000 " "
Chestnut Street—4th St. to 12th St. approximately....	16,700 " "

Alternate bids will be received on Woodblock, Vitrified Brick, Cement Concrete, Asphaltic Concrete and Sheet Asphalt. The Contractor may bid on any or all of these different types of surfacing.

Certified check of $250, $700, $1500, $2500 respectively, must accompany each bid.

Specifications, proposal blanks and detailed information concerning the condition and manner of submitting bids can be obtained by applying to the City Engineer. A deposit of $5.00 is required for each complete set of the specifications sent out. This will be refunded upon the return of the specifications in good condition.

Payment for the work done in paving the street intersections and in all drainage structures will be by monthly estimates. Payment for all other work will be made by two-year improvements bonds of the City of Lebanon, bearing 6 per cent. interest. The security for the payment and redemption of these bonds is the assessment levied against the abutting property owners as provided for by an act of Assembly entitled, "An act providing for the Incorporation of 3rd Class Cities" approved May 23, 1889, and any supplements thereto which may be applicable.

Plans of streets and standard structures may be seen at the City Engineer's office.

The Mayor and Council reserve the right to reject any or all bids and to award the contract as is deemed to the best interest of the City of Lebanon.

PAUL A. VOLCKER,
City Engineer.

Attest:
DAN M. SHARP,
City Clerk.

Bids: May 19.

Concrete and Brick Paving

Plainfield, N. J.

Sealed proposals will be received by the Common Council of the City of Plainfield, N. J., at the Council Chambers in said City on Monday, May 19th, 1919, at 8 P.M., for paving certain streets with reinforced concrete and certain other streets with vitrified brick on concrete base.

The approximate amount of the principal items of the work is as follows:

14,700	Sq.Yds. of vitrified brick pavement.
2,300	Cu.Yds. of cement concrete pavement.
9,400	Lin.Ft. of concrete abuttements in place of curbs.

Plans, specifications and forms of proposals, contracts, etc., may be had of Andrew J. Gavett, City Engineer, or of John J. Carroll, City Clerk, Municipal Building, Plainfield, N. J.

JOHN J. CARROLL,
City Clerk.

Bids: May 12.

Paving

CITY OF ONEONTA, NEW YORK.
DEPARTMENT OF PUBLIC WORK.

Sealed bids or proposals will be received by the Board of Public Works, at the City Clerk's Office, at Oneonta, New York, until 8 P.M., on the 12th day of May, 1919, for the improvement named below, at which time and place such proposals will be publicly opened and read.

Paving with bituminous macadam, Maple Street from Main Street to south line of Center Street; Maple Street from south line of Center Street to Normal School Grounds; Elm Street from Main Street to Cedar Street and Spruce Street from Elm Street to Maple Street, together with such sewer constructions as is necessary for the paving.

All bids must be made on the regular printed forms furnished for that purpose, and all prices must be plainly stated in ink, both in wards and figures.

Plans and specifications are on file in the City Engineer's office and may be obtained for the price of five dollars ($5), said five dollars will not be refunded upon return of the plans, but will be retained by the City of Oneonta as a part compensation for the printing of the same.

All bids will be considered informal, which do not contain prices set opposite each and all of the items which enter into the construction of the particular kind of pavement bid upon, and which are called for in the printed forms for bids, or which are otherwise not in conformity with this notice.

No bid shall be allowed to be withdrawn for any reason whatever, after it has been presented to the Board of Public Works.

No bid shall be accepted from, or contract awarded to any person who is in arrears to the City of Oneonta upon debt or contract, or who is in default as surety or otherwise, upon any obligation to said city.

All bids which, in the opinion of the Board of Public Works, are unbalanced will be deemed informal.

Bidders are required to state in their bids their names and places of residence, and the names of all persons interested with them in said bids. Also that the bid is made without any connection with any persons making another bid for the same contract, and that the bid is in all respects fair and without collusion of fraud.

A certified check in an amount equal to at least five (5%) per cent. of the bid, payable to the Chamberlain of the City of Oneonta, will be required to accompany each bid. All such deposits, except that of the bidder whose bid shall have been accepted, will be returned to the person or persons making the same within three days (3) after the execution of the contract. If the bidder whose bid shall have been accepted, shall refuse or neglect to execute the contract within fifteen (15) days after the notice that it has been awarded to him or them, the amount of the deposit made by him or them will be forfeited to and retained by the City of Oneonta as liquidated damages for such neglect or refusal. But if he or they shall execute the contract within the time aforesaid, the amount of his or their deposit will be returned to him or them.

No contract will be considered unless accompanied with a surety bond in an amount equal to fifty (50%) per cent. of the bid, approved as to sufficiency by the Board of Public Works, and conditioned that if the contract be accepted, the proposer will construct the work at the prices and upon the terms proposed, according to the plans and specifications, and subject to the supervision and approval of the City Engineer, and also conditioned for the faithful performance of all the provisions of the contract.

The Board of Public Works reserves the right to reject any or all bids not deemed for the interest of the City.

The Engineer's estimate of quantities, as attached to the bidding form, will be used only as a basis of computing and canvassing the various bids.

Bidders are required to form their own judgment of the quantities and character of the work by personal examination of the ground where it is to be done and of the specifications and the drawings relating to it, or by such other means as they may prefer.

Bidders must not assert any misunderstanding in regard to any thing relating to the work, or the location and ground where it is to be executed.

BOARD OF PUBLIC WORKS,
CITY OF ONEONTA
SHELDON H. CLOSE,
City Clerk.

Bids: June 2.

Reinforced Concrete Dam and Bridge

DEPARTMENT OF THE INTERIOR
UNITED STATES INDIAN SERVICE

Sealed proposals for the construction of a reinforced concrete diversion dam and bridge on the Gila River in Arizona will be received at the office of the Supervising Engineer, United States Indian Service, 528 Federal Building, Los Angeles, Calif., until noon June 2, 1919, and then opened.

The structure will be located about three miles east of Sacaton, Arizona, and 18 miles north of Casa Grande, the nearest railroad station.

The work will require about 31,700 cu.yd. of earth work, 17,740 cu.yd. of concrete, 738,500 lb. of reinforcing steel, 12,400 ft. of round piling, 28,000 ft. of wood sheet piling and eighteen steel gates with operating machinery. Cement, reinforcing steel, round piles, gates and machinery will be furnished by the Government f.o.b. nearest railroad point, hauling to be included in the contract.

All proposals must be made upon blank forms of proposal attached to the contract and specifications which, with the plans, may be obtained upon application to the Supervising Engineer. A deposit of $25 will be required for each set of plans and funded providing the plans and specifications are returned within ten days after the date on which proposals are to be received.

Detailed schedule of the work to be performed will be furnished bidders and bids should be submitted on all items, as proposals for only a part of the work will not be considered.

HERBERT V. CLOTTS,
Supervising Engineer.

U. S. ENGINEER OFFICE, NEW LONDON, CONN.—Sealed proposals for maintenance dredging in New Haven Harbor, Conn., will be received here until 2 o'clock p.m., May 20, 1919 ,and then opened. Information on application.

Bids: May 20.

Mill Creek Flood Control Project

Erie, Pa

Sealed proposals will be received by the City Council of the City of Erie, Pa., until 10:30 A.M. (Standard Eastern time), Tuesdays, May 20, 1919, for the completion of the Mill Creek Flood Control Project. Three separate contracts will be let, involving the following major items of work, covering about 8000 lin.ft. of reinforced concrete conduit and intake works.

SECTION NUMBER 3	
Earth and shale Rock excavation	95,000 yds.
Reinforced concrete	19,000
SECTION NUMBER 4	
Earth and shale rock excavation	73,000 yds.
Reinforced concrete	17,000
SECTION NUMBER 5 (Intake)	
Earth and rock excavation	25,000
Concrete, plain and reinforced	2,000

Information for bidders, plans, specifications, and contract, for all three contracts, may be obtained on or about May 1. upon the deposit of $25, by addressing Gannett, Seelye and Fleming, Consulting Engineers, 204 Locust St., Harrisburg, Pa., or their Erie Office, 507 Palace Hardware Bldg. Deposit will be returned upon the delivery of the plans and specifications in good condition.

The appropriation for this work is $1,000,000.

THEODORE EICHHORN,
Com. of Streets and Public Improvements
FAULKNER G. LYNCH, City Engineer.
GANNETT, SEELYE and FLEMING,
Consulting Engineers,
Harrisburg and Erie, Pa.

Bids: May 13.

Sewer Bonds For Sale

Frederick, Okla.

The City of Frederick, Okla., will offer for sale on Tuesday evening, May 13, 1919 (subject to approval of the property owners of said City at a special election to be called immediately thereafter), one hundred and fifty thousand ($150,000) dollars more or less of 30-year Sanitary Sewer Bonds. The Mayor and Council reserve the right to reject any or all bids.

D. W. WOMACK,
City Clerk.

PROPOSALS FOR CONCRETE SUPERSTRUCTURE.—U. S. Engineer Office, 508 Federal Building, Chicago, Ill. — Sealed proposals will be received here until 10 A.M., May 26, 1919, and then opened, for constructing concrete superstructure on breakwater at Calumet Harbor, Ill. and Ind. Further information on application.

SEALED PROPOSALS will be opened by the Lighthouse Superintendent, Philadelphia, Pa., at 2 o'clock P.M., May 26, 1919, for furnishing rip rap and for building mud banks at Baker Range Front Light Station, Delaware River, Del. Information upon application to the above office.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Old Federal Bldg., Wilmington, Del.—Sealed proposals will be received here until 11 A.M., May 27, 1919, and then opened, for dredging Maurice River, N. J. Further information on application.

Highway Work

STATE OF NEW JERSEY
STATE HIGHWAY COMMISSION
TRENTON

Notice is hereby given that sealed bids **will be received** by the State Highway Commission of New Jersey, for the improvement of the following:

State Highway Route No. 4, Section IA. Concrete Surface, estimated 1400 square yards. Monmouth County.

State Highway Route No. 3, Da Costa-Hammonton Section. Concrete Surface, estimated 46,658 square yards. Atlantic County.

Bids will be opened and read in public at the office of the State Highway Commission, Broad Street Bank Building, Trenton, N. J., on Wednesday, May 14, 1919, at 10:30 A.M.

Drawings, specifications and form of bid, contract and bond, for the proposed work are on file in the office of the said Department at Trenton, N. J., and in the office of J. A. Williams, Division Engineer, 503 Market Street, Camden, N. J., and may be inspected by, or furnished on deposit of Ten Dollars ($10) to prospective bidders. Bids must be made on the standard proposal forms in the manner designated therein, and as required by the specifications, same to be enclosed in sealed envelopes, bearing the name and address of bidder and name of the road on the outside, addressed to State Highway Commission, Broad Street Bank Bldg., Trenton, N. J., and must be accompanied by a certified check for not less than ten per cent. (10%) of the amount of the bid, and be delivered at the above place on or before the hour named. Copies of standard proposal form will be furnished on application.

Each bidder must accompany his bid with a certificate from a surety company, duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in, and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Concrete Bridge Construction

Montgomery, Ala.

Sealed bids will be received by the Board of Revenue of Montgomery County, Alabama, until noon, Monday, June 9, 1919, and at that time publicly opened for the construction of a reinforced concrete bridge, one thousand two hundred and eighty-eight feet long, with an eighteen foot roadway, over Catoma Creek on the Norman Bridge Road, five miles south of Montgomery.

A certified check for four hundred dollars will be required to accompany each bid. Plans and specifications are on file in the office of the State Highway Engineer and the County Engineer, Montgomery, Alabama. The right is reserved to reject any or all bids.

W. S. KELLER,
State Highway Engineer,
Montgomery, Alabama.

OFFICE OF THE COMMISSIONERS, D. C., Washington, D. C., May 1, 1919. Sealed proposals will be received at the office of the Secretary to the Board of Commissioners, Room 511, District Building, until 2 o'clock P.M., Wednesday, May 21, 1919, for paving various streets and avenues in the District of Columbia with sheet asphalt. Forms of proposal, specifications, together with necessary information may be obtained from the Chief Clerk of the Engineer Department, Room 427, District Building. Louis Brownlow, W. Gwynn Gardiner, Charles W. Kutz, Commissioners, D. C.

Ore Stripping

Americus, Ga.

Work consists of 500,000 to 1,500,000 yards of materials varying in thickness from 30 to 70 feet. Work should preferably be done by a large shovel or drag line so that the ore can be mined by the company as rapidly as it is uncovered by the contractor. Mines located about five miles from Central Railroad of Georgia near Americus, Ga. For further information apply to E. S. Fickes, Chief Engineer, Aluminum Company of America, 2400 Oliver Bldg., Pittsburgh, Pa.

Highway Work

Albany, N. Y.

Office of the State Commission of Highways, Albany, N. Y.—Sealed proposals will be received by the undersigned at their office, No. 55 Lancaster Street, Albany, N. Y., at one o'clock P.M., on Thursday, the 15th day of May, 1919, for the completion of the following highways:

Cattaraugus	Three highways: 6.88, 4.73 and 2.17
Chautauqua	One highway: 3.90
Delaware	One highway: 6.51
Erie	One highway: 5.19
Montgomery	Two highways: 2.49 and 1.61
Nassau	Three highways: 4.98, 3.09 and 3.38
Niagara	One highway: 7.79
Onondaga	One highway: 5.55
Orange	One highway: 9.18
Ulster	One highway: 3.17
Wayne	One highway: 3.97

Also for the construction of the following highways:

Onondaga	One highway: 3.94
Rensselaer	One highway: 3.80

And also for the repair of the following highways:

Columbia	One contract, reconstruction
Livingston	One contract, reconstruction
Montgomery	One contract, reconstruction
Niagara	One contract reconstruction
Orange	Two contracts, reconstruction and resurfacing
St. Lawrence	One contract, resurfacing
Steuben	One contract, resurfacing
Westchester	Four contracts, reconstruction

Maps, plans, specifications and estimates may be seen and proposal forms obtained at the office of the Commission in Albany, N. Y., and also at the office of the division engineers in whose divisions the roads to be completed are located. The addresses of the division engineers and the counties of which they are in charge will be furnished upon request.

The especial attention of bidders is called to "General Information for Bidders" on the itemized proposal, specifications and contract agreement.

FRED'K STUART GREENE,
Commissioner.
R. K. FULLER,
Secretary.

Road Work

Pineville, W. Va.

Sealed proposals will be received by the County Court of Wyoming County, until 1 o'clock P.M. on May 14, 1919, for the construction and completion of one section of earth road leading from Elmore Yards, at the mouth of Barkers Creek, up said Creek to the mouth of Gooney Otter, a distance of approximately four miles, and consisting of approximately 40,000 cu.yd. of excavation, 500 cu.yd. of random rubble masonry, 400 cu.yd. of concrete, and 100 yd. of dry random rubble retaining walls.

Work consists of grading and construction of bridges and small drainage structures to be done in accordance with the specifications and plans of the State Road Commission on file in the Engineer's office in the town of Pineville, West Virginia, and the contract to be executed by the successful bidder, as well also as the proposal for said work shall be on the forms now adopted and used by the State Road Commission.

All bids must be accompanied by a certified check for five per cent. of the total amount of the bid, and the bid must be securely sealed and filed with the Clerk of the County Court of Wyoming County, West Virginia, at his office in the town of Pineville, West Virginia, on standard form of proposal furnished with specifications which said proposal and specifications shall be those that are adopted as the standard proposal and specifications used by the State Road Commission.

The Court reserves the right to reject any and all bids for said work.

Dated at Pineville, West Virginia, this the 8th day of April, 1919, by order of the Court.

(Signed) WILL P. COOK, Clerk

Sanitary Sewer

Frederick, Oklahoma

Sealed bids addressed to the "Honorable Mayor and Council" of the City of Frederick, Oklahoma, and endorsed "Sewer Bid" will be received at the office of the City Clerk until 4 P.M., May 13th, 1919, at which time they will be publicly opened and read

The work consists of furnishing labor and material for the construction and extension of a sanitary sewer system.

Approximate quantities as follows:

Trench excavation 5′ to 17′ deep, Cu.Yds.	26,775
6″ Vitrified pipe, Lin.Ft.	965
8″ " " " "	34,795
12″ " " " "	1,780
15″ " " " "	7,770
Specials	1,032
Manholes	86

Alternate bids will be received for Cement Sewer Pipe in place of vitrified pipe.

Each proposal must be accompanied by a certified check on a Frederick bank for 5% of amount bid.

Plans and specifications are on file at the office of the City Clerk, and copies of same may be obtained from the Engineer upon payment of $15.00 therefor.

The City reserves the right to reject all bids, or accept any that may seem best for the City.

D. W. WOMACK, City Clerk.

Bridge Construction

Mandan, N. D.

Sealed proposals will be receive at the Morton County Court House of Mandan, North Dakota, for the preliminary survey, soundinds, barrings, design and estimate of cost necessary for the submittal to the Secretary of the U. S. Department of Agriculture of a Federal Aid Project statement by the North Dakota State Highway Commission for the construction of a bridge across the Missouri River between Bismarck and Mandan, will be received by the County Boards of Commissioners of the County, Mr. Burleigh and Morton on joint session at the Morton County Court House at Mandan, N. D., not later than 2 P.M. of the 19th of May, 1919. Work to be begun not later than June 1, 1919. The work as above outlined is to be executed to the satisfaction of the North Dakota State Highway Commission.

Each bidder must acompany his proposal with a statement regarding his ability, experience and equipment for carrying out the above work. The right is reserved to reject any or all bids.

LEE NICHOLS, County Auditor.

OFFICIAL PROPOSALS

Bids: May 26.

Highway Work

Harrisburg, Pa.

Pennsylvania State Highway Department, Harrisburg, Pa. Bidding blanks and specifications may be obtained free and plans upon payment of $2.50 per set upon application to State Highway Department, Harrisburg. No refund for plans returned. They can also be seen at office of State Highway Department, Harrisburg, 1001 Chestnut Street, Philadelphia, and 904 Hartje Building, Pittsburgh, Pa. Lewis S. Sadler, State Highway Commissioner.

Bids: June 2.

Road Work

Elkins, W. Va.

Sealed bids will be received until one o'clock P.M., Saturday, June 2, 1919, by the County Court of Randolph County, West Virginia, for the completion of the work of constructing approximately nineteen miles of improved roads and streets in Leadsville District of said Randolph Co., to be let in Sections. Said work having been heretofore let to Contract to the F. M. Hudson Paving and Construction Co. and not completed by it. A Certified check in the sum of $500.00 must accompany each bid, which will be forfeited as liquidated damages in case bidder fails to comply if his bid is accepted. The successful bidder will be required to furnish a bond equal to the total contract price, and to be approved by the County Court. Plans and specifications for this work and a description of the sections are on file in the offices of the County Clerk and Road Engineer, Elkins, West Virginia. The County Court reserves the right to reject any and all bids.

LEE CROUCH,
President of the County
Court of Randolph County.

OFFICIAL PROPOSALS

Bids: May 20.

Concrete Pavement

Town of Nutley, N. J.

Sealed bids for constructing concrete pavement on Park Ave. from Passaic Ave. to Washington Ave. will be received by the Town Clerk, Town Hall, Nutley, N. J., at 8:15 P.M., May 20th, 1919, at which time they will be publicly opened and read by the Board of Commissioners. The principal items of the work are approximately as follows:

7800 sq.yds. of concrete pavement, 8" thick in the center and 6" thick at the sides.
1600 lin.ft. of bluestone curb reset in concrete.
3500 lin.ft. of integral concrete curb.

Pamphlets containing Information for Bidders, Forms of Proposal and Agreement, and Specifications, can be obtained from the Town Engineer or Town Clerk on pawment of $1.00 which will be refunded on the return of the pamphlet in good condition.

A certified check for $3000 must accompany each bid and a bond for the total amount of the contract will be required for the faithful performance of the contract.

EMIL DIEBITSCH,
Mayor and Commissioner of Streets
and Public Improvements.

ELIOT N. SMITH,
Town Engineer.

THADDEUS PRITT,
Clerk of the County
Court of Randolph Co.

The completion of said work on said roads will be let in five sections averaging about four miles each.

Bids will be received for Concrete, Macadam, Tarvia, Warrenite and Asphaltic concrete construction. Bids will be received at unit prices.

Full information as to material, etc., will be furnished by the undersigned.

P. B. BLOOMFIELD,
Elkins, W. Va.

Bids: May 27.

Steel and Concrete Bridge Construction

Poinsett, Ark.

Sealed proposals will be received by the Board of Commissioners of the Ozark Trail Road Improvement District, Poinsett County, Arkansas, at Marked Tree, Arkansas, until 2 o'clock P.M., May 27, 1919, for the construction of the following bridges:

4—50 ft. steel plate girder spans; width 18 ft., with alternate bids on steel truss spans of same length and width.
2—50 ft. steel truss spans; width 16 ft.
400 lin.ft. concrete viaduct; width 18 ft.
112 lin. ft. I-beam spans; width 16 ft.
Reinforced concrete culverts; 95 cu.yd.

Proposals must be submitted on the form furnished by the Board and must be accompanied by certified check payable to the Treasurer of the Ozark Trail Road Improvement District, for not less than 5 per cent. of the total amount of the bid.

All requests for information should be addressed to Morgan Engineering Company, Memphis, Tennessee. Specifications and a general map of the district will be furnished on request without charge. Detailed plans will be supplied at cost.

The right is reserved to reject any or all bids and to waive any informality in the bids received.

BOARD OF COMMISSIONERS,
OZARK TRAIL ROAD IMPROVEMENT
DISTRICT,
By W. H. DILATUSH, Secretary.
MORGAN ENGINEERING COMPANY,
Engineers.

OFFICIAL PROPOSALS

Bids: June 3.

Street Improvement

Griffin, Ga.

Proposals will be received by the City Manager and Board of City Commissioners of Griffin, Georgia, until eleven o'clock, A.M. on Tuesday, June 3rd, 1919, for grading, curbing, draining, and paving certain streets with vitrified brick, concrete, bituminous concrete, patented pavement, or other pavement.

The street paving work will include approximately the excavation of 10,300 cubic yards of earth; the setting of 34,500 lineal feet of granite curb, and the construction of 6500 lineal feet of concrete curb; the laying of storm drains and the furnishing and laying of approximately 47,500 square yards of street pavement, with all the necessary work incident thereto, as called for by the plans, profiles and specifications.

Bidders must use the printed forms accompanying the specifications. A certified check payable to the city of Griffin, for five (5) per cent. of the amount of the bid must accompany each proposal as a guarantee that the contract will be entered into if awarded. An acceptable surety bond for one hundred (100) per cent. of the contract cost will be required. A five (5) year maintenance bond for twenty-five (25) per cent. of the contract cost will be required to guarantee the street pavement against defects. Payment will be in cash, or cash and notes, for eighty-five (85) per cent. of completed and accepted work on monthly estimates.

Plans and specifications may be seen at the office of the City Manager in Griffin, Georgia, and copies of specifications may be obtained from Solomon-Norcross Company, Consulting Engineers, 1625 Candler Building, Atlanta, Georgia, and the City Engineer, Grifflin, Georgia, by depositing check for ten ($10) dollars, payable to the Consulting Engineers, to be held until their return. Blue prints may be had at the cost of printing.

The City reserves the right to reject any and all bids.

E. P. BRIDGES, City Manager,
Grifflin, Georgia

G. M. HARRINGTON,
City Engineer, Grifflin, Georgia.
SOLOMON-NORCROSS COMPANY,
Consulting Engineers, 1625 Candler Bldg.,
Atlanta, Georgia.

Bids: May 19.

Paving and Sewers

Thermopolis, Wyo.

Sealed proposals will be received by the Town Clerk until 6 o'clock P.M., May 19, 1919, for the construction of paving and storm sewers in Paving District No. 1.

The work includes about:

7,600 lin.ft. concrete curb.
26,000 sq.yd. pavement.
5,000 lin.ft. storm sewers and laterals.

Proposals will be received on the following types of pavement: Sheet asphalt, asphaltic concrete, bitulithic, reinforced concrete, brick.

A certified check for 10% of the amount of the bid must accompany each bid.

Plans, specifications and forms of contract and bond may be obtained by addressing J. B. Chessington, Town Engineer, Thermopolis, Wyo., and depositing $10, which will be refunded upon their return in good condition.

A. J. LOWRY,
Town Clerk

Sewer System Extensions

OFFICIAL NOTICE NO. 40
PUBLISHED BY AUTHORITY OF THE SEWERAGE COMMISSION OF THE CITY OF MILWAUKEE

Milwaukee, Wis.

Sealed proposals for the construction of extensions to the Intercepting Sewer System of the City of Milwaukee, Wisconsin, will be received by the Sewerage Commission of said City at its offices in the City Hall until 2 P.M., the 15th day of May, A. D. 1919, at which time and place during the session of the said Commission, the proposals will be publicly opened and read.

The work to be done embraces the building of the following work:

28 Intercepting and Regulating Structures.

Together with all connections to existing sewers, and other appurtenances.

The time allowed for the completion of this contract will be twelve (12) months from the date of the engineer's notice to begin work.

The liquidated damages for not completing the work within the time above stated, shall, for each day in excess thereof, be fifty (50) dollars.

Each proposal submitted must be accompanied by a cash deposit of, or, in lieu thereof, by a certified check drawn upon a National or State Bank or Trust Company, and to the order of the "Sewerage Commission of the City of Milwaukee" to the amount of five thousand dollars ($5000).

All cash deposits or certified checks deposited by bidders to whom the contract is not awarded will be returned upon application to the Secretary of the Sewerage Commission after the contract has been awarded, or after the rejection of all bids. The cash deposit or certified check which has been deposited by the successful bidder will be returned to him as soon as the contract is properly executed and approved by the City Attorney and Sewerage Commission.

Specifications and blank forms of proposals can be obtained, and detailed plans examined, at the office of the Sewerage Commission in the City Hall and a full set of plans will be sent to any contractor upon receipt of five dollars ($5). This sum will be returned upon surrender of the plans in good condition.

The Sewerage Commission of the City of Milwaukee reserves the right to reject any and all bids submitted.

J. H. FOWLES.
Secretary.

Countersigned

A. P. PUELICHER, Deputy Comptroller.

OFFICIAL PROPOSALS

Bids: June 5.

Bridge Construction

STATE OF CONNECTICUT
HIGHWAY DEPARTMENT
Hartford, Conn.

Contractors experienced in constructing difficult foundation work and large concrete bridges are invited to present proposals for the construction of the approaches, substructure and reinforced concrete superstructure of a bridge to be built across the Housatonic River between the towns of Milford and Stratford.

The main structure will be a reinforced concrete design consisting of five ribbed arches of 100 foot clear span and sixty (60) feet in width; two girder approach spans about fifty-two (52) feet in length; and suitable approach embankments. The entire improvement is to be covered with a permanent pavement totaling approximately 2800 feet in length.

Bids will be received by the State Highway Commissioner in his office at the State Capitol at Hartford, Connecticut, until 2 P.M. of the 5th day of June, 1919, at which time they will be publicly opened and read.

A surety company bond or a certified check for one-third (⅓) of the contractor's estimated cost of the bridge must be presented with the bid; the check or bond to be returned after the award and signing of the contract by the lowest responsible bidder.

Upon the execution of the contract, a surety company bond must be filed for the full amount of the contract.

All bids must be made on and in conformity with the form of proposal which with the contract, specifications and bond may be obtained and plans examined at the following places:

Office of the State Highway Commissioner, Hartford, oCnn.

Office of Division Engineer, Chamber of Commerce Bldg., New Haven, Conn.

Complete plans and specifications will be furnished to bidders upon payment of ten (10) dollars. This amount will be refunded upon the return of the same in good condition.

The Highway Commissioner reserves the right to reject any or all bids or to accept any bid which in his judgment is for the best interest of the State of Connecticut, and other interested parties.

CHARLES J. BENNETT,
State Highway Commissioner.
Dated at Hartford, Conn.,
May 5, 1919.

Bids: May 22.

Sewer System Extensions

OFFICIAL NOTICE NO. 41
PUBLISHED BY AUTHORITY OF THE SEWERAGE COMMISSION OF THE CITY OF MILWAUKEE
Milwaukee, Wis.

Sealed proposals for the construction of extensions to the Intercepting Sewer System of the City of Milwaukee, Wisconsin, will be received by the Sewerage Commission of said City at its offices in the City Hall until 2 P.M., the 22nd day of May, 1919, at which time and place during the session of the said Commission, the proposals will be publicly opened and read.

The work to be done embraces the hauling and laying of 2370 lin.ft. of 72 in. Pre-Molded Reinforced Concrete Pipe

One Valve Chamber complete, including 72 in. Sluice Gate.

Together with all manholes and other appurtenances.

The time allowed for the completion of this contract shall be nine (9) months from the date of the Engineer's notice to begin work.

The liquidated damages for not completing the work within the time above stated, shall, for each day in excess thereof, be fifty (50) dollars.

Each proposal submitted must be accompanied by a cash deposit of, or, in lieu thereof, by a certified check drawn upon a National or State Bank or Trust Company, and to the order of the "Sewerage Commission of the City of Milwaukee" to the amount of five thousand dollars ($5000).

All cash deposits or certified checks deposited by bidders to whom the contract is not awarded will be returned upon application to the Secretary of the Sewerage Commission after the contract has been awarded or after the rejection of all bids. The cash deposit or certified check which has been deposited by the successful bidder will be returned to him as soon as the contract is properly executed and approved by the City Attorney and Sewerage Commission.

Specifications and blank forms of proposals can be obtained and detailed plans examined, at the office of the Sewerage Commission in the City Hall, and a full set of plans will be sent to any contractor upon receipt of five dollars ($5). This sum to be returned upon surrender of the plans in good condition.

The Sewerage Commission of the City of Milwaukee reserves the right to reject any and all bids submitted.

J. H. FOWLES,
Secretary.
Countersigned:
A. P. PUELICHER, Deputy Comptroller.

Bids: June 2.

Water Filtration Plant and Centrifugal Pumping Equipment

City of Whiting, Indiana.

Sealed Proposals, endorsed "Proposal for Water Filtration Plant, Contract No. 1" and "Proposal for Centrifugal Pumping Equipment, Contract No. 2" will be received for the City of Whiting, by the Board of Public Works thereof, at the City Hall, Whiting, Ind., until 12 o'clock noon on the 2nd day of June, 1919, and will be then publicly opened and read according to law.

The work for which proposals are invited under Contract No. 1, includes the construction of a mechanical water filtration plant of the gravity type with a rated capacity of about four million gallons per 24 hours, including an aerating basin, coagulating basin, filters, filtered water reservoir, head house, piping connections with the city mains, erecting motor driven centrifugal pumps furnished under Contract No. 2 and all appurtenances, in accordance with plans and specifications on file in the City Hall at Whiting, Ind., and in the offices of the engineers, Pearse and Greeley, 39 W. Adams St., Chicago, Ill., Contract No. 2 includes the furnishing of motor driven centrifugal pumping equipment and appurtenances.

The work is located between the P., Ft. W. and C. Ry. and the B. and O. C. T. R.R., south of 119th Street in the City of Whiting, Ind.

Alternate bids are required on two sizes of coagulating basins and two sizes of filtered water basins.

Each proposal must contain the full name of every person or company interested in the same and must be accompanied by cash or a certified check, made payable to the order of the City Controller of Whiting, Ind., in the sum of two (2) per cent. of the amount of bid. This sum is a guarantee that if the proposal is accepted, a contract will be enterede into and its performance properly secured.

All proposalse must be made upon blank forms furnished by the City of Whiting, and in acordance with the "Requirements for Bidding and Instructions to Bidders" attached thereto. Proposals may be entered upon one or both contracts

The Board of Public Works of the City of Whiting reserves the right to reject any or all bids, to omit any one or all of the items 4, 5, 10 and 12, to waive or not waive any informality in the bids received and to accept any bid which it deems most favorable to the City of Whiting, Indiana.

Requirements for Bidding, Instruction to Bidders, For mof Proposal, Contract, Specifications, Form of Bond and Plans, may be obtained from the Board of Public Works of Whiting, or from Pearse and Greeley, 39 W. Adams St., Chicago, upon deposit of Ten ($10.00) Dollars, which sum so deposited will be refunded in good condition within thirty (30) days after the opening of bids.

CITY OF WHITING
By JAMES J. NEJDL,
FRANK B. LEWIS,
A. GONDON,
Board of Public Works.
WALTER E. SCHRAGE, Mayor.

POSITIONS VACANT

ASSISTANT county engineer, competent to make road and land survey, profile, estimate, inspect roads and culvert constructions. Bennett-Coker & Byrne, Poteau, Oklahoma.

ASSISTANT general manager wanted; a Detroit manufacturing industry employing about 1000 men in the automobile line needs the services of a trained executive, who can take general charge of production and act as assistant general manager. The salary will be satisfactory. All applications will be kept strictly confidential. A personal interview can be arranged on receipt of written application with information as to age, experience, etc. Address P-379, Eng. News-Record, Chicago.

DESIGNING engineer for Boston consulting engineer's office. Must be A-1 structural man; prefer technical graduate. Should have experience in design of hydro-electric power houses, textile mills, heavy mill construction, warehouses, terminals, dams and general engineering work. State references (which positively will not be investigated until after interview), salary expected, education, when available and past record. P. O. Box 3278, Boston, Mass.

DRAFTSMAN must be neat and excellent letterer, and understand highway and municipal work. Bennett-Coker & Byrne, Poteau, Oklahoma.

DRAFTSMAN wanted, competent to originate designs for old-established company in the vicinity of New York, about to begin the manufacture of rolling steel shutters. State experience, salary and when free. Permanent position to right man. P-382, Eng. News-Record.

DRAFTSMAN—Experienced on structural steel and plate work; must be competent to check drawings and list materials; state salary, experience and when available first letter. Address Box 386, Iola, Kansas.

DRAFTSMAN and designer wanted on construction machinery. Permanent position with a future. Write fully giving education, experience and references. Waterloo Cement Machinery Corporation, Waterloo, Iowa.

EXECUTIVE position open to man with good engineering training and executive experience. Salary to start, $5000, with promise of increase when ability is demonstrated. In reply, give age, education and experience. Address P. O. Box 1578, Boston, Mass.

INSTRUMENTMEN wanted for drainage and highway work in the central west; position available for a year. Salary $125 to $150 per month, expenses paid while away from headquarters. Work consists of topographical surveys and levels. Fast and accurate men wanted. P-270, Eng. News-Record, Chicago.

Salesmen Wanted
Patents for Sale
Plants for Sale
Sub-Contracts Wanted
Work Wanted
Miscellaneous for Sale, for Rent or Want Ads.

THIRTY CENTS A LINE, minimum five lines, for all undisplayed advertisements set with a paragraph for each item or tabulated.

THREE DOLLARS AND SIXTY CENTS AN INCH for advertisements for bids (Official Proposals).

Ads Set in Display Type

(Individual space, within border rules.)

Space for these advertisements is sold by the inch. Each page contains 30 inches. The rate per inch is based on the *total* number of inches to be used—that is, the number of inches the advertisement is to occupy multiplied by the number of insertions it is to receive. For instance, a 2-inch advertisement in 2 issues earns the 4-inch rate of $3 90 an inch. A 1-inch space for 4 issues, or a 4-inch space in one issue, also earn the 4-inch rate.

SCHEDULE OF RATES

1 to 3 in.,	$4.00 an in.	15 to 26 in.,	$3.70 an in.
4 to 7 in.,	3.90 an in.	27 to 49 in.,	3.60 an in.
8 to 14 in.,	3.80 an in.	50 to 99 in.,	3.50 an in.

Rates for larger space furnished on request.

For quick and satisfactory results tell the reader everything that he will want to know.

INFORMATION

ALLOW FIVE WORDS for the address, if replies are to a box number in care of any of our offices. There is no extra charge for forwarding replies.

IN REPLYING TO ADS, do not enclose original testimonials or anything that you may want returned. State your experience and qualifications in as concise and neat a manner as possible and enclose copies of your testimonials.

BE CAREFUL TO PUT ON ENVELOPE, when answering any "blind" ad, the box number in the ad, the name of the paper, and also the local address of office to which reply is sent:

36th St., at 10th Ave.,	New York
935 Real Estate Trust Bldg.,	Philadelphia
657 Leader-News Bldg.,	Cleveland
1570 Old Colony Bldg.,	Chicago
519 Newhouse Bldg.,	Salt Lake City
501 Rialto Bldg.,	San Francisco

WHEN ADVERTISING MACHINERY, use your own name and address—or a local address of some kind—so that the readers can wire direct and get quick replies. We advise also that you state in your advertisement the present location of plant that is offered for sale, or point of delivery provided you are in the market for equipment.

TO SIGN YOUR NAME and address to your advertisement begets the confidence of the reader and facilitates receiving replies. You can, however, obviate delay in receiving answers by signing your ad. only with initials (your own or others), care of your home, your office or a post-office box number in your city.

An Opportunity to Make Some Extra Money

Construction work is ready for a big boom and the Engineering News-Record wants to publish it all. To do this we must add to our list at least

23 CORRESPONDENTS

The kind of men we want are those who are in close touch with construction work in their community and can devote a little spare time during business hours to calling on engineers, contractors, etc., gathering reports. Representatives are wanted in the following centers:

Atlanta, Ga.
Carson City, Nev.
Cheyenne, Wyo.
Des Moines, Ia.
Erie, Pa.
Halifax, N. S.
Jackson, Miss.
Jersey City, N. J.
Kansas City, Mo.
Keokuk, Ia.
Lowell, Mass.
Miami, Fla.
Milwaukee, Wis.
Mobile, Ala.
Montgomery, Ala.
Newark, N. J.
New Orleans, La.
Oklahoma, Okla.
Sacramento, Cal.
Santa Fe, N. M.
Tulsa, Okla.
Winnipeg, Man.
Worcester, Mass.

Write, telling all about your present work and how much time you have available, to

OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Bids: June 3.

Barge Canal Terminals

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS

Albany, May 1st, 1919.

Sealed proposals will be received at the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon on Tuesday, June 3rd, 1919, at which place and hour they will be publicly opened and read, for the construction of Barge canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

—1—

TERMINAL CONTRACT NO. 52-P

For paving Pier 6, East river, borough of Manhattan, New York City.

Contract plans, sheets 1 and 2.

—2—

TERMINAL CONTRACT NO. 113

For furnishing, testing and delivering electric capstans and trolley hoists at various Barge canal terminals.

—3—

TERMINAL CONTRACT NO. 117

For furnishing, testing and delivering battery-charging motor-generator sets, with switchboard panels for Barge canal terminals in New York City.

Plans may be seen and detached specifications, engineer's estimate of quantities, proposal blanks, forms of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

OFFICIAL PROPOSALS

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the stae for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner, if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON,
Superintendent of Public Works.

U. S. ENGINEER OFFICE, Florence, Alabama. Sealed proposals will be received here until eleven o'clock A.M., May 21, 1919, and then opened, for furnishing Derricks. Further information on application.

and opened and read in public at Council Chamber (Liberty Fire Engine House), Salem, N. J., on Monday, May 26, 1919, at 8 P.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by Keasby & Sparks, Engineers, and approved by the State Highway Commission, have been filed in the office of the said engineers at Salem, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to Mayor and Common Council of the City of Salem, N. J., and must be accompanied by a certified check for not less than $1000.00 and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of Mayor and Common Council of the City of Salem, N. J.

(Signed) WM. B. DUNN,
Recorder.

U. S. ENGINEER OFFICE, New London, Conn.—Sealed proposals for dredging in Greenwich Harbor, Conn., will be received here until 2 o'clock p. m., May 28, 1919, and then opened. Information on application.

OFFICIAL PROPOSALS

Bids: June 3.

Street Improvement

Griffin, Ga.

Proposals will be received by the City Manager and Board of City Commissioners of Griffin, Georgia, until eleven o'clock, A.M. on Tuesday, June 3rd, 1919, for grading, curbing, draining, and paving certain streets with vitrified brick, concrete, bituminous concrete, patented pavement, or other pavement.

The street paving work will include approximately the excavation of 10,300 cubic yards of earth; the setting of 34,500 lineal feet of granite curb, and the construction of 6500 lineal feet of concrete curb; the laying of storm drains and the furnishing and laying of approximately 47,500 square yards of street pavement, with all the necessary work incident thereto, as called for by the plans, profiles and specifications.

Bidders must use the printed forms accompanying the specifications. A certified check payable to the city of Griffin, for five (5) per cent. of the amount of the bid must accompany each proposal as a guarantee that the contract will be entered into if awarded. An acceptable surety bond for one hundred (100) per cent. of the contract cost will be required. A five (5) year maintenance bond for twenty-five (25) per cent. of the contract cost will be required to guarantee the street pavement against defects. Payment will be in cash, or cash and notes, for eighty-five (85) per cent. of completed and accepted work on monthly estimates.

Plans and specifications may be seen at the office of the City Manager in Griffin, Georgia, and copies of specifications may be obtained from Solomon-Norcross Company, Consulting Engineers, 1625 Candler Building, Atlanta, Georgia, and the City Engineer, Griffiin, Georgia, by depositing check for ten ($10) dollars, payable to the Consulting Engineers, to be held until their return. Blue prints may be had at the cost of printing.

The City reserves the right to reject any and all bids.

E. P. BRIDGES, City Manager,
Griffiin, Georgia.

G. M. HARRINGTON,
City Engineer, Griffiin, Georgia.
SOLOMON-NORCROSS COMPANY,
Consulting Engineers, 1625 Candler Bldg.,
Atlanta, Georgia.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Old Federal Bldg., Wilmington, Del.—Sealed proposals will be received here until 11 A.M., May 27, 1919, and then opened, for dredging Maurice River, N. J. Further information on application.

Street Improvement

Las Vegas, New Mexico.

Separate sealed proposals for the paving and improving of the following streets within the City of Las Vegas, New Mexico, will be received at the office of the City Clerk until 8:00 o'clock P.M., May 29th: National Street from Sixth Street to Twelfth Street; Sixth Street from Main Street to Friedman Avenue; Seventh and Eighth Streets from Douglas Avenue to Friedman Avenue. All proposals must be upon blanks furnished by the City and must be accompanied by a certified check on some solvent bank in the sum of $1000.00 and made payable to the City Treasurer. Approximate quantities as follows: Concrete, Topeka or Bitulithic pavement, 52,777 Sq.Yds.; Concrete curb and gutter, 22,713 lin.ft.; concrete alley return, 528 lin.ft., which is approximately one-half of a two-year program which has been authorized. Alternate bids will be received based upon the acceptance, at par, for all work of certificates bearing 6% interest and of certificates bearing 8% interest. Payments will be made in assessment certificates upon the completion of each separate street improvement. Plans can be seen and forms of proposal obtained at the office of Vincent K. Jones, Consulting Engineer, East Las Vegas, N. M. No informal or conditional bid will be considered. The right is reserved to reject any or all bids.

City Council of the City of Las Vegas, N. M.
By F. O. BLOOD, Mayor.
ATTEST:
W. G. BENJAMIN, Clerk.

Bids: May 20.

Boiler Breeching

Ogdensburg, N. Y.

Sealed proposals for Boiler Breeching, St. Lawrence State Hospital, Ogdensburg, N. Y., will be received by the State Hospital Commission at the Capitol, Albany, N. Y., until 3 o'clock P.M., on Tuedsay, May 20, 1919, when they will be publicly opened and read. Proposals shall be inclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent. (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specification No. 3015, including Addenda No., dated April 22, 1919. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the St. Lawrence State Hospital, Ogdensburg, N. Y., at the New York Office of the Department of Architecture, Room 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

E. S. ELWOOD,
Secretary, State Hospital Commission.
Dated: May 1, 1919.

OFFICIAL PROPOSALS

Bids: May 28.

Syphon Duplication

Jersey City, N. J.

Sealed proposals for furnishing and laying of 72-in. steel water pipe between Boonton Reservoir and Jersey City, as follows: Section No. 1, to duplicate the existing syphons between Boonton Reservoir and Passaic River at Lyndhurst; and Section No. 2, to duplicate the existing syphons between the Passaic Rivert at Lyndhurst and Summit Avenue Reservoir at Jersey City, will be received by the Board of Commissioners of Jersey City, N. J., in the Assembly Chamber of the City Hall, Jersey City, N.J.,

WEDNESDAY, MAY 28, 1919,

at 2 P.M., at which place and time they will be publicly opened.

Proposals must be accompanied by the consent in writing of a surety company authorized to do business according to the laws of the State of New Jersey, that, should the proposal be accepted it will become surety in the full amount of the contract, as provided in specifications and in Chapter 75, P. L. 1918, of the State of New Jersey.

Copies of the plans, proposal form, specifications and forms of bond and contracts, can be seen at the office of Frank A. Dolan, City Clerk, City Hall, Jersey City, N. J., or may be seen and obtained at the office of Michael I. Fagen, Director, Department of Streets and Public Improvements, City Hall, Jersey City, N. J., or at the office of Mr. Clyde Potts, Consulting Engineer, 30 Church Street, New York City, by prospective bidders, upon depositing twenty-five ($25) dollars, which sum will be refunded on return of the plans and specifications within ten days after the contract has been awarded, if same are in good condition when returned.

The Board of Commissioners of Jersey City reserves the right to reject any and all proposals.

By Order of the Board of Commissioners of Jersey City.

FRANK A. DOLAN,
City Clerk.

Bids: June 4.

Certified check required, $1000. Arrangements may be made with local banks for cash on each Section as completed. Plans, specifications and forms on file with the Town Clerk or the Town Engineer.

H. V. REED,
Town Clerk.

J. G. THORNE, Town Engineer,
317 Howes Block,
Clinton, Iowa

OFFICIAL PROPOSALS

Bids: June 2, 1919.

Public Water Supply

MUNICIPAL BOARD

Newark, N. Y.

Notice is hereby given that sealed proposals for the construction of water supply improvements for Newark, N. Y., will be received at the office of the Municipal Board of Newark, N. Y., until 10 o'clock A.M., June 2, 1919, and then publicly opened.

Description of work to be done:

To construct an earthen dam and dikes across Case Creek and the adjoining valley at a point about two and one half (2½) miles southeast of Clifton Springs, N. Y. The earthen dam and dikes will contain approximately three thousand (3000) yards of concrete and thirty thousand (30,000) yards of earth embankment, to construct and furnish all the material for a million gallon mechanical filtration plant, to be built of reinforced concrete and brick, to haul and lay about thirty-eight thousand (38,000) feet of fourteen (14) inch cast iron pipe, to furnish about one thousand seven hundred (1700) tons of fourteen (14) inch cast iron pipe. Separate bids will be received on each division of the work.

Detailed plans and specifications of the work may be seen for examination at the office of James P. Wells, Consulting Engineer, Cutler Building, Rochester, N. Y., or at the office of Mr. Staniland Scarth, Municipal Board, Newark, N. Y. Plans and specifications may be obtained for the sum of $10, which will be returned upon the return of the plans and specifications in good condition.

A certified check for five per cent. (5%) of the amount of the bid made, payable to the order of the Municipal Board, must accompany each proposal. The right is reserved by the party of the second part to reject any and all proposals.

Proposals shall be submitted in sealed envelopes furnished for that purpose with the specifications. Only sealed bids will be considered.

All bids received will be retained by the Municipal Board and will not be returned to the contractors.

GEO. A. BURNHAM,
Chairman Municipal Board.

Attest:
FRANK J. BALTZEL,
Clerk Municipal Board.

Bids: May 22.

Dredging and Laying Steel Intake Pipe and Concrete Crib in St. Clair River near Sarnia

Ontario, Can.

Bids: May 20.

Construction of Pavement

VILLAGE OF GROSSE POINTE FARMS,

Wayne County, Mich.

Sealed proposals will be received by the Village Engineer of Grosse Pointe Farms, Wayne County, Michigan, up to 8 P.M., Tuesday, May 20, 1919, for the furnishing of all materials and the construction of pavement on Grosse Pointe Boulevard from Fisher Road to Provencal Boulevard, including grading and such catch basins, inlets and storm sewers as shown on plans, and consisting of approximately 17,600 sq.yd. of pavement, 11,000 lin.ft. of concrete curbing, 10,000 cu.yd. of excavation, 23 inlets, 4 catch basins, 1000 ft. of 24 in., 2000 ft. of 18 in., 2000 ft. of 15 in. and 3000 ft. of 12 in. vitrified pipe, and 2000 ft. of 10 in. catch basin connections. Proposals will be received on:

One course plain 9 in. concrete.

Creosote block on 8 in. concrete foundation.

Asphaltic concrete on 8 in. foundation.

This work to be done on Grosse Pointe Boulevard from Fisher Road to Provencal Boulevard.

The detailed plans and specifications under which the work is to be done may be examined at the office of the Village Engineer, Village Hall, Kerby Road, or may be obtained by making a deposit of three dollars, which will be refunded upon return of plans and specifications in good condition.

A cash deposit or certified check for an amount equal to 5% of the amount bid must accompany each proposal. Bids will be received for the whole or any part of the work.

The Village reserves the right to reject any and all bids, to waive defects and to accept any bid in whole or in part.

ROBERT H. ERLEY,
Village Engineer.

Bids: May 20.

Concrete Pavement

Town of Nutley, N. J.

Sealed bids for constructing concrete pavement on Park Ave. from Passaic Ave. to Washington Ave. will be received by the Town Clerk, Town Hall, Nutley, N. J., at 8:15 P.M., May 20th, 1919, at which time they will be publicly opened and read by the Board of Commissioners. The principal items of the work are approximately as follows:

7800 sq.yds. of concrete pavement, 8" thick in the center and 6" thick at the sides.
1600 lin.ft. of bluestone curb reset in concrete.
3500 lin.ft. of integral concrete curb.

Pamphlets containing Information for Bidders, Forms of Proposal and Agreement, and Specifications, can be obtained from the Town Engineer or Town Clerk on pawment of $1.00 which will be refunded on the return of the pamphlet in good condition.

A certified check for $3000 must accompany each bid and a bond for the total amount of the contract will be required for the faithful performance of the contract.

EMIL DIEBITSCH,
Mayor and Commissioner of Streets
and Public Improvements.

ELIOT N. SMITH,
Town Engineer.

OFFICIAL PROPOSALS

Bids: May 21.

Road Machinery

Harrisburg, Pa.

Pennsylvania State Highway Department, Harrisburg, Pa. Sealed proposals will be received at said office until 10 a.m., May 21, 1919, when bids will be publicly opened and scheduled, and contracts awarded as soon thereafter as possible for Road Machinery to be used for Maintenance Work of the Department. Bidding blanks and specifications may be obtained free upon application to the State Highway Department, Harrisburg, Pa.

LEWIS S. SADLER.

Ore Stripping

Americus, Ga.

Work consists of 500,000 to 1,500,000 yards of materials varying in thickness from 30 to 70 feet. Work should preferably be done by a large shovel or drag line so that the ore can be mined by the company as rapidly as it is uncovered by the contractor. Mines located about five miles from Central Railroad of Georgia near Americus, Ga. For further information apply to E. S. Fickes, Chief Engineer, Aluminum Company of America, 2400 Oliver Bldg., Pittsburgh, Pa.

Bids: June 9.

Pipe Sewers

Stratford, Conn.

Pursuant to a resolution adopted the 7th day of May, 1919, the Board of Sewer Commissioners of the Town of Stratford, Conn., will receive at its meeting, to be held on the 9th day of June at 8 P.M. sealed proposals for furnishing materials and doing all other work required to complete the construction of about four (4) miles of pipe sewers from eight (8) to twenty-four (24) inches in diameter with manholes and flushing manholes complete. And also for furnishing all materials and doing all other work required to construct the sewage disposal works, chlorine treatment house and tidal basin and sludge bed, including the necessary piping and grading, etc.

Plans may be seen and specifications and forms of proposal obtained at the office of the Board of Sewer Commissioners, Town of Stratford, Conn., or at the office of Clyde Potts, 30 Church Street, New York City.

Plans may be taken away upon the payment of ten dollars ($10) for each set, the same to be refunded if the plans are returned within twenty days, in good condition.

Bids on the sewage system umst be accompanied by a certified check on a solvent bank for $5000, and bids on the sewage disposal works must be accompanied by a certified check on a solvent bank for $10,000.

The Board of Sewer Commissioners reserve the right to reject any and all proposals, and to waive any informality in the proposals received, and to accept any proposal which they deem to be most favorable to the interests of the Town.

F. S. BEARDSLEY,
Chairman.

PAUL P. GOODELL,
Secretary.

Bids: May 20.

Bids: May 29.

Sewage Treatment Works

Charleston, W. Va.

Sealed proposals will be received by the State Board of Control until 1 P.M., May 29 (changed from May 22 to May 29), for the construction of Sewage Treatment Works for the Weston State Hospital, Weston, W. Va. The work contemplated comprises the construction of a sewage pumping station equipped with two electric motors, 2 centrifugal pumps and automatic control equipment. Also the construction of a sewage sedimentation tank, sprinkling filter, sludge bed and chlorinating plant. Copies of plans and specifications and blank proposals may be examined or obtained at the office of J. S. Lakin, Member, State Board of Control, Charleston, W. Va., or at the office of Charles E. Collins, Consulting Engineer, Drexel Building, Philadelphia.

A deposit of Ten Dollars ($10.00) will be required for each set of plans and specifications, which deposit will be refnuded upon the return of the plans and specifications in good condition. Each proposal must be enclosed in a sealed envelope endorsed on the back "Proposal for Constructing Sewage Treatment Works," and addressed to J. S. Lakin, Member, State Board of Control, and delivered at his office not later than 1 P.M., Thursday, May 29, at which time and place bids will be publicly opened and read. The Board reserves the right to reject any or all bids.

J. S. LAKIN, Member,
State Board of Control.

Bids: June 2

Fireproofing

Trenton, N. J.

Sealed proposals for fireproofing dumbwaiter shafts and stairways, New Jersey State Hospital, Trenton, New Jersey, will be received at the Department of Architecture, 142 West State Street, Trenton, New Jersey, at twelve o'clock on Monday, the second day of June, 1919, at which time they will be publicly opened and read.

Proposals must be sealed and addressed to the State Architect, and marked as above. Each proposal must be acompanied by a certified check drawn to the bidder's order and properly endorsed for an amount equal to at least five per cent. (5%) of the amount of the bid.

The right to reject any or all bids is reserved.

The successful bidder, after contract is awarded, will be required to furnish a satisfactory surety bond in the full amount of the contract price to guarantee the fulfillment of the conditions of his contract.

Plans and specifications may be obtained upon application to the Department of Architecture on deposit of $25.00, this amount to be returned to bidder upon return of plans and specifications in good order.

FRANCIS H. BENT,
State Architect.

Bids: May 27.

Plans and specifications are on file and may be secured from O. P. Thomas, Engineer for East Carroll Township, Leader Building, Johnstown, Penn. A deposit of $10 will be required which will be refunded when specifications are returned in good condition. oCntractors desiring plans will be furnished same for the cost of blue-printing.

Each proposal must be accompanied by a certified check on a basis of $500 per mile of work, which will be returned to the unsuccessful bidders on the day of the letting and to the successful bidder after the contract is properly executed and the required idemnity bond furnished and approved by the Board of Supervisors and County Commissioners, amount of which must be equal to the gross amount of the contract.

The Supervisors reserve the right to reject any or all bids, to waive defects or accept any bid they may deem for the best interest of the township.

At the same time separate bids will be received for approximately 2,775,000 No. 1 repressed vitrified paving blocks, f.o.b. cars nearest point of delivery to work.

By order of Charles Yeckley, T. B. Airhart, Herman Illig, Supervisors of East Carroll Township, Cambria County, Penn.

O. P. THOMAS,
Engineer.

OFFICIAL PROPOSALS

Bids: May 26.

Concrete Road Work

LAKE CO., ILLS.

Waukegan, Ill., May 12, 1919.

Sealed proposals will be received by the undersigned for the improvement of Belvidere Road from Milwaukee Ave. to Volo, in Lake County, by grading, draining and paving with concrete, until 10:30 o'clock A.M., Friday, May 23rd, 1919, and publicly opened. Separate proposals will be received for the cement work until 10:30 o'clock A.M., Monday, May 26th, 1919.

The work is divided into three sections, as follows:

Sec. G—15 D, 53,760 Sq.Yds. 18′ Portland Cement Pavement.
Sec. H—15 D, 27,300 Sq.Yds. 16′ Portland Cement Pavement.

Sec. I—15 D, 38,133 Sq.Yds. 16′ Portland Cement Pavement.

Bidders may submit multiple bids for two or three sections.

INFORMATION: Work will be done under the 1919 Specifications of the State Highway Department, together with Supplementary Specifications and plans prepared by the County Superintendent of Highways.

A certified check for at least five (5) per cent. of amount of the bid, payable to the County Treasurer of Lake Co., Ill., shall accompany each bid.

Plans and specifications may be examined at the following offices:

State Highway Dept., Springfield, Ill.

State District Engineer's Office, Aurora, Ill.

County Superintendent of Highways' office, Waukegan, Ill.

Plans and specifications will be sent by the Co. Supt. or taken from his office upon request and deposit of $20.00, of which $13.00 will be refunded upon their return. When taken from office a charge of $3.00 a day will be made.

Proposal forms, notice to contractors and copies of Superintendent's estimate may be obtained from the County Superintendent's office.

The Road and Bridge Committee reserves the right to reject any or all proposals and to waive technicalities subject to approval of the State Highway Dept.

By order of the Lake Co.

ROAD AND BRIDGE COMMITTEE

CHAS. E. RUSSELL,
County Superintendent of Highways

Are You a Good Business Man?

"Business Law for Engineers" says:

—another bid

". . . an additional bid lower than would otherwise be secured will fully justify the cost of much advertising."

—engineering journal advertisements

". . . the advertisements may be published in prominent engineering journals . . ."

—Engineering News-Record specialty

"The Engineering News and the Engineering Record (now combined in the Engineering News-Record) have long made a specialty of such advertisements, which come from all parts of the United States."

We say:

The paper that stands head and shoulders above all others for the advertising of contracts to be let (official Proposals) is

Engineering News-Record
The most widely circulated weekly technical paper *in the world.*

Your reputation as an engineer and a business man will be helped materially through recommending the advertising of *all* contracts.

When you specify Engineering News-Record as the medium for this advertising you are sure of the greatest publicity—the most satisfactory results—and the maximum prestige for yourself.

0048

Put Public Buying on an Efficiency Basis

Now, more than ever before, it is important that those having contracts to let, whether for new work or the furnishing of machinery or supplies, should consider the best methods of securing extensive competition and low bids.

Thousands of reliable contractors and manufacturers constantly seek opportunities to bid on contracts for public work or supplies. They compete for it. That keeps public expenditures down. It makes the taxpayers' money go farther. It puts public buying on an efficient basis. It makes local bidders figure more closely.

These contractors and manufacturers naturally seek news of contracts where it is most plentiful. They read

ENGINEERING NEWS-RECORD
A Consolidation of Engineering News, Engineering Record and the Contractor

the best known and most widely read papers used for the advertising of contracts to be let. Practically every worth-while contractor and manufacturer who wants to figure on public contracts reads Engineering News-Record. No guessing. No uncertainty. Engineering News-Record, with its circulation of 33,000 copies weekly, reaches practically *all* the men who would be interested in advertised contracts.

Proposal Advertising Rate, $3.60 an inch an issue. (About 10 cents per thousand circulation.)

As a government, state or municipal engineer, or public official you should use this means of giving your taxpayers the biggest value for their money. Advertise your contracts in the News-Record—the one nationally recognized medium for this class of advertising.

Look at the Proposals in this issue and see how other communities use it.

The right is reserved to reject any or all bids.

E. C. KASTEN, Controller.

HERE IS WHY

Swart has a distinctly better service to offer in securing your contract bonds. The better part is the engineering experience. Your case is presented clearly to the underwriters.

TRY ME OUT
No Extra Charge
HARMON V. SWART
19 Liberty Street, New York

S. S. JOHNSON & BRO.
312 Chestnut St., Harrisburg, Pa.

We are water works engineers. "We know how" to lay water pipe. Estimates furnished on short notice.

Why?

WHY do Government regulations specify that contracts for construction, equipment and supplies over a certain minimum amount **must** be advertised?

WHY do the laws of most States and Municipalities specify the same thing?

WHY do so many private corporations advertise **their** big contracts?

WHY do Consulting Engineers, Architects, and others recommend and endorse the advertising of Contracts To Be Let?

And—

WHY are 90% of the advertisements on which **real national competition** is desired published in ENGINEERING NEWS-RECORD?

In the answers to the foregoing questions you will find unquestionable proof that

1—**Advertised Contracts** are the accepted form of public letting to insure the awarding of contracts free of prejudice.

2—**Advertised Contracts** guarantee the greatest possible saving through maximum competition and that—

3—ENGINEERING NEWS-RECORD is universally recognized as the **one** dominant medium of **national** circulation for advertising Contracts To Be Let.

Are your contracts advertised?
Are they advertised in Engineering News-Record?
If not—WHY?

Public Water Supply

MUNICIPAL BOARD

Newark, N. Y.

Notice is hereby given that sealed proposals for the construction of water supply improvements for Newark, N. Y., will be received at the office of the Municipal Board of Newark, N. Y., until 10 o'clock A.M., June 2, 1919, and then publicly opened.

Description of work to be done:

To construct an earthen dam and dikes across Case Creek and the adjoining valley at a point about two and one half (2½) miles southeast of Clifton Springs, N. Y. The earthen dam and dikes will contain approximately three thousand (3000) yards of concrete and thirty thousand (30,000) yards of earth embankment, to construct and furnish all the material for a million gallon mechanical filtration plant, to be built of reinforced concrete and brick, to haul and lay about thirty-eight thousand (38,000) feet of fourteen (14) inch cast iron pipe, to furnish about one thousand seven hundred (1700) tons of fourteen (14) inch cast iron pipe. Separate bids will be received on each division of the work.

Detailed plans and specifications of the work may be seen for examination at the office of James P. Wells, Consulting Engineer, Cutler Building, Rochester, N. Y., or at the office of Mr. Staniland Scarth, Municipal Board, Newark, N. Y. Plans and specifications may be obtained for the sum of $10, which will be returned upon the return of the plans and specifications in good condition.

A certified check for five per cent. (5%) of the amount of the bid made, payable to the order of the Municipal Board, must accompany each proposal. The right is reserved by the party of the second part to reject any and all proposals.

Proposals shall be submitted in sealed envelopes furnished for that purpose with the specifications. Only sealed bids will be considered.

All bids received will be retained by the Municipal Board and will not be returned to the contractors.

GEO. A. BURNHAM,
Chairman Municipal Board.

Attest:
FRANK J. BALTZEL,
Clerk Municipal Board.

Bids: June 4.

Pavement Construction

Village of Bradford, Ohio.

Sealed proposals will be received by W. Lee Hook, Village Clerk, for the construction approximately of:

10,500 cu.yd. grading.
21,600 sq.yd. pavement (all permanent (types).
13,500 lin.ft. stone or concrete curb.
9,800 lin.ft. sewers (6 in. to 24 in.).

OFFICIAL PROPOSALS

Bids: June 3.

Street Improvement

Griffin, Ga.

Proposals will be received by the City Manager and Board of City Commissioners of Griffin, Georgia, until eleven o'clock, A.M. on Tuesday, June 3rd, 1919, for grading, curbing, draining, and paving certain streets with vitrified brick, concrete, bituminous concrete, patented pavement, or other pavement.

The street paving work will include approximately the excavation of 10,300 cubic yards of earth; the setting of 34,500 lineal feet of granite curb, and the construction of 6500 lineal feet of concrete curb; the laying of storm drains and the furnishing and laying of approximately 47,500 square yards of street pavement, with all the necessary work incident thereto, as called for by the plans, profiles and specifications.

Bidders must use the printed forms accompanying the specifications. A certified check payable to the city of Griffin, for five (5) per cent. of the amount of the bid must accompany each proposal as a guarantee that the contract will be entered into if awarded. An acceptable surety bond for one hundred (100) per cent. of the contract cost will be required. A five (5) year maintenance bond for twenty-five (25) per cent. of the contract cost will be required to guarantee the street pavement against defects. Payment will be in cash, or cash and notes, for eighty-five (85) per cent. of completed and accepted work on monthly estimates.

Plans and specifications may be seen at the office of the City Manager in Griffin, Georgia, and copies of specifications may be obtained from Solomon-Norcross Company, Consulting Engineers, 1625 Candler Building, Atlanta, Georgia, and the City Engineer, Griffiin, Georgia, by depositing check for ten ($10) dollars, payable to the Consulting Engineers, to be held until their return. Blue prints may be had at the cost of printing.

The City reserves the right to reject any and all bids.

E. P. BRIDGES, City Manager,
Griffiin, Georgia.

G. M. HARRINGTON,
City Engineer, Griffiin, Georgia.
SOLOMON-NORCROSS COMPANY,
Consulting Engineers, 1625 Candler Bldg.,
Atlanta, Georgia.

Bids: May 26.

Street Reconstruction

Salem, N. J.

Notice is hereby given that sealed bids will be received by the Mayor and Common Council of the City of Salem for the reconstruction of Streets in the City of Salem in the County of Salem, N. J., as follows:

Macadam Foundation	4,366 Sq.Yds.
Repaired Macadam Foundation	33,924 " "
Bituminous Macadam, Penetration Surface	38,290 " "
Repaired Bituminous Concrete	14,177 " "

and opened and read in public at Council Chamber (Liberty Fire Engine House), Salem, N. J., on Monday, May 26, 1919, at 8 P.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work, prepared by Keasby & Sparks, Engineers, and approved by the State Highway Commission, have been filed in the office of the said engineers at Salem, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of bidder and name of road on the outside, addressed to Mayor and Common Council of the City of Salem, N. J., and must be accompanied by a certified check for not less than $1000.00 and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to engineer.

By order of Mayor and Common Council of the City of Salem, N. J.

(Signed) WM. B. DUNN,
Recorder.

Bids: June 4.

Bids: June 3.

Paving

Emmetsburg, Iowa.

The City of Emmetsburg, Iowa, will receive bids at 1:30 P.M., June 3rd, 1919, for approximately 73,000 square yards of brick, sheet asphalt, asphaltic concrete, or bitulithic pavement, or 82,000 square yards of concrete pavement, together with necessary curb, gutter and grading, etc., and for approximately 26,000 lineal feet of 10-inch to 30-inch storm water sewers, material to be vitrified tile pipe or concrete.

All to be paid for from funds realized from the sale of special assessment bonds.

Certified checks for $25,000.00 required on the paving contract, and $4000.00 on the sewer contract.

The city is desirous of securing responsible bidders not only from the State of Iowa, but from outside of the State of Iowa.

The city reserves the right to reject any and all bids.

General plan, specifications and bidding sheet may be secured from the engineers, Marr, Green & Co., 17 N. LaSalle St., Chicago, Ill., upon application, without charge. A charge of $2.00 for a set of detailed plans of the sewers, and $1.00 for a set of detailed plans of the paving will be made, which sum will not be returned.

MARR, GREEN & CO., Eggineers,
17 N. LaSalle St., Chicago.
T. F. RUTLEDGE, City Clerk.

Bids: June 4.

Paving

Burlington, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of Burlington county, N. J., for the improvement of Section No. 2 of the Moorestown-Camden pike in the township of Chester, in the county of Burlington, with a sheet asphalt surface upon a concrete foundation, estimated amount of surface pavement required is 5717 square yards, of foundation 5717 square yards, and opened and read in public at the court house on Wednesday, June 4, 1919, at 12 noon.

Drawings and specifications and forms of bid, contract and bond for the proposed work, prepared by James Logan, County Engineer, and approved by the State Highway Commission, have been filed in the office of the said engineer at No. 11 Main Street, Mount Holly, N. J., and of said State Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications and blue prints of the drawings by the engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required in the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of road on the outside, addressed to Harry Hawkins, Jr., Clerk of the Board of Chosen Freeholders, and must be accompanied by a certificate from a surety company to furnish bond and a certified check for not less than $1000, and be delivered at the place and on the hour above named. The standard proposal form is attached to the specifications, copies of which will be furnished on application to the engineer.

By order of the Board of Chosen Freeholders.

HARRY HAWKINS, JR., Clerk.

Bids: June 6, 1919.

5500 lin.ft. Stone or concrete curb
1500 lin.ft. Sewers (8" and 10")

in said Village until 12 o'clock noon on the 6th day of June, 1919, and publicly opened and read at the Council Chamber of the Village of Centerburg, Ohio.

Plans and specifications may be seen at the Office of the Village Clerk, at the Office of the Engineers or may be obtained from the Engineers upon payment of $2.00, no refund.

Certified check $500.00 payable to Village Clerk.

The Council reserves the right to reject any or all bids.

N. C. SMITH,
Village Clerk.

THE L. A. BOULAY, Engineers,
1250 Nicholas Building,
Toledo, Ohio.

Bids: June 4.

Sanitary Work

Poughkeepsie, N. Y.

Sealed proposals for Sanitary Work—Additions and Alterations to Water Supply System (Additional Filter; Changing Water Main; and Construction of Reservoir), Hudson River State Hospital, Poughkeepsie, N. Y., will be received by the State Hospital Commission at the Capitol, Albany, N. Y., until 3 o'clock P.M. on Wednesday, June 4, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractor to whom the award is made will be required to furnish surety company bond in the sum of fifty per cent. (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3243, 3244 and 3245. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Hudson River State Hospital, Poughkeepsie, N. Y., at the New York Office of the Department of Architecture, Room 1715 Tribune Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

E. S. ELWOOD,
Secretary, State Hospital Commission.

Dated: May 12, 1919.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., June 19, 1919, for constructing about 200,000 cubic yards of earthwork by the hydraulic method in the Muscatine-Louisa Island Levee District, Iowa. Further information on application.

Bids: June 17.

Highway Work

PENNSYLVANIA STATE HIGHWAY DEPARTMENT,

Harrisburg, Pa.

Sealed proposals will be received at the State Capitol until 10 A.M., June 17, 1919, when bids will be publicly opened and scheduled and contracts awarded as soon thereafter as possible for the reconstruction of the following pavements: 890 lin.ft. of Reinforced Concrete, also 23,075 ft. of Resurfacing with Bituminous Surface Course, in Blair County; 6640 ft. of Plain Concrete in Bradford County; 32,185 ft. of Reinforced Concrete and Hillside Vitrified Brick in Cambria County; 27,940 ft. of either Bituminous Surface Course on a Concrete Foundation or Reinforced Concrete in Centre County; 2932 ft. of either Bituminous Surface Course on a Concrete Foundation or Reinforced Concrete in Chester County; 9067 ft. of Reinforced Concrete in Crawford County; 24,275 ft. of Reinforced Concrete and Hillside Vitrified brick in Cumberland County; 4854 ft. of Bituminous Surface Course on a Concrete Foundation and Vitrified Brick, also 20,200 ft. of Reinforced Concrete, also 9154 ft. of Reinforced Concrete and Hillside Vitrified Brick, and 27,409 ft. of either Bituminous Surface Course on a Concrete Foundation and Hillside Vitrified Brick, or Reinforced Concrete and Hillside Vitrified Brick in Erie County; 37,684 ft. of either Bituminous Surface Course on a Concrete Foundation or Reinforced Concrete in Lancaster County; 39,319 ft. of Reinforced Concrete in Lycoming County; 3678 ft. of either bituminous Surface Course on a Concrete Foundation or Reinforced Concrete in Mercer County; 26,400 ft. of either Bituminous Surface Course on a Concrete Foundation or Reinforced Concrete in Potter County; 6544 ft. of Reinforced Concrete in Warren County and 40,712 ft. of either Bituminous Surface Course on a Concrete Foundation and Hillside Vitrified Brick or Reinforced Concrete and Hillside Vitrified Brick in York County. Bidding Blanks and Specifications may be obtained free, and plans upon payment of $2.50 per set, upon application to State Highway Department, Harrisburg, Pa. No refund for plans returned. They can also be seen at office of State Highway Department, Harrisburg, 1001 Chestnut St., Philadelphia, and 904 Hartje Building, Pittsburgh, Pa.

LEWIS S. SADLER,
State Highway Commissioner.

Bids: June 10.

Pumping Plant

MUSCATINE LOUISA DRAINAGE DISTRICT NO. 13

Wapello, Ia.

Sealed bids will be received until one o'clock P.M., June 10, 1919, by the Muscatine-Louisa Drainage District No. 13, at the office of the County Auditor of Louisa County, Wapello, Iowa, for a steam driven pumping plant containing one 36 in. and one 24 in. double suction centrifugal pump. Bids will also be received for a building to house this plant.

For further information address the Engineers, Elliott & Harman Engineering Co., Peoria, Illinois.

Bids: June 5.

Bridge Construction

STATE OF CONNECTICUT
HIGHWAY DEPARTMENT

Hartford, Conn.

Contractors experienced in constructing difficult foundation work and large concrete bridges are invited to present proposals for the construction of the approaches, substructure and reinforced concrete superstructure of a bridge to be built across the Housatonic River between the towns of Milford and Stratford.

The main structure will be a reinforced concrete design consisting of five ribbed arches of 100 foot clear span and sixty (60) feet in width; two girder approach spans about fifty-two (52) feet in length; and suitable approach embankments. The entire improvement is to be covered with a permanent pavement totaling approximately 2800 feet in length.

Bids will be received by the State Highway Commissioner in his office at the State Capitol at Hartford, Connecticut, until 2 P.M. of the 5th day of June, 1919, at which time they will be publicly opened and read.

A surety company bond or a certified check for one-third (⅓) of the contractor's estimated cost of the bridge must be presented with the bid; the check or bond to be returned after the award and signing of the contract by the lowest responsible bidder.

Upon the execution of the contract, a surety company bond must be filed for the full amount of the contract.

All bids must be made on and in conformity with the form of proposal which with the contract, specifications and bond may be obtained and plans examined at the following places:

Office of the State Highway Commissioner, Hartford, Conn.

Office of Division Engineer, Chamber of Commerce Bldg., New Haven, Conn.

Complete plans and specifications will be furnished to bidders upon payment of ten ($10) dollars. This amount will be refunded upon the return of the same in good condition.

The Highway Commissioner reserves the right to reject any or all bids or to accept any bid which in his judgment is for the best interest of the State of Connecticut, and other interested parties.

CHARLES J. BENNETT,
State Highway Commissioner.

Dated at Hartford, Conn.,
May 5, 1919.

Cast-Iron Pipe

THE CORPORATION OF WATERFORD, IRELAND

Tenders are hereby invited by the Corporation of the City of Waterford, Ireland, from American manufacturers for the supply of 13,000 lin.yd. of 15 in. diameter cast iron water pipes, to stand a vertical pressure of a column of water of 300 ft. The pipes to be delivered at the Quays, Waterford. Waterford is a free port.

Envelopes containing quotations to be endorsed "Water Pipes" and addressed to Thomas F. J. Higgins, Esq., Town Clerk, Town Hall, The Mall, Waterford, Ireland.

Dated this 2nd day of May, 1919.

Bids: June 5.

Reservoir Construction, Pumping Units, Chlorinator

Bellevue, Ohio.

Sealed proposals will be received at the office of the Director of Public Service, Bellevue, Ohio, until 12 o'clock noon of the 5th day of June, 1919, and then publicly opened and read for:

(a) The construction of an impounding reservoir requiring about 100,000 cu.yd. of earth excavation and embankments, a low service pumping station 20 ft. x 26 ft. in plan, an 18 in. vitrified tile pipe line between 1500 ft. and 3000 ft. in length and incidental work.

(b) The furnishing and erecting of two gas engine driven centrifugal pumping units each having a capacity of 5000 gallons per minute.

(c) The furnishing and delivering of a chlorinator for disinfecting of the municipal water supply.

Copies of the plans, proposal forms, specifications and forms of bonds can be seen at the office of the Director of Public Service, or can be obtained from that office or from the office of Wm. G. Clark, Consulting Engineer, 1047 Spitzer Bldg., Toledo, Ohio, upon deposit of ten dollars for each set, which will be refunded provided they are returned in good order on or before June 15, 1919.

Each proposal or bid shall be accompanied by a bond executed by the bidder and a surety company satisfactory to the Director of Public Service, in the sum of 10% of the amount of proposal or bid; or in lieu of such bond the bidder may deposit with the Director of Public Service a certified check on a solvent bank in the City of Bellevue, Ohio, payable to the order of the Director of Public Service equal in amount to such bond.

The Director of Public Service reserves the right to reject any and all bids, waive any informalities in any bid, or to accept any bid which he may deem advantageous to the City of Bellevue.

By direction of

O. C. LITZKEY,
Director of Public Service.

Bids: June 3.

Creek Widening

New Castle, Pa.

Sealed proposals will be received at the office of the City Clerk, City Building, New Castle, Pa., up until 10 o'clock, Tuesday morning, June 3, 1919, providing for the change, alteration and relocation of the course and channel of the Neshannock Creek within the City of New Castle and the widening of the said channel for said purpose, the reëstablishment of the line on the west or right bank of said creek, for the purpose aforesaid, between the Rosena Furnace Dam on said creek and a point on the bridge over said creek at South Jefferson Street and opposite the south line of said street and the erection of a cement wall along the right bank of said creek. Work to be done in accordance with plans and specifications approved by Council on file in the office of the City Engineer. Each proposal to be accompanied by a certified check for $1000, made payable to the City Clerk and marked, "Neshannock Creek Widening."

Right reserved to reject any or all bids.

C. ED. BROWN, City Clerk.

OFFICIAL PROPOSALS

Bids: June 3.

Paving

Columbia, S. C.

Sealed bids will be received until 10 A.M., Tuesday, June 3, 1919, by the City of Columbia, S. C., for the paving of Assembly Street from Gervais to Taylor Street, consisting of approximately 17,000 sq.yd. of street paving and 5000 lin.ft. of curb.

Proposals will be considered for paving with sheet asphalt, bitulithic, vitrified brick and cement concrete, but the kind of paving will be selected by City Council after proposals are submitted. Each bid must be accompanied by a certified check, drawn to the order of the City Treasurer of Columbia, S. C., or New York draft, to the amount of $500, which will be subject to forfeiture in case of failure on the part of the contractor to enter into a written contract and furnish a bond with approved sureties in the sum of one-half the amount of the contract within ten days after being called upon to do so. Specifications and all available information will be furnished upon application to the City Engineer. The right to reject any or all bids is reserved by the City of Columbia.

T. KEITH LEGARE,
City Engineer.

M. M. RICE, Councilman,
Superintendent of Engineering
and Streets.

Bids: June 9.

Sewage Treatment Works

Pontiac, Michigan.

Sealed proposals will be received at the office of the City Clerk, City Hall, until 1:30 P.M., June 9, 1919, for the construction of the Sewage Treatment Works.

The work contemplated comprises the construction of an outfall sewer, grit chamber, two-story settling tanks, trickling filters, secondary tanks, sludge bed, conduits, bridge, and appurtenances. The following quantities give a general idea of the amount and character of the work to be done:

Outfall sewer	2,052 lin.ft.
Excavation	34,710 cu.yd.
Reinforced concrete	4.078 cu.yd.
Filter stone	15.700 cu.yd.
C. I. piping	35 tons

Plans and Specifications are on file at the office of the City Clerk, City Hall, and copies may be obtained at the office of Clarence W. Hubbel, Consulting Engineer, 2348 Penobscot Bldg., Detroit, Michigan. A deposit of fifteen dollars ($15) will be required for each set of plans and specifications. If a bid is submitted this deposit will be refunded upon the return of said plans and specifications in good order.

All bids must be accompanied by a certified check on a solvent bank for fifteen thousand dollars ($15,000).

Separate proposals will be entertained on the Outfall Sewer. A certified check for one thousand dollars ($1000) will be required where proposals are made on outfall sewer only.

No proposal will be entertained unless made on blanks furnished by the consulting engineer, and delivered to the City Clerk on or before 1:30 P.M., June 9, 1919.

The city reserves the right to reject any or all bids.

By order of the City Commission.

C. W. HAM,
City Clerk.

OFFICIAL PROPOSALS

Bids: June 16.

Reinforced Concrete Bridge

Valdosta, Georgia.

Sealed proposals will be received by the Board of Commissioners of Lowndes County, Georgia, at the Court House, Valdosta, Georgia, until 10 A.M., June 16, 1919, for furnishing all material, labor and equipment necessary for the erection of a bridge over the Withlacoochee River, about 5 miles from Valdosta.

The following is a list of the quantities of the work to be done:

40	cu.yd. dry excavation.
155	cu.yd. wet excavation.
1240	lin.ft. wood piles under foundation piers.
880	lin.ft. creosoted piles under foundation piers.
3720	lin.ft. 14 x 14 in. reinforced concrete piles.
812	lin.ft. 10 x 10 in. reinforced concrete piles.
904.37	cu.yd. Class "A" concrete.
463.15	cu.yd. Class "B" concrete.
94,520	lb. reinforcing steel.
3363	sq.ft. hog wire.
6	cast-iron rockers.
12	steel rocker plates.
18	3 x 3 in. metal drains.
120	2 in. tubes, sheet metal.

Plans and specifications are on file at the office of the Board of Comimssioners at Valdosta, Georgia, the State Highway Engineer and the J. B. McCrary Company, the Project Engineers at Atlanta, Georgia. Copies may be obtained from the J. B. McCrary Company, Atlanta, upon receipt of $2.50 to cover the actual cost of reproduction which will be refunded if bona fide bid is made.

Proposals must be submitted on regular forms which will be supplied by the Project Engineers and must be accompanied by a certified check for 5 per cent. of the amount bid.

Payments will be made monthly on basis of 85 per cent. of work done and materials embodied in construction, balance when the work is completed and accepted.

The right is reserved to reject any and all bids and waive all formalities.

BOARD OF COMMISSIONERS OF ROADS
AND REVENUES, LOWNDES
COUNTY, GEORGIA.
(By) B. G. LASTINGER,
Clerk of Commissioners.
THE J. B. McCRARY COMPANY,
Engineers,
Valdosta, Georgia.

Bids: June 11.

Furnishing and Erecting One Twenty-five and One Fifteen Kilowatt Turbo-Generator Set and Switchboard for Mount Royal Pumping Station, Baltimore, Md.

Sealed proposals in duplicate, endorsed bids for furnishing and erecting one twenty-five and one fifteen kilowatt turbo-generator sets and switchboard for Mt. Royal Pumping Station, will be received at the office of the City Register, City Hall, Baltimore, Md., until 12 o'clock noon, June 11, 1919.

Specifications can be obtained at the office of the Water Engineer, City Hall, Baltimore, Md., on and after May 23, 1919. A charge of five dollars ($5) will be made for each set of specifications; this amount will be refunded upon the return of these specifications in good condition before June 30, 1919. Specifications used in making a bid will be considered as returned.

OFFICIAL PROPOSALS

A certified check of the bidder on a clearing-house bank, made payable to the Mayor and City Council of Baltimore, for the sum of five hundred dollars ($500), will be required with each bid.

The successful bidder will be required to give bond to comply with the City Charter respecting contracts.

While bids are asked for on three items the contract will be let as a whole.

The Board of Awards reserves the right to reject any or all bids and to waive technical defects if in its judgment it is to the best interest of the City to do so.

Approved: WALTER E. LEE,
J. BARRY MAHOOL, Water Engineer.
Acting Pres. Board of Awards.

Bids: June 10.

Highway Construction

Schoharie Co., N. Y.

Sealed bids will be received by the Board of Water Supply, at its offices, twenty-second floor, Municipal Building, Park Row, Centre and Chambers Streets, New York City, until 11 A.M., on Tuesday, June 10, 1919, for Contract 202, for the construction of about 7⅞ miles of highways, including clearing, grading, draining, building of culverts and guard-rails, around the Schoharie reservoir, in the Towns of Gilboa and Conesville, Schoharie county, Prattsville, Greene county, and Roxbury, Delaware county, New York.

At the above place and time the bids will be publicly opened and read. Pamphlets containing information for bidders and contract drawings can be obtained at the above address, at the office of the secretary, by depositing the sum of ten dollars ($10) in cash or its equivalent for each pamphlet. For further particulars apply to the office of the Chief Engineer, at the above address.

JOHN F. GALVIN, President,
CHARLES N. CHADWICK,
L. J. O'REILLY,
Comimssioners, Board of Water Supply.
BENJ. F. EINBIGLER, Secretary.

Bids: May 29.

Sanitary Sewer

Frederick, Oklahoma.

Sealed bids addressed to the "Honorable Mayor and Council" of the City of Frederick, Oklahoma, and endorsed "Sewer Bid" will be received at the office of the City Clerk until 4 P.M., May 29, 1919, at which time they will be publicly opened and read.

The work consists of furnishing labor and material for the construction and extension of a sanitary sewer system.

Approximate quantities as follows:

Trench excavation 5 ft. to 17 ft. deep, cu.yd.	26,775
6" vitrified pipe, lin.ft.	965
8" vitrified pipe, lin.ft.	34,795
12" vitrified pipe, lin.ft.	1,780
15" vitrified pipe, lin.ft.	7,770
Specials	1,032
Manholes	86

Alternate bids will be received for Cement Sewer Pipe in place of vitrified pipe.

Each proposal must be accompanied by a certified check on a Frederick bank for 5% of amount bid.

Plans and specifications are on file at the office of the City Clerk, and copies of same may be obtained from the engineer uopn payment of $15 therefor.

The City reserves the right to reject all bids, or accept any that may seem best for the City.

D. W. WOMACK, City Clerk.

OFFICIAL PROPOSALS

Bids: June 3.

OFFICIAL PROPOSALS

Bids: June 3.

Barge Canal Terminals

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF
PUBLIC WORKS
Albany, May 1st, 1919.

Sealed proposals will be received at the undersigned at his office in the Capitol at Albany, N. Y., until twelve o'clock noon on Tuesday, June 3rd, 1919, at which place and hour they will be publicly opened and read, for the construction of Barge canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

—1—

TERMINAL CONTRACT NO. 52-P

For paving Pier 6, East river, borough of Manhattan, New York City.

Contract plans, sheets 1 and 2.

—2—

TERMINAL CONTRACT NO. 113

For furnishing, testing and delivering electric capstans and trolley hoists at various Barge canal terminals.

—3—

TERMINAL CONTRACT NO. 117

For furnishing, testing and delivering battery-charging motor-generator sets, with switchboard panels for Barge canal terminals in New York City.

Plans may be seen and detached specifications, engineer's estimate of quantities, proposal blanks, forms of contract and bonds required and other information for proposers may be had at the office of the Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., and at the canal office, Spaulding's Exchange, Buffalo, N. Y.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the city of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

Price, $3.60 an inch—Copy can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

OFFICIAL PROPOSALS

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the stae for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner, if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

LEWIS NIXON,
Superintendent of Public Works.

PROPOSALS FOR CONSTRUCTION, ETC.—Office of Constructing Quartermaster, Mexican Border Project, Camp Travis, Texas.—Sealed proposals will be received here until 10 A.M., June 2, 1919, and then opened, for constructing approximately nine hundred and ninety seven brick, adobe and frame buildings; water and sewer lines, wiring, etc., at approximately thirty posts and camps along Mexican Border in Texas, New Mexico and Arizona. Complete information, plans, specifications, etc., furnished on receipt of certified check for $50.00.

ONEIDA—One contract, timber crib-stone fill.
WESTCHESTER — One contract, reconstruction.

Maps, plans, specifications and estimates may be seen and proposal forms obtained at the office of the Commission in Albany, N. Y., and also at the office of the division engineers in whose division the roads to be improved are located. The addresses of the division engineers and the counties of which they are in charge will be furnished upon request.

The especial attention of bidders is called to "General Information for Bidders" on the itemized proposal, specifications and contract agreement.

FREDERICK STUART GREENE,
Commissioner.

R. K. FULLER, Secretary.

Bids: June 16.

Hydro-Electric Power Plant Construction

Marquette, Michigan.

Sealed proposals will be received by the City Commission of the City of Marquette at the office of the City Purchasing Agent, until 12 o'clock noon, June 16, 1919, for furnishing all equipment, tools, labor and material required for constructing the following specified improvements, such proposals to be publicly opened and read:

1. A hydroelectric power house, 40 x 97 of concrete and brick, including tail-race excavation in earth and rock;

2. A reinforced concrete surge tank thirty (30) feet diameter and sixty (60) feet high, including foundation;

3. Concrete foundations with timber saddles for a woodstave pipe line 90 in. inside diameter, 1800 ft. long, and 78 in. inside diameter, 285 ft. long.

Bids are to be submitted in two (2) ways:

First, on the work complete, contractor furnishing all materials.

Second, on labor and equipment, the City to furnish all materials, delivered f.o.b. Marquette, Michigan.

Separate proposals will be received for the power house building, embracing the superstructure above the main floor finished complete.

Proposals will be received for the foundation for the penstocks and separately for foundation of power house carried up to top of main floor ready to receive the brick superstructure and also including excavation for the tail-race.

Plans and specifications by Thomas W. Orbinson, Consulting Engineer, Appleton, Wisconsin, are on file at the office of Charles Retallic, Superintendent of the Department of Light and Power, Marquette, Michigan. Upon request, either or both sets will be mailed to prospective bidders on receipt of $25 for each set, which amount will be refunded on their return in good order.

Proposals for said improvement must be made in separate, sealed envelopes, marked so as to indicate improvement referred to and must be accompanied by a certified check or draft in the sum of $500, payable to the City of Marquette, as a guarantee that if bid is accepted, contract will be entered into and its performance properly secured.

The Commission reserves the right to accept or reject any or all bids.

Separate proposals will be received from pipe manufacturers for furnishing, erecting and connecting up the woodstave pipe.

CITY OF MARQUETTE.
J. F. ANDERSON,
City Purchasing Agent.

Bids: July 2.

Physical Education Building

AT MARSHALL COLLEGE
HUNTINGTON, W. VA.

Huntington, W. Va.

Sealed bids will be received by the State Board of Control until 3 P.M. of July 2, 1919, at its office in Charleston, W. Va., for doing all work and furnishing all materials necessary to complete the building described below according to the plans and specifications of H. Rus Warne, architect, Charleston, W. Va.

One two story and basement building, 156 ft. x 68 ft. 2 in. Exterior press brick, trimming terra cotta. Composition roof. Interior mill construction. Wood truss, reinforced concrete and steel construction.

Basement contains two swimming pools enamel brick; lockers, showers, toilets, heater and filter room; high pressure boiler house heater and filters. Wood stairways.

First floor contains gymnasium, reception room, director's room and entrance hall. Wrought iron stairways.

Second floor contains upper part of gymnasium, running track and physical science room.

General contractors can secure plans and specifications by addressing the office of the State Board of Control, Charleston, W. Va., accompanying their request with check of $10, same to be refunded only when bid is received accompanied by Proposal Bond as required in the specifications, otherwise check to be retained.

Sub-contractors can secure plans and specifications by deposit of two five dollar checks, one of which will be refunded on return of plans and specifications.

STATE BOARD OF CONTROL.
J. S. LAKIN, Member,
Charleston, W. Va.

Bids: June 17.

School Construction

THE BOARD OF EDUCATION OF
NEWARK
IN THE COUNTY OF ESSEX

Sealed proposals will be received at the office of the Board between 4 and 4:15 o'clock P.M., Tuesday, June 17, 1919, and then publicly opened and read for the construction and completion of the

SEYMOUR VOCATIONAL SCHOOL,

to be located on Sussex Avenue between First and Second Streets.

Terms of proposal and surety required are fixed by the specifications. Blank proposals for the general construction work are obtainable at the offices of John H. and Wilson C. Ely, Architects, Room 1210, Firemen's Building, Newark, N. J., where contract and bond forms, drawings and specifications may be examined or procured.

Blank proposals for the engineering equipment work are obtainable at the Board's Engineering Department, fourth floor, City Hall, where contract and bond forms, drawings and specifications may be examined or procuerd.

The Board reserves the right to accept or reject any or all proposals, to waive informalities, and to award contracts for the whole or any part thereof at its discretion.

R. D. ARGUE,
Secretary.

May 23, 1919.

Bids: June 10.

Sewer Construction

OFFICE OF THE COMMISSIONER OF
PUBLIC WORKS,
SAGINAW, MICHIGAN.

Sealed proposals will be received by the City Clerk, until Tuesday, June 10, 1919, and until such time on said day as the Council in session shall order the opening of such proposals, for

CONSTRUCTING A REINFORCED CONCRETE OR SEGMENT BLOCK SEWER IN

Florence and Salt Streets, on Florence Street from a point 100 ft. E. of center line of Queen Street to Salt Street, and on Salt Street, from Florence Street to Holmes Street, all in accordance with the plans, specifications and detailed information on file in this office and in the office of the City Clerk. Work shall commence not later than July 15, 1919, and be completed not later than December 1, 1919.

Proposals must be made upon printed forms which will be furnished by this department upon application, and must be accompanied by cash or certified check of a responsible bank, payable to the order of the City Treasurer, in an amount as determined by the Council. The successful bidder will be required to furnish a surety company bond in a sum of not less than twenty-five (25) per cent. of the amount of the contract, to secure the faithful performance of the contract. The right is reserved to reject any and all bids.

ROBERT F. JOHNSON,
Com. of Light, Water and Sewers.

OFFICIAL PROPOSALS

Bids: June 16.

Road Work

WASHINGTON COUNTY ROAD
DISTRICT NO. 2

Fayetteville, Arkansas.

Sealed bids will be received at the office of the Secretary, W. J. Reynolds, at Fayetteville, Arkansas, until 4 P.M., June 16, 1919, and will then be publicly opened and read. The work contemplated is the building of 52.00 miles of limestone macadam and 2 miles of bituminous macadam road, through the towns of Winslow, Fayetteville, and Goshen, Arkansas. Separate bids will be received on the steel bridges and the culvert tile. The item, hauling and placing tile will be included in the general bids, however. Bids will be compared upon a basis of the Engineers' estimate, copies of which may be obtained free of cost from the Engineers or the Secretary.

Plans and specifications are on file at the office of the State Highway Department, Little Rock, Ark.; at the office of the Secretary, J. W. Reynolds, Fayetteville, Arkansas, and at the office of the Engineers, Fayetteville, Ark.

Bids must be accompanied by a certified check, payable to the order of the Secretary of the District, in the sum of 5% of the amount of the bid. A construction bond of 25% of the contract will be required of the successful bidders. The right is reserved to reject any or all bids.

Board of Commissioners Washington County Road District No. 2.

C. W. APPLEBY, President.
W. J. REYNOLDS, Secretary.
J. V. WALKER, Attorney.
Fayetteville, Ark.

HAMILTON & SHREVE, Engineers,
Fayetteville, Ark.

Bids: June 10.

Road Reconstruction

Wilmington, Del.

Proposals, addressed to the President of the Levy Court, Room 133, County Building, Wilmington, Delaware, will be received until 12 o'clock noon, Tuesday, June 10, 1919, for the reconstruction with a bituminous top surface (penetration or mixed method) of the following roads: Silverside Road, Brandywine Hundred, 2.87 miles. Glasgow-Cooch Road, Pencader Hundred, 2.7 miles. Hillside Mills, Christiana Hundred, 4.0 miles. Hockessin-Yorklyn, Mill Creek Hundred, 2.10 miles. Adam's Dam-State Line, Christiana Hundred, 2.74 miles Greenbank-Price's Corner, Christiana Hundred, 0.51 miles. Specifications may be secured at the office of the County Engineer, Room 133, County Building, on and after May 29, 1919, upon making a deposit of $5, which will be refunded upon their return on or before June 15, 1919.

A certified check or bond for $500 for each road must accompany every bid. The Levy Court reserves the right to reject any or all bids.

CHARLES E. GRUBB,
County Engineer.

PROPOSALS FOR DREDGING—U. S. Engineer Office, Portland, Maine.—Sealed proposals will be received here until 2 P.M., June 24, 1919, and then opened, for dredging in Georges River (Thomaston Harbor) and Tenants Harbor, Maine. Further information on application.

Bids: June 17.

Paving

Henderson, N. C.

Sealed proposals will be received by the Mayor and Board of Commissioners of the City of Hnderson, N. C., at City Hall, in Henderson, N. C., until 4 P.M., June 17, 1919, for Street Improvements.

The work will consist of about:

55,000	sq.yd. of asphalt, bitulithic, concrete, brick or other pavement.
7,000	lin.ft. of granite or concrete curb.
7,000	lin.ft. of concrete gutter.
9,000	sq.yd. of sidewalk.
18,000	cu.yd. of grading.

And the necessary drainage, etc.

It is expected that additional work will be done later.

Proposals must be marked, "Proposals for Street Improvement."

All bids must be upon blank forms provided in the Proposal and Contract and Specifications.

Each bid must be accompanied by a certified check for $5000 as evidence of good faith.

Plans and specifications will be on file at the Clerk's office in Henderson and at the office of the Engineer in Durham, N. C.; and copies of the specifications, form of proposal, etc., will be mailed upon application to the Engineer at Durham, N. C.

The right is reserved to reject any or all bids.

M. H. STONE, Mayor.

GILBERT C. WHITE, Engineer,
Durham, N. C.

Bids: June 16.

Road Work

WASHINGTON COUNTY ROAD
DISTRICT NO. 1.

Fayetteville, Arkansas.

Sealed bids will be received at the office of the Washington County Judge, B. F. Campbell, Fayetteville, Arkansas, until 2 P.M. June 16, 1919, and will then be publicly opened and read. The work contemplated is the building of 22.27 miles of limestone or gravel macadam road, between Springdale and the Madison County Line. The Commissioners reserve the right to accept either or both types of road. They also reserve the right to furnish the culvert tile, and the contractor is asked to bid both ways; furnishing hauling and placing, and just hauling and placing tile. Bids will be compared upon a basis of the Engineers' estimate, copies of which may be obtained free of cost from the Engineers or the Attorney of the District.

Plans and specifications are on file at the office of the State Highway Department, Little Rock, Ark.; at the office of the Board of Commissioners, Springdale, Ark., and at the office of the Engineers, Fayetteville, Ark.

Bids must be accompanied by a certified check, payable to the order of the Secretary of the District in the sum of 5% of the amount of the bid, and a construction bond of 25% of the contract will be required of the successfu lbidders.

The right is reserved to reject any or all bids.

Bids: June 11.

Paving

Ann Arbor, Mich.

Sealed proposals will be received by the Board of Public Works, Ann Arbor, Mich., through the City Clerk, on or before 7 o'clock P.M., Wednesday, June 11, 1919, for the construction of pavements on North Fourth Avenue, between Ann and Kingsley Streets; Catherine Street, between Main Street and Fifth Avenue, and Detroit Street, between Ann and Catherine Streets; Broadway, from Michigan Central Railroad bridge to the north line of Swift Street; Detroit Street, from Catherine Street to Michigan Central bridge; South University Avenue, between State and Oxford Road; East University Avenue, between North University Avenue and Hill Street, and on Thayer Street, between North University Avenue ana Huron Street; according to plans and specifications in City Engineer's office.

The approximate quantities are as follows: 38,000 sq.yd. pavement; 38,000 sq.yd. concrete foundation; 20,000 lin.ft. curb; 10,000 cu.yd. excavation, and 500 lin.ft. stone header. Alternate bids will be received on brick, asphaltic concrete and concrete pavements.

A certified check for $1000 must accompany all bids for the construction of pavements, as a guarantee of the good faith of the bidder, and the Board of Public Works reserves the right to reject any and all bids.

By order of the Board of Public Works.

ISAAC G. REYNOLDS,
City Clerk.

Bids: June 17.

Drainage Ditches

BURLINGTON, DES MOINES
COUNTY, IOWA.

Burlington, Iowa.

Sealed proposals will be received at the office of the County Auditor at Burlington, Iowa, until one-thirty P.M., on the 17th day of June, A. D. 1919, for the construction of drainage channels and such other work, all of which are particularly described in the plans and specifications for the work, which consists of the excavation of 125,077 cu.yd. of ditch work and the laying of 1240 lin.ft. of 12 in. tile and the construction of one concrete bulk head.

The above work consists of one ditch 7000 ft. long with 12 to 20 ft. bottom and one ditch 8000 ft. long with 10 ft. bottom, all the other ditches 6 ft. bottom.

The work will have to be done with a drag line or caterpillar machine.

Monthly estimates will be given and paid as the work progresses.

The work shall begin on or before July 10, 1919, and completed on or before March 1, 1920. A deposit of 10 percentum of the proposal will be required.

The Board of Supervisors reserve the right to reject any and all bids and readvertise the work.

Proposal blanks and detailed information concerning the proposed work can be had at the County Auditor's office in Burlington, Iowa, or from the office of M. E. Bannon at Fort Madison, Iowa, who is the engineer for the work.

(Signed) J. F. WEBER,
County Auditor.

OFFICIAL PROPOSALS

Bids: June 5.

Brick Paving

Fort Edward, N. Y.

Sealed proposals, addressed to the Clerk of the Village of Fort Edward, N. Y., and endorsed "Proposals for building sections of Brick Paving in the Village of Fort Edward, N. Y.," will be received by the Board of Trustees of said Village at their office until June 5th, 1919, at 2 o'clock P.M. and at that time and place will be publicly opened and read.

DESCRIPTION

Paving with brick McCrea St. from the westerly end thereof to West Broadway and Lower Broadway, from the Aqueduct to the point where the tracks of the Hudson Valley Railway leaves the same; together with the necessary grading, curbing and guttering of said streets.

All bids must be made on the regular forms furnished by the Village and all prices must be plainly stated in ink both in words and figures.

Plans and specifications are on file in the office of the Board of Trustees and the office of R. G. Gibson, Engineer, and may be obtained for the price of five dollars ($5), said price to be refunded on the return of the plans and specifications in good condition.

No bid shall be allowed to be withdrawn for any reason whatsoever after it has been presented to the Village Clerk.

Bidders are required to state in their bids their names and places of residence and the names of all persons interested with them in said bids.

A certified check in an amount equal to at least five per cent. (5%) of the bid, payable to the Treasurer of the Village of Fort Edward, N. Y., must accompany each bid. All these checks except that of the bidder whose bid is accepted will be returned to the persons making them within three (3) days after the execution of the contract. If the bidder whose bid shall have been accepted, shall refuse or neglect to execute the contract within ten (10) days after the notice that the contract has been awarded to him or them, the amount of the deposit made by him or them will be forfeited to and retained by the Village of Fort Edward as liquidated damages for such neglect or refusal. But if he or they shall execute the contract in the time aforesaid, said deposit shall be returned to him or them.

A bond, with some reliable Surety Company, equal in amount to fifty per cent (50%) of the price bid will be required of the successful bidder for the faithful performance of the contract.

The contract will be awarded to the bidder whose prices, reputation, experience and standing in the contracting business are regarded as most advantageous for and to the best interest of the Village, and whose plant and equipment and financial ability are regarded as adequate to promptly and efficiently perform the work. The Board of Trustees reserves the right to reject any or all bids and to award the whole or any part of the work.

WILLARD ROBINSON,
President.

FRED J. BETTS,
Clerk.

OFFICIAL PROPOSALS

Bids: June 14.

Sewers, Sewage Sedimentation Tank and Screen Chamber

Port Jefferson, New York.

Sealed proposals for furnishing all labor and materials required for constructing Sewers, Sewage Sedimentation Tank and Screen Chamber, for the Port Jefferson Sewer District, Town of Brookhaven, Suffolk County, New York, addressed to the Sewer Commissioners of the Sewer District, Port Jefferson, New York, and endorsed "Proposal for Constructing Sewers, Sedimentation Tank and Screen Chamber," will be received by the Sewer Commissioners at the office of Thos. O'Donnell, Room 8, Post Office Bldg., Port Jefferson, New York, until two o'clock P.M., on June 14th, 1919.

Proposals must be made on the blank form of proposal prepared by the Sewer Commissioners. Plans and specifications may be obtained from A. J. Provost, Jr., Consulting Engineer, 39 West 38th Street, New York City, or from Thos. O'Donnel, Port Jefferson, N. Y., upon depositing $10, which will be refunded if said plans and specifications are returned in good condition within thirty days after bids have been received and acted upon by the said Sewer Commissioners.

Proposals must be accompanied by cash or a certified check on a solvent Bank or Trust Company, drawn to the order of Thomas O'Donnell, Chairman, for One Thousand Dollars ($1000.00) and a bond in the sum of Three Thousand Dollars ($3000.00) for the proper execution of the contract.

The bidder to whom the contract is awarded will be required to execute the same and to furnish a surety bond in the sum of Fifteen Thousand Dollars ($15,000).

The Sewer Commissioners reserve the right to reject any and all bids.

C. W. DARE, Secretary.

Bids: June 18.

Bids: June 3.

Paving

Auburn, N. Y.

Notice is hereby given that it is proposed to pave Grover Street with asphalt, stone filled asphalt, vitrified brick or bitulithic and John Street with asphalt, stone filled apshalt, vitrified brick, bitulithic or concrete.

Plans and specifications for said pavings are on file in the office of the City Engineer where they may be seen and examined, and copies of the plans and specifications and blank proposals for doing the work may be obtained of said City Engineer upon the payment of the sum of $10, said sum to be refunded upon the return of the plans and specifications to the City Engineer.

Sealed proposals to contract for said pavings will be received by the Mayor up to 8o'clock P.M., June 3, 1919, and at the meeting of the Common Council to be held on the evening of that day, said proposals will be opened and considered.

Each sealed proposal shall be accompanied by a certified check in the sum of $500 for Grover Street and $200 for John Street, payable to the order of the City of Auburn, to become and be the property of the city if such proposal be acepted, and the person, persons or corporation making it does not within fifteen days after notice of its acceptance enter into and execute a contract to do such paving in conformity with the specifications and proposals accepted and execute and deliver concurrently therewith a bond in the penal sum of one and one-quarter times the amount for which the person, persons or corporation proposes to do the work with two or more sureties, each surety justifying in the penal sum of said bond to be approved by the Mayor conditioned for the faithful performance of such contract in all its particulars by the contractor.

Instead of such certified check each sealed proposal may be accompanied by a bond in the penal sum equal to ten per cent. of the gross amount of the contract, signed by the person, persons or corporation so proposing and by two or more sureties, each surety justifying in the penal sum of said bond, or a surety company bond in the penal sum of ten per cent. of the gross amount of the contract to be approved by the Mayor, conditioned upon the same requirements as heretofore stated.

By Order of the Common Council.

C. A. DAYTON, City Clerk.

Dated: Auburn, N. Y., May 23, 1919.

OFFICIAL PROPOSALS

Bids: June 12.

Pipe Sewers—Pumping Machinery and Pumping Stations Sewerage System

WESTERLY, RHODE ISLAND

Westerly, R. I.

The Board of Water Commissioners of the Town of Westerly, Rhode Island, will receive sealed proposals for furnishing materials and doing all other work required to complete the construction of about eight (8) miles of pipe sewers from six (6) to twenty-four (24) inches in diameter, with manholes complete; also one (1) main pumping station and one (1) sub-pumping station.

CONTRACT NO. 1

Proposals for Sewer Pipe and Specials will be received until 12 o'clock noon, Tuesday, June 10, 1919.

CONTRACT NO. 2

Proposals for Manhole Frames and Covers will be received until 12 o'clock noon, Tuesday, June 10, 1919.

CONTRACT NO. 3

Proposals for Pumping Machinery will be received until 12 o'clock noon, Thursday, June 19, 1919.

CONTRACT NO. 4

Proposals for Laying the Pipe System will be received until 12 o'clock noon, Thursday, June 12, 1919.

CONTRACT NO. 5

Proposals for Pumping Stations will be received until 12 o'clock noon, Thursday, June 12, 1919.

Plans may be seen and Specifications and Forms of Proposal obtained at the office of the Board of Water Commissioners, Town Hall, Westerly, Rhode Island, or at the office of the Consulting Engineer, Samuel M. Gray, Grosvenor Building, Providence, Rhode Island.

Proposals must be submitted on the form furnished by the Board and a certified check in amount called for on proposal form must accompany each bid.

The Board of Water Commissioners reserve the right to accept or reject any and all proposals and to accept any proposal which they deem to be most favorable to the interests of the town.

LOUIS W. ARNOLD,
Chairman, Board of Water Commissioners.
THOMAS McKENZIE, Engineer.

Bids: June 3.

Sanitary Sewer System and Sewage Disposal Plant

Aurelia, Iowa.

Separate sealed proposals will be received by the Town Clerk of the Town of Aurelia, Iowa, at his office in said Town, until three o'clock P.M., on the 3rd day of June, A. D. 1919, for the construction of a Sanitary Sewer System and Sewage Disposal plant in said town.

Dated this 16th day of May, A. D. 1919, at Aurelia, Iowa.

L. E. CHRISTENSEN,
Town Clerk.

Wayne Street, Main to Viaduct, approximately 1917 sq.yd.

Center Avenue, bridge to west curb line of Lookout Avenue, approximately 4175 sq.yd.

Jefferson Street, sewer approximately 1840 lin.ft. of main sewer and 1150 lin.ft. of laterals.

Wayne Street, sewer, approximately 550 lin.ft. of main sewer and 324 lin.ft. of laterals.

Specifications, proposal blanks and detailed information can be obtained by applying to the City Engineer.

A deposit of five ($5) dollars is required for each complete set of plans and specifications sent out, which will be refunded upon the return of the plans in good condition.

A certified check in the sum of ten (10%) per cent. of the gross bid must accompany the proposal.

The City reserves the right to reject any and all bids.

H. O. CARSON,
City Engineer.

PROPOSALS FOR BOILERS.—Office of District Engineer, Mississippi River Dredging District.—Sealed proposals for furnishing and delivering three (3) Water-tube Boilers for U. S. Dredge Kappa will be received here until two o'clock p.m., June 20, 1919, and then opened. Further information on application to the District Engineer, P. O. Box 1017, Memphis, Tenn.

OFFICIAL PROPOSALS

Bids: June 2, 1919.

Public Water Supply

MUNICIPAL BOARD

Newark, N. Y.

Notice is hereby given that sealed proposals for the construction of water supply improvements for Newark, N. Y., will be received at the office of the Municipal Board of Newark, N. Y., until 10 o'clock A.M., June 2, 1919, and then publicly opened.

Description of work to be done:

To construct an earthen dam and dikes across Case Creek and the adjoining valley at a point about two and one half (2½) miles southeast of Clifton Springs, N. Y. The earthen dam and dikes will contain approximately three thousand (3000) yards of concrete and thirty thousand (30,000) yards of earth embankment, to construct and furnish all the material for a million gallon mechanical filtration plant, to be built of reinforced concrete and brick, to haul and lay about thirty-eight thousand (38,000) feet of fourteen (14) inch cast iron pipe, to furnish about one thousand seven hundred (1700) tons of fourteen (14) inch cast iron pipe. Separate bids will be received on each division of the work.

Detailed plans and specifications of the work may be seen for examination at the office of James P. Wells, Consulting Engineer, Cutler Building, Rochester, N. Y., or at the office of Mr. Staniland Scarth, Municipal Board, Newark, N. Y. Plans and specifications may be obtained for the sum of $10, which will be returned upon the return of the plans and specifications in good condition.

A certified check for five per cent. (5%) of the amount of the bid made, payable to the order of the Municipal Board, must accompany each proposal. The right is reserved by the party of the second part to reject any and all proposals.

Proposals shall be submitted in sealed envelopes furnished for that purpose with the specifications. Only sealed bids will be considered.

All bids received will be retained by the Municipal Board and will not be returned to the contractors.

GEO. A. BURNHAM,
Chairman Municipal Board.

Attest:
FRANK J. BALTZEL,
Clerk Municipal Board.

PROPOSALS FOR LEVEE WORK.—Office of the Secretary, Mississippi River Commission, 1311 International Life Building, St. Louis, Mo.—Sealed proposals will be received here until 11 a.m., June 19, 1919, for constructing about 200,000 cubic yards of earthwork by the hydraulic method in the Muscatine-Louisa Island Levee District, Iowa. Further information on application.

PROPOSALS FOR DREDGING.—United States Engineer Office, Room 710, Army Building, 39 Whitehall Street, New York, N. Y.—Sealed proposals for dredging in East River, N. Y., will be received here until 12 m., June 16, 1919, and then opened. Further information on application.

U. S. ENGINEER OFFICE, Louisville, Ky. Sealed proposals will be received here until 12 noon (central time) June 19, 1919, and then opened for constructing Lock and Abutment for Dam No. 45, Ohio River, at Addison, Ky. Further information on application.

OFFICIAL PROPOSALS

Bids: June 17.

OFFICIAL PROPOSALS

Bids: June 3.

Street Improvement

Griffin, Ga.

Proposals will be received by the City Manager and Board of City Commissioners of Griffin, Georgia, until eleven o'clock, A.M. on Tuesday, June 3rd, 1919, for grading, curbing, draining, and paving certain streets with vitrified brick, concrete, bituminous concrete, patented pavement, or other pavement.

The street paving work will include approximately the excavation of 10,300 cubic yards of earth; the setting of 34,500 lineal feet of granite curb, and the construction of 6500 lineal feet of concrete curb; the laying of storm drains and the furnishing and laying of approximately 47,500 square yards of street pavement, with all the necessary work incident thereto, as called for by the plans, profiles and specifications

Bidders must use the printed forms accompanying the specifications. A certified check payable to the city of Griffin, for five (5) per cent. of the amount of the bid must accompany each proposal as a guarantee that the contract will be entered into if awarded. An acceptable surety bond for one hundred (100) per cent. of the contract cost will be required. A five (5) year maintenance bond for twenty-five (25) per cent. of the contract cost will be required to guarantee the street pavement against defects. Payment will be in cash, or cash and notes, for eighty-five (85) per cent. of completed and accepted work on monthly estimates.

Plans and specifications may be seen at the office of the City Manager in Griffin, Georgia, and copies of specifications may be obtained from Solomon-Norcross Company, Consulting Engineers, 1625 Candler Building, Atlanta, Georgia, and the City Engineer, Griffin, Georgia, by depositing check for ten ($10) dollars, payable to the Consulting Engineers, to be held until their return. Blue prints may be had at the cost of printing.

The City reserves the right to reject any and all bids.

E. P. BRIDGES, City Manager,
Grifflin, Georgia.

G. M. HARRINGTON,
City Engineer, Griffiin, Georgia.
SOLOMON-NORCROSS COMPANY,
Consulting Engineers, 1625 Candler Bldg.,
Atlanta, Georgia.

Bids: June 5.

Grading

Fayette County, West Virginia.

Sealed proposals will be received at the office of the Clerk of the County Court, Fayetteville, West Virginia, until June 5th, 1919, for grading one section of County Highway of approximately 3.0 miles, from Fayette to Lansing, containing 45,000 cu. yds. of excavation. About 30 per cent rock. Very good shovel job.

Bids must be submitted on the blank forms contained in the book of specifications, which with other information may be obtained upon application to J. K. McGrath, Road Engineer, Fayetteville, West Virginia.

A certified check for five per cent. of the proposal, made payable to the order of the Sheriff of Fayette County, shall be filed with bid. The County Court reserves the right to reject any and all bids.

By order o fthe County Court of Fayette County, West Virginia.

J. K. McGRATH, Road Engineer.
H. O. BOLEY, President.
R. J. STEGALL, Clerk.

OFFICIAL PROPOSALS

Bids: June 9.

Sewage Treatment Works

Pontiac, Michigan.

Sealed proposals will be received at the office of the City Clerk, City Hall, until 1:30 P.M., June 9, 1919, for the construction of the Sewage Treatment Works.

The work contemplated comprises the construction of an outfall sewer, grit chamber, two-story settling tanks, trickling filters, secondary tanks, sludge bed, conduits, bridge, and appurtenances. The following quantities give a general idea of the amount and character of the work to be done:

Outfall sewer	2,052 lin.ft.
Excavation	34,710 cu.yd.
Reinforced concrete	4.078 cu.yd.
Filter stone	15,700 cu.yd.
C. I. piping	35 tons

Plans and Specifications are on file at the office of the City Clerk, City Hall, and copies may be obtained at the office of Clarence W. Hubbel, Consulting Engineer, 2348 Penobscot Bldg., Detroit, Michigan. A deposit of fifteen dollars ($15) will be required for each set of plans and specifications. If a bid is submitted this deposit will be refunded upon the return of said plans and specifications in good order.

All bids must be accompanied by a certified check on a solvent bank for fifteen thousand dollars ($15,000).

Separate proposals will be entertained on the Outfall Sewer. A certified check for one thousand dollars ($1000) will be required where proposals are made on outfall sewer only.

No proposal will be entertained unless made on blanks furnished by the consulting engineer, and delivered to the City Clerk on or before 1:30 P.M., June 9, 1919.

The city reserves the right to reject any or all bids.

By order of the City Commission.

C. W. HAM,
City Clerk.

Bids: June 9.

Water Main and Sewer Construction

WASHINGTON SUBURBAN SANITARY DISTRICT
CONTRACT NO. 1

Washington, D. C.

Sealed proposals will be received at the office of the Washington Suburban Sanitary Commission, 611 F Street, N. W., Washington, D. C., until Monday, June 9, 1919, at 3 P.M., and then and there opened, for water main and sewer construction in the Hyattsville, Maryiand Water and Sewer District, approximately as follows:

6500 lin.ft. 6 in. and 8 in. cast-iron water mains.
7200 lin.ft. 6 in., 8 in. and 10 in. vitrified pipe sewers.
16 fire hydrants.
22 manholes.

Water service and sewer house connections.

Bids must be accompanied by certified check in sum equal to 5% of the amount of the bid.

On and after May 26, plans and specifications may be seen at the Washington office of the Commission, and may be obtained at the office of the Chief Engineer of the Commission, Hyattsville, Maryland, for the sum of two dollars, which will not be refunded.

WASHINGTON SUBURBAN SANITARY COMMISSION
(By) WILLIAM T. S. CURTIS,
Chairman.

Pumping Plant

MUSCATINE LOUISA DRAINAGE DISTRICT NO. 13

Wapello, Ia.

Sealed bids will be received until one o'clock P.M., June 10, 1919, by the Muscatine-Louisa Drainage District No. 13, at the office of the County Auditor of Louisa County, Wapello, Iowa, for a steam driven pumping plant containing one 36 in and one 24 in. double suction centrifugal pump. Bids will also be received for a building to house this plant.

For further information address the Engineers, Elliott & Harman Engineering Co., Peoria, Illinois.

Why?

WHY do Government regulations specify that contracts for construction, equipment and supplies over a certain minimum amount **must** be advertised?

WHY do the laws of most States and Municipalities specify the same thing?

WHY do so many private corporations advertise **their** big contracts?

WHY do Consulting Engineers, Architects, and others recommend and endorse the advertising of Contracts To Be Let?

And—

WHY are 90% of the advertisements on which **real national competition** is desired published in **ENGINEERING NEWS-RECORD?**

In the answers to the foregoing questions you will find unquestionable proof that

1—**Advertised Contracts** are the accepted form of public letting to insure the awarding of contracts free of prejudice.

2—**Advertised Contracts** guarantee the greatest possible saving through maximum competition and that—

3—ENGINEERING NEWS-RECORD is universally recognized as the **one** dominant medium of **national** circulation for advertising Contracts To Be Let.

Are your contracts advertised?
Are they advertised in Engineering News-Record?
If not—WHY?

0083

OFFICIAL PROPOSALS

Bids: June 10.

Road Roller

OFFICE OF THE COMMISSIONER OF
PUBLIC WORKS,
SAGINAW, MICHIGAN.

Sealed proposals will be received by the City Clerk, until Tuesday, June 10, 1919, and until such time on said day as the Council in session shall order the opening of such proposals for

1. An approximately 10-ton road roller. Complete specifications to be furnished by the bidder.

2. Road roller bid upon in accordance with detailed information on file in the office of the Commissioner of Public Works.

Delivery shall be made not later than July 1, 1919.

Sealed proposals will be received at the office of the County Auditor at Burlington, Iowa, until one-thirty P.M., on the 17th day of June, A. D. 1919, for the construction of drainage channels and such other work, all of which are particularly described in the plans and specifications for the work, which consists of the excavation of 125,077 cu.yd. of ditch work and the laying of 1240 lin.ft. of 12 in. tile and the construction of one concrete bulk head.

The above work consists of one ditch 7000 ft. long with 12 to 20 ft. bottom and one ditch 8000 ft. long with 10 ft. bottom, all the other ditches 6 ft. bottom.

The work will have to be done with a drag line or caterpillar machine.

Monthly estimates will be given and paid as the work progresses.

The work shall begin on or before July 10, 1919, and completed on or before March 1, 1920. A deposit of 10 percentum of the proposal will be required.

The Board of Supervisors reserve the right to reject any and all bids and readvertise the work.

Proposal blanks and detailed information concerning the proposed work can be had at the County Auditor's office in Burlington, Iowa, or from the office of M. E. Bannon at Fort Madison, Iowa, who is the engineer for the work.

(Signed) J. F. WEBER,
County Auditor.

Bids: June 16.

Road Work

WASHINGTON COUNTY ROAD DISTRICT NO. 2

Fayetteville, Arkansas.

Sealed bids will be received at the office of the Secretary, W. J. Reynolds, at Fayetteville, Arkansas, until 4 P.M., June 16, 1919, and will then be publicly opened and read. The work contemplated is the building of 52.00 miles of limestone macadam and 2 miles of bituminous macadam road, through the towns of Winslow, Fayetteville, and Goshen, Arkansas. Separate bids will be received on the steel bridges and the culvert tile. The item, hauling and placing tile will be included in the general bids, however. Bids will be compared upon a basis of the Engineers' estimate, copies of which may be obtained free of cost from the Engineers or the Secretary.

Plans and specifications are on file at the office of the State Highway Department, Little Rock, Ark.; at the office of the Secretary, J. W. Reynolds, Fayetteville, Arkansas, and at the office of the Engineers, Fayetteville, Ark.

Bids must be accompanied by a certified check, payable to the order of the Secretary of the District, in the sum of 5% of the amount of the bid. A construction bond of 25% of the contract will be required of the successful bidders. The right is reserved to reject any or all bids.

Board of Commissioners Washington County Road District No. 2.

C. W. APPLEBY,
President.
W. J. REYNOLDS,
Secretary.
J. V. WALKER,
Attorney.
Fayetteville, Ark.

HAMILTON & SHREVE, Engineers,
Fayetteville, Ark.

Bids: June 4.

Storm Sewers

Ann Arbor, Mich.

Sealed proposals will be received by the Board of Public Works, Ann Arbor, Mich., through the City Clerk, on or before 7 o'clock P.M., Wednesday, June 4, 1919, for the construction of storm water sewers on Detroit Street, from Kingsley Street to Fifth Avenue; on Catherine Street, from Main Street to Fifth Avenue; on South University Avenue, from Llinden Street to Oxford Road; on East University Avenue, from South University Avenue to North University Avenue, from Linden Street to the Huron River southwesterly about 300 ft.; according to plans and specifications in the City Engineer's office.

Approximate quantities are as follows: 1200 lin.ft. of 15 in. vitrified sewer pipe; 3500 lin.ft. of 12 in. vitrified sewer pipe; 47 inlets; 18 manholes; 1800 cu.yd. excavation.

A certified check for $500 must accompany all bids for the construction of storm water sewers, as a guarantee of good faith of the bidder, and the Board of Public Works reserves the right to reject any and all bids.

By the Order of the Board of Public Works.

ISAAC G. REYNOLDS,
City Clerk.

Bids: June 10.

Sewer Construction

OFFICE OF THE COMMISSIONER OF PUBLIC WORKS,
SAGINAW, MICHIGAN.

Sealed proposals will be received by the City Clerk, until Tuesday, June 10, 1919, and until such time on said day as the Council in session shall order the opening of such proposals, for

CONSTRUCTING A REINFORCED CONCRETE OR SEGMENT BLOCK SEWER IN

Florence and Salt Streets, on Florence Street from a point 100 ft. E. of center line of Queen Street to Salt Street, and on Salt Street, from Florence Street to Holmes Street, all in accordance with the plans, specifications and detailed information on file in this office and in the office of the City Clerk. Work shall commence not later than July 15, 1919, and be completed not later than December 1, 1919.

Proposals must be made upon printed forms which will be furnished by this department upon application, and must be accompanied by cash or certified check of a responsible bank, payable to the order of the City Treasurer, in an amount as determined by the Council. The successful bidder will be required to furnish a surety company bond in a sum of not less than twenty-five (25) per cent. of the amount of the contract, to secure the faithful performance of the contract. The right is reserved to reject any and all bids.

ROBERT F. JOHNSON,
Com. of Light, Water and Sewers.

Bids: June 14.

Pavement Construction

Willoughby, Ohio.

Sealed bids will be received by C. C. Jenkins, Village Clerk, for the construction of approximately 47,000 sq.yd. brick pavement 6 in. concrete foundation, cement grout filler, 33,000 lin.ft. concrete curbing and gutter, combined 12,000 lin.ft. storm sewers, 6 in. to 18 in. in said village until 12 o'clock noon, June 14, 1919, and publicly opened and read at the Council Chamber in said village.

Plans and specifications may be seen at the office of the Village Clerk, or may be obtained from the Village Engineer upon payment of ten dollars which will be refunded when same are returned in good condition. Certified check $500, payable to Village Treasurer. Council reserves the right to reject any and all bids.

C. C. JENKINS, Village Clerk.

PROPOSALS FOR BOILERS.—Office of District Engineer, Mississippi River Dredging District.—Sealed proposals for furnishing and delivering three (3) Water-tube Boilers for U. S. Dredge Kappa will be received here until two o'clock p.m., June 20, 1919, and then opened. Further information on application to the District

---

PROPOSALS FOR PILES AND LUMBER—U. S. Engineer Office, Customhouse, New Orleans, La.—Sealed proposals will be received here until 11 A.M., June 25, 1919, and then opened for furnishing and delivering piles and lumber on the bank or wharves in Southwest Pass, South Pass, and Head of Passes, Mississippi River. Further information on application.

PROPOSALS FOR DREDGING—U. S. Engineer Office, Portland, Maine.—Sealed proposals will be received here until 2 P.M., June 24, 1919, and then opened, for dredging in Georges River (Thomaston Harbor) and Tenants Harbor, Maine. Further information on application.

Bids: June 25.

Sewer Construction

Lima, Ohio.

Sealed proposals for the construction of Collett Street Relief Sewer, Contract No. 1, will be received at the office of the Director of Public Service, City Hall, Lima, Ohio, until 12 o'clock noon, Central Standard Time (1 o'clock of so-called "Daylight Saving" Time), of the 25th day of June, 1919, and at that time and place will be publicly opened and read. The City of Lima reserves 30 days thereafter in which to act on the bids.

Alternate bids will be received for Monolithic Concrete, Segment Block or Reinforced Concrete Pipe as set forth on the blank form of proposal furnished by the City of Lima, Ohio. The total length of the sewers under this contract is about 16,430 ft., consisting of the following sizes: 84 in. circular; 78 in. by 127½ in. semicircular; 78 in. circular; 66 in. circular; 54 in. circular; 48 in. circular and 42 in. circular.

In addition there is an outlet abutment at the Ottawa River, an overflow chamber, together with special junctions at various points along the line of the proposed sewer.

The work to be done under this contract must be completed in accordance with the plans and specifications, not later than 30 months after the date of the award of the contract.

Copies of the plans, form of proposal, contract, bond and specifications may be inspected at any of the following offices:

Director of Public Service, City Hall, Lima, Ohio.

Fuller & McClintock, 170 Broadway, New York City.

Wm. G. Clark, 1047 Spitzer Building, Toledo, Ohio.

Copies of the plans and specifications with forms of proposal, contract and bond may be obtained at the office of the Director of Public Service, City Building, Lima, Ohio. A charge of seven ($7) dollars will be made for each set of plans and specifications. No charge will be made for the proposal bond.

Each proposal must be accompanied by a certified check upon a National Bank or Trust Company doing business in the State of Ohio, U. S. Government bonds or cash in the sum of seventeen thousand ($17,000) dollars, made payable to the City of Lima, Ohio.

The bidder to whom the contract is awarded will be required to furnish a surety company bond in the sum of 50% of his bid.

The City of Lima, Ohio, reserves the right to reject any or all bids, to waive any informalities in the bids received and to accept any bid which he deems most favorable to the interest of the City of Lima, Ohio.

A. L. METHEANY,
Director of Public Service.
VAUGHN C. MILLER,
City Engineer.

U. S. ENGINEER OFFICE, Room 812, Army Building, 39 Whitehall Street, New York, N. Y.—Sealed proposals will be received here until 12 M., July 2, 1919, and then opened, for dredging in Shrewsbury River, and Shoal Harbor and Compton Creek, N. J. Bids for either or both of these works will be considered. Further information on application.

Bids: June 17.

Branch Sewer

CITY OF PORTLAND, MAINE
DEPARTMENT OF PUBLIC WORKS
EMERGENCY WORK

Sealed proposals for building Fall Brook Branch Sewer, Section 3, and for building the Milliken Branch Sewer, will be received at the office of the Commissioner of Public Works, City Hall, until Tuesday June 17, 1919 at 12 o'clock M., when they will be publicly opened and read. The work includes the following approximate quantities:

1900 cu.yd. of earth excavation.
770 cu.yd. of ledge excavation.
340 cu.yd. of concrete masonry in trench.
13 manholes.
2680 lin.ft. of 24-in. pipe laying.
580 lin.ft. of 15-in. pipe laying.

Each bid must be accompanied by a certified check for $1000. Said check must be made payable to the order of the Treasurer of the City of Portland, Maine, and must not be enclosed with the proposal. A bond of some responsible surety company satisfactory to the Commissioner of Public Works, will be required from the successful bidder to ensure the faithful performance of the conditions of the contract. Blanks on which proposals must be made, specifications and further information may be obtained at the office of the said Commissioner. Bids should be marked, "Proposal for Building Fall Brook Branch Sewer, Section 3, and Milliken Branch Sewer," and addressed to Edward M. Hunt, Commissioner of Public Works, who reserves the right to reject any or all bids, should he deem it for the interest of the City so to do.

Bids: July 5.

Paving

Brunswick, Ga.

Proposals will be received by the Mayor and Aldermen of the City of Brunswick, Ga., until twelve o'clock noon, July 5, 1919, for paving certain streets in the City of Brunswick, Ga., approximating one hundred and five thousand (105,000) square yards.

Specifications can be had free; plans, upon the payment of eight ($8) dollars, by addressing the Clerk of Council, Brunswick, Georgia.

For further information, apply to N. D. Russell, Clerk of Council, Brunswick, Ga., or E. R. Conant, Consulting Engineer, Brunswick, Georgia.

Bids: June 16.

Concrete and Structural Work

FREEPORT WATER WORKS COMPANY
Freeport, Pa.

Bids will be received between the hours of 10 A.M. and 1 P.M., June 16, 1919, at the office of the Freeport Water Works Company, Freeport, Pa., for the completion of the concrete work and structural work in connection with the proposed water plant. Detailed specifications and plans can be secured from the engineer, Leo Hudson, 801 House Bldg., Pittsburgh, Pa., or from J. R. Taylor, Manager, Freeport, Pa.

The right is reserved to reject any or all bids.

(Signed) J. R. TAYLOR.
Manager.

OFFICIAL PROPOSALS

Bids: June 11.

Concrete Stand Pipe

Kansas City, Mo.

Sealed proposals will be received by the Purchasing Agent of Kansas City, Mo., at his office in the City Hall, until 2 o'clock P.M. of June 11, 1919, for constructing and erecting complete a reinforced concrete stand pipe of 1,000,000 gallon capacity at 75th and Holmes Streets, Kansas City, Mo. All proposals shall be based upon and shall be in accordance with the plans and specifications approved by the Board of Fire and Water Commissioners and on file in the office of said Board.

The approximate quantities involved are as follows:

Reinforced concrete	1500 cu.yd.
Reinforcing steel	180 tons.
Earth excavation	420 cu.yd.

Copies of instructions to bidders, plans and specifications, form of proposal, form of contract and form of bond can be secured by communicating with the Purchasing Agent or the Chief Engineer and Superintendent of the Water Department.

Proposals shall be made upon the forms attached to specification and enclosed in a sealed envelope and addressed to the Purchasing Agent, City Hall, Kansas City, Mo., and marked on the outside, "Proposal for 1,000,000 gallon reinforced concrete stand pipe at 75th and Holmes Streets."

Each bid shall be accompanied by City Comptroller's receipt for deposit of cash or certified check drawn on a solvent Kansas City bank or trust company, made payable to the City Comptroller, in the amount of $750, which deposit shall be forfeited to the City in case the bidder, if successful, shall fail or refuse to enter into the contract and bond within ten (10) days after award of contract.

The Board of Fire and Water Commissioners reserves the right to reject any and all bids or to waive any informality or irregularity in any bid, when it shall appear to the interest of the City to do so.

J. RAY SAMUEL,
Purchasing Agent.

W. G. GOODWIN,
Chief Engineer and Superintendent.

Bids: June 17.

Constructing Two Bridges

Pineville, W. Va.

Sealed proposals will be received by the Clerk of the County Court of Wyoming County, at Pineville, West Virginia, up to 9 A.M., on Tuesday, June 17, 1919, for the construction of two bridges on West Virginia Project 1054, the Elmore-Herndon Road.

Proposals must be made upon standard forms, and must be accompanied by a certified check for at least 5 per cent. of the total amount bid.

Plans and specifications may be seen and proposals obtained at the office of the County Engineer, Pineville, W. Va., and at the office of the Division Engineer of the State Road Commission, Robson Prichard Bldg., Huntington, W. Va.

Proposals must be made upon the State Standard form.

The right is reserved to reject any and all bids.

WILL P. COOK,
County Clerk.

OFFICIAL PROPOSALS

Bids: July 5.

Paving

Brunswick, Ga.

Sealed proposals will be received by the County Commissioners of Glynn County, Ga., at the Court House, Brunswick, Ga., until twelve o'clock noon, July 5, 1919, for the paving of four and four-tenths (4.4) miles, or approximately 46,400 sq.yd. of highway, extending from the City of Brunswick to the Picric Acid Plant, for which Federal Aid has been allotted.

Plans and specifications are on file in this office, in the office of the State Highway Engineer, Atlanta, Ga., and in the office of E. R. Conant, Brunswick, Ga. Copies of plans may be obtained from the engineer upon payment of $5.

Proposals shall be submitted on regular forms which will be supplied, together with specifications, upon application to Mr. Paul E. Twitty, Clerk of the County Commissioners, Brunswick, Ga. Proposals must be accompanied by a certified check, or money deposit, for five thousand ($5000) dollars, checks to be made payable to the County Commissioners of Glynn County.

The right is reserved to reject any or all bids and to waive all informalities.

(Signed) Commissioners of Glynn County.
By P. E. TWITTY,
Clerk to Commissioners.

Brunswick, Georgia, May 31, 1919.
E. R. CONANT, Consulting Engineer.
Brunswick, Georgia.

Bids: July 2.

Dam Construction

Gilboa, N. Y.

Sealed bids will be received by the Board of Water Supply, at its offices, twenty-second floor, Municipal Building, Park Row, Centre and Chambers Streets, New York City, until 11 A.M., on Thursday, June 19, 1919, for Contract 203, for the construction of the Gilboa dam, in the Town of Gilboa, Schoharie County, New York. The dam is part of the Schoharie Watershed development for the New York City water-supply and is composed of two parts: An overfall masonry portion about 1300 ft. in length and having a maximum height of about 160 ft., and an earthen section approximately 1000 ft. long.

At the above place and time the bids will be publicly opened and read. Pamphlets containing information for bidders and contract drawings can be obtained at the above address, at the office of the Secretary, by depositing the sum of twenty dollars ($20) in cash or its equivalent for each pamphlet. For further particulars apply to the office of the Chief Engineer, at the above address.

JOHN F. GALVIN, President,
CHARLES N. CHADWICK,
L. J. O'REILLY,
Commissioners, Board of Water Supply.
BENJ. F. EINBIGLER, Secretary.

Profitable Proposal Advertising

THE readers of ENGINEERING NEWS-RECORD are the active, progressive engineers and contractors of the civil engineering and contracting field. They look to this paper for information as to new projects and the development of established properties, from the time a bond issue or improvement is talked about until the work is completed.

Money can be saved by getting these men to figure on new work. Advertisements for bids published in ENGINEERING NEWS-RECORD secure maximum competition—the most bidding by the best bidders.

No work is too small, none too large, to be beyond the money-saving quality-insuring influence of NEWS-RECORD Proposal advertising. Cost is only $3.60 an inch.

Proposal ads invariably save large sums on contract prices.

Plans and specifications for work advertised in the Engineering News-Record may be filed without extra expense at our New York, Philadelphia, Cleveland, Chicago or San Francisco offices for the convenience of prospective bidders.

Plant from date of receipt of notification of approval of contract to December 31, 1919. Further information on application.

OFFICIAL PROPOSALS

Bids: June 16.

Hydro-Electric Power Plant Construction

Marquette, Michigan.

Sealed proposals will be received by the City Commission of the City of Marquette at the office of the City Purchasing Agent, until 12 o'clock noon, June 16, 1919, for furnishing all equipment, tools, labor and material required for constructing the following specified improvements, such proposals to be publicly opened and read:

1. A hydroelectric power house, 40 x 97 of concrete and brick, including tail-race excavation in earth and rock;

2. A reinforced concrete surge tank thirty (30) feet diameter and sixty (60) feet high, including foundation;

3. Concrete foundations with timber saddles for a woodstave pipe line 90 in. inside diameter, 1800 ft. long, and 78 in. inside diameter, 285 ft. long.

Bids are to be submitted in two (2) ways:

First, on the work complete, contractor furnishing all materials.

Second, on labor and equipment, the City to furnish all materials, delivered f.o.b. Marquette, Michigan.

Separate proposals will be received for the power house building, embracing the superstructure above the main floor finished complete.

Proposals will be received for the foundation for the penstocks and separately for foundation of power house carried up to top of main floor ready to receive the brick superstructure and also including excavation for the tail-race.

Plans and specifications by Thomas W. Orbinson, Consulting Engineer, Appleton, Wisconsin, are on file at the office of Charles Retallic, Superintendent of the Department of Light and Power, Marquette, Michigan. Upon request, either or both sets will be mailed to prospective bidders on receipt of $25 for each set, which amount will be refunded on their return in good order.

Proposals for said improvement must be made in separate, sealed envelopes, marked so as to indicate improvement referred to and must be accompanied by a certified check or draft in the sum of $500, payable to the City of Marquette, as a guarantee that if bid is accepted, contract will be entered into and its performance properly secured.

The Commission reserves the right to accept or reject any or all bids.

Separate proposals will be received from pipe manufacturers for furnishing, erecting and connecting up the woodstave pipe.

CITY OF MARQUETTE,
J. F. ANDERSON,
City Purchasing Agent.

PROPOSALS FOR EAST WING OF GUN SHED and Wings for Artillery and Cavalry Barracks.—Office of Quartermaster, West Point, N. Y.—Sealed proposals will be received here until 12 M., June 30, 1919, and then opened, for construction of East Wing of Gun Shed and Wings for Artillery and Cavalry Barracks. Information on application.

SEALED PROPOSALS will be opened by the Lighthouse Supt., Philadelphia, Pa., 2 o'clock P.M., July 7, 1919, for furnishing fabricated steel for a 72 foot steel tower, delivered to Horseshoe Range, West Group Lighthouse, Pa. Information upon application to the above Supt.

OFFICIAL PROPOSALS

Bids: June 25.

Steel Water Tower and Tank

Fountain Inn, S. C.

Bids are invited by the Town of Fountain Inn, South Carolina, for furnishing and delivering all material and constructing a steel water tower and tank for the municipal water-works system, upon foundations built by the town.

The capacity of the tank to be 50,000 gallons, and the height of the tower 110 ft. from top of foundation piers to floor of balcony.

Bidders will be required to furnish with their bids a certified check in the sum of $200, which will become a forfeit to the Town of Fountain Inn, if contract is not entered upon and bond executed promptly after the award.

The successful bidder will be required to execute a bond in an amount equal to 25% of his bid, with some satisfactory guarantee company, to safeguard the performance of the contract.

Bids will be opened at three o'clock P.M., June 25.

The Board of Public Works reserves the right to reject any or all bids.

Copies of specifications may be had by depositing $5, to be returned upon delivery of the specifications in good order to:

D. M. GARRETT,
Chairman, Board of Public Works,
Fountain Inn, S. C.

Bids: July 2.

Physical Education Building

AT MARSHALL COLLEGE
HUNTINGTON, W. VA.

Huntington, W. Va.

Sealed bids will be received by the State Board of Control until 3 P.M. of July 2, 1919, at its office in Charleston, W. Va., for doing all work and furnishing all materials necessary to complete the building described below according to the plans and specifications of H. Rus Warne, architect, Charleston, W. Va.

One two story and basement building, 156 ft. x 68 ft. 2 in. Exterior press brick, trimming terra cotta. Composition roof. Interior mill construction. Wood truss, reinforced concrete and steel construction.

Basement contains two swimming pools enamel brick; lockers, showers, toilets, heater and filter room; high pressure boiler house heater and filters. Wood stairways.

First floor contains gymnasium, reception room, director's room and entrance hall. Wrought iron stairways.

Second floor contains upper part of gymnasium, running track and physical science room.

General contractors can secure plans and specifications by addressing the office of the State Board of Control, Charleston, W. Va., accompanying their request with check of $10, same to be refunded only when bid is received accompanied by Proposal Bond as required in the specifications, otherwise check to be retained.

Sub-contractors can secure plans and specifications by deposit of two five dollar checks, one of which will be refunded on return of plans and specifications.

STATE BOARD OF CONTROL.
J. S. LAKIN, Member.
Charleston, W. Va

OFFICIAL PROPOSALS

Bids: June 27.

Flood Prevention Project

CONTRACT NO. 4

City of Lebanon, Pa.

Sealed proposals directed to the City Clerk will be received by the Mayor and Council of the City of Lebanon, Pa., at the City Hall until 5 P.M., Friday, June 27th, for the furnishing of all labor and materials required to construct Contract No. 4 of Lebanon's Flood Prevention Project.

The work consists of building a reinforced concrete culvert approximately 2,200 feet in length.

The approximate quantities involved are:

6,000 cubic yards of Excavation

The Council reserves the right to reject any or all bids, to waive any or all defects or informalities, or to accept any bids as they may deem for the best interest of the Borough.

J. WALLACE HIGGINS,
Borough Engineer

Roselle Park, N. J.
June 6, 1919.

OFFICIAL PROPOSALS

Bids: July 8.

Road Construction

Elkins, W. Va.

Sealed bids will be received until one o'clock P.M., Tuesday, July 8, 1919, by the County Court of Randolph County, West Virginia, for the completion of the work of constructing approximately nineteen miles of improved roads and streets in Leadsville District of said Randolph County, to be let in sections. Said work having been heretofre let to Contract to the R. M. Hudson Paving and Construction Co. and not completed by it. And bids having been received therefore on June 2, 1919, and rejected. A certified check in the sum of $500 must accompany each bid, which will be forfeited as liquidated damages in case bidder fails to comply if his bid is accepted. The successful bidder will be required to furnish a bond equal to the total contract price, and to be approved by the County Court. Plans and specifications for this work and a description of the sections are on file in the offices of the County Clerk and Road Engineer, Elkins, West Virginia. The County Court reserves the right to reject any and all bids.

LEE CROUCH,
President of the County
Court of Randolph County.

THADDEUS PRITT,
Clerk of the County
Court of Randolph Co.

The completion of said work on said roads will be let in five sections averaging about four miles each.

Bids will be received for concrete, macadam, tarvia, warrenite and asphaltic concrete construction. Bids will be received at unit prices.

Full information as to material, etc., will be furnished by the undersigned.

P. B. BLOOMFIELD,
Elkins, W. Va.

Bids: June 18.

Water Main Extensions

Dearborn, Michigan.

Sealed bids will be received at the office of the Village Clerk, Dearborn, Mich., up to eight P.M., of the 18th day of June, 1919.

The work consists of the furnishing of all material and labor to construct the following amount of cast iron water mains:

27,600 feet of 6 inch
7,100 feet of 8 inch
7,150 feet of 10 inch, including all necessary valves and fittings, and hydrants, according to plans and specifications on file at the office of the Village Clerk and in the office of C. W. Hubbell, Consulting Engineer, 2348 Penobscot Bldg., Detroit, from who mcopies may be obtained upon deposit of $5, which amount will be refunded upon the return of the plans and specifications in good condition within 10 days after opening bids.

No bids will be received unless accompanied by a certified check for the sum of $7000, payable to the Village of Dearborn, to insure the signing of contract and the furnishing of proper and acceptable bonds for the full amount of the contract price within 10 days from time of notification of the award of contract.

The right is reserved to reject any or all bids.

By order of the Village Commission.

FRED C. ROAMER,
Village Clerk,
Dearborn, Mich.

OFFICIAL PROPOSALS

Bids: June 23.

Street Paving

Coatesville, Penn.

Sealed proposals addressed to the City Clerk of the City of Coatesville, Penn., and endorsed, "Bids for Paving Streets," will be received by the City Council at the City Hall, Coatesville, Penn., up to eight o'clock P.M., on Monday, June 23, 1919, and there publicly opened and read.

The work to be done consists of approxmiately:

28,625 sq.yd. of bituminous pavement on a cement concrete base.
1,375 sq.yd. of bituminous pavement on existing base.
4,500 sq.yd. of vitrified brick pavement to be relaid.
4,300 sq.yd. of vitrified brick pavement or stone block pavement along tracks.
3,000 lin.ft. cement concrete curb.

Bids will be received on sheet asphalt, asphaltic concrete, Warrenite, Filbertine, Amiesite and Bito-slag.

Each proposal must be accompanied by a certified check in an amount equal to five (5) per cent. of the highest amount bid, made payable to the Treasurer of the City of Coatesville, Pa.

OFFICIAL PROPOSALS

Bids: June 17.

Paving, Sewers, Pipe, Etc.

Murfreesboro, Tenn.

Sealed proposals will be received at the office of the Secretary of the Board of Commissioners, Murfreesboro, Tennessee, until 11 o'clock A.M., of the 17th day of June, 1919, then and there to be publicly opened and read by the Secretary for furnishing all labor, tools and certain materials for paving and other improvements. Separate bids will be entertained on the approximate quantities, as follows:

1—15,500 sq.yd. of asphaltic-concrete pavement.
400 lin.ft. vitrified brick headers.
500 cu.yds. earth excavation.
1,000 sq.yds. new macadam foundation.
2— 110 lin.ft. 30" concrete combination curb and gutter.
3,100 lin.ft. 24" concrete combination curb and gutter.
2,300 lin.ft. 18" concrete combination curb and gutter.
4,000 sq.ft. 24" concrete gutter.
500 sq.ft. concrete sidewalk.
12 catch basins.
60 ft. storm water culverts (without cast iron covers).
3— 850 ft. 8" vitrified clay pipe sewer.
200 ft. 10" vitrified clay pipe sewer.
900 ft. 6" vitrified clay pipe sewer relaid.
900 ft. 20" vitrified clay pipe sewer relaid.
4— 570 ft. 2" galvanized pipe laid.
1,600 ft. No. 6 B. & S. single conductor 5000-volt, armored cable, installed.
16 sidewalk outlets for cable.

All bids must be accompanied by a certified check or bond in the amount of 10% of the bid, made payable to the Treasurer of the City of Murfreesboro, Tennessee.

Plans and specifications may be obtained, upon deposit of $10.00, from C. B. Howard & Company, Engineers, 148 Fourth Ave., North, Nashville, Tennessee, which sum will be refunded on surrender of the plans and specifications in good condition.

The Board reserves the right to reject any or all bids.

J. T. RATHER,
Secy. Board of Commissioners,
City of Murfreesboro, Tenn.

Bids: June 14.

Pavement Construction

Willoughby, Ohio.

Sealed bids will be received by C. C. Jenkins, Village Clerk, for the construction of approximately 47,000 sq.yd. brick pavement 6 in. concrete foundation, cement grout filler, 33,000 lin.ft. concrete curbing and gutter, combined 12,000 lin.ft. storm sewers, 6 in. to 18 in. in said village until 12 o'clock noon, June 14, 1919, and publicly opened and read at the Council Chamber in said village.

Plans and specifications may be seen at the office of the Village Clerk, or may be obtained from the Village Engineer upon payment of ten dollars which will be refunded when same are returned in good condition. Certified check $500, payable to Village Treasurer. Council reserves the right to reject any and all bids.

C. C. JENKINS, Village Clerk.

OFFICIAL PROPOSALS

Bids: July 5.

Paving

Brunswick, Ga.

Sealed proposals will be received by the County Commissioners of Glynn County, Ga., at the Court House, Brunswick, Ga., until twelve o'clock noon, July 5, 1919, for the paving of four and four-tenths (4.4) miles, or approximately 46,400 sq.yd. of highway, extending from the City of Brunswick to the Picric Acid Plant, for which Federal Aid has been allotted.

Plans and specifications are on file in this office, in the office of the State Highway Engineer, Atlanta, Ga., and in the office of E. R. Conant, Brunswick, Ga. Copies of plans may be obtained from the engineer upon payment of $5.

Proposals shall be submitted on regular forms which will be supplied, together with specifications, upon application to Mr. Paul E. Twitty, Clerk of the County Commissioners, Brunswick, Ga. Proposals must be accompanied by a certified check, or money deposit, for five thousand ($5000) dollars, checks to be made payable to the County Commissioners of Glynn County.

The right is reserved to reject any or all bids and to waive all informalities.

(Signed) Commissioners of Glynn County.
By P. E. TWITTY,
Clerk to Commissioners.

Brunswick, Georgia, May 31, 1919.
E. R. CONANT, Consulting Engineer.
Brunswick, Georgia.

Bids: June 26.

24 Inch Out-Fall Sewer

Greenwich, Conn.

Pursuant to a resolution adopted June 4, 1919, the Joint Sewerage Commission of the Borough of Greenwich and the Town of Greenwich, Connecticut, will receive at its meeting to be held at the Town Hall, Greenwich, Connecticut, on Thursday evening, June 26, 1919, at eight (8) o'clock P.M., sealed proposals for furnishing all materials and doing all work required to complete the construction of a new 24 in. Out-Fall Sewer from the junction of the east side and west side trunk sewers to the Joint Sewerage Disposal Plant upon Grass Island for the Borough of Greenwich, and Sewer District No. 6, of the Town of Greenwich, Connecticut, including the necessary piping, piling, etc.

Plans may be seen and specifications and forms of proposal obtained at the office of the Joint Sewerage Commissioners, Room No. 2, Town Building, Greenwich, Connecticut, or at the Office of Mr. S. E. Minor, Civil Engineer, No. 96 Greenwich Avenue, Greenwich, Connecticut. Plans may be taken away upon the payment of ten ($10) dollars, the same to be refunded if plans are returned within fourteen (14) days in good condition.

Each bid must be accompanied by a certified check on a solvent bank for one thousand ($1000) dollars.

The said Joint Sewerage Commissioners reserve the right to reject any and all proposals and to waive any informality in the proposals received and to accept any proposal which it deems to be most favorable to the interest of the Borough and Town.

HARRY C. FROST, Chairman.
JOSEPH P. CROSBY, Warden.
ALBERT S. MEAD, Clerk.

OFFICIAL PROPOSALS

Bids: July 2.

Boilers and Stokers

Lorain, Ohio.

Sealed proposals will be received by the Board of Education, Lorain, Ohio, until 12 o'clock noon, July 2, 1919, for the installation of water tube boilers and stokers and erection of a radial brick chimney at the High School Boiler House as per plans and specifications prepared by the Watson Engineering Co. of Cleveland, Ohio.

Plans and specifications are on file at the office of the Clerk of the Board of Education, Lorain, Ohio, and at the office of the Watson Engineering Co., 1101 Hippodrome Bldg., Cleveland, Ohio.

Bidders shall be required to state when they will begin and finish the work after the contract shall have been entered into.

Each bid must contain the name of every person interested in the same and must be accompanied by a certified check, payable to the Board of Education of Lorain, Ohio, in the sum of $500 as a guarantee, that if the bid is accepted, a contract will be entered into and the performance of it properly secured.

Proposals must be sealed up, addressed to the Clerk and indorsed on the outside, plainly showing the items bid upon and the name of bidder.

The Board reserves the right to reject any, part of any or all bids or proposals.

A satisfactory bond of not less than fifty (50) per cent. of the contract price will be required on all contracts.

By order of the Board of Education, Lorain, Ohio.

E. BRUELL,
Clerk.

Bids: June 10.

Sewer Construction

OFFICE OF THE COMMISSIONER OF PUBLIC WORKS,
SAGINAW, MICHIGAN.

Sealed proposals will be received by the City Clerk, until Tuesday, June 10, 1919, and until such time on said day as the Council in session shall order the opening of such proposals, for

CONSTRUCTING A REINFORCED CONCRETE OR SEGMENT BLOCK SEWER IN

Florence and Salt Streets, on Florence Street from a point 100 ft. E. of center line of Queen Street to Salt Street, and on Salt Street, from Florence Street to Holmes Street, all in accordance with the plans, specifications and detailed information on file in this office and in the office of the City Clerk. Work shall commence not later than July 15, 1919, and be completed not later than December 1, 1919.

Proposals must be made upon printed forms which will be furnished by this department upon application, and must be accompanied by cash or certified check of a responsible bank, payable to the order of the City Treasurer, in an amount as determined by the Council. The successful bidder will be required to furnish a surety company bond in a sum of not less than twenty-five (25) per cent. of the amount of the contract, to secure the faithful performance of the contract. The right is reserved to reject any and all bids.

ROBERT F. JOHNSON
Com. of Light, Water and Sewers

Bids: June 23.

Furnishing Oil and Asphalt

Woonsocket, R. I.

Sealed proposals will be received by the Aldermanic Committee on Streets and Bridges of the City of Woonsocket, R. I., at the Aldermen's Chambers, City Hall, Woonsocket, R. I., until 8:15 P.M., Monday, June 23, 1919, at which time and place proposals will be publicly opened and read. Said Committee will be in session at 8 P.M. on said date for the purpose of receiving proposals for the following:

NO. 1. OIL—For furnishing 100,000 gallons, more or less, of oil for the City of Woonsocket, R. I., suitable for street oiling and containing not less than 45 per cent. asphalt. Specification for oil to be furnished by the bidder. Agreement and City Specifications may be seen at the office of the City Engineer.

NO. 2. ASPHALT—For furnishing five hundred (500) barrels, more or less, of asphalt binder for macadam roadways, penetration method. The bid must specifically state the name, nature and analysis of the asphalt binder and bid must be accompanied with a sample of at least one pound. Specification must accompany proposal.

Certified check for $100 must accompany proposal for oil, and certified check for $100 must accompany proposal for asphalt, as surety that if proposal is accepted a contract will be entered into.

The right is hereby reserved to reject any or all bids as the interest of the City may appear.

ADRIAN H. SYLVESTRE, Chairman,
JAMES F. CARROLL,
ANTHONY BELANGER,
Aldermanic Committee on
Streets and Bridges.
FRANK H. MILLS, City Engineer.

Bids: June 17.

Paving

Henderson, N. C.

Sealed proposals will be received by the Mayor and Board of Commissioners of the City of Hnderson, N. C., at City Hall, in Henderson, N. C., until 4 P.M., June 17, 1919, for Street Improvements.

The work will consist of about:

55,000 sq.yd. of asphalt, bitulithic, concrete, brick or other pavement.
7,000 lin.ft. of granite or concrete curb.
7,000 lin.ft. of concrete gutter.
9,000 sq.yd. of sidewalk.
18,000 cu.yd. of grading.

And the necessary drainage, etc.

It is expected that additional work will be done later.

Proposals must be marked, "Proposals for Street Improvement."

All bids must be upon blank forms provided in the Proposal and Contract and Specifications.

Each bid must be accompanied by a certified check for $5000 as evidence of good faith.

Plans and specifications will be on file at the Clerk's office in Henderson and at the office of the Engineer in Durham, N. C.; and copies of the specifications, form of proposal, etc., will be mailed upon application to the Engineer at Durham, N. C.

The right is reserved to reject any or all bids.

M. H. STONE, Mayor.
GILBERT C. WHITE, Engineer,
Durham, N. C.

Bids: June 23.

Paving

Geneva, N. Y.

Sealed proposals will be received by the Board of Public Works of the City of Geneva, N. Y., at its office in the City Hall, until 7:30 o'clock P.M., Monday, June 23, 1919, for paving High, West and Brook Streets. The work for which proposals are invited consists of the following approximate quantities:

5,400 cu.yd. of excavation.
8,750 lin.ft. of curb and gutter.
175 lin.ft. of header.
8,750 lin.ft. of 3 in. drain tile.
3,000 lin.ft. of vitrified pipe.
30 catch basins.
10,000 sq.yd. of brick, asphalt or concrete pavement.

Each proposal must be accompanied by a certified check for five (5%) per cent. of the amount of the proposal.

A surety bond in the sum of fifty (50%) per cent. of the amount of the contract will be required of the successful bidder.

Specifications and blank forms of proposals can be obtained upon application to the Board of Public Works. Plans may be seen at the office of the City Engineer.

The right is reserved to reject any or all bids.

H. K. SEYBOLT,
Superintendent.

Bids: July 2.

Road Reconstruction

Burlington, N. J.

Notice is hereby given that sealed bids will be received by the Board of Chosen Freeholders of Burlington County, N. J., for the reconstruction of the Camden County line, Marlton-Medford Road, in the township of Evesham, in the county of Burlington, with a sheet asphalt surface upon a macadam foundation; estimated amount of surface pavement required is 31,680 sq.yd., and opened and read in public at the Court House, Mount Holly, N. J., on Wednesday, July 2, 1919, at 11 A.M.

Specifications and form of bid, contract and bond for the proposed work prepared by James Logan, County Engineer, and approved by the State Highway Commission, have been filed in the office of the said Engineer at No. 11 Main St., Mt. Holly, N. J., and of said Highway Commission, Trenton, N. J., and may be inspected by prospective bidders during business hours. Bidders will be furnished with a copy of the specifications by the Engineer on proper notice and payment of cost of preparation. Bids must be made on the standard proposal forms in the manner designated therein and required by the specifications, must be enclosed in sealed envelopes, bearing the name and address of the bidder and name of road on the outside, addressed to Harry Hawkins, Jr., Clerk of the Board of Chosen Freeholders, and must be accompanied by a certificate from a Surety Company to furnish bond and a certified check for not less than $1000, and be delivered at the place and on the hour above named. The standard proposal forms are attached to the specifications, copies of which will be furnished on application to the Engineer.

By order of the Board of Chosen Freeholders.

HARRY HAWKINS, JR.,
Clerk.

Bids: July 1.

Construction, Heating, Etc.

Middletown, N. Y.

Sealed proposals for construction, heating, sanitary and electric work, new building for chronic patients, Middletown State Homeopathic hospital, Middletown, N. Y., will be received by the State Hospital Commission at the Capitol, Albany, N. Y., until 3 o'clock P.M. on Tuesday, July 1, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent. (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3246, 3247, 3248 and 3249. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Middletown State Hospital, Middletown, N. Y., at the New York Office of the Department of Architecture, Room 618 Hall of Records Building, and at the Department of Architecture, Caiptol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

E. S. ELWOOD,
Secretary, State Hospital Commission.
Dated: May 29, 1919.

Bids: June 16.

Electrifying Pumping Station

DEPARTMENT OF PUBLIC WORKS

Lackawanna, N. Y.

Sealed proposals for work, materials and supplies for electrifying the Pumping Station, will be received by the Board of Common Council of the city of Lackawanna, at the city building until 8 o'clock in the afternoon of Monday, June 16, 1919, at which place and hour the said bids will be publicly opened and read. No proposals will be considered unless it be accompanied by a duly certified check, payable to the order of the City Clerk, of the City of Lackawanna, such check to represent 25 per cent. of the amount named in the proposal or by a bond to represent 50 per cent. of the sum named in the proposal.

The Common Council reserves the right to reject any and all bids and waive any informalities or to divide said contract if in the judgment of the Common Council, the interest of the city requires it.

TO ELECTRIFY THE PUMPING STATION

Plans and specifications and extent of quantities can be seen and any desired information can be had and obtained on application to the office of the Commissioner of Public Works, of the city of Lackawanna, on and after this date.

By order of the Common Council of the city of Lackawanna, as set forth in its proceedings at a meeting held June 2, 1919.

Dated: Lackawanna, N. Y., June 3, 1919.

JOSEPH O'CONNOR,
City Clerk.
Pub. June 5, 1919.

Bids: June 18.

Road Work

STATE OF ILLINOIS
DEPARTMENT OF PUBLIC WORKS AND BUILDINGS
DIVISION OF HIGHWAYS
Springfield, Ill.

Notice is hereby given that sealed proposals will be received in the office of the Department of Public Works and Buildings, Division of Highways, Springfield, Illinois, until 10 o'clock A.M., June 18, 1919, for the road work on the Natoinal, Chicago-Joliet, Dixie and Peoria-Springfield Highways, designated by county and section below. All bids shall be on regular forms furnished by the Department.

Plans for all the work may be examined in the offices of the Department of Public Works and Buildings, Division of Highways, Springfield, Illinois. Plans for the sections in the County of Effingham may be examined in the office of District No. 6, Chas. M. Slaymaker, District Engineer, 510 Metropolitan Bldg., E. St. Louis. Plans for the sections in the Counties of Cook and Will may be examined in the office of District No. 1, H. B. Bushnell, District Engineer, 138 Fox Street, Aurora, Illinois. Plans for the section in Iroquois County may be examined in the office of District No. 4, R. L. Bell, District Engineer, Buchanan-Link Bldg., Paris, Illinois. Plans for the work in Mason Co. may be examined in the office of District No. 5, Fred Tarrant, District Engineer, 506½ East Monroe Street, Springfield, Illinois.

Route	County	Sec.	Width Feet	Approximately Length-Feet
National Highway	Effingham	I	16	22,445
National Highway	Effingham	J	18	7,724
National Highway	Effingham	K	18	10,425
National Highway	Effingham	L*	30	22,459
National Highway	Effingham	M	16	17,994

National Highway	Effingham	G-15d	18 and 16	21,000
Chicago-Joliet Highway	Cook	B	20 and 18	30,635
Chicago-Joliet Highway	Cook	C	18	35,847
Chicago-Joliet Highway	Will	D	18 and 20	27,450
Dixie Highway	Iroquois	3	16	27,304
PeorisPeoria-Springfield Highway	Mason	M-†	16	4,678

*No pavement on this section—Earth work and culverts.

Plans will not be sent to prospective bidders but upon making a deposit with the District Engineer having the plans, they may be obtained for temporary use while inspecting the conditions attending the work in question.

Except as noted,

Alternative bids will be received for the following types of construction: Portland cement concrete; monolithic brick (4 inch brick); monolithic brick (3 inch brick); bituminous concrete with binder course (Specifications C1, C2, C3, or CT); bituminous concrete without binder course (Specifications C1, C2, C3, or CT).

†In addition, bids will be received on the same date at Mason City, Illinois, by Mason City for certain street paving that will widen Section M considerably. Section M and the additional paving to be awarded by Mason City will not be let separately from one another, and consequently bidders wishig o submit proposals for Section M should obtain from Mason City proposal forms upon which to submit proposals for the city paving.

Cement will be furnished for all sections by the Department of Public Works and Buildings or the County.

Contractor's reconnaissance profiles and blue prints showing the locations of the work, railroad sidings and material information may be obtained by prospective bidders in the office of the District Engineer having the plans.

By Order of The Department of Public Works and Buildings.

FRANK I. BENNETT,
Director.

S. E. BRADT,
Supt. of Highways.
CLIFFORD OLDER,
Chief Highway Engineer.

Bids: July 16.

Water Mains and Appurtenances

Decorah, Iowa.

Sealed proposals will be received by the Mayor and City Council of the City of Decorah, Iowa, at 7:30 P.M., July 16, 1919, at the office of the City Clerk, in the said City, for laying approximately 11,400 lin.ft. 4 in. water main, and making necessary connections, as to valves, T's, L's and fire hydrants; also connecting with old mains where they intersect, the contractor to furnish labor, lead and oakum; bids will also be received for relaying of approximately 600 ft. of 10 in. vitrified sewer pipe.

Specifications showing schedule of streets, together with blank forms for bidders can be obtained at the office of the City Clerk, City Hall, Decorah, Iowa.

All bids must be accompanied by a certified check for 5% of the amount bid.

The contractor must comply with all provisions of the Workmen's Compensation Act of Iowa.

The Council reserves the right to reject any or all bids and to award the work as may appear to be for the best interests of the city.

MARK D. WELLS,
City Clerk.

Bids: June 25.

Street Paving

DEPARTMENT OF STREETS AND PUBLIC IMPROVEMENTS
Reading, Pa.

Sealed proposals will be received at the office of the City Clerk, Reading, Pa., until 10 A.M., Wednesday, June 25, 1919, for the construction of paving and appurtenances on various streets in the City of Reading.

Approximate quantities are 17,000 sq.yd. sheet asphalt, 9000 sq.yd. vitrified block and 650 sq.yd. wood block.

All necessary forms for bidding, plans, specifications and any other information may be obtained at the office of the City Engineer, City Hall, Reading, Pa. A deposit of five dollars ($5) will be required for each set of asphalt or block plans and specifications taken from the office, which deposit will be remitted to bidders upon return of plans before July 1, 1919.

Proposals must be endorsed as to the character of paving bid on and addressed to the Superintendent of the Department of Streets and Public Improvements, in care of the City Clerk, Reading, Pa.

The right is reserved to reject any or all bids.

JACOB H. McCONNELL,
Superintendent.
EDMUND B. ULRICH, City Engineer.

OFFICIAL PROPOSALS

Bids: June 23.

Waterworks Improvements

Lusk, Wyoming, June 3, 1919.

Sealed bids for improvements and extensions to the Municipal Water System will be received by the Town Council of the Town of Lusk, Wyoming, up until 8 o'clock P.M., June 23, 1919, and then and there publicly opened and read.

The plan embraces the furnishing and installing of approximately 12,850 ft. of four inch, 1700 ft. of six inch, 3300 ft. of eight inch, 1330 ft. of ten inch and 4950 ft. of twelve inch cast iron pipe Class "B" American Waterworks Standard, according to plans and specifications on file in the offices, or the Town Engineer. Of the twelve inch pipe, 1750 ft. may be replaced by fourteen inch.

Hydrants and valves will be furnished by the Town, separate bids on which will be received at the same time as the foregoing. Forty-five fire hydrants and sixty valves, four to fourteen inch, with valve boxes, American Waterworks Standards will be required.

Bids for the principal work must be accompanied by certified check for five thousand dollars ($5000), made payable to the Town Treasurer, without recourse. Bids for hydrants and valves must be accompanied by certified check for at least ten per cent. of the gross bid.

Plans, specifications, proposal forms, form of contract and form of bond can be procured from R. F. Gray, Town Engineer, upon deposit of ten dollars ($10.00) which will be refunded upon their return in good condition not later than the day after opening of bids.

The Town Council reserves the right to reject any and all bids, to waive irregularities and to award the contract as may be deemed best for the interests of the Town.

GEORGE H. HOWES,
Mayor.
D. E. GODDARD,
Clerk.
R. F. GRAY,
Engineer.

Bids: June 23.

Street Improvement

North Adams, Mass.

Sealed bids will be received by the Commissioner of Public Works, City Hall, North Adams, Mass., until 4 P.M., June 23, 1919, for the following street improvements, consisting of about:

4600 sq.yd. of concrete roadway on Zylonite Road.
1700 sq.yd. of concrete roadway with 600 sq.yd. of brick paving on Beaver Street.
4500 sq.yd. of bituminous macadam top surface, to be laid over old water bound macadam on Beaver Street.
1300 lin.ft. of concrete combination curb and sidewalk on Beaver Street.

Each bid must be marked, "Proposals for Street Improvement," and to be accompanied by a certified check for not less than 5% of the price bid, payable to the Treasurer of the City of North Adams, Mass., as a guarantee that if the contract is awarded, it will be executed within ten days of notice of award.

Specifications may be had at the office of the Commissioner.

The right is reserved to reject any or all bids.

JACKSON L. TEMPLE,
Commissioner of Public Works.
June 9, 1919.

Bids: June 23.

Pier Construction

DEPARTMENT OF WHARVES, DOCKS AND FERRIES,
550 Bourse Building,
Philadelphia, Pa.

Sealed proposals, endorsed "Bids for the construction, with appurtenant work, of Penn Treaty Recreation Pier, No. 57, North Delaware River, will be received until 12 o'clock noon, Monday, June 23, 1919, in room No. 550, Bourse Building, Philadelphia, and then publicly opened.

Plans, specifications and blank forms upon which bids must be made can be obtained at the office above mentioned upon the deposit of a certified check in the sum of $25, to cover costs of blue prints, which check will be returned upon the receipt of the plans and specifications in good condition.

Proof must be submitted the Department by the contractor that he has accepted the provisions of the Workingmen's Compensation Act of June 18, 1917, relative to workingmen's compensation insurance, and insured his liability thereunder or secured exemption therefrom.

No bid will be considered unless accompanied by a certificate from the City Solicitor of the City of Philadelphia, to the effect that the provisions of an ordinance approved May 25, 1860, requiring proposal bonds on all bids exceeding in amount $500 have been complied with.

The Director reserves to himself the right to reject any or all bids as he may deem best for the interest of the City of Philadelphia.

GEORGE S. WEBSTER, Director.

Bids: June 17.

Paving

Fort Collins, Colo.

The City of Fort Collins, Colo., will receive until 1 P.M., June 17, 1919, sealed bids for the following work, (more or less):

37,710	sq.yd. of reinforced concrete pavement.
5,984	cu.yd. of earth excavation.
4,469	lin.ft. of concrete curb and other incidentals.

Plans and specifications may be seen at the Engineer's Office or secured upon deposit of $5, which will be refunded to unsuccessful bidder upon their return.

W. B. CHEECK,
City Engineer.

U. S. ENGINEER OFFICE, Louisville, Ky. Sealed proposals will be received here until 12 noon (central time) ,June 19, 1919, and then opened for constructing Lock and Abutment for Dam No. 45, Ohio River, at Addison, Ky. Further information on application.

OFFICIAL PROPOSALS

Bids: July 7.

Concrete Bridge Construction

Elmira, N. Y.

Sealed proposals for the construction of a concrete bridge approximately 830 feet long and 30 feet high, consisting of eight arches, over the Chemung River at Main Street in the City of Elmira, Chemung County, New York, will be received by the Board of Public Works of the City of Elmira, N. Y., at the office of the City Clerk in the City Hall, until 11:00 o'clock A.M., Monday, July 7, 1919, and publicly opened at that time.

Bids must be made upon proposal blanks attached to the specifications, and must be accompanied by a Certified Check in a sum equal to at least five per cent. (5%) of the amount of the bid and made payable, without reservations, to the order of the Mayor of the City of Elmira, N. Y.

Plans and specifications may be seen at the office of the City Engineer in the City Hall, Elmira, N. Y. Copies of the plans and specifications may be had by making a deposit of Ten Dollars ($10.00), which deposit will be returned when plans are returned in good condition on or before the date of the letting.

The right is reserved to reject any or all bids.

LOUIS C. ANDREW,
Clerk of the Board of Public Works
of the City of Elmira, N. Y.

Bids: June 20.

Highway Work

DEPARTMENT OF PUBLIC WORKS

Manchester, N. H.

Sealed proposals for paving certain highways will be received at the office of the Department of Public Works, City Hall, Manchester, N. H., until 2 o'clock P.M., June 20, 1919, and at that time and place all proposals will be publicly opened and read and no proposal will be received after that time.

DESCRIPTION OF WORK

Proposals are hereby called for on sheet asphalt, Topeka or bitulithic surface laid on concrete or broken stone foundation, including all excavation, grading, incidental work, etc., on the following highways together with the approximate amount to be expended and not to be exceeded on the several locations.

Elm St., between Orange St. and Webster St.	$28,787.59
Bridge St., between Belmont St. and Highland St.	$17,635.18
Stark St., between Elm St. and Canal St.	$13,153.69
Cedar St., between Elm St. and Pine St. and Birch St., between Lowell St. and Bridge St.	$14,953.92
Spruce St., between Union St. and Maple St. and Beech Street., between Spruce St. and Auburn St.	$14,932.61
Second St., between Granite St. and Cleveland St.	$15,291.80
South Main St., A St. to Bedford Line	$11,545.84

All proposals shall be submitted on blank forms which may be obtained at the office of the Department of Public Works. Each proposal shall be accompanied by a certified check of a responsible bank or trust company for Seventy-five hundred $(7500) Dollars payable to the City Treasurer of the City of Manchester, N. H., said check to be returned to the bidder unless he fails to execute the contract should it be awarded to him.

Information and specifications may be had upon application at the office of the Department, plans and profiles may be seen at the office of the City Engineer.

A bond will be required for the faithful performance of the contract in a sum to be fixed by the Director after the bids are opened, said sum to be approximately one-third (⅓) of the estimated amount of the contract, the sureties to be satisfactory to the Commissioners of Public Works.

The contractor to whom the contract may be awarded shall appear at the office of the Department of Public Works with the surety offered by him within three (3) days after the awarding of the contract, and execute the same and in case of failure or neglect to do so, he will be considered as having abandoned the same and shall forfeit the check accompanying his proposal.

The Director of the Department of Public Works expressly reserved the right to reject any or all proposals.

DEPARTMENT OF PUBLIC WORKS,
SAMUEL J. LORD, Director.

Bids: June 26.

Highway Construction

Little Rock, Ark.

Sealed bids will be received by the Commissioners of Road Improvement District No. 2, Cleveland County, Arkansas, at the office of the State Highway Dept., Little Rock, Ark., up to 4 o'clock P.M., on June 26th, 1919, for the construction of 10½ miles of road. Bids are asked on Clearing and Grubbing, Culverts, Bridges and Grading, only, at this time.

The approximate quantities are as follows:

28	acres Clearing and Grubbing.
4	miles Fence Moving.
35,000	cu.yds. Earth Excavation.
1.5	miles grading machine work.
216	cu.yds. Class A concrete.
119	" " B concrete.
504	lin.ft. Concrete or Corr. Iron Pipe, 18 inch.
622	lin.ft. Concrete or Corr. Iron Pipe, 24 inch.
3	40 ft. Steel Truss spans erected.
1	60 ft. " " " "
1	80 ft. " " " "
260	lin.ft. Wooden Pile Bridges.

Separate bids may be submitted for any one or all of the following items:

Concrete or Corrugated Iron Pipe, Concrete in culverts and bridge abutments, Steel bridges erected, Wooden bridges erected.

Plans and specifications are on file with the State Highway Dept., Little Rock, Ark., and copies of same, together with proposal forms may be obtained from the District engineers, Moreland & Bennett, Pine Bluff, Ark., on deposit of $10.00, of which amount $8 will be refunded upon their erturn.

A certified check to the amount of 5% of the amount bid msut accompany each proposal, check to be made to the order of the President of the Board of Commissioners of said district.

Successful bidders will be required to furnish a construction bond to the amount of 25% of their contract price.

BOARD OF COMMISSIONERS,
Road Imp. Dist. No. 2,
Cleveland County, Arkansas.
By M. F. STANFIELD, President.

Bids: July 7.

Bridge Construction

McAlester, Okla.

Notice is hereby given that sealed proposals for the construction of Highway Improvement in Pittsburg County, Oklahoma, will be received by the County Commissioners of Pittsburgh County, in the office of the County Clerk of said County, at McAlester, Oklahoma, until two o'clock P.M., Monday, July 7th, 1919. Said bids will then be publicly opened.

Description of work to be done:

To construct a steel Highway Bridge across Gaines Creek, approximately four (4) miles northeast of Canadian, Oklahoma, of approximately 354 feet in total length, consisting of three (3) spans of approximately 118 feet in length, and the necessary abutments and piers therefor, width of roadway 18 feet.

Detailed plans, specifications, estimates and form of proposal sheet may be seen for examination at the office of the County Engineer or the County Clerk, in McAlester, Pittsburg County, Oklahoma, or at the office of the State Engineer, in Oklahoma City, Oklahoma, or may be obtained by depositiing $5.00 with the County Engineer at McAlester. Such deposits will be returned only upon the return of the plans in good condition within two weeks after the letting.

A certified check for $1000.00 drawn upon some bank in the State of Oklahoma, and made payable to the County of Pittsburg, State of Oklahoma, must accompany each proposal. The right is reserved to reject any and all bids.

Proposals shall be submitted in sealed envelopes and marked "Bids for the Construction of Gaines Creek Bridge near Canadian, Oklahoma."

Proposals may be sent by mail, and when sent by mail shall be enclosed in an additional sealed envelope and marked as indicated above. All proposals otherwise submitted will be rejected as irregular. Only sealed bids will be considered.

All bids received will be retained by the County Commissioners and will not be returned to the bidders.

W. J. KINDRICK, County Clerk.

Bids: June 23.

Street Improvement

Jackson, Tenn.

Sealed proposals will be received by the undersigned until 10 o'clock A.M., on June 23rd, 1919, for improving certain streets and alleys in the city of Jackson, Tennessee, in accordance with ordinances Nos. 48 to 62 inclusive, all in accordance with plans, profiles and specifications prepared and on file in the Office of the City Commissioners approximating 52,000 square yards of Street Asphalt on a Concrete Base, 3350 Square Yards of Sheet Asphalt on a Macadam Base, 5300 Square Yards of Concrete Pavement, 1200 Lineal Feet of Concrete Curb, 3300 Square Yards of Brick Gutter, 6000 Lineal Feet of 12" to 24" Vitrified Pipe, and necessary inlets and manholes. Each bid must be accompanied by a certified check made payable to the City Recorder of Jackson, Tenn., for not less than Ten (10) per cent. of the cost of the entire work computed on the basis of the bid submitted. The right is reserved to reject any or all bids. Specifications and additional information can be obtained at the office of the City Commissioners, Jackson, Tenn. At 10 o'clock on said date, June 23, 1919, all bids will be opened and publicly read.

STUDY BY MAIL

Reinforced Concrete Engineering
Structural Steel Designing
Structural Drafting

Are you able to design and estimate the cost of any and all types of structures in Reinforced Concrete, Steel or Wood? And are your designs safe, economical and up to the minute? If not, WHY NOT?

Special courses of HOME STUDY have been arranged by well known engineer with 30 years' experience in this country and abroad; they are meeting a long felt want.

Men with a High School education are as qualified to take up these courses of work as are technical graduates. Ideal work for the man who wants to "brush up" after being away.

These are courses in experience. You learn to do the work by *actually doing it.* A chance for the ambitious man to get ahead.

Descriptive literature sent free upon request.
Write for it today.

OFFICIAL PROPOSALS

OFFICIAL PROPOSALS

Bids: July 15.

Barge Canal Terminals

STATE OF NEW YORK
OFFICE OF SUPERINTENDENT OF PUBLIC WORKS
Albany, June 16th, 1919.

Sealed proposals will be received by the undersigned at his office in the Capitol at Albany, N. Y., until 12 o'clock noon of Tuesday, July 15, 1919, at which place and hour they will be publicly opened and read, for the construction of Barge Canal terminals pursuant to the provisions of Chapter 746 of the Laws of 1911, and of the acts amendatory thereof, as follows:

—1—

TERMINAL CONTRACT NO. 43

For constructing a Barge Canal terminal and a frame freighthouse at Flushing, Borough of Queens, New York City.

Contract plans, sheets 1 to 10, inclusive.

—2—

TERMINAL CONTRACT NO. 112.

For furnishing, delivering and testing industrial freight-handling trailers and stevedore freight-handling trucks for Barge Canal terminals in New York City:

Contract plans, sheets 1 and 2.

Plans may be seen and detailed specifications, engineer's estimate of quantities, proposal blanks, forms of contract and bonds required and other information for proposers may be had at the office of Superintendent of Public Works at Albany, N. Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., at the canal office, Spaulding's Exchange, Buffalo, N. Y., and at office of State Engineer, Hall of Records, New York City.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the City of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner, if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

E. S. WALSH,
Superintendent of Public Works.

Special price for Official Proposals, $3.60 an inch — Copy for Official Proposals can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

OFFICIAL PROPOSALS

U. S. ENGINEER OFFICE, 725 Central Bldg., Los Angeles, Cal. Sealed proposals for constructing silt diversion works near Los Angeles and Long Beach Harbors, California, will be received here until 11 A.M., July 18, 1919, and then opened. Information on application.

OFFICIAL PROPOSALS

Bids: June 26.

Highway Construction

Little Rock, Ark.

Sealed bids will be received by the Commissioners of Road Improvement District No. 2, Cleveland County, Arkansas, at the office of the State Highway Dept., Little Rock, Ark., up to 4 o'clock P.M., on June 26th, 1919, for the construction of 10½ miles of road. 35,000	cu.yds. Earth Excavation.
1.5	miles grading machine work.
216	cu.yds. Class A concrete.
119	" " B concrete.
504	lin.ft. Concrete or Corr. Iron Pipe, 18 inch.
622	lin.ft. Concrete or Corr. Iron Pipe, 24 inch.
3	40 ft. Steel Truss spans erected.
1	60 ft. " " " "
1	80 ft. " " " "
260	lin.ft. Wooden Pile Bridges.

Separate bids may be submitted for any one or all of the following items:

Concrete or Corrugated Iron Pipe, Concrete in culverts and bridge abutments, Steel bridges erected, Wooden bridges erected.

Plans and specifications are on file with the State Highway Dept., Little Rock, Ark., and copies of same, together with proposal forms may be obtained from the District engineers, Moreland & Bennett, Pine Bluff, Ark., on deposit of $10.00, of which amount $8 will be refunded upon their erturn.

A certified check to the amount of 5% of the amount bid msut accompany each proposal, check to be made to the order of the President of the Board of Commissioners of said district.

Successful bidders will be required to furnish a construction bond to the amount of 25% of their contract price.

BOARD OF COMMISSIONERS,
Road Imp. Dist. No. 2,
Cleveland County, Arkansas.
By M. F. STANFIELD, **President.**

Bids: July 1.

Grading and Draining Road

Lewisburg, W. Va.

Until noon, July 1st, sealed bids will be received by the County Court of Greenbrier County, West Virginia, for grading and draining proposed road leading from Ronceverte, west to the Fort Spring District line, or so much thereof as funds available will permit. $70,000 has been appropriated.

The bulk of this work is on a new location with which traffic will not interfere.

Plans and specifications will be supplied to applicants sufficiently interested to look over the work.

The County Court reserves the right to reject any and all bids.

FRANK K. RADER,
County Engineer.

Bids: July 9.

Paving

Halifax, N. S.

Sealed tenders, addressed to His Worship the Mayor and endorsed "Tender for Paving" will be received at the office of the Clerk of Works, City Hall, Halifax, Nova Scotia, until 10 o'clock a.m., on Wednesday, July 9th, 1919, for paving certain streets in the City of Halifax.

The approximate quantities are:

23,000 sq.yds. of granite block pavement on concrete base; 133,000 sq.yds. of bituminous pavement on concrete base; 30,000 sq. yds. of bituminous pavement on macadam base; 33,000 lineal feet of concrete curb and gutter.

Each tender must be accompanied by a certified cheque payable in Halifax to the City Treasurer for the amount set forth in the forms of tender for each street, which cheque will be forfeited to the City if the bidder fails to execute the contract if awarded to him, within five days of the notice of such award.

The successful bidder will be required to furnish a bond to the amount of 25% of the amount of the contract as estimated by the City Engineer for the faithful performance of the contract.

Plans and specifications may be seen and forms of tender and all other information obtained at the City Engineer's office, City Hall, Halifax.

The City reserves the right to reject any or all tenders or to accept any tender which it deems best.

F. W. W. DOANE,
City Engineer.

Halifax, Nova Scotia.
June 18th, 1919.

Bids: July 7.

Concrete Bridge Construction

Elmira, N. Y.

Sealed proposals for the construction of a concrete bridge approximately 830 feet long and 30 feet high, consisting of eight arches, over the Chemung River at Main Street in the City of Elmira, Chemung County, New York, will be received by the Board of Public Works of the City of Elmira, N. Y., at the office of the City Clerk in the City Hall, until 11:00 o'clock A.M., Monday, July 7, 1919, and publicly opened at that time.

Bids must be made upon proposal blanks attached to the specifications, and must be accompanied by a Certified Check in a sum equal to at least five per cent. (5%) of the amount of the bid and made payable, without reservations, to the order of the Mayor of the City of Elmira, N. Y.

Plans and specifications may be seen at the office of the City Engineer in the City Hall, Elmira, N. Y. Copies of the plans and specifications may be had by making a deposit of Ten Dollars ($10.00), which deposit will be returned when plans are returned in good condition on or before the date of the letting.

The right is reserved to reject any or all bids.

LOUIS C. ANDREW,
of the City of Elmira, N. Y.

STRUCTURAL STEEL, FORGINGS, CASTINGS, ETC.—U. S. Engineer Office, Wheeling, W. Va.—Sealed proposals will be received here until 11 a.m. (Eastern time), June 23, 1919, and then opened, for furnishing and delivering structural steel, forgings, castings, etc., for lock gates at Locks Nos. 1 and 4, Little Kanawha River. Information on application.

Bids: July 8.

Road Construction

Elkins, W. Va.

Sealed bids will be received until one o'clock P.M., Tuesday, July 8, 1919, by the County Court of Randolph County, West Virginia, for the completion of the work of constructing approximately nineteen miles of improved roads and streets in Leadsville District of said Randolph County, to be let in sections. Said work having been heretofre let to Contract to the R. M. Hudson Paving and Construction Co. and not completed by it. And bids having been received therefore on June 2, 1919, and rejected. A certified check in the sum of $500 must accompany each bid, which will be forfeited as liquidated damages in case bidder fails to comply if his bid is accepted. The successful bidder will be required to furnish a bond equal to the total contract price, and to be approved by the County Court. Plans and specifications for this work and a description of the sections are on file in the offices of the County Clerk and Road Engineer, Elkins, West Virginia. The County Court reserves the right to reject any and all bids.

LEE CROUCH,
President of the County
Court of Randolph County.

THADDEUS PRITT,
Clerk of the County
Court of Randolph Co.

The completion of said work on said roads will be let in five sections averaging about four miles each.

Bids will be received for concrete, macadam, tarvia, warrenite and asphaltic concrete construction. Bids will be received at unit prices.

Full information as to material, etc., will be furnished by the undersigned.

P. B. BLOOMFIELD,
Elkins, W. Va.

Bids: July 8.

Bidding blanks and specifications may be obtained free and plans upon payment of $2.50 per set, upon application to State Highway Department, Harrisburg. No refund for plans returned. They can also be seen at office of State Highway Department, Harrisburg, 1001 Chestnut Street, Philadelphia, and 904 Hartje Building, Pittsburgh, Pa.

LEWIS S. SADLER
State Highway Commissioner

Bids: July 1

Jail Construction, Etc.

Toms River, N. J.

For the erection and completion of alterations and additions to jail and new wardens' house at Toms River, Ocean County, N. J. will be received on July 1st, 1919, at 12 o'clock noon and then publicly opened, each "bid" to be accompanied with a certified check or bid bond for $1000 to guarantee faithful execution of contract. All "bids" to be addressed to E. R. Yoder, chairman of building committee of the Ocean County Board of Freeholders. Plans are on file at the office of Thomas Stephen, architect, Room 304, Temple Building, Camden, N. J.

Rights reserved to reject any or all "bids."

Bids: June 23.

Well for Water Supply

Hoffman Island, N. Y.

Sealed proposals for new well for water supply, Quarantine Station, Hoffman Island, N. Y., will be received by Dr. L. E. Cofer, Health Officer, Port of New York, Rosebank, Staten Island, N. Y., until 12 o clock noon, on Monday, June 23, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the state architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent. (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of specification No. 3269. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the office of Dr. L. E. Cofer, Health Officer, Port of New York, Rosebank, Staten Island, N. Y.; at the New York office of the Department of Architecture, Room 618, Hall of Records Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

Dated June 9, 1919.

Bids: July 2.

Highway Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the improvement of the following:

State Highway Route No. 1, Section No. 3 (Robbinsville to Windsor), Mercer County, concrete surface, estimated 26,843 square yards.

Bids for the above will be opened and read in public at the office of the State Highway Commission, Broad Street Bank Bldg., Trenton, N. J., on Wednesday, July 2 1919, at 10:30 A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work are on file in the office of the said Department at Trenton, N. J., and may be inspected by, or furnished on deposit of ten dollars ($10), to prospective bidders. Bids must be made on the standard proposal forms in the manner designated therein and as required by the specifications, same to be enclosed in sealed envelopes, bearing the name and address of bidder and name of the road on the outside, addressed to

STATE HIGHWAY COMMISSION,
Broad Street Bank Building,
Trenton, New Jersey,

and must be accompanied by a certified check for not less than ten per cent. (10%) of the amount of the bid, and be delivered at the above place on or before the hour named. Copies of standard proposal form will be furnished on application. Prospective bidders are directed to obtain the State Highway Department's approval of materials which they propose using in the work before submitting bids.

Each bidder must accompany his bid with a certificate from a surety company, duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in, and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER,
Chief Clerk.

Bids: June 28.

Highway Construction

ERIE COUNTY, PENNSYLVANIA

North East, Pa.

Sealed proposals will be received by the North East Township Road Supervisors, at their office at North East, Pa., until 10 A.M., June 28, 1919, when bids will be opened and scheduled, and contracts awarded as soon thereafter as possible, for the construction of approximately 8000 ft. of reinforced concrete pavement, in North East Township, on the road leading from North East Boro. to Findley Lake. Construction to be according to Pennsylvania State specifications. Bidding blanks and specifications may be obtained free and plans upon payment of $2.50 per set, upon application at the office of Hill & Hill, Engineers, Marine Bank Bldg., Erie, Pa., or at their North East, (Pa.) office. They also can be seen at either of the above offices. The right is reserved to reject any or all bids and to waive defects in forms.

NORTH EAST TOWNSHIP,
Road Supervisors.

Bids: June 25.

Road Work

STATE OF ILLINOIS
DEPARTMENT OF PUBLIC WORKS
AND BUILDINGS
DIVISION OF HIGHWAYS

Springfield, Ill.

Sealed proposals will be received in the office of the Department of Public Works and Buildings, Division of Highways, Springfield, Illinois, until 10 o'clock A.M., June 25, 1919, for the road work designated below. All bids shall be on regular forms furnished by the Department.

Except as noted below, alternative bids will be received for the following types of construction: Portland cement concrete; monolithic brick (4 inch brick); monolithic brick (3 inch brick); bituminous concrete with binder course (Specifications C1, C2, C3 or CT); bituminous concrete without binder course (Specifications C1, C2, C3 or CT).

Cement will be furnished for all sections by the State or the County.

Contractor's reconnaissance profiles and blue prints showing the locations of the work, railroad sidings and material information may be obtained by prospective bidders in the office of the District Engineer having the plans.

Route	County	Sec.	Width, Feet	Approximate Length, Feet
Springfield, East St. Louis	Sangamon	G	16 and 18	26,205
Springfield, East St. Louis	Sangamon	H	16 and 18	29,982

Henry-Morris	Marshall	A1	16	22,714 8
Henry-Morris	Marshall	A2	16	12,598 7

Plans for all the work may be examined in the office of the Division of Highways, Springfield, Illinois. Plans for the sections in the counties of Sangamon and Macoupin may be examined in the office of Fred Tarrant, District Engineer, 506½ East Monroe Street, Springfield, Illinois. Plans for the section in Marshall County may be examined in the office of A. H. Hunter, District Engineer, 302 Apollo Theatre Bldg., Peoria, Illinois.

By order of The Department of Public Works and Buildings.

FRANK I. BENNETT,
Director.

S. E. BRADT,
Supt. of Highways.
CLIFFORD OLDER,
Chief Highway Engineer.

Bids: July 2.

Boilers and Stokers

Lorain, Ohio.

Sealed proposals will be received by the Board of Education, Lorain, Ohio, until 12 o'clock noon, July 2, 1919, for the installation of water tube boilers and stokers and erection of a radial brick chimney at the High School Boiler House as per plans and specifications prepared by the Watson Engineering Co. of Cleveland, Ohio.

Plans and specifications are on file at the office of the Clerk of the Board of Education, Lorain, Ohio, and at the office of the Watson Engineering Co., 1101 Hippodrome Bldg., Cleveland, Ohio.

Bidders shall be required to state when they will begin and finish the work after the contract shall have been entered into.

Each bid must contain the name of every person interested in the same and must be accompanied by a certified check, payable to the Board of Education of Lorain, Ohio, in the sum of $500 as a guarantee, that if the bid is accepted, a contract will be entered into and the performance of it properly secured.

Proposals must be sealed up, addressed to the Clerk and indorsed on the outside, plainly showing the items bid upon and the name of bidder.

The Board reserves the right to reject any, part of any or all bids or proposals.

A satisfactory bond of not less than fifty (50) per cent. of the contract price will be required on all contracts.

By order of the Board of Education, Lorain, Ohio.

E. BRUELL,
Clerk.

SEALED PROPOSALS will be opened by the Lighthouse Supt., Room 424 Federal Bldg., Milwaukee, Wis., 2 o'clock p.m., June 23, 1919, for 4 skeleton 31 ft. steel towers, each with attached steel tank house. Proposal No. 6628. Information upon application to the above Supt.

Bids: July 2.

Bridge Construction

Pocahontas, Iowa

Bids will be received until 1 P.M., July 2nd, 1919, at office of County Auditor, by Board of Supervisors, Pocahontas County, for the construction of bridges as follows:

34 x 25 ft. concrete deck girder, 17 ft. concrete abutments
24 x 20 ft. skew concrete slab, 12 ft. concrete abutments
24 x 30 ft. skew concrete slab, 13 ft. concrete abutments
16 x 20 ft. concrete slab, 14 ft. concrete abutments
32 x 25 ft. I-beam with concrete floor and handrails, 14 ft. concrete abutments

Also the following light steel pony trusses to be moved and placed on pile abutments: One 55 x 16 ft.; two 45 x 16 ft.; one 40 x 16 ft.; one 35 x 16 ft.

Plans for above may be obtained from county engineer by deposit of $10, to be refunded on return of same.

Bids: June 24.

Concrete Bridge Construction

Menasha, Wisconsin.

Sealed proposals will be received by the Common Council of the city of Menasha, Wisconsin, until 7 P.M., on June 24th, 1919, for the construction of a reinforced concrete arch bridge over Fox River at Washington Street. The proposed bridge consists of seven arches, the total length being 430 ft. and the width 59 feet.

Plans, specifications, form of contract and bond will be sent to all prospective bidders making application to Parsons & Obert, Consulting Engineers, 627 M. & M. Bank Building, Milwaukee, Wisconsin, enclosing $2.00 to cover expense of blue prints.

Plans are open for inspection at above office and are on file in the office of the City Clerk, Menasha, Wisconsin.

Published by authority of the Common Council of the city of Menasha, Wisconsin.

S. S. LITTLE, City Clerk.

OFFICIAL PROPOSALS

Bids: July 1.

Construction, Heating, Etc.

Middletown, N. Y.

Sealed proposals for construction, heating, sanitary and electric work, new building for chronic patients, Middletown State Homeopathic hospital, Middletown, N. Y., will be received by the State Hospital Commission at the Capitol, Albany, N. Y., until 3 o'clock P.M. on Tuesday, July 1, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent. (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3246, 3247, 3248 and 3249. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Middletown State Hospital, Middletown, N. Y., at the New York Office of the Department of Architecture, Room 618 Hall of Records Building, and at the Department of Architecture, Caiptol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

E. S. ELWOOD,
Secretary, State Hospital Commission.

Dated: May 29, 1919.

Bids: July 9.

Classification and Appraisal of Lands

Shelby, Montana.

Sealed bids are called for by the Board of County Commissioner, Toole County, Montana, for the classification and appraisal of all lands in Toole County, comprising approximately fifty-four and one-half townships.

Specifications for said work can be had upon application to the County Clerk, Shelby, Montana. Bids to be in by 2 o'clock P.M., July 9, 1919, at which time they will be publicly opened.

The Board reserves the right to reject any or all bids.

By Order of the Board of County Commissioners Toole County, Montana.

H. E. MOODY, Clerk.

Bids: July 1.

Macadam Construction

Lewisburg, W. Va.

Until noon, July 1st, 1919, sealed bids will be received by the County Court of Greenbrier County for the construction of 2 miles of Penetration Macadam pavement 16 feet wide, beginning at the end of the present pavement, three miles north of the town of Lewisburg and extending along the Marlins Bottom Turnpike. Grading has been done and local limestone will be used, haul 1 mile. For specifications and information apply to Frank K. Rader, County Engineer, Lewisburg, W. Va.

The County Court reserves the right to reject any and all bids.

OFFICIAL PROPOSALS

Bids: June 23.

Waterworks Improvements

Lusk, Wyoming, June 3, 1919.

Sealed bids for improvements and extensions to the Municipal Water System will be received by the Town Council of the Town of Lusk, Wyoming, up until 8 o'clock P.M., June 23, 1919, and then and there publicly opened and read.

The plan embraces the furnishing and installing of approximately 12,850 ft. of four inch, 1700 ft. of six inch, 3300 ft. of eight inch, 1330 ft. of ten inch and 4950 ft. of twelve inch cast iron pipe Class "B" American Waterworks Standard, according to plans and specifications on file in the offices, or the Town Engineer. Of the twelve inch pipe, 1750 ft. may be replaced by fourteen inch.

Hydrants and valves will be furnished by the Town, separate bids on which will be received at the same time as the foregoing. Forty-five fire hydrants and sixty valves, four to fourteen inch, with valve boxes, American Waterworks Standards will be required.

Bids for the principal work must be accompanied by certified check for five thousand dollars ($5000), made payable to the Town Treasurer, without recourse. Bids for hydrants and valves must be accompanied by certified check for at least ten per cent. of the gross bid.

Plans, specifications, proposal forms, form of contract and form of bond can be procured from R. F. Gray, Town Engineer, upon deposit of ten dollars ($10.00) which will be refunded upon their return in good condition not later than the day after opening of bids.

The Town Council reserves the right to reject any and all bids, to waive irregularities and to award the contract as may be deemed best for the interests of the Town.

GEORGE H. HOWES,
Mayor.
D. E. GODDARD,
Clerk.
R. F. GRAY,
Engineer.

Bids: July 7.

Street Repairing

Woodstown, N. J.

Notice is hereby given that sealed bids will be received by the Mayor and Common Council for the repair of streets in the Borough of Woodstown, with a seal coat surface upon a repaired bituminous concrete foundation; estimated amount of surface pavement required is 27,475 square yards; at Council Chamber, Woodstown, N. J., on Monday, July 7th, 1919, at 7.30 P.M.

Drawings, specifications and further information in regard to bids may be obtained of Keasbey & Sparks, Engineers, Mecum Bldg., Salem, N. J.

WALTER SYLVESTER, Clerk.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Newport, R. I.—Sealed proposals will be received here until 12 o'clock noon, June 27, 1919, and then opened, for dredging in Pawtucket River, R. I. Further information on application.

U. S. ENGINEER OFFICE, Room 812, Army Building, 39 Whitehall Street, New York, N. Y. Sealed proposals will be received here until 12 M., June 23, 1919, and then opened for dredging in Hackensack River, N. J. Information on application.

OFFICIAL PROPOSALS

Bids: July 7.

Bridge Construction

McAlester, Okla.

Notice is hereby given that sealed proposals for the construction of Highway Improvement in Pittsburg County, Oklahoma, will be received by the County Commissioners of Pittsburgh County, in the office of the County Clerk of said County, at McAlester, Oklahoma, until two o'clock P.M., Monday, July 7th, 1919. Said bids will then be publicly opened.

Description of work to be done:

To construct a steel Highway Bridge across Gaines Creek, approximately four (4) miles northeast of Canadian, Oklahoma, of approximately 354 feet in total length, consisting of three (3) spans of approximately 118 feet in length, and the necessary abutments and piers therefor, width of roadway 18 feet.

Detailed plans, specifications, estimates and form of proposal sheet may be seen for examination at the office of the County Engineer or the County Clerk, in McAlester, Pittsburg County, Oklahoma, or at the office of the State Engineer, in Oklahoma City, Oklahoma, or may be obtained by depositiing $5.00 with the County Engineer at McAlester. Such deposits will be returned only upon the return of the plans in good condition within two weeks after the letting.

A certified check for $1000.00 drawn upon some bank in the State of Oklahoma, and made payable to the County of Pittsburg, State of Oklahoma, must accompany each proposal. The right is reserved to reject any and all bids.

Proposals shall be submitted in sealed envelopes and marked "Bids for the Construction of Gaines Creek Bridge near Canadian, Oklahoma."

Proposals may be sent by mail, and when sent by mail shall be enclosed in an additional sealed envelope and marked as indicated above. All proposals otherwise submitted will be rejected as irregular. Only sealed bids will be considered.

All bids received will be retained by the County Commissioners and will not be returned to the bidders.

W. J. KINDRICK, County Clerk.

Bids: July 1.

Street Improvement

HACKENSACK AVENUE IMPROVEMENT

Ridgefield Park, N. J.

Sealed proposals for the improvement of Hackensack Avenue in the Village of Ridgefield Park, N. J., will be received by the Board of Commissioners of said village at the Municipal Building, 234 Main Street, Ridgefield Park, N. J., on Tuesday, July 1st, 1919, at the hour of 9 o'clock P.M. ONLY.

Plans, specifications, profiles, details and instructions to bidders and approximate quantities are on file with the Village Clerk at the Municipal Building and may be examined any day except Saturday, between the hours of 10 A.M. and 4 P.M.

BOARD OF COMMISSIONERS OF THE VILLAGE OF RIDGEFIELD PARK, N. J.
By M. D. STARKER,
Village Clerk.

Date June 12, 1919.

SEALED PROPOSALS will be opened by the Lighthouse Supt., Philadelphia, Pa., 2 o'clock P.M., July 7, 1919, for furnishing fabricated steel for a 72 foot steel tower, delivered to Horseshoe Range, West Group Lighthouse, Pa. Information upon application to the above Supt.

OFFICIAL PROPOSALS

Bids: June 25.

Sewer Construction

Lima, Ohio.

Sealed proposals for the construction of Collett Street Relief Sewer, Contract No. 1, will be received at the office of the Director of Public Service, City Hall, Lima, Ohio, until 12 o'clock noon, Central Standard Time (1 o'clock of so-called "Daylight Saving" Time), of the 25th day of June, 1919, and at that time and place will be publicly opened and read. The City of Lima reserves 30 days thereafter in which to act on the bids.

Alternate bids will be received for Monolithic Concrete, Segment Block or Reinforced Concrete Pipe as set forth on the blank form of proposal furnished by the City of Lima, Ohio. The total length of the sewers under this contract is about 16,430 ft., consisting of the following sizes: 84 in. circular; 78 in. by 127½ in. semicircular; 78 in. circular; 66 in. circular; 54 in. circular; 48 in. circular and 42 in. circular.

In addition there is an outlet abutment at the Ottawa River, an overflow chamber, together with special junctions at various points along the line of the proposed sewer.

The work to be done under this contract must be completed in accordance with the plans and specifications, not later than 30 months after the date of the award of the contract.

Copies of the plans, form of proposal, contract, bond and specifications may be inspected at any of the following offices:

Director of Public Service, City Hall, Lima, Ohio.

Fuller & McClintock, 170 Broadway, New York City.

Wm. G. Clark, 1047 Spitzer Building, Toledo, Ohio.

Copies of the plans and specifications with forms of proposal, contract and bond may be obtained at the office of the Director of Public Service, City Building, Lima, Ohio. A charge of seven ($7) dollars will be made for each set of plans and specifications. No charge will be made for the proposal bond.

Each proposal must be accompanied by a certified check upon a National Bank or Trust Company doing business in the State of Ohio, U. S. Government bonds or cash in the sum of seventeen thousand ($17,000) dollars, made payable to the City of Lima, Ohio.

The bidder to whom the contract is awarded will be required to furnish a surety company bond in the sum of 50% of his bid.

The City of Lima, Ohio, reserves the right to reject any or all bids, to waive any informalities in the bids received and to accept any bid which he deems most favorable to the interest of the City of Lima, Ohio.

A. L. METHEANY,
Director of Public Service.
VAUGHN C. MILLER,
City Engineer.

OFFICE OF THE COMMISSIONERS, D. C.—Sealed proposals will be received at this office, Room 511, District Building, until 2 o'clock P.M., on June 23, 1919, for the construction of the Luzon Ave. Trunk Sewer, District of Columbia. Forms of proposals, specifications and necessary information may be obtained from the Chief Clerk, Engineer Department, Room 427 District Building, Washington, D. C. LOUIS BROWNLOW, W. GWYNN GARDINER, CHARLES W. KUTZ, Commissioners.

OFFICIAL PROPOSALS

Bids: June 26.

24 Inch Out-Fall Sewer

Greenwich, Conn.

Pursuant to a resolution adopted June 4, 1919, the Joint Sewerage Commission of the Borough of Greenwich and the Town of Greenwich, Connecticut, will receive at its meeting to be held at the Town Hall, Greenwich, Connecticut, on Thursday evening, June 26, 1919, at eight (8) o'clock P.M., sealed proposals for furnishing all materials and doing all work required to complete the construction of a new 24 in. Out-Fall Sewer from the junction of the east side and west side trunk sewers to the Joint Sewerage Disposal Plant upon Grass Island for the Borough of Greenwich, and Sewer District No. 6, of the Town of Greenwich, Connecticut, including the necessary piping, piling, etc.

Plans may be seen and specifications and forms of proposal obtained at the office of the Joint Sewerage Commissioners, Room No. 2, Town Building, Greenwich, Connecticut, or at the Office of Mr. S. E. Minor, Civil Engineer, No. 96 Greenwich Avenue, Greenwich, Connecticut. Plans may be taken away upon the payment of ten ($10) dollars, the same to be refunded if plans are returned within fourteen (14) days in good condition.

Each bid must be accompanied by a certified check on a solvent bank for one thousand ($1000) dollars.

The said Joint Sewerage Commissioners reserve the right to reject any and all proposals and to waive any informality in the proposals received and to accept any proposal which it deems to be most favorable to the interest of the Borough and Town.

HARRY C. FROST, Chairman.
JOSEPH P. CROSBY, Warden.
ALBERT S. MEAD, Clerk.

Bids: July 8.

Highway Construction

LENOIR COUNTY

Kinston, North Carolina.

Sealed bids for 3282 Cubic Yards Excavation, 18,820 square yards Concrete sheet Asphalt or Warrenite Pavement, 4356 pounds Reinforcement Steel, 242 Cubic Yards Box Culvert Concrete, on the Central Highway, in Lenoir County, North Carolina, will be received by Harvey C. Hines, Secretary at Kinston, North Carolina, at 2:30 o'clock P.M., on the eighth da yof July, 1919, opened and read publicly.

No bid will be considered unless accompanied by certified check, as specified in "Instructions to Bidders," for an amount equal to at least five per cent. (5%) of the total amount of the bid.

A Corporate Surety Bond will be required for the faithful performance of the Contract, in a sum equal to one-half (½) the total amount of the bid.

Plans, Specifications, Forms of Contract, Proposal Blanks, and full information for bidders may be obtained at the office of the State Highway Commission, at Raleigh, North Carolina, upon the payment of five dollars.

The right is reserved to reject ayn or all proposals or to accept the proposal or proposals deemed best for the State or County.

By order of the Highway Commission of Lenoir County.

This the 12th day of June, 1919.

E. V. WEBB,
Chairman of Highway Commission
of Lenoir County.
HARVEY C. HINES,
Secretary.

OFFICIAL PROPOSALS

Bids: June 23.

Street Paving

Coatesville, Penn.

Sealed proposals addressed to the City Clerk of the City of Coatesville, Penn., and endorsed, "Bids for Paving Streets," will be received by the City Council at the City Hall, Coatesville, Penn., up to eight o'clock P.M., on Monday, June 23, 1919, and there publicly opened and read.

The work to be done consists of approximately:

28,625	sq.yd. of bituminous pavement on a cement concrete base.
1,375	sq.yd. of bituminous pavement on existing base.
4,500	sq.yd. of vitrified brick pavement to be relaid.
4,300	sq.yd. of vitrified brick pavement or stone block pavement along tracks.
3,000	lin.ft. cement concrete curb.

Bids will be received on sheet asphalt, asphaltic concrete, Warrenite, Filbertine, Amiesite and Bito-slag.

Each proposal must be accompanied by a certified check in an amount equal to five (5) per cent. of the highest amount bid, made payable to the Treasurer of the City of Coatesville, Pa.

A surety bond in an amount equal to fifty (50) per cent. of the total amount of the contract will be required from the successful bidder.

Plans and specifications are on file in the office of the City Engineer at Coatesville and copies of the same may be obtained by application and by the deposit of five (5) dollars which deposit will be returned if plans are returned in good condition within ten days after the opening of bids.

The City Council reserves the right to reject any or all bids or to award the contract as may be deemed for the best interests of the City.

The contractor must comply with all the requirements of the Workmen's Compensation Act of the State of Pennsylvania.

WILLIAM S. G. COOK,
City Clerk,
CHAS. A. NILES,
City Engineer.

Bids: July 1.

Bids may be submitted for Contracts No. 16 and No. 17 separately or combined.

Performance of contract shall commence within ten (10) days after execution of contract and be completed on or before December 1, 1919.

Monthly payments will be made for 90 per cent. of the construction completed each month.

Bidders must submit proposals upon forms provided by the Department.

Each proposal must be accompanied by a surety bond, certified check, or money to the amount of at least ten (10) per centum of the total amount of the proposal.

The envelope containing the proposal must be marked: "Proposal for the Construction of a State Highway under Contract No. 15, No. 16 and No. 17."

The contract will be awarded or rejected within twenty (20) days from the date of opening proposals.

The right is reserved to reject any or all bids.

Detailed plans may be seen, and index plans and specifications may be obtained after June 23, 1919, upon deposit of ($10.00) ten dollars which amount will be refunded upon return of plans and specifications in good condition, at the office of

STATE HIGHWAY DEPARTMENT,
DOVER, DELAWARE.
CHAS. M. UPHAM,
Chief Engineer.

Bids: July 1.

Boiler Stokers, Etc.

Central Islip, N. Y.

Sealed proposals for New Boiler, Stokers, etc., and Coal and Ash Handling Equipment, New Central Heating and Lighting Plant, Central Islip State Hospital, Central Islip, N. Y., will be received by the State Hospital Commission, Capitol, Albany, N. Y., until 3 o'clock P.M., on Tuesday, July 1, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent. (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of specifications Nos. 3276 and 3277. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Central Islip State Hospital, Central Islip, New York; at the New York Office of the Department of Architecture, Room 618, Hall of Records Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

Dated: June 10, 1919.

OFFICIAL PROPOSALS

Bids: July 10.

Bridge Construction

COUNTY OF WARREN
OFFICE OF SUPERINTENDENT OF HIGHWAYS
WARRENSBURGH, N. Y.

Lake George, N. Y.

Pursuant to the provisions of Chapter 30, Laws of 1909, as amended, sealed proposals will be received by the undersigned at the Supervisors' rooms, Lake George, N. Y., until 2 o'clock on the 10th day of July, 1919, for the construction of the New Riverside Bridge, over the Hudson river, at Riparius, N. Y., between the towns of Chester and Johnsburgh, Warren County, N. Y.

The bridge is to be one 300 foot clear span through truss steel bridge, 19 feet clear roadway of wood block pavement; with a live road capacity of 1235 lbs. per foot of bridge or 15 ton road roller, plus twenty-five per cent. impact.

New concrete abutments and wing-walls are to be built of third class concrete.

The new bridge is to be built on the upstream or north side of the existing suspension bridge.

The estimated cost of the work is $49,750.36.

Plans, specifications, estimates and proposals, etc., may be seen at the office of the county superintendent of highways, Warrensburgh, N. Y., or copies obtained upon the deposit of $5.00 which will be retained for their return in good condition.

The especial attention of bidders is called to the information to bidders contained in the itemized proposal, general specifications, and contract agreements, etc.

Proposals must be presented in a sealed envelope endorsed on the outside, "Proposal for construction of New Riverside Bridge."

Each proposal must be accompanied by cash or certified check payable at sight to the Warren County Treasurer for an amount equal to at least five per cent. of the amount of the proposal. This cash or check will be held by the Warren County Treasurer until the contract and bond are duly executed. The successful bidder will be required to give a performance bond for fifty per cent. of the amount of the contract, such bond to be executed by a surety company to be approved by the Board of Supervisors, or a bond secured by the deposit of collateral securities to be approved by the Board of Supervisors.

The right is reserved to reject any or all bids.

BEECHER GLASSBROOK,
Clerk, Warren County Board
of Supervisors,
Lake George, N. Y.

Dated June 16, 1919.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., June 4, 1919.—Sealed proposals will be opened in this office at 3 P.M., July 9, 1919, for furnishing and delivering at the site the materials required for the construction of the United States Post Office building at Montevideo, Minn., including materials for concrete, reinforced concrete, stone, granite, brick, structural terra cotta, structural steel, miscellaneous iron and steel work, composition roofing, slate roofing, sheet metal work, skylights, plastering, interior marble, sanitary slate, lumber, millwork, painting, glazing, hardware, plumbing, heating, electric work, etc. Bills of quantities and specifications may be obtained from the Custodian of the site at Montevideo, Minn., or at this office, in the discretion of the Supervising Architect. Jas. A. Wet-

OFFICIAL PROPOSALS

Bids: July 1.

Filtration Plant

Salem, Ill.

Sealed bids will be received by the City of Salem, Illinois, until 8 o'clock P.M. July 1, 1919, for a complete Mechanical Gravity Filter Plant, consisting of two (2) Units of a capacity of 300,000 gallons each per day.

Separate bids will be received, one for the mechanical equipment and one for the concrete construction work and building. Plans and specifications are on file with the Mayor of the City of Salem and at the office of the Engineers.

Any one desiring copies of the plans and specifications may secure the same by purchasing them from the engineers for the sum of $5.00. This amount will not be refunded and covers the cost of typing and blue printing. The City Council reserves the right to reject any and all bids.

J. E. McMACKIN,
Mayor Salem, Ill.

Caldwell Engineering Co., Engineers, Jacksonville, Illinois.

Bids: July 12.

Storm Sewers and Paving

Albuquerque, New Mexico.

Sealed proposals will be received by the City Manager of Albuquerque, New Mexico, through the City Clerk, on or before two o'clock P.M., Saturday, July 12, 1919, for the construction of storm sewers and paving in the City of Albuquerque, according to plans and specifications on file in the office of the City Engineer.

The approximate quantities are as follows:

105,000 square yards of pavement.
50,000 lineal feet of curb and gutter.
12,000 square yards of alley pavement.

And Storm Sewer Construction as follows:

6,000 feet of 8 inch Clay Vitrified Sewer
500 feet of 10 inch " " "
3,400 feet of 12 inch " " "
1,100 feet of 15 inch " " "
1,400 feet of 36 inch " " "

Also neecssary manholes and catch basins.

Bids will be received on three types of paving; Bitulithic, Asphaltic Concrete, and Reinforced Cement Concrete.

A Certified Check of 10% of the bid must accompany each proposal.

Specifications will be furnished free and plans will be furnished on a deposit of $25. $10 of which will be refunded when plans are returned to the City Engineer.

This is the first of a series of contracts, over a period of the next three years, which will be let in this city.

A. R. HEBENSTREIT,
City Manager.

C.—Sealed proposals will be received until 11 a.m., June 28, 1919, and then opened for constructing steel buildings at Camp Normoyle, San Antonio, Tex.; Camp Holabird, Baltimore, Md., and Camp Jesup, Fort McPherson, Ga. Further information on application to Room 2-327, Bldg. C., Washington, D. C.

United States Engineer Office, Galveston, Texas.—Sealed proposals for furnishing and delivering about 19,000 cubic yards of sharp freshwater sand, about 46,000 barrels of Portland cement, about 38,000 cubic yards of broken stone and about 1,070,000 pounds of reinforcing steel, at Galveston, Texas, will be received at this office until 12 o'clock M. July 7, 1919, and then opened. Information on application.

OFFICIAL PROPOSALS

Bids: July 15.

Concrete Bridge Construction

FIRST AVENUE BRIDGE

Cedar Rapids, Iowa.

Sealed proposals will be received by the City Council of the City of Cedar Rapids, Iowa, at the office of the City Clerk in the City Hall until 10 o'clock., on the 15th day of July, 1919, for the following described improvement as per plans and specifications now on file in the office of the City Clerk of Cedar Rapids, Iowa.

For the complete construction of a six (6) span concrete-steel arch highway bridge, over and across the Cedar River at its intersection with First Avenue in the City of Cedar Rapids, Iowa, including all appurtenances as described and shown in the plans and specifications for said bridge, and removal of present structure and its foundations. Payment for the work will be made in cash upon monthly estiamtes of the City Engineer.

Each bid must be accompanied by a certified check, enclosed in a separate envelope, said check to be drawn on some known responsible bank and made payable to the order of the City Treasurer of the City of Cedar Rapids, in the sum of Ten Thousand Dollars ($10,000). Such check must not contain any conditions, either in the body of the check or endorsement thereon. All envelopes must be addressed to the City Clerk and endorsed with the name of the bidder, and the improvement said check and proposals are for. Proposals must be submitted in forms as shown by specifications. Certified checks accomapnying proposals will be returned to the unsuccessful bidders, and also to the bidder to whom the contract is awarded, when he shall have entered into contract in the form prescribed, and given bond in sum required.

Bidders must submit, in the same envelope containing certified check, detailed evidence showing that they have a competent organization which has constructed work similar in character; that they have the necessary equipment available to prosecute the work with diligence and complete this improvement in a satisfactory manner. The evidence must also enumerate similar work constructed by bidder, and name of the owner or representatives of the owner who can give information and verification.

Copies of plans and specifications may be obtained from Marsh Engineering Company, consulting Engineers, Des Moines, Iowa, upon receipt of check for $25.00, $20.00 of which will be returned to aplicant when plans are returned in good condition.

The right is reserved to reject any and all bids, and to waive informalities. Proposals received will be acted upon by the City Council on same day they are received.

J. F. RALL,
Mayor.

Attest:
L. J. STOREY, City Clerk.

NOTE: The plans show a bridge about 700′ long and 90′ wide.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., June 11, 1919.—Sealed proposals will be opened in this office at 3 P.M., July 7, 1919, for Gas Mains at the United States Marine Hospital, New York, N. Y. (Stapleton), in accordance with drawings and specification, copies of which may be had at this office or at the office of the Custodian, New York, N. Y. (Stapleton), in the discretion of the Supervising Architect.—James A. Wetmore, Acting Supervising Architect.

Bids: July 9.

Highway Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the improvement of the following:

State Highway Route No. 8, Section No. 1 (Riverdale to Pompton River), Morris County, concrete surface, estimated 45,692 square yards.

Y., at the office of the Assistant Superintendent of Public Works for the Middle Division at Syracuse, N. Y., at the office of the Assistant Superintendent of Public Works for the Western Division at Rochester, N. Y., at the canal office, Spaulding's Exchange, Buffalo, N. Y., and at office of State Engineer, Hall of Records, New York City.

Copies of detailed plans or drawings may be obtained from the State Engineer and Surveyor at Albany, N. Y., upon payment to him of the cost of producing them.

Monthly estimates will be paid of ninety per centum (90 per cent.) of the work done at the contract price. Every proposal for said work must be accompanied by a money deposit in the form of a draft or certified check upon some good banking institution in the City of Albany or New York, issued by a national or state bank or trust company in good credit within the state and payable at sight to the Superintendent of Public Works for five per centum (5 per cent.) of the amount of the proposal.

The person whose proposal shall be accepted will be required to execute a contract and furnish bonds within ten days from the date of notice of award delivered to him or them in person or mailed to the address given in the proposal.

Upon execution of the contract and approval of bonds, the certified check or draft will be returned to the proposer unless the same shall have been presented for collection prior to such time, in which case the amount of the deposit will be refunded by the Superintendent of Public Works.

Special price for Official Proposals, $3.60 an inch — Copy for Official Proposals can be received until Wednesday, 10 a.m., for issue out the next morning.

The publication of an advertisement on this page is an official notice that bids are wanted from other than local bidders.

It is also a guarantee that maximum competition is invited because Engineering News-Record is the *one* nationally recognized medium for Proposal advertising. Its Searchlight Section is read each week by nearly every worth-while contractor in this country who bids on public work outside his own city.

OFFICIAL PROPOSALS

The deposits of bidders other than the one to whom the award of contract shall be made will be returned immediately after the award has been made.

The bond required for the faithful performance of each contract shall be in such sum as shall be fixed by the Superintendent of Public Works, which sum shall not be less than twenty per centum (20 per cent.) of the estimated cost of the work according to the contract price, and an additional bond, known as the labor bond, in the sum of ten per centum (10 per cent.) of the amount of the estimated cost of the work according to the contract price, will be required as security that the contractor will pay in full at least once in each month all laborers employed by him upon the work specified to be done in the contract.

In the event that more than one surety company is offered as surety on said bonds co-insurance only will be accepted.

Each proposal must be addressed to the Superintendent of Public Works, Albany, N. Y., and must be endorsed on the envelope with the name of the construction for which the proposal is made.

Award, if made, will be made to the person or persons whose proposal shall be lowest in cost to the state for doing the work, and which shall comply with all provisions required to render it formal. Before any award shall be made the lowest bidder will be required to satisfy the Superintendent of Public Works of his ability to provide suitable equipment and materials for the proper performance of the work.

The right is reserved to reject all proposals and readvertise and award the contract in the regular manner, if, in the judgment of the undersigned, the interests of the state will be enhanced thereby.

E. S. WALSH,
Superintendent of Public Works.

Bids: July 1.

Construction, Heating, Etc.

Middletown, N. Y.

Sealed proposals for construction, heating, sanitary and electric work, new building for chronic patients, Middletown State Homeopathic hospital, Middletown, N. Y., will be received by the State Hospital Commission at the Capitol, Albany, N. Y., until 3 o'clock P.M. on Tuesday, July 1, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the State Architect, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent. (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent. (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3246, 3247, 3248 and 3249. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Middletown State Hospital, Middletown, N. Y., at the New York Office of the Department of Architecture, Room 618 Hall of Records Building, and at the Department of Architecture, Caiptol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. F. Pilcher, Capitol, Albany, N. Y.

E. S. ELWOOD,
Secretary, State Hospital Commission.

Dated: May 29, 1919.

Bids: July 2.

Boilers and Stokers

Lorain, Ohio.

Sealed proposals will be received by the Board of Education, Lorain, Ohio, until 12 o'clock noon, July 2, 1919, for the installation of water tube boilers and stokers and erection of a radial brick chimney at the High School Boiler House as per plans and specifications prepared by the Watson Engineering Co. of Cleveland, Ohio.

Plans and specifications are on file at the office of the Clerk of the Board of Education, Lorain, Ohio, and at the office of the Watson Engineering Co., 1101 Hippodrome Bldg., Cleveland, Ohio.

Bidders shall be required to state when they will begin and finish the work after the contract shall have been entered into.

Each bid must contain the name of every person interested in the same and must be accompanied by a certified check, payable to the Board of Education of Lorain, Ohio, in the sum of $500 as a guarantee, that if the bid is accepted, a contract will be entered into and the performance of it properly secured.

Proposals must be sealed up, addressed to the Clerk and indorsed on the outside, plainly showing the items bid upon and the name of bidder.

The Board reserves the right to reject any, part of any or all bids or proposals.

A satisfactory bond of not less than fifty (50) per cent. of the contract price will be required on all contracts.

By order of the Board of Education, Lorain, Ohio.

E. BRUELL,
Clerk.

Ulster—One contract, resurfacing.

Maps, plans, specifications and estimates may be seen and proposal forms obtained at the office of the Commission in Albany, N. Y., and also at the office of the division engineers in whose division the roads to be improved, completed or repaired are located. The addresses of the division engineers and the counties of which they are in charge will be furnished upon request.

The especial attention of bidders is called to "General Information for Bidders" on the itemized proposal, specifications and contract agreement.

FRED'K STUART GREENE,
Commissioner.
ROYAL K. FULLER,
Secretary.

Bids: July 7.

Concrete Bridge Construction

Elmira, N. Y.

Sealed proposals for the construction of a concrete bridge approximately 830 feet long and 30 feet high, consisting of eight arches, over the Chemung River at Main Street in the City of Elmira, Chemung County, New York, will be received by the Board of Public Works of the City of Elmira, N. Y., at the office of the City Clerk in the City Hall, until 11:00 o'clock A.M., Monday, July 7, 1919, and publicly opened at that time.

Bids must be made upon proposal blanks attached to the specifications, and must be accompanied by a Certified Check in a sum equal to at least five per cent. (5%) of the amount of the bid and made payable, without reservations, to the order of the Mayor of the City of Elmira, N. Y.

Plans and specifications may be seen at the office of the City Engineer in the City Hall, Elmira, N. Y. Copies of the plans and specifications may be had by making a deposit of Ten Dollars ($10.00), which deposit will be returned when plans are returned in good condition on or before the date of the letting.

The right is reserved to reject any or all bids.

LOUIS C. ANDREW,
of the City of Elmira, N. Y.

OFFICIAL PROPOSALS

Bids: July 15.

Concrete Bridge Construction

FIRST AVENUE BRIDGE

Cedar Rapids, Iowa.

Sealed proposals will be received by the City Council of the City of Cedar Rapids, Iowa, at the office of the City Clerk in the City Hall until 10 o'clock., on the 15th day of July, 1919, for the following described improvement as per plans and specifications now on file in the office of the City Clerk of Cedar Rapids, Iowa.

For the complete construction of a six (6) span concrete-steel arch highway bridge, over and across the Cedar River at its intersection with First Avenue in the City of Cedar Rapids, Iowa, including all appurtenances as described and shown in the plans and specifications for said bridge, and removal of present structure and its foundations. Payment for the work will be made in cash upon monthly estiamtes of the City Engineer.

Each bid must be accompanied by a certified check, enclosed in a separate envelope, said check to be drawn on some known responsible bank and made payable to the order of the City Treasurer of the City of Cedar Rapids, in the sum of Ten Thousand Dollars ($10,000). Such check must not contain any conditions, either in the body of the check or endorsement thereon. All envelopes must be addressed to the City Clerk and endorsed with the name of the bidder, and the improvement said check and proposals are for. Proposals must be submitted in forms as shown by specifications. Certified checks accomapnying proposals will be returned to the unsuccessful bidders, and also to the bidder to whom the contract is awarded, when he shall have entered into contract in the form prescribed, and given bond in sum required.

Bidders must submit, in the same envelope containing certified check, detailed evidence showing that they have a competent organization which has constructed work similar in character; that they have the necessary equipment available to prosecute the work with diligence and complete this improvement in a satisfactory manner. The evidence must also enumerate similar work constructed by bidder, and name of the owner or representatives of the owner who can give information and verification.

Copies of plans and specifications may be obtained from Marsh Engineering Company, consulting Engineers, Des Moines, Iowa, upon receipt of check for $25.00, $20.00 of which will be returned to aplicant when plans are returned in good condition.

The right is reserved to reject any and all bids, and to waive informalities. Proposals received will be acted upon by the City Council on same day they are received.

J. F. RALL,
Mayor.

Attest:
L. J. STOREY, City Clerk.

NOTE: The plans show a bridge about 700′ long and 90′ wide.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., June 11, 1919.—Sealed proposals will be opened in this office at 3 P.M., July 7, 1919, for Gas Mains at the United States Marine Hospital, New York, N. Y. (Stapleton), in accordance with drawings and specification, copies of which may be had at this office or at the office of the Custodian, New York, N. Y. (Stapleton), in the discretion of the Supervising Architect.—James A. Wetmore, Acting Supervising Architect.

OFFICIAL PROPOSALS

Bids: July 7.

Bridge Construction

McAlester, Okla.

Notice is hereby given that sealed proposals for the construction of Highway Improvement in Pittsburg County, Oklahoma, will be received by the County Commissioners of Pittsburgh County, in the office of the County Clerk of said County, at McAlester, Oklahoma, until two o'clock P.M., Monday, July 7th, 1919. Said bids will then be publicly opened.

Description of work to be done:

To construct a steel Highway Bridge across Gaines Creek, approximately four (4) miles northeast of Canadian, Oklahoma, of approximately 354 feet in total length, consisting of three (3) spans of approximately 118 feet in length, and the necessary abutments and piers therefor, width of roadway 18 feet.

Detailed plans, specifications, estimates and form of proposal sheet may be seen for examination at the office of the County Engineer or the County Clerk, in McAlester, Pittsburg County, Oklahoma, or at the office of the State Engineer, in Oklahoma City, Oklahoma, or may be obtained by depositiing $5.00 with the County Engineer at McAlester. Such deposits will be returned only upon the return of the plans in good condition within two weeks after the letting.

A certified check for $1000.00 drawn upon some bank in the State of Oklahoma, and made payable to the County of Pittsburg, State of Oklahoma, must accompany each proposal. The right is reserved to reject any and all bids.

Proposals shall be submitted in sealed envelopes and marked "Bids for the Construction of Gaines Creek Bridge near Canadian, Oklahoma."

Proposals may be sent by mail, and when sent by mail shall be enclosed in an additional sealed envelope and marked as indicated above. All proposals otherwise submitted will be rejected as irregular. Only sealed bids will be considered.

All bids received will be retained by the County Commissioners and will not be returned to the bidders.

W. J. KINDRICK, County Clerk.

Bids: July 2.

High School

Sterling, Illinois.

Sealed proposals will be received at the office of Carl E. Sheldon, attorney, Sterling, Illinois, for the construction of an addition to the Sterling Township High School. Estimated cost, $50,000.00 to $60,000.00. Pinas and specifications, office of Fred W. Honens, Sterling, Illinois. Certified check for 5% to accompany bid.

D. L. MILLER,
Clerk.

PROPOSALS FOR CONSTRUCTING STEEL STORAGE BUILDINGS.—Office Chief Construction Div., Washington, D. C.—Sealed proposals will be received until 11 a.m., June 28, 1919, and then opened for constructing steel buildings at Camp Normoyle, San Antonio, Tex.; Camp Holabird, Baltimore, Md., and Camp Jesup, Fort McPherson, Ga. Further information on application to Room 2-327, Bldg. C., Washington, D. C.

United States Engineer Office, Galveston, Texas.—Sealed proposals for furnishing and delivering about 19,000 cubic yards of sharp freshwater sand, about 46,000 barrels of Portland cement, about 38,000 cubic yards of broken stone and about 1,070,000 pounds of reinforcing steel, at Galveston, Texas, will be received at this office until 12 o'clock M. July 7, 1919, and then opened. Information on application.

OFFICIAL PROPOSALS

Bids: July 10.

Bridge Construction

COUNTY OF WARREN
OFFICE OF SUPERINTENDENT OF HIGHWAYS
WARRENSBURGH, N. Y.

Lake George, N. Y.

Pursuant to the provisions of Chapter 30, Laws of 1909, as amended, sealed proposals will be received by the undersigned at the Supervisors' rooms, Lake George, N. Y., until 2 o'clock on the 10th day of July, 1919, for the construction of the New Riverside Bridge, over the Hudson river, at Riparius, N. Y., between the towns of Chester and Johnsburgh, Warren County, N. Y.

The bridge is to be one 300 foot clear span through truss steel bridge, 19 feet clear roadway of wood block pavement; with a live road capacity of 1235 lbs. per foot of bridge or 15 ton road roller, plus twenty-five per cent. impact.

New concrete abutments and wing-walls are to be built of third class concrete.

The new bridge is to be built on the upstream or north side of the existing suspension bridge.

The estimated cost of the work is $49,750.36.

Plans, specifications, estimates and proposals, etc., may be seen at the office of the county superintendent of highways, Warrensburgh, N. Y., or copies obtained upon the deposit of $5.00 which will be retained for their return in good condition.

The especial attention of bidders is called to the information to bidders contained in the itemized proposal, general specifications, and contract agreements, etc.

Proposals must be presented in a sealed envelope endorsed on the outside, "Proposal for construction of New Riverside Bridge."

Each proposal must be accompanied by cash or certified check payable at sight to the Warren County Treasurer for an amount equal to at least five per cent. of the amount of the proposal. This cash or check will be held by the Warren County Treasurer until the contract and bond are duly executed. The successful bidder will be required to give a performance bond for fifty per cent. of the amount of the contract, such bond to be executed by a surety company to be approved by the Board of Supervisors, or a bond secured by the deposit of collateral securities to be approved by the Board of Supervisors.

The right is reserved to reject any or all bids.

BEECHER GLASSBROOK,
Clerk, Warren County Board
of Supervisors,
Lake George, N. Y.

Dated June 16, 1919.

U. S. ENGINEER OFFICE, Room 812, Army Building, 39 Whitehall Street, New York, N. Y.—Sealed proposals will be received here until 12 M., July 2, 1919, and then opened for dredging in Shrewsbury River, and Shoal Harbor and Compton Creek, N. J. Bids for either or both of these works will be considered. Further information on application.

PROPOSALS FOR EAST WING OF GUN SHED and Wings for Artillery and Cavalry Barracks.—Office of Quartermaster, West Point, N. Y.—Sealed proposals will be received here until 12 M., June 30, 1919, and then opened, for construction of East Wing of Gun Shed and Wings for Artillery and Cavalry Barracks. Information on application.

Bids: July 1.

Street Improvement

HACKENSACK AVENUE IMPROVEMENT

Ridgefield Park, N. J.

Sealed proposals for the improvement of Hackensack Avenue in the Village of Ridgefield Park, N. J., will be received by the Board of Commissioners of said village at the Municipal Building, 234 Main Street, Ridgefield Park, N. J., on Tuesday, July 1st, 1919, at the hour of 9 o'clock P.M. ONLY.

Plans, specifications, profiles, details and instructions to bidders and approximate quantities are on file with the Village Clerk at the Municipal Building and may be examined any day except Saturday, between the hours of 10 A.M. and 4 P.M.

BOARD OF COMMISSIONERS OF THE VILLAGE OF RIDGEFIELD PARK, N. J.
By M. D. STARKER,
Village Clerk.

Date June 12, 1919.

Bids: July 9.

Paving

Halifax, N. S.

Sealed tenders, addressed to His Worship the Mayor and endorsed "Tender for Paving" will be received at the office of the Clerk of Works, City Hall, Halifax, Nova Scotia, until 10 o'clock a.m., on Wednesday, July 9th, 1919, for paving certain streets in the City of Halifax.

The approximate quantities are:

23,000 sq.yds. of granite block pavement on concrete base; 133,000 sq.yds. of bituminous pavement on concrete base; 30,000 sq. yds. of bituminous pavement on macadam base; 33,000 lineal feet of concrete curb and gutter.

Each tender must be accompanied by a certified cheque payable in Halifax to the City Treasurer for the amount set forth in the forms of tender for each street, which cheque will be forfeited to the City if the bidder fails to execute the contract if awarded to him, within five days of the notice of such award.

The successful bidder will be required to furnish a bond to the amount of 25% of the amount of the contract as estimated by the City Engineer for the faithful performance of the contract.

Plans and specifications may be seen and forms of tender and all other information obtained at the City Engineer's office, City Hall, Halifax.

The City reserves the right to reject any or all tenders or to accept any tender which it deems best.

F. W. W. DOANE,
City Engineer.

Halifax, Nova Scotia.
June 18th, 1919.

Bids: July 1.

Macadam Construction

Lewisburg, W. Va.

Until noon, July 1st, 1919, sealed bids will be received by the County Court of Greenbrier County for the construction of 2 miles of Penetration Macadam pavement 16 feet wide, beginning at the end of the present pavement, three miles north of the town of Lewisburg and extending along the Marlins Bottom Turnpike. Grading has been done and local limestone will be used, haul 1 mile. For specifications and information apply to Frank K. Rader, County Engineer, Lewisburg, W. Va.

The County Court reserves the right to **reject any and all bids.**

Bids: June 30.

Road Construction

Elizabeth City, North Carolina.

Sealed proposals for approximately nine miles of hard surface roads will be received at the office of the Pasquotank County Highway Commission, at the court house, of Pasquotank County, Elizabeth City, N. C., until two o'clock P.M., June 30th, 1919.

Proposals must be made in accordance with the plans and specifications, and on the blank forms furnished by the engineer, which are part of the specifications. Plans and specifications are on file in the office of T. L. Higgs, County Road Engineer, Room 336, Hinton Building, Elizabeth City, N. C., and will be ready for distribution on an dafter Saturday, June 21st, 1919. A deposit of $10 will be required which will be refunded when the specifications are returned in good condition.

Each proposal must be accompanied by a certified check on a basis of $600.00 per mile of road, which will be returned to the unsuccessful bidders on the day of letting and to the successful bidder after the contract is properly executed and the required idemnity bond furnished and approved by the Pasquotank County Highway Commission.

The Commission reserve the right to reject any or all bids, to waive defects or accept any bid they may deem for the best interest of the county.

At the same time separate bids will be received for all of the material to complete this job. Viz., brick, cement, sand, gravel or stone, etc.

Pasquotank County Highway Commission.
T. L. HIGGS, Engineer.
W. J. WOODLEY, Chairman.

Bids: June 28.

Highway Construction

ERIE COUNTY, PENNSYLVANIA

North East, Pa.

Sealed proposals will be received by the North East Township Road Supervisors, at their office at North East, Pa., until 10 A.M., June 28, 1919, when bids will be opened and scheduled, and contracts awarded as soon thereafter as possible, for the construction of approximately 8000 ft. of reinforced concrete pavement, in North East Township, on the road leading from North East Boro. to Findley Lake. Construction to be according to Pennsylvania State specifications. Bidding blanks and specifications may be obtained free and plans upon payment of $2.50 per set, upon application at the office of Hill & Hill, Engineers, Marine Bank Bldg., Erie, Pa., or at their North East, (Pa.) office. They also can be seen at either of the above offices. The right is reserved to reject any or all bids and to waive defects in forms.

Bids: July 2.

Highway Work

Trenton, N. J.

Notice is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the improvement of the following:

State Highway Route No. 1, Section No. 3 (Robbinsville to Windsor), Mercer County, concrete surface, estimated 26,843 square yards.

Bids for the above will be opened and read in public at the office of the State Highway Commission, Broad Street Bank Bldg., Trenton, N. J., on Wednesday, July 2, 1919, at 10:30 A.M.

Drawings, specifications and forms of bid, contract and bond for the proposed work are on file in the office of the said Department at Trenton, N. J., and may be inspected by, or furnished on deposit of ten dollars ($10), to prospective bidders. Bids must be made on the standard proposal forms in the manner designated therein and as required by the specifications, same to be enclosed in sealed envelopes, bearing the name and address of bidder and name of the road on the outside, addressed to

STATE HIGHWAY COMMISSION,
Broad Street Bank Building,
Trenton, New Jersey,

and must be accompanied by a certified check for not less than ten per cent. (10%) of the amount of the bid, and be delivered at the above place on or before the hour named. Copies of standard proposal form will be furnished on application. Prospective bidders are directed to obtain the State Highway Department's approval of materials which they propose using in the work before submitting bids.

Each bidder must accompany his bid with a certificate from a surety company, duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in, and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission,

A. LEE GROVER,
Chief Clerk

Bids: July 5.

Road Work

Pekin, Ill.

Sealed proposals will be received by the Highway Commissioner of Pekin Township, Tazewell County, Illinois, at the Office of the Co. Supt. of Highways, Court House, Pekin, Ill., until 2 P.M., July 5, 1919, for the construction of a 16 ft. pavement 8000 ft. long including rading and culverts. Alternate bids will be received on (1) Portland Cement Concrete, and (2) Monolithic brick.

Plans and specifications on file with R. E. Rollins, Town Clerk, Pekin, Ill. Plans may be taken out for temporary use while inspecting the proposed work. For further information, write F. S. Cook, Co. Supt. of Highways, Mackinaw, Ill.

A certified check for $200, made payable to the Highway Commissioner, must accompany each bid.

The right is reserved to reject any or all bids.

ADOLPH NIERSTHEIMER, JR.,
Highway Commissioner of Pekin
Township, Pekin, Ill.

Bids: July 8.

Road Construction

Elkins, W. Va.

Sealed bids will be received until one o'clock P.M., Tuesday, July 8, 1919, by the County Court of Randolph County, West Virginia, for the completion of the work of constructing approximately nineteen miles of improved roads and streets in Leadsville District of said Randolph County, to be let in sections. Said work having been heretofre let to Contract to the R. M. Hudson Paving and Construction Co. and not completed by it. And bids having been received therefore on June 2, 1919, and rejected. A certified check in the sum of $500 must accompany each bid, which will be forfeited as liquidated damages in case bidder fails to comply if his bid is accepted. The successful bidder will be required to furnish a bond equal to the total contract price, and to be approved by the County Court. Plans and specifications for this work and a description of the sections are on file in the offices of the County Clerk and Road Engineer, Elkins, West Virginia. The County Court reserves the right to reject any and all bids.

LEE CROUCH,
President of the County
Court of Randolph County.

THADDEUS PRITT,
Clerk of the County
Court of Randolph Co.

The completion of said work on said roads will be let in five sections averaging about four miles each.

Bids will be received for concrete, macadam, tarvia, warrenite and asphaltic concrete construction. Bids will be received at unit prices.

Full information as to material, etc., will be furnished by the undersigned.

P. B. BLOOMFIELD,
Elkins, W. Va.

Bids: July 8.

Street Construction

Nashville, N. C.

Sealed proposals will be received until 11 o'clock A.M. on Tuesday, the 8th day of July, 1919, by the undersigned for the Commissioners of the Town of Nashville, Nashville, North Carolina, for the construction of street, side walks and curbing on Washington and Depot Streets in the town of Nashville, consisting of about one and one-fourth miles. The street construction to be five inches; side walks and curbing to be in accordance with the usual requirements for cities and towns.

Certified check of 5% of total cost will be required with each bid. Bids will be opened at the office of Finch & Vaughan, in said town of Nashville, North Carolina, at 12 o'clock M., July 8th, 1919.

Right reserved to reject any and all bids.

LEON T. VAUGHAN, Town Clerk,
Nashville, N. C.

U. S. ENGINEER OFFICE, FIRST DISTRICT, NEW YORK CITY, Room 710, Army Building, 39 Whitehall Street, New York City. June 23, 1919.—To whom it may concern: Whereas, navigation is obstructed and endangered by wreck of steamship PORT PHILLIP sunk in the fairway of the main entrance to New York Harbor: Notice is hereby given that unless said vessel is removed by the owners within thirty days from June 23, 1919, it will be removed by the United States under authority of law. Sealed proposals will be received here until 12 M., July 23, 1919, and then opened, for removing wreck of steamship PORT PHILLIP. Information on application.

Bids: July 11.

Highway Work

Trenton, N. J.

Notiec is hereby given that sealed bids will be received by the State Highway Commission of New Jersey for the improvement of the following:

State Highway Route No. 13, Section 3 (Three Mile Run to New Brunswick), Middlesex and Somerset Counties, ocncrete surface, estimated 41,000 square yards.

Bids for the above will be opened and read in public at the office of the State Highway Commission, Broad Street Bank Bldg., Trenton, N. J., on Friday, July 11, 1919, at 10:30 A.M.

Drawings, specifications and form of bid, contract and bond for the proposed work are on file in the office of the said Department at Trenton, N. J., and may be inspected by, or furnished on deposit of Ten Dollars ($10.00) to prospective bidders. Bids must be made on the standard proposal forms in the manner designated therein and as required by the specifications, same to be enclosed in sealed envelopes, bearing the name and address of bidder and name of the road on th eoutside addressed to State Highway Commission, Broad Street aBnk Bldg., Trenton, New Jersey, and must be accompanied by a certified check for not less than ten per cent. (10%) of the amount of the bid, and be delivered at the above place on or before the hour named. Copies of standard proposal form will be furnished on application. Prospective bidders are directed to obtain the State Highway Department's approval of the materials which they propose using in the work before submitting bids.

Each bidder must accompany his bid with a certificate from a surety company, duly authorized to do business in this State, stating that such surety company will provide said bidder with a bond in such sum as is required in, and in accordance with the provisions of said specifications, conditioned for the faithful performance of the provisions of the contract and specifications.

By order of the State Highway Commission.

A. LEE GROVER Chief Clerk.

Bids: July 9.

Highway Construction

THE STATE OF DELAWARE

Dover, Delaware.

CONTRACT NO. 15—0.42 MILES
21,500 cu.yd. grading
10 cu.yd. concrete masonry
300 pounds reinforcement
50 lin.ft. 15-in. reinforced concrete pipe
34 lin.ft. 30-in. reinforced concrete pipe
6 bounds
1,500 tons stone for macadam
600 sq.yd. penetration macadam

CONTRACT NO. 16—4.91 MILES
7.5 acres clearing and grubbing
56,000 cu.yd. grading
1,000 cu.yd. concrete masonry
32,000 pounds reinforcement
400 lin.ft. 15-in. reinforced concrete pipe
68 lin.ft. 18-in. reinforced concrete pipe
68 lin.ft. 24-in. reinforced concrete pipe
34 lin.ft. 30-in. reinforced concrete pipe
136 lin.ft. 36-in. reinforced concrete pipe
50 Bounds
3,000 lin.ft. piles
3,500 lin.ft. wood guard rail
100 tons stone for macadam
9,380 cu.yds. cement concrete roadway
250 Joints
2,000 sq.yds. roadway reinforcement

CONTRACT NO. 17—2.94 MILES
1.00 acre clearing and grubbing
21,000 cu.yds. grading
200 cu.yds. concrete masonry
2,000 pounds reinforcement
240 lin.ft. 15-in. reinforced concrete pipe
68 lin.ft. 18-in. reinforced concrete pipe
34 lin.ft. 24-in. reinforced concrete pipe
34 lin.ft. 30-in. reinforced concrete pipe
34 lin.ft. 36-in. reinforced concrete pipe
30 Bounds
75 tons stone for macadam
5,600 cu.yds. cement concrete roadway
150 Joints

Bids may be submitted for Contracts No. 16 and No. 17 separately or combined.

Performance of contract shall commence within ten (10) days after execution of contract and be completed on or before December 1, 1919.

Monthly payments will be made for 90 per cent. of the construction completed each month.

Bidders must submit proposals upon forms provided by the Department.

Each proposal must be accompanied by a surety bond, certified check, or money to the amount of at least ten (10) per centum of the total amount of the proposal.

The envelope containing the proposal must be marked: "Proposal for the Construction of a State Highway under Contract No. 15, No. 16 and No. 17."

The contract will be awarded or rejected within twenty (20) days from the date of opening proposals.

The right is reserved to reject any or all bids.

Detailed plans may be seen, and index plans and specifications may be obtained after June 23, 1919, upon deposit of ($10.00) ten dollars which amount will be refunded upon return of plans and specifications in good condition, at the office of

STATE HIGHWAY DEPARTMENT,
DOVER, DELAWARE.
CHAS. M. UPHAM,
Chief Engineer.

Bids: July 1

Jail Construction, Etc.

Toms River, N. J.

For the erection and completion of alterations and additions to jail and new wardens' house at Toms River, Ocean County, N. J. will be received on July 1st, 1919, at 12 o'clock noon and then publicly opened, each "bid' to be accompanied with a certified check or bid bond for $1000 to guarantee faithful execution of contract. All "bids" to be addressed to E. R. Yoder, chairman of building committee of the Ocean County Board of Freeholders. Fayetteville, Ark.

Sealed bids will be received at the office of the Secretary, W. J. Reynolds, at Fayetteville, Arkansas, until 2 P.M., July 8, 1919, and there will be publicly opened and read, for the construction of 52 miles of gravel and limestone macadam road.

The approximate quantities are as follows:

11.5 acres clearing and grubbing.
155,282.00 cu.yd. unclassified excavation.
5000 cu.yd. solid rock excavation.
20 miles grading machine work (on old road.)
735 lin.ft. heavy steel bridges.
760 lin.ft. light steel bridges (short span.)
33,752 cu.yd. field stone base, 0 to 1 mile haul.
15,860 cu.yd. native gravel, 1 to 2 miles haul.
16,138 cu.yd. limestone top course, 1 to 2 mile haul.
10,800 cu.yd. native gravel, 1 to 2 mile haul.
943 cu.yd. concrete, reinforced.
297 cu.yd. concrete, plain.
72 lin.ft. 15 in. concrete pipe, hauling and placing.
696 lin.ft. 18-in. concrete pipe, hauling and placing.
24 lin.ft. 21-in. concrete pipe, hauling and placing.
528 lin.ft. 24-in. concrete pipe, hauling and placing.
648 lin.ft. 30-in. concrete pipe, hauling and placing.
20,000 sq.yd. scarifying and reshaping old macadam.
24,794 sq.yd. bituminous macadam, 2 inch top.

Separate bids may be submitted for any one or all of the following items:

Concrete pipe, F.O.B. cars, Fayetteville, Ark.
Steel trusses and short spans, erected
Bituminous top.

Plans and specifications are on file at the office of the State Highway Department, Little Rock, Ark., and the office of the County Judge, B. F. Campbell, Fayetteville, Ark. Any additional information may be obtained from the Engineers, Hamilton and Shreve, Fayetteville, Ark.

A certified check to the amount of 5 per cent of the bid must accompany all proposals. Check to be made to the order of W. J. Reynolds, Secretary of the District. Usual rights reserved.

Successful bidders will be required to execute construction bond to the amount of 25 per cent. of their bids.

BOARD OF ROAD DISTRICT NO. 2
C. W. APPLEBY, President.
W. J. REYNOLDS, Secretary.
Fayetteville, Ark.

Hamilton and Shreve, Engineers, Fayetteville, Ark.

Bids: July 15.

Constructing Drainage Project

Marshall County, Iowa.

To whom it may concern: The Board of Supervisors of Marshall County, Iowa, will receive sealed bids for the construction, in accordance with the plans, drawings and specifications of the engineer, of the Iowa River Drainage Project located in Bangor, Marietta, Linn, Liscomb, Iowa and Taylor Townships, Marshall County, Iowa, said improvement being embraced wholly within one section.

The improvement will be the straightening, widening, deepening and changing of the channel of the Iowa River within the district as laid out by the engineer. Estimated yardage, 1,400,000. The work shall consist of all the necessary labor and material for the improvement. For further details see plans, profiles and specifications now on file in the office of the County Auditor, Marshall County, Iowa. Plans, profiles and specifications may be obtained from F. B. Ingersoll, Marshalltown, Iowa, engineer in charge, by sending deposit of $5.00, said amount to be returned when plans, profiles and specifications are returned.

Bids must be accompanied by a certified check of Ten Thousand Dollars ($10,000), check to be drawn on some Marshalltown bank. Successful bidder must furnish bond of 25% of contract price. Work must commence as soon as contract is entered into and be finished by January 1, 1922. Payments to be made on monthly estimates of the engineer, 20% reserved until final completion. Bids received up to 2 o'clock, P.M., July 15, 1919, at the office of the County Auditor, Marshalltown, Iowa. The Board of Supervisors reserves the right to reject any or all bids.

THE BOARD OF SUPERVISORS MARSHALL COUNTY, IOWA,
By W. H. JONES, Chairman.
GEO. ENDERLEY, County Auditor.

Worth While Bidders Know Where to Look for Public Works Contracts

Contractors, Manufacturers and Dealers all over the country *know* that the Official Proposal Advertising in Engineering News-Record is the best place to look for contracts of every description. They *know* that over 90% of the advertisements on which widespread competition is desired are published in the News-Record—over 3,000 Official Proposal advertisements annually. And that is why proposal advertising in the News-Record has saved many municipalities thousands of dollars—competitive bidders everywhere are on the lookout for this advertising and are ready to keep their prices down to the lowest figure possible. The nation-wide circulation of Engineering News-Record and the large number of announcements published each issue is what makes it

Ft. Pierce, Fla.

Bids: July 10.

Highway Construction

Nashville, Tenn.

Sealed bids will be received by the State of Tennessee, Department of Highways, at the Office of the Department, No. 327 7th Ave., N. Nashville, Tennessee, Thursday, July 10, 1919, for the construction of 10.66 miles of State Highway No. 7, between Cowan Station and the Franklin-Marion County line, in Franklin County; and for the construction of 12.27 miles of State Highway No. 7 between Shelbyville and the Moore-Coffee County line, in Bedford and Moore Counties.

Bids will be opened publicly at 2 P.M. at the place and on the date above mentioned.

The principal items of construction, in Franklin County, are approximately as follows:

16,812	cu.yd. Common Excavation.
1,500	cu.yd. Solid Rock Excavation.
101,750	sq.yd. Waterbound Macadam, 8 in. in depth, 16 ft. wide.
8,533	sq.yd. Scarifying and Reshaping.
140	lin.ft. 15 in. Concrete or corrugated metal pipe.
60	lin.ft. 18 in. Concrete or corrugated metal pipe
320	lin.ft. 24 in. Concrete or corrugated metal pipe.
61	cu.yd. Class "A" Concrete.
53	cu.yd. Class "B" Concrete.
8,600	lb. Reinforcing Steel.
120	cu.yd. Stone Masonry.

In addition to the above excavation there is also an item of approximately 8500 cu.yd. of excavation between Sta. 0/00 and Sta. 300 covering the finishing of the grade between those two points, the rough grade having been previously done.

The principal items of construction, in Bedford and Moore Counties, are approximately as follows:

29,716	cu.yd. Common Excavation.
5,935	cu.yd. Solid Rock Excavation.
1.76	miles Grader Work.
17,865	sq.yd. Scarifying and Reshaping.
12,000	sq.yd. 8½ in. Waterbound Macadam, 16 ft. wide.
102,500	sq.yd. 8 in. Gravel Surfacing, 16 ft. wide.
596	lin.ft. 15 in. Concrete or Corrugated metal pipe.
1,075	lin.ft. 25 in. Concrete or Corrugated metal pipe.
300	cu.yd. Riprap.
28	cu.yd. "Special" Concrete.
335	cu.yd. Class "A" Concrete.
110	cu.yd. Class "B" Concrete.
36,500	lb. Steel.
2	REINFORCED CONCRETE BRIDGES, consisting of
160	cu.yd. Excavation.
15	cu.yd. "Special" Concrete.
97	cu.yd. Class "A" Concrete.
173	cu.yd. Class "B" Concrete.
15,000	lb. Steel.

Alternate bids will also be considered on 8½ in. Waterbound Macadam for the total 104,500 sq.yd. of surfacing.

Specifications and blank proposals will be furnished contractors upon application.

Plans and specifications are on file in the office of the Department of Highways, Nashville, Tennessee.

Any additional information may be secured from the Chief Engineer, at Nashville, Tennessee.

The right to reject any or all bids is reserved.

Certified check for the sum of $500.00 must accompany each bid as evidence of good faith and as a guarantee that if awarded contract, the bidder will execute contract and give surety bond as required.

STATE HIGHWAY COMMISSION,
W. P. MOORE, Chief Engineer.

Bids: July 1.

Grading and Draining Road

Lewisburg, W. Va.

Until noon, July 1st, sealed bids will be received by the County Court of Greenbrier County, West Virginia, for grading and draining proposed road leading from Ronceverte, west to the Fort Spring District line, or so much thereof as funds available will permit. $70,000 has been appropriated.

The bulk of this work is on a new location with which traffic will not interfere.

Plans and specifications will be supplied to applicants sufficiently interested to look over the work.

The County Court reserves the right to reject any and all bids.

FRANK K. RADER,
County Engineer.

Bids: July 7.

Street Repairing

Woodstown, N. J.

Notice is hereby given that sealed bids will be received by the Mayor and Common Council for the repair of streets in the Borough of Woodstown, with a seal coat surface upon a repaired bituminous concrete foundation; estimated amount of surface pavement required is 27,475 square yards; at Council Chamber, Woodstown, N. J., on Monday, July 7th, 1919, at 7.30 P.M.

Drawings, specifications and further information in regard to bids may be obtained of **Keasbey & Sparks**, Engineers, **Mecum Bldg., Salem, N. J.**

WALTER SYLVESTER, Clerk.

PROPOSAL FOR STONE.—U. S. Engineer Office, Customhouse, New Orleans, La. —Sealed proposals will be received here until 11 A.M., July 15, 1919, and then opened, for furnishing and delivering stone for Head of Passes, South Pass, and Southwest Pass, Mississippi River. Further information on application.

OFFICIAL PROPOSALS

Bids: July 28.

Sewer Construction

Aberdeen, South Dakota

Notice is hereby given that sealed bids will be received by the Auditor of the City of Aberdeen, South Dakota, until 9 o'clock A.M. on Monday, July 28, 1919, for the furnishing of material and labor and constructing a storm sewer for the City of Aberdeen, South Dakota, at which meeting of the Board of Commissioners of said city all proposals will be opened.

All material and work must be in accordance with the plans and specifications on file at the office of the city engineer and city auditor.

The work to consist of approximately eight miles of vitrified, segmental block or concrete pipe running in diameter from ten inch to ninety-six inches, with one hundred manholes and two hundred and twelve catch basins.

Any prospective bidder, desiring a set of the plans for personal use may obtain same from the city engineer by making a deposit of Ten Dollars to cover the cost of the blue prints. Refund of one-half the amount deposited will be made on the return of the plans and specifications to the city engineer within five days following date of receiving bids.

Each bid must be accompanied by a certified check, payable to the City of Aberdeen, in the amount of One Thousand Dollars. Said check will be returned to unsuccessful bidders upon award of contract and to successful bidder when his bond has been approved for the faithful performance of the work.

The city reserves the right to reject any or all bids.

By order of the Board of Commissioners of the City of Aberdeen.

F. U. RAYMOND,
City Auditor.

PROPOSALS FOR JETTY CONSTRUCTION.—U. S. Engineer Office, Jacksonville, Fla.—Sealed proposals will be received here until 12 M., July 24, 1919, and then opened, for jetty construction at the entrance to St. Johns River, Fla. Further information on application.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Philadelphia, Pa. Sealed proposals will be received here until 12 noon, July 25, 1919, and then opened, for dredging in Schuylkill River. Further information on application.

PROPOSALS FOR COAL.—U. S Engineer Office, Jacksonville, Fla.—Selaed proposals will be received here until 12 o'clock noon, July 24, 1919, and then opened, for furnishing 6000 short tons coal for U. S. dredges on Hillsboro Bay and tributary waters. Information on application.

PROPOSALS FOR DREDGING, U. S. Engineer Office, Baltimore, Md. Sealed proposals will be received here until 1:00 P.M., July 21, 1919, and then opened, for dredging in channel to Curtis Bay, Md. Further information on application.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Honolulu, Hawaii.—Sealed proposals for dredging in Honolulu Harbor, Hawaii, will be received in this office until 11 A.M., August 26, 1919, and then opened. Further information on application to this office or to U. S. Engineer Office, 401 Customhouse, San Francisco.

U. S. ENGINEER OFFICE, P. O. BUILDING, Savannah, Ga.—Sealed proposals will be received here until 12 noon July 21, 1919, and then opened, for dredging in Savannah Harbor. Information on application.

OFFICIAL PROPOSALS

Bids: July 30.

Hetch Hetchy Dam

San Francisco, California.

Sealed proposals will be received at the office of the Board of Public Works, City Hall, San Francisco, between 2 and 3 o'clock P.M., Wednesday, July 30, 1919, for the construction of the Hetch Hetchy dam and appurtenant works, in Tuolumne County, California.

The dam is to be of the arched gravity type, with a height above stream level of about 212 feet and an average depth to foundation of about 72 feet, and built of cyclopean masonry. The principal items of the work are estimated as follows: Excavation below stream level, 77,000 cu.yds.; excavation above stream level, 60,500 cu.yds.; cyclopean masonry, 298,800 cu.yds.; concrete not included in cyclopean masonry, 66,850 cu.yds. The dam site is accessible directly by railroad, and electric power for construction purposes will be available.

It is estimated that the cost to the City of this work will be about $4,000,000.

Specifications, plans and proposal form may be obtained from the City Engineer, City Hall, San Francisco, on deposit of $20.

M. M. O'SHAUGHNESSY,
City Engineer.

Bids: July 17.

Construction, Sanitary Work, Etc.

Malone, N. Y.

Sealed proposals for Construction, Heating, Sanitary and Electric Work, Addition to State Armory, Malone, N. Y., will be received by Mr. Edward S. Walsh, Superintendent of Public Works, Capitol, Albany, N. Y., until 12 o'clock noon of Thursday, July 17, 1919, when they will be publicly opened and read. Proposals shall be enclosed in an envelope furnished by the Superintendent of Public Works, sealed and addressed, and shall be accompanied by a certified check in the sum of five per cent (5%) of the amount of the proposal. The contractors to whom the awards are made will be required to furnish surety company bond in the sum of fifty per cent (50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3251, 3266, 3267 and 3268. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the State Armory, Malone, N. Y.; at the office of the State Board of Armory Commissioners, 158 State St., Albany, N. Y.; at the office of the Superintendent of Public Works, Capitol, Albany, N. Y.; at the New York Office of the Department of Architecture, Room 618 Hall of Records Building, and at the Departemnt of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Public Works, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of Edward S. Walsh, Superintendent of Public Works, Capitol, Albany, N. Y.

Dated: June 19, 1919.

U. S. ENGINEER OFFICE, Room 812, Army Building, 39 Whitehall Street, New York City.—Sealed proposals will be received here until 12 M., July 21, 1919, and then opened, for dredging in Passaic River, N. J. Further information on application.

OFFICIAL PROPOSALS

Bids: July 11.

Sewage Disposal Plant

DIVISION I
SANITARY DISTRICT OF INDIANAPOLIS

Indianapolis, Ind.

Sealed proposals will be received at the office of the Board of Sanitary Commissioners of the Sanitary District of Indianapolis, at the City Hall, Indianapolis, Indiana, until 10 A.M., July 11, 1919, when bids will be publicly opened and schedules, and contract awarded as soon thereafter as possible, for the construction of Division 1 of the Sewage Disposal Plant for the Sanitnary District, which shall consist of 960 lineal feet of 84-inch Reinforced Concrete Intercepting Connecting Conduit, and 300 feet of 75-inch Reinforced Concrete Sewer Extenesion; Reinforced Concrete Grit Chambers and Overflow, one small Pump House, superstructure of brick, one 4-inch electric driven Drain Pump, Piping and Valves, seven Sluice Gates, Roughing Racks and Guard Racks with complete equipment; 1000 lineal feet of 60-inch Class A Cast-Iron Inverted Siphon under the river, and 7600 lineal feet of 78-inch Reinforced Concrete Sanitary Conduit. Detailed plans, drawings and specifications are on file at the office of the Board.

Proposal blanks and copies of specifications and plans may be obtained at the office of Charles H. Hurd, Consulting Engineer, 1405 Merchants Bank Building, Indianapolis. A charge of $10.00 will be made for each complete set of plans and specifications, which will be refunded upon their return in good condition.

Each bidder shall be required to deposit with the Board of Sanitary Commissioners with his respective bid, a certified check payable to the Sanitary District of Indianapolis, in the amount of ten thousand dollars ($10,000) to insure the execution of the contract for which such bid is made.

The Board has the right to reject any and all bids.

FRANK C. LINGENFELTER,
President.
LUCIUS B. SWIFT,
Vice-Pres.
JAY A. CRAVEN,
Secretary.

Bids:

Bridge Construction

County of Camden, N. J.

Sealed proposals are invited for building a new reinforced concrete arch bridge on Nicholson Road over Newton Creek in the County of Camden, N. J., in accordance with plans and specifications on file in the office of the Clerk Board of Chosen Freeholders, Court House in Camden, N. J., and which will be mailed to any address on receipt of One Dollar.

Approximate quantities.
1400 cubic yards concrete.
292 piles (12-in.) 25 ft. long.
6000 cubic yards earth fill.
712 square yards amiesite road with concrete base.

Bids will be received, immediately opened and publicly read in the Freeholders' Room in Court House, Camden, N. J., Monday, July 7, 1919, at 11 A.M. The Board reserves right to reject any or all bids.

FRED W. GERCKE,
Chairman Bridge Committee.
J. J. ALBERTSON, County Engineer
Dated June 19, 1919.

Bids: June 30.

Storm Sewer

Raton, New Mexico.

Sealed proposals will be received at the office of the City Clerk of the City of Raton, New Mexico, until 8 o'clock P.M., June 30, 1919, for the construction of a storm sewer in Sewer District No. 3.

Approximate quantities: 1062 ft. 10 in. vitrified sewer pipe, 1936 ft. 12 in., 2007 ft. 15 in., 2342 ft. 18 in., 1936 ft. 21 in., 404 ft. 30 in. concrete conduit, 400 ft. 36 in., 400 ft. 42 in., 80 ft. 48 in.; 10 catch basins and 25 manholes.

All bids must be accompanied by a certified check payable to the City Treasurer in the sum of $500.00. Plans, specifications and proposal blanks can be obtained at the office of Vincent K. Jones, Consulting Engineer, E. Las Vegas, N. M., or at the office of the City Clerk.

Monthly payments of 85% of completed work. All payments to be made in Sewer Certificates bearing 6% interest and payable in from one to ten years. No conditional or informal bid will be considered. The City reserves the right to reject any or all bids.

City Council of the City of Raton, N. M.,
By J. J. SHULER, Mayor.

Attest:
PERRY TURNER, Clerk.

Bids: July 15.

Pumping Plant

MUSCATINE-LOUISA DRAINAGE DISTRICT NO. 13

Wapello, Ia.

Sealed bids will be received until 1 o'clock P.M., July 15, 1919, by the Muscatine-Louisa Drainage District No. 13, at the Office of the County Auditor of Louisa County, Wapello, Iowa, for a steam-driven pumping plant containing one 36-in. and one 24-in. double suction centrifugal pump. Bids will also be received for a building to house this plant.

For further information address the Engineers, Elliott & Harman Engineering Co., Peoria, Illinois.

Bids: July 14.

Highway Construction

Ebensburg, Pa.

Sealed proposals addressed to the supervisors of Croyle township, Cambria County, Pa., in care of the country controller, Abensburg, Pa., will be received up until 10 a.m., and publicly opened and read in the commissioners' office at 10:30 a.m. on the 14th day of July, A.D., 1919, for the furnishing of all labor and materials for the reconstruction of 10¾ miles of highway in Croyle township, Cambria County, Pa., with a 16 foot roadway of vitrified brick paving block on a combination base and curb.

The work is in three contracts, viz.: (1) Jackson road from Summerhill borough line to the Cambria township line, a distance of 3.35 miles; (2) The Frankstown road from Lambs bridge to the Summerhill township line, a distance of four miles. (3) The Perkins hill road from the village of Lovett to the Summerhill township line, a distance of 2.9 miles.

Proposals must be made in accordance with the plans and specifications and on the blank forms furnshed by the engineer, which are part of the specifications.

Plans and specifications are on file and may be secured from O. P. Thomas, engineer for Croyle township, Leader building, Johnstown, Pa. A deposit of $10 will be required which will be refunded when specifications are returned in good condition. Contractors desiring plans will be furnished same for the cost of blue-printing.

Each proposal must be accompanied by a certified check on a basis of $500 per mile of work, which will be returned to the unsuccessful bidders on the day of the letting and to the successful bidder after the contract is properly executed and the required indemnity bond furnished and approved by the board of supervisors and county commissioners, amount of which must be equal to the gross amount of the contract.

The supervisors reserve the right to reject any or all bids to waive defects or accept any bid they may deem for the best interest of the township.

At the same time separate bids will be received for approximately 1,200,000 No. 1 repressed vitrified paving block, delivered f.o.b. cars, Summerhill, Pa.; 1,500,000. No. 1 repressed vitrified paving block delivered, f.o.b. cars Lambs bridge and Summerhill, Pa., and 1,050,000 No. 1 repressed f.o.b. cars, Lovett, Pa.

Plans, specification and bidding blanks will be ready for inspection and distribution to contractors on Thursday, July 3.

By order of Charles Stutzman, Stephen Haddon and D. G. Knepper, supervisors of Croyle township, Cambria County, Pa.

O. P. THOMAS, Engineer.

Bids: July 29.

(5%) of the amount of the proposal. The contractors to whom the awars are made shall be required to furnish surety company bond in the sum of fifty per cent(50%) of the amount of the contract within thirty (30) days after official notice of award of contract and in accordance with the terms of Specifications Nos. 3271, 3272, 3273, 3274, and 3275. The right is reserved to reject any or all bids. Drawings and specifications may be consulted at the Utica State Hospital, Utica, New York; at the New York office of the Department of Architecture, Room 618 Hall of Records Building, and at the Department of Architecture, Capitol, Albany, N. Y. Drawings and specifications and blank forms of proposal may be obtained at the Department of Architecture, Capitol, Albany, N. Y., upon reasonable notice to and in the discretion of the State Architect, L. P. Pilcher, Capitol, Albany, N. Y.

Dated: June 18, 1919.

E. S. ELWOOD,
Secretary, State Hospital Commission.

PROPOSALS FOR DREDGING.—U. S. Engineer Office, Sault Ste. Marie, Mich.—Sealed proposals will be received here until 4 P.M., July 22, 1919, and then opened, for dredging Grosse Pointe Channel, Lake St. Clair, Michigan. Further information on application.

Bridge Construction

ROUMANIAN GOVERNMENT

Roumania.

Proposals will be considered by the undersigned for submittal to the Roumanian Government for the furnishing and erection of all or part of the bridges destroyed in Roumania during the war. The total of steel needed for these bridges is about 25,000 tons, the largest and most urgent of these being the bridge across the Borcea branch of the Danube.

As arrangements for the cash payment for this work are not at present concluded, negotiations with firms capable of at least temporarily financing contracts are for the present most desired.

Arrange interview by amil.

ROUMANIAN BRIDGE COMMISSION,
Hotel Cumberland,
54th Street and Broadway,
New York.

Bids: July 7.

Paving

Bay City, Michigan

Bids will be received Monday, July 7th 1919, at 9 o'clock A.M., for constructing 24,500 yards of permanent pavements, including asphalt, concrete and brick.

WM. H. REID.
Comptroller.

OFFICIAL PROPOSALS

Bids: **July 10.**

Sewer Construction

OFFICIAL NOTICE NO. 43

Milwaukee, Wis.

Published by authority of the Sewerage Commission of the City of Milwaukee.

Sealed proposals for the construction of extensions to the Intercepting Sewer System of the City of Milwaukee, Wisconsin, will be received by the Sewerage Commission of said City at its offices in the City Hall until 2:00 P.M., the 10th day of July, A.D. 1919, at which time and place during the session of the said Commission the proposals will be publicly opened and read.

The work to be done embraces the building of approximately the following work:

6200	lineal feet 72 in. concrete sewer in tunnel.
430	vertical feet of standard manholes.
60	vertical feet of drop manholes.
8	manhole frames and covers.

Together with all other appurtenances.

The time allowed for the completion of this contract will be twelve (12) months from the date of the engineer's notice to begin work.

The liquidated damages for not completing the work within the time above stated shall, for each day in excess thereof, be Twenty-five ($25.00) Dollars.

Each proposal submitted must be accompanied by a cash deposit of, or, in lieu thereof, by a certified check drawn upon a National or State Bank or Trust Company, and to the order of the "Sewerage Commission of the City of Milwaukee" to the amount of Five Thousand Dollars ($5,000.00).

All cash deposits or certified checks deposited by bidders to whom the contract is not awarded will be returned, upon application to the Secretary of the Sewerage Commission, after the contract has been awarded or after the rejection of all bids. The cash deposit or certified check which has been deposited by the successful bidder will be returned to him as soon as the contract is properly executed and approved by the City Attorney and the Sewerage Commission.

Specifications and blank forms of proposals can be obtained, and detailed plans examined, at the office of the Sewerage Commission in the City Hall and a full set of plans will be sent to any contractor upon receipt of Five Dollars ($5.00). This sum will be returned upon surrender of the plans in good condition. The Sewerage Commission of the City of Milwaukee reserves the right to reject any and all bids submitted.

J. H. FOWLES,
Secretary.

Countersigned:
A. P. PUELICHER, Deputy Comptroller.

OFFICIAL PROPOSALS

Bids: July 9.

Street Paving

Palmerton, Penna.

Sealed proposals will be received by the Secretary of the Borough of Palmerton, Carbon County, Pennsylvania, at No. 180 Delaware Ave., Palmerton, Penna., until 9 P.M. July 9th, 1919, for Street Improvements.

The work will consist of approximately:

12,830	cu.yd. Excavation for Roadway and Curbing.
30,260	sq.yd. of Broken Stone Sub-Base for all types of Pavement.
30,260	sq.yd. of Cement Concrete Base Course for Brick and Amiesite Pavement.
30,260	sq.yd. of Concrete, Brick and Amiesite Pavement.
740	lin.ft. Removal and Renewal of Old Curbing.
2,890	lin.ft. of Concrete Curbing.

Proposals must be marked "Proposals for Street Improvement."

All proposals must be upon blank forms provided by the Borough Council.

Plans, specifications and proposal forms can be procured from the Borough Council through the Borough Engineer at the office of the Palmer Land Co. Cor. Third and Delaware Ave., Palemrton, Penna., upon deposit of ten (10) dollars, which amount will be refunded upon their return in good condition not later than ten (10) days following the award of the contract.

Each bid must be accompanied by a certified check for $5000.00 as evidence of good faith.

The right is reserved to reject any or all bids.

BOROUGH OF PALMERTON,
A. C. SCHAEFER, Secretary.

Bids: July 8.

Concrete Girder Bridge

COUNTY CONTROLLER'S OFFICE

Reading, Penn.

Sealed proposals will be received in this office up to 10 o'clock A.M. Tuesday, July 8, 1919, for the erection of a reinforced concrete girder bridge across West Branch Creek in Washington Township, Berks County, Penn., about two miles from Barto Station. Material must be shipped on the P. & R. railroad.

Proposal blanks with plans and specifications can be obtained in the County Commissioners' Office by paying a deposit of five dollars, which will be refunded when the plans and specifications are returned.

All bids must be accompanied with a certified check equal to ten per cent of the aggregate amount of the bid.

The right is reserved to reject any or all bids.

CYRUS J. RHODE,
County Controller.

June 18, 1919.

OFFICIAL PROPOSALS

Bids: June 30.

Sewer Construction

Muskegon, Mich.

Sealed bids will be received at the office of the City Recorder, Muskegon, Michigan, up to 8 o'clock, June 30, 1919, for the furnishing of material and the performance of the work of constructing main and lateral sewers in sewer district No. 28, which lies in the southeastern part of the City of Muskegon. Sewer will be laid in sandy soil, ground water will be encountered at a depth of ten (10) to fourteen (14) feet.

5,461 lin.ft. 24-in. D.S. Sewer Tile, maximum cut 16 ft., average cut 10 to 14 ft.
2,242 lin.ft. 20-in., average cut 12 ft.
1,106 ft. 18-in., average cut 12 ft.
2,562 ft. of 15 in.
2,148 ft. of 12 in.
2,282 ft. of 10 in.
31,521 ft. of 8 in.
61 Manholes.
13 "Y" Branches on the 24-in. pipe.

On the 8-in. there will be a "Y" Branch about every 25 ft.

Lamp holes without cast iron covers will be provided on the end of each lateral.

Plans and Specifications of the same are on file in the office of the City Engineer.

Each bidder will be required to deposit with his bid a certified check of 5% of the total amount thereof to be forfeited to the City in case he fails to enter into contract if his bid is accepted.

The city reserves the right to reject any and all bids.

B. H. TELLMAN,
City Recorder.

Bids: June 30.

Street Improvement

Raton, New Mexico.

Separate, sealed proposals for the paving and improving of the following streets within the City of Raton, New Mexico, will be received at the office of the City Clerk until 8 o'clock P.M., June 30: Cook Avenue from First to Third Streets; Park Avenue from First to Third Streets; First Street from Rio Grande to Savage Avenue; Second Street from Rio Grande to Savage Avenues. All proposals must be upon blanks furnished by the City and must be accompanied by a certified check in the sum of $1,000.00 payable to the City Treasurer. Approximate quantities are as follows: Topeka of Bitulithic Pavement, 26,887 sq.yd.; Concrete Curb and Gutter, 6661 lin.ft.; Concrete Alley Returns, 546 lin.ft.; Concrete Alley Pavement, 4000 sq.yd., which is approximately one-half of a two-year program which has been authorized. Alternate bids will be received based upon the acceptance, at par, for all work, of certificates bearing 6% interest and certificates bearing 8% interest. Payments will be made in assessment certificates upon the completion of each separate street improvement. Plans can be seen and forms of proposal obtained at the office of Vincent K. Jones, Consulting Engineer, E. Las Vegas, N. M., or at the office of the City Clerk. No informal or conditional bid will be considered. The right is reserved to reject any or all bids.

City Council of the City of Raton, N. M.,

Attest:
PERRY TURNER, Clerk.

OFFICIAL PROPOSALS

Bids: July 10.

Concrete Bridge Construction

Adrian, Michigan.

Notice is hereby given that sealed bids will be received by the City Clerk of the City of Adrian, Michigan, for the construction of a reinforced concrete bridge over the Raisin River on West Maumee Street, in said City of Adrian. The plans and specifications for said concrete bridge may be seen at the office of the City Clerk where they are on file for inspection, and include by reference Michigan State Highway Department, Specifications Edition 1916. All bids must be accompanied by a certified check for the sum of $500.00 to be forfeited by the bidder in the event that he is the successful bidder and fails to carry out his contract, and in the event that his bid is not accepted, said certified check will be returned. The right is also reserved to reject any and all bids.

All bids will be opened on July 10, 1919, at 4 o'clock P.M. at the office of said City Clerk. The successful bidder will be required to furnish a construction bond in a sum not less than the amount of the bid, furnished by a Surety Bonding Company authorized to transact business in the State of Michigan, and to carry insurance covering Workmen's Compensation and public liability.

G. PERCY LOVE,
City Clerk.

Dated this 17th day of June, 1919.

POSITIONS VACANT

A FIRST-CLASS mechanical and electrical engineer wanted, capable of designing electric traveling cranes; must have executive ability and be capable of taking full charge. State experience, age, salary expected. Communications strictly confidential. Address P-810, Eng. News-Record, Philadelphia.

ARCHITECTURAL draftsman wanted—State education, experience and salary wanted; location, New York City. P-837, Eng. News-Record.

ASSISTANT superintendent or general foreman wanted on bridge work. Requirements, energy and good judgment. Address P-746, Eng. News-Record, Chicago.

DESIGNER—Reinforced concrete designer wanted; thoroughly posted on latest commercial methods of flat slab design and construction; engineering graduate preferred. The J. G. White Engineering Corporation, 43 Exchange Pl., New York.

DRAFTSMEN wanted for the Panama Canal—1 electrical draftsman experienced in underground power distribution and building illumination, $168 to $179 month; 2 hull draftsmen, $168 to $231 month; 1 draftsman capable of handling municipal engineering work, $189 month; must be thorougly experienced in special lines above indicated, American citizens under 50 years of age, in good health. Free steamship transportation from New York or New Orleans, salary beginning date of sailing. Write Chief of Office, The Panama Canal, Washington, D. C.

DRAFTSMAN wanted at once—First-class; state age, nationality, references and experience in first letter. Permanent position in central South if satisfactory. P-747, Eng. News-Record, Leader-News Bldg., Cleveland.

POSITIONS VACANT

DRAFTSMEN — First-class, experienced architectural or structural men for commercial or domestic work. Send samples of recent work with experience, salary wanted and reporting date, first letter. Permanent work under best conditions. Smith, Hinchman & Grylls, Washington Arcade, Detroit, Mich.

DRAFTSMAN wanted on construction work, New York City; technical graduate preferred; give past experience and salary desired. Address P-835, Eng. News-Record.

DRAFTSMEN and detailers wanted immediately on reinforced concrete. State experience, salary, age and nationality. P-870, Eng. News-Record.

ENGINEER-SUPERINTENDENT capable of handling any class of municipal engineering and superintending paving construction for city doing its own work; one experienced with Kentucky rock asphalt preferred; state fully experience in first letter. W. Austin Smith, Box 1206, Huntington, W. Va.

ENGINEER wanted on highway work, capable of taking charge of party in field making road surveys. F. O. Laing, County Engineer, Des Moines, Ia.

ENGINEERS wanted; one transitman and one draftsman, with some experience in highway work. Permanent employment if services satisfactory. P-216, Eng. News-Record, Chicago.

ENGINEER solicitor wanted by engineering firm to manage business-getting department; headquarters New York City; experience in manufacture of structural steel, steel products and machinery preferred; state age, nationality, experience in detail; references and salary. P-847, Eng. News-Record.

ESTIMATOR wanted for miscellaneous iron and steel work, reinforcing especially; structural and ornamental knowledge desirable. Must be qualified to take items accurately from plans. Would consider partnership with right man. Actual business good, prospects splendid. P. O. Box 487, Little Rock, Ark.

EXPERIENCED checkers and detailers on bridge and building work, at once. Location, New England. State age, nationality, experience, salary expected and when able to report in first letter. P-769, Eng. News-Record.

FIRST-CLASS, high-grade structural steel designer wanted of not less than ten years' experience, and preferably one familiar with blast furnace or steel plant work. Permanent position. State full details regarding experience, salary wanted and date available. P-575, Eng. News-Record, Leader-News Bldg., Cleveland.

FIRST-CLASS checkers and detailers wanted on mill buildings and other steel construction; state qualifications, salary expected and date available. Indiana Bridge Company, Muncie, Ind.

Structural Draftsmen Wanted

Several first-class detailers and checkers by large Buffalo fabricating shop. Permanent positions with excellent opportunities for advancement, depending upon ability. Give age, education, references and experience in detail.

Work Wanted
Miscellaneous for Sale, for Rent or Want Ads.

THIRTY CENTS A LINE, minimum five lines, for all undisplayed advertisements set with a paragraph for each item or tabulated.

THREE DOLLARS AND SIXTY CENTS AN INCH for advertisements for bids (Official Proposals).

Ads Set in Display Type

(Individual space, within border rules.)

Space for these advertisements is sold by the inch. Each page contains 30 inches. The rate per inch is based on the *total* number of inches to be used—that is, the number of inches the advertisement is to occupy multiplied by the number of insertions it is to receive. For instance, a 2-inch advertisement in 2 issues earns the 4-inch rate of $3.90 an inch. A 1-inch space for 4 issues, or a 4-inch space in one issue, also earn the 4-inch rate.

SCHEDULE OF RATES

1 to 3 in.,	$4.00 an in.	15 to 26 in.,	$3.70 an in.
4 to 7 in.,	3.90 an in.	27 to 49 in.,	3.60 an in.
8 to 14 in.,	3.80 an in.	50 to 99 in.,	3.50 an in.

Rates for larger space furnished on request.

For quick and satisfactory results tell the reader everything that he will want to know.

INFORMATION

ALLOW FIVE WORDS for the address, if replies are to a box number in care of any of our offices. There is no extra charge for forwarding replies.

IN REPLYING TO ADS, do not enclose original testimonials or anything that you may want returned. State your experience and qualifications in as concise and neat a manner as possible and enclose copies of your testimonials.

BE CAREFUL TO PUT ON ENVELOPE, when answering any "blind" ad, the box number in the ad, the name of the paper, and also the local address of office to which reply is sent:

36th St., at 10th Ave.,	New York
935 Real Estate Trust Bldg.,	Philadelphia
657 Leader-News Bldg.,	Cleveland
1570 Old Colony Bldg.,	Chicago
501 Rialto Bldg.,	San Francisco

WHEN ADVERTISING MACHINERY, use your own name and address—or a local address of some kind—so that the readers can wire direct and get quick replies. We advise also that you state in your advertisement the present location of plant that is offered for sale, or point of delivery provided you are in the market for equipment.

TO SIGN YOUR NAME and address to your advertisement begets the confidence of the reader and facilitates receiving replies. You can, however, obviate delay in receiving answers by signing your ad. only with initials (your own or others), care of your home, your office or a post-office box number in your city.

POSITIONS VACANT EMPLOYMENT POSITIONS WANTED

POSITIONS VACANT

GRADUATE engineer wanted — Experienced in automobile design, maintenance and repair; must have had practical shop experience on repairing at same time; give past experience and salary desired. Address P-836, Eng. News-Record.

GRADUATE engineer wanted, specialist in reinforced concrete design, with practical construction and sales experience, for position resident sales engineer, Calcutta, India. Also for Singapore, Straits Settlements. Must be unmarried and American or British born and prepared to stick. Only high-grade men wanted. Send complete details education, training, experience, references and salary requirements. Truscon Steel Co., 2 Rector St., New York City.

HEATING and ventilating engineer-draftsman wanted—Must be college graduate, neat draftsman, capable of designing hot air heating, ventilating and exhaust systems. Location eastern New York. Salary $165 per month. P-748, Eng. News-Record.

LARGE locomotive firm will shortly require the services of a thoroughly experienced works manager conversant with the best modern practice; liberal salary and exceptional prospects to suitable man. Address "Locomotive," Wm. Porteous & Co., Advertising Agents, Glasgow, Scotland.

LEVELMAN and transitmen wanted on reclamation work; state age, experience, education, nationality and salary desired; no replies to rejected applicants. Address Morgan Engineering Co., 622 Goodwyn Institute, Memphis, Tenn.

ONE experienced structural steel engineer wanted for Southwest. Permanent position. P-770, Eng. News-Record, Chicago.

POSITIONS VACANT

MAN wanted capable of taking charge of an excavating business; one capable of making estimates and supervising work; this is an unusual opportunity for a capable man who is willing to start at a fair salary and show that he can make good. State Highway Department to Hold Examination for Assistant Engineers

In compliance with a recent law enacted by the legislature, the State Highway Department will hold an examination for Assistant Highway Engineers in the Capitol building at Nashville, Tennessee, on

JULY 7th 1919

Chapter 74 of the Public Act of 1917 requires all Assistant Engineers who are employed by the State Highway Department to have passed a creditable examination before the examining Board, consisting of the State Highway Engineer, the Dean of Engineering of the University of Tennessee and the State Geologist. The object of this examination is to qualify a number of Engineers for immediate employment. The State Highway Department is now preparing a number of projects to be passed upon by the Federal Government with an idea of immediate construction. The Department is putting forth every effort to construct the unimproved portions of the Memphis to Bristol Highway (610 miles in length) and the Dixie Highway (207 miles in length) as quickly as possible. In addition to these main trunk lines there are a number of other projects which are receiving the attention of the Department. In order to carry on this work and to prepare the various projects for construction the Department is now needing additional engineers. This examination is therefore held in order to obtain Assistant Engineers for immediate employment and not to be placed on the eligibility list to wait for future assignment. **It is thought by the Commission that the Department can use at the present time every engineer who qualifies.**

W. P. MOORE, Chief Engineer, State Highway Dept., Nashville, Tenn.

STRUCTURAL STEEL DETAILING for

Mill buildings, office buildings, tower tipples, viaducts, schools, theatres, etc.

Correctness and time of delivery of drawings guaranteed. All drawings made in accordance with your Shop Standards. Reinforced Concrete Engineering
Structural Steel Designing
Structural Drafting

Are you able to design and estimate the cost of any and all types of structures in Reinforced Concrete, Steel or Wood? And are your designs safe, economical and up to the minute? If not, WHY NOT?

Special courses of HOME STUDY have been arranged by well known engineer with 30 years' experience in this country and abroad; they are meeting a long felt want.

Men with a High School education are as qualified to take up these courses of work as are technical graduates. Ideal work for the man who wants to "brush up" after being away.

These are courses in experience. You learn to do the work by *actually doing it*. A chance for the ambitious man to get ahead.

Descriptive literature sent free upon request.
Write for it today.

1—60 x 84 Power & Mining "Superior" Jaw, rope drive, with 300-hp., A.C. motor.

DERRICKS (Steel)

5—15-ton "American" Guy Derricks, 115-ft. masts, 100-ft. booms, 16-ft. dia. Steel Bull Wheels. Arranged for standard block and fall work.
1—15-ton, same as above except for bucket operation.
1—3-ton "American" self-slewing Steel Guy Crane Derrick, 60-ft. horizontal boom, engine mounted on mast.

All above Derricks with or without guy and running ropes.

2—10-15-ton Full Circle Steel Stiff Legs, masts 55-ft., booms 80 ft., bull wheels 14 ft.
1—10-15-ton Full Circle Steel Stiff Legs, masts 55-ft., booms 80 ft., bull wheels 14 ft.
1—10-15-ton Standard Steel Stiff Leg Derrick, mast 40 ft., boom 70 ft., steel bull wheel 12 ft. dia.

HOISTS (Electric)

3—60-hp. Lambert, double drum and swingers.
1—84-hp. Lambert, double drum and swinger.
1—75-hp. Lidgerwood, 3-drum and swinger.

HOISTS (Steam)

1—10 x 12, D.C., Flory Cab eway.
1—12 x 12, D.C., Lidgerwood Cableway.
1—12 x 15, D.C., Lidgerwood Cableway
10— 9 x 10, D.C., D.D., Lidgerwood, with swingers.
1—9½ x 12, D.C., D.D. Lambert, with swinger.
1—10½ x 12, D.C., D. D. Lambert, with swinger.
2—8¼ x 10, D.C., D.D. Lidgerwoods, with boilers.
1—8¼ x 10, D.C., D.D. American, with swinger and boilers.

LOCOMOTIVES (Stand. Gage)

1—18-ton, 10 x 14 Davenport Saddle Tank.
3—25-ton, 12 x 18 American Saddle Tanks.
3—31-ton, 13 x 18 American Saddle Tanks.
4—40-ton, 14 x 22 American Saddle Tanks.
1—40-ton, 14 x 22 Baldwin Saddle Tank.
1—55-ton, 17 x 24 Baldwin Saddle Tank.

LOCOMOTIVE CRANES

2—20-ton, 8-wheel, standard gage Industrials, 40-ft. booms, steam brakes, air line, outriggers, bucket drums, counterweight.

SAND ROLLS

1—20 x 14-in. Sturtevant Crusher Rolls.
2—40 x 15-in. Allis-Chalmers "Anaconda."
3—54 x 24-in. Allis-Chalmers "Anaconda."

SCREENS

2—48-in. x 16-ft. Allis-Chalmers.
1—48-in. x 18-ft. Power and Mining.
1—60-in. x 12-ft. Allis-Chalmers.
2—60-in. x 18-ft. Power and Mining.

STEAM SHOVELS

1—No. 60 Marion.
1—No. 70-C Bucyrus.
1—No. 95-C Bucyrus.
1—No. 100-C Bucyrus.

Also Air Receivers, Drills, Drill Sharpeners, Mixers, Pumps, Steam Hammers, Wire Rope, and other contractors' equipment.

THE MARINES

"First to Fight"
—the high cost of pipe, valves and fittings

The good work of the "Marines" is talked about because we were fortunate in purchasing a large quantity of slightly used and second-hand pipe, valves and fittings. Prospective buyers should familiarize themselves with our attractive prices for the large stock on hand of used wrought and steel pipe, gate, globe and angle valves; cast iron and malleable, screw and flanged fittings. All sizes from 1 in. to 24 in., inclusive. Also spiral and straight riveted, black and galvanized; sizes 4 in. to 24 in.

Oak, Chestnut or Yellow Pine

WE BUY—SELL—RENT

NOW READY FOR IMMEDIATE SHIPMENT

LOCOMOTIVE CRANES

1—Brownhoist, 15-20-ton, 8-wheel, 40-ft. boom, 54-in. dia. A.S.M.E. boiler, with or without 2-yd. Brownhoist coal clamshell bucket.
1—Browning, Type No. 1, 15-ton, 4-wheel crane 45-ft. boom, bucket drums equipped, 1-yd. clamshell.
1—"American" Railroad Ditcher. "Twenty Machines in One" Locomotive Crane Work, Clamshell and Orange Peel Bucket Work, shipbuilding, log loading, steam shovel work, etc.
1—Byers Auto Crane, equipped with 30-ft. boom

LOCOMOTIVES

1—60-ton American 6-wheel switcher, driving wheels, 44-in. diameter, carries 150-lb. steam, no truck weight, all on drivers. Excellent condition, just out of shop.
1—Baldwin, 30-ton standard gage, type 0-4-0, saddle tank.

ROAD ROLLERS

1—10-ton Tandem Pioneer.
1—2½-ton Iroquois.
1—10-ton Kelly-Springfield, 3-wheeler.
1—15-ton Kelly-Springfield, 3-wheeler.
1—10-ton J. I. Case, 3-wheeler.

AIR COMPRESSORS

1—Norwalk straight line, 2-stage, 10-in. intake air cylinder, 6½-in. compressing cylinder, 10-in. steam cylinder (all cylinders of 12-in. stroke), capacity 195 cu.ft. at 180-r.p.m., 100-lb. pressure.
1—Blake-Knowles, 10 x 10, belt driven.
1—Ingersoll-Rand Imperial Type 10, belt drive Compressor, capacity 1190 cu.ft. of free air per minute, good for 110 lb. pressure. Compressor now driven by G. E., 200-hp. motor, D.C., 220-volt, 450-r.p.m. Will sell compressor or motor separately.

BUCKETS

1—1½-yd. Clamshell Bucket.
1—Hayward, class E, 1½-yd. capacity clam shell bucket
1—Page 1 yd. capacity dragline bucket.
1—1-yd. Clamshell, type V, Orton & Steinbrenner.
3—1½-yd. Clamshell, type V, Orton & Steinbrenner.
1—1½-yd. Clamshell, type C, Hayward.

GENERATOR

1—100-kw. Western Elec., 125-volt, D.C., belted to Ball Engine.

BOILERS

1—Marine type, 150-hp. (portable).
1—Marine type, 100-hp. Freeman internal fired portable boiler, diameter 84 in., length overall 18 ft. 125-lb. pressure.
1—30-hp. locomotive type, portable Boiler and engine, mounted on iron wheels with engine mounted on top of boiler.
2—18-hp. Vertical.
1—30 hp. Vertical.
1—10-hp. Vertical.
1—8-hp. Vertical.

HOISTING ENGINES

Derrick Hoist

1—60-hp. Puget Sound, heavy duty, double cylinder, double drum Hoist, with 60-in. diam. butt strapped boilers. Good log loader or heavy derrick engine.
2—Byers 16-hp. double cylinders, double drum, equipped with boilers and swinging gears.
1—9 x 10 Lidgerwood, double cylinder, double drum, with special boiler, all steel gears, engine built for heavy duty.

MINE AND CABLEWAY HOISTS

1—Flory 10 x 12 D.C. double [illegible] drum engine. Drums 40 in. diam. x 40 in. face. Levers banked in quadrant.
Lambert 10½ x 12 double cylinder, single drum, 38-in. diam., 24-in. face. Drum grooved, will take up ⅞-in. cable. Drum flanges 8 in. deep. Link motion.
1—Flory, 8½ x 10, D.C., D.D., skeleton, link motion, has quadrant.
1—Lidgerwood tandem, drum 8½ x 10, D.C. drums 36-in. dia., 24-in. face, link motion

CABLE

1840 ft. one piece 2" dia. locked wire rope for tramway or cableway use.

STANDARD SHOVEL

1—Marion Model 50, railroad trucks, 2 yd. dipper

REVOLVING SHOVELS

1—Marion Model 28, on traction wheels, ¾-yd dipper, Shop No. 3832, new in Spring, 1917. Like new in condition.
1—Marion Model 31, on traction wheels, 1½-yd dipper, special 23-ft. boom, 17-ft. dipper handle

CONCRETE MIXERS

1—Lot concrete spouting, size 14½-in. wide, 9½-in. deep; hopper connection.
3—Complete standard gage Concrete Mixer Railroad Car Outfits, one car equipped with No. 12 Smith Gasoline driven, one car with No. 12 Smith steam driven, the other car equipped with Smith-Chicago steam driven.
2—Smith No. 1 gasoline driven, on trucks.
2—Smith No. 11 steam driven, on trucks, with side loaders.
1—Cube No. 11, steam driven, on trucks, with side loader.
6—Cube No. 17 steam driven, on trucks, with side loaders.

CARS

6—**Flat Cars**, 50,000 lb. capacity, M.C.B. journals 4 x 7.
4—1-yd. capacity "V" shaped steel two-way dump, 30-in. gage.
25—1-yd. capacity "V" shaped steel, two-way dump, 24-in. gage.

PUMPS

2—Morris 6-in. (sand) centrifugal, direct connected to steam engine.
1—Van Wie 6-in. suction, 5-in. discharge, belt centrifugal Pump.
1—Gould belt driven, 6-inch suction, 5-inch discharge.
1—Swaby, direct connected to steam engine, 6-inch suction, 5-inch discharge.

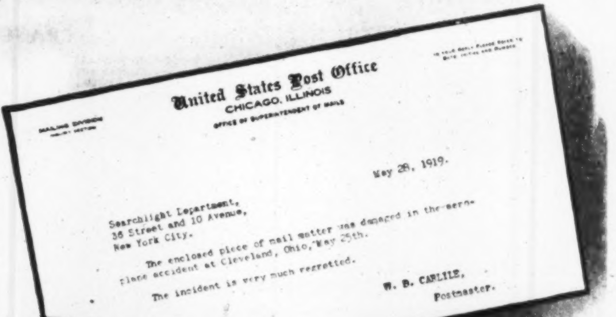
Wherever the mail goes "SEARCHLIGHT" Advertising goes

Even the swift Post-Planes carry the message of "Searchlight" advertising. And swift are the results for advertisers who use the "Searchlight" to tell readers of McGraw-Hill papers their needs or business propositions.

Quickly following the printing of a Searchlight advertisement, machinery or equipment has been rented or sold, positions found or filled, money-saving bids received from Official Proposal advertising and other worth-while results secured.

Over 160,000 men in 10 big engineering fields look to the "Searchlight" for the advertising of current "Opportunities" in their industries. That's why it pays to "Think SEARCHLIGHT First!"



United States Post Office
CHICAGO, ILLINOIS
OFFICE OF SUPERINTENDENT OF MAILS

MAILING DIVISION

May 28, 1919.

Searchlight Department,
36 Street and 10 Avenue,
New York City.

The enclosed piece of mail matter was damaged in the aero-plane accident at Cleveland, Ohio, May 25th.

The incident is very much regretted.

W. B. CARLILE,
Postmaster.

EARLE C. BACON, ENGINEER
HAVEMEYER BUILDING, NEW YORK

IT'S A GREAT DAY IN THE ENGINEERING OFFICE

When the "Old Man" tumbles on to the Ridgway elevator.

He wonders how he could have been so opaque all the while.

Then he usually makes up for lost time. And that is why we keep right on shouting and sassing and smiling. We know the "Old Man" will catch on in due course.

But do you know—it would pay all engineers to keep up to date in their profession instead of allowing only one in a hundred to do so.

When an engineer gets a few clients and a good job or two it often happens he assumes a "front" and a "heavy dig." and says, "You know I am a little conservative."

Good night! He goes right on making blunders big and little and the first thing he knows a good client's next job goes to some fellow who knows what it really means to "Hook 'er to the Biler."

There are so-called "conservative" (back number) engineers who can't even dig up a Ridgway catalog in their offices notwithstanding over 2000 of the biggest and best concerns all over the land are driving us as hard as we can go for these wonderful elevators.

Here are the sort of persons who shout the merits of Ridgway elevators:

United Gas Improvement Co.
Yale & Towne Mfg. Co.
Cluett, Peabody & Co.
Consolidated Gas Co.
National Cash Register Co.
Hammermill Paper Co.
Procter & Gamble Co.
H. J. Heinz Co. "57"

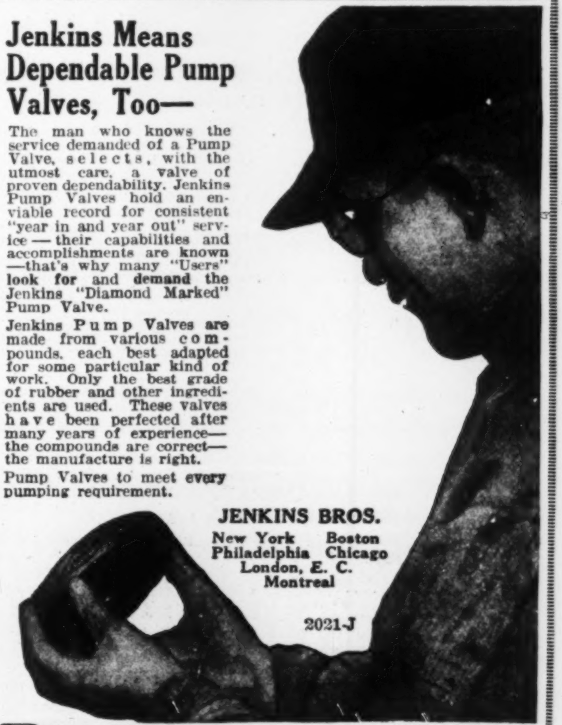
Let's Go



Jenkins Means Dependable Pump Valves, Too—

The man who knows the service demanded of a Pump Valve, selects, with the utmost care, a valve of proven dependability. Jenkins Pump Valves hold an enviable record for consistent "year in and year out" service — their capabilities and accomplishments are known —that's why many "Users" **look for and demand** the Jenkins "Diamond Marked" Pump Valve.

Jenkins Pump Valves are made from various compounds, each best adapted for some particular kind of work. Only the best grade of rubber and other ingredients are used. These valves have been perfected after many years of experience—the compounds are correct—the manufacture is right.

Pump Valves to meet **every** pumping requirement.

STANDARD ROAD MAKING PRODUCTS ARE OF THE HIGHEST PURITY

STANDARD Asphalts—Standard Paving and Mixing Asphalts, Standard Binders "B" and "C" for penetration work, and Standard Resurfacing Asphalts—are proven by expert analyses

1. To contain 5% to 33% more bitumen (asphaltum) than the so-called natural asphalts, and to have practically no impurities.
2. Furthermore, they are able to resist climatic changes to a greater extent than other asphalts on the market.
3. They are not affected by water.
4. They have a maximum tensile and cementing strength at both high and low temperatures.

Standard Asphalts are not cut back (fluxed products). They are refined with extreme care, with the idea of producing the best asphalts obtainable.

The greater percentage of bitumen in Standard Asphalts explains why, under average conditions, they cover more yardage per ton than other makes.

Let us supply full information regarding the road-making material which interests you.

Lumber With a Name

IT IS POSSIBLE now for careful builders to go even further than merely specifying Southern pine lumber and timbers. They can demand Southern Pine *branded with the name of the manufacturer*. This fact should carry significance to concerns also engaged in manufacturing. A trade-mark carries the same assurance to the user of lumber as it does to the consumer of other merchandise that has the name of a responsible firm behind it.

The Long-Bell Lumber Company—largest manufacturer of Southern Pine in United States—brands its entire output with this trade-mark

LONG-BELL

THE MARK ON QUALITY LUMBER

This Company specializes on lumber and timbers for heavy construction. Its products include also Creosoted lumber and timbers, piling and wood blocks. Our creosoting process means that the wood has been treated in air-tight cylinders and the preservative forced under pressure into the entire sap-wood. Factory floors made of **Long-Bell** creosoted wood blocks are unsurpassed—*durable, noiseless, smooth and sanitary.*

ASK YOUR DEALER FOR Long-Bell BRAND.

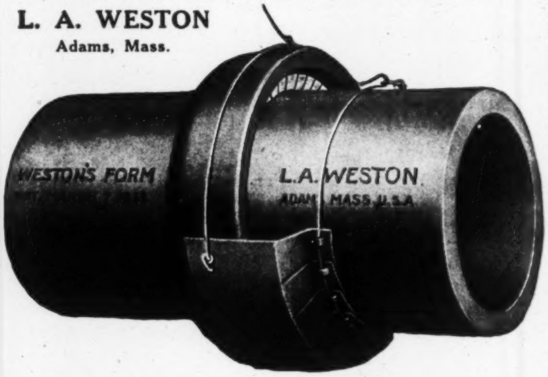
Adams, Mass.

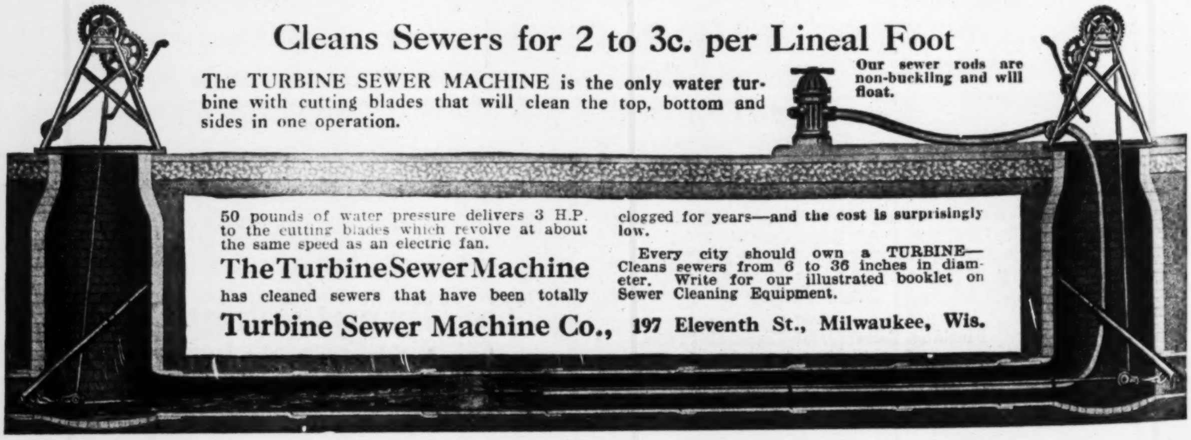


NORTHWESTERN STEEL FORMS

Northwestern Steel Forms are accepted as standard in every state. Used and recommended by engineers and contractors in every part of the country for construction of culverts, sewers, flumes, drains, tile and similar work. They are durable, economical, satisfactory.

Tile and culverts can be made on the job. For complete information write for Bulletin No. 20.

Northwestern Steel & Iron Works
Eau Claire, Wisconsin



Cleans Sewers for 2 to 3c. per Lineal Foot

The TURBINE SEWER MACHINE is the only water turbine with cutting blades that will clean the top, bottom and sides in one operation.

Our sewer rods are non-buckling and will float.

50 pounds of water pressure delivers 3 H.P. to the cutting blades which revolve at about the same speed as an electric fan.

The Turbine Sewer Machine has cleaned sewers that have been totally clogged for years—and the cost is surprisingly low.

Every city should own a TURBINE—Cleans sewers from 6 to 36 inches in diameter. Write for our illustrated booklet on Sewer Cleaning Equipment.

Turbine Sewer Machine Co., 197 Eleventh St., Milwaukee, Wis.

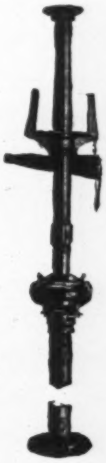
Mr. Jiffy Says—



"Mr. Progressive Contractor, you need Jiffy Labor Savers in your concrete construction."

"You cannot afford to use old methods when *JIFFY* Adjustable Jacks will—

SAVE 65% of the cost of deck lumber.

SAVE you 50% in carpenter work—JIFFY Jacks are adjustable without sawing, nailing, splicing or wedging.

SAVE you 75% of the time spent in shoring—common laborers can erect them **quickly.**

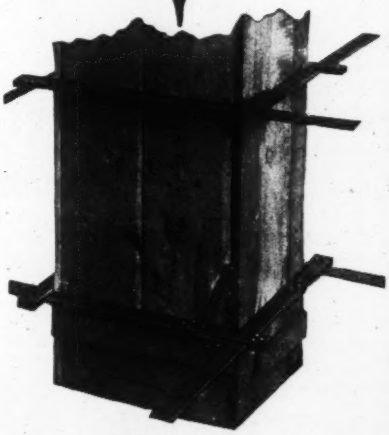
SAVE you 10% common labor—JIFFY Jacks are easily released and are instantly ready for further use.

SAVE you 100% on nails—**JIFFY Brace Clamps** solve the problem of holding braces to the jacks.

The dollars which JIFFY Jacks save, enable you to land more contracts, particularly where figures are close, and also to **make more profit on** those you secure.

Let us give you details.

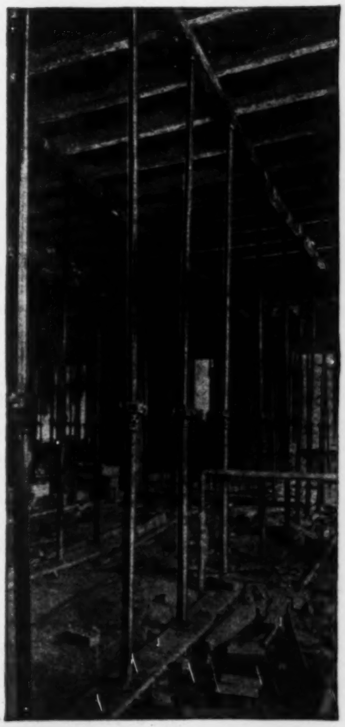
Jiffy Column Clamps



"The **JIFFY** Column Clamp is another big labor saver. It is a practical investment; a decided improvement over any clamp on the market. Assembled, tightened and set in one minute—removed in less time. Requires no wedging—no dead space in its adjustment—can be set to any degree of tension—automatically squares a column and *positively closes all cracks.* Simple and strong. Made for both round or square columns. Get a letter off—now—ask for comparative cost data and prices!"

Waste

Conservation



Write today

for details and prices on Jiffy Labor Savers for concrete construction. They will soon pay for themselves.

Jiffy Speed Punch

is a five-pound hand punch that will punch holes in metal and *do it fast.* It is so designed that an operator may work close to the metal and follow punch marks with great speed. Built for heavy work, too. Punches ⅛-in., 5/32-in., 3/16-in., 7/32-in., ¼-in. and 9/32-in. holes through 10-gauge metal.

Write for Circular S.

Jiffy Adjustable Cutter

is a light weight, portable tool that cuts round holes in metal, fibre, slate, marble, etc.—and *does it fast.* It is quickly adjustable to sizes from 1¼-in. to 6-in. diameter. Can be used in the most difficult positions.

Jiffy Cutter cuts cost of cutting holes.

HENRY COPPEL RESIDENCE, Pasadena, Cal.
Bertram Goodhue, *Architect*

Waterproof both below grade and above grade

R.I.W. TOXEMENT

REMEMBER IT'S WATERPROOF
REG. U.S. PAT. OFF.
PATENTED

"R. I. W. Toxement below grade"—as usual—was the terse report regarding the waterproofing of the Henry Coppel residence in Pasadena, California (Bertram Goodhue, Architect, Thos. C. Marlowe, Contractor). And just as terse is the report of results—*absolutely waterproof*. Wherever a situation arises, whether in a fine structure like this or a great undertaking like the Norfolk Navy Yard Drydock, where concrete is particularly exposed to dampness and water ever under pressure, "R. I. W." Toxement is the logical choice. Just mix the powder with the Portland cement.

№232 R.I.W.

REMEMBER IT'S WATERPROOF
REG. U.S. PAT. OFF.

DAMP-RESISTING PAINT

was used on the interior of all exterior walls, and for the backing of all ornamental cut stone—and rightly so! No. 232 is preeminently the paint for such situations; a black, waterproof, elastic, tacky material. It makes furring and lathing unnecessary and bonds perfectly with plaster. No. 232 is the ideal preparation for the protection of all worthwhile structures, above the ground level.

STEEL NEED NOT RUST!
WOOD NEED NOT ROT!
NOR CONCRETE DUST!

Concrete Can Be Bonded With

LIVING-STONE

"None of the specimens broke at the point where they were bonded," states Robert W. Hunt & Co., Bureau of Tests, Chicago. The test of time has proved it.

They further state, "From all our tests on this material, we are of the opinion that with its proper use, there can be established a *perfect bond* between old and new concrete."

Not a perfect bond only but *no detriment to the concrete itself.* LIVING-STONE contains no acid, therefore it cannot injure the concrete.

Do you use muriatic or sulphuric acid? Don't! They produce a spongy surface of no strength. If the acid seeps through the porous concrete and reaches the steel your reinforcing system is endangered. *The only safe and certain way is LIVING-STONE.*

The whole story of concrete in Hool, and Hool + Johnson

REINFORCED CONCRETE CONSTRUCTION HOOL
REINFORCED CONCRETE CONSTRUCTION HOOL
REINFORCED CONCRETE CONSTRUCTION HOOL

Sent on approval
No money down
Small monthly payments

Whatever your problem may be, whatever your question, if it concerns concrete you will find help in the Hool Library. These four books should be in the library of every designer of structures, of every builder, of every contractor, of every civil engineer. Especially is this true now. The concrete field is growing by leaps and bounds. It has a great future. Can you afford to be without these books at such a time?

Pay for Hool's

CONCRETE ENGINEERS' LIBRARY

as you use it

4 volumes—Hool's Reinforced Concrete Construction, Vols. 1, 2 and 3, and Hool's and Johnson's Concrete Engineers' Handbook, 2502 pages, nearly 2000 illustrations, $17.50 per set, payable in six installments.

Every civil engineer and every experienced contractor knows and respects Hool's REINFORCED CONCRETE CONSTRUCTION. This three-book series has come to be regarded as the standard work on practical construction.

Hool's and Johnson's CONCRETE ENGINEERS' HANDBOOK is less than a year old, yet thousands of engineers consider it the one authoritative handbook on the subject.

This three-book series and the handbook form together a complete library on concrete engineering.

You can now purchase these four books on the subscription plan.

Use the Books for 10 Days FREE

Simply fill in and mail the attached coupon. This will not obligate you to purchase the books. You merely agree to return the books, postpaid, within 10 days of their receipt or to remit $2.50 in 10 days and $3.00 monthly for 5 months until the price of the library—$17.50—is paid. No fuss—no bother—no red tape. YOU decide.

"Had to keep Warehouse Floors Dry — so they used 'ANTI-HYDRO'." ....

WEIL BUILDING

"It wouldn't do to have damp floors in a warehouse.

"But those concrete floors will never be damp—they're waterproofed with 'ANTI-HYDRO.'

"And of course you know 'ANTI-HYDRO' hardens concrete at the same time it waterproofs—so an 'ANTI-HYDRO' floor is both waterproof and wearproof.

"One gallon of 'ANTI-HYDRO' to each ten gallons of gauging water does the business—no extra work, but a big saving in time."

WITH no danger sign to warn you when a breakdown is coming your way, you have the more reason to be on your guard — to "stop, look and listen," and especially "look."

Look now to the strength and condition of your equipment, and bear in mind as you look that every "FRANKLIN" Device you install crosses one more "worry-point" off the list. Whether for replacements or in extension work, "install the 'FRANKLIN' and forget it."

In "FRANKLIN" Post Type Insulators, **metal bushings moulded to the porcelain** do away with clamped or cemented fittings. By the even distribution of strains brought about by the intimate contact of these bushings with every point of the porcelain's circumference, the carrying capacity of the insulators is greatly increased, and the likelihood of breakdown reduced to the minimum. This distinctive and important feature is supported by marked general superiority in design and structure.

In addition to Post Type Insulators, "FRANKLIN" Specialties for Generating Stations comprise Disconnecting Switches, Potheads, Doors for Bus and Switch Compartments, Instrument Cutout Switches, Cleat Type Insulators, Air Pressure Relays, and the new "FRANKLIN" Fuse. Write for descriptive Bulletins.

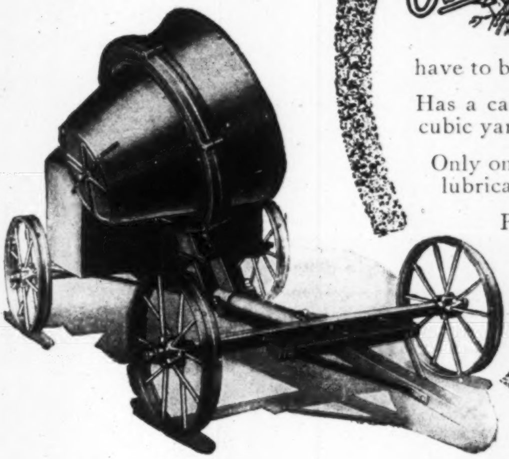
Doubles the Profits on Small Jobs

Automatic Discharge —no tilting of Drum.



If you could double your profits on the ordinary small job, it would really be worth taking.

That's just what you can do with an Eveready Mixer. It not only doubles the profit, but it cuts the time in half. The

Eveready Mixer

was specially built to handle small jobs economically—jobs that would otherwise have to be done by hand.

Has a capacity of 4 cu. ft. mixed material and delivers 35 to 50 cubic yards per 8-hour day.

Only one gear, one shaft and two ball bearings. One oil hole lubricates the entire mixer.

Powered by special 2-hp. gasoline engine.

And the price **complete with power** is only $260.

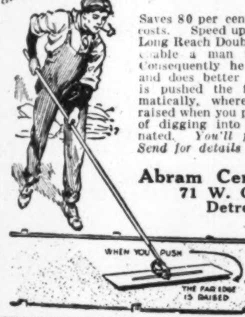
ABRAM Double Action Finisher



WHEN YOU PUSH
THE FAR EDGE IS RAISED

Saves 80 per cent. of concrete finishing costs. Speed up your job with ABRAM Long Reach Double Action Tools. They enable a man to work on his feet. Consequently he is far more efficient and does better work. When the tool is pushed the far edge raises automatically, whereas the near edge is raised when you pull. Thus all danger of digging into the surface is eliminated. *You'll find our prices right. Send for details TODAY.*

"THE STANDARD" Mixers Are Low Charging

The patented low charging design of "The Standard" Mixers permits the aggregates to be wheeled up short, slightly inclined runways to a low, wide platform, which is portable with the mixer. Improved design enables "The "Standard" Mixer to turn out perfectly mixed concrete at the rate of a batch a minute and keep up this pace indefinitely.

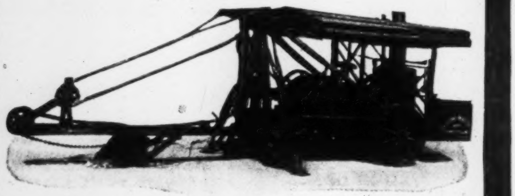
KEYSTONE

Road Grader
Bank Dipper
Ditcher
Cellar Digger
Back Filler

5 in 1

Don't buy 40 tons of equipment if one *Keystone* 10-ton Traction Shovel will take care of all your work.



THE machine is sturdily built and will stand up to hard digging in cemented gravel, shale or old macadam. At the same time it is unusually light (10 tons), has a long wheelbase (10 ft.), with 54-inch tread-wheels and wide tires. No planking necessary on dry ground. Puts minimum strain on light bridges.

Skimmer and Dipper Scoops hold one-half yard. Loads 1½ yard wagon in 1½ minutes. Average daily output 250 to 400 cubic yards. Has dragline ditcher scoop for trenches, cellar digging, back-filling, etc. Ditching capacity 150 to 300 cu. yd. per day. Excavates to a depth of 20 ft.

The eleven-foot horizontal crowding movement and powerful thrust make it more efficient than other machines for shallow grading in hard material.

Saves you money in first cost, operating and moving charge, and upkeep.

Write nearest office for catalog, prices and list of near-by owners.

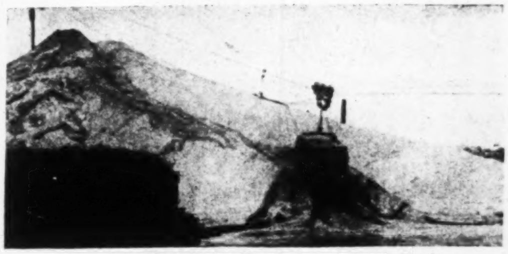
SAUERMAN DRAGLINE CABLEWAY EXCAVATORS

—dig, convey, lift and dump in one continuous operation; entirely controlled by one man

Sauerman Dragline Excavator Deepening River Channel



Small Outfit Digging Road Gravel From Pond

Building Dikes With Our Dragline Cableway Outfit

The development of Sauerman Dragline Cableway Excavators can be traced to the need for a machine which would dig over long spans and to depths beyond the reach of the dipper arm of a steam shovel or the boom of a boom dragline excavator.

The long reach of dragline cableways also makes them particularly economical and efficient for digging materials from under water, as is proved by the fact that a great many sand and gravel producers have installed our machines instead of pumps.

Before undertaking any work involving excavating material and conveying a distance of 200 to 600 ft., place your problem before our engineers and let's see whether the dragline cableway method is the best solution of your problem. Your request for information does not obligate you in any way.

—Since 1792

Sixteen Years after the Declaration

In the same room in Independence Hall where our ancestors affirmed America's liberty—the INSURANCE COMPANY OF NORTH AMERICA was organized—on December 10, 1792.

Reared in this historic setting, the life of the "NORTH AMERICA" has been closely interwoven with the development of the Nation itself. In many critical stages of history the Insurance Company of North America has taken a leading part.

During this century and a quarter the strength and scope of the "NORTH AMERICA" have grown apace with the Nation. In addition to Fire Insurance there are clauses or separate policies covering Use and Occupancy, Sprinkler Leakage, Products or Equipment in transit ("Inland Transit") and a wide range of other contingencies in modern industry.

Write for the full data.

7½-Ton, 4-Wheel Steam Locomotive Crane Handling Structural Material

Buffalo Locomotive Cranes

The All Steel Line

The Buffalo line of locomotive cranes was designed to meet the demand for a machine to handle the lighter loads and to combine speed with substantial design.

This locomotive crane is designed for either hoisting operations (using block and hook, or magnet), or for operating a two-line clamshell bucket of the grab bucket type. It will handle a ¾-cubic yard bucket of this type, at a radius of 39 ft. 6 in., measured from the center of the track.

This locomotive crane also can be used for shifting cars, having ample power to push or pull a string of three or four heavily loaded freight cars.

We have a new Catalog. Send for it. ***Prompt Shipments.***

Bought on Performance

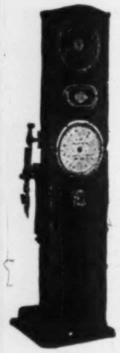
A city in western New York, run by a City Manager, was in the market for 2500 meters. His idea of economy was to accept the lowest bid. There wasn't anything else to do in his opinion.

"But before you do that, hadn't you better look at the records of the meters we have in service and compare them on that basis?" asked the Water-works Superintendent. Mr. City Manager did.

Maintenance and repair charges were so much greater than the difference in first cost that the entire 2500 were bought of the highest bidder.

Wherever Performance is given Preference over Price, Trident Meters are specified.

NEPTUNE METER COMPANY
NEW YORK



For Water Works

The importance of accurately measuring water flow both to and from the pumping station and through the distribution mains is the reason why so many leading municipal and private water companies have equipped their lines with

VENTURI METERS

1. They indicate the momentary flow: register the total flow; and trace a continuous chart record of all changes in the rate of flow.
2. Permanently accurate.
3. Not subject to clogging.
4. Occupy small space.
5. No delicate mechanism.
6. Detect leaks in the mains.
7. Check pump efficiency, showing when different pumps were started and stopped.
8. Can be used to control automatically the chemical feed.
9. Can be arranged to control automatically the effluent from filter beds.
10. Accurately measure feed input to the boilers.

Write us for Bulletin No. 848 now.

Self-contained fire pump unit for plant protection

The Lea-Courtenay Centrifugal Fire Pump has been accepted by all insurance boards.

LEA-COURTENAY CENTRIFUGAL PUMP

The first successful self-contained fire pump equipment was a Lea-Courtenay centrifugal pump coupled to a gasoline engine. One of the many distinct advantages of a pump of this type is there is no stand by charge for electrical current; neither does it rely on the city electric light plant for its power.

Lea-Courtenay Centrifugal Fire Pumps are built on insurance standards; in capacities of 500, 750, 1,000 and 1,500 GPM., to be operated by gasoline engine, steam turbine or electric motor; singly or in combination for emergency.

Circular sent on request

HAROLD L. BOND CO. 383 H Atlantic Ave. Boston

Manufacturers of

Contractors' Tools, Equipment, and Supplies

No Boiler, Engineer or Fireman is Required for Our Contractor's Pump

It has an extreme high lift, capable of producing 24-in. vacuum. Being double in action, it gives a continuous flow of water. Its two diaphragms being placed vertically, grit cannot lodge and cut them. Working horizontally, it does away with all overhead work. Mounted on solid truck, it is easy to move from place to place. Its compactness reduces needed floor space to only 2 x 5 feet. Its weight is 1000 lbs. Has no plunger, plunger packing, stuffing boxes or spring valves.

Our Circular Explains Fully

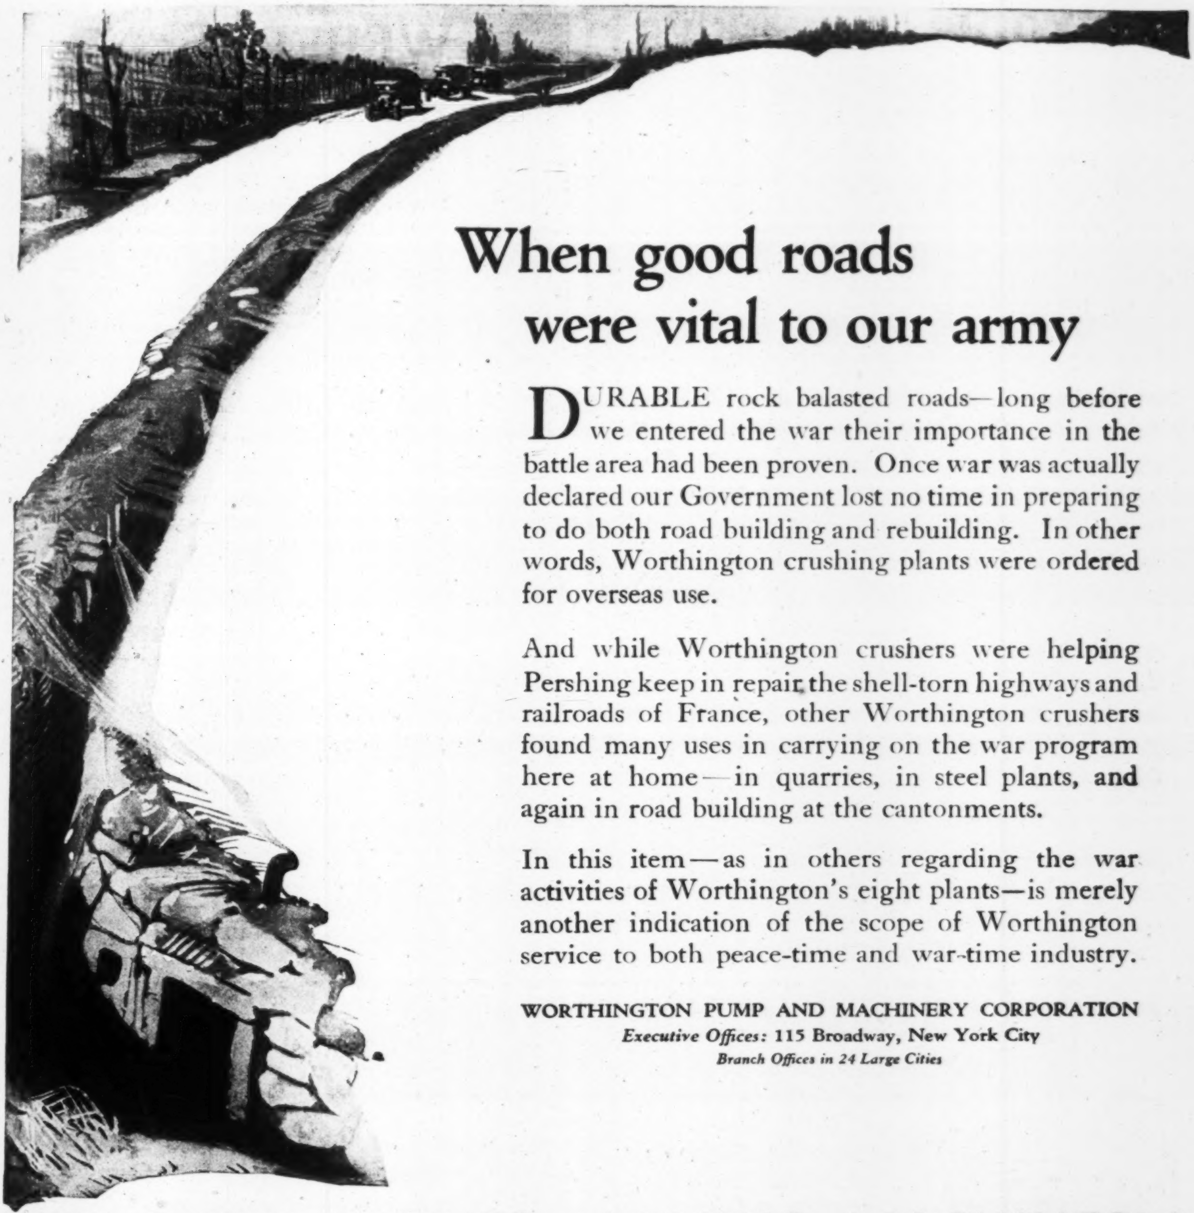
Hazleton Works, Hazleton, Pa.



When good roads were vital to our army

DURABLE rock balasted roads—long before we entered the war their importance in the battle area had been proven. Once war was actually declared our Government lost no time in preparing to do both road building and rebuilding. In other words, Worthington crushing plants were ordered for overseas use.

And while Worthington crushers were helping Pershing keep in repair the shell-torn highways and railroads of France, other Worthington crushers found many uses in carrying on the war program here at home—in quarries, in steel plants, and again in road building at the cantonments.

In this item—as in others regarding the war activities of Worthington's eight plants—is merely another indication of the scope of Worthington service to both peace-time and war-time industry.

There's a Difference in Towers

One is an expense; another an investment. One depreciates and gives trouble before very long; another gives a lifetime of service.

The Caldwell Structural Tower is an investment that pays large dividends in service. There are many towers cheaper in price but they are also cheaper in construction and it would be hard to find a tower as economical, as durable, and satisfactory as the Caldwell Structural.

The Caldwell Structural is built according to approved engineering principles and backed by our experience of over thirty years in building tanks and towers.

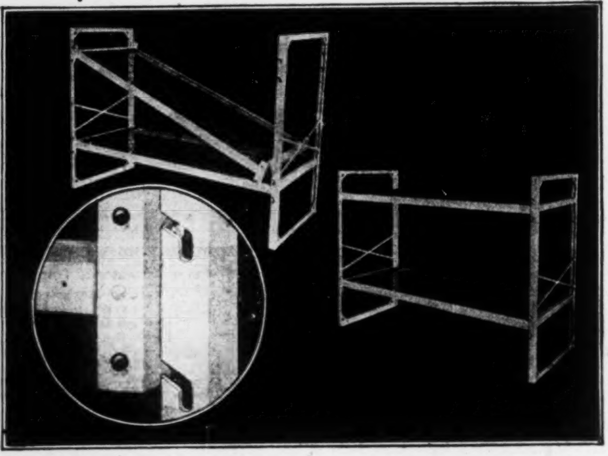
ROME-LINK Simplicity
Means Ultimate Economy

NOTE the new double-button locking system of the ROME-LINK "99" bunk equipment for railroads and contractors.

The steel buttons in the bunk end engage the special slots in the standee. After one bunk is in place, as soon as the last end of the other bunk drops into position it automatically pulls the whole outfit tight and true. This gives absolute rigidity and does away with any rattle, end-sway or side-sway.

Equipped with ROME-LINK sagless spring fabric it is the strongest, most comfortable and most economical bunk system for railroads or contractors.



Southern Rome Company

WICKES
BLUEPRINT MACHINE

At 1-2 the Price

You have felt that you couldn't afford a blueprint machine? Too expensive? Yes—and you've also had to put up with poor prints and the old inconvenient way of making them. Now it's different! You can buy the Wickes Blueprinting Machine for **half** what you would expect to pay! It makes perfect prints up to 48 in. width, and of unlimited length. Continuous electric. Uses half the current of the others. Ask about it now!

NATIONAL TRACING CLOTH CO. SAYLESVILLE R.I.

K & E
detail drawing paper
No 50

the finest detail paper that is obtainable. It is made entirely of selected rags of the best grade, and has durability, strength and splendid erasing qualities. Being of a cream or buff color, it is agreeable to the eye and is handled without soiling.

In price this paper is only slightly higher than inferior semi-wood pulp papers. Careful comparative tests will demonstrate the superiority of this paper for drafting purposes.

Water-marked along the edge: KEUFFEL & ESSER CO.

50. Detail Drawing Paper
In rolls: 30 36 42 56 62 in. wide

10. Detail Drawing Paper
In sheets: 19×24, 22×30, 24×36, 27×40 in.

(This is the same paper as No. 50, but in sheets.)

VINCENT'S
TRACING PAPER

Keeps Drawings True To Scale

10
Big
Reasons
WHY!

1.—Very Transparent and exceptionally strong.
2.—Will lie flat on drawing board to the last yard.
3.—Permanent and will **not** become brittle with age.
4.—Does not change under varying atmospheric conditions.
5.—Better adapted than any other tracing material for fine work.
6.—Makes perfect blueprints.
7.—Will stand **several** erasures.
8.—**Every** yard is perfect.
9.—Strong Gray Tubes **with metal ends** insure the paper against damage.
10.—You'll be agreeably surprised by its **durable service.**

Your dealer has rolls of full 20 yds.—30, 36 and 42 in. wide.

Get sample from your dealer—or from the maker.

Engineers

Pittsburgh, Pa.
First Natl. Bank Bldg.

Chester & Fleming,
J. N. Chester, Thos. Fleming, Jr., J. F. Laboon.
Hydraulic, Sanitary and Mechanical Engineers.
Pittsburgh, Pa., Union Bank Building.

Duff, Samuel E.,
Consulting, Designing and Supervising Engineer.
Appraisals, Reports.
Pittsburgh, Pa., Empire Bldg.

Fayette Engineering Co.,
Civil, Mining and Consulting Engineers
L. C. Mechling, E. L. Zearley.
Coal, Coke Plants.
Uniontown, Pa.

J. E. Ferguson,
M. Am. Soc. C. E.
Consultation, Design, Management, Inspection, Appraisal.
Bridges, Buildings, Grain Elevators, Industrial Plants, Equipment, Materials.
Spitzer Building, Toledo, Ohio.

Gannett, Seelye & Fleming
Engineers
Farley Gannett, Theodore E, Seelye, Samuel W. Fleming, Jr.
Harrisburg & Erie, Pennsylvania.
All branches of Municipal Engineering, including City Planning. Paving, Water Works, Sewers, Sewage Disposal.
Preliminary Reports and Estimates of Cost for Bond Issues. Valuations of Public Utilities for Rate Making and Purchase. Water and Sewage Analyses.
204 Locust St, Harrisburg, Pa.,
507 Palace Hardware Bldg., Erie, Penna.

Directory of Engineers

Gaskins, L. E.,

Structural Cost Engineer

Specialist in preparation of basis for claims.

Philadelphia, 112 N. Broad St.

Kennedy, Julian,

Engineer.

Pittsburgh, Pa., U. S. A.

Cable Address: "Engineer, Pittsburgh."

Knowles, Morris M.Am. Soc.C.E.
M.Am.Inst.Cons.Engr.
Town Planning and Municipal Engineering. Water Supply and Purification. Sewerage and Sewage Disposal. Investigations, Reports and Designs.
Pittsburgh, 1200 Jones Bldg.

Lysholm, Henry,
Consulting Engineer and Naval Architect.
Shipyards, shops and vessels designed, and construction supervised.
1125 Phila. Stock Exchange Bldg., Phila., Pa.

Ledoux, J. W.,

Consulting Engineer.

Water Works, Hydraulics, Reports and Valuation.

Philadelphia, 112 No. Broad St.

Moore, W. E. & Company,
Engineers
Reports, Designs, Supervision Public Service Properties. Power Developments, Distribution and Applications.
Pittsburgh, Pa., Union Bank Bldg.

Republic Engineering Co.
Industrial Specialists.
Plant layout, design, construction and operation. Industrial gas plants, Scientific investigations and reports.
Pittsburgh, Pa., 1204 Hartje Bldg.

Schaup, Charles E.,
Engineer.
Public Utilities.
Industrial Plants.
Harrisburg, Pa., Commonwealth Trust Building.

Scofield Engineering Co.,

Consulting, Designing, Supervising Engineers.

Philadelphia Pennsylvania

The Watson Engineering Company

Designing and Construction Engineers.

Industrial and Power Plants and Equipment, Bridges and Railway Buildings, Docks, Terminals and Marine Structures.

Warehouses and Commercial Buildings.

Engineering Reports.

Hippodrome Bldg., Cleveland

Witherup, L. P.,
Mechanical and Civil Engineer.
Specialist on Tractors, Oil End Gas Engine Designs.
Hydraulics and Irrigation.
2693 Dacey Ave., Cincinnati, O.

Wilkins Company, The W.G.

Engineers and Architects.

Railroads, Buildings, Manufacturing Plants, Coal and Coke Plants, Water Works and Sewerage. Examinations and Reports.

Pittsburgh, Pa. Westinghouse Building

Chicago

Allen & Garcia Company,
Andrews Allen, C.E., John A. Garcia, E.M.

Consulting Bridge, Structural and Mining Engineers.
Plans, Specifications, Superintendence for Bridges and Structures in Steel or Concrete. Design and Construction of complete Coal Mining Plants. Examination, Reports and Appraisals of Coal Mining and other Properties.

Chicago, McCormick Bldg.

Alvord & Burdick,

J. W. Alvord C. B. Burdick

Hydraulic and Sanitary Engineers

Water Supply
Water Purification
Flood Relief
Sewerage
Sewage Disposal
Appraisals and Rate Reports
Water Power

Chicago, Harftord Building.

Arnold Co., The

Engineers—Constructors
Electrical—Civil—Mechanical

Engineering—Plans and Specifications covering complete properties.

Construction of complete properties and preliminary operation of finished plant.

Chicago, 105 South La Salle St.

Freyn, Brassert & Co.

Engineers and Contractors.

Designs and Construction of Warehouses, Machine Shops and Industrial Plants; Steam and Gas Power Plants, Engineering Reports, Appraisals, Valuations, Supervision, Inspection and Consultation.

Chicago, Ill., 122 S. Michigan Ave.

Byllesby, H. M. & Company,

(Incorporated)

Purchase, Finance, Construct and Operate Electric Light, Gas, Street Railway and Water Power Properties.

Examination and Reports.

Utility Securities Bought and Sold.

Chicago, Continental and Commercial Bank Building.

New York, Trinity Building.

Tacoma, Wash.

Greeley, Samuel A.,
Hydraulic and Sanitary Engineer.
Water Supply and Purification. Treatment of Sewage, Garbage and Industrial Waste. Construction, Operation, Valuation.
Chicago, Ill., 64 W. Randolph St.

Isham Randolph & Co.,
Consulting Engineers.
Water Power, Sewerage and Water Supply, Land Drainage, River and Harbor Works, Railroads, Bridges and Buildings.
Chicago, 1827 Commercial National Bank Building

Marr, Green & Co.,

Civil and Sanitary Engineers

17 N. Lasalle St., Chicago.

Perkins, Edmund T.,
Engineering Company
Consulting Engineers.
Irrigation, Drainage, Flood Protection, River Regulation and Water Power.
Topographic Mapping.
Chicago, 38 So. Dearborn St.

Central West

The American Appraisal Company,

Authoritative Reports and Valuations Covering Public Utility, Municipal, Mineral, Industrial, Commercial and Residence Properties.

Milwaukee New York

Archer & Stevens,
Consulting Engineers.
Steam and Hydraulic Power Plants, Water, Sewerage, Paving, Roads, Appraisals, Testimony, Reports.
609-10-11-12 New England Bldg., Kansas City, Missouri.

Burns & McDonnell,
C. S. Burns. R. E. McDonnell.
Consulting Engineers.
Appraisals, Rate Investigations, Expert Testimony, Water Works, Sewerage, Lighting.
Kansas City, Mo., Suite 400 Inter-State Bldg.

Black & Veatch

Consulting Engineers.

Sewerage, Sewage Disposal, Water Supply, Water Purification, Electric Lighting, Power Plants, Valuations, Special Investigations and Reports.

E. B. Black N. T. Veatch, Jr.

Kansas City, Mo., Inter-State Building.

Fargo Engineering Co.,

Hydraulic Engineers.

Specialize in the Design of Power Plant and Dams on Soil Foundations.

Jackson, Michigan.

Federal Engineering Co.,

Civil and Architectural Engineers

Designers and Superintendents Buildings and Industrial Plants
Milwaukee, Wis., 218 - 219 Stephenson Building.

Gates Engineering Co ,
Consulting Engineers.
Specialists on reinforced concrete design. Estimates guaranteed. Cement tested and inspected at the mill.
Office—814 Chemical Bldg., St. Louis, Mo.

Harrington, Howard and Ash

Consulting Engineers. Bridges and other structures of steel and reinforced concrete. Advisory services in municipal problems Appraisals. Kansas City Mo.

1012 Baltimore Avenue.

Hedrick & Hedrick,
M.Am.Soc.C.E.
Designs, Estimates and Supervision of Steel and Reinforced Concrete and other structures.
Kansas City, Mo., 506 Interstate Building.

Hubbell, Clarence W.,
M.Am.Soc.C.E.
Consulting Engineer.
Sewerage, Sewage Disposal, Water Supply and Municipal Engineering.
Detroit, Mich., 2348 Penobscot Building.

Hurd, Charles H.,
M.Am.Soc.C.E. Am.Soc.M.E
Consulting Engineer
Water Supply and Purification. Hydraulic and Electric Developments. Valuations and Reports.
Indianapolis, Merchants Bank Bldg.

Luten, Daniel B.,
Designing and Consulting Engineer.
Reinforced Concrete Bridges exclusively.
Associate Engineers in each state
Indianapolis, Ind.

Pride & Fairley,

Consulting Engineers.

Specializing in Drainage, Flood Prevention.
Reports and Investigations.
Joe P. Pride, formerly Chief Engineer St. Francis Levee District.
O. M. Fairley, formerly Assistant Engineer Bureau of Drainage Investigation, Department of Agriculture.
W. H. Poe, Hydraulic Engineer

Blytheville, Ark.

Directory of Engineers

Monfort, W. F.,
Consulting Chemist.
Water Examination· Chemical and Bacteriological. Control and Operation of Purification Plants.
St. Louis, Mo., 506 N. Vandeventer Avenue.

Shenehon, Francis C.,
Mem.Am.Soc.C.E.
Consulting Hydraulic Engineer. Investigations, Reports, Plans, Specifications, Supervision of Construction.
Water Power, Water Supply, Sewerage and Sewage Disposal, Ship Canals, Docks and Terminals, River Improvement, Flood Control, Drainage, Counsel in Engineering Litigation, Settlements of Engineering Controversies.
Minneapolis, Minn., 628 Metropolitan Bank Bldg

Southwestern Eng. Co.
D. E. Gilmer, *Chief Engineer.*
William C. Burke, *Assistant Chief Engineer.*
T. McCabe Brown, *Office Engr.* Mem.N.S.C.E. Mem.A.S.C.E. Mem.A.R.E.A. Mem. Chamber of Commerce. 11-12 Nelson Building., Hutchinson, Kansas,

Turner, C. A. P.,
Consulting Engineer.
M. Am. Soc. C. E., Reinforced Concrete and Structural Steel Bridges, Buildings and Manufacturing Plants.
Minneapolis, Minn., 627 First Ave. N.

Waddell & Son, Inc.

Consulting Engineers.

Movable Bridges, Waddell's Vertical Lift Bridge, Reinforced Concrete and Steel Structures, Elevated Railways. Difficult Foundations, Reports, Examination and Checking of Plans, Advisory Services and Appraisals.

Kansas City, Mo. and New York.

Williams, Gardner S.,
M. Am. Inst. Cons. Engr.
M. Am. Soc. C. E.
Consulting Engineer.
Hydraulic Investigations, Water Power Developments, Water Supply Systems, Reports, Appraisals. Ann Arbor, Michigan.

Southern States Pacific States

Ankrom, Francis S.
Consulting Engineer,
Designs and Estimates,
Masonry, Reinforced Concrete, Wood and Steel Construction. Architectural Designing and Specifications. Heating and Ventilating, Water, Sewerage, Sanitation. San Antonio, Texas

Bamman, F. C.
Consulting Engineer.
Collection and Disposal of Garbage and other Wastes: Street Cleaning. Recovery of By-Products from Industrial Wastes.
Woodward Bldg.
Washington, D. C.,

Billingsley, James W.,
M. Am. Soc. C. E.
Consulting Engineer
Interstate Bank Building,
New Orleans

Charleston Engineering & Contracting Company,
supervises erection or contracts for building of Hydro-Electric Plants, Waterworks, Industrial plants, Terminals, etc.
58 Broad St., Charleston, S. C.

Covansto Eng. Co.,
Civil, Mechanical, Electrical, Architectural Engineers.
Reports, Designs, Investigations. Central and South American Correspondents.
Box 798, New Orleans, La.

Elliott & Harman Eng. Co.,
Drainage.
C.G. Elliott, M.Am.Soc.C.E.
Jacob A. Harman M.Am.Soc. C.E.
Investigations, Reports.
Washington, D.C. Peoria, Ill.

Grunsky, C. E.,
Consulting Engineer.
Valuations, Municipal Engineering, Irrigation & Flood Control. President of American Eng'r'g Corp., Cons. & Superv. Engrs. San Francisco, Calif, Mechanics Institute Building.

Marshall, Thos. W.,
M. Am. Soc. C. E.
Consulting and Designing Engineer:
Steel and Reinforced Concrete Construction. Foundations.
Washington, D. C., 729 15th Street, N. W.

McElroy Engineering Co., Inc.,
Civil Engineers.
Drainage Specialists
Superintendents, Managers, Estimators, Railways.
Available South American Service
Tampa, Fla., U. S. A.

Morgan Engineering Companies, The,
Hydraulic Engineers.
Flood Prevention — Irrigation—Drainage—Power Development.
Memphis, Dayton,

Canada, Mexico, South America, Porto Rico and Cuba

Behn Brothers, Inc.,
Consulting—Designing
Reinforced Concrete Construction. Electrification Sugar Factories, etc.
San Juan, Porto Rico.
Branch Santo Domingo, R. D.

Compañía Limitada de Construcciones y Obras de Ingeniería. S. A.
Engineers and Contractors.
Reinforced Concrete, Hydraulic and Railway Construction. Industrial buildings and equipment General Mining Engineering Work. Town-sites Valuations. Residences and Buildings.
Designs, Plans, Estimates
We act as Agents and solicit correspondence for representations throughout Mexico.
Offices: Dr. Mier, No. 27 Monterey, Mexico

Guitarte & Sanchez
Civil Engineers and Contractors
Reinforced Concrete constructions, Designs and building of industrial plants. Water works, We take contracts in Argentina, Brazil, Uruguay and Paraguay.
268 Reconquista, Buenos Aires.

Conrado E. Martinez, Rolando A. Martinez,
Consulting Engineers.
Sewers, Water Works, Surveys and Appraisals, Inspections, Town Planning, Reports and Designs, Investigations.
Havana, Cuba, 59 Obispo St.

Robinson, A. W.,
M.Am.Soc.C.E. M.Am.Soc.M.E.
Mechanical Engineer. Dredging Machinery of Every Type Designed for Special Conditions.
Montreal, Can. 14 Phillips Sq.

Engineering Schools and Colleges

Lafayette College,
Technical Courses in Chemical, Civil, Electrical, Mechanical and Mining Engineering. Write for illustrated catalogue to the Registrar. Easton, Pa.

Clarkson College of Technology,

Courses leading to the degrees of Bachelor of Science in Chemical, Civil, Electrical and Mechanical Engineering.

Catalog upon application.

Potsdam, N. Y.

College of Engineering,

Courses in Civil, Mechanical, Electrical, Sanitary, Municipal, Chemical Engineering. Short course in Structural Drafting

Enter any time. No matriculation or registration fees. Expenses $ to ⅓ less than at other first-class schools. School year—Four quarters of 12 weeks each.

Length of Courses 120 Weeks. Save one year and $1000.

Experienced Instructors. Splendid Laboratories.

For catalog, bulletins or information address: Albert Edwin Smith, President, Ohio Northern University, Ada, Ohio.

Montana State School of Mines,

Located in a Great Mining District.

Thorough course of four years in Mining and Metallurgy equips young men for immediate service in Mine and Reduction Works.

For information address Registrar.

Butte, Montana.

New York University School of Applied Science,

Departments of Civil, Mechanical, Chemical, and Industrial Engineering.

For announcements or other information address Chas. Henry Snow, Dean.

N. Y. City, University Heights.

Norwich University,

(Founded 1819)

The Military College of Vermont. Academic Courses in Civil and Electrical Engineering. Address Prof. H. R. Roberts.

Northfield, Vermont

Polytechnic Institute of Brooklyn,

College of Engineering.
Day and evening courses leading to the degrees of C.E., E.E., M.E. and B.S. in Chemistry; also graduate courses in science leading to the degree of Master of Science.

Fred. W. Atkinson, Ph. D., President.

Rensselaer Polytechnic Institute,
Courses in Civil Engineering (C.E.), Mechanical Engineering (M.E.), Electrical Engineering (E.E.), Chemical Engineering (Ch.E.), and General Science (B.S.)
Graduate Courses leading to Master and Doctor degrees
Also special courses.
Unsurpassed new Chemical, Physical, Electrical, Mechanical and Materials Testing Laboratories.
Troy, N. Y.

University of Pennsylvania
Towne Scientific School.
Courses in Mechanical, Electrical, Civil and Chemical Engineering, Architecture and Chemistry. Extensive modern laboratories with unsurpassed equipment.
Henry B. Evans, Dean, Phila.

University of Utah,
School of Mines and Engineering
Degree courses in Mining, Metallurgy, Chemical, Civil, Electrical, Mechanical and General Engineering. No tuition charges. Study Mining in a Mining Country. Salt Lake City, Utah.

College of Engineering
Northwestern University
Five years of broad, thorough training; small classes, in which each student receives individual attention from head professors. Unsurpassed opportunities to see great engineering projects and meet engineers.
A young thriving College in an old University.
Write for "Best Preparation for Engineering" and "Booklet of Views."
John F. Hayford, Director
Evanston, Ill., Swift Hall.

INSPECTING AND TESTING ENGINEERS

Electrical Testing Laboratories, Electrical, Photometrical and Physical Tests. Inspection and Tests of Electrical and Engineering Materials. Main Office and Laboratories, New York, 80th St., and East End Ave.

Gulick-Henderson Co.,

Inspecting Engineers, Chemists Metallurgists.
Inspection of Bridges, Building Materials, Railway Equipment, Cement, Pipe, Machinery, etc.
Pittsburgh New York Chicago

Hill & Ferguson,

N. S. Hill, Jr. S. F. Ferguson

Consulting Engineers.

Chemical and Bacteriological Laboratory.

Analysis of Water and Sewage. Tests of Cement, Sand, Coal and Materials of Construction.

Systematic Sanitary Supervision of Public Water Supplies. Periodic Supervision of the Operation of Sewage Disposal Plants.

112 East 19th St., NewYorkCity

Hildreth & Company,

Consulting and Inspecting Engineers.

Philadelphia, Pittsburgh, Chicago, New York, Mills Bldg., 15 Broad Street.

Hunt, Robert W. & Co.

Robert W. Hunt, Jno. J. Cone, J. C. Hallsted, D. W. McNaugher
Bureau of Inspection, Tests and Consultation.
Chicago, New York, Pittsburgh, St. Louis, San Francisco, Seattle, Montreal, London.

Jones Co., Morgan T.,

Inspecting Engineers.
Bureau of Inspection, Tests and Consultation. Inspection and Testing of all Railroad Materials, Cement, etc.
General Offices, Chicago, Monadnock Block.

Modjeski & Angier

Inspecting Civil Engineers

Inspection of materials and structures; railway equipment.

220 So. Michigan Ave., Chicago
Pittsburgh, New York, St. Louis.

New York Testing Laboratories,

Mining, Met.and Chem. Engineers
Physical and Chemical Analyses
Inspectors of Materials, Highway Engineering and General Construction Practices.
Suite 308, 51 E. 42nd St., N. Y. C.

Stillman & Van Siclen

Chem. Lab. Co., Inc.
Chemists & Chemical Engineers
Asphalt, Road Materials, Water, Coal
General Chemical Analyses and Reports.
227 Front Street, New York City

Pittsburgh Testing Laboratory

Inspecting Engineers and Chemists
Inspection of Rails, Cars, Bridges and Buildings; Pipe, Boilers, Engines, etc.; Cement Testing and Inspection at Mills before Shipment. Road Materials and Paving. Chemical and Physical Tests. Consultation and Reports.

Pittsburgn, 612 Grant Street, New York, Philadelphia, Boston, Chicago, San Francisco, St. Louis, Cincinnati, Birmingham, Dallas, Cleveland, Detroit, Buffalo.

Underwriters' Laboratories

Incorporated 1901

Established and maintained by the National Board of Fire Underwriters. For service—no profit. W. H. Merrill, President. Reports on Devices, Systems and Materials having a bearing on Fire Hazards or Accident Prevention.
Principal Office and Testing Station, Chicago, 207 E. Ohio St. New York Office and Testing Station, 25 City Hall Place. Branch Offices throughout the United States and Canada.

WE BELIEVE strongly in what we are pleased to call "Service Advertising." About one per cent. of the space in our literature is devoted to telling how we make cement as good as it can be made. The other ninety-nine per cent. is used in practical examples and descriptions of the wonderful possibilities of concrete construction. If you live east of the Mississippi, ask us for a free copy of Handbook No. 14, entitled "Alpha Cement—How to Use It," 96 pages illustrated, our magazine Alpha Aids, and the service sheet on the subject in the above list that interests you.

C. R. Makepeace & Co. Engineers

Progressive Concerns are Going Ahead With Building Expansion

Among those for whom Turner has started work this year are:

- Humble Oil & Refining Co., Houston, Tex.
- Ford Motor Co., Kearny, N. J.
- Bristol-Myers Co., Hillside, N. J.
- U. S. Leather Co., Elizabeth, N. J.
- Howe Rubber Co., New Brunswick, N. J.
- Sanford Mills, Sanford, Me.
- Amer. Agr. Chem. Co., Everett, Mass.
- Hills Bros. Co., New York
- E. Greenfield's Sons, Brooklyn, N. Y.
- The Gt. A. & P. Tea Co., Jersey City, N. J.
- Wappler Electric Co., Inc., Brooklyn, N. Y.
- The Scranton Lace Co., Scranton, Pa.
- Pirika Chocolate Co., Brooklyn, N. Y.
- Robertson-Cataract Electric Co., Buffalo, N. Y.

Build Now! and be ready for the increased business which is just ahead

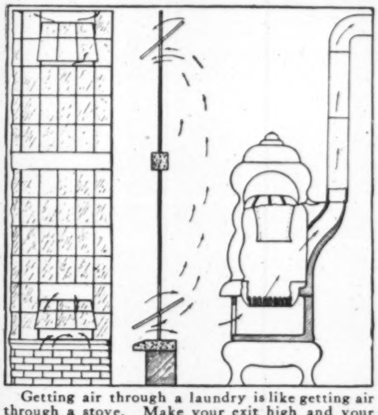
FOR EVERY INDUSTRY

The Banner Laundry, Detroit, is designed along modern lines. Fenestra Solid Steel Windows are used to assure proper daylighting and ventilation, as explained below.



Getting air through a laundry is like getting air through a stove. Make your exit high and your intake low. Ventilators placed like those shown at the left of the drawing give ventilation like that secured through the stove on the right.

The Laundry—

The two big problems of every laundry owner, have been solved.

You can eliminate the steam and heat generated by washers and mangles during the summer.

You can have daylight and air equal to that outside.

Both problems are solved where Fenestra Solid Steel Windows form the sidewalls of the building.

Wide glass areas provide the light.

Make the ceiling as high as possible. Place the ventilators through which hot air exits as near the ceiling as possible. Place ventilators through which fresh air enters as near the floor as possible. Result—good ventilation.

"Enticing a Breeze Through a Laundry" is a Fenestra booklet that will interest you. Write for a copy.

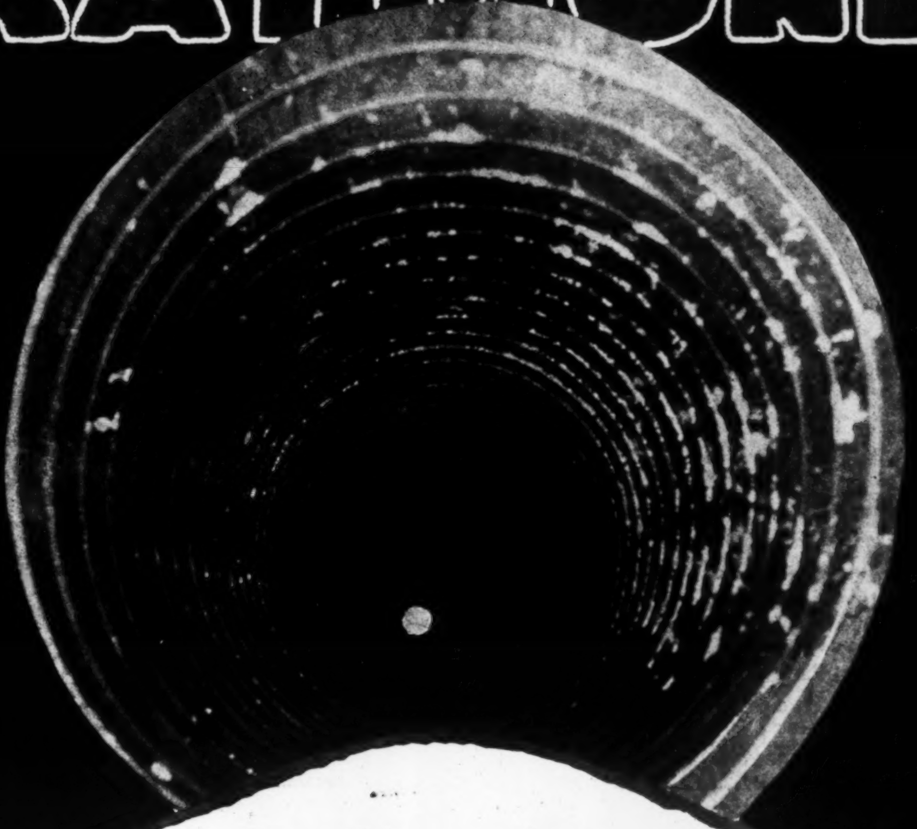
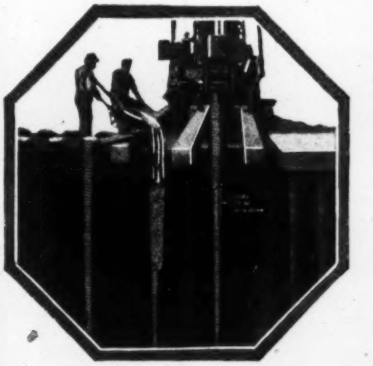
RAYMOND



Looking down into the reinforced steel shell

Here is the interior of a driven, spirally-reinforced, steel "form" for a Raymond Concrete Pile. Here is the reason why, unknown or unguessed, underground conditions cannot distort or weaken the concrete pile column. The shell is left in the ground.



Raymond Concrete Pile Co.

New York: 140 Cedar Street

CONTINUOUS MONITOR 12'-0" WIDE CAN BE PROVIDED AT RIDGE OF ANY BUILDING

For a Good Building Quickly —Get Our Estimates

LEADING industries are using Truscon Standard Buildings for a large variety of purposes. The Hooker Electro-Chemical Company of Niagara Falls, N. Y., say: "Have used Truscon Buildings as repair shop, office, stores, laboratory, paint shop, locker room and fire hall. We consider this type very satisfactory." United States Coal and Coke Company have pump, compressor and fan houses and pump stations; other industries have factory and storage buildings of all kinds, also dining halls, garages, hospitals, etc. Manufacturers, like Packard Motor Car Co., Ford Motor Co., American Car & Foundry Co., U. S. Aluminum Co., and American Can Co., have given repeat orders for Truscon Standard Buildings.

For that building you are planning get our estimates and free suggestions. Learn what we have done for other prominent companies. Truscon Standard Buildings will satisfy all your requirements for a fireproof, permanent building that can be speedily erected with maximum economy.

Truscon Standard Buildings meet a wide variety of requirements because of their flexibility in regard to shape and size. As they are built from interchangeable steel panels you can readily have them enlarged, rearranged and re-erected in new location.

As panels are carried in warehouse stock ready for immediate shipment, you are assured prompt service in getting a new building ready for erection or additional stock units for enlarging or rearranging buildings which you have in use.

Tell us about the building you need—its approximate size and purpose. Use coupon below if convenient.

Bright as day, the interior of the erection building of Ford shipbuilding plant, 250 feet wide.

From Daylight to Daylight

EXTENDING 1,700 feet in length and 250 feet in width, the erection building of the great Ford shipbuilding plant for constructing Eagle submarine chasers, has four acres of Truscon Steel Windows. When an Eagle was conveyed outside the plant, ready for launching, the daylight there was scarcely brighter than that inside the plant coming as it did through the great expanse of windows.

In other industries, no less than in shipbuilding, the well-lighted workroom is a prime asset. It insures greater accuracy, less waste, fewer accidents, and better health. Increased output, better products and economy in lighting bills are additional benefits. Truscon Steel Windows, characterized by trim, clean-cut lines and flat surfaces, represent the highest quality in design, construction, workmanship and hardware. Stock units, in thirty different types and sixty sizes, meet practically all requirements as regards size of window openings and ventilation. Their specification obviates delay and insures satisfaction.

Copy of handsome Truscon Steel Window Book mailed free on request. Use coupon if convenient.

The first Eagle leaves the building.

The Eagle passes from "daylight to day light."

Giant

SEMI-DIESEL OIL ENGINES

POWER costs of one-half cent per horse power hour are common amongst users of Giant Semi-Diesel Fuel Oil Engines. The economy and dependability of this prime mover for general purposes are proven facts.

Records are available showing the performance of Giant Engines under service conditions similar to yours. Put your individual power problem, without obligation on your part, before our experienced engineers. Your present power costs may be such that a Giant Engine will pay for itself within a short time—and then pay dividends on the investment.

Giant Oil Engines utilize the lower grades of cheap fuel oils, are built in capacities from 12 to 160 horse power, both single and duplex types. Ask for Bulletin 34-W.

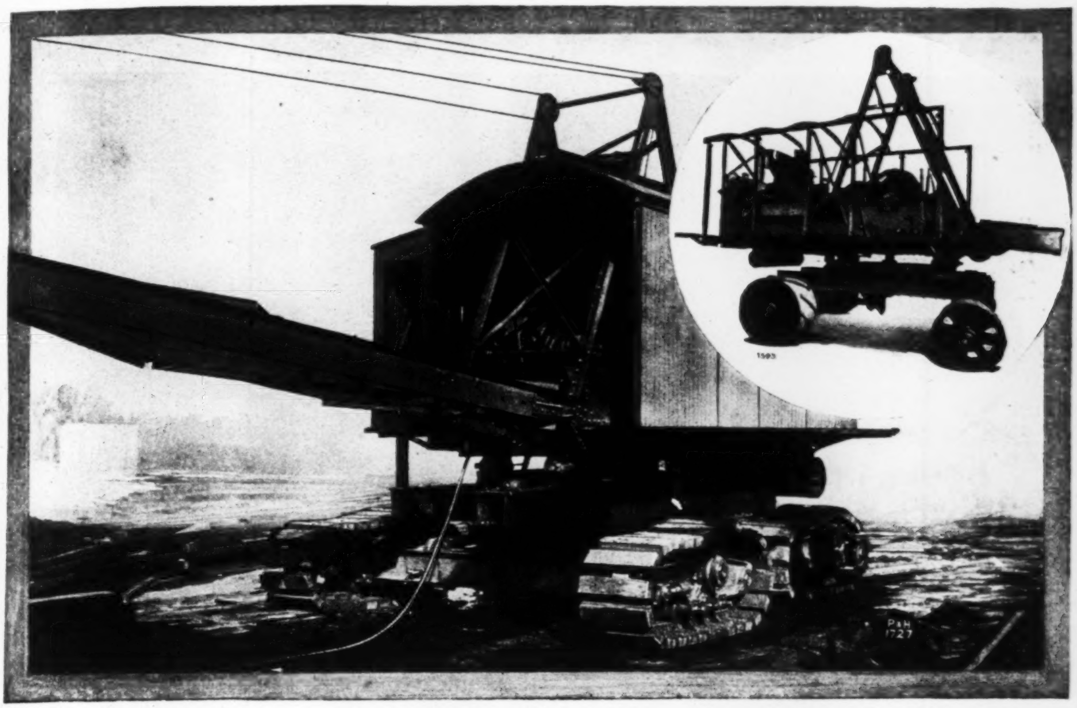
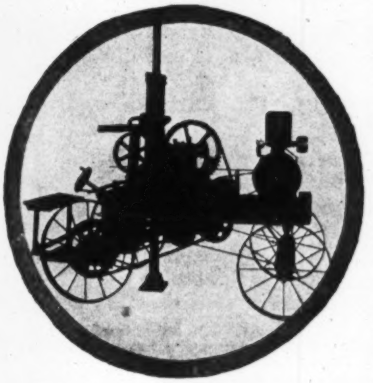
"CHICAGO PNEUMATIC"

Depend upon that name



"Built Like a Bridge"

THE entire mechanism is sustained on two heavy girders which in turn are supported on axles of I-beam construction and sturdy steel corduroys. A solid frame distributes the strain of operation evenly over the machine. These two facts are enough to convince you of the rugged construction of Dragline P & H Excavators, if you know machinery a bit.



The P & H Power Traction Tamper strikes 42 blows per minute with a 150 lb. tamping head or ram, covering an area of 9 x 12 inches at one blow; it will thoroly tamp and compact 6 ft. of trench backfill per minute. Compare this with the efforts of your huskiest laborer. Cheaper, faster, more dependable in results than hand tamping; is that worth anything to you? Ask for Bulletin 8C—the P & H Power Tamper.

Even such a simple, commonplace affair as the engine house on this machine is built to a quality standard. It consists of angle iron framing incased in double beaded and matched yellow pine. Elaborate? Yes, but this housing must not only withstand the racking of dragline operations, but also protect the machinery against the wear and tear of the elements.

It is attention to little points of construction together with correct design and the use of good material thruout that puts P & H Excavators into the better class of contractor's machinery. Bulletin on the Draglines?

Switching Tunnel, Inland Steel Co., Indiana Harbor, Ind. Medusa Waterproofing in the Concrete

Watertight Under Heavy Water Pressure

The tunnel shown above connects Plants No. 1 and No. 2 of the Inland Steel Co., and carries an average water head of from 12 to as high as 16 feet.

The engineers in charge of construction took no chances on waterproofing materials. They used Medusa Waterproofiing, the original *integral* waterproofing for all cement and concrete work. The result is that the entire 2214 feet of this tunnel are watertight.

The floors and sidewalks were finished with a mortar coat $\frac{1}{2}$-inch thick, consisting of two parts sand and one part Medusa Waterproofed Cement. Medusa Waterproofing was also used in connecting the steel girders in the covered sections.

Medusa Waterproofing is the ideal waterproofing for all stucco, cement and concrete work. It comes in powder or paste form ready for use with any gray or white cement. It is mixed with the sand, cement and gravel and covers every granule and every pore with a water repellent film. Water cannot enter; dampness or ugly stains are impossible. No mere surface coating can equal Medusa Waterproofing. Always specify Medusa

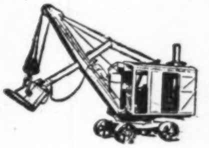
You will feel this way, too
when you own an Erie!—

"We have worked our ERIE for three years in shale, loose rock, gumbo, and hard clay. In all of this time we have done very little shooting to aid the shovel, although we have often dug material that should have been shot.



"In spite of this hard service our ERIE is in good condition, and does its work just as well as ever.

"I have watched every make of steam-shovel, but I have never seen any other 20-ton machine that can dig in the material which our ERIE handles regularly.

"We believe that the ERIE has no equal on the market today."

Signed P. S. Hornor, ALLEN & HORNOR
General Contractors
Clarksburg, W. Va.

ERIE SHOVEL
BALL ENG

ERIE Shovel owned by
Allen & Hornor, Clarksburg, W. Va.

Compared with hand labor, any good steam-shovel will prove to be a money-saver.

But there is a lot of difference in shovels—a difference which may amount to as much as 30 or 40 per cent. of your profits.

Before you buy, investigate carefully. Get the facts. Pick the best steam-shovel.

We would like to send you a bulletin showing just what the ERIE can do. Write for a copy of Bulletin N. Address:

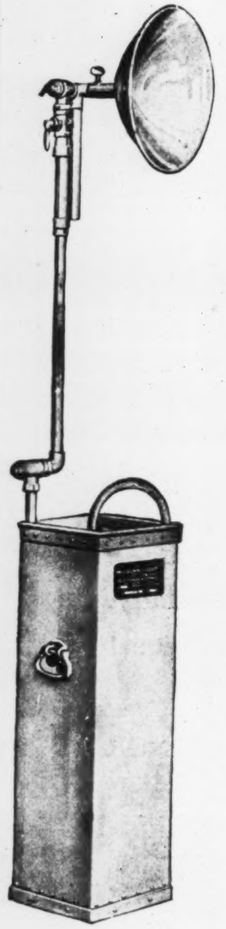
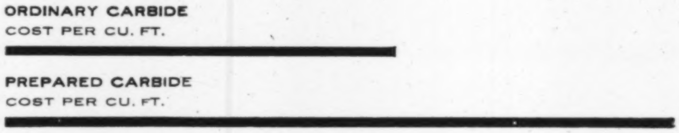
MILBURN Lights Are Standard



The construction of MILBURN acetylene lights enables them to extract the maximum illumination from ordinary lump carbide—the cheapest form in which carbide is sold.

It costs you 73% more to use specially prepared carbide than if you use the ordinary kind, which is sold the world over. In the first place, prepared carbide sells for nearly 40% more than ordinary carbide, and besides it is not nearly as efficient. A pound of the expensive kind actually generates much less gas than the ordinary kind used in MILBURN light. Here is the story:



The operation of the MILBURN light is simplicity itself. Just fill the pockets—it can't be overcharged. After a day's use simply dump the used carbide and recharge. You don't have to bother to throw out the water or clean the tank. The most inexperienced workman can't go wrong on a MILBURN light.

Write for booklet No. 21 or send for the complete catalogue.

We also manufacture complete welding equipment—everything from a torch to the largest generators and compressors. Booklet No. 31 describes oxy-acetylene apparatus.

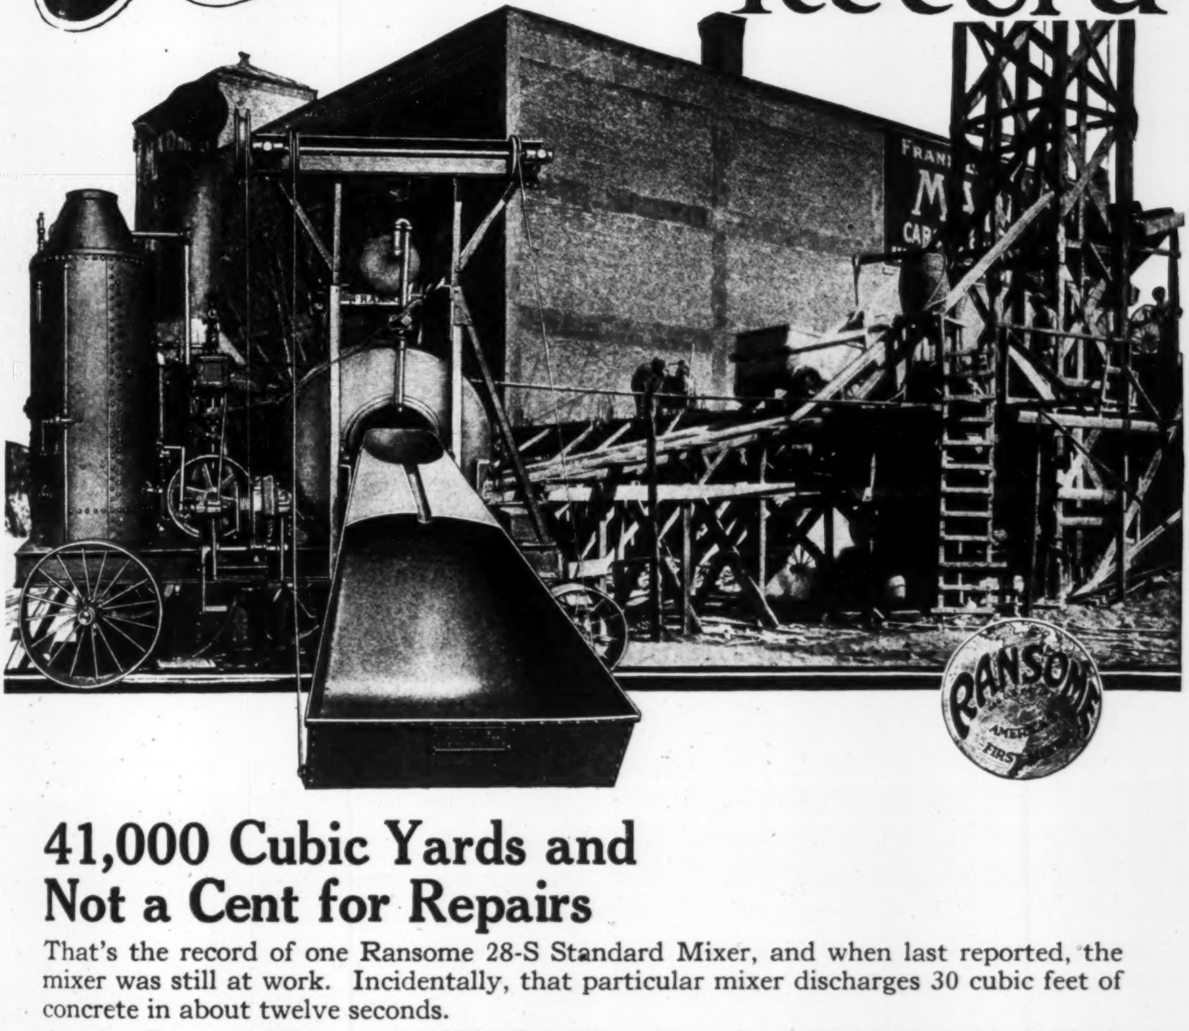
Making a Ransome Record



41,000 Cubic Yards and Not a Cent for Repairs

That's the record of one Ransome 28-S Standard Mixer, and when last reported, the mixer was still at work. Incidentally, that particular mixer discharges 30 cubic feet of concrete in about twelve seconds.

Another Ransome Mixer—a 7-E High Drum Paver, put down 470 square yards of 6-inch concrete in eight and a half hours, with an unskilled crew and the total repairs for 50,000 square yards was only one-tenth of a cent per square yard.

That's the sort of thing that explains the preference of contractors for Ransome Equipment.

Write for Bulletin 200 on Ransome Standard Mixers.

MICHIGAN PIPE

Laid Before the Eyes of Michigan Experts

There's no lost motion, time consumed building elaborate tackle where Michigan Pipe is laid. A water pipe expert from our own field staff is available to oversee the job from the unloading to the filling in. Common labor and this man lay Michigan Pipe perfectly and rapidly (2500 feet of 6-inch pipe is often laid in 5 hours). Compare this with ordinary water main construction costs.

If you are interested in the reason why far-sighted municipal engineers choose "Michigan" Pipe for permanent construction, it is found in the fact that this pipe is corrosion-proof, remains free from incrustations and algæ, preserves purity of water, has some 20 per cent. greater carrying capacity and only nominal maintenance cost. Let us send you the names of some municipalities using "Michigan."

Write for the "Michigan Pipe Book."

"Perfection Points"

OSGOOD 18

Reaches Far Out of the Pit

THIS picture shows an OSGOOD "18"—¾-yd. Revolving Steam Shovel, owned by Mr. Harry M. Saxbe, Urbana, Ohio, operating in a gravel pit. Note particularly that the long reach of the OSGOOD "18" enables the operator to swing the dipper far above the top of the wagon bed. Another interesting feature about this shovel is the remarkable yardage record which it established at Camp Knox.

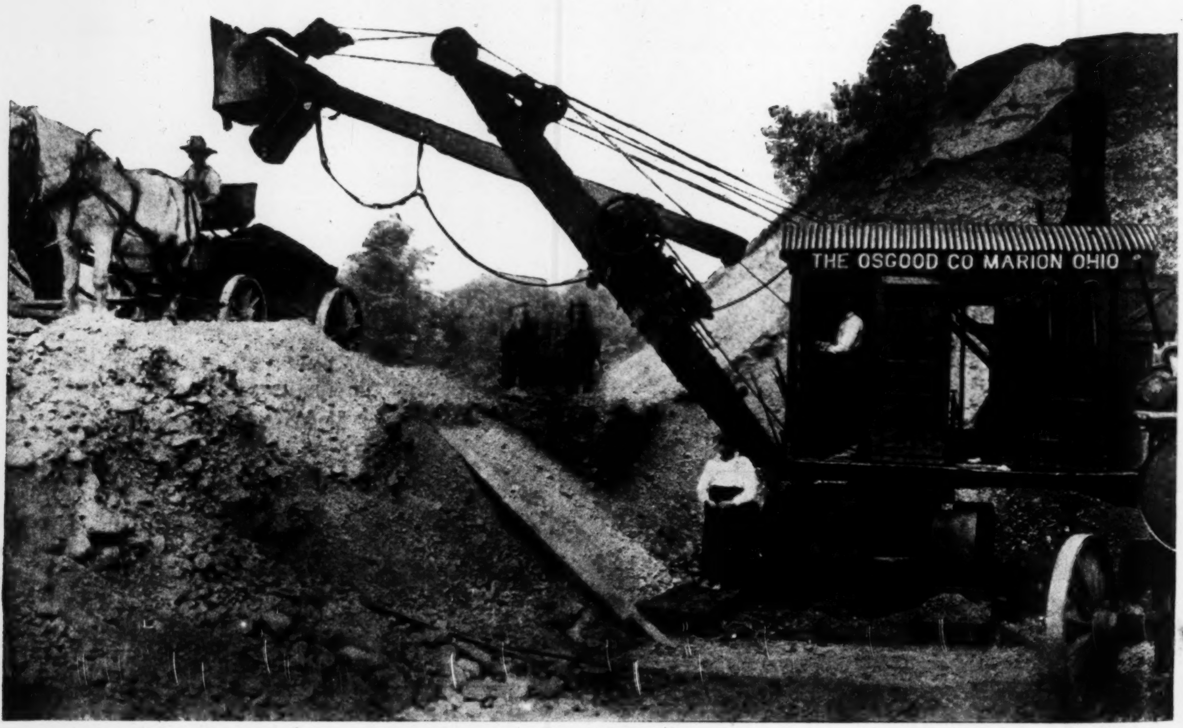
The OSGOOD "18" is a compact, powerful shovel that is adapted perfectly to Road Grading, Cellar and Sewer Excavations, Ditching, Dredging, Quarry Work, etc.

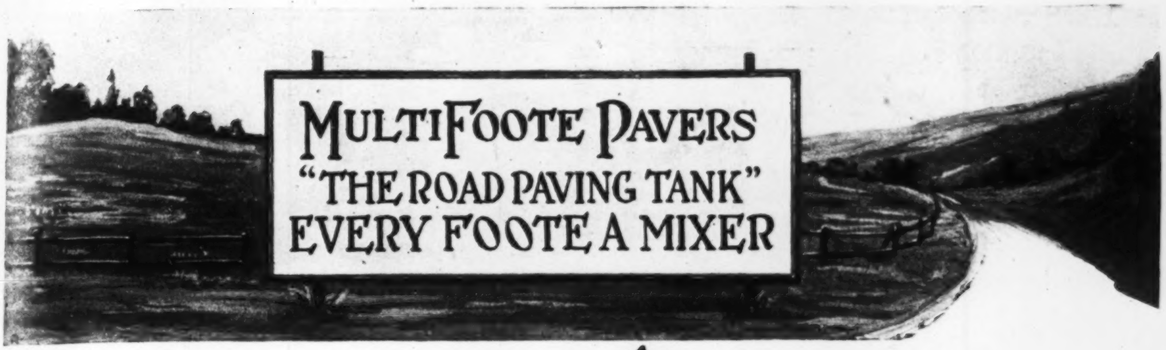
Write TODAY for information on OSGOOD "18".

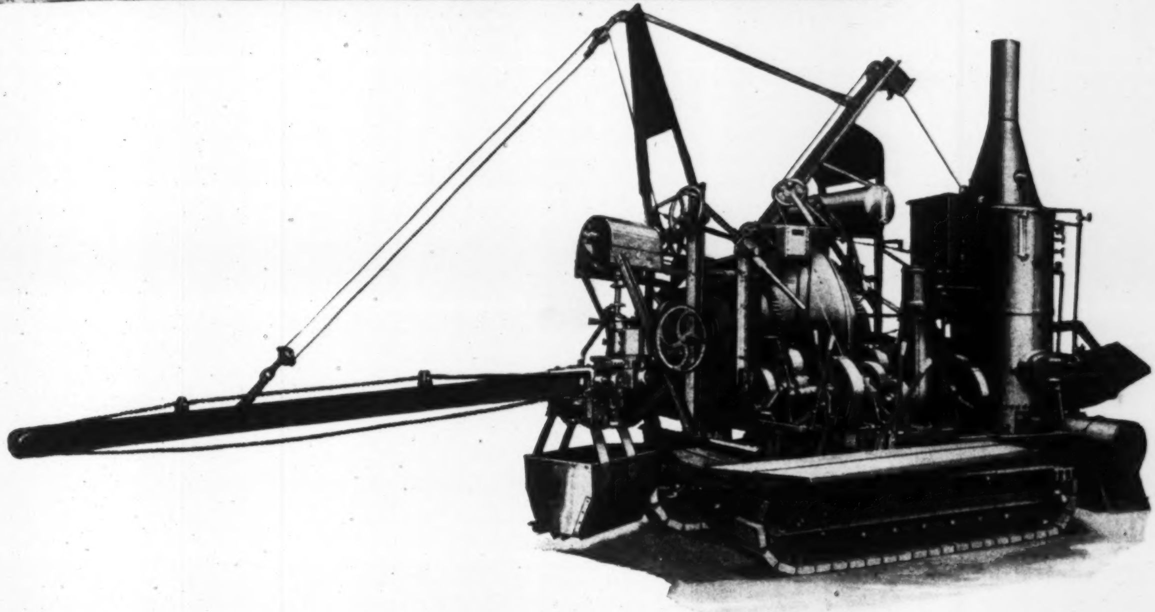
Ask for copy of our new General Catalog A-1.

Revolving and Railroad Types—¾ to 6 cu.yds.

The Osgood Company
Marion, Ohio







There Are Reasons Why 65% Of All Foote Sales Are Repeat Orders

I. Multifoote Traction

Multifoote traction eliminates traction troubles. Two speeds with reserve power.

II. Distribution

Either Boom and Bucket or Gravity Chute.

III. Power Equipment

Power equipment is the basis of all operation—that's why Foote's margin of safety calls for 50% reserve power.

IV. Foote Operation

From a large platform, one operator, out of the way of the gang, without moving away from his levers can see the loading, discharging and placing of the concrete. It prevents delays and means more yardage.

V. Foote Batchmeter

Insures uniform mix for every batch, locks and unlocks the discharge chute and it counts the number of batches.

VI. Foote Automatic Water Tank

Automatic measuring syphon type (no floating valves), quick, positive accurate.

VII. Foote Reputation

Twenty years of continued interest and study on thousands of Foote Pavers, after they were sold, has been the Foote policy. This policy has made the Foote a paver "without frills, built solely for service."

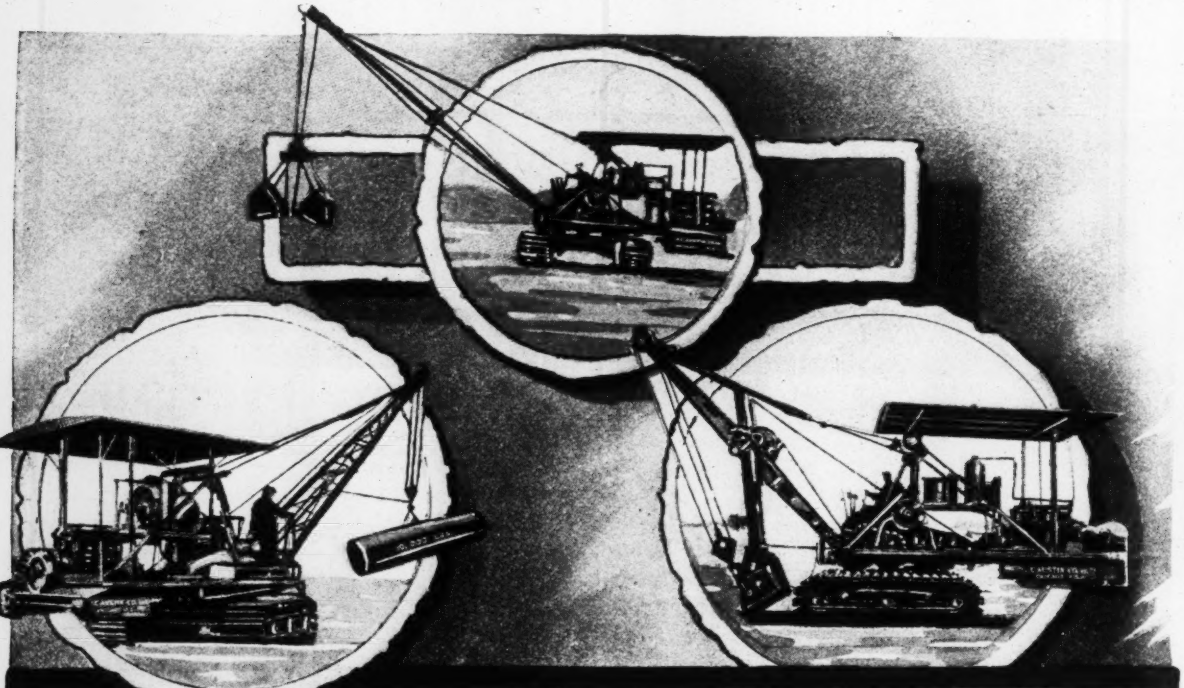
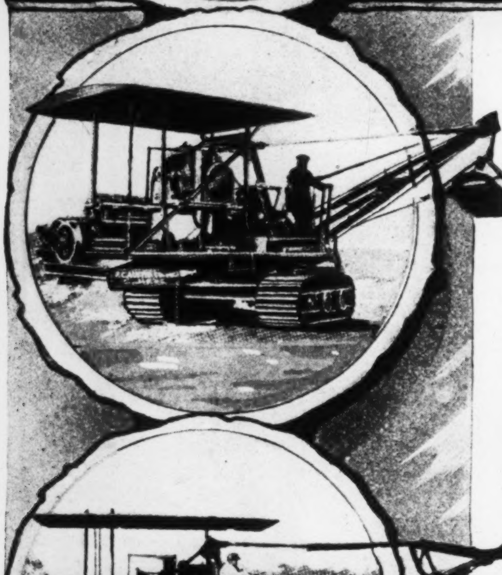
MULTIFOOTE PAVERS





An Ideal Combination Machine For Highway Construction Work

Plenty of Power and Strength—

At comparatively low initial outlay you may equip yourself for any road letting this year.

An Austin combination shovel—clamshell bucket, dragline, Crane-hoist—combines five machines into one.

It is operated by one man and will do economically and efficiently all the machine work on the job, preparatory to the concreting.

Use it first to unload all your equipment and materials. It does all your grading, ditching, backfilling and finishing. Use it to load your wagons or trucks, to place your pipe. Multipedal traction enables you to use it as a tractor in pulling your equipment over the subgrade without cutting it and to cross bridges without shoring.

This Austin No. 5 machine is a good investment for the road contractor and it will pay you to investigate. Many of them are in service throughout the country.

Cube Mixers Are Intensive Mixers

Austin Cube Mixers knead the batch—they do not stir or dip, or plow the concrete, they knead it. Scientists call this action incorporation under pressure. Note the idea of incorporation. The thought is not segregation which is a stirring, plowing action, it is incorporation which is a kneading action. Austin Cubes fold and refold and squeeze the batch repeatedly in each revolution—they knead. Kneading acts on the whole batch, not on a fraction of the batch as does stirring or plowing, hence it is a quick mixing action as well as an intensive mixing action.

THE PRACTICAL GAINS ARE:

(1) The same quality of concrete is produced in less time or a much superior concrete in the same time.

(2) If time is set as is the practice in road work a more mobile or workable mixture is produced, one that can be more easily spread and compacted.

(3) If quality is set, as is the practice in most construction, more batches of standard quality are turned out per hour or day.

Prominent Authority Explains Value of Intensive Mixing

Few students of concrete have a reputation for sound thought and conservative speaking which equals that generally accredited to Prof. A. N. Talbot of the University of Illinois.

In a recent discussion before the American Railway Engineering Association Professor Talbot said:

More thorough mixing not only mixes the paste and better coats the particles, but it makes the mass mobile with a smaller percentage of mixing water, and this less dilute paste results in higher strength. Any improvement in method of mixing which increases the mobility of the mass will permit the use of a less dilute paste and thereby secure increased strength.

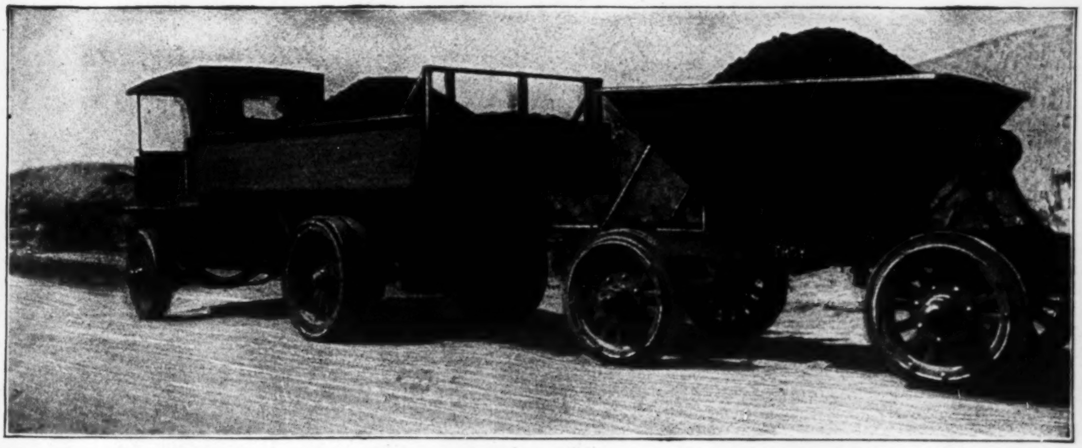
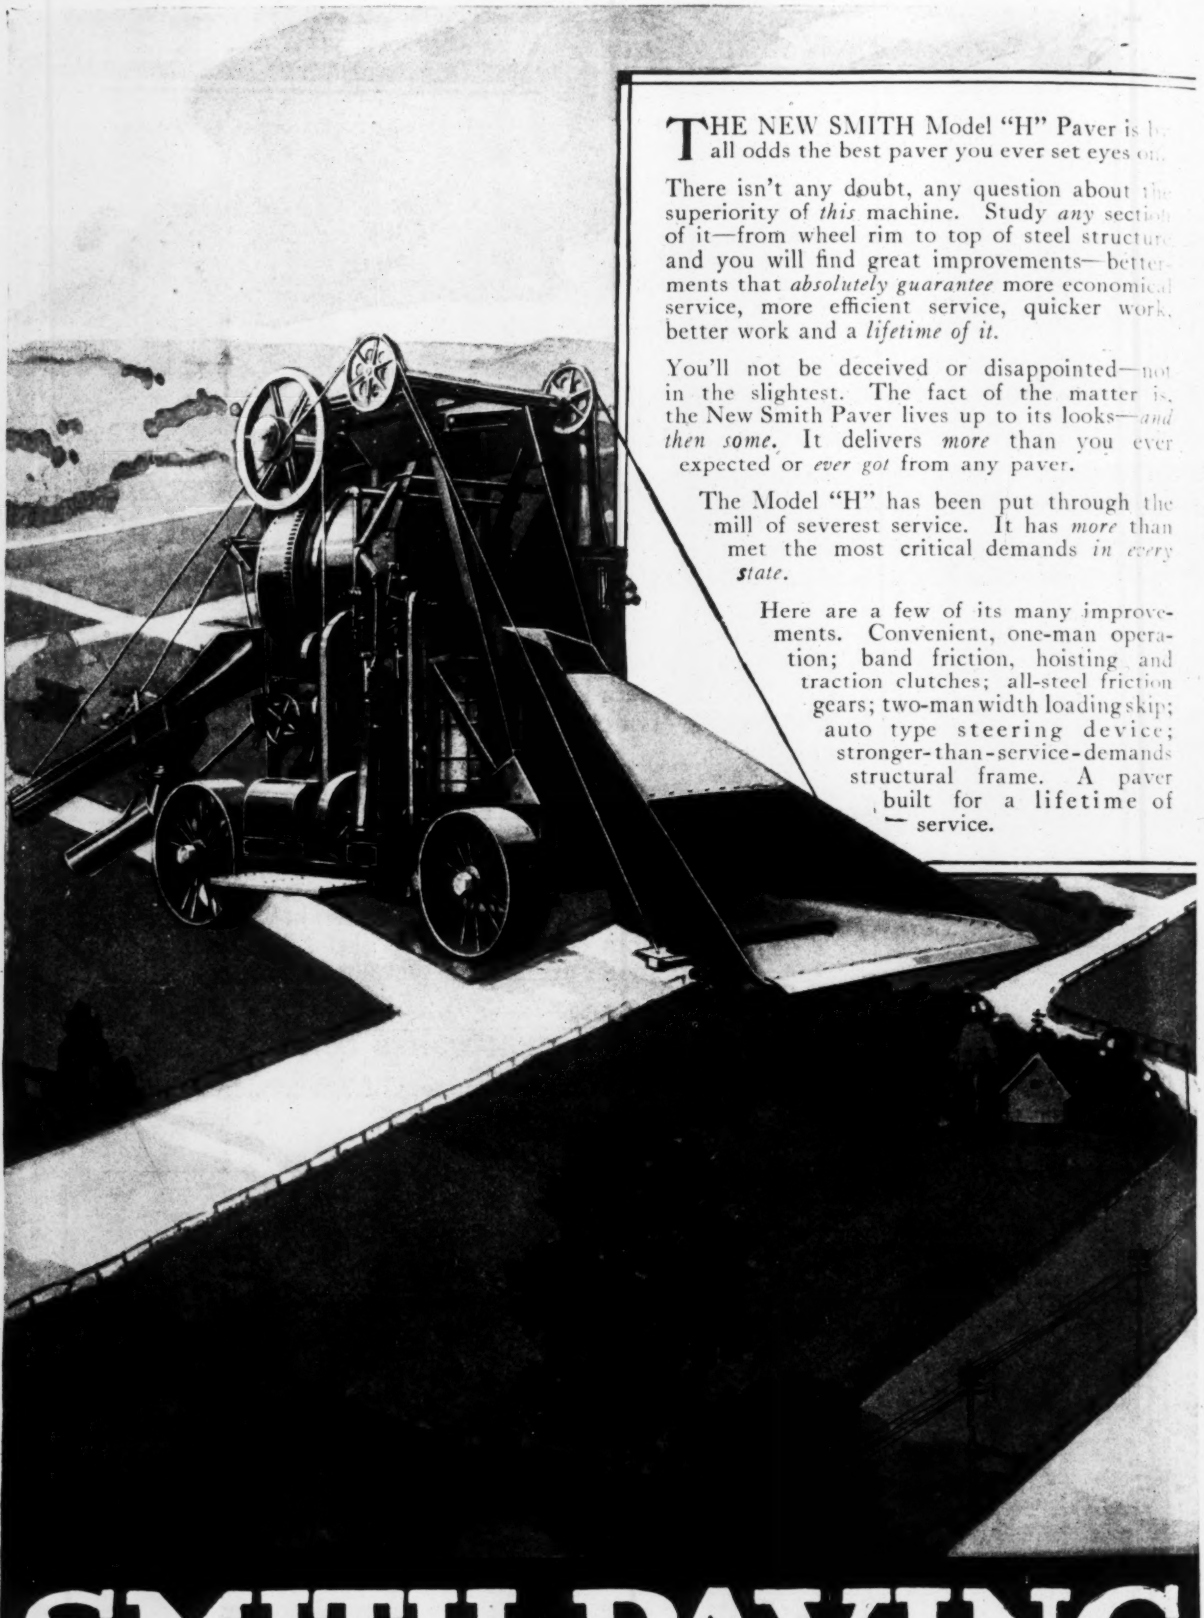
THE TROY WAGON WORKS COMPANY, Troy, Ohio

Oldest and largest makers of Trailers, making possible highest grade construction at lowest cost.



Troy Trailers working for the O. & C. Construction Company. They could not be convinced that trucks would pay until they made a trial with trucks and trailers; they now have four TROYS.



THE NEW SMITH Model "H" Paver is by all odds the best paver you ever set eyes on.

There isn't any doubt, any question about the superiority of *this* machine. Study *any* section of it—from wheel rim to top of steel structure and you will find great improvements—betterments that *absolutely guarantee* more economical service, more efficient service, quicker work, better work and a *lifetime of it.*

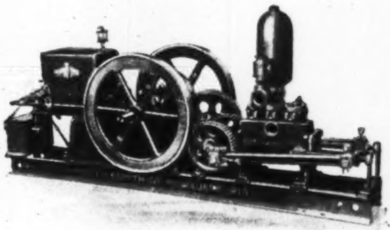
You'll not be deceived or disappointed—not in the slightest. The fact of the matter is, the New Smith Paver lives up to its looks—*and then some.* It delivers *more* than you ever expected or *ever got* from any paver.

The Model "H" has been put through the mill of severest service. It has *more* than met the most critical demands *in every state.*

Here are a few of its many improvements. Convenient, one-man operation; band friction, hoisting and traction clutches; all-steel friction gears; two-man width loading skip; auto type steering device; stronger-than-service-demands structural frame. A paver built for a lifetime of service.

SMITH PAVING

Send for our new Paver Bulletin No. 409. Get the facts. It will pay you. Write today. The Model "H" has met with a tremendous demand. There will be only a limited number of these machines available this year, so "speak up" if you are interested in turning out more work, better work—at less cost and bigger profit.



SMITH High Pressure Force Pumping Outfits

Always on the job. Never out of order. Absolutely dependable. Can't and won't go back on you under severest conditions. Abolish delays. Put a stop to repair costs. Most advanced type on the market. Last a lifetime. Never grow old. Do not wear out. Do not depreciate in service value. Best investment you can make. Catalog will prove it.

Send for Copy.

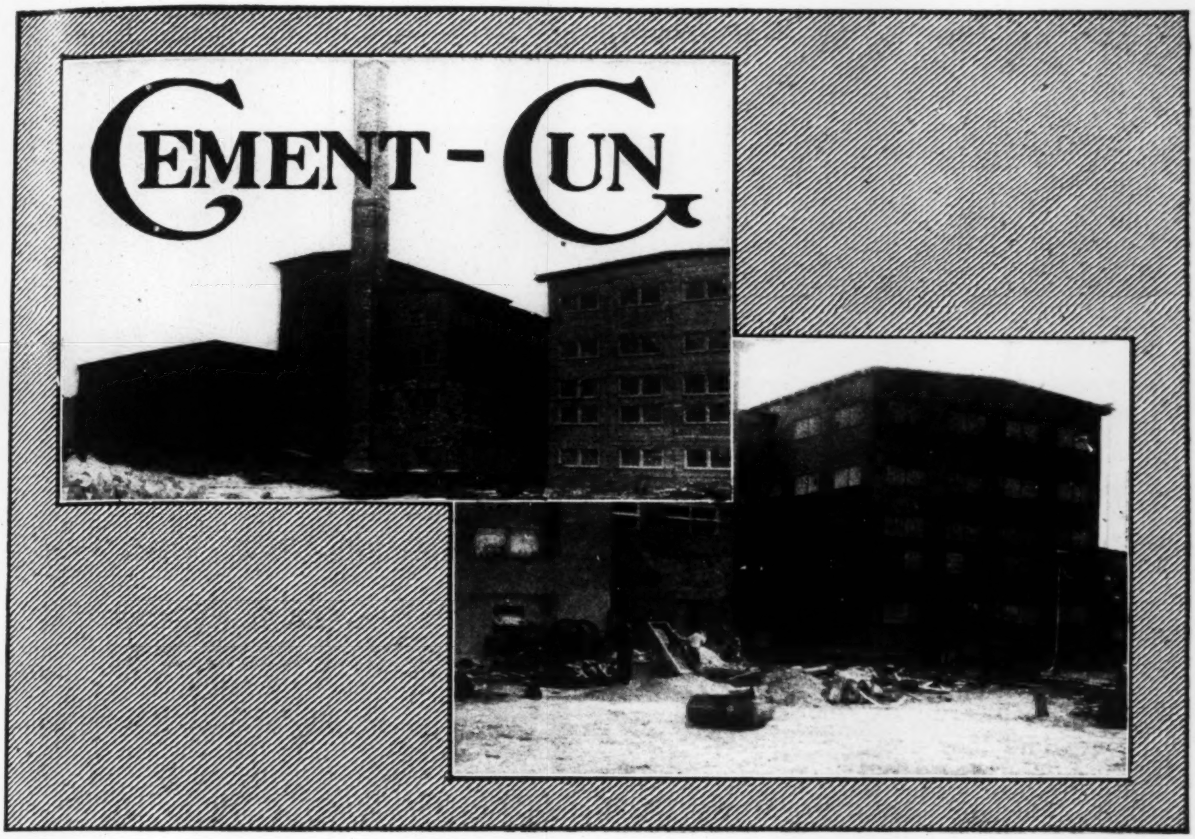
KOEHRING MIXER LOADER

The cost-saving way to load mixer from the subgrade. Cuts out all wheelers. Measures the proportions for every batch, is adjustable to measure all proportions for all capacity mixers. Measuring bins move along top of frame for convenient shoveling. Materials fed through bottom gates of bins to conveyor belt that shoots charge to charging skip at speed of 500 ft. per minute. Ask for Mixer Loader catalog C-137.



Fireproofing Wooden Mill Buildings

UP in Hillsborough, New Brunswick, a big fire completely destroyed the old mills of the Albert Manufacturing Company. *After* they had rebuilt their buildings according to "mill construction" classification (heavy southern pine frames, solid floors, 2-in. tongue-and-groove spruce sheathing), they thought of *fire-proofing*.

Cement-Gun did the trick. Strips of battens were nailed outside the sheathing; coarse wire netting stretched, and Gunite (the cement-sand product of the Cement-Gun) shot all over the buildngs.

Today fire cannot harm the outside of these buildings—they are encased in *stone*. Why not fireproof your wooden buildings in the same way?

Write for bulletins on Cement-Gun work now.

Reduce Your Labor Costs

Toncan Metal Corrugated Culverts are placed quickly by ordinary labor and, further, when once laid they are there to stay. Extremes of heat and cold will not damage them, floods will not loosen their ground grip and they stand up under the most severe traffic loads.

Toncan Metal SPC. TONCAN METAL Corrugated Culverts

Resist Corrosion

The reason is that those impurities which promote corrosion have been removed. The metal is of uniform density and good all the way thru. Years of use under most trying conditions have proven that there is nothing more durable made from iron ore. In SPC. Toncan Metal we have a sheet manufactured especially for culverts. Every sheet is full weight to gauge and carries two ounces of galvanizing to every square foot of double exposed surface.

If you are interested in better iron and better culverts you will be interested in our 100 page book, "Corrosion—The Cause—The Effect—The Remedy." This contains authentic information appreciated by those who want to know the reason of things. For the past several years it has been in great demand as a reference book by architects, contractors, engineers and colleges. As long as the supply lasts we will send the book with our compliments to those who request. The demand this Spring has been exceedingly severe and we suggest an early inquiry if you are interested.

Tell us of the culvert work you have in mind and we will put you in touch with the culvert manufacturer nearest you who can supply your needs promptly. Toncan Metal Culverts are ready for immediate delivery from numerous points thruout the United States and Canada. Kindly address Department Q24.

THE STARK ROLLING MILL COMPANY, Canton, Ohio

As Long or as Short as You Want It

A Ferguson standard building can be built any length or width, conforming with given units of measurement.

The Standard No. 3, shown in the illustration, can be extended to any length in units of 20 feet and to any width in units of 50 feet.

An Owner can erect as small a building as he wishes and expand it to accommodate increased business at any time in the future by removing an end or side wall.

An Owner can erect a Ferguson Standard Building with his own building force or his local Builder.

Ferguson will sell him steel, timbers and sash at market prices, with complete erection instructions, and make prompt shipment on receipt of order.

When increased business demands additions the same building force or local builder can obtain the necessary Ferguson materials and perform the additional construction.

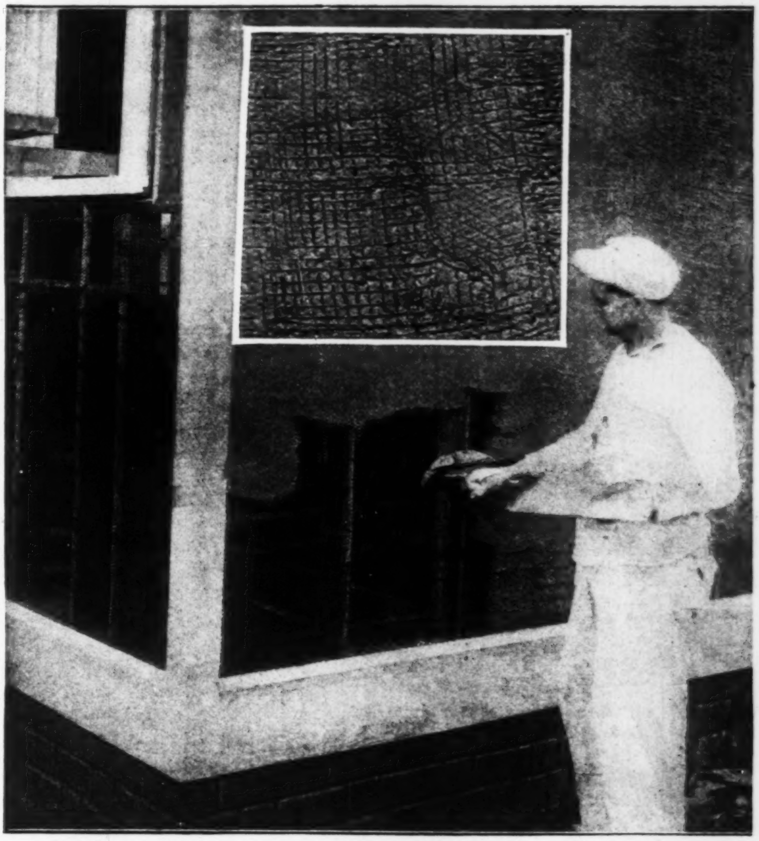
NO. 16

For Stucco Construction



A quickened sense of fire risk, scarcity of lumber and the high cost of paint and labor have turned the attention of builders everywhere to stucco for exteriors.

Stucco gives beauty, adaptability, fire-resistance, enhanced value, actual economy and permanence, if it is properly applied to *the right backing.*

Berger's Expanded Metal Lath

A consideration of cost, fire-resistance, freedom from cracking and permanence, in the light of careful examination of dozens of Stucco houses will add considerable weight to our recommendation:—

"Use Stucco on Berger's Expanded Toncan Metal Lath applied direct to studding and back-plastered".

Expanded Metal Lath is a reinforcement in every direction, Toncan Metal gives extra assurance of permanence under trying conditions.

Your nearest Berger Branch can supply the lath and they'll gladly send you Metal Lath Handbook F-24—Write today.

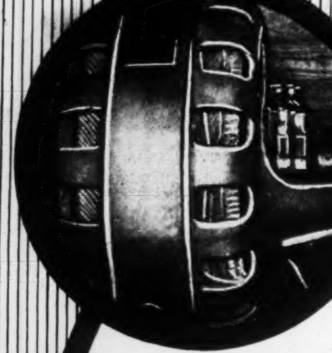
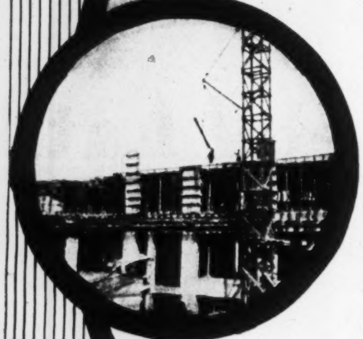
Electrification Cuts Costs on a big Construction Job

Electricity speeded up the Concrete Mixing and Distributing the Form Work, the Steel Placing, the Roofing.—





WHEN Turner built the American Can Factory in Brooklyn — a 200 x 300 ft. building consisting of 6 stories and basement and involving 22,000 cu.yds of concrete — *electricity* reduced the construction costs. The same power that helped break records in shipbuilding, steel production, and coal mining was called upon to get this building up in shorter time — for less money. And it succeeded.

To electrify a job is to keep pace with progress. *To select the right electrical equipment is just as important.*

This particular job was typical of most construction work. These Westinghouse motors operated in dusty, dirty, damp surroundings. Two were about 3½ years old; another, over 4½ years. All were veterans of five or six previous hard jobs, equally dusty, dirty and damp. All were still in *excellent condition.* None had needed much repairing.

Whether you face the question of selecting electrical equipment, rearranging present electrical equipment, or applying electric power to apparatus now driven by other means, the services of Westinghouse Engineers are at your disposal to help you cut costs and speed your work.

for Export has Benefited Export Service

These non-competing American manufacturers have, during the last few years, developed a most successful cooperative plan for serving the foreign buyer.

In the development of this export service much of the equipment has been standardized, resulting in higher perfection of product, more efficient manufacturing methods and higher engineering ability.

While these advances are due, primarily, to the efforts of these manufacturers to perfect a cooperative service to the foreign buyer—

The Domestic Buyer for Export

is also offered highly perfected and standardized equipment for all kinds of construction (buildings, bridges, excavation, roads, sewers, etc.), as well as for conserving labor and increasing industrial efficiency.

Catalogues and complete information will be sent on request.

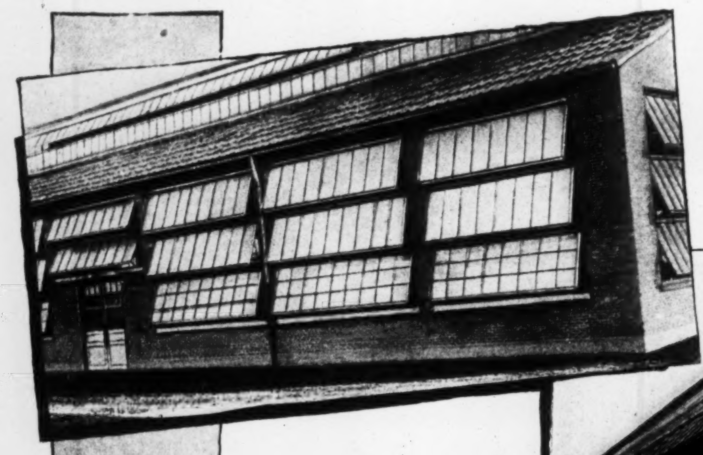
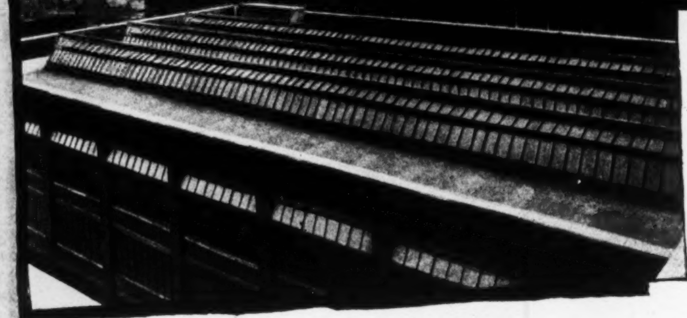
Hydraulic Pressed Steel Forms

or Saving Machinery



Pond Continuous Sash in short lengths between pilasters. Controlled in lines or groups by Pond Operating Device.

Pond Continuous Sash in foundry monitor. Underlapping storm panels exclude rain at ends of lines. Electric motors may be used to operate very long lines.



Pond Continuous Sash in sawtooth roof. For maximum ventilation the sawtooth sash lines may be operated in groups by electric motors. This construction, on the top floor of a multi-story factory, enables all the most exacting work to be done under ideal conditions. A building so designed may be made wider or higher than would otherwise be practicable.

More Air

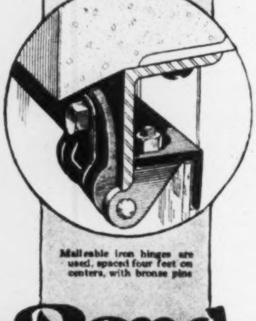
The intensive production of tomorrow demands a new standard of ventilation.

Not merely larger openings, but *mass control*, is often the answer. Stop depending on the individual workmen to open windows and place entire control in the hands of the foreman.

POND CONTINUOUS SASH does just that. When hung outside of structural work, with underlapping storm panels at the ends of lines, it is fully weather-protecting. The Pond Operating Device, with spirals and counterweights to balance the load when open, renders control of long lines easy.

Wider buildings, better planned buildings, and larger output follow the correct use of Pond Continuous Sash.

We gladly co-operate with architects and engineers. Shall we send booklets on the use of Pond Continuous Sash?



Malleable iron hinges are used, spaced four feet on centers, with bronze pins

Pond
CONTINUOUS SASH
PATENTED
WEATHER-PROOF WHEN OPEN

DAVID LUPTON'S SONS COMPANY

Tulip and Westmoreland Sts. Philadelphia, Pa.

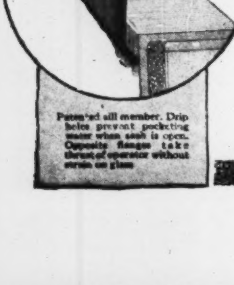
Makers of modern equipment for daylighting and natural ventilation

Canadian Manufacturers: The A. B. Ormsby Co., Ltd., Toronto.

Pond Continuous Sash is top-hung under an overhanging angle, and overlaps storm panels 2 feet wide at the ends. Its 20-foot units are connected by weather proof expansion caps giving needed flexibility for alignment with steel work.

Its members are extra heavy and rigid; all joints are oxy-acetylene welded. Control in long lines is made easy by the patented Pond Operating Device, hand or motor driven.

Immediate deliveries from stock.



Patented sill member. Drip helps prevent pocketing water when sash is open. Opposite flanges take thrust of operator without strain on glass

INVESTMENT VALUE

PURCHASING

Thirty-five Years' Study of Markets

THE careful, scientific selection of materials and their purchase at the most favorable terms and prices are quite as important factors in our service as the actual design and construction of a project.

Before being accepted as suitable for the purpose, materials submitted to us are carefully and searchingly tested by our experts in our own laboratories. Failure to measure up to our rigid specifications means prompt rejection.

The manager of our purchasing department has been in continuous employment with us in that capacity for twenty years. He is posted on sources of supply located in every part of the world. His grasp of markets and materials has saved our clients large sums.

Furthermore the magnitude of our operations results in our commanding prices not available to the smaller buyer, and is a substantial factor in cutting construction costs.

ASECo Service lights the way to export markets

Dependable service is needed today more than ever before.

The foreign buyer of machinery and equipment demands service—the manufacturer, if he would share in the growing overseas business, must have it.

Service by experts both in construction and consultation, plus an expert knowledge of every export trade requirement and the requisite facilities to comply with them.

All this you will find in

ASECo

Our Engineering Department will secure and ship a single piece of machinery or an entire manufacturing equipment.

Engineering Booklet on request.

PRODUCER ASECo CONSUMER

"This advertisement was scheduled to appear in the June 19th issue. Delay in its transmission made this impossible. The new price on the Lakewood Road Finisher will, therefore, not become effective for readers of Engineering News-Record until July 3rd. Orders will be accepted at the old price, by mail or wire, until that date."

The upper picture on the opposite page is the Lakewood Road Finishing Machine we began telling you about two years ago to sell for $1,250.00, f.o.b. Milwaukee.

The lower view shows the latest 1919 model which we have been selling at the price established for the 1917 and 1918 models.

To help get business going early in the year we advertised generally that we would not change any of our prices before July 1.

Beginning July 1, 1919, the price of the 1919 Model Lakewood Road Finishing Machine will be $1,650.00, f. o. b. Cleveland, for 16, 18 or 20-foot road widths and 1-inch or 2-inch crowns.

This price is effective from July 1, to December 31, 1919.

THE LAKEWOOD ENGINEERING COMPANY

"Jackhamer" drilling concrete blocks in New York subway

Down in the Subway

The building of the New York subways was and is a stupendous feat of engineering. Such projects are made possible only by modern methods which demand the use of the best of modern tools.

"Jackhamers" drilled the underpinning of New York City, at times far below the surface—at times immediately under the hurrying feet of millions.

Swiftly and surely "Jackhamers" drove their way through solid rock, working day and night, efficiently and steadily. "Jackhamers" helped immeasurably to turn romance into reality—to complete miles of tunnel and cut under the heart of the greatest city.

"LITTLE TUGGER"

The "ONE MAN" Hoist

One "Little Tugger" operator can hoist or haul the load without any assistance. The hoist is so constructed that its drum can be thrown out of gear by a single motion of one lever, allowing the cable to run freely off the drum. The cable can then be conveyed to the "hitching" point by the operator. This means a SAVING IN POWER as well as LABOR as this cable does not have to be payed out under power.

This particular feature is but one of many money saving qualities of the "Little Tugger" Hoist. Bulletin 4333 may suggest a way for you to reduce operating expense. A copy will be sent you upon request.

"LITTLE TUGGER"

Works equally well on compressed air or steam.
Hoists loads up to 1000 lbs.
Can be mounted anywhere in any position.

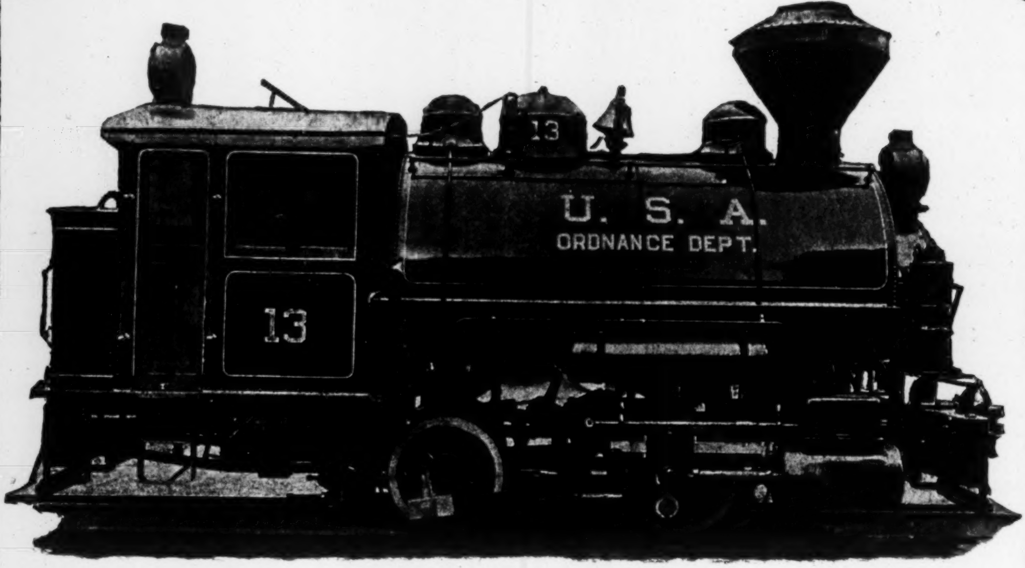
VULCAN



Special Locomotives for Special Places

WHERE inflammable or explosive materials have to be transported in bulk, the locomotive must be built so that perfect safety may be assured.

Not only must sparks from the smoke stack be arrested, but no hot coals must be dropped from the ash pan. The equipment must be so designed that no burning or very hot materials can be dropped accidentally where they might come in contact with anything inflammable or explosive.

Special VULCAN Locomotives are built with spark and fire arresting devices of such a dependable character as to afford absolute protection in powder and dynamite plants, in lumber yards, around saw mills or in the timber in dry weather.

Industrial Cranes

Erecting Concrete Forms

Five separate operations were being handled while these 25-ton Industrial Cranes hurried up the Calumet Sag Channel. John O. Heyworth knew the versatility of Industrial Cranes, so, besides using a drag scraper bucket, his cranes laid their own track, drove piles with a steam hammer rig, handled grab bucket and did the heavy material handling. It is performance like this that keeps Industrial Cranes first in favor wherever there is heavy lifting to do. There is a size and type for practically every requirement.

By using

JEFFREY PORTABLE CONVEYERS

For handling and piling boxes, sacks, packages, bags, etc., they are money-savers on a big basis.

Portable Belt Conveyer

Made up of short, easily connected sections of any length desired. Can be easily run from one part of building to another. Avoids the delay incident to unloading of hand trucks, and does the work of a large number of men and trucks at far less cost.

Portable Bag Stackers

Especially adapted for handling and stacking bags, boxes, etc., breaking down piles and for loading material onto shipping platform, into freight cars, etc. Save Labor and Time and increase warehouse capacity by allowing higher piling. Designed for heavy duty, yet of light weight. Only two men required to push them about.

Our new Bulletin No. 266A

Handle it Mechanically

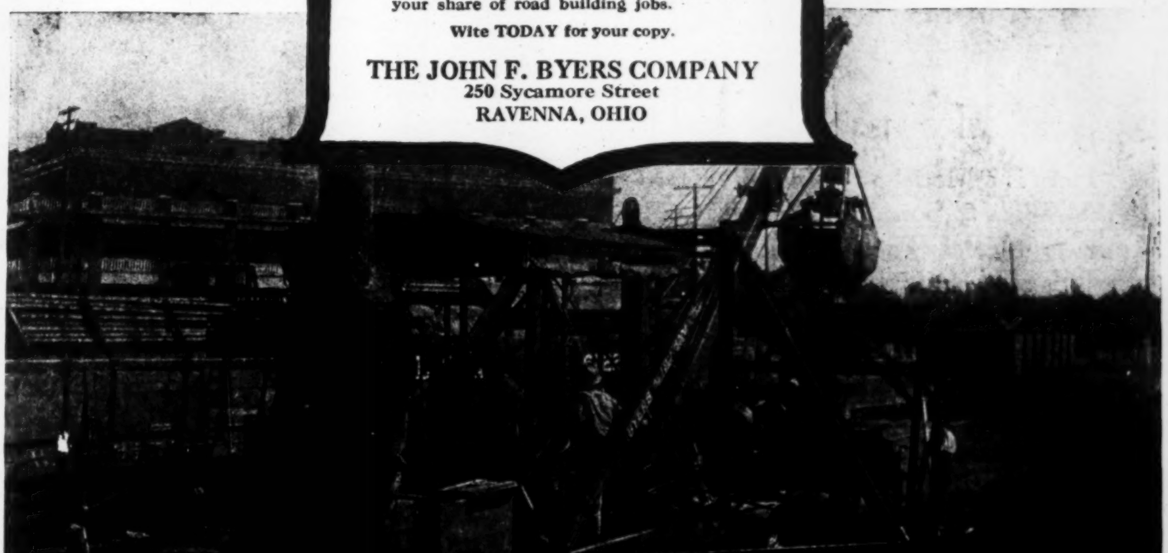
AUTO-CRANE Efficiency Cuts Road Building Costs

MATERIAL handling is a mighty big factor in road building costs. BYERS AUTO-CRANES provide a most EFFICIENT method of handling road material and consequently an effective weapon for fighting high costs.

An AUTO-CRANE will jump right into a road building job at the very start. It will transfer materials from railroad cars on the siding directly into overhead bins, into waiting motor trucks or on to the roadbed itself. Grading, excavating, etc., are strictly AUTO-CRANE jobs. It gives efficient crane service and will handle with ease the every-day tasks of the road builder and general contractor.

AUTO-CRANES are built in a choice of Steam, Gasoline or Electricity, for Power and with Mountings of Road Wheels, Rail Trucks and Caterpillars.

The Good Roads Movement Is On!



Bulletin 1015 tells how the AUTO-CRANE will enable you to handle most profitably your share of road building jobs.

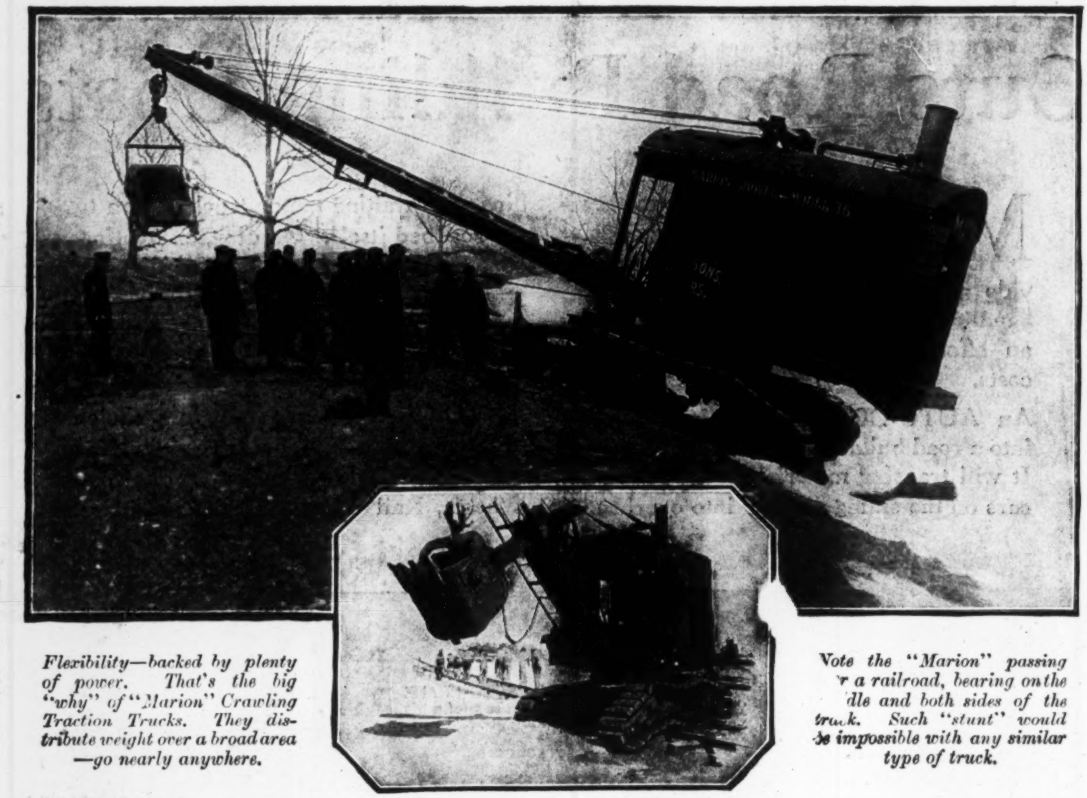
TRADE MARK BECKWITH PATENTS



Flexibility—backed by plenty of power. That's the big "why" of "Marion" Crawling Traction Trucks. They distribute weight over a broad area—go nearly anywhere.

Note the "Marion" passing r a railroad, bearing on the dle and both sides of the truck. Such "stunt" would be impossible with any similar type of truck.

Take the "Short Cut" to the Next Job!

Here is a Model 36 "Marion" owned by A. V. Wills & Sons, on its way to work on a levee job near Brewster, Ill. It is going up this steep bank under its own mighty power—shoving along, tank-fashion, just as though it were an ordinary stunt for shovels to climb steep grades without help.

Even *that* wasn't all. This same machine had crossed a frozen creek just a few minutes earlier—without outside help of any kind. It smashed into the ice, sloughed through the mud, bucked the bank—and went over the top with a hurrah.

That's the real "Marion" spirit—the spirit that tackles jobs with a vim, then *sees them through.* There's no "laying down" to a "Marion"—you can always count on its being in as strong at the finish as at the start.

Let us help you plan that new job. Te us what you have to do and we w show you how "Marions" will help u do it.

Efficient Water Pressure

Charles E. Golden
President and General Manager

Mr. Golden says:

"Those surges and fluctuations in your distribution lines mean money loss to you. Install—

GOLDEN-ANDERSON

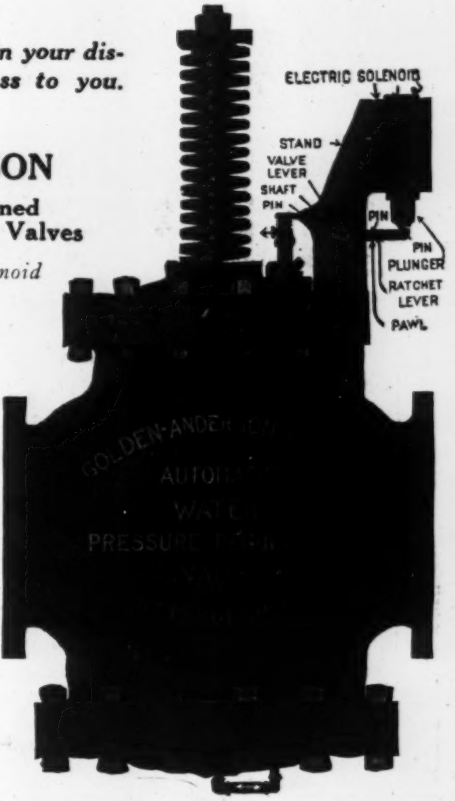
Patent Automatic Cushioned Water Pressure Regulating Valves

Furnished with or without Solenoid Attachment

and you will save many times the amount of the slight outlay in both **operating** and **maintenance** expenses.

They will provide the simplest, most economical and most satisfactory means of attaining this ideal condition. Note the following points.

1. Positive in action and always dependable.
2. Perfectly cushioned by water and air both in opening and closing.
3. Fitted with electric solenoid that enables the valves to be opened wide from distant point in case of fire or other emergency.
4. Again closing the circuit for a few seconds will automatically restore the valves to normal position.
5. Provided with special safety operating piston making the accidental entrance of high pressure into the low pressure side impossible.
6. Easily adjusted to deliver the desired pressure from the outside.
7. All water passages are large to prevent danger of clogging.
8. Made in sizes to 24 inches.
9. Correct in every detail and virtually indestructible.



Golden-Anderson Patented Life and Property Insurance Valves

Globe Angle and Elbow Patterns

Sizes to 20 in.

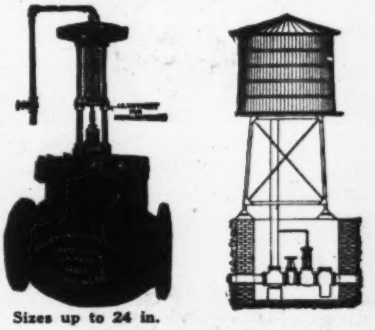
1. Automatically protects the plant against complete boiler shutdown, in case of accident, to any one boiler, by absolutely preventing back flow of steam.
2. Positively protects against pipe explosions by instantly shutting off all steam flow when a break occurs in any steam pipe line.
3. Automatically equalizes pressure between all boilers.
4. Automatically cuts a boiler into service.
5. Prevents inflow of steam to a cold boiler.
6. Positively cushioned. No hammering, spinning or sticking.
7. 1650 repeat orders from U. S. Steel Corp.

Golden-Anderson Patented Cushioned Automatic Altitude Controlling Valves

They stop all water waste down the overflows of reservoirs, standpipes, tanks, etc., by automatically maintaining the water level constant at the desired level. They operate without floats or fixtures.

Three ways of closing:

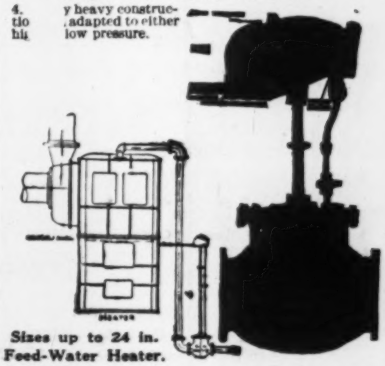
1. By water.
2. By electricity from distant points.
3. By hand.



Sizes up to 24 in.

Golden-Anderson Patented Automatic Cushioned Controlling Float Valves

1. They eliminate the heavy loss of water down your feed water heater hot well and other tank overflows by accurately controlling the make-up water.
2. Automatically hold a constant water level without atte on.
3. fectly cushioned both by water and air.
4. y heavy construc- tio , adapted to either hi low pressure.



Sizes up to 24 in.
Feed-Water Heater.

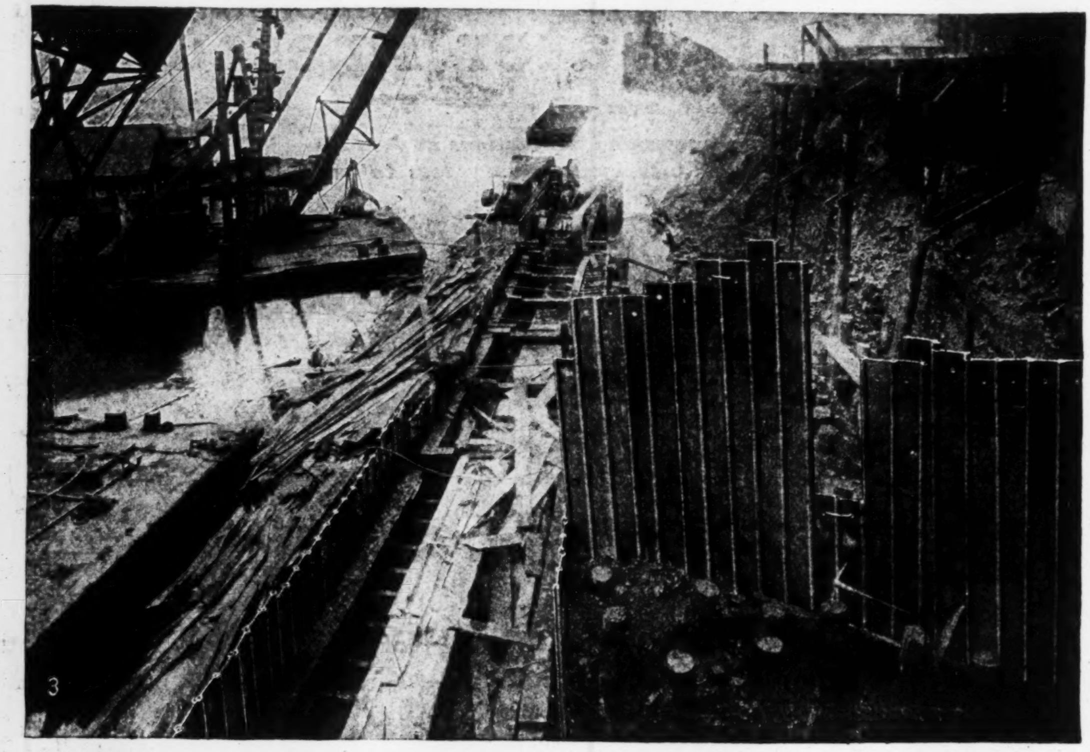
1202 Fulton Building, Pittsburgh, Pa.



A good way to use Lackawanna Steel Sheet Piling in building river retaining walls

Here is a good type of unit cofferdams of Lackawanna Steel Sheet Piling for building river retaining walls. In this particular instance, at the plant of the Pressed Steel Car Co. of Pittsburgh, a coal pocket was built behind the retaining wall and made part of it, with the cofferdam protecting the foundation of coal pocket during construction.

These cofferdams were about 100 feet long, the last one, however, being 200 feet long, and the concrete work extended to about 14 feet below pool level. From the nature of the work, it is evident that the Lackawanna Steel Sheet Piling was used a number of times, and that if the 200-foot cofferdam could be successfully unwatered and kept dry in a sand and gravel soil as exists here *Lackawanna Steel Sheet Piling must be watertight.*

The method of construction adopted by the contractors here, The Dravo Contracting Co., Pittsburgh, was economical in that the permissible preliminary dredging was done before setting the steel sheet piling walls, which had to be driven subsequently only about eight feet.

We are told that although water came up through the bottoms of the excavated cofferdams, no trouble was experienced in maintaining dryness, a 10-inch centrifugal pump running at moderate speed having met all requirements.

The unfailing dependability of properly selected and driven Lackawanna Steel Sheet Piling is always a source of profit to the wise contractor and gives him a confidence as to uninterrupted progress not otherwise obtainable.

Try one installation and you will want more. Our literature and our engineers will help you to get the most from the investment.

DOUBLE-LOCK LACKAWANNA INTERLOCK

A tightening action under pressure that makes a single wall cofferdam watertight, even in deep, clear water.

Owners Records of

100,000-200,000-300,000 MILES

THE ultimate mileage of White Trucks is still unmeasured. Some have rounded out 300,000 miles. Many have run 200,000 miles. Hundreds, probably thousands, have passed the 100,000 mark—a very common White performance.

We have just published a book which tells of more than 400 White Trucks with operating records of 100,000 miles and over. These trucks are still giving good service today.

This book is the most convincing exhibit on the subject of truck durability that has ever been presented. It gives a new insight into truck economy through truck longevity. A copy of "100,000 Miles and More" will be sent to anyone interested, upon request.

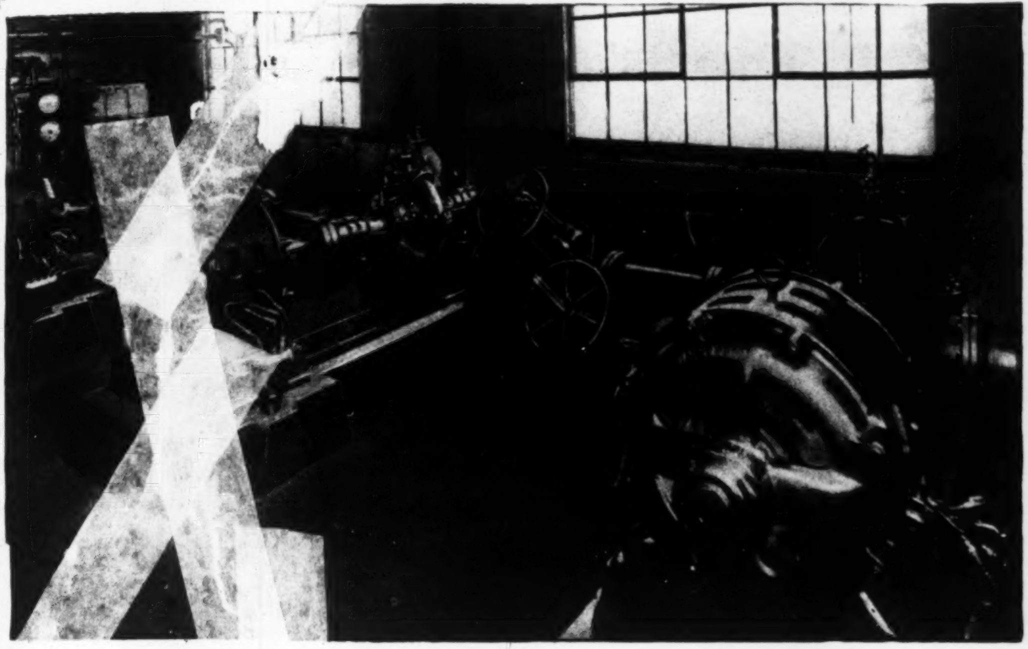
AMERICAN
TRADE MARK REG U.S. PAT OFFICE



The Barrett Company Are Well Satisfied With the Above Installation of "AMERICAN" Pumps and Had No Hesitancy in Saying So

Their letter follows:

Frankford, Philadelphia
March 19, 1919

"We are pleased to state that the three 8-inch American Centrifugal Pumps, operated in our filter plant for the past two years, have proven very satisfactory indeed."

(Signed) THE BARRETT COMPANY,
Chemical Department,
H. J. WRIGHT, Plant Engineer.

The installation which was sold by Sciple Gochenour Mfg. Co., our Philadelphia representatives, consists of three AMERICAN Type DSMB, 8-inch special centrifugal pumps, direct connected to a 75-hp., 220-volt, 2-phase, 60-cycle a. c. motor, operating at 1800 r. p. m.

This pump has a capacity of 1400 g. p. m. against a total head of 150 feet, including a suction head of 25 feet.

The shells were built to withstand a pressure of 250 lbs pressure

Impeller, wearing rings, shaft sleeves and gland are of bronze.

Efficiency developed was 74 per cent.

The original order was for two pumps and later, after a thorough trial, the third pump was added.

This is cited, merely as another among many instances, indicating the satisfaction rendered by AMERICAN pumps in service.

Catalog 149 describes our centrifugal pumps and No. 130A our deep well plunger pumps These will be sent to any address on request.

Roof planks of weave shed of textile-mill destroyed by decay in nine years.

(Courtesy F. J. Hoxie, eng., Associated Factory Mutual Fire Insurance Cos., Boston.)

Partly Decayed Wood is a Serious Fire Hazard

The Inspection Department of the Associated Factory Mutual Fire Insurance Companies, in their pamphlet "Dry Rot In Factory Timbers" states—"*The loss to mills from rotting timber is many thousands of dollars a year. Wood infected by dry rot ignites more easily than sound wood, and mill timbers with rotted ends fall more quickly under fire.*"

Rotted timbers are also apt to fail mechanically, jeopardizing the life and limbs of workmen.

The use of Carbosota Creosote Oil will retard decay, practically eliminating rot and lessening the fire hazard. *Creosoted wood, when dry, is no more combustible than sound untreated wood, and is decidedly less inflammable than partly decayed wood.*

"Of whatever kind of wood the outer part of the roof is (referring to a double roof), *it should be completely penetrated with hot creosote so as to sterilize it and prevent the development of fungus. Such an outer* insulating covering will be found *as practicable for a concrete roof as for a wooden roof.*" (F. J. Hoxie, American Architect, 1-29-19).

Non-pressure treatments are most suitable to the conditions encountered in new construction, or repairs to roofs. Every mill should be equipped with a simple open tank creosoting plant, and all timbers and boards which will be placed in a situation favorable to development of decay, should be creosoted.

Barrett **B**

Carbosota
Grade-One Liquid
Creosote Oil

Carbosota Creosote Oil is a pure, high-grade coal-tar creosote oil, especially refined for use in non-pressure processes. It conforms to the recognized standards, as represented by Specification No. 128, issued by the United States Shipping Board Emergency Fleet Corporation.

The services of our experts may be obtained gratis, when required.

(Green wood cannot be effectively creosoted by non-pressure processes. It should be air-dry. In regions of moist, warm climate, wood of some species may start to decay before it can be air-dried. Exception should be made in such cases, and treatment modified accordingly.)
